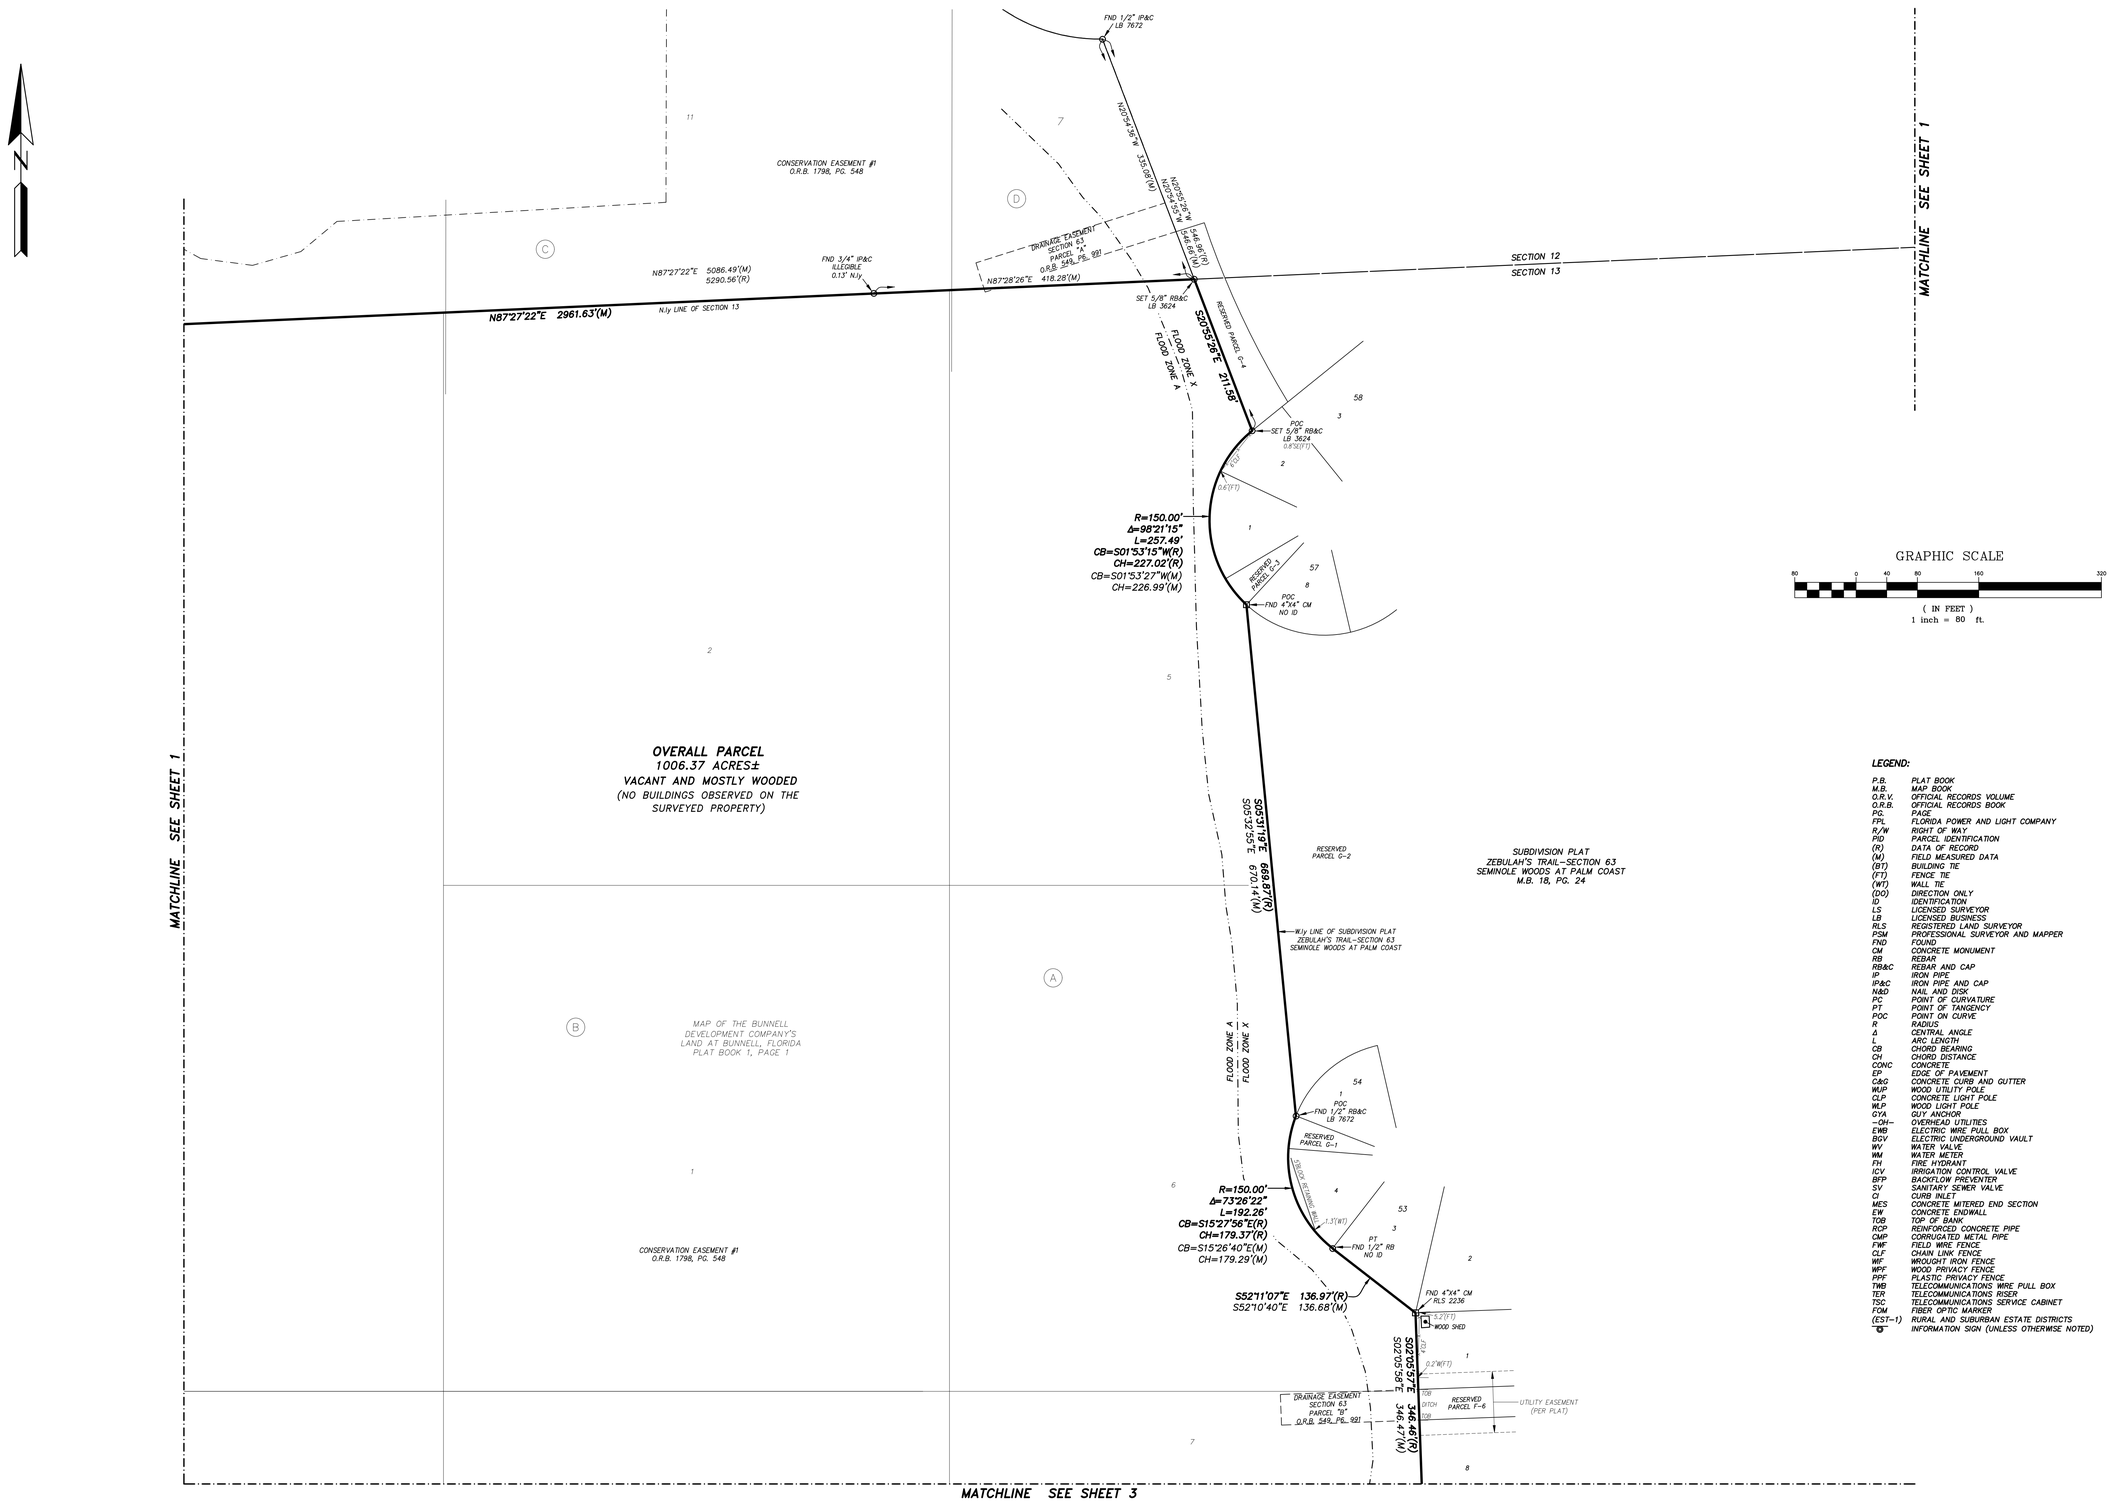
For a Point of Beginning, commence at the Northwest corner of said Section 13; thence North 87°27'22" East, along the Northerly line of said Section 13, a distance of 2961.63 feet to its intersection with the Westerly line of said Subdivision Plat Zebulah's Trail-Section 63 Seminole Woods at Palm Coast; thence along said Westerly line the following 17 courses: Course 1, thence South 20°55'26" East, departing said Northerly line, 211.58 feet to a point on a non-tangent curve concave Easterly having a radius of 150.00 feet; Course 2, thence Southerly along the arc of said curve, through a central angle of 98°21'15", an arc length of 257.49 feet to a point on said curve, said arc being subtended by a chord bearing and distance of South 01°53'15" West, 227.02 feet; Course 3, thence South 05°31'19" East, along a non-tangent line, 669.87 feet to a point on a non-tangent curve concave Easterly having a radius of 150.00 feet; Course 4, thence Southerly along the arc of said curve, through a central angle of 73°26'22", an arc length of 192.26 feet to the point of tangency of said curve, said arc being subtended by a chord bearing and distance of South 15°27'56" East, 179.37 feet; Course 5, thence South 52°11'07" East, 136.97 feet; Course 6, thence South 02°05'57" East, 346.46 feet to the point of curvature of a curve concave Easterly having a radius of 550.00 feet; Course 7, thence Southerly along the arc of said curve, through a central angle of 16°39'59", an arc length of 159.99 feet to the point of tangency of said curve, said arc being subtended by a chord bearing and distance of South 10°25'57" East, 159.42 feet; Course 8, thence South 18°45'56" East, 136.41 feet; Course 9, thence South 71°14'04" West, 25.00 feet to the point of curvature of a curve concave Easterly having a radius of 150.00 feet; Course 10, thence Southerly along the arc of said curve, through a central angle of 180°00'00", an arc length of 471.24 feet to a point on said curve, said arc being subtended by a chord bearing and distance of South 18°45'56" East, 300.00 feet; Course 11, thence Southerly along the arc of a non-tangent curve concave Easterly having a radius of 150.00 feet, through a central angle of 180°00'00", an arc length of 471.24 feet to the point of tangency of said curve, said arc being subtended by a chord bearing and distance of South 18°45'56" East, 300.00 feet; Course 12, thence South 18°45'56" East, 25.00 feet; Course 13, thence South 71°14'04" West, 315.63 feet; Course 14, thence South 36°19'43" East, 128.96 feet; Course 15, thence South 20°50'43" West, 193.05 feet; Course 16, thence South 06°47'31" East, 236.49 feet to the point of curvature of a curve concave Northerly having a radius of 150.00 feet; Course 17, thence Easterly along the arc of said curve, through a central angle of 180°00'00", an arc length of 471.24 feet to the point of tangency of said curve being the Southwesterly corner of said Reserved Parcel F-4, said arc being subtended by a chord bearing and distance of North 83°12'29" East, 300.00 feet; thence Easterly along the boundary lines of said Reserved Parcels F-4 and D3 the following 15 courses: Course 1, thence North 06°47'31" West, departing said Westerly line, 50.00 feet; Course 2, thence North 06°12'39" West, 80.71 feet; Course 3, thence North 14°31'01" East, 141.50 feet; Course 4, thence South 66°56'33" East, 50.00 feet; Course 5, thence North 68°07'42" East, 152.15 feet; Course 6, thence North 18°45'56" West, 125.00 feet to a point lying on the Southerly right of way line of Zaun Trail, a right of way as depicted on said Subdivision Plat Zebulah's Trail-Section 63 Seminole Woods at Palm Coast; Course 7, thence North 71°14'04" East, along said Southerly right of way line, 230.00 feet to a point on a non-tangent curve concave Northeasterly having a radius of 150.00 feet; Course 9, thence Southeasterly along the arc of said curve, through a central angle of 81°38'47", an arc length of 213.75 feet to a point on said curve, said arc being subtended by a chord bearing and distance of South 59°35'20" East, 196.12 feet; Course 10, thence North 10°24'43" West, 110.00 feet to a point lying on the Southerly right of way line of Zachary Place, a 50 foot right of way as depicted on said Subdivision Plat Zebulah's Trail-Section 63 Seminole Woods at Palm Coast; Course 11, thence Easterly along said Southerly right of way line and along the arc of a non-tangent curve concave Northerly having a radius of 40.00 feet, through a central angle of 16°42'24", an arc length of 11.66 feet to a point on said curve, said arc being subtended by a chord bearing and distance of North 71°14'04" East 11.62 feet; Course 12, thence South 27°09'28" East, departing said Southerly right of way line, 110.00 feet to a point on a non-tangent curve concave Westerly having a radius of 150.00 feet; Course 13, thence Northerly along the arc of said curve, through a central angle of 81°38'48", an arc length of 213.75 feet to the point of tangency of said curve, said arc being subtended by a chord bearing and distance of North 22°03'28" East, 196.12 feet; Course 14, thence North 18°45'56" West, 105.00 feet; Course 15, thence North 71°14'04" East, 320.00 feet; thence South 16°08'17" East, continuing along said boundary line of Reserved Parcel D-3 and along said Westerly line of Subdivision Plat Zebulah's Trail-Section 63 Seminole Woods at Palm Coast, 979.40 feet; thence South 13°42'58" East, continuing along said Westerly line, 2050.00 feet to the Northwesterly corner of said Lot 10, Block 14; thence along the boundary line of said Lot 10, Block 14, the following 5 courses: Course 1, thence North 76°17'02" East, departing said Westerly right of way line of Zonal Court, a variable width right of way as depicted on said Subdivision Plat Zebulah's Trail-Section 63 Seminole Woods at Palm Coast; Course 2, thence South 13°42'58" East, along said Westerly right of way line, 44.00 feet; Course 3, thence South 23°09'13" West, continuing along said Westerly right of line, 25.00 feet; Course 4, thence South 13°42'58" East, continuing along said Westerly right of way line, 20.00 feet; Course 5, thence South 76°17'02" West, departing said Westerly right of way line, 110.00 feet to the Southwesterly corner thereof, said corner lying on said Westerly line of Subdivision Plat Zebulah's Trail-Section 63 Seminole Woods at Palm Coast; thence South 13°42'58" East, along said Westerly line, 549.66 feet to the point of curvature of a curve concave Easterly having a radius of 2940.00 feet; thence Southerly, continuing along said Westerly line and along the arc of said curve, through a central angle of 06°28'07", an arc length of 331.92 feet to the Northwesterly corner of said Lot 16, Block 10, said arc being subtended by a chord bearing and distance of South 16°57'02" East, 331.74 feet; thence along the boundary line of said Lot 16, Block 10, the following 4 courses: Course 1, thence North 69°48'54" East, departing said Westerly line, 125.00 feet to a point lying on said Westerly right of way line of Zonal Court, said point lying on a non-tangent curve concave Northeasterly having a radius of 100.00 feet; Course 2, thence Southeasterly along said Westerly right of way line and along the arc of said curve, through a central angle of 37°48'57", an arc length of 66.00 feet to a point lying on the Westerly right of way line of Zonal Geranium Trail, a right of way as depicted on said Subdivision Plat Zebulah's Trail-Section 63 Seminole Woods at Palm Coast, said arc being subtended by a chord bearing and distance of South 39°05'34" East, 64.81 feet; Course 3, thence Southerly, along last said Westerly right of way line and along the arc of a non-tangent curve concave Easterly having a radius of 100.00 feet, through a central angle of 16°12'39", an arc length of 28.29 feet to a point on said curve, said arc being subtended by a chord bearing and distance of South 07°00'40" West, 28.20 feet; Course 4, thence South 68°03'08" West, departing said Westerly right of way line, 131.78 feet to the Southwesterly corner thereof, said corner lying on said Westerly line of Subdivision Plat Zebulah's Trail-Section 63 Seminole Woods at Palm Coast; thence Southerly along said Westerly line the following 13 courses: Course 1, thence Southeasterly along the arc of a non-tangent curve concave Northeasterly having a radius of 2940.00 feet, through a central angle of 03°11'46", an arc length of 164.01 feet to the point of tangency of said curve, said arc being subtended by a chord bearing and distance of South 23°32'45" East, 163.99 feet; Course 2, thence South 25°08'38" East, 483.89 feet; Course 3, thence South 64°51'22" West, 345.00 feet to the point of curvature of a curve concave Northeasterly having a radius of 150.00 feet; Course 4, thence Southeasterly along the arc of said curve, through a central angle of 180°00'00", an arc length of 471.24 feet to the point of tangency of said curve, said arc being subtended by a chord bearing and distance of South 25°08'38" East, 300.00 feet; Course 5, thence North 64°51'22" East, 345.00 feet; Course 6, thence North 25°08'38" East, 1150.00 feet; Course 8, thence South 64°51'22" West, 105.00 feet to the point of curvature of a curve concave Northeasterly having a radius of 150.00 feet; Course 9, thence Southeasterly along the arc of said curve, through a central angle of 180°00'00", an arc length of 471.24 feet to the point of tangency of said curve, said arc being subtended by a chord bearing and distance of South 64°51'22" East, 105.00 feet; Course 10, thence North 64°51'22" East, 105.00 feet to the point of curvature of a curve concave Northeasterly having a radius of 150.00 feet; Course 11, thence Southeasterly along the arc of said curve, through a central angle of 81°38'48", an arc length of 213.75 feet to a point on said curve, said arc being subtended by a chord bearing and distance of South 65°58'02" East, 196.12 feet; Course 13, thence South 45°00'43" East, along non-tangent line, 744.60 feet to a point lying on the Northerly right of way line of Belle Terre Boulevard (as presently established; having a variable width right of way as depicted on said Subdivision Plat Zebulah's Trail-Section 63 Seminole Woods at Palm Coast) said point being a point on a non-tangent curve concave Southerly having a radius of 40.00 feet; Course 2, thence Westerly along said Northerly right of way line and along the arc of said curve, through a central angle of 55°51'28", an arc length of 39.00 feet to a point on said curve, said arc being subtended by a chord bearing and distance of North 81°37'32" West, 37.47 feet; Course 3, thence North 19°33'26" West, departing said Northerly right of way line, 110.00 feet to the Northwesterly corner lying on said Northerly line of Subdivision Plat Kankakee Run-Section 65 Seminole Woods at Palm Coast; thence Southwesterly along said Northerly line the following 9 courses: Course 1, thence Southwesterly along the arc of a non-tangent curve concave Southeasterly having a radius of 150.00 feet, through a central angle of 25°47'09", an arc length of 67.51 feet to the point of tangency of said curve, said arc being subtended by a chord bearing and distance of South 44°39'35" West, 66.94 feet; Course 2, thence South 57°33'10" West, 66.94 feet; Course 3, thence South 00°20'25" East, 192.13 feet; Course 4, thence South 89°39'35" West, 282.47 feet; Course 5, thence North 00°20'25" West, 50.00 feet to the point of curvature of a curve concave Southerly having a radius of 150.00 feet; Course 6, thence Westerly along the arc of said curve, through a central angle of 180°00'00", an arc length of 471.24 feet to the point of tangency of said curve being subtended by a chord bearing and distance of South 89°39'35" West, 300.00 feet; Course 7, thence South 00°20'25" East, 50.00 feet; Course 8, thence South 89°39'35" West, 253.41 feet; Course 9, thence South 00°20'25" East, 300.00 feet to a point lying on said Northerly right of way line of Belle Terre Boulevard; thence South 89°39'35" West, along said Northerly right of way line, 63.24 feet to the point of curvature of a curve concave Southerly having a radius of 1521.26 feet; thence Westerly continuing along said Northerly right of way line and along the arc of said curve, through a central angle of 06°41'48", an arc length of 177.80 feet to the Northeasterly corner of RP 190, as described and recorded in Official Records Book 1004, page 341, of said Public Records, said arc being subtended by a chord bearing and distance of South 86°18'42" West, 177.70 feet; thence North 07°02'15" West, departing said Northerly right of way line and along the boundary line of said RP 190, a distance of 50.00 feet; thence South 78°41'33" West, continuing along said boundary line, 70.00 feet to the Northwesterly corner thereof, said corner lying on said Northerly line of Subdivision Plat Kankakee Run-Section 65 Seminole Woods at Palm Coast; thence Northwesterly along said Northerly line the following 21 courses: Course 1, thence North 30°31'09" West, 57.09 feet; Course 2, thence North 59°28'51" East, 15.00 feet to the point of curvature of a curve concave Westerly having a radius of 225.00 feet; Course 3, thence Northerly along the arc of said curve, through a central angle of 90°00'00", an arc length of 353.43 feet to the point of tangency of said curve, said arc being subtended by a chord bearing and distance of North 14°28'51" East, 318.20 feet; Course 4, thence North 30°31'09" West, 1215.00 feet; Course 5, thence North 59°28'51" East, 173.41 feet; Course 6, thence North 30°31'09" West, 300.00 feet; Course 7, thence North 59°28'51" East, 80.00 feet; Course 8, thence North 30°31'09" West, 300.00 feet; Course 9, thence North 59°28'51" East, 79.56 feet; Course 10, thence North 19°12'34" West, 1199.35 feet; Course 11, thence North 39°07'43" West, 238.04 feet; Course 12, thence South 89°59'37" West, 270.01 feet to the point of curvature of a curve concave Easterly having a radius of 150.00 feet; Course 13, thence Southerly along the arc of said curve, through a central angle of 180°00'00", an arc length of 471.24 feet to the point of tangency of said curve, said arc being subtended by a chord bearing and distance of South 00°00'07" East, 300.00 feet; Course 14, thence North 89°59'53" East, 50.00 feet; Course 15, thence South 53°08'54" East, 63.20 feet; Course 16, thence South 30°31'09" East, 6.35 feet; Course 17, thence South 59°28'51" West, 1065.59 feet; Course 18, thence North 30°31'09" West, 660.00 feet; Course 19, thence South 59°28'51" West, 253.41 feet; Course 20, thence North 30°31'09" West, 468.41 feet; Course 21, thence South 59°28'51" West, 300.00 feet; thence North 89°14'34" West, continuing along said Northerly line and its Westerly prolongation, 125.81 feet to a point lying on the Westerly line of said Section 24; thence North 00°46'05" East, along said Westerly line, 1907.73 feet to the Northwesterly corner thereof, said corner also being the Southwesterly corner of said Section 13; thence North 01°12'31" West, along the Westerly line of said Section 13, a distance of 5279.19 feet to the Point of Beginning.

Less and Except Tract 1, also known as Tract "A", as described and recorded in Official Records Book 1907, page 1119, of the Public Records of Flagler County, Florida.

Containing 1006.37 acres, more or less.

CERTIFIED TO:
Greenpoint Developers, LLC, a Delaware limited liability company;
Oare Associates, LLC, a Florida limited liability company;
Shuffield, Lowman & Wilson, P.A.;
Fidelity National Title Insurance Company.



THIS IS TO CERTIFY THAT THIS MAP AND THE SURVEY ON WHICH IT IS BASED WERE MADE IN ACCORDANCE WITH THE 2021 MINIMUM STANDARD DETAIL REQUIREMENTS FOR ALTA/NSPS LAND TITLE SURVEYS, JOINTLY ESTABLISHED AND ADOPTED BY ALTA AND NSPS, AND INCLUDES ITEMS 1, 2, 3, 4, 6(a), 7(a), 8, 16 AND 17 OF TABLE A THEREOF. THE FIELD WORK WAS COMPLETED ON FEBRUARY 29, 2024.

