**Subject**  PROCLAMATION SMALL BUSINESS SATURDAY

**Background:**
The City of Palm Coast is a ‘Be Local Buy Local’ kind of community! To support local retailers and restaurants as the holiday shopping season kicks off, the City is participating in the national celebration of Small Business Saturday on Nov. 24.

Shopping local makes business thrive, jobs are created and it boosts our local economy. It also has the added benefit of generating money for amenities and projects for the community, because a portion of the sales tax collected returns back to Palm Coast to fund projects such as the new Palm Coast Community Center and Holland Park renovations, road repaving and street lights.

**Recommended Action:**
Proclaim Saturday, November 24, 2018 as Small Business Saturday.
WHEREAS, Small Business Saturday is a day dedicated to supporting small businesses in communities across the country, including ours! Small Business Saturday was founded by American Express in 2010 and is celebrated each year on the Saturday after Thanksgiving; and

WHEREAS, according to the U.S. Small Business Administration, there are currently 30.2 million small businesses in the United States; they represent 99.7 percent of all businesses with employees in the United States and are responsible for 65.9 percent of net new jobs created from 2000 to 2017; and

WHEREAS, 90 percent of consumers report that Small Business Saturday has had a positive impact on their community, and most of those who are aware of Small Business Saturday said the day encourages them to shop small all year long; and

WHEREAS, 73 percent of consumers who reported shopping small at independently owned retailers and restaurants on Small Business Saturday did so with friends or family; and

WHEREAS, the City of Palm Coast, Florida, is a “Be Local Buy Local” kind of community, where we celebrate small businesses and the contributions they make to our local economy and community; and

WHEREAS, when our Palm Coast community shops locally, businesses thrive, jobs are created and a portion of the sales taxes generated is returned to us for amenities and projects we cherish such as the Palm Coast Community Center and Holland Park renovations, road repaving and street lights; and

WHEREAS, if every resident of Palm Coast spends $25 at a local business on Small Business Saturday on November 24th, it would infuse $1.462 million into our local economy!

Now, Therefore, Be It Proclaimed THAT THE PALM COAST MAYOR AND CITY COUNCIL DO HEREBY DECLARE NOVEMBER 24, 2018 AS

“Small Business Saturday”

And urge all Palm Coast residents to support the small businesses you love with the people you love on Small Business Saturday on November 24th and throughout the year.

Signed this 20th day of November 2018.

This item was heard by City Council at their October 30, 2018 Workshop. There were no changes suggested to this item.

**UPDATED BACKGROUND FROM THE OCTOBER 30, 2018 WORKSHOP**

This item was heard by City Council at their October 30, 2018 Workshop. There were no changes suggested to this item.

**ORIGINAL BACKGROUND FROM THE OCTOBER 30, 2018 WORKSHOP**

Oare Associates, LLC, (“Property Owner”) is the owner of an approximately 81 acre parcel generally located .25 miles south of State Road 100 and .50 miles west of Belle Terre Blvd. with Real Estate ID# 12-12-30-0650-000C0-0070. The Property Owner has filed a petition for a contraction or “deannexation” of an approximately 75 acre area of the parcel from the City of Palm Coast. As part of this action, the Property Owner proposes to keep the balance of the parcel, approximately 6 acres, within the City’s municipal boundaries to serve as an open space buffer area. The property owner further agrees to cooperate in good faith with the City to change the zoning on the 6 acre parcel to preserve and recognize its use as an open space buffer.

### Analysis:

This section will serve as an analysis on the feasibility of contracting the subject property from the municipal boundaries of the City of Palm Coast consistent with Chapter 171.052, F.S. *Criteria for contraction of municipal boundaries*. Chapter 171.052, F.S. states that (1) “Only those areas which do not meet the criteria for annexation in s. 171.043 may be proposed for exclusion by municipal governing bodies...” and that such contraction “... would result in a portion of the municipality becoming noncontiguous with the rest of the municipality, then such exclusion shall not be allowed”.

Under Chapter 171.043, F.S., areas may be annexed only if lands are: (1) contiguous to the municipality’s boundaries, and (2) developed for urban purposes, or (3) between the municipal area and land developed for urban purposes or is adjacent on at least 60% of its external boundary to the municipal boundary or areas developed for urban purposes. The following is an analysis based on Florida Statutes Chapter 171.043.

*Chapter 171.043(1) The total area to be annexed must be contiguous to the municipality’s boundaries at the time the annexation proceeding is begun and reasonably compact, and no part of the area shall be included within the boundary of another incorporated municipality.*
Finding: The subject parcel is contiguous to the City of Palm Coast boundaries and is not within the boundary of another incorporated municipality.

Chapter 171.043(2) Part or all of the area to be annexed must be developed for urban purposes. An area developed for urban purposes is defined as any area which meets any one of the following standards:
   (a) It has a total resident population equal to at least two persons for each acre of land included within its boundaries;
   (b) It has a total resident population equal to at least one person for each acre of land included within its boundaries and is subdivided into lots and tracts so that at least 60 percent of the total number of lots and tracts are 1 acre or less in size; or
   (c) It is so developed that at least 60 percent of the total number of lots and tracts in the area at the time of annexation are used for urban purposes, and it is subdivided into lots and tracts so that at least 60 percent of the total acreage, not counting the acreage used at the time of annexation for nonresidential urban purposes, consists of lots and tracts 5 acres or less in size.

Finding: The subject parcel fails to meet the criteria established in 171.043(2) for defining urban purposes since the parcel is: 1) currently unpopulated, 2) currently undeveloped, and 3) composed of a single parcel of approximately 75 acres.

Chapter 171.043 (3) In addition to the area developed for urban purposes, a municipal governing body may include in the area to be annexed any area which does not meet the requirements of subsection (2) if such area either:
   (a) Lies between the municipal boundary and an area developed for urban purposes, so that the area developed for urban purposes is either not adjacent to the municipal boundary or cannot be served by the municipality without extending services or water or sewer lines through such sparsely developed area; or
   (b) Is adjacent, on at least 60 percent of its external boundary, to any combination of the municipal boundary and the boundary of an area or areas developed for urban purposes as defined in subsection (2).

Finding: First, the property does not lie between the City and an area to be served by the City water or sewer service and additionally, the subject property is not adjacent on at least 60% of its external boundary to the municipal boundary and an area developed for urban purposes as defined in subsection (2).

Finally, consistent with Chapter 171.052, the contraction of the subject property will not result in a portion of the City to become noncontiguous with the rest of the City.

Conclusion:
The subject property meets the requirement for annexation per Chapter 171.043(1), but fails to meet the criteria for annexation established in Chapter 171.043 (2) and (3). Therefore, the subject parcel may be proposed for contraction. Furthermore, this property would not be served by any typical City services, such as water, wastewater, or stormwater.