OVERALL PARCEL

A portion of Sections 13 and 24, Township 12 South, Range 30 East, together with a portion of Sections 18 and 19, Township 12 South, Range 31 East, Flagler County, Florida, being a portion of Map of the Bunnell Development Company's Land at Bunnell, Florida, as recorded in Plat Book 1, page 1, of the Public Records of said county, also being a portion of Revised Parcel 403, as described and recorded in Official Records Book 950, page 1943, of said Public Records, together with all of Lot 13, Block 45, as depicted on Subdivision Plat Kankakee Run-Section 65 Seminole Woods at Palm Coast, recorded in Map Book 17, page 56, together with all of Reserved Parcels D3 and F-4, all of Lot 10, Block 14, and all of Lot 16, Block 10, as depicted on Subdivision Plat Zebulah's Trail-Section 63 Seminole Woods at Palm Coast, recorded in Map Book 18, page 24, all of said Public Records, being more particularly described as follows:

For a Point of Beginning, commence at the Northwest corner of said Section 13; thence North 87°27'22" East, along the Northerly line of said Section 13, a distance of 2961.63 feet to its intersection with the Westerly line of said Subdivision Plat Zebulah's Trail-Section 63 Seminole Woods at Palm Coast; thence along said Westerly line the following 17 courses: Course 1, thence South 20°55'26" East, departing said Northerly line, 211.58 feet to a point on a non-tangent curve concave Easterly having a radius of 150.00 feet; Course 2, thence Southerly along the arc of said curve, through a central angle of 98°21'15", an arc length of 257.49 feet to a point on said curve, said arc being subtended by a chord bearing and distance of South 01°53'15" West, 227.02 feet; Course 3, thence South 05°31'19" East, along a non-tangent line, 669.87 feet to a point on a non-tangent curve concave Easterly having a radius of 150.00 feet; Course 4, thence Southerly along the arc of said curve, through a central angle of 73°26'22", an arc length of 192.26 feet to the point of tangency of said curve, said arc being subtended by a chord bearing and distance of South 15°27'56" East, 179.37 feet; Course 5, thence South 52°11'07" East, 136.97 feet; Course 6, thence South 02°05'57" East, 346.46 feet to the point of curvature of a curve concave Easterly having a radius of 550.00 feet; Course 7, thence Southerly along the arc of said curve, through a central angle of 16°39'59", an arc length of 159.99 feet to the point of tangency of said curve, said arc being subtended by a chord bearing and distance of South 10°25'57" East, 159.42 feet; Course 8, thence South 18°45'56" East, 136.41 feet; Course 9, thence South 71°14'04" West, 25.00 feet to the point of curvature of a curve concave Easterly having a radius of 150.00 feet; Course 10, thence Southerly along the arc of said curve, through a central angle of 180°00'00", an arc length of 471.24 feet to a point on said curve, said arc being subtended by a chord bearing and distance of South 18°45'56" East, 300.00 feet; Course 11, thence Southerly along the arc of a non-tangent curve concave Easterly having a radius of 150.00 feet, through a central angle of 180°00'00", an arc length of 471.24 feet to the point of tangency of said curve, said arc being subtended by a chord bearing and distance of South 18°45'56" East, 300.00 feet; Course 12, thence North 71°14'04" East, 25.00 feet; Course 13, thence South 18°45'56" East, 315.63 feet; Course 14, thence South 36°19'43" East, 128.96 feet; Course 15, thence South 20°50'43" West, 193.05 feet; Course 16, thence South 06°47'31" East, 236.49 feet to the point of curvature of a curve concave Northerly having a radius of 150.00 feet; Course 17, thence Easterly along the arc of said curve, through a central angle of 180°00'00", an arc length of 471.24 feet to the point of tangency of said curve being the Southwesterly corner of said Reserved Parcel F-4, said arc being subtended by a chord bearing and distance of North 83°12'29" East, 300.00 feet; thence Easterly along the boundary lines of said Reserved Parcels F-4 and D3 the following 15 courses: Course 1, thence North 06°47'31" West, departing said Westerly line, 50.00 feet; Course 2, thence North 06°12'39" West, 80.71 feet; Course 3, thence North 14°31'01" East, 141.50 feet; Course 4, thence South 66°56'33" East, 50.00 feet; Course 5, thence North 68°07'42" East, 152.15 feet; Course 6, thence North 18°45'56" West, 125.00 feet to a point lying on the Southerly right of way line of Zoan Trail, a right of way as depicted on said Subdivision Plat Zebulah's Trail-Section 63 Seminole Woods at Palm Coast; Course 7, thence North 71°14'04" East, along said Southerly right of way line, 40.00 feet; Course 8, thence South 18°45'56" East, departing said Southerly right of way line, 230.00 feet to a point on a non-tangent curve concave Northeasterly having a radius of 150.00 feet; Course 9, thence Southeasterly along the arc of said curve, through a central angle of 81°38'48", an arc length of 213.75 feet to a point on said curve, said arc being subtended by a chord bearing and distance of South 59°35'20" East, 196.12 feet; Course 10, thence North 10°24'43" West, 110.00 feet to a point lying on the Southerly right of way line of Zachary Place, a 50 foot right of way as depicted on said Subdivision Plat Zebulah's Trail-Section 63 Seminole Woods at Palm Coast; Course 11, thence Easterly along said Southerly right of way line and along the arc of a non-tangent curve concave Northerly having a radius of 40.00 feet, through a central angle of 16°42'24", an arc length of 11.66 feet to a point on said curve, said arc being subtended by a chord bearing and distance of North 71°14'04" East 11.62 feet; Course 12, thence South 27°07'08" East, departing said Southerly right of way line, 110.00 feet to a point on a non-tangent curve concave Westerly having a radius of 150.00 feet; Course 13, thence Northerly along the arc of said curve, through a central angle of 81°38'48", an arc length of 213.75 feet to the point of tangency of said curve, said arc being subtended by a chord bearing and distance of North 22°03'28" East, 196.12 feet; Course 14, thence North 18°45'56" West, 105.00 feet; Course 15, thence North 71°14'04" East, 320.00 feet; thence South 16°08'17" East, continuing along said boundary line of Reserved Parcel D-3 and along said Westerly line of Subdivision Plat Zebulah's Trail-Section 63 Seminole Woods at Palm Coast, 979.40 feet; thence South 13°42'58" East, continuing along said Westerly line, 2050.00 feet to the Northwesterly corner of said Lot 10, Block 14; thence along the boundary line of said Lot 10, Block 14, the following 5 courses: Course 1, thence North 76°17'02" East, departing said Westerly line, 125.00 feet to a point lying on the Westerly right of way line of Zonal Court, a variable width right of way as depicted on said Subdivision Plat Zebulah's Trail-Section 63 Seminole Woods at Palm Coast; Course 2, thence South 13°42'58" East, along said Westerly right of way line, 44.00 feet; Course 3, thence South 23°09'13" West, continuing along said Westerly right of line, 25.00 feet; Course 4, thence South 13°42'58" East, continuing along said Westerly right of way line, 20.00 feet; Course 5, thence South 76°17'02" West, departing said Westerly right of way line, 110.00 feet to the Southwesterly corner thereof, said corner lying on said Westerly line of Subdivision Plat Zebulah's Trail-Section 63 Seminole Woods at Palm Coast; thence South 13°42'58" East, along said Westerly line, 549.66 feet to the point of curvature of a curve concave Easterly having a radius of 2940.00 feet; thence Southerly, continuing along said Westerly line and along the arc of said curve, through a central angle of 06°28'07", an arc length of 331.92 feet to the Northwesterly corner of said Lot 16, Block 10, said arc being subtended by a chord bearing and distance of South 16°57'02" East, 331.74 feet; thence along the boundary line of said Lot 16, Block 10, the following 4 courses: Course 1, thence North 69°48'54" East, departing said Westerly line, 125.00 feet to a point lying on said Westerly right of way line of Zonal Court, said point lying on a non-tangent curve concave Northeasterly having a radius of 100.00 feet; Course 2, thence Southeasterly along said Westerly right of way line and along the arc of said curve, through a central angle of 37°48'57", an arc length of 66.00 feet to a point lying on the Westerly right of way line of Zonal Geranium Trail, a right of way as depicted on said Subdivision Plat Zebulah's Trail-Section 63 Seminole Woods at Palm Coast, said arc being subtended by a chord bearing and distance of South 39°05'54" East, 64.81 feet; Course 3, thence Southerly, along last said Westerly right of way line and along the arc of a non-tangent curve concave Easterly having a radius of 100.00 feet, through a central angle of 18°12'39", an arc length of 28.29 feet to a point on said curve, said arc being subtended by a chord bearing and distance of South 07°00'40" West, 28.20 feet; Course 4, thence South 68°03'08" West, departing said Westerly right of way line, 131.78 feet to the Southwesterly corner thereof, said corner lying on said Westerly line of Subdivision Plat Zebulah's Trail-Section 63 Seminole Woods at Palm Coast; thence Southerly along said Westerly line the following 13 courses: Course 1, thence Southeasterly along the arc of a non-tangent curve concave Northeasterly having a radius of 2940.00 feet, through a central angle of 03°11'46", an arc length of 164.01 feet to the point of tangency of said curve, said arc being subtended by a chord bearing and distance of South 23°32'45" East, 163.99 feet; Course 2, thence South 25°08'38" East, 483.89 feet; Course 3, thence South 64°51'22" West, 345.00 feet to the point of curvature of a curve concave Northeasterly having a radius of 150.00 feet; Course 4, thence Southeasterly along the arc of said curve, through a central angle of 180°00'00", an arc length of 471.24 feet to the point of tangency of said curve, said arc being subtended by a chord bearing and distance of South 25°08'38" East, 300.00 feet; Course 5, thence North 64°51'22" East, 345.00 feet; Course 6, thence North 64°51'22" East, 345.00 feet; Course 7, thence South 25°08'38" East, 1150.00 feet; Course 8, thence South 64°51'22" West, 105.00 feet to the point of curvature of a curve concave Northeasterly having a radius of 150.00 feet; Course 9, thence Southeasterly along the arc of said curve, through a central angle of 180°00'00", an arc length of 471.24 feet to the point of tangency of said curve, said arc being subtended by a chord bearing and distance of South 25°08'38" East, 300.00 feet; Course 10, thence North 64°51'22" East, 105.00 feet; Course 11, thence South 25°08'38" East, 210.00 feet to the point of curvature of a curve concave Northeasterly having a radius of 150.00 feet; Course 12, thence Southeasterly along the arc of said curve, through a central angle of 81°38'48", an arc length of 213.75 feet to a point on said curve, said arc being subtended by a chord bearing and distance of South 65°58'02" East, 196.12 feet; Course 13, thence South 45°00'43" East, along non-tangent line, 744.60 feet to a point lying on the Northerly right of way line of Belle Terre Boulevard, a variable width right of way as presently established; thence Westerly along said Northerly right of way line the following 7 courses: Course 1, thence Southwesterly along the arc of a non-tangent curve concave Northwesterly having a radius of 1420.00 feet, through a central angle of 23°12'13", an arc length of 575.24 feet to a point on said curve, said arc being subtended by a chord bearing and distance of South 37°03'49" West, 571.31 feet; Course 2, thence North 41°22'55" West, 4.74 feet to a point on a non-tangent curve concave Northerly having a radius of 1415.00 feet; Course 3, thence Westerly along the arc of said curve, through a central angle of 40°02'29", an arc length of 988.68 feet to the point of tangency of said curve, said arc being subtended by a chord bearing and distance of South 68°38'20" West, 968.68 feet; Course 4, thence South 88°39'35" West, 211.11 feet; Course 5, thence South 01°20'25" East, 5.00 feet to a point on a non-tangent curve concave Northerly having a radius of 5689.12 feet; Course 6, thence Westerly along the arc of said curve, through a central angle of 00°59'59", an arc length of 99.27 feet to the point of tangency of said curve, said arc being subtended by a chord bearing and distance of South 89°09'36" West, 99.27 feet; Course 7, thence South 89°39'35" West, 994.09 feet; thence Northerly along said Northerly line of said Subdivision Plat Kankakee Run-Section 65 Seminole Woods at Palm Coast the following 5 courses: Course 1, thence North 00°20'25" West, departing said Northerly right of way line, 300.00 feet; Course 2, thence South 89°39'35" West, 127.70 feet; Course 3, thence North 00°20'25" West, 113.58 feet; Course 4, thence North 44°39'35" East, 50.00 feet to the point of curvature of a curve concave Westerly having a radius of 150.00 feet; Course 5, thence Northerly along the arc of said curve, through a central angle of 98°21'02", an arc length of 257.48 feet to the Northeasterly corner of said Lot 13, Block 45, said arc being subtended by a chord bearing and distance of North 04°30'56" West, 227.01 feet; thence along the boundary line of said Lot 13, Block 45, the following 3 courses: Course 1, thence South 36°18'22" West, departing said Northerly line, 110.00 feet to a point lying on the Northerly right of way line of Kainite Court, a 50 foot right of way as depicted on said Subdivision Plat Kankakee Run-Section 65 Seminole Woods at Palm Coast, said point being a point on a non-tangent curve concave Southerly having a radius of 40.00 feet; Course 2, thence Westerly along said Northerly right of way line and along the arc of said curve, through a central angle of 55°51'28", an arc length of 39.00 feet to a point on said curve, said arc being subtended by a chord bearing and distance of North 81°37'32" West, 37.47 feet; Course 3, thence North 19°33'26" West, departing said Northerly right of way line, 110.00 feet to the Northwesterly corner thereof, said corner lying on said Northerly line of Subdivision Plat Kankakee Run-Section 65 Seminole Woods at Palm Coast; thence Southwesterly along said Northerly line the following 9 courses: Course 1, thence Southwesterly along the arc of a non-tangent curve concave Southeasterly having a radius of 150.00 feet, through a central angle of 25°47'09", an arc length of 67.51 feet to the point of tangency of said curve, said arc being subtended by a chord bearing and distance of South 57°33'10" West, 66.94 feet; Course 2, thence South 44°39'35" West, 238.91 feet; Course 3, thence South 00°20'25" East, 192.13 feet; Course 4, thence South 89°39'35" West, 282.47 feet; Course 5, thence North 00°20'25" West, 50.00 feet to the point of curvature of a curve concave Southerly having a radius of 150.00 feet; Course 6, thence Westerly along the arc of said curve, through a central angle of 180°00'00", an arc length of 471.24 feet to the point of tangency of said curve, said arc being subtended by a chord bearing and distance of South 89°39'35" West, 300.00 feet; Course 7, thence South 00°20'25" East, 50.00 feet; Course 8, thence South 89°39'35" West, 253.41 feet; Course 9, thence South 00°20'25" East, 300.00 feet to a point lying on said Northerly right of way line of Belle Terre Boulevard; thence South 89°39'35" West, along said Northerly right of way line, 63.24 feet to the point of curvature of a curve concave Southerly having a radius of 1521.26 feet; thence Westerly continuing along said Northerly right of way line and along the arc of said curve, through a central angle of 06°41'48", an arc length of 177.80 feet to the Southeasterly corner of RP 190, as described and recorded in Official Records Book 1004, page 341, of said Public Records, said arc being subtended by a chord bearing and distance of South 86°18'42" West, 177.70 feet; thence North 07°02'15" West, departing said Northerly right of way line and along the boundary line of said RP 190, a distance of 50.00 feet; thence South 78°41'33" West, continuing along said boundary line, 70.00 feet to the Northwesterly corner thereof, said corner lying on said Northerly line of Subdivision Plat Kankakee Run-Section 65 Seminole Woods at Palm Coast; thence Northwesterly along said Northerly line the following 21 courses: Course 1, thence North 30°31'09" West, 57.09 feet; Course 2, thence North 59°28'51" East, 15.00 feet to the point of curvature of a curve concave Westerly having a radius of 225.00 feet; Course 3, thence Northerly along the arc of said curve, through a central angle of 90°00'00", an arc length of 353.43 feet to the point of tangency of said curve, said arc being subtended by a chord bearing and distance of North 14°28'51" East, 318.20 feet; Course 4, thence North 30°31'09" West, 1215.00 feet; Course 5, thence North 59°28'51" East, 173.41 feet; Course 6, thence North 30°31'09" West, 300.00 feet; Course 7, thence North 59°28'51" East, 80.00 feet; Course 8, thence North 30°31'09" West, 300.00 feet; Course 9, thence North 59°28'51" East, 79.56 feet; Course 10, thence North 19°12'34" West, 1199.35 feet; Course 11, thence North 39°07'43" West, 238.04 feet; Course 12, thence South 89°59'53" West, 270.01 feet to the point of curvature of a curve concave Easterly having a radius of 150.00 feet; Course 13, thence Southerly along the arc of said curve, through a central angle of 180°00'00", an arc length of 471.24 feet to the point of tangency of said curve, said arc being subtended by a chord bearing and distance of South 00°00'07" East, 300.00 feet; Course 14, thence North 89°59'53" East, 50.00 feet; Course 15, thence South 53°08'54" East, 63.20 feet; Course 16, thence South 30°31'09" East, 6.35 feet; Course 17, thence South 59°28'51" West, 1066.59 feet; Course 18, thence North 30°31'09" West, 660.00 feet; Course 19, thence South 59°28'51" West, 253.41 feet; Course 20, thence North 30°31'09" West, 468.41 feet; Course 21, thence South 59°28'51" West, 300.00 feet; thence North 89°14'34" West, continuing along said Northerly line and its Westerly prolongation, 125.81 feet to a point lying on the Westerly line of said Section 24; thence North 00°46'05" East, along said Westerly line, 1907.73 feet to the Northwesterly corner thereof, said corner also being the Southwesterly corner of said Section 13; thence North 01°12'31" West, along the Westerly line of said Section 13, a distance of 5279.19 feet to the Point of Beginning.

Less and Except Tract 1, also known as Tract "A", as described and recorded in Official Records Book 1907, page 1119, of the Public Records of Flagler County, Florida.

Less and Except the land contained in Warranty Deed recorded in Official Records Book 494, Page 1063, Public Records of Flagler County, Florida.

Containing 1006.36 acres, more or less.

Re: Magnolia Trace, Flagler County (BTC File #1253-02)
Estimate Pre-Henderson Wetland and Upland Areas in Tracts 8, 9, 10,11, 12, 13, 14 and 35

Dear Mr. Odom,

Bio-Tech Consulting, Inc. was retained by GreenPoint Developers, LLC., to perform a preliminary feasibility assessment of using the Pre-Henderson delineation methodology within Parcels 12, 13 and 14, and its potential effects on future parcel development. As part of BTC's evaluation of the project, the client also requested an estimate of upland areas within Parcel 8, 9, 10, 11, 12 and 35. The purpose of this memorandum is to summarize our findings.

Introduction

Magnolia Trace is an 822.05-acre ± site encompassing seven parcels in Flagler County, Florida. Five of the parcels (8, 9, 10, 11 and 35) were included as part a conceptual permit issued by the St. Johns River Water Management District (SJRWMD). Parcels 12, 13 and 14 were not included in the conceptual permit.

Evaluation of Pre-Henderson Delineation

Florida Statute (F.S.) 373.421 (7) restored certain qualified developments to their Pre-Henderson Wetland Protection Act status for contiguous wetlands. The statute provides that, for qualified projects, wetlands delineated using the current state methodology (62-340 Florida Administrative Code) that are contiguous to surface waters of the state as defined on F.S. 403.031(13) (1991) may be delineated using the Pre-Henderson delineation methodology. Implementation of the Pre-Henderson wetland delineation methodology generally results in a decrease of state-regulated wetlands within a project. Non-contiguous or isolated MSSW wetlands are delineated using the 62-340 state delineation methodology and are not affected by the Pre-Henderson grandfathering provisions. Federal wetland delineation procedures and regulations are not affected by these provisions.

At this time, Magnolia Trace meets several of the criteria necessary to qualify for the application of the Pre-Henderson wetland delineation methodology. Specifically, the project meets the following:

- The proposed Magnolia Trace is located within the ITT Palm Coast Development of Regional Impact (DRI) and is, therefore, a qualified project under F.S. 343.421(7).

- Most of the wetlands within the project site are contiguous to waters of the state as defined by F.S. 403.031 (13) (1991). The onsite wetlands are part of Black Branch Swamp, a tributary to Haw Creek and the St. Johns River. Black Branch Swamp is connected to waters of the state (Bulow Creek) via the Iroquois Canal. An onsite wetland near the northern portion of the east parcel is connected via a canal to waters of the state (Gore Lake) as well.

In order to qualify, any development must first obtain an individual permit, or a No Permit Required (NPR) determination from the United States Army Corps of Engineers (USACE). Since 2020, the Florida Department of Environmental (FDEP) has assumed the review and issuance of Dredge and Fill permits under Section 404 of the Clean Water Act (CWA) for projects that are not adjacent to navigable waters of the United States. It is anticipated that FDEP will be the agency responsible for issuing federal permits for any activities located within the subject site.

At this time, a permit application or permit determination has not been submitted to FDEP. However, a majority of the wetlands within the subject site are considered jurisdictional under the January 2020 National Waters Protection Rule (NWPR), which is currently being applied by FDEP. The January 2023 NWPR, as well as the amendment issued by the EPA in September 2023, have not been adopted by FDEP and, therefore, have no effect on the project. The proposed development plan will require a 404 permit from FDEP. In order to receive this permit, the applicant must ensure that the project meets the environmental quality provisions in Code of Federal Regulations (CFR) 651.15 and 651.16, and provide compensatory mitigation.

The effect of the Pre-Henderson Wetland Methodology on the proposed development was evaluated using a series of steps. The first step consisted of the completion of preliminary delineation of Henderson and Pre-Henderson wetlands using recent (2021) aerial photography. The Henderson and Pre-Henderson wetlands were overlayed on the 62-340 wetland boundaries delineated by BTC staff in 2022 to determine which portion of the wetlands qualified as contiguous or isolated. The application of the Pre-Henderson delineation methodology resulted in a significant decrease in the overall area of state regulated wetlands. The results are summarized in **Table 1**.

Because the Henderson and Pre-Henderson wetlands were delineated using aerial photointerpretation, changes or adjustments to their boundaries are likely upon field verification. Additionally, the 62-340 wetland boundaries have not been approved by the regulating agencies. Field review with agency staff may result in changes in the extent and configuration of some wetlands, which could result in the "disconnection" of contiguous wetlands, and subsequent disqualification of their Pre-Henderson classification(s).

Table 1. Estimate of State and Federally Regulated Wetlands

Parcel	State Regulated Wetlands		Federally Regulated Wetlands
	62-340 Isolated Wetlands	Pre-Henderson Wetlands*	
Tract 14	16.20	8.58	45.17
Tract 13*	10.82	39.59	99.57
Subtotal	**27.02**	**48.17**	**144.74**
Total	**75.19**		**144.74**

*Estimate includes Tracts 11 and 12.

The reduction in state-regulated wetlands as a result of the application of the Pre-Henderson delineation methodology significantly reduces the mitigation costs associated with the project. The project is located in Mitigation Basin 16 (Crescent Lake). There are several mitigation banks in this basin and credits are available. The cost for state and federal mitigation credits in the basin are approximately $150,000 and $40,000. In order to mitigate for the…

Evaluation of Upland Areas in Tracts 8, 9, 10 and 35

As part of this assessment, GreenPoint was also interested in getting an estimate of the total acreage of uplands present within Tracts 8, 9, 10, and 35. Tract 35 was part of the conceptual permit issued by SJRWMD for the Flagler Central Commerce Park (FCCP) development, and all wetlands within this tract were delineated and field verified during the review of the permit. The total area of uplands in Parcel 35 is approximately 32.70-acres. An exhibit depicting the limits and acreage of uplands located within parcel 35 is included in **Appendix A**.

Although not part of the FCCP Conceptual permit, Tracts 8, 9 and 10 wetlands were delineated by EMS, and boundaries were depicted in some of the plans associated with the conceptual permit. The depicted wetland boundaries were digitized and used to estimate the acreage of wetlands and uplands in these two parcels. The estimated acreage of uplands and wetlands in all parcels is summarized in **Table 2**. The wetlands within Tracts 11 and 12 were included with Tract 13.

Table 2. Wetland and Upland Acreages

Tract	Tract Area	Uplands	Wetlands
8	14.86	10.71	4.15
9	11.27	2.85	8.42
10	72.66	27.38	45.28
35	419.30	32.70	386.60

Conclusions

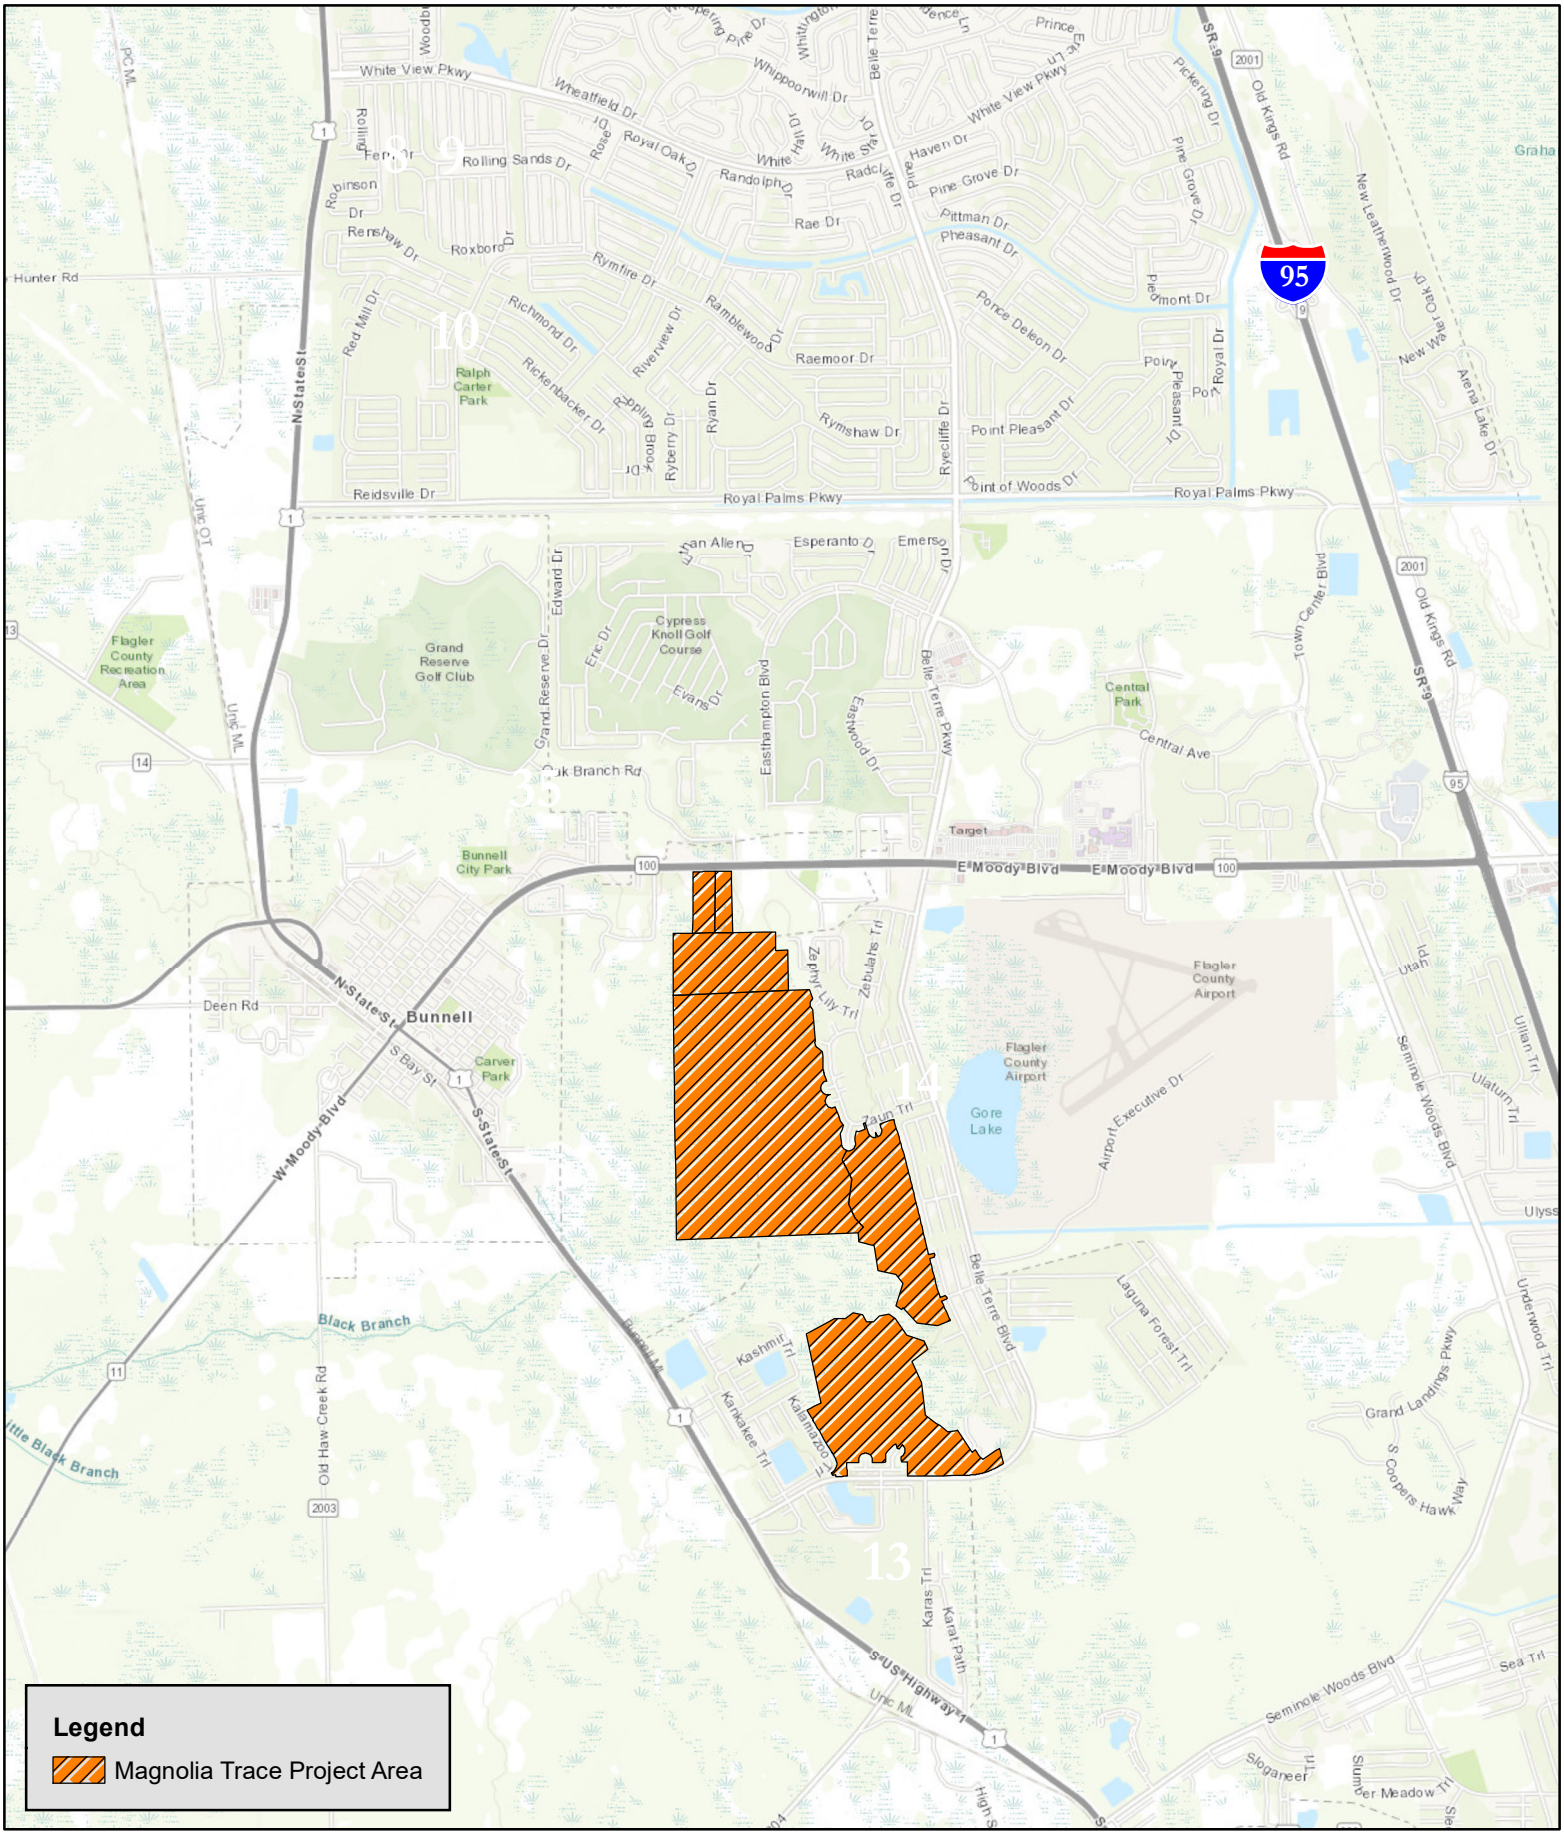
It is our opinion that Tracts 13 and 14 meet the requirements to qualify for a Pre-Henderson wetland delineation, which reduces the overall state-regulated wetlands to 75.19-acres as well as the overall project mitigation costs. Because state rules allow unmitigated impacts to isolated wetlands less than 0.5-acres that do not support listed wildlife species, the total acreage of state-wetlands, which would

require the purchase of state mitigation credits would be further reduced to 74.49-acres. The use of the Pre-Henderson delineation methodology does not have any impact on the overall acreage of federally-regulated wetlands. Federal wetlands in Tracts 13 and 14 total approximately 144.74-acres.

Based on the preliminary development plans (511-units), direct impacts to wetlands are anticipated to total 4.23 acres ± of state-regulated wetlands (2.27-acres ± to Pre-Henderson wetlands, 1.96-acres ± of isolated MSSW wetlands) and 18.03-acres ± of federally regulated wetlands. A very preliminary estimate of the mitigation cost associated with the direct impacts associated with the project around $1.1-million. Secondary impacts, which are not included in our estimate, would increase the mitigation requirements.

The 0.31-cres of impacts associated with the roadway connection between Tracts 13 and 14 was not included in our estimates and would also require a partial release or amendment of the existing conservation easement.

According to the provisions in 373.421, the Pre-Henderson wetlands methodology is not binding on local governments; therefore, additional coordination with the City of Palm Coast is recommended to determine their approach to determining the area uplands in Tracts 13 and 14. The wetland boundaries in Tract 35 were approved as part of the conceptual permits for FCCP and remain in effect. Based on our review of permitting records the area of uplands within Tract 35 is 32.70-acres.



Due to the limited scope of this assessment, the estimations contained in this memorandum are preliminary in nature.

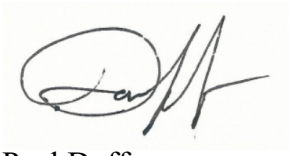
Re: Bio-Tech Consulting Reports - User Reliance

To whom it may concern:

Bio-Tech Consulting (BTC) prepared the following reports for the approximately 1009.54-acre Magnolia Trace site. This site is located directly north S US Highway 1, east of Old Haw Creek Rd., directly west of Belle Terre Blvd, and south of E Moody Blvd., within Sections 13, 18, 19, 24, and 25, Township 12 South, Range 30 East, in Flagler County, Florida



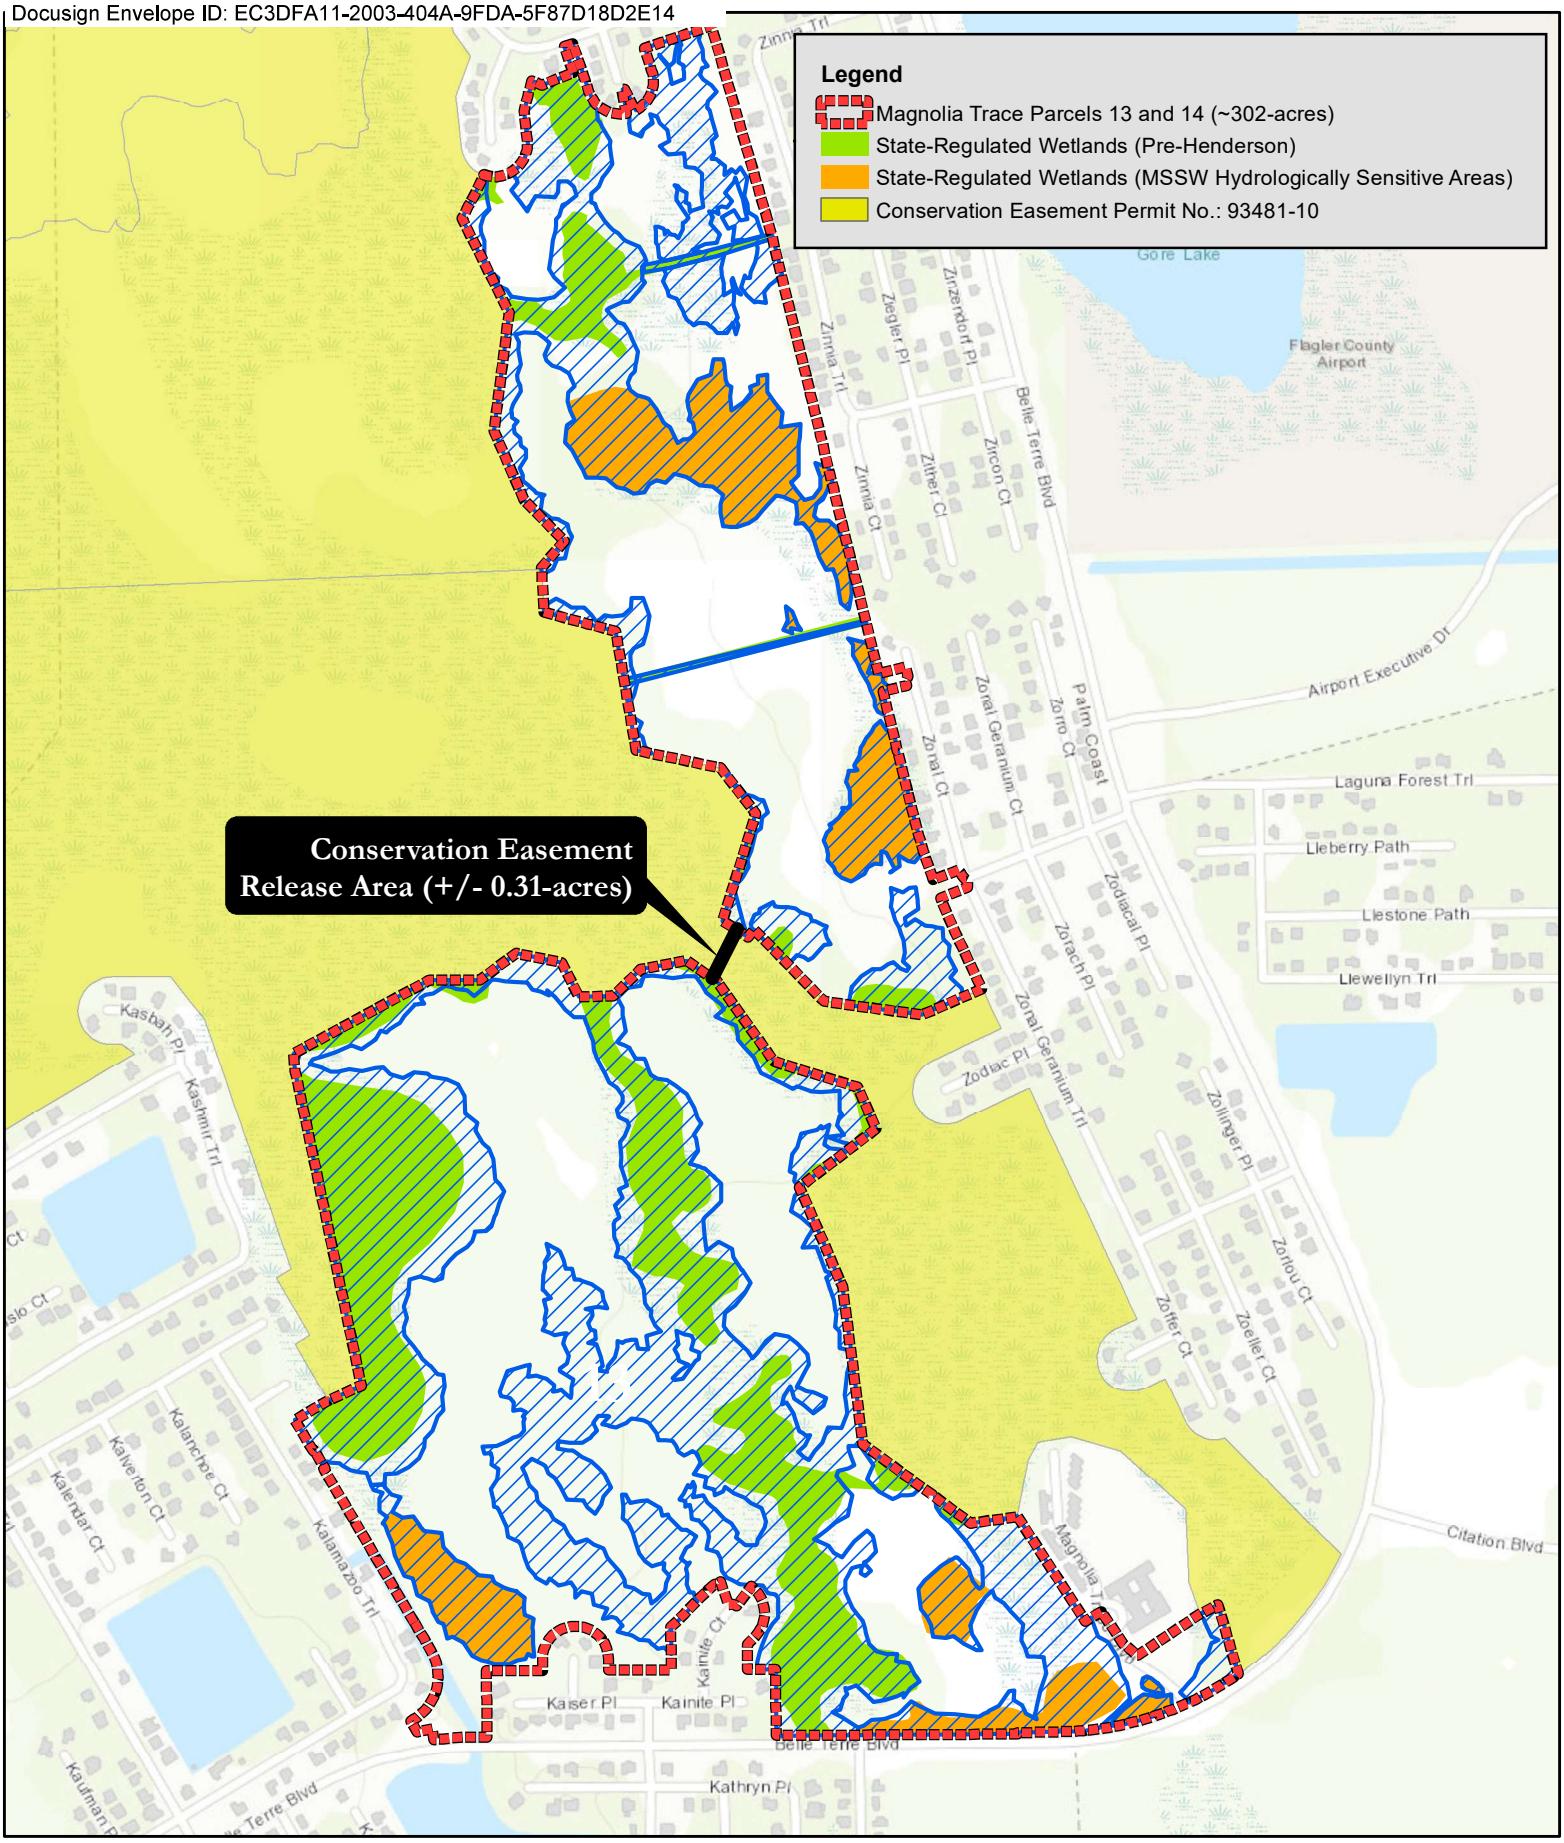
- Wildlife Survey Report- Magnolia Trace, Flagler County, Florida, Bio-Tech Consulting (BTC), December 12, 2022 (BTC File #1253-02)
- Pre-Henderson Memo- Magnolia Trace, Flagler County, Florida, Bio-Tech Consulting (BTC), September 19, 2023 (BTC File #1253-02)
- Phase I Environmental Site Assessment- Magnolia Trace, Flagler County, Florida, Bio-Tech Consulting (BTC), July 18, 2022 (BTC File #1253-02)

This verification is to confirm the validity of the reports named above. To our knowledge, these reports are still valid and represent the current on-site conditions of the property.

BTC realizes that GreenPointe Developers, LLC is depending upon the overall completeness, accuracy and conclusions in these reports which is valid at the time it was issued and hereby certifies that the work can be relied upon by GreenPointe Developers, LLC as if it were originally completed directly for GreenPointe Developers, LLC.

Should you have any questions or require any additional information, please do not hesitate to contact our office at (407) 894-5969. Thank you.

Regards,



Paul Duff,
Environmental Specialist IV

Re: Wildlife Survey Report

Dear Brad:

During the months of May, October, and November of 2022, Bio-Tech Consulting, Inc. (BTC) conducted wildlife surveys of the approximately 1009.54 acres Magnolia Trace site. This property is located directly north S US Highway 1, east of Old Haw Creek Rd., directly west of Belle Terre Blvd, and south of E Moody Blvd., within Sections 13, 18, 19, 24, and 25, Township 12 South, Range 30 East, in Flagler County, Florida (Figures 1 and 2). The wildlife surveys included the following elements.

- Field review for occurrence of protected flora and fauna
- Field review of potential on-site habitats
- Desktop review for potential listed species

PROTECTED SPECIES

Using methodologies outlined in the Florida's Fragile Wildlife (Wood, 2001); Measuring and Monitoring Biological Diversity Standard Methods for Mammals (Wilson, et al., 1996); and Florida Fish and Wildlife Conservation Commission's (FWC's) Gopher Tortoise Permitting Guidelines (April 2008 - revised May 2017), an assessment for "listed" floral and faunal species was conducted at the site on March 15, 2022. This assessment included both direct observations and indirect evidence, such as tracks, burrows, tree markings and vocalizations that indicated the presence of species observed.

The assessment focused on species that are "listed" by the FFWCC's Official Lists - Florida's Endangered Species, Threatened Species and Species of Special Concern (May, 2017) that have the potential to occur in Flagler County (Table 1). No plant species "listed" by federal agencies were identified on the project site during the assessments conducted. The following is a list of those wildlife species identified during the evaluation of the site:

Reptiles and Amphibians
Brown anole (*Anolis sagrei*)
Black racer (*Coluber constrictor*)
Gopher tortoise (*Gopherus polyphemus*)
Green anole (*Anolis carolinensis*)
Green treefrog (*Hyla cinerea*)

Birds
American Crow (*Corvus brachyrhynchos*)
Black Vulture (*Coragyps atratus*)
Northern Cardinal (*Cardinalis cardinalis*)
Palm Warbler (*Setophaga pinus*)
Wild Turkey (*Meleagris gallopavo*)

Mammals
Bobcat (*Lynx rufus*)
Nine-banded armadillo (*Dasypus novemcinctus*)
Racoon (*Procyon lotor*)
White-tailed deer (*Odocoileus virginianus*)

Of the above wildlife species, one, the gopher tortoise, is identified in the FFWCC's Official Lists - Florida's Endangered Species, Threatened Species and Species of Special Concern (May 2017).

No gopher tortoises (*Gopherus polyphemus*) were directly observed during wildlife surveys; however, signs consisting of the identication of potentially occupied tortoise burrows were observed. Additionally, potential habitat which could support gopher tortoises was observed. A short description of the gopher tortoise and implications for development are provided below. A gopher tortoise survey of potential habitat areas is recommended prior to development permitting. No official gopher tortoise survey has been conducted in the area deemed potential habitat.

Gopher Tortoise (*Gopherus polyphemus*)
State Listed as "Threatened" by FFWCC

Currently the gopher tortoise (Gopherus polyphemus) is classified as a "Category 2 Candidate Species" by USFWS, and as of September 2007 is now classified as "Threatened" by FFWCC. The basis of the "Threatened" classification by the FFWCC for the gopher tortoise is due to habitat loss and destruction of burrows. Gopher tortoises are commonly found in areas with well-drained soils associated with the pine flatwoods, pastures and abandoned orange groves. Several other protected species have a possibility of occurring in this area, as they are gopher tortoise commensal species; However, none of these commensal species were observed during the survey conducted.

The subject property was not formally surveyed for the existence of gopher tortoises; however, an assessment of potential utilization by tortoises and the presence of potential habitat was conducted during the on-site vegetation and wildlife surveys. Two small areas on the eastern side of the property were identified as having higher elevations, drained soils, and more appropriate vegetative cover than the adjacent areas and which would generally be recognized as potential gopher tortoise habitat. Additional surveys are necessary to determine if a population of gopher tortoises is present on the property.

In the event that gopher tortoises are observed on-site, the FFWCC provides three (3) options for developers that have gopher tortoises on their property. These options include: 1) avoidance (i.e., 25-foot distance from construction), 2) preservation of habitat, and 3) off-site relocation. Resolution of the gopher tortoise issue would need to be permitted through FFWCC prior to any construction activities.

In addition to those species observed, BTC reviewed the relevant records for potentially occurring species which may expose the subject site to additional regulatory review. Those species reviewed include those with recorded observations in close proximity to the site and those associated with specific habitats observed on-site. Other regulated species which have the potential to occur on the subject site but are not described below can be found in Table 1.

Eastern Indigo Snake (*Drymarchon couperi*)
Federally Listed as "Threatened" by USFWS

The eastern indigo snake (*Drymarchon couperi*) is a federally listed threatened species. The basis for this listing was a result of dramatic population declines caused by over-collecting for the domestic and international pet trade as well as mortalities caused by rattlesnake collectors who gassed gopher tortoise burrows to collect snakes. Since its listing, habitat loss and fragmentation by residential and commercial expansion have become much more significant threats to the eastern indigo snake. This species is widely distributed throughout central and south Florida and primarily occurs in sandhill habitats in northern Florida and southern Georgia.

No evidence of the indigo snake was observed within the subject site during the wildlife survey conducted by BTC; However, because gopher tortoise evidence was observed, there is potential for indigo snake presence due to their commensal nature. A formal Indigo Snake Survey may be required by USFWS. Likely, any permit authorizing activities within areas of potential habitat will need to be conditioned for use of the Service's Standard Protection Measures.

Wood Stork (*Mycteria americana*)
BTC conducted a review of the location for Wood Stork foraging and nesting colonies. The Magnolia Trace property does not occur within a Wood Stork nesting colony core foraging area (Figure 8).

Bald Eagle (*Haliaeetus leucocephalus*)

State protected by F.A.C. 68A-16.002 and federally protected by both the Migratory Bird Treaty Act (1918) and the Bald and Golden Eagle Protection Act (1940)

In August of 2007, the US Fish and Wildlife Service (USFWS) removed the Bald Eagle from the list of federally endangered and threatened species. Additionally, the Bald Eagle was removed from Florida Fish and Wildlife Conservations Commission's (FWC) imperiled species list in April of 2008. Although the Bald Eagle is no longer protected under the Endangered Species Act, it is still protected under the Bald and Golden Eagle Protection Act, the Migratory Bird Treaty Act, and FWC's Bald Eagle rule (Florida Administrative Code 68A-16.002 Bald Eagle (*Haliaeetus leuchocephalus*).

In May of 2007, the USFWS issued the National Bald Eagle Management Guidelines. In April of 2008, the FWC adopted a new Bald Eagle Management Plan that was written to closely follow the federal guidelines. Under FWC's new management plans, buffer zones are recommended based on the nature and magnitude of the project or activity. The recommended protective buffer zone is 660 feet or less from the nest tree, depending on what activities or structures are already near the nest. A FWC Eagle permit is not needed for any activity occurring outside of the 660-foot buffer zone.

In addition to the on-site evaluation for "listed" species, BTC conducted a review for any Bald Eagle nests on or in the vicinity of the site as recorded by FWC. This review revealed no bald eagle nesting locations within one (1) mile of the site (Figure 8). Since the site is not located within the 660-foot buffer zone for any nests, no further action should be required pertaining to Bald Eagle nests.

USFWS CONSULTATION AREAS

The U.S. Fish and Wildlife Service has established "consultation areas" for certain listed species. Generally, these consultation areas only become an issue if USFWS consultation is required, which is usually associated with permitting through the U.S. Army Corps of Engineers. The reader should be aware that species presence and need for additional review are often determined to be unnecessary early in the permit review process due to lack of appropriate habitat or other conditions. However, the USFWS makes the final determination.

Consultation areas are typically regional in size, often spanning multiple counties where the species in question is known to exist. Consultation areas by themselves do not indicate the presence of a listed species, they only indicate an area where there is a potential for a listed species to occur and that additional review might be necessary to confirm or rule-out the presence of the species. The additional review typically includes the application of species-specific criteria to rule-out or confirm the presence of the species in question. Such criteria might consist of a simple review for critical habitat types. In other cases, the review might include the need for species-specific surveys using established methodologies that have been approved by the USFWS.

The subject site is located within one (1) of the USFWS Consultation Areas (Figure 9).

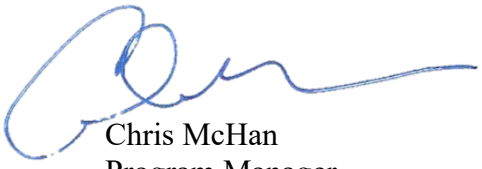
Florida Scrub-Jay (*Aphelocoma coerulescens*)

Federally Listed as "Threatened" by USFWS

Currently the Florida Scrub-Jay is listed as threatened by the USFWS. Florida Scrub-Jays are largely restricted to scattered, often small and isolated patches of sand pine scrub, xeric oak, scrubby flatwoods, and scrubby coastal stands in peninsular Florida (Woolfenden 1978a, Fitzpatrick et al. 1991). They avoid wetlands and forests, including canopied sand pine stands. Optimal Scrub-Jay habitat is dominated by shrubby scrub, live oaks, myrtle oaks, or scrub oaks from 1 to 3 m (3 to 10 ft.) tall, covering 50% to 90 % of the area; bare ground or sparse vegetation less than 15 cm (6 in) tall covering 10% to 50% of the area; and scattered trees with no more than 20% canopy cover (Fitzpatrick et al. 1991).

No Florida Scrub-Jays were observed within the subject site during the extensive field work conducted by BTC. During the fieldwork conducted as part of the due diligence effort, areas of habitat which may have the potential to support Scrub-Jays were identified. As such, a formal Scrub-Jay survey is likely to be required by USFWS to determine if Florida Scrub-Jays exist on the subject site. Surveys must be conducted March 1 through October 31 for a minimum of 5 days.

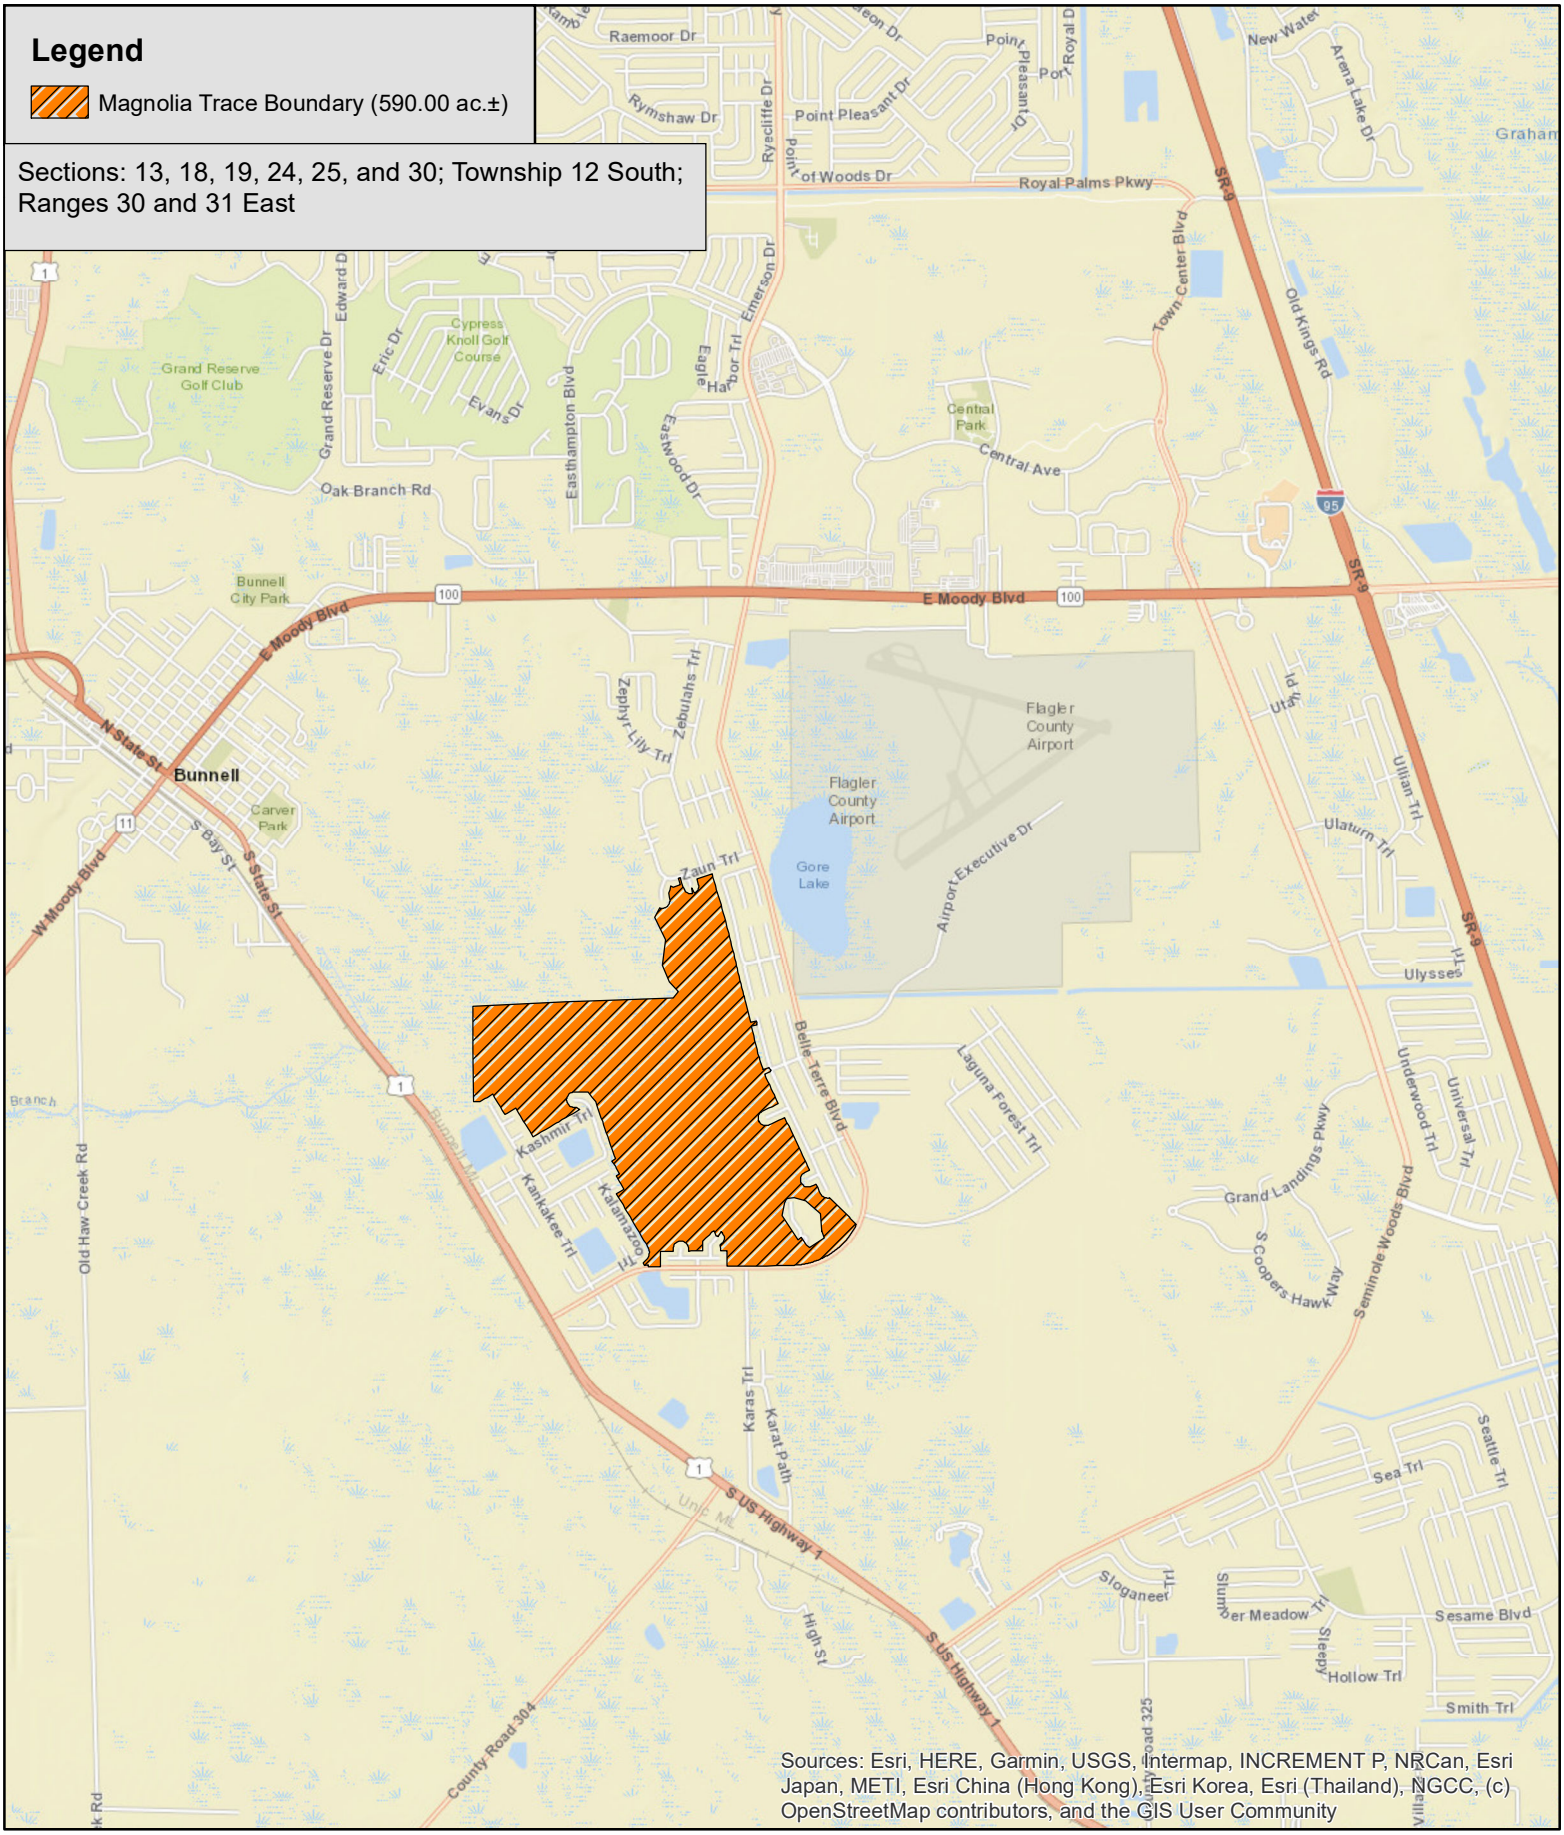
SUMMARY & POTENTIAL WILDLIFE CONSTRAINTS