**Subject**
RESOLUTION 2018-XX APPROVING THE AIRPORT COMMONS DEVELOPMENT PRE-ANNEXATION AND JOINT PLANNING AGREEMENT

**Background:**

**UPDATE FROM THE NOVEMBER 13, 2018 WORKSHOP**
This item was heard by City Council at their November 13, 2018 Workshop. There were no changes suggested to this item.

**ORIGINAL BACKGROUND FROM THE NOVEMBER 13, 2018 WORKSHOP**
The Pre-Annexation, Economic Development and Joint Planning Agreement (Agreement) proposed between the City, Flagler County (County) and Airport Commons concerns the property located on the corner of Aviation Drive and S.R. 100 (Property). The Property is currently in Flagler County, however, is adjacent to the City’s jurisdictional boundary. Airport Commons is requesting that the City provide water service to the Property and is agreeing to annex the Property into the City once a certificate of occupancy is issued or, if developed in phases, development of the first phase of the project is complete. The proposed project is intended to be a shopping center.

This Agreement is a subsequent agreement to the Settlement Agreement between the City, County and other parties concerning the provision of utility service in Flagler County. Section 5.1 of the Settlement Agreement allows the parties to enter into subsequent agreements to the Settlement Agreement “in order to provide efficient and cost effective utility service to the public”.

The following summarizes the most notable terms of the Agreement:

- It includes a conceptual site plan of the Project that has been reviewed by City and County staff.

- It sets out the terms and timing of the proposed voluntary annexation. The Property will be considered for annexation by the City Council at the time Airport Commons requests water service and if approved, the annexation will become effective after the certificate of occupancy is issued by the County for development on the Property.

- It allows for the County to continue permitting development on the Property, with the City’s review and comment, pursuant to the Interlocal Agreement Between the City and County Relating to the Development of Unincorporated and Incorporated Lands in and Around the County Airport.

- It requires Airport Commons to connect to the City’s water service and enter into the
City's Utility Agreement prior to annexation.

- It states that the City will provide solid waste collection to the Property concurrent with annexation.
- It provides that when City sewer service become available immediately adjacent to the Property, Airport Commons will connect and sets out a process for the transfer of sewer capacity between the City and the County.
- It gives Airport Commons the ability to connect to the City's reclaimed water facilities.
- It requires Airport Commons to adhere to an architectural and landscape concept, generally, consistent with the City.
- After annexation, it requires that the City initiate and process applications for a comprehensive plan amendment, rezoning and variance within 36 months.
- It requires the payment of transportation impact fees to the City or, in the alternative, construction of transportation improvements to the Aviation Drive and S.R. 100.

**Recommended Action:**

The County will provide sewer services to the Property through the Flagler Executive Airport’s (“Airport”) onsite wastewater collection system (as a customer of the City’s wastewater system), utilizing the existing sewer infrastructure located on the Airport property, and subject to standard City utility requirements related to Airport Commons’ contributions-in-aid-of-construction, payment of connection fees, granting of appropriate easements, and dedication of other facilities as necessary or appropriate. Airport Commons will execute the necessary standard County Agreements, if any, at the appropriate time and connect to the sewer system as it is available. Airport Commons acknowledges that if the City's sewer services are expanded so that they are available and immediately adjacent to the Project's existing utility connections and allow a connection to the City's sewer services without the need for additional sewer infrastructure improvements, including, without limitation, a lift station, and without interruption of service or disruptions of the businesses and other activities on the Property, then Airport Commons shall
connect to the City's sewer services. Future connection to the City’s sewer service shall be accomplished by Airport Commons within 120 days of sewer service being made available to the Property as provided for above. There will be no additional connection charge or other costs to Airport Commons to connect to the City’s sewer service in the future if and when that connection is made.

f. Prior to a building permit being issued by the County for each structure, Airport Commons shall remit to the County the applicable wastewater sewer capacity charges that the project would have paid had the project been initially connected to City’s Wastewater system. The County will then remit the wastewater sewer charges payment to the City and the City shall in turn credit the County the equivalent number of gallons of wastewater capacity that the wastewater sewer charges would have purchased in the City and record such a wastewater capacity credit to the County in the Official Records of Flagler County, Florida, a copy of which shall be provided to the County. The recorded document shall contain the amounts paid and the wastewater gallon capacity allocation. In the event that a use on the Property requires more wastewater than allocated to the County as provided above, the City and Airport Commons shall provide written notice of the need for additional capacity and Airport Commons shall remit to the County the applicable wastewater sewer charges required for the additional capacity. The County will then remit the additional wastewater sewer charges payment to the City and the City shall record an additional wastewater capacity credit to provide for the additional allocation of capacity in the Official Records of Flagler County, Florida, a copy of which shall be provided to the County. No building permit shall be issued for the use requiring the additional capacity until such time as Airport Commons pays the additional wastewater sewer charges as provided for above. Such capacity allocation shall remain with the County indefinitely until Airport Commons, connects directly to the City wastewater system. At that time of the connection, the County’s wastewater allocation with the City shall be reduced by the amount that is the current gallonage allocation for the City water capacity for the Property. Such allocations shall transition to correspond to the appropriate billing cycle to avoid any disparities between the City and County usage agreements. Upon transfer, the City will record a wastewater capacity reduction in the Official Records of Flagler County, Florida for the amount of capacity deducted from the County’s allocation. Copies of all wastewater capacity credits and reductions shall be copied to the County and shall be numerically equal.

g. The City shall provide reclaimed water service to the Property upon request. Airport Commons shall be responsible for the installation of all connections, extensions, improvements and facilities required to connect the Property to the City’s existing reclaimed water facilities. Airport Commons shall bear the cost and expense of connecting to the City’s reclaimed water facilities.
4. **Land Use and Development Approvals.**
   
a. The City has reviewed the Project and provided comments to the County and Airport Commons pursuant to the JPA. The conditions of any County development approval(s) set forth on the County FLUM, Official Zoning Map, development orders and development permits for the Project, relating to the Property, will continue to be in full force and effect upon and after annexation of the Property into the City and the development rights and entitlements relating to such approvals will carry forward as approvals for the Property until the City amends the comprehensive plan designation and zoning of the Property as per Section 4(c).

b. The entire Project and all buildings constructed on the Property will incorporate architectural themes consistent with the architectural elevations attached hereto as Exhibit “D”.

c. The parties acknowledge that the City cannot contract to approve specific comprehensive plan or zoning amendments. The City’s only obligation with respect to comprehensive plan, zoning amendments, and variance approvals is to initiate and timely process the applications, consistent with the uses and improvements approved by the County pursuant to the provisions of the JPA, consider all evidence presented in support of and in opposition to the amendments and approvals and make decisions to approve or deny the amendments and approvals based upon the legal standards that govern actions by local governments when considering comprehensive plan, zoning amendments and variance approvals. In partial consideration for Airport Commons entering into this Agreement, the City will initiate and process applications for a comprehensive plan amendment, rezoning and variances within a time frame of thirty six (36) months of the date of adoption of the Annexation Ordinance consistent with Airport Commons proposed use for the Property at no cost to Airport Commons; provided, however, Airport Commons will cooperate with the City by timely providing the City with all necessary and desirable data and analysis in connection with the comprehensive plan amendments, rezoning, and variance approvals.

d. Airport Commons shall, during the development approval process with the County pursuant to the JPA, comply with all necessary local, state and federal permits, as applicable, and acquire all necessary development orders, permits, licenses, easements and other approvals or rights in connection with the development of the Project in accordance with the County’s applicable land use, zoning, land development, building and construction regulations, and the JPA; provided, however, neither the County nor the City will incur costs relative to such matters and Airport Commons will bear any and all costs.