These wildlife surveys were conducted in accordance with the protocol and methodology identified above. This site was surveyed for all wildlife and any listed species. At the time of the survey evidence of one (1) listed species and potential habitat for at least one (1) additional species was observed within the boundary of the subject site.

The environmental limitations described in this document are based on observations and technical information available on the date of the on-site evaluation. The wildlife survey conducted within the subject property boundaries does not preclude the potential for any listed species, as noted on Table 1 (attached), currently or in the future. Should you have any questions or require any additional information, please do not hesitate to contact our office at (407) 894-5969. Thank you.

Regards,



Noah DeDeo

Cheilanthes microphylla	Southern Lip Fern	N	LE
Verbesina heterophylla	Variable-leaf Crownbeard	N	N
Asplenium heteroresiliens	Wagner's Spleenwort	N	N

PT-Proposed for listing as Threatened species.

C-Candidate species for which federal listing agencies have sufficient information on biological vulnerability and threats to support proposing to list the species as Endangered or Threatened.

XN-Non-essential experimental population.

MC-Not currently listed, but of management concern to USFWS.

N-Not currently listed, nor currently being considered for listing as Endangered or Threatened.

STATE LEGAL STATUS - ANIMALS

LE-Endangered: species, subspecies, or isolated population so few or depleted in number or so restricted in range that it is in imminent danger of extinction.

LT-Threatened: species, subspecies, or isolated population facing a very high risk of extinction in the future.

LS-Species of Special Concern is a species, subspecies, or isolated population which is facing a moderate risk of extinction in the future.

PE-Proposed for listing as Endangered.

PT-Proposed for listing as Threatened.

PS-Proposed for listing as Species of Special Concern.

N-Not currently listed, nor currently being considered for listing.

STATE LEGAL STATUS - PLANTS

LE-Endangered: species of plants native to Florida that are in imminent danger of extinction within the state, the survival of which is unlikely if the causes of a decline in the number of plants continue; includes all species determined to be endangered or threatened pursuant to the U.S. Endangered Species Act.

LT-Threatened: species native to the state that are in rapid decline in the number of plants within the state, but which have not so decreased in number as to cause them to be Endangered.

PE-Proposed for listing as Endangered.

PT-Proposed for listing as Threatened.

N-Not currently listed, nor currently being considered for listing.

COUNTY OCCURRENCE STATUS

Vertebrates and Invertebrates:
C = Confirmed
P = Potential
N = Nesting

RE: DHR Project File No.: 2025-1877-B Received by DHR: March 31, 2026
Phase II & Phase III Archaeological Investigations of the Gore Lake Mound (8FL00029), Flagler County, Florida

To Whom It May Concern:

Our office reviewed the referenced project in accordance with Section 106 of the *National Historic Preservation Act of 1966*, as amended, and its implementing regulations in *36 CFR Part 800: Protection of Historic Properties*, as well as Chapters 267.061 and 373.414, *Florida Statutes*, and implementing state regulations for possible effects on historic properties listed, or eligible for listing, in the *National Register of Historic Places*. The project is subject to compliance with requirements for St. Johns River Water Management District (SJRWMD) No. 194723-3 and United States Army Corps of Engineers (USACE) Permit Application No. SAJ-2004-04984, SAJ-2007-05638, SAJ-2025-03550.

In February 2026, Heritage Cultural Services, LLC (HCS) undertook a Phase III CRAS of previously recorded archaeological site 8FL29 (Gore Lake Mound; SHPO Likely Eligible, 2004), located on approximately 0.25 acre of land proposed for development by GreenPointe Developers, LLC, in Flagler County. HCS excavated the sites with ten contiguous 1m-by-1m test units and four 1m-by-5m trenches to recover any and all data that would otherwise have been lost in the course of development. As a result of the survey, HCS notes:

> Ten controlled unit excavations (1 x 1-meter units forming a 1 x 10-meter trench) across the center of the mound floor and four radiating exploratory trenches excavated in levels by an archaeological backhoe operator (see Excavation Plan), produced no interments, burial remains, or human skeletal materials. Only five artifacts (St. Johns Plain pottery sherds) were recovered from the upper levels of the 1 x 1-meter units.
>
> Consequently, it is the observations and opinion and of Heritage Cultural Services, LLC, that no cultural stratigraphy or cultural context exists below the mound floor and that the Gore Lake Mound (8FL00029) should be considered completely destroyed and ineligible for listing on the National Register of Historic Places. No further archaeological work is recommended.

Based on the information provided, our office finds the submitted report complete and sufficient in accordance with Chapter 1A-46, *Florida Administrative Code*. USACE has provided the following review:

> the Corps received and reviewed Phase II and Phase III Archaeological Investigations of the Gore Lake Mound (8FL00029), Flagler County, Florida, prepared by Heritage Cultural Services,

> LLC (HCS), dated December 2025, and finds the report complete and the field work appropriate and sufficient in accordance with Chapters 1A-46, Florida Administrative Code and with Federal regulation 36 CFR 800: Protection of Historic Properties. The purpose of the study, conducted October - December 2025, was to investigate the integrity of the Gore Lake Mound (8FL00029) and evaluate its potential eligibility for nomination to the NRHP. Per HCS, the mound (above ground portion of the site) has been compromised (nearly leveled), but due to prior reports of subsurface archaeological deposits containing human skeletal remains, the site was deemed potentially eligible for listing on the NRHP [...]
>
> No burial remains, skeletal material, or cultural materials were observed or recovered within the trenches. It is HCS opinion that no cultural stratigraphy or cultural context exists below the mound floor and that the Gore Lake Mound (8FL00029) should be considered completely destroyed and ineligible for listing on the NRHP, and no further archaeological work is recommended.
>
> Based on the results of the Phase II and Phase III survey, this office concurs with the investigator's recommendations and finds that the proposed project will have no adverse effect to historic properties, and no further work is required.

This office concurs with the determination provided by USACE.

If you have any questions, please contact Ethan Putman, Historic Preservationist, by email at *Ethan.Putman@dos.fl.gov*.

Sincerely,

Kelly L Chase

Introduction

The purpose of this traffic impact assessment is to evaluate the potential traffic impacts associated with the proposed Magnolia Trace development, which is located in the southern portion of the City of Palm Coast (COPC), south of SR-100, east of US-1, and west of the Flagler Executive Airport. The project is anticipated to be fully developed and occupied by 2031 and is expected to consist of approximately 135 single-family dwelling units, 98 multifamily townhomes, 209 active adult housing units, and approximately 35,000 square feet of retail space. Phase 1 of the development is proposed to include 99 single-family dwelling units. **Figure 1** illustrates the project location, **Figure 2** depicts the conceptual site plan, and **Table 1** summarizes the proposed development schedule for the project.

Table 1
Magnolia Trace
Development Program

Land Use	ITE Land Use Code	Quantity	Units	Year
Phase 1				
Single-family Housing	210	99	Dwelling Units	2031
Total Buildout (Phase 1 Included)

Study Methodology

The traffic impact analysis has been prepared in accordance with the approved study methodology, which was submitted to the City of Palm Coast on November 4, 2025, and is included in **Appendix A**. Consistent with the approved methodology, a minimum annual traffic growth rate of 1 percent was applied, and the study area for projects generating more than 100 net new external PM peak hour trips was defined to include roadway segments where the project is anticipated to consume three percent (3%) or more of the adopted maximum service volume (MSV). **Table 2** and **Table 3** present the estimated project trip generation for Phase 1 and full buildout, respectively, using trip rates and equations from the *12th Edition of the Institute of Transportation Engineers (ITE) Trip Generation Manual*. As a planned mixed-use development expected to incorporate commercial and residential land uses, the project is anticipated to generate internal capture and pass-by traffic; these trip components, along with the resulting gross project trip generation for a typical weekday and the AM and PM peak hours, are summarized in the referenced tables. Phase 1 is intended to utilize the existing Magnolia Trace Boulevard access at Belle Terre Boulevard and is evaluated separately under Phase 1 buildout conditions.

Significance Analysis

A select link analysis was conducted for a new traffic analysis zone (TAZ 1364) that contains the land use data for Magnolia Trace added to the 2030 data set for version 7 of the *Central Florida Regional Planning Model (CFRPMv7)*. The distribution of project traffic was calculated and used to determine where the project is expected to consume three percent (3%) or more of the adopted MSV. Project traffic distribution was obtained from CFRPMv7 model outputs, with supporting traffic distribution printouts provided in **Appendix B**. The project traffic distribution was applied to the external traffic generated by the Magnolia Trace development to estimate project-related traffic volumes on each roadway segment in the project vicinity. These volumes were then compared to the adopted maximum service volume (MSV) to determine whether the project is expected to consume three percent (3%) or more of the MSV on each roadway segment. **Table 4** illustrates these calculations and whether Magnolia Trace is significant. **Appendix C** contains the *2023 Transportation Facility Status Report for the City of Palm Coast (TFS 2023)* used in the analysis as there is not currently PM peak hour information for the 2025 version.

= Significantly Impacted Link

Study Area

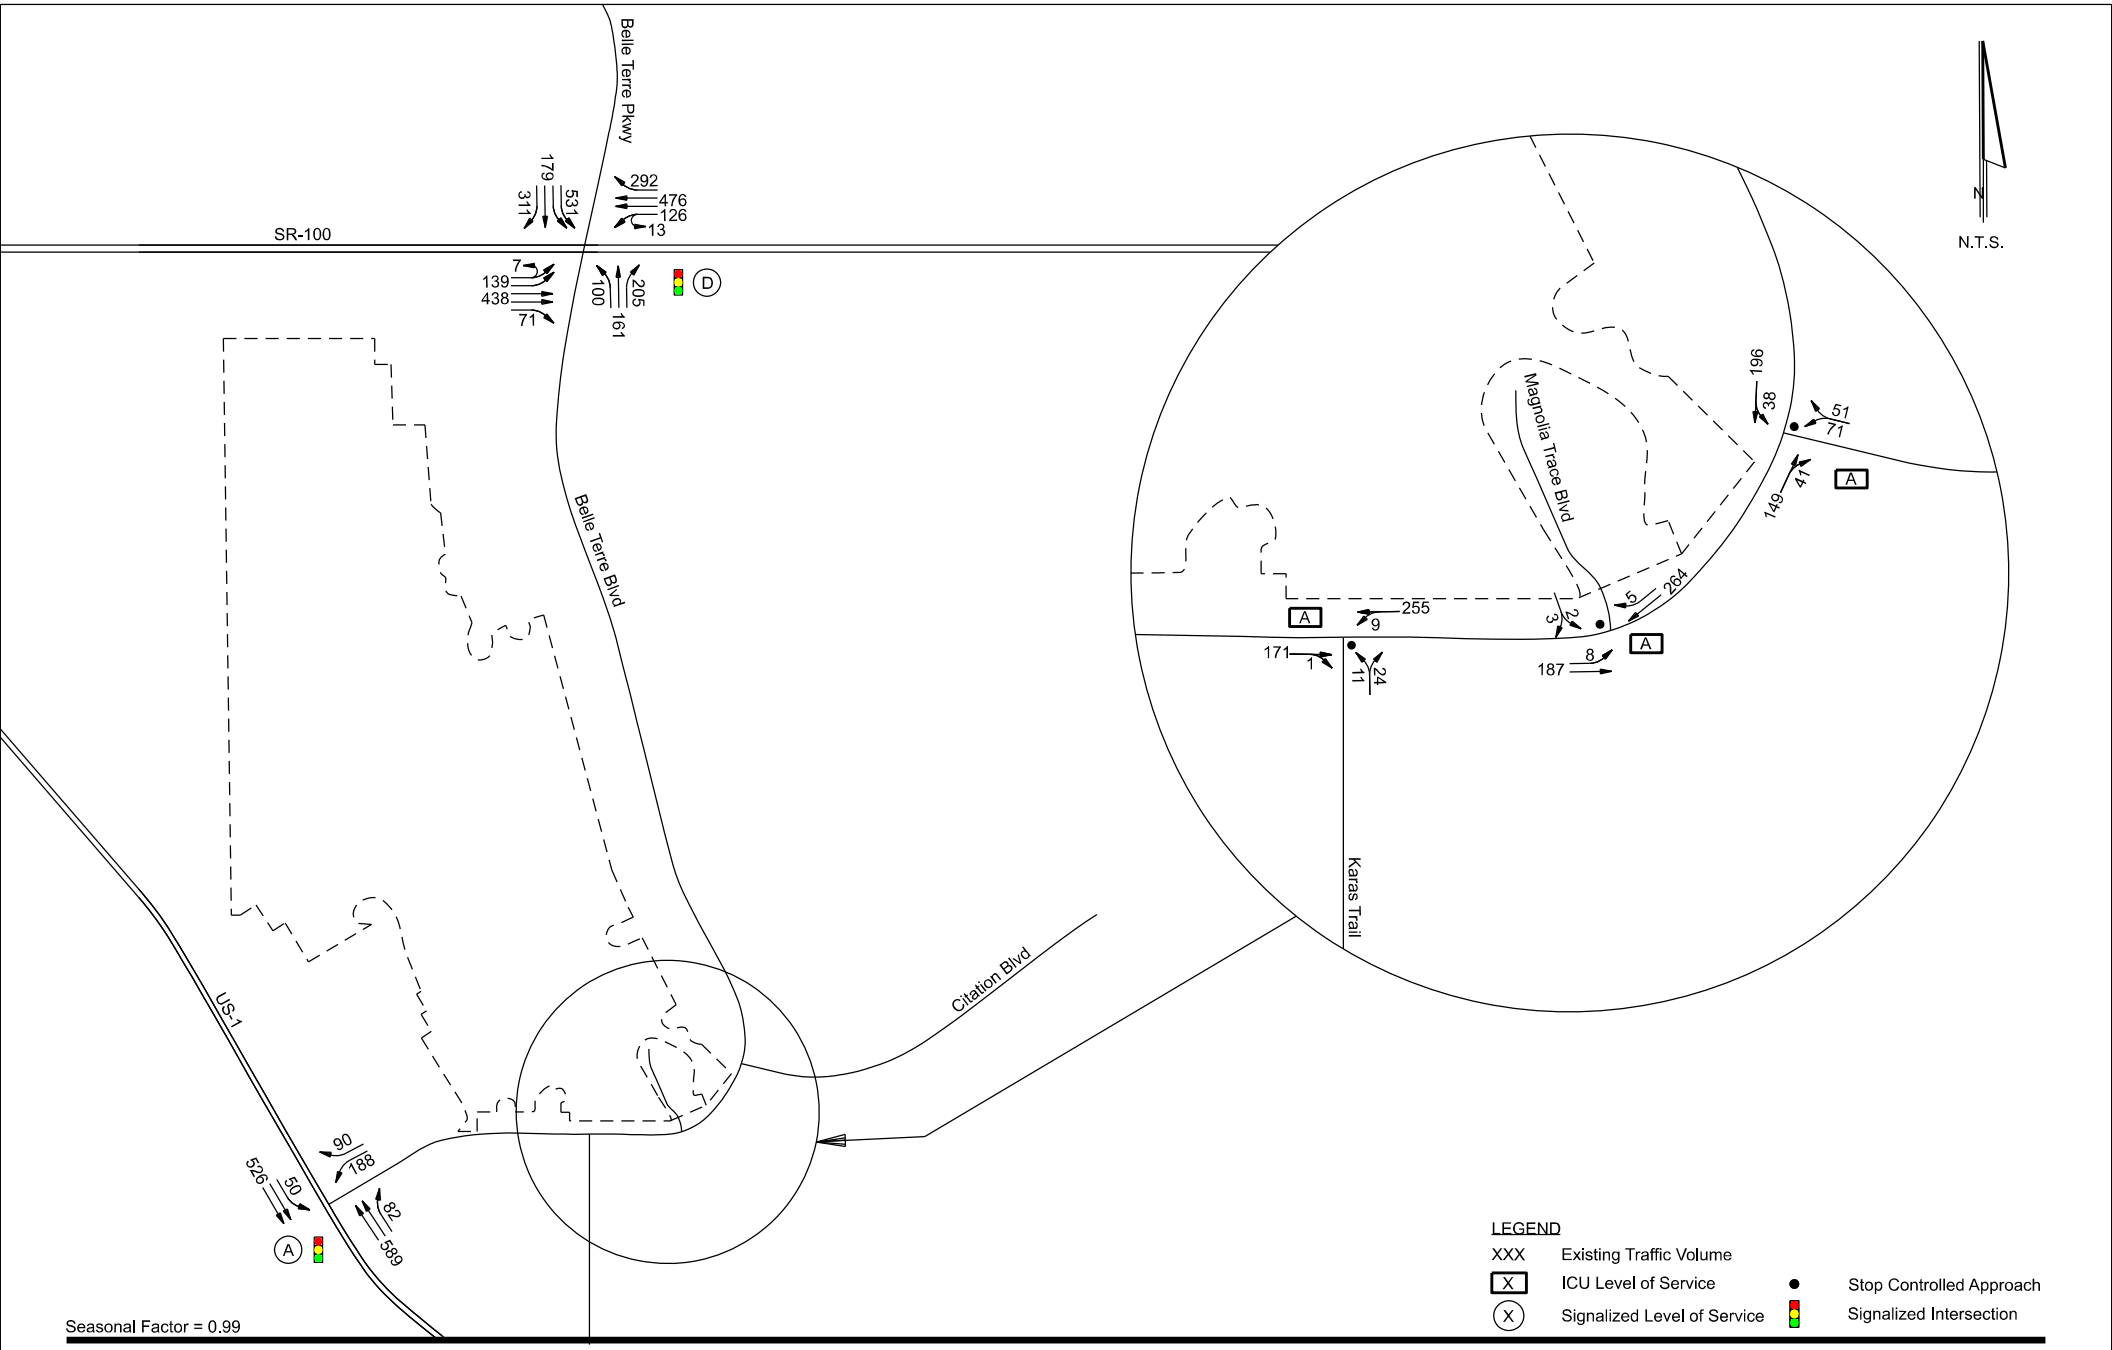
As prior indicated in **Table 4**, the following roadway segment and intersections are significantly impacted by the project and were included in this analysis.

Roadway Segments

- Belle Terre Boulevard from SR 100 to Zebulas Trail
- Belle Terre Boulevard from Zebulas Trail to Zaun Trail
- Belle Terre Boulevard from Zaun Trail to Citation Parkway
- Belle Terre Boulevard from Citation Parkway to US 1
- US 1 from Belle Terre Parkway to Dupont Road
- US 1 from Dupont Road to Seminole Woods Parkway
- US 1 from Seminole Woods Parkway to the Palm Coast City Limits

Intersections

- Belle Terre Boulevard and SR 100
- Belle Terre Boulevard and US 1
- Belle Terre Boulevard and Citation Boulevard



Inventory of Existing Conditions

Traffic counts at the existing intersections within the study area were collected on Tuesday, October 14, 2025, for both the AM and PM peak hours. Copies of the traffic count data are included in **Appendix D**. **Table 5** presents the existing PM peak hour traffic volumes on the adjacent segments of Belle Terre Parkway and US-1, along with the corresponding levels of service based on the most recent COPC TFS (2023). **Figure 3** and **Figure 4** illustrate the existing AM and PM peak hour turning movement volumes, respectively, at the study area intersections, along with the lane configurations and corresponding levels of service. Operational conditions were evaluated in accordance with the methodologies outlined in the *7th Edition of the Highway Capacity Manual (HCM)* using *Synchro/SimTraffic* software based on available lane configuration, traffic volume, and signal timing data. The existing signal timing plan for SR-100 at Belle Terre Boulevard was incorporated into the Synchro model based on discussion with COPC and is provided in **Appendix E**. Traffic counts were adjusted using an appropriate seasonal factor, and the FDOT Seasonal Factor Report is provided in **Appendix F**. These conversions along with all other volume calculations are presented in **Appendix G**. As shown, the analyzed intersections are currently operating at acceptable levels of service. Copies of the Synchro output files for existing conditions are included in **Appendix H**.

Growth Rate Calculations

Growth rates for the 2025 to 2031 analysis period were developed based on roadway jurisdiction and available data sources. For City of Palm Coast (COPC) roadways, growth rates were established using historical traffic data provided by the City in combination with iterative 2025 AADT estimates to develop representative annual growth trends. For non-City roadways, growth rates were derived from historical annual average daily traffic (AADT) data obtained from the *2024 Florida Traffic Online (FTO)* database. The *FDOT Traffic Trends Analysis Tool* was used to calculate historical growth rates from the available AADT data, with trend-based growth rates applied where the coefficient of determination (R^2) was greater than 0.70. If necessary, a minimum annual growth rate of 1 percent was applied, consistent with the approved study methodology. Supporting AADT data, *COPC historical data*, and *FDOT Traffic Trends Analysis Tool* outputs are provided in **Appendix I**. **Table 6** summarizes the adopted growth rates, including the historical annual growth and corresponding growth factors (GF) for each roadway segment where the project is significant or that serves as an approach to a study intersection.

Table 6
Magnolia Trace
Growth Rate Summary

Roadway Segment		Link # or Site #	2017 AADT	2018 AADT	2019 AADT	2020 AADT	2021 AADT	2022 AADT	2023 AADT	2024 AADT	2025 AADT	Annual Percentage Growth Calculated	Growth Factor 2025-2031 (Intersection Approaches)

Background Traffic Estimates

The 2031 background traffic volumes for the analyzed roadway segments were developed by combining existing traffic volumes with vested trips for each segment where the project is significant. Existing segment volumes were obtained from the most recent *City of Palm Coast Transportation Facility Status (TFS) Report (2023)*, which is provided in **Appendix C**. **Table 7** summarizes the segment analysis, including maximum service volumes (MSV) from the TFS Report, existing traffic volumes, project vested trips, and resulting background traffic volumes. **Figure 5** and **Figure 6** illustrate the estimated AM and PM peak hour turning movement volumes at the study intersections under background conditions. Operational analyses for background conditions were conducted in accordance with the methodologies outlined in the *7th Edition of the Highway Capacity Manual* (HCM) using *Synchro/SimTraffic* software, with signal timing optimized to evaluate intersection performance. As shown, all analyzed segments are expected to operate at acceptable levels of service. **Appendix J** contains the *Synchro* output files for the background analysis.

Trip Generation Estimates and Distribution Methodology

Project traffic was estimated using trip generation rates and equations contained in the *12th Edition of the Institute of Transportation Engineers (ITE) Trip Generation Manual*. As discussed previously in the study methodology, **Table 3** presents the trip generation calculations for a typical weekday, as well as the AM and PM peak hours. The proposed development includes single-family residential, multifamily residential, active adult housing, and commercial land uses. The analysis accounts for internal capture and pass-by trips, with pass-by traffic applied to the two accesses serving the proposed commercial component. **Figure 7** and **Figure 8** illustrate the pass-by traffic volumes and associated distribution for the AM and PM peak hours, respectively, with the pass-by distribution determined based on engineering judgment. Total project traffic was then distributed and assigned to the surrounding roadway network based on traffic patterns derived from the *CFRPMv7.0* model as illustrated in **Figure 9.**

Phase 1 Buildout Conditions

Phase 1 of the proposed development consists of 99 single-family dwelling units. Trip generation for this phase was also summarized in **Table 2**. Project traffic was distributed using the same methodology and distribution patterns derived from the *CFRPMv7.0 model*. Traffic volumes were calculated consistent with the methodology applied to the study intersections to determine projected conditions. Detailed volume calculations for the Magnolia Trace Boulevard at Belle Terre Boulevard intersection are provided in **Appendix K**. Operational analysis using Synchro was conducted for this intersection only, as traffic volumes at all other study intersections are higher under total buildout conditions. Corresponding Synchro reports are included also in **Appendix K**. The project traffic distribution is illustrated in **Figure 10**, while **Figure 11** and **Figure 12** present the project and buildout traffic conditions for Phase 1 during the AM and PM peak hours, respectively.