5. **Transportation Impact Fees.** The City has determined that the transportation impact fee that would be due for the Project if the Property was in the municipal boundaries of the City is $111,326 based on the Shopping Center classification for the calculation of transportation impact fees. This calculation is based on the current development plan of 26,096 square feet of shopping center commercial development. If, prior to the application
for a building permit, Airport Commons proposes changes to the Project that are approved by the County, after review and comment by the City pursuant to the JPA, and those changes result in an increase or decrease of the intensity and uses on the shopping center commercial development then the amount due for the transportation impact fee shall be modified based on the changes in intensity and use and such modification shall be confirmed by a written notice from the City’s City Manager to the County and Airport Commons. Except as providing for herein, Airport Commons shall pay to the City the above transportation impact fee within thirty (30) days of the Annexation Effective Date. In lieu of the payment of transportation impact fees that would be due, Airport Commons may construct, cause to be constructed, or guarantee the construction (to include construction by Flagler County) a west bound deceleration lane on SR 100 into the site and a northbound, right-hand turn lane from Aviation Drive onto SR 100. The final configuration and layout of the County roadway shall be determined by the County and shall be permitted through the County and the Florida Department of Transportation FDOT with the City’s review and comment on such improvements. The improvements shall generally be in accordance with the conceptual layouts depicted in Exhibit “E” (the “Transportation Improvements”). The Transportation Improvements are considered capacity improvements to Aviation Drive and S.R. 100. The estimated construction costs for the Transportation Improvements are anticipated to be in excess of the transportation impact fee due for the project. If Airport Commons chooses to construct, cause or guarantee the Transportation Improvements to be constructed (to include construction by Flagler County), the City agrees to provide a credit up to the full amount of the transportation impact fees that would be due for the Project if constructed in the City. No other transportation impact fees would be due once annexed into the City, unless the transportation impact fees due for the Project exceed the final costs of the Transportation Improvements constructed. Such Transportation Improvement costs shall include all design, construction, and post construction costs, an accounting of which shall be made to the City upon completions of the Transportation Improvements by Airport Commons.

6. Further Assurances. In addition to the acts recited in or set forth in this Agreement, the City, the County, and Airport Commons, will perform or cause to be performed, in a timely manner, any and all further acts as may be reasonably necessary to implement the provisions of this Agreement including, but not limited to, the execution and or recordation of further instruments; provided, however, that the City’s and the County’s obligations will be subject to such limitations as required by applicable law.

7. Limitation of Remedies. The parties will not pursue an award of monetary damages for a breach of or non-performance of this Agreement, except to the extent any action by the City or the County interferes with Airport Commons’ vested rights in the Project as provided for herein or as established and acquired upon issuance of a building permit by the County and the commencement of construction of the Project pursuant to the JPA. The only remedies available against the non-performing party will be either to withhold further performance under this Agreement until the non-performing party cures the non-
performance or seek a court order from the Circuit Court of the Seventh Judicial Circuit in and for Flagler County, Florida requiring the non-performing party to fulfill its obligations under this Agreement. The Parties hereby waive any requirement for a bond that may be applicable in the event of any such legal action. Neither the City nor the County will be deemed to have waived sovereign immunity in any manner or respect except as provided in Section 70.001 and 768.28, Florida Statutes. Notwithstanding the forgoing, the City and County retain their right to enforce their respective codes through the applicable enforcement process.

8. **Disclaimer of Third Party Beneficiaries.** This Agreement is solely for the benefit of the Parties, and no right or cause of action will accrue by reason hereof to or for the benefit of any third party not a formal party hereto. Nothing in this Agreement, expressed or implied, is intended or will be construed to confer upon or give any person or entity any right, remedy, or claim under or by reason of this Agreement or any provisions or conditions hereof, other than the parties hereto and their respective representatives, successors and assigns.

9. **Effectiveness of Agreement.** This Agreement will become effective upon it being duly executed by all parties hereto. If, for any reason, Airport Commons does not close on the contract and complete the purchase of the Property by December 31, 2019, or prior to this date provides written notice to the other parties that the contract has been terminated, then this Agreement shall automatically terminate and the County will be entitled to record, at the County’s expense, a Notice of Termination of this Agreement in the Public Records of Flagler County, Florida. Further, if, for any reason, the City does not annex the Property by December 31, 2021, then the City may terminate this Agreement by notice to the other parties in which event this Agreement will terminate and be no further force or effect, and Airport Commons will be entitled to record, at the City’s expense, a Notice of Termination of this Agreement in the Public Records of Flagler County, Florida. However, no termination of this Agreement pursuant to this paragraph shall relieve the City from providing water services to the Project, which is within the City’s service area pursuant to the Settlement Agreement.

10. **Time of the Essence.** Time is of the essence of the lawful performance of the duties and obligations contained in this Agreement. The parties covenant and agree that they will diligently and expeditiously pursue their respective obligations set forth in this Agreement.

11. **Successors and Assigns.** This Agreement will be binding upon and inure to the benefit of the Parties, and their respective successors in interest.

12. **Applicable Law.** This Agreement will be construed, controlled and interpreted according to the laws of the State of Florida. Further, to the extent permissible under the laws of the State of Florida, if there is a conflict between this Agreement and the terms of the City’s land development regulations, the terms of this Agreement will control.
13. Binding Effect. Each party hereto represents to the other that it has undertaken all necessary actions to execute this Agreement, and that it has the legal authority to enter into this Agreement and to undertake all obligations imposed on it.

14. Recording. The City will, within five (5) business days following full execution of this Agreement, at the City’s sole cost and expense, record a fully executed counterpart of this Agreement in the Public Records of Flagler County, Florida.