Signal Warrant Analysis

A signal warrant analysis was conducted at the intersection of Belle Terre Boulevard and Karas Trail/Future Project Driveway in accordance with *MUTCD* and *FDOT* guidelines using projected buildout traffic conditions. The results indicate that none of the signal warrants are satisfied under total buildout conditions. Detailed calculations are provided in **Appendix N**, and the corresponding buildout traffic volumes are shown in **Table 9.**

Figure 16

Roadway Needs

The need for right-turn lanes at the project access points was evaluated in accordance with the City of Palm Coast Turn Lane Technical Guidelines, which are provided in **Appendix M**. The projected right-turn volume at the project access opposite Karas Trail is 73 vehicles per hour, exceeding the applicable threshold of 60 right-turning vehicles per peak hour for a two-lane roadway with an AADT greater than 5,000 vehicles and a posted speed of 40 mph or higher. Therefore, ETM recommends installation of a right-turn lane on Belle Terre Boulevard opposite Karas Trail to serve the proposed project. In accordance with the City of Palm Coast guidelines, the recommended lane geometry for a roadway with a posted speed of 50 mph or greater includes a 100-foot taper, 135 feet of full-width deceleration, and a storage length equal to 45 percent of the SLDT value, resulting in a 35-foot storage length.

The need for a left-turn lane at the southern project access opposite Karas Trail was evaluated in accordance with the City of Palm Coast Turn Lane Technical Guidelines. The projected left-turn volume of 106 vehicles per hour at the proposed project entrance across from Karas Trail exceeds the applicable threshold of 15 left-turning vehicles per peak hour for a two-lane roadway with an AADT greater than 5,000 vehicles and a posted speed of 40 mph or higher. Based on this analysis, ETM recommends installation of an eastbound left-turn lane at the future project entrance on Belle Terre Boulevard opposite the existing Karas Trail access. In accordance with City of Palm Coast guidelines, the recommended lane geometry consists of a 100-foot taper, 135 feet of full-width deceleration, and a 110-foot storage length.

Conclusions

Based on the analysis, the proposed project is not expected to result in significant operational impacts to the roadway analyzed segments in the project vicinity. ETM recommends installation of an eastbound left turn lane and a westbound right turn lane on Belle Terre Boulevard serving the project driveway opposite the existing Karas Trail access. Based on the analysis in the provided conditions, ETM has no additional recommendations beyond the improvements identified the roadway needs portion of the analysis.

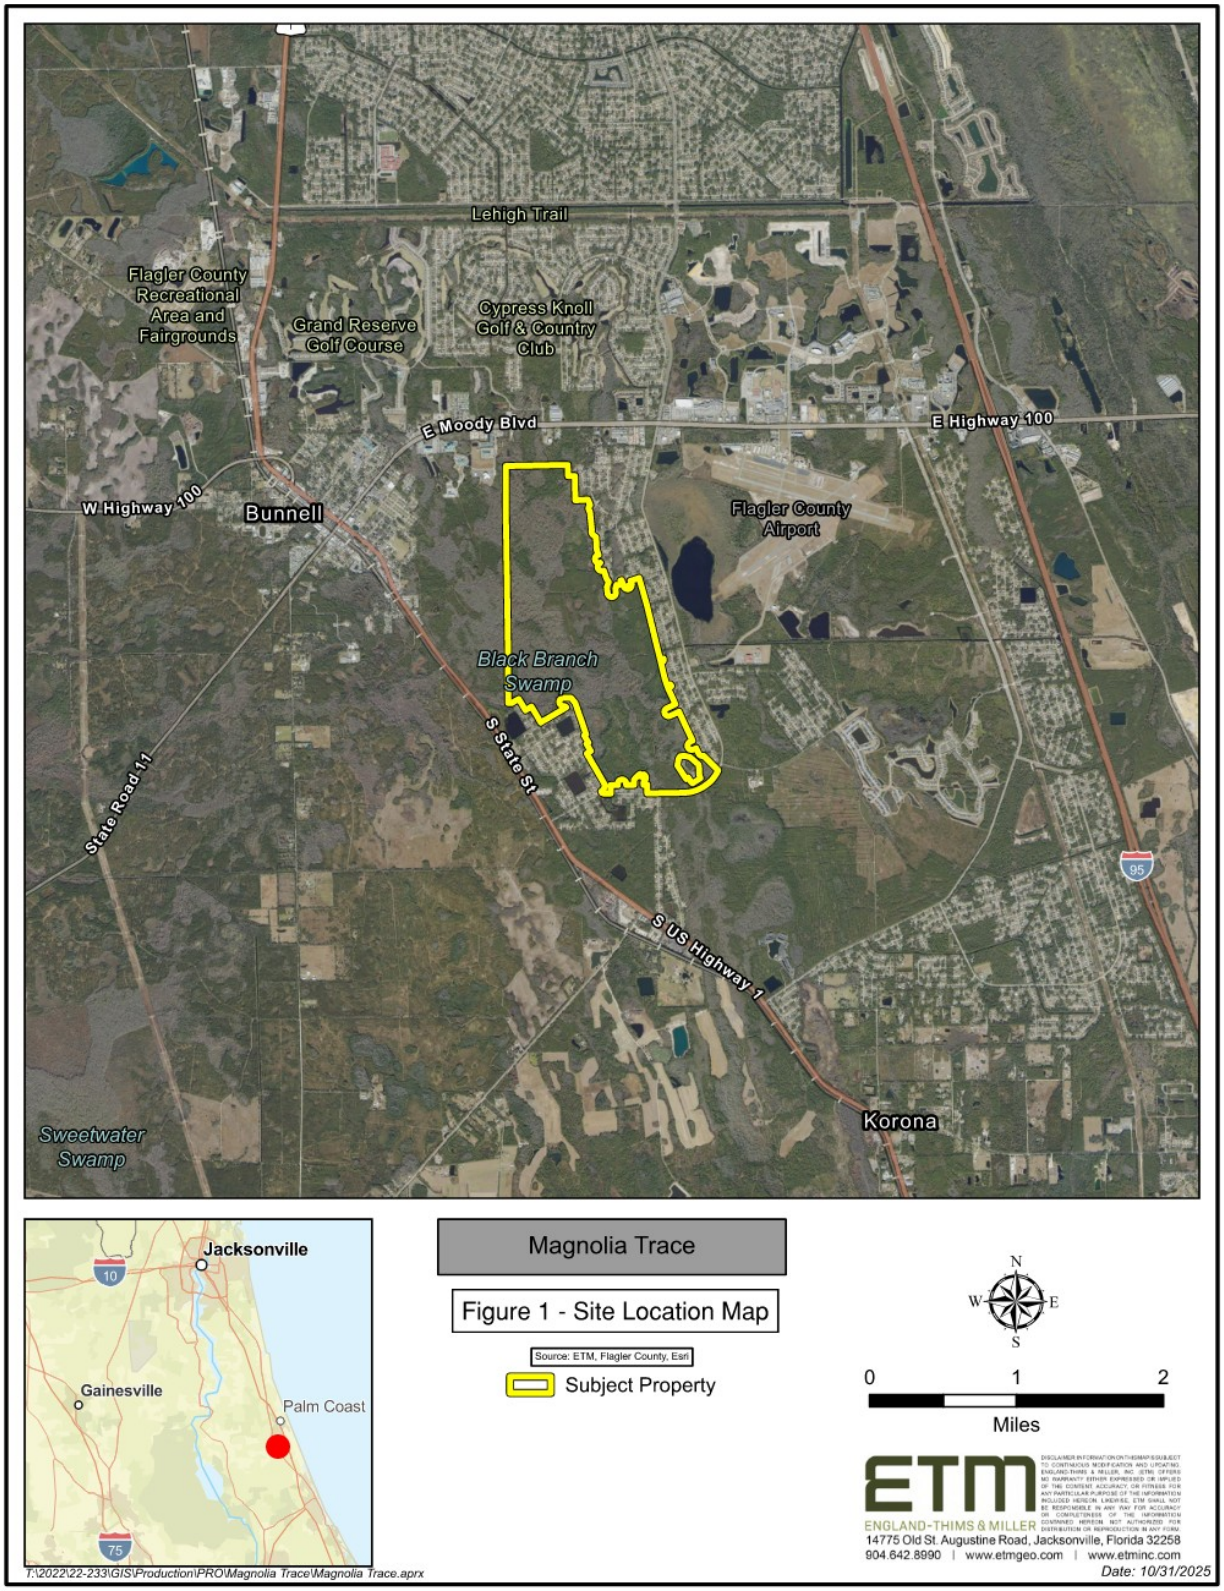
Re: **Magnolia Trace – Traffic Impact Analysis Methodology, Palm Coast, Florida**
ETM No. 22-233-02



Dear Mr. Nguyen:

England, Thims & Miller, Inc. (ETM) has been retained by GreenPointe Developers, LLC, to prepare a Traffic Impact Analysis (TIA) for the proposed Magnolia Trace development. The proposed project is located north of Belle Terre Boulevard and east of US 1 and in the City of Palm Coast, Florida. The development will access the external roadway network via two access driveways on Belle Terre Boulevard. A general location map is attached as **Figure 1** and the conceptual site plan as **Figure 2**.

The purpose of performing the TIA is to provide the necessary traffic operational information to obtain transportation concurrency for the proposed development illustrated in the conceptual site plan and to identify the potential impacts of the project. The project is expected to be fully developed and fully occupied by 2032 and will consist of approximately 382 single-family homes, 220 multifamily townhomes, 251 active adult housing and 35,000 square feet of retail space.

The City of Palm Coast has adopted the River to Sea Transportation Planning Organization (R2CTPO) TIA guidelines. In accordance with these guidelines, this letter outlines the proposed methodology used to guide the analysis.

Re: Magnolia Trace – TIA Methodology, Palm Coast, Florida - ETM No. 22-233-02

Re: Magnolia Trace – TIA Methodology, Palm Coast, Florida - ETM No. 22-233-02

Figure 2 – Conceptual Site Plan

Re: Magnolia Trace – TIA Methodology, Palm Coast, Florida - ETM No. 22-233-02

Analysis Period

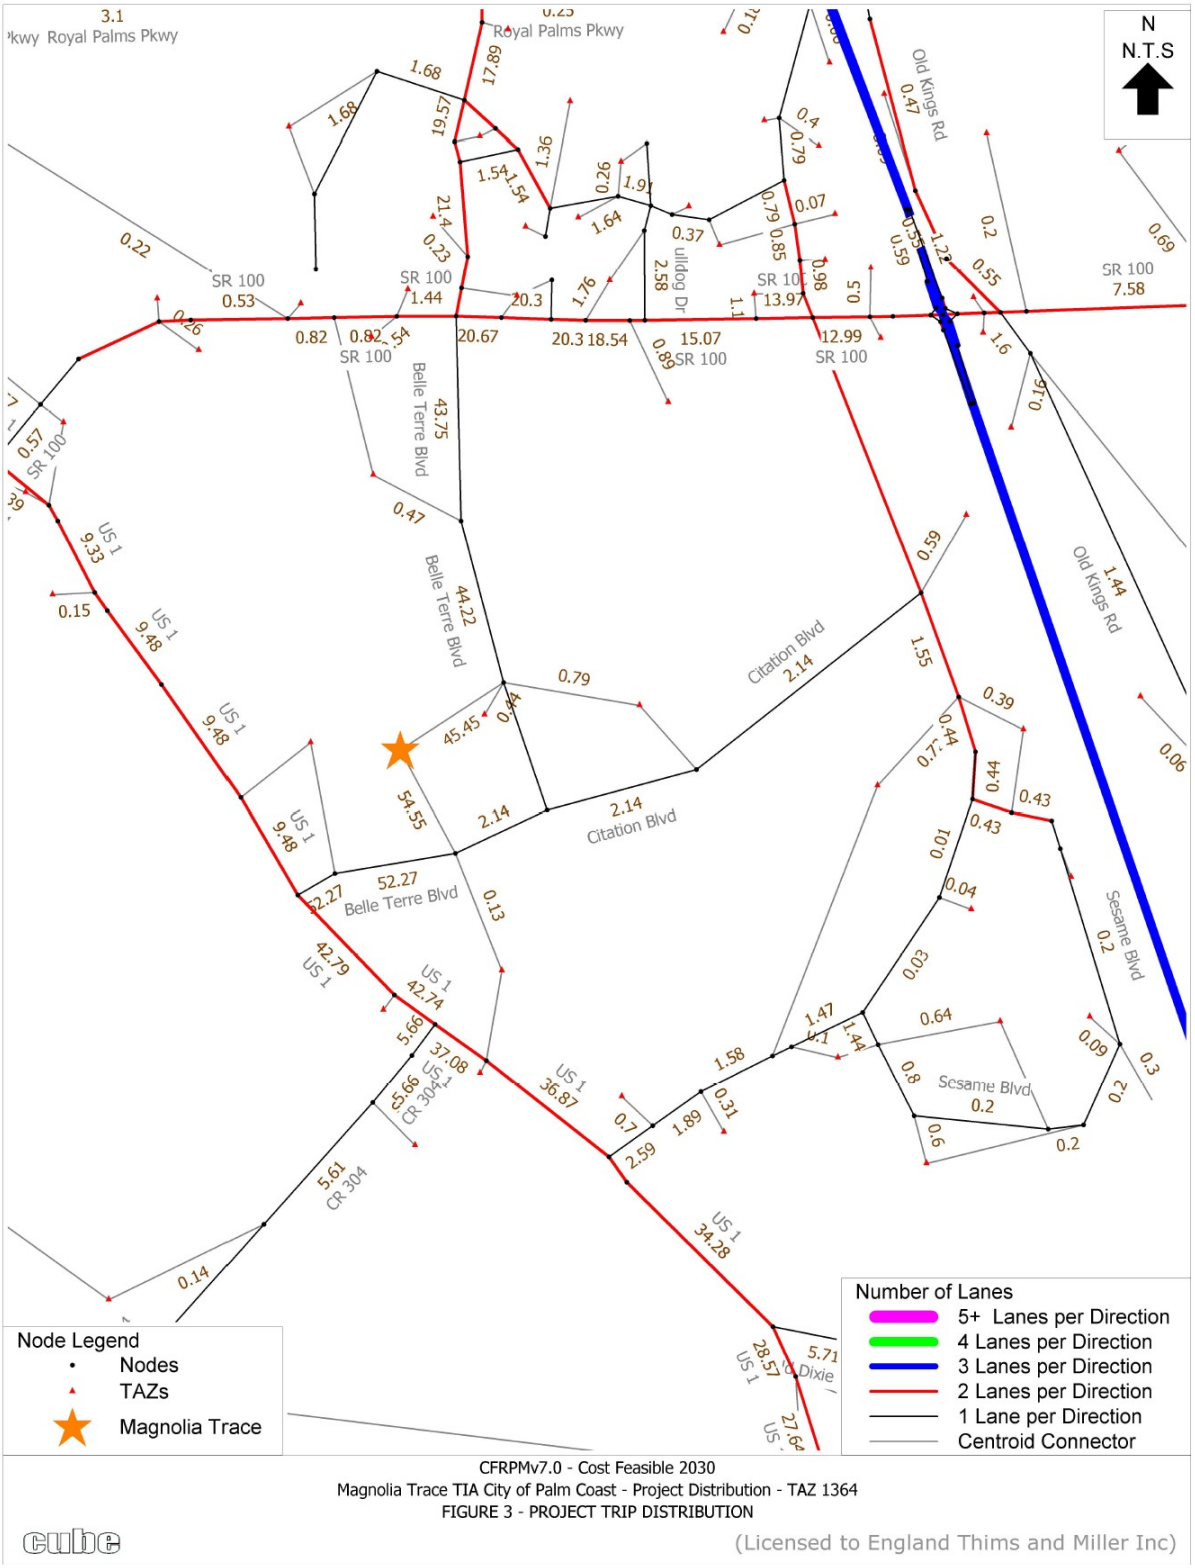
Roadway Segments and *Intersections* will be analyzed based on the PM peak-hour two-way traffic. The analysis will be conducted for the 2023 existing conditions, 2032 background conditions and 2032 full build-out conditions. The analysis will be based on the latest concurrency information obtained from the *City of Palm Coast* and the Florida Department of Transportation (FDOT).

Turning Movement Counts (TMCs) will be ordered at the following intersections:

- Belle Terre Boulevard and SR 100
- Belle Terre Boulevard and US 1
- Belle Terre Boulevard and Citation Boulevard
- Belle Terre Boulevard and Zonal Geranium Trail

Traffic Volumes

The analysis will be based on the latest traffic information obtained from the *City of Palm Coast Publix Works* and/or *Development Services Departments* and *FDOT*.



Project Trip Distribution

The *Central Florida Regional Planning Model*, *version 7.0 (CFRPM7)* was used to obtain the project trip distribution. The 2030 socio-economic (S/E) data sets were modified to include the proposed development and used a select link analysis to generate the distribution of the project's traffic. The project traffic distribution is graphically displayed in **Figure 3.**

Trip Generation

The PM peak-hour trip generation of the proposed development was determined by using the Institute of Transportation Engineer's (ITE) ***Trip Generation Manual***, *12th edition*. The proposed trip generation for the proposed development is shown in **Table 1**.

Re: Magnolia Trace – TIA Methodology, Palm Coast, Florida - ETM No. 22-233-02

Study Area

Per the R2CTPO guidelines, projects which generate more than 100 PM peak-hour two-way trips must include all roadway segments that are impacted by the proposed project to a level of three percent (3%) or more of the adopted maximum service volume (MSV) of roadway segment.

Using the estimated pm peak hour project trips and the project trip distribution, the project on each roadway segment in the area was estimated and compared to the MSV to determine which roadway segments in the area will be significantly impacted by the project. **Table 2** depicts the significance test on the major roadway network in the vicinity of the project.

Source: FDOT Quality/Level of Service Handbook, CFRPMv7

= Significantly Impacted Link

As indicated in **Table 2**, the following roadway segments and intersections are significantly impacted by the project and will be included in this analysis.

Roadway Segments

- Belle Terre Boulevard from SR 100 to Zebulas Trail
- Belle Terre Boulevard from Zaun Trail
- Belle Terre Boulevard from Citation Parkway to US 1
- US 1 from Belle Terre Parkway to Dupont Road
- US 1 from Dupont Road to Seminole Woods Parkway
- US 1 from Seminole Woods Parkway to Palm Coast City Limits

Re: Magnolia Trace – TIA Methodology, Palm Coast, Florida - ETM No. 22-233-02

Intersections

- Belle Terre Boulevard and SR 100
- Belle Terre Boulevard and US 1
- Belle Terre Boulevard and Citation Boulevard
- Belle Terre Boulevard and Zonal Geranium Trail

Total Traffic

The total traffic will be developed by adding the calculated project traffic on each facility to the estimated 2032 traffic. Growth rates for background traffic will be based on five years of historical growth. A minimum growth rate of one percent per year shall be used if the historical growth has been less than one percent per year.

Segment Analysis – Existing, Background and Total PM Peak Hour Traffic Conditions

The existing, background and total traffic volumes on each significantly impacted roadway segment will be compared to the maximum service volume for the segment to determine if the facility is operating at an acceptable level of service. A link specific capacity analysis may be conducted to determine the actual service volumes for a specific roadway segment (if authorized by the applicant). The procedures outlined in the most recent *FDOT Quality/Level of Service Handbook* will be used to conduct the analysis.

Intersection Analysis – Existing, Background and Total PM Peak Hour Traffic Conditions

An operational analysis of the existing and future PM Peak Hour traffic will be analyzed utilizing the methodologies and procedures contained in the *Highway Capacity Manual (HCM) 7th edition* using the *Synchro/Sim Traffic* software for signalized intersections. The operating conditions of existing, background and total traffic will be tabulated in the TIA Report. The need for turn lanes will be based on *FDOT*'s turn lane requirements.

Access Analysis

Access to the proposed development will be from two proposed full access driveways, one on Belle Terre Boulevard (South Access) and another on Zonal Geranium Trail which connects to Belle Terre Boulevard (North Access). The entrances will be analyzed for right and left turn lanes.

Alternative Travel Modes Analysis

The availability of alternative travel modes to and from the proposed development, inclusive of Paratransit, will be identified and discussed. Both pedestrian and bicycle mobility external to the site will also be included in the TIA.

Re: Magnolia Trace – TIA Methodology, Palm Coast, Florida - ETM No. 22-233-02

Improvements

If warranted, appropriate roadway and intersection improvements will be identified at buildout of the project including site access improvements. Mitigation or proportionate fair share calculations for significant and adverse impacts to City facilities will be made in accordance with the *City of Palm Coast Engineering and Construction* process and procedures.

Land Use Conversion Table

The following conversion table was established to provide a simple tool for evaluating development opportunities while maintaining consistency in traffic generation across the project. A land use conversion table is illustrated in **Table 3**. The average PM peak hour trip rate was used for each expected land use from the *ITE Trip Generation Manual 12th Edition*. No internal capture was considered. A detailed trip generation analysis including pass-by and internal capture may be submitted at the time of conversion if the developer elects to or if the proposed land use is not listed in **Table 3**.

Table 3
Magnolia Trace
Land Use Conversion Table

Trip Generation Rate Calculations			
Land Use	*ITE LUC*	*Independent Variable*	*PM Peak Hour Ave Trip Rate*
Single-Family Detached Housing	210	DU	0.93
Multi-family Low-Rise	220	DU	0.52
Multi-family Mid-Rise	221	DU	0.38
Senior Adult Housing—Single-Family	251	DU	0.29
Senior Adult Housing—Multifamily	252	DU	0.25

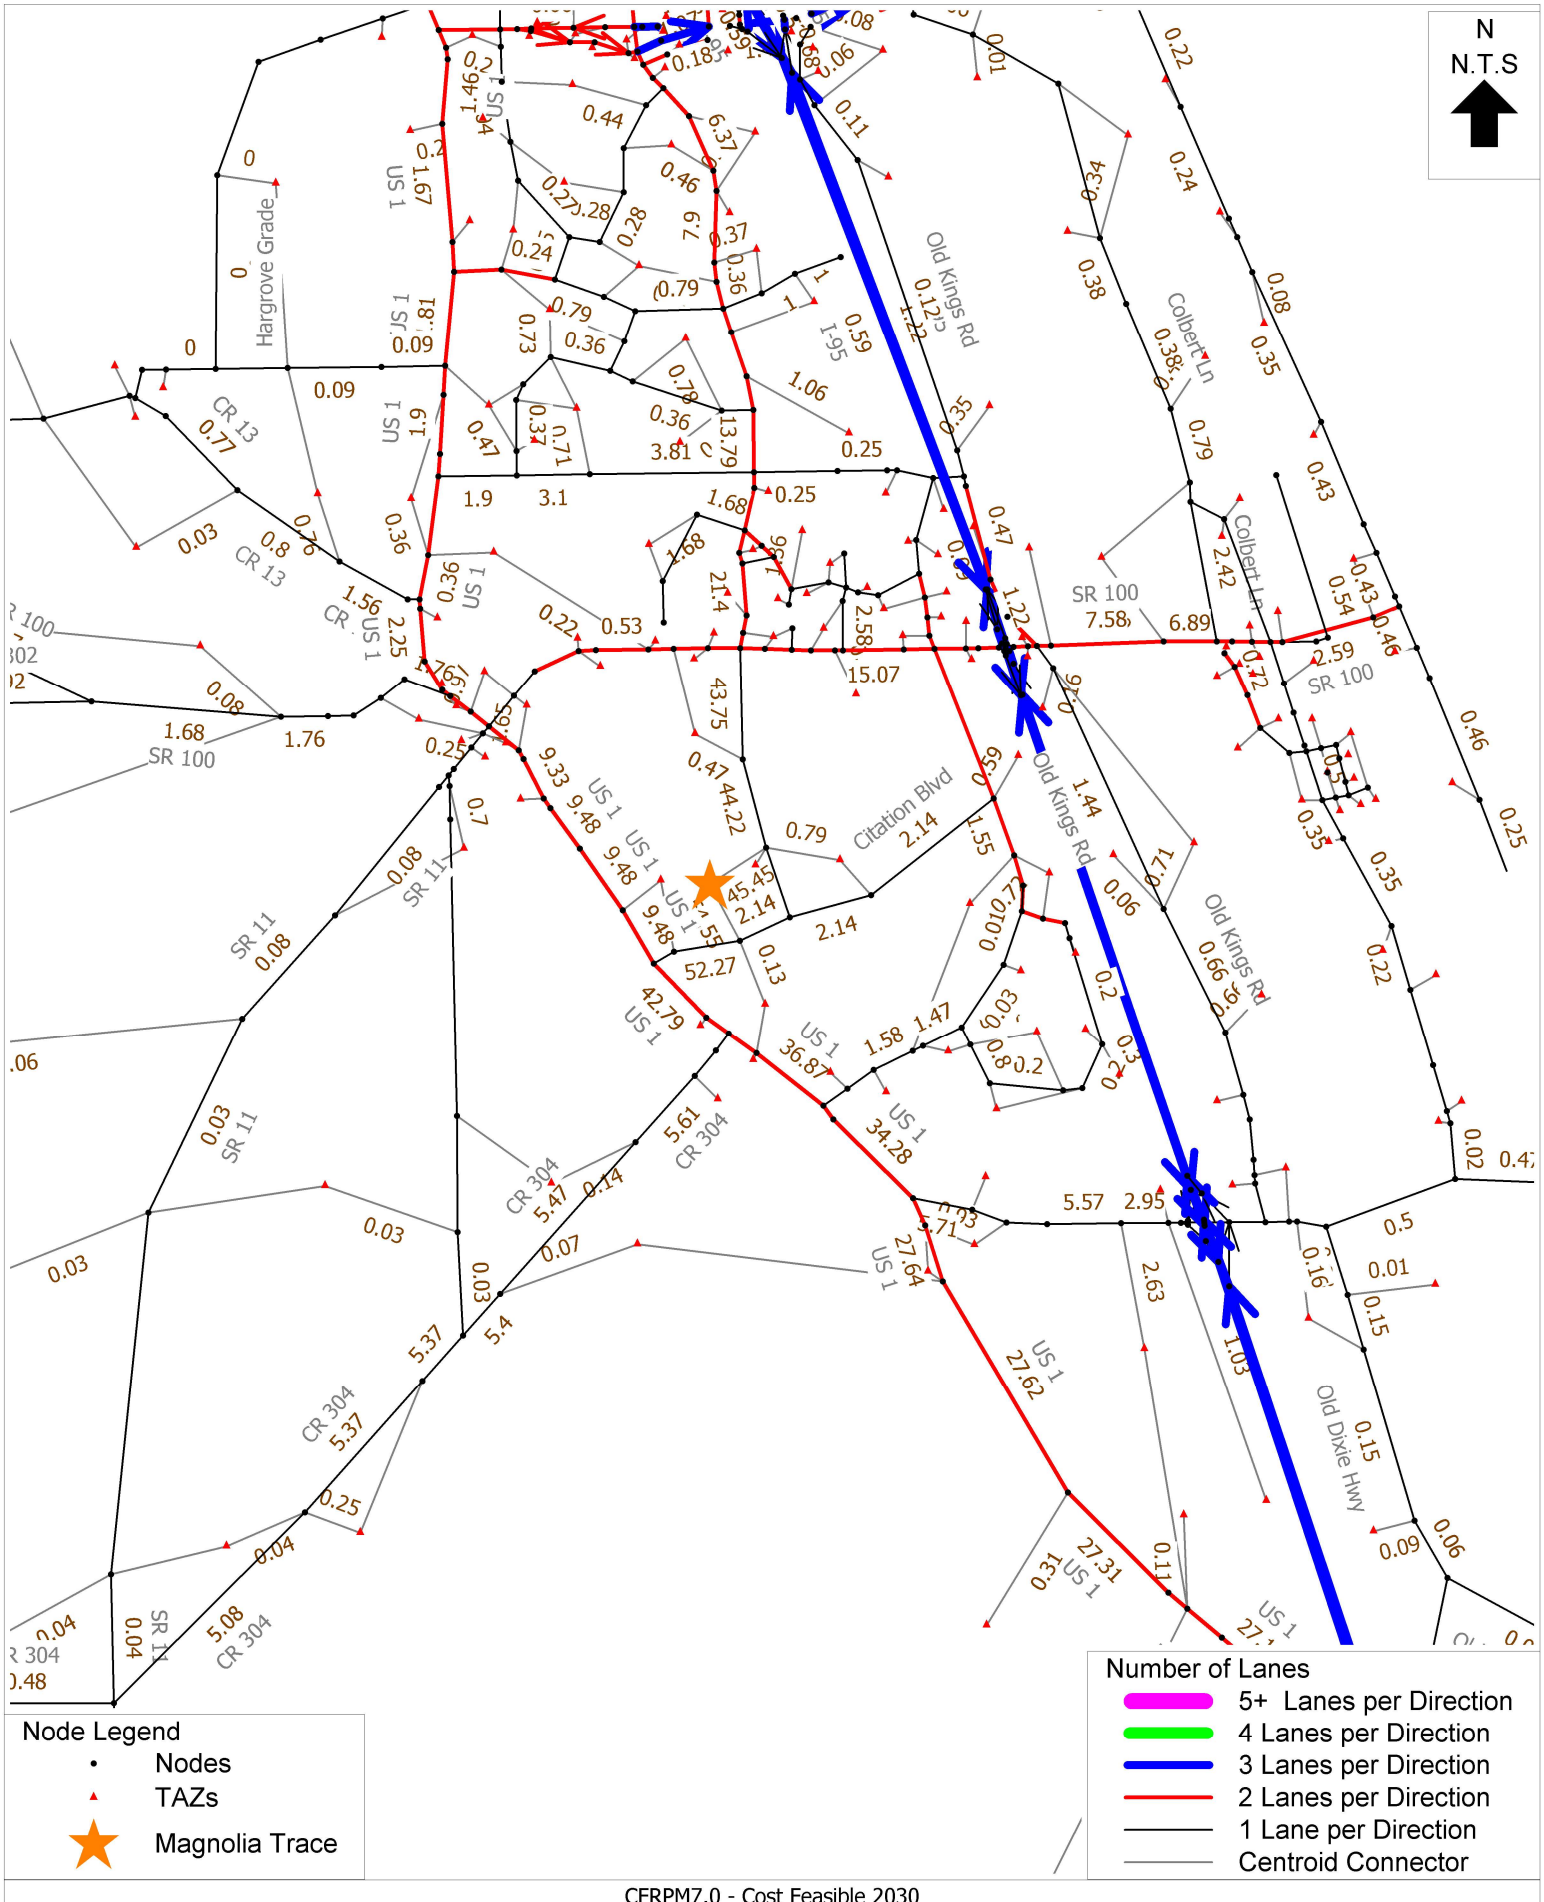
Note: Average PM peak hour trip rate calculated using the following criteria:
1) Trip rate from the ITE's Trip Generation Manual, 12th Edition
2) No Pass-by considered
3) No Internal Capture considered

TO: / FROM:	Single-Family Detached Housing (DU)	Multi-family Low-Rise (DU)	Multi-family Mid-Rise (DU)	Senior Adult Housing—Single-Family (DU)	Senior Adult Housing—Multifamily (DU)
Single-Family Detached Housing	1	1.79	2.4474	3.2069	3.7200
Multi-family Low-Rise	0.56	1	1.3684	1.7931	2.0800
Multi-family Mid-Rise	0.41	0.7308	1	1.3103	1.5200
Senior Adult Housing—Single-Family	0.31	0.5577	0.7632	1	1.1600
Senior Adult Housing—Multifamily	0.27	0.4808	0.6579	0.8621	1

Example: Convert 100 Du's of Single Family Residential to Multi-family Low-Rise
100 x 1.79 = 179
100 Single Family Dwelling Units is equivalent to 179 Multi-family Low-Rise units

Re: Magnolia Trace – TIA Methodology, Palm Coast, Florida - ETM No. 22-233-02

Please review the proposed methodology and advise if the *City of Palm Coast* is in agreement with the methodology as proposed. If you have any questions or need additional information, please advise.



Sincerely,
ENGLAND, THIMS & MILLER, INC.

Thomas L. Hatcher, P.E., PTOE, PTP
Senior Transportation Engineer, Shareholder

Introduction

- The Signal Warrant Analysis Spreadsheets are a tool for assisting traffic engineers when evaluating the need for a traffic signal installation
- The filled spreadsheets can be used as part of the supporting documents for the signal warrant evaluation

Note: This templates are a useful resource, but it remains necessary to apply engineering judgment and to consider specific environmental, traffic, geometric, and operational conditions

Instructions

Fill in "Orange" areas only	
Automated cells based on in Input Data in "orange" cells	
General Information	Fill in below the general information including: District, County (drop-down menu) City, Engineer, Date Major and Minor Street with corresponding number of lanes and speed limits
Enter Eight Hour Volumes	Any 8 hours of an average day. Major-street and minor-street volumes shall be for the same 8 hours; however, the 8 hours satisfied in Condition A shall **not** be required to be the same 8 hours satisfied in Condition B **for 80% columns only.** On the minor street, the higher volume shall not be required to be on the same approach during each of the 8 hours.
Enter Four Hour Volumes	Any 4 hours of an average day. Vehicles per hour on the major street (total of both approaches) and the corresponding vehicles per hour on the higher-volume minor-street approach (one direction only, not required to be on the same approach during each of the 4 hours)
Enter Pedestrian Volumes (4-hr)	Pedestrians per hour crossing the major street (t The volume requirement of warrant 2 is satisfied in the existing condition.
Enter Peak Hour Volumes	Vehicular: Any four consecutive 15-minute periods of an average day Pedestrian: Any four consecutive 15-minute periods of an average day representing the vehicles per hour on the major street (total of both approaches) and the corresponding pedestrians per hour crossing the major street (total of all crossings)

Volume Level Criteria

1. Is the posted speed or 85th-percentile of major street > 40 mph (70 km/h)? ☑ Yes ☐ No
2. Is the intersection in a built-up area of an isolated community with a population < 10,000? ☐ Yes ☑ No

"70%" volume level **may** be used if Question 1 **or** 2 above is answered "Yes" ☑ 70% ☐ 100%

WARRANT 1 - EIGHT-HOUR VEHICULAR VOLUME

Warrant 1 is satisfied if Condition A or Condition B is "100%" satisfied for eight hours. ☐ Yes ☑ No

Warrant 1 is also satisfied if both Condition A and Condition B are "80%" satisfied (should only be applied after an adequate trial of other alternatives that could cause less delay and inconvenience to traffic has failed to solve the traffic problems). ☐ Yes ☑ No

Condition A - Minimum Vehicular Volume

Condition A is intended for application at locations where a large volume of intersecting traffic is the principal reason to consider installing a traffic control signal.

100% Satisfied: ☐ Yes ☑ No
80% Satisfied: ☐ Yes ☑ No
70% Satisfied: ☐ Yes ☑ No

Number of Lanes for moving traffic on each approach		Vehicles per hour on major-street (total of both approaches)			Vehicles per hour on minor-street (one direction only)		
Major	**Minor**	**100%[a]**	**80%[b]**	**70%[c]**	**100%[a]**	**80%[b]**	**70%[c]**
1	1	500	400	350	150	120	105
2 or more	1	600	480	420	150	120	105
2 or more	2 or more	600	480	420	200	160	140
1	2 or more	500	400	350	200	160	140

[a] Basic Minimum hourly volume
[b] Used for combination of Conditions A and B after adequate trial of other remedial measures
[c] May be used when the major-street speed exceeds 40 mph or in an isolated community with a population of less than 10,000

Record 8 highest hours and the corresponding major-street and minor-street volumes in the Instructions Sheet.

Street	Eight Highest Hours							
	7:00 AM	**8:00 AM**	**12:00 PM**	**1:00 PM**	**2:00 PM**	**3:00 PM**	**4:00 PM**	**5:00 PM**
Major	517	542	535	462	542	685	611	585
Minor	76	78	95	102	100	95	89	93

State of Florida Department of Transportation

TSWA - Buildout (2031)

Condition B - Interruption of Continuous Traffic

Condition B is intended for application where Condition A is not satisfied and the traffic volume on a major street is so heavy that traffic on the minor intersecting street suffers excessive delay or conflict in entering or crossing the major street.

Applicable:	☑ Yes	☐ No
100% Satisfied:	☐ Yes	☑ No
80% Satisfied:	☐ Yes	☑ No
70% Satisfied:	☐ Yes	☑ No

Number of Lanes for moving traffic on each approach		Vehicles per hour on major-street (total of both approaches)			Vehicles per hour on minor-street (one direction only)

Appendix N

(COPC Turn Lane Guidelines November 2020)

Palm Coast Draft Turn Lane Technical Guidelines on November 10, 2020

Attachment 4A

The purpose of this document is to assist the City and design professionals regarding turn lane design as part of a development for a property accessing a City street. It determines:

a) when a turn lane is required to be built as a condition of access to the City street, and
b) the required dimensions of the turn lane.

These guidelines provide guidance for developers on what to expect for design and construction requirements on a roadway connecting to their driveway (entrance) when developing a property.

Turn lanes for left-turning and right-turning traffic are desirable for the safe execution of speed change maneuvers. Turn lanes also allow for the storage and protection of left-turning or right-turning vehicles while allowing through traffic to pass safely with minimal induced delay.

Deceleration lanes shall be provided at all intersection and/or access points adjacent to the project on all City-maintained and privately-maintained roadways as required by these guidelines. (Turn lanes along Flagler County owned roadways will be determined by Flagler County after receiving input from the City.) However, these guidelines shall not be construed in any manner to allow a left-turn lane and/or a right-turn lane into a project where such turning movement is not approved by the City.

All table values referenced in this document presume design of a single turn lane. The City will use the latest edition of the Florida Department of Transportation's (FDOT's) publication: "Standard Plans and Manual of Uniform Minimum Standards for Design, Construction and Maintenance for Streets and Highways" (commonly referred to as the "Florida Greenbook") as a design reference. The City will be the sole judge, when backed by engineering analysis, to define whether a multi-lane turn lane design is adequate in dimension.

Turn Volume Thresholds that Require the Addition of a Dedicated Left Turn Lane from the City Street

A left turn lane shall be provided at each access driveway of the project when a Left-Turning Vehicle (LTV) count during a Peak Hour (Weekday AM, Weekday PM, Weekend Mid-Day) from the City roadway entering that driveway meets or exceeds the criteria below. The roadway column in the table below shall be utilized for the type and volume of traffic on the roadway from where the turn would originate and shall be based on the Average Annual Daily Traffic (AADT) from the City's bi-annual traffic counts and projected forward including background traffic from other projects, as determined by the City, until the time when the project and its driveway are reasonably expected to finish construction and be open.

Left Turn Lane Thresholds

Posted Speed Limit	2 Lane Roadways AADT of 5,000 or less	2 Lane Roadways AADT over 5,000	4+ Lane Roadways AADT of 10,000 or less	4+ Lane Roadways AADT over 10,000
Up to 25 mph	40 LTV/Peak Hour	35 LTV/Peak Hour	50 LTV/Peak Hour	40 LTV/Peak Hour
30 - 35 mph	30 LTV/Peak Hour	25 LTV/Peak Hour	35 LTV/Peak Hour	25 LTV/Peak Hour
40 + mph	20 LTV/Peak Hour	15 LTV/Peak Hour	25 LTV/Peak Hour	20 LTV/Peak Hour

Turn Volume Thresholds that Require the Addition of a Dedicated Right Turn Lane from the City Street

A right turn lane shall be provided at each access driveway of the project when a Right-Turning Vehicle (RTV) count during a Peak Hour (Weekday AM, Weekday PM, Weekend Mid-Day) from the City roadway entering that driveway meets or exceeds the criteria below. The roadway column in the table below shall be utilized for the type and volume of traffic on the roadway from where the turn would originate and shall

be based on the AADT from the City's bi-annual traffic counts and projected forward including background traffic from other projects, as determined by the City, until the time when the project and its driveway are reasonably expected to finish construction and be open.

Right Turn Lane Thresholds

Posted Speed	2 Lane Roadways	2 Lane Roadways	4+ Lane Roadways	4+ Lane Roadways
Limit	AADT of 5,000 or less	AADT over 5,000	AADT of 10,000 or less	AADT over 10,000
Up to 25 mph	175 RTV/Peak Hour	150 RTV/Peak Hour	155 RTV/Peak Hour	120 RTV/Peak Hour
30 - 35 mph	120 RTV/Peak Hour	100 RTV/Peak Hour	100 RTV/Peak Hour	70 RTV/Peak Hour
40 + mph	70 RTV/Peak Hour	60 RTV/Peak Hour	60 RTV/Peak Hour	40 RTV/Peak Hour

Other Criteria

When a project's driveway meets at least 75% of the above thresholds for Peak Hour (Weekday AM, Weekday PM or Weekend Mid-Day) left or right turns and at least one of the following criteria is also present, the City, in its sole judgment, may require the developer to provide the turn lane.

1. Sight distance is limited due to curves or hills or other unalterable object.
2. The intersection or driveway is just after a signalized intersection where acceleration or driver expectancy would make a separate right turn desirable (this would also be the case downstream soon after a dual left-turn lane onto a four-lane roadway).
3. At least 50% higher than normal crash experience (or 33% above normal rear-end collisions) or the City has determined that this roadway section has a Level of Service (LOS) of D or lower.
4. Severe skewed angle of the intersection so that right-turn traffic has to slow more than would be expected for a 90-degree turn.
5. The turn-lane into the project occurs at an existing or proposed signalized intersection where adequate right-of-way exists or is available from the development.

Construction Timing

Turn lanes shall be constructed with the infrastructure and prior to the vertical construction of any buildings unless the City allows some of the vertical building construction prior to completion of the turn lanes. When a project is phased, the turn lanes shall be constructed with the earliest phase that the turn lane meets at least 50% of the criteria for requiring the turn lane.

Turn Lane Design Standards

A turn lane shall consist of the following components: A taper and a full width lane length of a turn lane. The total length of the turn lane shall be the taper length plus the full width lane length.

A taper shall be the longitudinal length of a development of a lane from zero width to full width. Find the length of taper required in the tables below (See Sections *Left turn Lane Table* and *Right Turn Lane Table*).

Turn lane widths shall be a minimum of 11 feet on roadways where the posted speed is 40 mph or less (see exceptions in next sentence).

Turn lane widths, when turn lanes are required, shall be a minimum of 12 feet on roadways where at least one condition below is present:

1. Where the posted speed is 45 mph or greater.
2. With more than two lanes of opposing traffic.
3. With medians at least 16 feet wide separating opposing traffic lanes.

Turn lane length shall be measured along the lane segment constructed at full lane width. The required turn lane length of right turn lanes and left turn lanes exiting the City street shall be determined by choosing the greater of:

1. The minimum full width turn lane length. The minimum full width turn lane length shall be 75 feet.
2. The calculation of full width turn lane length based on conditions in the following tables. Total required full width turn lane length shall be the sum of the deceleration length dimension (See Left Turn Lane Table; See Right Turn Lane Table) plus the storage length dimension (see Storage Length Dimension Table - SLDT).

Shorter turn lanes will not be allowed except under special circumstances as approved by the City.

Storage Length Dimension Table For Unsignalized Intersections*

Largest Peak Hour Volume in Vehicles Per Hour (vph)	Storage Length (feet)*
Up to 25	30
26 to 50	50
51 to 75	75
76 to 100	100
Every additional increment, or partial increment, of 50 vph	75

**Per FDOT Greenbook*

Dimensions in the SLDT presume the traffic in the turn lane consists of less than 5% heavy vehicles (where a heavy vehicle is any vehicle longer than 34 feet including a trailer). If heavy vehicle percentage will be between 5% and 20% of turning vehicles, increase storage length by 20%. If heavy vehicle percentage will be greater than 20% of turning vehicles, increase storage length by 100%.

Left Turn Lane Length

The requirements for lengths of tapers, deceleration and storage for left turn lanes are based on the speed limit of the road and are shown in the following table:

Left Turn Lane Table For Unsignalized Intersections*

Posted Speed Limit Of Roadway (mph)	Length of Taper (feet)	Length of Deceleration (feet)	Length of Storage (feet)*
Up to 25	50	0	100% of SLDT Value
30	75	0	100% of SLDT Value
35	75	75	100% of SLDT Value
40	90	75	100% of SLDT Value
45	100	100	100% of SLDT Value
50	100	135	100% of SLDT Value

**For 2 Lane Roadways less than 5,000 ADT and for 4-Lane Roadways less than 10,000 ADT, reduce the 100% qualification to 70%.Per FDOT Greenbook*

Total required full width turn lane length shall be the sum of the deceleration length dimension plus the storage length dimension. The taper is not considered part of the full width turn lane length.

Right Turn Lane Length

The requirements for lengths of tapers, deceleration and storage for right turn lanes are based on the speed limit of the road and are shown in the following table:

Right Turn Lane Table For Unsignalized Intersections*

Posted Speed Limit Of Roadway (mph)	Length of Taper (feet)	Length of Deceleration (feet)	Length of Storage (feet) Stop Condition	Length of Storage (feet) Free Flow
Up to 25	50	0	50% of SLDT Value	0
30	75	0	50% of SLDT Value	0
35	100	75	50% of SLDT Value	25% of SLDT Value
40	100	75	60% of SLDT Value	30% of SLDT Value
45	100	100	75% of SLDT Value	35% of SLDT Value
50 +	100	135	80% of SLDT Value	45% of SLDT Value

**Per FDOT Greenbook*

Total required full width turn lane length shall be the sum of the deceleration length dimension plus the storage length dimension. The taper is not considered part of the full width turn lane length. Right turn lane lengths at traffic signal controlled intersections shall be based on queue lengths determined through an engineering traffic study.

Deviations

The City may grant a deviation from these guidelines in part or in whole after determining that any of the following conditions make compliance infeasible:

1. Right-of-way constraints do not permit the installation of the turn lane or to its full dimensions. This does not include cases where the developer is unwilling to provide the developer's own property from the development under consideration for additional right-of-way to construct or compensate for the turn lane.
2. Existing topographic or roadway geometric features would cause construction of the turn lane to be prohibitively expensive if constructed to standards.
3. Unusual roadway features would cause a turn lane to be detrimental to the health, safety and general welfare of the public. This could include a case where a right-turn lane could negatively impact bicyclists or pedestrians.
4. Such turn lane or in its full dimension would require removal of a specimen or historic tree as described in Section 11.02.04.A of the Land Development Code or significantly impact a high quality wetland.

Calculation Examples

Example 1

A 30 mph 2 lane 2-way road. AADT of 4,000. Heavy Truck percentage into property: 15%. Largest Peak Hour projected left turns: 32 vph. Largest Peak Hour Projected Right Turns 62 vph.

Compare to Turn Volumes Threshold Tables

Is Left Turn lane required? 32 vph > 30 LTV threshold Yes. Left turn lane is required.

Is Right Turn lane required? 62 vph < 120 RTV threshold. No. Right turn lane is not required.

Calculate Left turn Length

See Left Turn Lane Table

For 30 mph,

Taper = 75 feet

Deceleration Length = 0 feet

SLDT for 32 vph = 50 feet

Truck factor for 5 to 20% trucks = 1.2

Full width length = 0 + (1.2 * 50) = 60 feet round up to nearest 10 feet → 60 feet

Final answer: Left turn lane length = 50 foot taper plus 60 feet full width lane = 110 feet.

Full width lane = 11 feet for 30 mph road with no special conditions.

Note: The transition from the typical two-lane width to the beginning of taper is covered in the FDOT Greenbook, which is referenced as the design guidelines for the transition.

Example 2

A 45 mph 4 lane road with divided median. AADT of 12,800. Heavy Truck percentage into property: 2 to 4%. Largest Peak Hour projected Left turns: 44 vph. Largest Peak Hour Projected Right Turns 164 vph.

Compare to Turn Volumes Threshold Tables

Is Left Turn lane required? 44 vph > 20 LTV threshold Yes. Left turn lane is required.

Is Right Turn lane required? 164 vph > 40 RTV threshold Yes. Right turn lane is required.

Calculate Left turn Length

See Left Turn Lane Table

For 45 mph

Taper = 100 feet

Deceleration Length = 100 feet (deceleration occurs in taper)

SLDT for 44 vph = 50 feet

Truck factor for 2-4% trucks = 1.0

Full width length = 100 + (1.0 * 50) = 150 feet round up to nearest 10 feet → 150 feet

Final answer: Left turn lane length = 100 foot taper plus 150 feet full width lane = 250 feet.

Full width lane = 12 feet for 45 mph road

Calculate Right Turn Length

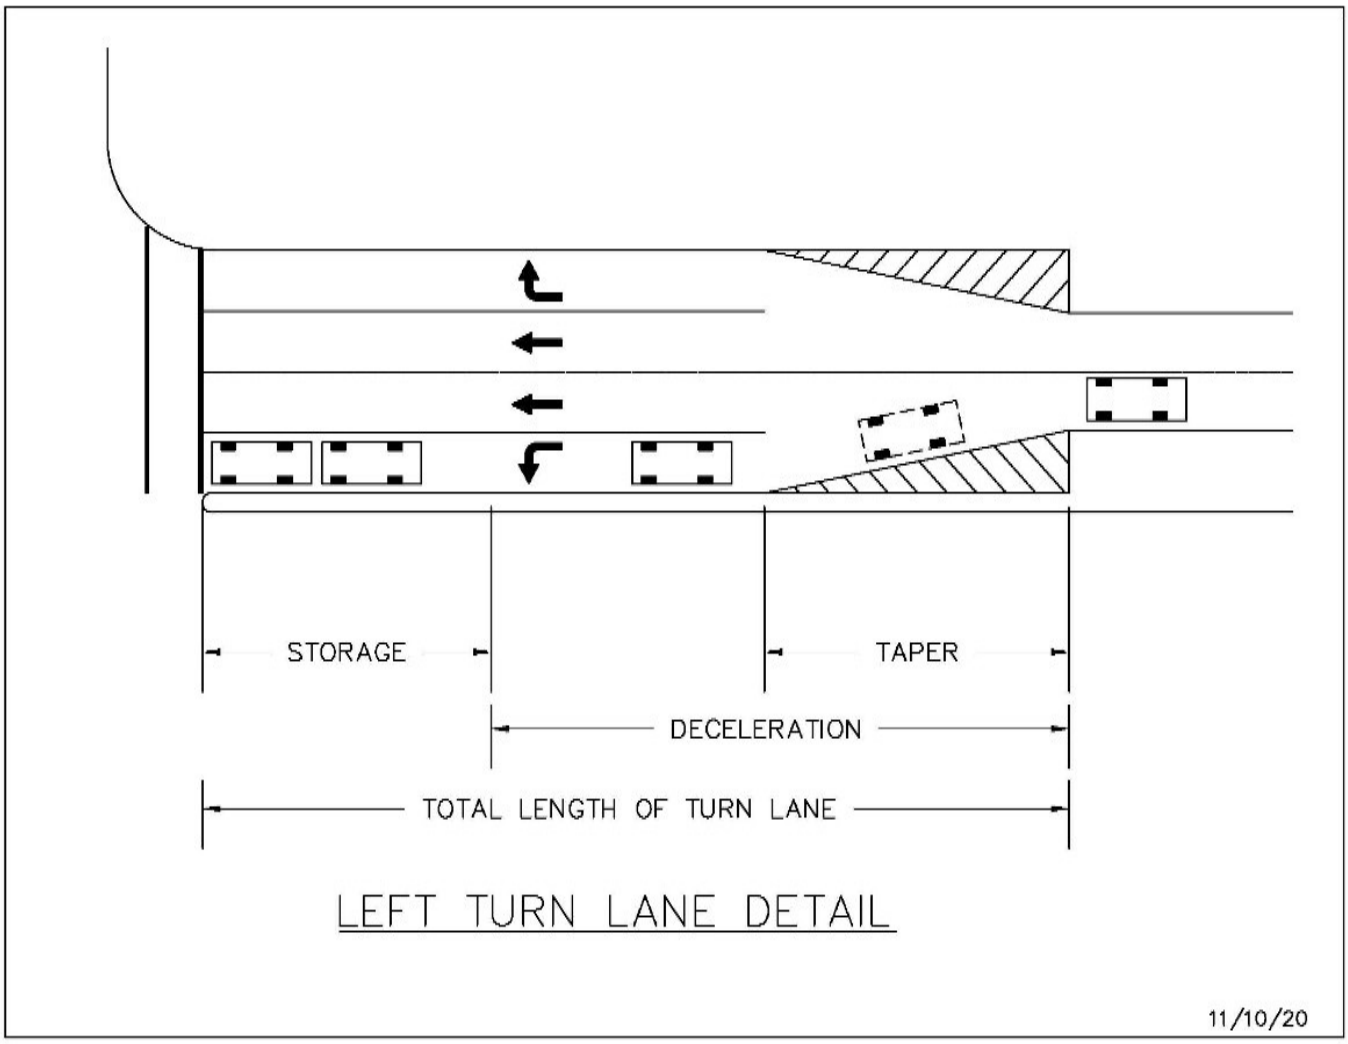
See Right Turn Lane Table

For 45 mph

Taper = 100 feet

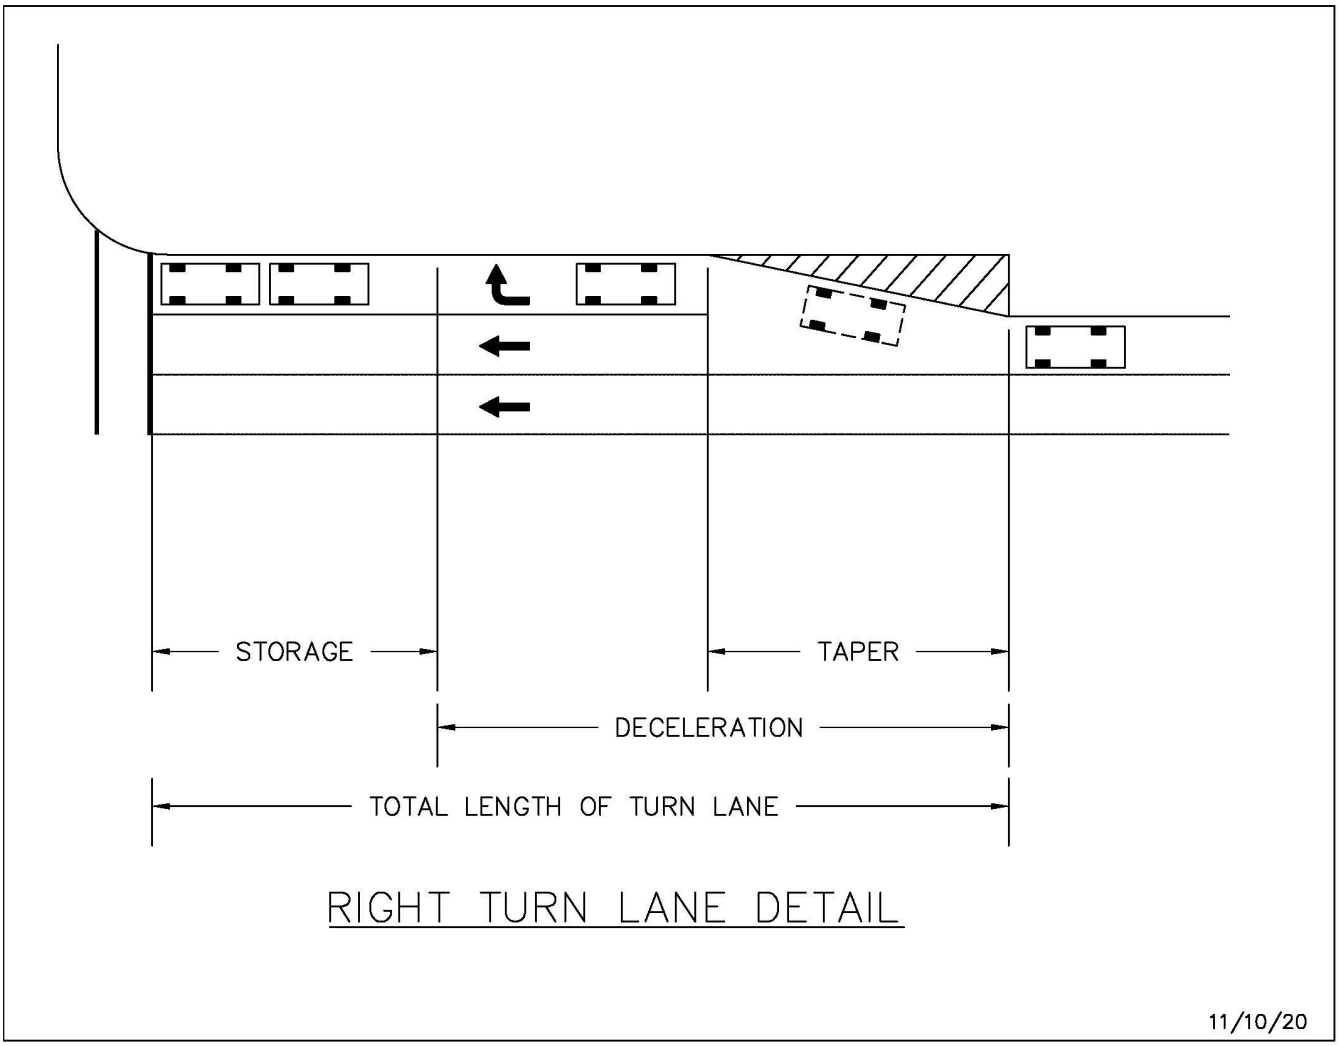
Deceleration Length = 100 feet (deceleration occurs in taper)

SLDT for 164 vph = 100 feet plus two units of 50 vph = 100 + (2.0*75) = 250 feet



Truck factor for 2-4% trucks = 1.0

Full width length = 100 + (1.0 *((0.75) * 250)) = 100 + 187.5 feet = 287.5 feet round up to nearest 10 feet -> 290 feet



Final answer: Right turn lane length = 100 foot taper plus 290 feet full width lane = 390 feet.