15. Choice of Law and Venue. Florida law will govern the interpretation and enforcement of this Agreement. In any action or proceeding required to enforce or interpret the terms of this Agreement, venue will be in the Seventh Judicial Circuit in and for Flagler County, Florida.

16. Effect of Change in Law. If state or federal laws are enacted after execution of this Agreement which are applicable to and preclude the party’s compliance with the terms of this Agreement, this Agreement will be modified or revoked as is necessary to comply with the relevant state or federal laws and the intent of the parties hereto.

17. Construction or Interpretation of the Agreement. This Agreement is the result of bona fide arms-length negotiations between the City, the County, and Airport Commons. All parties have contributed substantially and materially to the preparation of the Agreement. Accordingly, this Agreement will not be construed or interpreted more strictly against any one party than against any other party.

18. Attorneys’ Fees and Costs. In the event of any action to enforce the terms of this Agreement, the prevailing party will be entitled to recover reasonable attorneys’ fees, paralegals’ fees, and costs incurred, whether the same be incurred in pre-litigation negotiation, litigation at the trial level, or upon appeal.

   a. The headings or captions of the sections and subsections contained in this Agreement are used for convenience and reference only, and do not, in themselves, have any legal significance and will not be afforded any.
   b. The exhibits to this Agreement are hereby incorporated into this Agreement and are an integral part of this Agreement.

20. Parties Bound. Following the recordation of this Agreement, the benefits and burdens of this Agreement will become a covenant running with the title to the Property, and all parts and parcels thereof, and this Agreement will be binding upon and inure to the benefit of the City, the County, and Airport Commons and their assigns and successors in interest to the Property, and all parts and parcels thereof.
21. **Severability.** If any provision of this Agreement, the deletion of which would not adversely affect the receipt of any material benefits by any party to the Agreement or substantially increase the burden of any party to the Agreement, is held to be unconstitutional, invalid or unenforceable to any extent by a court of competent jurisdiction, such portion will be deemed a separate, distinct and independent provision and the same will not affect in any respect whatsoever the validity or enforceability of the remainder of this Agreement.

22. **Notices.** Any notice that is to be delivered hereunder will be in writing and will be deemed to be delivered (whether or not actually received) when (i) hand delivered to the official hereinafter designated, or (ii) upon receipt of such notice when deposited in the United States mail, postage prepaid, certified mail, return receipt requested, addressed to the parties as follows (facsimile transmittal is not acceptable as a form of notice in this Agreement):

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF PALM COAST, FLORIDA, TO ANNEX PROPERTY TO BE INCLUDED WITHIN THE CORPORATE AREA AND CITY LIMITS OF THE CITY OF PALM COAST, UPON ADOPTION OF THIS ORDINANCE; PROVIDING FOR THE ANNEXATION OF APPROXIMATELY _____ ACRES OF PROPERTY DESCRIBED IN EXHIBIT “A” TO THIS ORDINANCE AND LYING IN THE AREAS PROXIMATE TO THE EXISTING CITY LIMITS OF THE CITY OF PALM COAST, FLAGLER COUNTY, FLORIDA; PROVIDING FOR ANNEXATION IN ACCORDANCE WITH THE VOLUNTARY ANNEXATION PROVISIONS OF SECTION 171.044, FLORIDA STATUTES; PROVIDING FOR ANNEXATION OF REAL PROPERTY/AMENDMENT OF CORPORATE/CITY LIMITS; PROVIDING FOR RIGHTS AND PRIVILEGES RESULTING FROM ANNEXATION/EFFECT OF ANNEXATION UPON LAND USES; PROVIDING FOR EFFECT ON AD VALOREM TAXES; PROVIDING FOR EFFECT ON BUSINESSES AND OCCUPATIONS; PROVIDING FOR SEVERABILITY; PROVIDING FOR CONFLICTS; AND PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, a Petition for Annexation has been filed with the City Clerk of the City of Palm Coast, Florida, which petition contains the name of the property owner of the area described in Exhibit “A”, and requests annexation into the incorporated area and City Limits of the City of Palm Coast, Florida; and

WHEREAS, the City’s staff has certified that the property owner has signed the petition for Annexation; and

WHEREAS, the City Council hereby finds that the property described hereinafter is reasonably compact and contiguous to the corporate areas of the City of Palm Coast, Florida, and it is further determined that the annexation of said property will not result in the creation of any enclaves, and it is further determined that the property otherwise fully complies with the requirements of State law; and

WHEREAS, the City of Palm Coast, Florida, is in a position to provide municipal services to the property described herein, and the City Council of the City of Palm Coast, Florida, deems it in the best interest of the City to accept said Petition for Annexation and to annex said property; and

WHEREAS, pursuant to, and in compliance with the law, notice has been given by publication once a week for two consecutive weeks in a newspaper of general circulation notifying the public of this proposed Ordinance and of public hearings to be held at City Hall in the City of Palm Coast; and
WHEREAS, the provisions of this ordinance and the actions taken herein are consistent with the City’s Comprehensive Plan and State law; and

WHEREAS, public hearings were held pursuant to the requirements of State law and in conformity with the published notice described above at which hearings the parties in interest and all others had an opportunity to be, and were in fact, heard; and

WHEREAS, it is the City’s best interest to annex property which provides economic and other benefits to the City wherever possible.

NOW, THEREFORE, IT IS HEREBY ORDAINED BY THE CITY OF PALM COAST, FLORIDA:

SECTION 1. LEGISLATIVE AND ADMINISTRATIVE FINDINGS.

(a) The property that is the subject of this Ordinance and the Petition for Annexation is described in Section 2 of this Ordinance.

(b) The above recitals (whereas clauses) are hereby adopted as the legislative and administrative findings of the City Council of the City of Palm Coast. The City Council of the City of Palm Coast finds and determines that there is competent substantial evidence to support the findings and determinations made in this Section.

(c) The City Council of the City of Palm Coast adopts as legislative and administrative findings the fact that the land area described in Section 2 of this Ordinance (hereinafter referred to as the “Area”) is reasonably compact and contiguous to the present Corporate Limits of the City of Palm Coast, and that no part of the Area is within the boundary of another municipality or the County in any manner or configuration that would contravene the provisions of Florida law or be contrary to sound and generally accepted land use planning practices and principles. The City Council of the City of Palm Coast finds that the annexation of the Area does not create an enclave and that the Area otherwise fully meets the criteria established in Chapter 171, Florida Statutes.

(d) The City Council of the City of Palm Coast has applied the laws of the State of Florida, Chapter 171, Florida Statutes, as well as the case law analyzing, construing and applying said statutory provisions, and the legislative intent pertaining to said statutory provisions as set forth in legislative staff reports.

(e) The City Council of the City of Palm Coast finds and determines that there is competent substantial evidence to support the findings and determinations made in this Section and that no other action of the City is required to fully implement an annexation of the Area as set forth herein.

SECTION 2. ANNEXATION OF PROPERTY/AMENDMENT OF CORPORATE/CITY LIMITS. The lands described in Exhibits “A” and shown on the map in Exhibit “B”, attached hereto, (“Area”) be and they are hereby annexed to and included within the corporate limits of the City of Palm Coast, Florida.
SECTION 3. RIGHTS AND PRIVILEGES RESULTING FROM ANNEXATION/EFFECT OF ANNEXATION UPON LAND USES.

   (a) Upon this Ordinance becoming effective, the property owner shall be entitled to all the rights and privileges and immunities as are from time to time granted to property owners of the City of Palm Coast, Florida, as further provided in Chapter 171, Florida Statutes, and shall further be subject to the responsibilities of ownership as may from time to time be determined by the City Council of the City of Palm Coast, Florida, and the provisions of Chapter 171, Florida Statutes.

   (b) Upon annexation, the Area shall retain the zoning classification established by the Land Development Code of Flagler County, the land development approvals granted by Flagler County, and a land use designation as assigned by the Flagler County Comprehensive Plan in accordance with the provisions of Section 171.062, Florida Statutes, until otherwise changed or amended by an appropriate ordinance or by a number of ordinances as may be enacted by the City Council of the City of Palm Coast, Florida.

SECTION 4. EFFECT ON AD VALOREM TAXES. All property lying within the boundaries of the Corporate/City Limits of the City of Palm Coast, Florida, as hereby revised, shall hereafter be assessed for payment of municipal ad valorem taxes pursuant to law.

SECTION 5. EFFECT ON BUSINESSES AND OCCUPATIONS. Subject: RESOLUTION 2018-XX APPROVING THE FINAL 2018 CITY GENERAL ELECTION RESULTS

Background:
The Charter of the City of Palm Coast, Section 8. Elections, Paragraph (7) City Canvassing Board, provides that the Canvassing Board shall report election results to a meeting of the City Council. City Council shall give final certification of the results and order their filing with the City Clerk as required by law. However, in the 2011 City election the voters approved a referendum changing the election from odd to even years. Then in 2014, City Council adopted Ordinance 2014-5 amending Chapter 2, Article II by adding “election procedures.” Section 2-37 (e) Canvass of Returns states the Flagler County Canvassing Board shall canvass the returns of all City elections held in conjunction with County elections, in accordance with the provisions of State law.

The County Canvassing Board Certificate will be provided to City Council upon receipt regarding the results of the 2018 Elections. Staff anticipates the certification to be provided on Monday, November 19, 2018.

RESOLUTION 2018-XX APPROVING A WORK ORDER WITH DRMP, INC., TO PROVIDE PROFESSIONAL ENGINEERING SERVICES FOR THE REPLACEMENT OF A BELLE TERRE BOULEVARD CULVERT

**Background:**

**UPDATE FROM THE NOVEMBER 13, 2018 WORKSHOP**

This item was heard by City Council at their November 13, 2018 Workshop. There were no changes suggested to this item.

**ORIGINAL BACKGROUND FROM THE NOVEMBER 13, 2018 WORKSHOP**

The City is replacing an aging cross-drain consisting of four (4) 48-inch corrugated metal culverts (CMP’s) under Belle Terre Boulevard just east of the driveway for Magnolia Trace Boulevard. The following paragraphs describe in more detail the scope of services that are anticipated to be performed by DRMP. Additionally, geotechnical investigation by Universal Engineering Sciences is proposed to confirm subsurface conditions in vicinity of the proposed endwalls, and to determine existing pavement and base conditions for roadway reconstruction.

Under the existing continuing services contract, staff negotiated a scope and fee not-to-exceed $36,969.10, with DRMP, Inc. Staff determined with DRMP’s recent stormwater modeling efforts and familiarity with the system, DRMP is better positioned to provide the design services more quickly and economically. Also, the cost for the design services are reasonable and fair and are consistent with these types of services for a project of this size and scope. Funds for this project have been budgeted for out of FY 2019 control structure replacement account.

PROFESSIONAL ENGINEERING SERVICES FOR
CITY OF PALM COAST
BELLE TERRE BOULEVARD CULVERT REPLACEMENT
GENERAL DESCRIPTION OF SERVICES (EXHIBIT A)

This Work Order shall be incorporated in and become part of the Contract for Professional Stormwater and Environmental Engineering Services between City of Palm Coast (CITY) and DRMP, Inc. (DRMP), RFQ-SW-14-02 dated January 14, 2014 hereafter referred to as the Contract.

A. PROJECT BACKGROUND

The City is replacing an aging cross-drain consisting of four (4) 48-inch corrugated metal culverts (CMP’s) under Belle Terre Boulevard just east of the driveway for Magnolia Trace Boulevard.

The following paragraphs describe in more detail the scope of services that are anticipated to be performed by DRMP. Additionally, geotechnical investigation by Universal Engineering Sciences is proposed to confirm subsurface conditions in vicinity of the proposed endwalls, and to determine existing pavement and base conditions for roadway reconstruction. A separate proposal from Universal is included in this proposal as Exhibit D.

B. SCOPE OF WORK

1.0 Field Review

A field review will be conducted of the existing culverts to be replaced, adjacent pedestrian bridge, and the contributing area to the culverts.

2.0 Cross-Drain Analysis and Technical Memorandum

DRMP will delineate the contributing basin to the culvert crossing to be replaced based on 2017 LiDAR terrain. Land use coverage, soils coverage, and times of concentration will be developed as appropriate to analyze the contributing basin using the CN, rational, or regression method (whichever is most appropriate). Flows for various storms will be determined including the 5-year, 25-year, 50-year, 100-year, and 500-year.

The proposed concrete pipes will be analyzed and compared to the hydraulic performance of the existing CMP’s. The intent of the analysis is to confirm the proposed cross-drain will perform the intended drainage function. Note that tailwater conditions will be based on the best information available and may be estimated based on engineering judgement.

DRMP will provide a technical memorandum that documents the analysis and results with color exhibits as needed to depict the basin contributing areas and other project specifics.
3.0 **Subsurface Utilities Engineering (SUE)**

Please refer to separate proposal included as **Exhibit C**.

4.0 **Utility Coordination**

DRMP will compile the listing of contact information for utility companies with facilities in the area. DRMP will provide the utility contacts with construction plans for review. DRMP will coordinate with the utility companies for confirmation of the locations and types of facilities present. DRMP will coordinate with the utility contacts to work out plans as necessary to relocate or maintain the utilities in order to construct the proposed drainage facilities. Actual construction plans for the utility relocations are not included in this work.