Full width lane = 12 feet for 45 mph road.

Re: Service Availability for **Magnolia Trace (Parcels #24-12-31-4150-00T50-0000, 19-12-31-4120-00T20-0000, 19-12-31-4130-00T30-0000 and 24-12-31-4140-00T40-0000)** Palm Coast Florida City of Palm Coast, Flagler County.

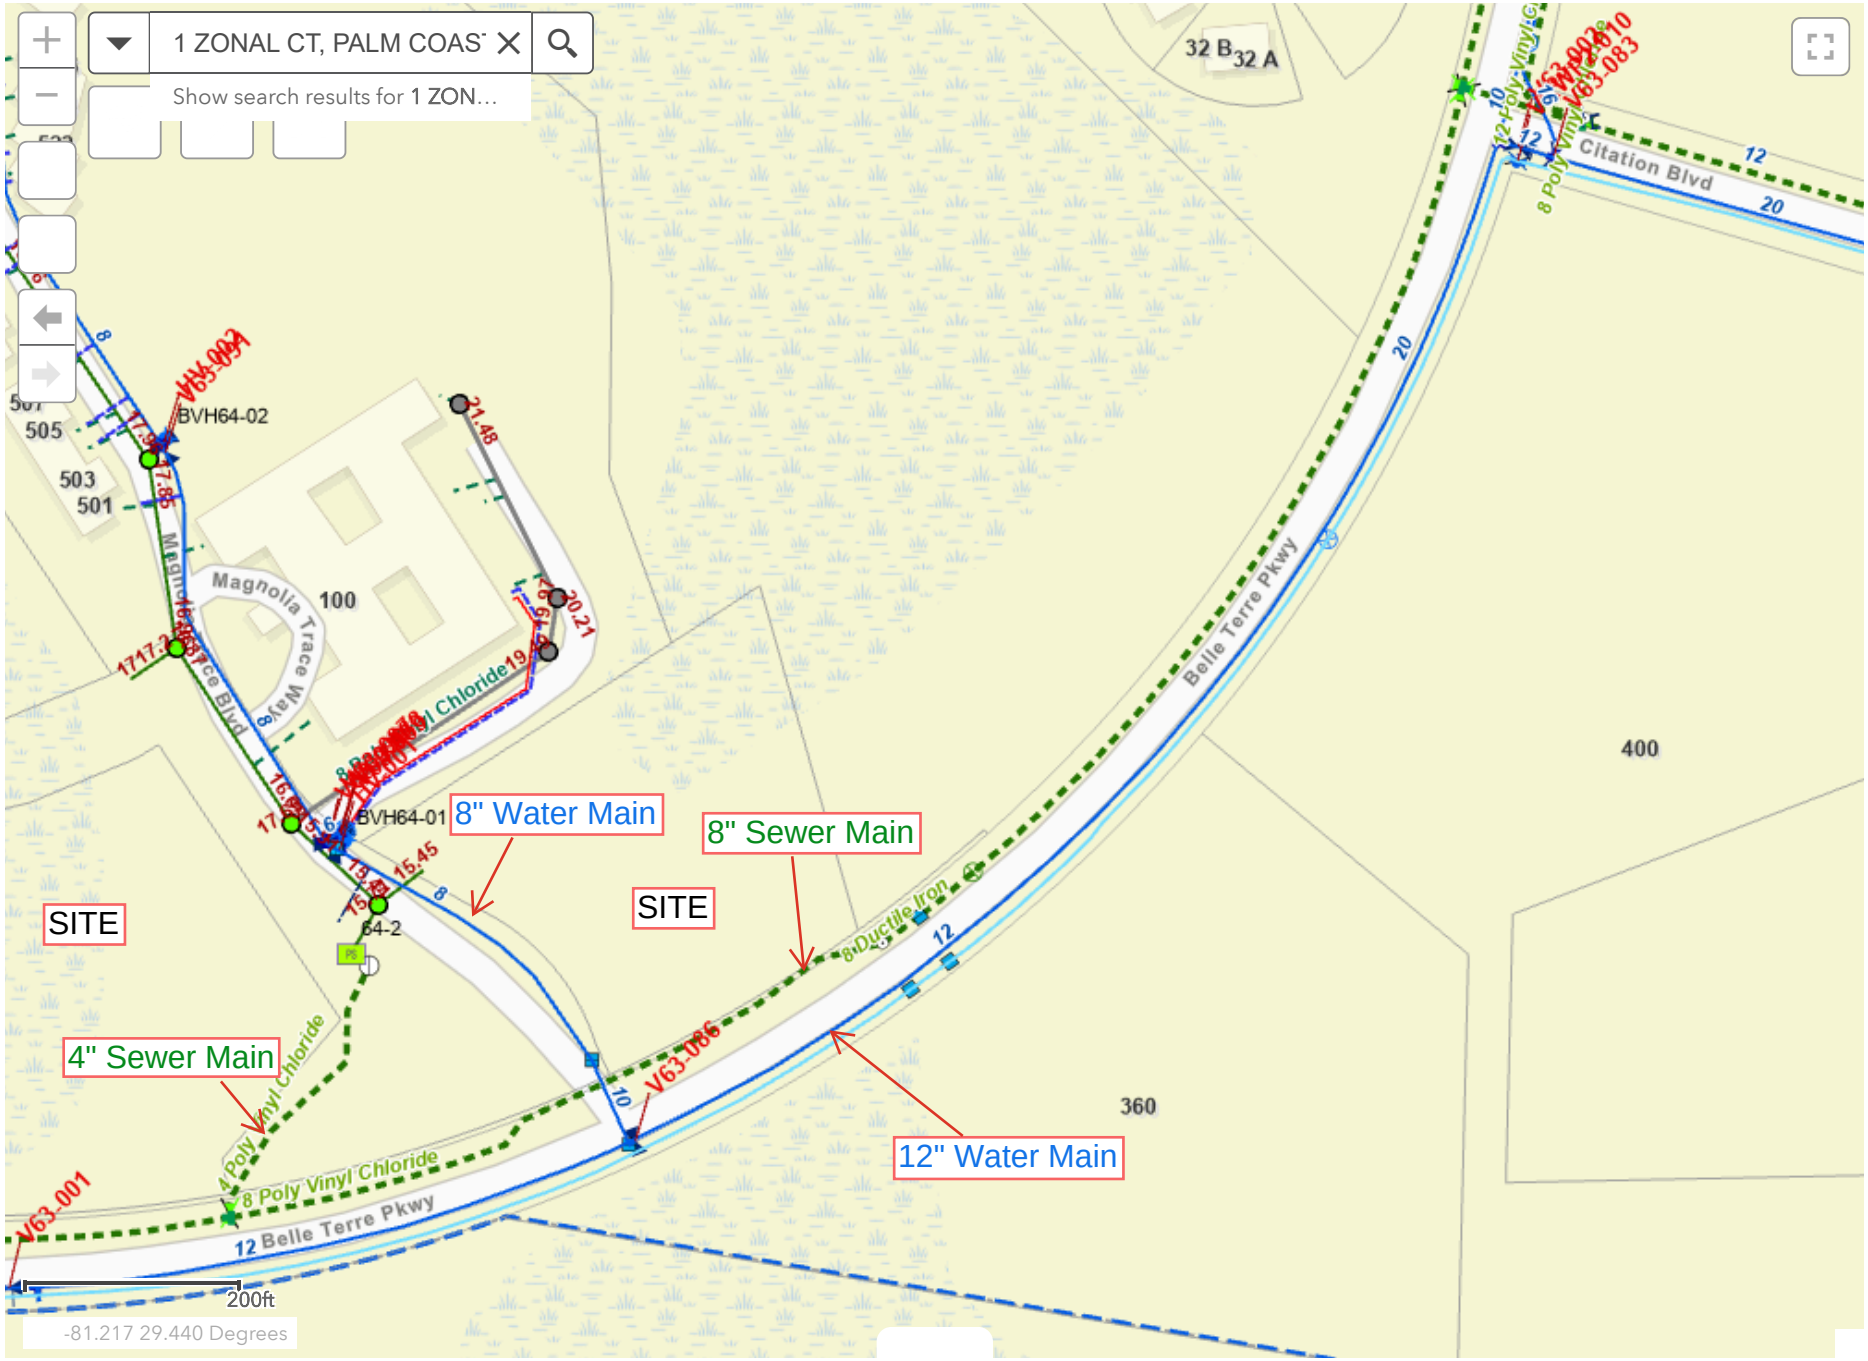
This letter confirms that City of Palm Coast is the water and wastewater service provider to the referenced property in Flagler County, Florida. Enclosed are copies of the system maps of the City's utility system showing existing water and wastewater mains in the area, as the City believes that they exist, for your use in project design. No representation is made as to the precise location of facilities. It is your responsibility to ensure that utility lines and other facilities are located at locations and in a sufficient condition to meet the requirements of your proposed development and the requirements of the City.

If a main extension is required, the design, permitting, and construction of the extension are your responsibility. Plan review by the City is required for all commercial projects and those projects involving a main extension. Construction must meet City Standards and Specifications. The Standards and Specifications Manual, with Standard Details, is available to you via City web-site or regular mail. All such matters must be memorialized by written city approvals.

This proposed property development is for 450 residential units and is located within the Wastewater Treatment Plant #1(WWTP#1) service area, this facility is permitted for 6.83 million gallons a day of treatment. Through May of 2025 our annual average flow at WWTP#1 is 6.354 million gallons a day. At present the Florida Department of Environmental protection is requiring individual permitting for wastewater improvements within the WWTP#1 service area in Palm Coast.

When you are ready to proceed, provide all required City application forms, the annexation petition required by section 49-53 (e) of the City Code along with one copy of the FDEP Permit Applications (fax, or include with plan submittal.) The City will redline the Operating Utility information, and return it to you, for you to incorporate onto the Applications. Upon completion, provide the number of completed, signed/sealed original Applications required by FDEP, plus one original for the City's files.

Please note that all applicable fees must be paid to the City, and plans must be stamped "Authorized For Construction," before the FDEP permit applications will be returned for your submittal to FDEP. Upon plan approval, the City will conduct construction inspection. Also, legal documents as necessary to convey the new facilities to the City must be completed and approved by the City, and FDEP/HRS clearance must be received **prior to service** being provided. Sample legal documents will be provided to you by the City to assist you during this phase of the project. The City will implement the annexation petition in accordance with its terms.



If you have any questions please feel free to contact me at (386) 986-2355.

Sincerely,

Samantha Borges

PROPERTY OWNER LETTER OF AUTHORIZATION

Dear Planning Manager:

I, AUSTIN BROCKENBROUGH, IV, the Manager of OARE ASSOCIATES, LLC ("OARE"), a Florida Limited Liability Company, being the current property owner of the real property described as Parcel Numbers 13-12-30-0650-000A0-0010, 24-12-30-0650-000A0-0010, 24-12-31-4150-00T50-0000, 24-12-31-4140-00T40-0000, 19-12-31-0650-000C0-0011, 19-12-31-4120-00T20-0000, 19-12-31-4110-00T10-0000, and 19-12-31-4130-00T30-0000 and also legally described in the attached **EXHIBIT "A"** ("Property"), does hereby designate and authorize Greenpointe Developers, LLC, a Delaware limited liability company and Jay W. Livingston, Esq. of Livingston & Sword, P.A., to act as OARE's authorized agents and to file applications to the City of Palm Coast to rezone the Property and/or amend the existing Master Plan Development Agreement, and to make binding statements and commitments regarding the applications.

OARE ASSOCIATES, LLC
A Florida Limited Liability Company

By: _____

Name: Austin Brockenbrough, IV

Title: Manager

COMMONWEALTH OF VIRGINIA

COUNTY OF HENRICO

The foregoing instrument was acknowledged before me by means of X physical presence or ___ online notarization this 5 day of January, 2024, by AUSTIN BROCKENBROUGH, IV, who is the manager of OARE ASSOCIATES, LLC, a Florida Limited Liability Company, on behalf of the company. He is X personally known to me or ___ produced _____ as identification.

OVERALL PARCEL

A portion of Sections 13 and 24, Township 12 South, Range 30 East, together with a portion of Sections 18 and 19, Township 12 South, Range 31 East, Flagler County, Florida, being a portion of Map of the Bunnell Development Company's Land at Bunnell, Florida, as recorded in Plat Book 1, page 1, of the Public Records of said county, also being a portion of Revised Parcel 403, as described and recorded in Official Records Book 950, page 1943, of said Public Records, together with all of Lot 13, Block 45, as depicted on Subdivision Plat Kankakee Run-Section 65 Seminole Woods at Palm Coast, recorded in Map Book 17, page 56, together with all of Reserved Parcels 03 and F-4, all of Lot 10, Block 14, and all of Lot 16, Block 10, as depicted on Subdivision Plat Zebulah's Trail-Section 63 Seminole Woods at Palm Coast, recorded in Map Book 18, page 24, all of said Public Records, being more particularly described as follows:

For a Point of Beginning, commence at the Northwest corner of said Section 13; thence North 87°27'22" East, along the Northerly line of said Section 13, a distance of 2961.63 feet to its intersection with the Westerly line of said Subdivision Plat Zebulah's Trail-Section 63 Seminole Woods at Palm Coast; thence along said Westerly line the following 17 courses: Course 1, thence South 20°55'26" East, departing said Northerly line, 211.58 feet to a point on a non-tangent curve concave Easterly having a radius of 150.00 feet; Course 2, thence Southerly along the arc of said curve, through a central angle of 98°21'15", an arc length of 257.49 feet to a point on said curve, said arc being subtended by a chord bearing and distance of South 01°53'15" West, 227.02 feet; Course 3, thence South 05°31'19" East, along a non-tangent line, 669.87 feet to a point on a non-tangent curve concave Easterly having a radius of 150.00 feet; Course 4, thence Southerly along the arc of said curve, through a central angle of 73°26'22", an arc length of 192.26 feet to the point of tangency of said curve, said arc being subtended by a chord bearing and distance of South 15°27'56" East, 179.37 feet; Course 5, thence South 52°11'07" East, 136.97 feet; Course 6, thence South 02°05'57" East, 346.46 feet to the point of curvature of a curve concave Easterly having a radius of 550.00 feet; Course 7, thence Southerly along the arc of said curve, through a central angle of 16°39'59", an arc length of 159.99 feet to the point of tangency of said curve, said arc being subtended by a chord bearing and distance of South 10°25'57" East, 159.42 feet; Course 8, thence South 18°45'56" East, 138.41 feet; Course 9, thence South 71°14'04" West, 25.00 feet to the point of curvature of a curve concave Easterly having a radius of 150.00 feet; Course 10, thence Southerly along the arc of said curve, through a central angle of 180°00'00", an arc length of 471.24 feet to a point on said curve, said arc being subtended by a chord bearing and distance of South 18°45'56" East, 300.00 feet; Course 11, thence Southerly along the arc of a non-tangent curve concave Easterly having a radius of 150.00 feet, through a central angle of 180°00'00", an arc length of 471.24 feet to the point of tangency of said curve, said arc being subtended by a chord bearing and distance of South 18°45'56" East, 300.00 feet; Course 12, thence North 71°14'04" East, 25.00 feet; Course 13, thence South 18°45'56" East, 315.63 feet; Course 14, thence South 36°19'43" East, 128.96 feet; Course 15, thence South 20°50'43" West, 193.05 feet; Course 16, thence South 06°47'31" East, 236.49 feet to the point of curvature of a curve concave Northerly having a radius of 150.00 feet; Course 17, thence Easterly along the arc of said curve, through a central angle of 180°00'00", an arc length of 471.24 feet to the point of tangency of said curve being the Southwesterly corner of said Reserved Parcel F-4, said arc being subtended by a chord bearing and distance of North 83°12'29" East, 300.00 feet; thence Easterly along the boundary lines of said Reserved Parcels F-4 and 03 the following 13 courses: Course 1, thence North 06°47'31" West, departing said Westerly line, 50.00 feet; Course 2, thence North 06°12'39" West, 80.71 feet; Course 3, thence North 14°31'01" East, 141.50 feet; Course 4, thence South 66°56'33" East, 50.00 feet; Course 5, thence North 68°07'42" East, 152.15 feet; Course 6, thence North 18°45'56" West, 125.00 feet to a point lying on the Southerly right of way line of Zoun Trail, a right of way as depicted on said Subdivision Plat Zebulah's Trail-Section 63 Seminole Woods at Palm Coast; Course 7, thence North 71°14'04" East, along said Southerly right of way line, 40.00 feet; Course 8, thence South 18°45'56" East, departing said Southerly right of way line, 230.00 feet to a point on a non-tangent curve concave Northeasterly having a radius of 150.00 feet; Course 9, thence Southeasterly along the arc of said curve, through a central angle of 81°38'47", an arc length of 213.75 feet to a point on said curve, said arc being subtended by a chord bearing and distance of South 59°35'20" East, 196.12 feet; Course 10, thence North 10°24'43" West, 110.00 feet to a point lying on the Southerly right of way line of Zachary Place, a 50 foot right of way as depicted on said Subdivision Plat Zebulah's Trail-Section 63 Seminole Woods at Palm Coast; Course 11, thence Easterly along said Southerly right of way line and along the arc of a non-tangent curve concave Northerly having a radius of 40.00 feet, through a central angle of 15°42'24", an arc length of 11.65 feet to a point on said curve, said arc being subtended by a chord bearing and distance of North 71°14'04" East 11.62 feet; Course 12, thence South 27°07'08" East, departing said Southerly right of way line, 110.00 feet to a point on a non-tangent curve concave Westerly having a radius of 150.00 feet; Course 13, thence Northerly along the arc of said curve, through a central angle of 81°38'48", an arc length of 213.75 feet to the point of tangency of said curve, said arc being subtended by a chord bearing and distance of North 22°03'28" East, 196.12 feet; Course 14, thence North 18°45'56" West, 105.00 feet; Course 15, thence North 71°14'04" East, 320.00 feet; thence South 16°08'17" East, continuing along said boundary line of Reserved Parcel D-3 and along said Westerly line of Subdivision Plat Zebulah's Trail-Section 63 Seminole Woods at Palm Coast, 979.40 feet; thence South 13°42'58" East, continuing along said Westerly line, 2050.00 feet to the Northwesterly corner of said Lot 10, Block 14; thence along the boundary line of said Lot 10, Block 14, the following 5 courses: Course 1, thence North 76°17'02" East, departing said Westerly line, 125.00 feet to a point lying on the Westerly right of way line of Zonal Court, a variable width right of way as depicted on said Subdivision Plat Zebulah's Trail-Section 63 Seminole Woods at Palm Coast; Course 2, thence South 13°42'58" East, along said Westerly right of way line, 44.00 feet; Course 3, thence South 23°09'13" West, continuing along said Westerly right of line, 25.00 feet; Course 4, thence South 13°42'58" East, continuing along said Westerly right of way line, 20.00 feet; Course 5, thence South 76°17'02" West, departing said Westerly right of way line, 110.00 feet to the Southwesterly corner thereof, said corner lying on said Westerly line of Subdivision Plat Zebulah's Trail-Section 63 Seminole Woods at Palm Coast; thence South 13°42'58" East, along said Westerly line, 549.66 feet to the point of curvature of a curve concave Easterly having a radius of 2940.00 feet; thence Southerly, continuing along said Westerly line and along the arc of said curve, through a central angle of 06°28'01", an arc length of 331.92 feet to the Northwesterly corner of said Lot 16, Block 10, said arc being subtended by a chord bearing and distance of South 16°57'02" East, 331.74 feet; thence along the boundary line of said Lot 16, Block 10, the following 4 courses: Course 1, thence North 69°48'54" East, departing said Westerly line, 125.00 feet to a point lying on said Westerly right of way line of Zonal Court, said point lying on a non-tangent curve concave Northeasterly having a radius of 100.00 feet; Course 2, thence Southeasterly along said Westerly right of way line and along the arc of said curve, through a central angle of 37°48'57", an arc length of 66.00 feet to a point lying on the Westerly right of way line of Zonal Geranium Trail, a right of way as depicted on said Subdivision Plat Zebulah's Trail-Section 63 Seminole Woods at Palm Coast, said arc being subtended by a chord bearing and distance of South 39°05'34" East, 64.81 feet; Course 3, thence Southerly, along last said Westerly right of way line and along the arc of a non-tangent curve concave Easterly having a radius of 100.00 feet, through a central angle of 16°12'39", an arc length of 28.29 feet to a point on said curve, said arc being subtended by a chord bearing and distance of South 07°00'40" West, 28.20 feet; Course 4, thence South 68°03'08" West, departing said Westerly right of way line, 131.78 feet to the Southwesterly corner thereof, said corner lying on said Westerly line of Subdivision Plat Zebulah's Trail-Section 63 Seminole Woods at Palm Coast; thence Southerly along said Westerly line the following 13 courses: Course 1, thence Southeasterly along the arc of a non-tangent curve concave Northeasterly having a radius of 2940.00 feet, through a central angle of 03°11'46", an arc length of 164.01 feet to the point of tangency of said curve, said arc being subtended by a chord bearing and distance of South 23°32'45" East, 163.99 feet; Course 2, thence South 25°08'38" East, 483.89 feet; Course 3, thence South 64°51'22" West, 345.00 feet to the point of curvature of a curve concave Northeasterly having a radius of 150.00 feet; Course 4, thence Southeasterly along the arc of said curve, through a central angle of 180°00'00", an arc length of 471.24 feet to the point of tangency of said curve, said arc being subtended by a chord bearing and distance of South 25°08'38" East, 300.00 feet; Course 5, thence North 64°51'22" East, 345.00 feet; Course 6, thence North 64°51'22" East, 345.00 feet; Course 7, thence South 25°08'38" East, 1150.00 feet; Course 8, thence South 64°51'22" West, 105.00 feet to the point of curvature of a curve concave Northeasterly having a radius of 150.00 feet; Course 9, thence Southeasterly along the arc of said curve, through a central angle of 180°00'00", an arc length of 471.24 feet to the point of tangency of said curve, said arc being subtended by a chord bearing and distance of South 25°08'38" East, 300.00 feet; Course 10, thence North 64°51'22" East, 105.00 feet; Course 11, thence South 25°08'38" East, 210.00 feet to the point of curvature of a curve concave Northeasterly having a radius of 150.00 feet; Course 12, thence Southeasterly along the arc of said curve, through a central angle of 81°38'48", an arc length of 213.75 feet to a point on said curve, said arc being subtended by a chord bearing and distance of South 65°58'02" East, 196.12 feet; Course 13, thence South 45°00'43" East, along non-tangent line, 744.60 feet to a point lying on the Northerly right of way line of Belle Terre Boulevard, a variable width right of way as presently established; thence Westerly along said Northerly right of way line the following 7 courses: Course 1, thence Southwesterly along the arc of a non-tangent curve concave Northwesterly having a radius of 1420.00 feet, through a central angle of 23°12'37", an arc length of 575.24 feet to a point on said curve, said arc being subtended by a chord bearing and distance of South 37°03'49" West, 571.31 feet; Course 2, thence North 41°22'55" West, 4.74 feet to a point on a non-tangent curve concave Northerly having a radius of 1415.00 feet; Course 3, thence Westerly along the arc of said curve, through a central angle of 40°02'29", an arc length of 988.88 feet to the point of tangency of said curve, said arc being subtended by a chord bearing and distance of South 68°38'20" West, 968.88 feet; Course 4, thence South 88°39'35" West, 211.11 feet; Course 5, thence South 01°20'25" East, 5.00 feet to a point on a non-tangent curve concave Northerly having a radius of 5689.12 feet; Course 6, thence Westerly along the arc of said curve, through a central angle of 00°59'59", an arc length of 99.27 feet to the point of tangency of said curve, said arc being subtended by a chord bearing and distance of South 89°09'36" West, 99.27 feet; Course 7, thence South 89°39'35" West, 994.09 feet; thence Northerly along said Northerly line of said Subdivision Plat Kankakee Run-Section 65 Seminole Woods at Palm Coast the following 5 courses: Course 1, thence North 00°20'25" West, departing said Northerly right of way line, 300.00 feet; Course 2, thence South 89°39'35" West, 127.70 feet; Course 3, thence North 00°20'25" West, 113.58 feet; Course 4, thence North 44°39'35" East, 50.00 feet to the point of curvature of a curve concave Westerly having a radius of 150.00 feet; Course 5, thence Northerly along the arc of said curve, through a central angle of 98°21'02", an arc length of 257.48 feet to the Northeasterly corner of said Lot 13, Block 45, said arc being subtended by a chord bearing and distance of North 04°30'56" West, 227.01 feet; thence along the boundary line of said Lot 13, Block 45, the following 3 courses: Course 1, thence South 36°18'22" West, departing said Northerly line, 110.00 feet to a point lying on the Northerly right of way line of Kainite Court, a 50 foot right of way as depicted on said Subdivision Plat Kankakee Run-Section 65 Seminole Woods at Palm Coast, said point being a point on a non-tangent curve concave Southerly having a radius of 40.00 feet; Course 2, thence Westerly along said Northerly right of way line and along the arc of said curve, through a central angle of 55°51'28", an arc length of 39.00 feet to a point on said curve, said arc being subtended by a chord bearing and distance of North 81°33'32" West, 37.47 feet; Course 3, thence North 19°33'26" West, departing said Northerly right of way line, 110.00 feet to the Northwesterly corner thereof, said corner lying on said Northerly line of Subdivision Plat Kankakee Run-Section 65 Seminole Woods at Palm Coast; thence Southwesterly along said Northerly line the following 9 courses: Course 1, thence Southwesterly along the arc of a non-tangent curve concave Southeasterly having a radius of 150.00 feet, through a central angle of 25°47'09", an arc length of 67.51 feet to the point of tangency of said curve, said arc being subtended by a chord bearing and distance of South 57°33'10" West, 66.94 feet; Course 2, thence South 44°39'35" West, 238.91 feet; Course 3, thence South 00°20'25" East, 192.13 feet; Course 4, thence South 89°39'35" West, 282.47 feet; Course 5, thence North 00°20'25" West, 50.00 feet to the point of curvature of a curve concave Southerly having a radius of 150.00 feet; Course 6, thence Westerly along the arc of said curve, through a central angle of 180°00'00", an arc length of 471.24 feet to the point of tangency of said curve, said arc being subtended by a chord bearing and distance of South 89°39'35" West, 300.00 feet; Course 7, thence South 00°20'25" East, 50.00 feet; Course 8, thence South 89°39'35" West, 253.41 feet; Course 9, thence South 00°20'25" East, 300.00 feet to a point lying on said Northerly right of way line of Belle Terre Boulevard; thence South 89°39'35" West, along said Northerly right of way line, 63.24 feet to the point of curvature of a curve concave Southerly having a radius of 1521.26 feet; thence Westerly continuing along said Northerly right of way line and along the arc of said curve, through a central angle of 06°41'48", an arc length of 177.80 feet to the Southeasterly corner of RP 190, as described and recorded in Official Records Book 1004, page 341, of said Public Records, said arc being subtended by a chord bearing and distance of South 86°18'42" West, 177.70 feet; thence North 07°02'15" West, departing said Northerly right of way line and along the boundary line of said RP 190, a distance of 50.00 feet; thence South 78°41'33" West, continuing along said boundary line, 70.00 feet to the Northwesterly corner thereof, said corner lying on said Northerly line of Subdivision Plat Kankakee Run-Section 65 Seminole Woods at Palm Coast; thence Northwesterly along said Northerly line the following 21 courses: Course 1, thence North 30°31'09" West, 57.09 feet; Course 2, thence North 59°28'51" East, 15.00 feet to the point of curvature of a curve concave Westerly having a radius of 225.00 feet; Course 3, thence Northerly along the arc of said curve, through a central angle of 90°00'00", an arc length of 353.43 feet to the point of tangency of said curve, said arc being subtended by a chord bearing and distance of North 14°28'51" East, 318.20 feet; Course 4, thence North 30°31'09" West, 1215.00 feet; Course 5, thence North 59°28'51" East, 173.41 feet; Course 6, thence North 30°31'09" West, 300.00 feet; Course 7, thence North 59°28'51" East, 80.00 feet; Course 8, thence North 30°31'09" West, 300.00 feet; Course 9, thence North 59°28'51" East, 79.56 feet; Course 10, thence North 19°12'34" West, 1199.35 feet; Course 11, thence North 39°07'43" West, 238.04 feet; Course 12, thence South 89°59'53" West, 270.01 feet to the point of curvature of a curve concave Easterly having a radius of 150.00 feet; Course 13, thence Southerly along the arc of said curve, through a central angle of 180°00'00", an arc length of 471.24 feet to the point of tangency of said curve, said arc being subtended by a chord bearing and distance of South 00°00'07" East, 300.00 feet; Course 14, thence North 89°59'53" East, 50.00 feet; Course 15, thence South 53°08'34" East, 63.20 feet; Course 16, thence South 30°31'09" East, 6.35 feet; Course 17, thence South 59°28'51" West, 1066.59 feet; Course 18, thence North 30°31'09" West, 660.00 feet; Course 19, thence South 59°28'51" West, 253.41 feet; Course 20, thence North 30°31'09" West, 468.41 feet; Course 21, thence South 59°28'51" West, 300.00 feet; thence North 89°14'34" West, continuing along said Northerly line and its Westerly prolongation, 125.81 feet to a point lying on the Westerly line of said Section 24; thence North 00°46'05" East, along said Westerly line, 1907.73 feet to the Northwesterly corner thereof, said corner also being the Southwesterly corner of said Section 13; thence North 01°12'31" West, along the Westerly line of said Section 13, a distance of 5279.19 feet to the Point of Beginning.