5.0 **Construction Plans**

DRMP will perform final design of the project based on the topographic survey provided by the City, field geotechnical investigation, cross-drain analysis, and conditions known to exist from data collection. The construction plan set will consist of the following components with the estimated number of plan sheets in parentheses:

- Cover Sheet (1)
- Summary of Quantities/Project Directory (1)
- General Notes (1)
- Project Layout/Survey Data (1)
- Plan Sheet (1” = 40’ scale) (1) (with erosion control information)
- Profile Sheet (1)
- Miscellaneous Details (1)

**Total of 7 sheets**

It is anticipated that maintenance of traffic (MOT) will be handled by road closure in general notes and references to FDOT standards. An MOT plan should be provided by the Contractor. Erosion control items for construction and utility relocations (if any by others) will be shown on the plan sheets. Existing guardrail will be replaced as necessary to allow for removal and installation of pipes and endwalls. Details will be provided for connecting existing to proposed guardrail. Special notes may be included to direct the contractor about precautions for working in close proximity to the existing pedestrian bridge and abutments.

Under this task, DRMP will compile a full construction plan set (11” x 17” size) for utilization in the bidding process to procure a contractor. Construction plans will be submitted and reviewed by City personnel at the 90% and final levels of completion. DRMP will also provide estimates of construction cost with the plans submittals. DRMP will meet with City staff to discuss review comments and incorporate modifications into drawings at 90% completion.
DRMP will provide preliminary sets of the construction plans at 90% and final levels of completion to all known utilities providers for the area. DRMP will coordinate with utility owners and incorporate additional information into the project design to accommodate protection or relocation of utilities by others.

6.0 Permit Coordination

It is anticipated this project will qualify for an exemption from SJRWMD under rule 62-330.051, Section (9) or (15). This task involves the time to confirm and document a permit exemption with SJRWMD. Note that no permit or exemption fees are included in this proposal. It is also anticipated that no federal permitting with ACOE or other agencies is necessary.

Please note that based on the preliminary project limits, disturbed project area should remain under the one (1) acre threshold for needing an NPDES Construction General Permit for stormwater during construction.

7.0 Project Management and QA/QC

DRMP will attend a kick-off, progress meetings as desired by the City, and a final meeting through the course of design. Progress meetings are anticipated to occur as needed to discuss progress and resolve issues. DRMP will keep the City informed about the progress of the design with regular email, telephone calls, and monthly written progress reports.

DRMP will perform QA/QC of the design and construction plans and ensure quality deliverables to the City.

C. DELIVERABLES

DRMP will provide to the City the following deliverables:

1. Five (5) sets of Construction Plan Sets at 90% and final completion
2. Two (2) sets of Cross-Drain Analysis Technical Memorandum
3. One (1) copy of the Construction Cost Estimate at each level of completion
4. Mailed or e-mailed copy of all external correspondence related to the project

D. CITY RESPONSIBILITIES

In order to conduct the scope of work outlined above, the City will provide the following:

1. City to provide topographic survey (including utility locates) of the project area.
2. Separate payment of any permitting or exemption fees.
E. SCHEDULE

DRMP is prepared to begin work upon approval of this proposal and receipt of the survey CAD files. Anticipated duration for submittal of project documents at 90% completion is one (1) month from notice to proceed (NTP) and receipt of the complete survey CAD files. The City will provide comments from the 90% review within 10 days. Final project documents will be provided within one (1) month of receipt of the 90% review. The above-outlined schedule is based on securing a SJRWMD permit exemption for the project.

F. COMPENSATION

Compensation for this Scope of Work will be paid on a not-to-exceed basis, in the amount of $36,696.10 as detailed in Exhibit B with estimated manhours for each task and hourly rates of staff. The project will be invoiced to the City on a monthly basis based on manhours spent at the time of billing.

Subject: Subsurface Utility Engineering Services, Belle Terra Culvert Replacement, North of Magnolia Trace Boulevard, Palm Coast, Florida

Mr. Minton:

DRMP, Inc. (DRMP) is pleased to submit the following proposal for Subsurface Utility Engineering Services on the above subject project.

The following is our proposal:

PART I SUBSURFACE UTILITY TEST HOLES (VVHs)

DRMP will provide utility location vacuum test holes (VVH’s) to verify (vertical and horizontal) location of each targeted utility. This proposal assumes we will dig up to 10 VVH’s with possibly 4 being under hard surfaces pavement. The location of these VVH’s will be provided to DRMP, prior to beginning work, via a scalable drawing that shows the proposed position or a list of the holes with coordinate values with project control or both. DRMP will take detailed notes regarding the type, size, depth and ownership of the utilities, if known. This information shall be documented utilizing a subsurface utility form. All efforts will be performed in accordance with the Underground Facility Damage Prevention and Safety Act, Chapter 556, Florida Statutes. All work shall conform to CI/ASCE 38 -02 utilizing quality level A and B.

PART II SURVEYING SERVICES

DRMP will provide surveying services to locate the soft dig holes. We will provide the engineer with a CAD file containing the VVH’s, including the location and elevation of each hole.

PART III COMPENSATION SUMMARY AND TERMS

The following summarizes the fees and billing terms as proposed by DRMP for the Scope of Services as presented herein. Please note billing terms for direct expenses. All additional meetings as requested by the Client will be invoiced hourly.

Attention: Mr. Mr. John L. Minton Jr., P.E.

Professional Geotechnical Stormwater Engineering Services
Palm Coast, Flagler County, Florida
UES Proposal No.: 2018D-947
UES Opportunity No.: 0430.1018.00020

Dear Mr. Minton:

Universal Engineering Sciences, Inc. (UES) is pleased to submit our proposal to conduct a Geotechnical Exploration for the above-referenced property in Palm Coast, Florida. Our understanding of this project, with our proposed scope of services and costs, is presented in the following paragraphs.

PROJECT UNDERSTANDING

We understand that this project will consist of the replacement to four (4) 48-inch diameter culverts under Belle Terre Boulevard in Palm Coast, Florida. We were provided with a copy of the Conceptual Site Plan by you showing the proposed improvements. We also understand that the pipe installation will require a cut up to 7 feet deep for a temporary sheet pile wall and new concrete headwall at the project site.

Universal Engineering Sciences (UES) has been asked to perform a geotechnical exploration to evaluate the subsurface conditions on the subject for the proposed site improvements. Our proposed scope of work does not include an environmental assessment of the property.

This proposal assumes that the test boring locations will be readily accessible using a truck mounted drilling rig.

Our proposal does not include an allowance for horizontal and vertical survey control for the test boring locations. Our field crew will locate the test locations based upon estimated distances and relationships to obvious landmarks. Therefore, the test locations and depths should be considered accurate to the degree of the methodologies used.

Our scope of work has not been designed to evaluate of the deep subsurface soils with respect to the potential for sinkhole activity at the subject site. This requires a more thorough scope of work than proposed including geophysical studies (i.e. ground penetrating radar and electrical resistivity testing) and deep soil borings extending to the limestone bedrock formation. However, we will be glad to furnish you with a proposal for these services upon request.

UES will contact Sunshine State One Call (1-800-432-4770) for public utility clearance prior to the start of drilling activities. It is our experience that this service does not mark the locations of privately owned utilities. Our proposal requires that private utility lines and other subsurface appurtenances be located in the field by others prior to our mobilization. UES shall not be held responsible for service interruptions or damage to private utility lines or other buried structures. Further we have assumed that there is no hazardous materials contamination at the site and no major utility lines crossing the subject site. In the

Exhibit D
event they exist, please inform us so that we may make arrangements for taking adequate precautions and locating the utilities on the site, prior to the drilling operations.

Due to the nature of the equipment required to perform the test borings, some property disturbance should be expected. Our proposal does include limited site clean up including backfilling the boreholes with sand for safety considerations. No other restoration services (i.e. pressure washing, landscaping, repairing wheel ruts, etc.) are included in this proposal. We understand that rights of entry and access to the property will be provided to us prior to and at commencement of field activities.

Should any of the above information or assumptions made by UES be inconsistent with the planned development and construction, we request that you contact us immediately to allow us the opportunity to review the new information in conjunction with our proposal and revise or modify our scope of service and/or fee estimate accordingly, if needed.

GEOTECHNICAL SCOPE OF SERVICES

Based on our understanding of the project, the proposed scope will consist of:

- Due to accessibility constraints, lane closure will be required for drilling operations;
- Performing two (2), 25-feet deep Standard Penetration Test (SPT) borings in the proposed culvert replacement headwall; and
- Performing one (1), pavement core in the proposed roadway open cut restoration.

Standard Penetration Tests (SPT) will be performed continuously in the upper 10-feet of each boring and on 5-foot centers after that to the bottom of the borings. Each recovered soil sample will be visually classified in the field and a geologic log prepared for the soil borings. Groundwater depth and any unusual subsurface conditions will be recorded on the boring logs. Representative portions of the recovered soil samples from the borings will be sealed and packaged for transportation to our laboratory for a more detailed analysis, as required. All soil samples will be classified in general accordance with ASTM D 2487 (Standard Classification of Soils for Engineering Purposes Unified Soil Classification System) guidelines.

We have not made an allowance for surveying services or an environmental assessment of the property. However, we will be glad to furnish you with a proposal for these services upon request. Further we have assumed that there is no hazardous materials contamination at the site, that there are no major utility lines crossing the subject site and no existing septic systems in the vicinity of our borings. In the event they exist, please inform us so that we may make arrangement for taking adequate precautions and locating the utilities on the site, prior to the drilling operations.

Reporting

At the completion of the field and laboratory testing services, our project engineer will prepare a geotechnical report under the direction of a registered professional engineer who specializes in geotechnical engineering consulting. The report shall contain the following information at a minimum:

- Soil boring logs and classifications
- Existing groundwater levels and estimated seasonal high groundwater levels at the boring locations
- Recommendations for retaining wall design consisting of soil parameters.
- Recommendations for culvert installation and site preparation including excavation, and dewatering.
SCHEDULE

Based upon our current backlog at the time of this proposal, we anticipate completing the field exploration and laboratory testing program and issuing a geotechnical report within 3 to 4 weeks upon receipt of written authorization to proceed. Preliminary findings can be provided via email prior to the release of the final report upon completion of the field and laboratory testing program to expedite your civil engineering design schedule.

FEE & TERMS

Universal Engineering Sciences will complete the Geotechnical scope of work outlined within this proposal for a LUMP SUM FEE of $4,710.00. We will not exceed our budget unless the scope of work is varied or the soil or groundwater conditions encountered are significantly different from those anticipated, in which event you will be notified prior to any increase in costs.

Enclosed you will find our General Contract Conditions with a copy of our Work Authorization/Proposal Acceptance Form. If you would like to proceed, please sign and return an executed copy of the enclosed work authorization form to our office. We will initiate the field work upon receipt of the executed work authorization form.

| Subject             | RESOLUTION 2018-XX APPROVING A CONTRACT WITH ESRI TO PURCHASE GIS LICENSING SOFTWARE |

Background:

UPDATE FROM THE NOVEMBER 13, 2018 WORKSHOP
This item was heard by City Council at their November 13, 2018 Workshop. There were no changes suggested to this item.

ORIGINAL BACKGROUND FROM THE NOVEMBER 13, 2018 WORKSHOP
GIS is responsible for mapping the City of Palm Coast utilizing advanced, geographical data software. The software visually represents complex information in the form of shapes and symbols. Embedded in these shapes and symbols is information that can be viewed as maps, as well as extracted in the form of a word document or graphical chart. From the map itself you can view a district, a zone, a parcel, and an individual plat. All of which can be printed in the form of a drawing along with documentation of legal descriptions, restrictions, ownership etc. The City of Palm Coast has maintained a GIS division since 2004.

The City currently utilizes the ESRI software, a sole source provider. ESRI has been the industry standard for GIS for most governments, including the State of Florida since well before 2004. ESRI, as an owner and manufacturer, provides software maintenance (technical support plus ESRI software updates/upgrades) for ESRI products.

This contract is to provide GIS license software on an unlimited basis including maintenance on all software offered through the EA for the term of the agreement. The contract with the vendor is for a period of 3 years, an expected contract value of $150,000 with expected annual costs of $50,000.

Recommended Action:
Adopt Resolution 2018-XX approving a contract with ESRI to purchase GIS licensing software.

Ms. Cathleen Almberg  
City of Palm Coast  
160 Lake Ave Ste 237  
Palm Coast, FL 32164-2417

Dear Cathleen,

The Esri Small Municipal and County Government Enterprise Agreement (EA) is a three-year agreement that will grant your organization access to Esri® term license software on an unlimited basis including maintenance on all software offered through the EA for the term of the agreement. The EA will be effective on the date executed and will require a firm, three-year commitment.

Based on Esri’s work with several organizations similar to yours, we know there is significant potential to apply geographic information system (GIS) technology in many operational and technical areas within your organization. For this reason, we believe that your organization will greatly benefit from an enterprise agreement.

An EA will provide your organization with numerous benefits including:

- A lower cost per unit for licensed software
- Substantially reduced administrative and procurement expenses
- Maintenance on all Esri software deployed under this agreement
- Complete flexibility to deploy software products when and where needed

The following business terms and conditions will apply:

- All current departments, employees, and in-house contractors of the organization will be eligible to use the software and services included in the EA.

- If your organization wishes to acquire and/or maintain any Esri software during the term of the agreement that is not included in the EA, it may do so separately at the Esri pricing that is generally available for your organization for software and maintenance.

- The organization will establish a single point of contact for orders and deliveries and will be responsible for redistribution to eligible users.

- The organization will establish a Tier 1 support center to field calls from internal users of Esri software. The organization may designate individuals as specified in the EA who may directly contact Esri for Tier 2 technical support.
The organization will provide an annual report of installed Esri software to Esri.

Esri software and updates that the organization is licensed to use will be automatically available for downloading.

The fee and benefits offered in this EA proposal are contingent upon your acceptance of Esri’s Small Municipal and County Government EA terms and conditions.

Licenses are valid for the term of the EA.

This program offer is valid for 90 days. To complete the agreement within this time frame, please contact me within the next seven days to work through any questions or concerns you may have. To expedite your acceptance of this EA offer:

1. Sign and return the EA contract with a Purchase Order or issue a Purchase Order that references this EA Quotation and includes the following statement on the face of the Purchase Order: "THIS PURCHASE ORDER IS GOVERNED BY THE TERMS AND CONDITIONS OF THE ESRI SMALL MUNICIPAL AND COUNTY GOVERNMENT EA, AND ADDITIONAL TERMS AND CONDITIONS IN THIS PURCHASE ORDER WILL NOT APPLY." Have it signed by an authorized representative of the organization.

2. On the first page of the EA, identify the central point of contact/agreement administrator. The agreement administrator is the party that will be the contact for management of the software, administration issues, and general operations. Information should include name, title (if applicable), address, phone number, and e-mail address.

3. In the purchase order, identify the "Ship to" and "Bill to" information for your organization.

4. Send the purchase order and agreement to the address, email or fax noted below:

RESOLUTION 2018-XX APPROVING THE CONTINUATION OF STOP-LOSS INSURANCE COVERAGE WITH SUNLIFE, HEALTH PLAN ADMINISTRATION SERVICES WITH BLUE CROSS BLUE SHIELD AND CHANGING ANCILLARY COVERAGE FROM SUNLIFE TO LINCOLN FINANCIAL

UPDATE FROM THE NOVEMBER 13, 2018 WORKSHOP
This item was heard by City Council at their November 13, 2018 Workshop. There were no changes suggested to this item.

ORIGINAL BACKGROUND FROM THE NOVEMBER 13, 2018 WORKSHOP
The City currently offers a well-rounded, self-insured benefits program to all employees. Under self-insured programs, the City pays a per-employee per-month fee for group health plan administration services and then pays for any health-insurance claims incurred. In addition to the fixed fee for plan administration services, there is a fixed monthly per-employee fee for stop-loss insurance. The City is responsible for the first $150,000 of any given claim and stop-loss coverage provides for claims payments that exceed $150,000. The program includes group health insurance, primary clinic service hours, and ancillary coverages (life insurance, long-term disability (LTD) and accidental death and dismemberment (AD&D) insurance).

The City also offers, at a cost borne completely by the employees, voluntary life (including spouse and children), short-term disability and dental. The City also provides employees the opportunity to participate supplemental insurance through AFLAC insurance. AFLAC is a voluntary benefit for which the City only facilitates the payment of premiums through payroll deduction. Based on employee feedback, the Benefits Team requested alternatives to the AFLAC. Each fall, the City receives proposals for the cost of purchasing stop-loss coverage, plan administration services, and ancillary benefits.

Alternatives and Analysis
Stop Loss Coverage
In calendar year 2018, the cost of Stop-Loss insurance through SunLife to cover claims in excess of $150,000 was approximately $372,051.00 based upon current enrollment.

The City received quotes through our broker, Brown & Brown, for Stop-Loss coverage from four providers; our current carrier SunLife and alternates from Voya, Cigna and United Healthcare. SunLife provided for an increase of 8.2% over current or $402,571. The other carriers all provided proposals with increases in excess of 8.2% (Voya – 12%, Cigna – 16% and United Healthcare – 40.2%).

Administrative Fees
For some time, the City has contracted with Blue Cross Blue Shield (BC/BS) to provide plan administrative services. For calendar year 2018, the cost of administering claims was $57.20
per employee per month for an approximate cost of $256,027.20. For calendar year 2019, BC/BS has offered a rate reduction to $55.20 per employee per month for an estimated cost of $247,075.20, a 3.5% rate reduction. They have also provided for a two-year rate guarantee and are making contributions to the City’s wellness program of $30,000 per year for an approximate annual cost of $217,075.20.

Alternate quotes were requested and both Cigna and United Healthcare provided quotes that would have provided a reduction in per-employee per-month costs to the City. Due to the complexities of insurance products, there are a number of unknowns that need to be considered in addition to the basic monthly fee. For example, Cigna’s network in Flagler County is emerging and does not provide the same breadth of coverage that BC/BS does. A change to Cigna may require employees to change their current providers and in the case of significant health issues, continuing care plans may need to be developed as transfers between current physicians and new, in-network providers occur.

United Healthcare also would have provided a decrease in the base administrative fees. However, United Healthcare would mandate a change to their dedicated pharmacy benefit provider which not only would reduce choice for staff but has the potential to increase plan claims expense as the City would be required to pay whatever United Healthcare deems appropriate. BCBS returns 100% of available pharmacy rebates to the City (about $60,000 per year) and the other options would keep those offsets. The recommendation will be made to remain with BCBS for these reasons as well as consumer confidence amongst employees, contribution to the wellness program and consistency of health-related data through the annual health risk assessments.

Ancillary Coverage
The City also requests proposals every year for the ancillary coverages provided to staff. Current coverages are offered through SunLife. SunLife’s proposal kept all costs current with the exception of dental coverage that carried a 6.7% increase to employees at an approximate cost of $15,229.00. The City has experienced some customer service issues with the current provider. Competitive quotes were received from Lincoln Financial and Mutual of Omaha. Both Lincoln Financial and Mutual of Omaha matched the current rates offered by SunLife for all plans paid for by the City. They both also matched the rates of voluntary life and short-term disability that are paid entirely by staff. However, Lincoln Financial has provided a 7.1% rate reduction on the dental coverage with a two-year rate guarantee and $5,000.00 in wellness funds. These savings, $16,154 over current, represents a direct savings to City employees.

Supplemental Insurance
Due to the customer service issues reported by numerous employees, we evaluated voluntary supplemental insurance coverage by both Colonial Life and Allstate. Colonial Life offers products that most closely mirror those offered by AFLAC with a reduced rates. Recommendation is being made to close AFLAC to new participants and provide Colonial Life as an alternative.

Recommended Action:
Adopt Resolution 2018-XX approving the continuation of stop-loss insurance coverage with Sunlife, health plan administration services with Blue Cross Blue Shield and changing ancillary coverage from Sunlife to Lincoln Financial.