Less and Except Tract 1, also known as Tract "A", as described and recorded in Official Records Book 1907, page 1119, of the Public Records of Flagler County, Florida.

Less and Except the land contained in Warranty Deed recorded in Official Records Book 494, Page 1083, Public Records of Flagler County, Florida.

Subject: **Neighborhood Meeting Report — Magnolia Trace Master Planned Development Rezoning (formerly the Oare Master Planned Development); Application No. 6549**

Dear Mr. Papa:

This letter and the enclosed materials constitute the applicant's report of the neighborhood meeting held in connection with the above-referenced application to rezone the property to Master Planned Development. The neighborhood meeting was held on Wednesday, September 2, 2026, from 6:00 p.m. to 8:00 p.m., in the City Hall — Jon Netts Community Wing (Council Chambers), 160 Lake Avenue, Palm Coast, Florida 32164.

In advance of the meeting, written notice was mailed to all property owners located within 500 feet of the project site. A total of 711 notice letters were mailed on or about August 18, 2026, by first-class U.S. mail. The notice letter, dated August 18, 2026, identified the proposed project and the subject parcels, provided the date, time, and location of the meeting, and included a copy of the conceptual master plan (Exhibit D, Tract Map). A copy of the notice letter, together with the list of property owners to whom notice was mailed, is enclosed.

jay.livingston314@protonmail.ch

I attended the meeting as attorney for the applicant, GreenPointe Developers, LLC. Also present on behalf of the applicant and its development team was Brad Odom. Mr. Papa attended on behalf of the City of Palm Coast. The enclosed sign-in sheet reflects the members of the public who attended and signed in. Twenty (20) sign-in entries were recorded, representing approximately twenty-five (25) individuals, as five entries listed two attendees each. Not all attendees necessarily elected to sign in.

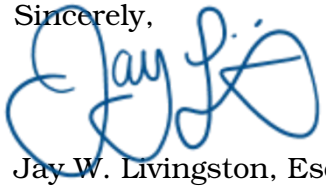
Following a presentation describing the proposed project and the City of Palm Coast's development review process, attendees were invited to ask questions and offer comments. The following is a summary of the questions, comments, and concerns raised at the meeting:

- Compatibility and buffering with existing neighborhoods. Attendees requested additional detail regarding the interface between the existing neighborhoods and the proposed development areas along the northern portion of the project, including the transition, setbacks, and buffering between existing homes and proposed lots. Questions were raised concerning the perimeter buffer and whether existing natural vegetation could be maintained to provide adequate screening, with one attendee expressing the view that the existing vegetation was not substantial.

- Conservation areas and future land use. Attendees requested a map or overlay depicting the conservation areas on the property, including the Conservation future land use designation and the conservation easement areas, and questioned the extent to which the project would affect those conservation areas. It was explained to the attendees that only a small percentage of the property is proposed for development, with the balance of the 1,000-plus acres remaining in conservation.

- Stormwater, drainage, and flooding. Attendees raised concerns regarding existing drainage patterns, including stormwater flowing from the neighborhood to the north southward into the project area, and whether the project would alter that drainage or cause flooding by filling low-lying areas. Attendees asked how stormwater runoff would be treated before entering the adjacent wetlands, and inquired about the two existing City drainage canals that traverse the property and whether the project would impact them. Several attendees referenced flooding experienced in the adjacent neighborhoods following Hurricane Milton and expressed concern regarding the project's potential effect on flooding and stormwater storage.

- Airport proximity. Attendees asked about the project's proximity to the Flagler Executive Airport and the applicability of the Airport Overlay to the project.



- Neighborhood commercial uses. In discussing the uses permitted within the proposed neighborhood commercial component of the project, attendees expressed opposition to the location of a gas station within it.

- Agricultural / "agrihood" concept. An attendee suggested that the project, or a portion of it, incorporate an agricultural or "agrihood" component, and asked whether the zoning code would permit such a use. The attendee referenced several examples, including New Field Farm in Palm City, Florida; [Sartuna?] Springs in Clay County, Florida; and EchoFarmCommunity.org.

- Requests for project materials. Attendees requested copies of certain project materials, including the project survey (ALTA), the conceptual master plan detail depicting the canals, and a graphic showing the adjacent properties surrounding the project.

Please let me know if you require any additional information regarding the neighborhood meeting. Thank you for your assistance with this matter.

Sincerely,

Jay W. Livingston, Esq.
Attorney for GreenPointe Developers, LLC

NOTIFICATION OF NEIGHBORHOOD MEETING
FOR THE MAGNOLIA TRACE MASTER PLANNED DEVELOPMENT REZONING

RE: Proposed Development Project – Magnolia Trace Master Planned Development

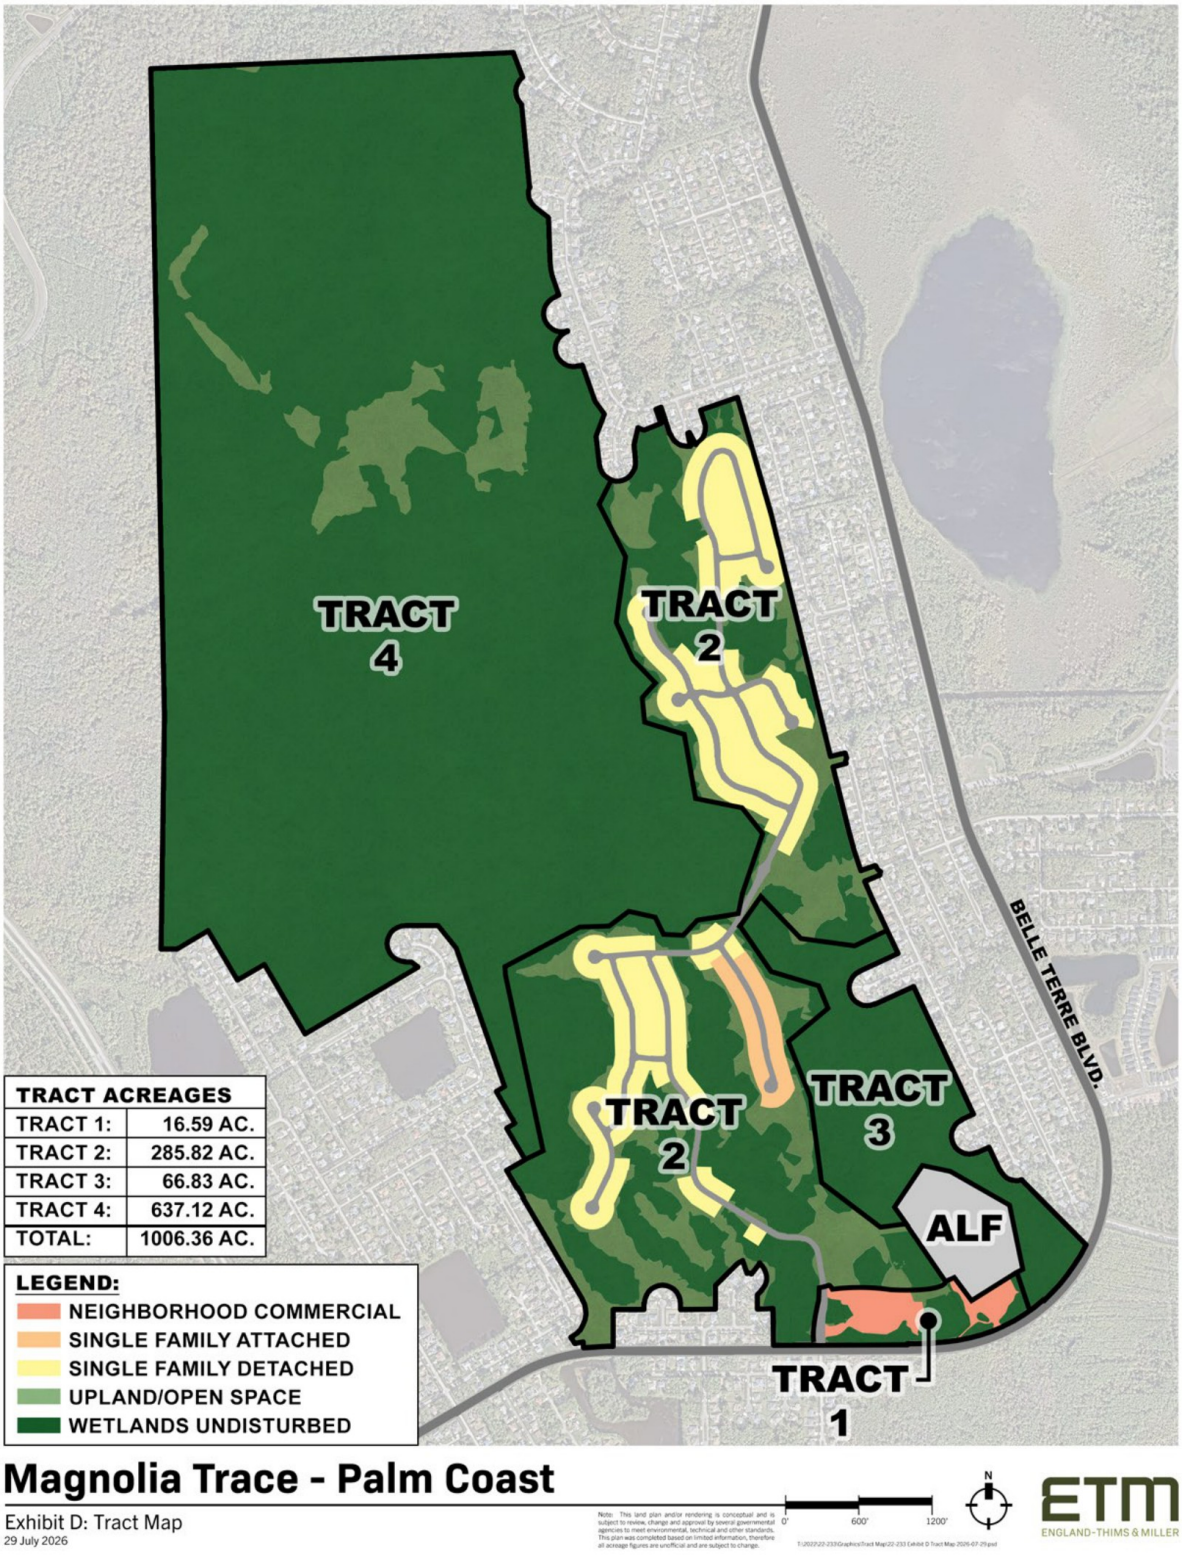
Dear Property Owner:

A Neighborhood Meeting to discuss the application for rezoning to Master Planned Development for the project known as Magnolia Trace (formerly the Oare Master Planned Development), located in Palm Coast, Flagler County, Florida, and identified by parcel ID #s 13-12-30-0650-000A0-0010, 24-12-30-0650-000A0-0010, 19-12-31-0650-000C0-0011, 19-12-31-4110-00T10-0000, 19-12-31-4120-00T20-0000, 19-12-31-4130-00T30-0000, 24-12-31-4140-00T40-0000, and 24-12-31-4150-00T50-0000, is scheduled for **Wednesday, September 2, 2026 from 6:00 p.m. to 8:00 p.m. in the City Hall – Jon Netts Community Wing (Council Chambers), 160 Lake Avenue, Palm Coast, FL 32164**.

The proposed Master Planned Development for Magnolia Trace will modify the existing Oare Master Planned Development as follows:

Oare MPD	Magnolia Trace MPD

• Age-in-place retirement community
• 754 residential units authorized:
  • 544 dwelling units (504 active-adult & 20 single-family)
  • Up to 120 extended-care units
  • Up to 60 assisted-living beds
• Borrow pit of 25.5 acres
	• Reduced development — 210 fewer units
	• Maximum 544 residential dwelling units, a mix of:
	  • Single-family detached
	  • Townhomes, Multifamily (capped at 150 dwelling units)
	• Neighborhood commercial component
	• Continues to incorporate the Age-in-Place lifestyle



A copy of the conceptual master plan is attached for your use and reference.

At the meeting, there will be a presentation about the proposed project, followed by an opportunity for attendees to ask questions and provide comments. We hope you can attend to learn about the proposed project and the development review process at the City of Palm Coast. If you have any questions, please contact me at (386) 439-2945.

Sincerely,

Jay W. Livingston, Esq.

To: Terri Mashour, Project Manager

From: K. Bruce Jones, PhD

Re: Comments on Proposed Development and Permit Application (SAJ-2005-03550)

I am providing comments regarding the proposed project listed above for your consideration. I live in the Z section in the area above the proposed project area and am concerned about the alteration of the function of the Black Branch Swamp which currently abates flooding risks and conditions for the entire existing Z section. I have extensive experience conducting research on the importance of natural landscape features in providing ecological services (e.g., reduced flooding risks, water quality, and wildlife habitats) to communities at many different scales. My research spanned 36 years while working for the US Fish and Wildlife Service, EPA, and the US Geological Survey. Below are my comments.

The Proposed Fills

It is my opinion that the 13 acres of fill will not significantly reduce the amount of physical forested wetlands in the area. I applaud the builder for trying to maintain natural forested wetlands and the services that they provide as habitat and “sponges” to absorb water and significantly reduce flooding due to both water storage capacity, recycling of water in the ground water table, and reducing energy associated with extreme weather events. I do have concerns that the fills, as show on page 8 of the proposal, might result in the isolation of pieces of wetlands that may not be of sufficient size to abate extreme storm events. The increase in impervious surface associated with the development (houses, landscape alternations, and roads), combined with existing housing developments associated with the borders of the new development area, may overtax the smaller, fragmented forest wetlands resulting from fills to connect different parts of the development. Moreover, the loss of tree canopy coverage will increase the energy associated with downpours associated with extreme storm events and may increase the velocity of run-off water to the wetlands.

Unfortunately, the acreage of the developed area was not given in the proposal. I estimated the area to be approximately 130 acres based on what was provided. This may not be the actual amount.

Figures 1 and 2 point to specific fills that will isolate and fragment that larger wetland system. Even though the developer proposes to extend the two large drains coming off the Z section, there are many other smaller drains between homes and at the end of cu-de-sacs that abut to the forested wetland that drain into the larger wetland (Figure 3). These can be significant water inputs into the wetland complex, especially during storms. The entire Black Branch Swamp system, including the area around the proposed development, is dominated by horizontal sheet flow with no sloughs, runs, or creeks. The system also has a slope of 0.09% from the east side that abuts to the Z section to the location of the west drain located 0.3 miles south of Commerce Parkway on US Hwy 1. It also is comprised of soil structure that includes a clay layer that creates poor vertical percolation. Moreover, dense trees and ground liter also contribute to surface roughness and horizontal water movement. This means that water levels are likely to build up quickly in the new development area during a major storm event. Trees also contribute significantly to reduced energy associated with downpours during extreme weather events.

Although it is commendable that the developer offered mitigation through the mitigation bank credit system, this does not mitigate the impacts associated with the development itself.

I recommend that the Corp model each of these smaller, fragmented forested wetlands' ability to handle extreme storm events, including precipitation rates and energies associated with hurricanes. The model runs should include existing neighborhoods in the Z section that abut to the project area. Given the Black Branch Swamp characteristics, the Corp should use a dynamic tailwater model to evaluate "volume-stacking" that would occur during a multi-day hurricane event. Such a phenomena could result in backwater flooding into the Z section. Also, the Corp should incorporate "critical duration" of greater than 24 hours in its model runs, as the impacts of hurricanes can exceed 24 hours (see Figure 4). In summary, the Corp should run a series of dynamic hydrologic models to evaluate potential issues and impacts before approving the project as given in the proposal.

Listed Species

The list provided does not include State-listed species or species of special concerns that pertain to requirements affecting Palm Coast development. Gopher tortoises are one of those species that is very common in the area. Burrows and observations tend to be in small hammocks and upland areas that contain sandy soils. Therefore, the development area likely has these turtles. The fill areas are not likely to affect tortoises because the fills will be in areas that historically flooded. In fact, turtles may create burrows in the new fill areas, depending on the materials used by the Corp. In our neighborhood, we have a pair of tortoises that occupy a burrow on a sandy woodlot that hasn't been developed. The woodlot is actually connected to the larger Black Branch Swamp. The female tortoise often lays her eggs under the foundation of houses and along the larger drainage ditch. The neighbors have observed the male tortoise for a number of years and have named him Rocky.

Indigo snakes are on the list and are potentially in the area. They are known to be associated with tortoise burrows. The wildlife agencies involved in assessing the project should consider this possibility. There have been undocumented reports of Indigo snakes in Palm Coast.

Some of the species on the list, like the Florida Scrub Jay, may not or rarely occur in the project area. As such, the project should not jeopardize the continued existence of these species.

The extension of the two large drains coming off of the Z section may result in migration and new populations of the American Alligator, a species protected by "similarity of appearance." A six foot alligator was removed from a drain just south of us. Two alligators were removed from a drain that is further north in the Z section. The builder should consider this possibility as a result of the proposed development plan.

Water Quality

The new development will result in some contaminates and toxins making it into the adjacent Forest Wetlands. These would include pesticides, herbicides, and oils associated with automobiles. It is uncertain if these inputs would create any significant

problems such as uptake by birds or amphibians, or the death of trees and vegetation immediately adjacent to developed areas.

Cumulative Impacts

Based on the GIS property records that Flagler County maintains for the area, and from the Google Earth polygon acreage tool, I estimate the Black Branch Swamp area (enclosed to the west by US Hwy 1, to the north by Bunnell, to the east and southeast by the Z section and parts of the K section, and that are west and north of Belle Terre Blvd) to be approximately 1300 acres. This includes the area north and west of Commerce Parkway. A small area of the K section east of Belle Terre Blvd has 3 drains that go under the road and drain north into the Swamp, not east or south. Although the proposal mentions drainage of the Swamp to the east into Bulow Creek, I could not find any evidence of east drainage to this creek through drainage ditches. Google maps, Google Earth, and my personal field visits along the east and south border of the swamp indicate no east drainage. None of the major drains through the Z section connect to the drains on the east side of Belle Terre Blvd that would flow east (Figure 3). The only way these drains would connect would be if water flowed over Belle Terre Blvd, which is highly unlikely given the height of the road. This means that the only drain for the Black Branch Swamp is on the west side (Figure 3). This drains into Black Branch with connects downstream to the Haw Creek, an Order 1 creek. Because of the sheet flow water flow of the system and relatively small slopes (0.09%) from east to west, the Black Branch Swamp is a relatively closed system.

Under 40 CFR § 230.11(g**)**, the Corps is required to consider cumulative impacts. The EA should not view the 130 acres in isolation but must account for how this development -- combined with existing medium-density runoff—will alter the hydroperiod of the entire 1300 wetland complex, as saturated downstream conditions directly impede upstream drainage efficiency. As such, I request that the Corp conduct a Basin-Wide Cumulative Impact Study and a hydroperiod analysis of the receiving forested wetlands to evaluate how the new development might influence the entire 1300 acres of the Black Branch Swamp. It is important to incorporate already developed areas of the Z and K sections into the analysis/modeling as the addition of the proposed development might trigger a tipping point where the broader-scale

functions of the wetlands might be affected, due to cumulative effects from existing and new development (housing). Other cumulative effects to consider:

- Static Storage vs. Dynamic Flow**:** Wetlands are dynamic. If the 130 acres of new development are built on elevated fill, you are displacing thousands of cubic yards of storage. That water has to go somewhere, and it will "stack" vertically across the entire 1,300 acres. Using a static storage metric in the modeling will likely underestimate the potential impacts.
- As I mentioned earlier, the culvert at US Hwy 1 (0.3 miles south of Commerce Pkwy) is the "drain hole" for this 1,300-acre basin. That hole has a fixed size and elevation. If you increase the speed and volume of water entering the swamp from the Z Section, but the "drain hole" stays the same size, the 1,300-acre swamp will simply stay deeper for longer periods.
- Vegetation Shift**:** Mature hardwood swamps (Cypress, Maple, Gum) cannot survive permanent "deep water" stages. If the cumulative runoff from the new and existing developments keeps the water level just 6 inches higher than historical norms, the 1,300-acre forest will eventually transition into an open-water marsh or a cattail-dominated slough. You lose the canopy interception and the root-zone absorption that makes a swamp a "sponge."

Although not included as part of this assessment, I am concerned about future development in an around the Black Branch Swamp. A large, 419 acreage track of the Swamp north of the area being considered in this proposal, and that use to be under a Conservation designation, is no longer protected and is likely to be the next area to be developed since it is owned by the same group named in the current proposal and permit application (Figure 5). Moreover, in reviewing Flagler County's GIS property records, none of the lands within the Swamp are protected. So these facts create great concern about the future of this important landscape feature that helps mitigate one of Palm Coasts biggest issues as it grows … flooding!

Thank you for the opportunity to provide comments. Please feel free to contact me should you or anyone have any questions about my comments.

Sincerely,

K. Bruce Jones, PhD

Good afternoon Ms. Cook:

Thank you for contacting the Planning Division and I apologize for any delay in responding. Please note that your letter will be included in the Planning and Land Development Regulation Board meeting agenda packet for the meeting on September 22, 2026.

Sincerely,

Subject: Magnolia Trace MPUD
To: Mike Norris <mnorris@palmcoastgov.com>, Council Woman Theresa Carli Pontieri <tcarlipontieri@palmcoastgov.com>, Ty Miller <tmiller@palmcoastgov.com>, Jr. Charles A. Gambaro <cgambaro@palmcoastgov.com>, David Sullivan <dsullivan@flaglercounty.gov>, Mike McGlothlin, MBA-PA <MMcGlothlin@palmcoastgov.com>, <cityattorney@palmcoastgov.com>, <CityClerk@palmcoastgov.com>

Good Evening:

RE: Formal Objection and Demand for Strict Enforcement of the Land Development Code (LDC); Opposition to Material Changes and Unmitigated Infrastructure Impacts for the Magnolia Trace Master Planned Development (MPD) (Fourth Amended and Restated MPD Agreement)

I. PURPOSE & LEGAL BASIS
This correspondence serves as a formal administrative notice and demand submitted on behalf of concerned residents and stakeholders of the City of Palm Coast. The purpose of this letter is to register strenuous objection to any proposed amendments, expansions, or **new material changes** regarding the **Magnolia Trace Master Planned Development (MPD)**—specifically concerning the **Fourth Amended and Restated MPD Agreement** encompassing 1,006 acres off Belle Terre Boulevard, slated for up to 544 residential units and 35,000 square feet of commercial space.

Pursuant to the **Palm Coast Unified Land Development Code (LDC)** and Florida statutory requirements governing local governance and quasi-judicial zoning reviews, we demand that the City enforce strict compliance with established concurrency requirements. Any modification to the intensity, density, layout, or infrastructure allocations of the Magnolia Trace MPD constitutes a **material change** that cannot be legally authorized without comprehensive, updated impact analyses and a rigorous demonstration that public levels of service (LOS) will not be degraded.

II. INFRASTRUCTURE & ENVIRONMENTAL IMPACT ANALYSIS

1. Traffic Environment & Transport Capacity Degradation
The traffic landscape along **Belle Terre Boulevard** has substantially degraded since the initial iterations of this MPD. The compounding development density from surrounding subdivisions has pushed local arterials to near-capacity.
* **The Demand:** The City must enforce strict **Traffic Impact Analyses (TIAs)** based on real-time peak-hour volumes, rather than relying on obsolete data.
* **The Risk:** Adding multi-family townhomes, age-restricted active adult tracts, and commercial access points without expanding public thoroughfares will force local intersections into failing Levels of Service (LOS), threatening public safety and emergency vehicle response times.

2. Stormwater Management, Water Quality, and Sewage Drainage
The project footprint contains roughly **700 acres of protected wetlands and conservation space**. Any localized material alteration to grading or impervious surface ratios will severely impact regional hydrologic behavior.

* **Water & Sewage Infrastructure:** The City's public utility networks are already coping with rapid expansion. Forcing unmitigated high-density sewer hookups into the Belle Terre corridor compromises infrastructure integrity.
* **Drainage and Runoff:** We object to any reduction in stormwater retention standards. Inadequate engineering safeguards risk transferring toxic, untreated urban runoff directly into the surrounding delicate wetland matrix, exacerbating localized flooding.

3. Wildlife Preservation and Comprehensive Plan Alignment
The Magnolia Trace parcel serves as a critical biological corridor for Flagler County's indigenous wildlife.
* **Habitat Fragmentation:** The high-density footprint introduces severe habitat fragmentation.
* **LDC Rewrites:** As the City of Palm Coast undergoes its extensive **Land Development Code (LDC) rewrite to align with the Comprehensive Plan**, the City must not allow legacy MPD agreements to bypass the stricter modern environmental mitigation thresholds designed to protect local conservation zones and native wildlife.

III. FORMAL DEMANDS FOR MATERIAL REVIEW
We respectfully but firmly demand that the City Manager, City Attorney, and City Council enforce the following mandates prior to granting any further approvals or executing amendments for the Magnolia Trace MPD:

1. **Denial of Major Amendments Without Public Hearing:** Any modification altering density mixes or expanding the commercial footprint must be treated as a major, material amendment under the LDC, requiring a full quasi-judicial review.
2. **Infrastructure Concurrency Certification:** Deny all site plan approvals until the utility and engineering departments certify that water, public sewer, and traffic networks possess fully funded, verified capacity.
3. **Mandatory Document Production:** We request immediate public access to the following documents via this formal administrative notice:
* The complete **Fourth Amended and Restated MPD Agreement** and all associated conceptual site plans.
* The most recent **Traffic Impact Analysis (TIA)** addressing Belle Terre Boulevard traffic generation.
* State and local environmental permits, including **St. Johns River Water Management District (SJRWMD)** stormwater authorizations and wildlife mitigation plans.

IV. CONCLUSION & RESERVATION OF RIGHTS
The residents of Palm Coast support structured, legally compliant growth that respects our environment and preserves our infrastructure. However, we oppose unmitigated expansions that degrade our safety, infrastructure, and natural resources. We urge the City administration to protect the integrity of the Palm Coast Land Development Code.

This letter formally preserves all legal rights, including the right to challenge any arbitrary or capricious administrative determinations or non-compliant zoning orders in a court of competent jurisdiction.

Respectfully Submitted,.

Gina and Barry Weiss

7. Applicant Cover Letter, Criteria Analysis, Application Packet
8. Survey, Title, Environmental Report, Traffic Report
9. Neighborhood Meeting, Public Notice, Public Participation Documentation
10. Red Mill Pointe TSP 4996 Development Order and Approved Site Plan

Background:

Request: The applicant is requesting an amendment to the Official Zoning Map (rezoning) from MFR-1 to MPD for their client to be able to develop the site with 216 single-family dwelling units in the form of attached fee-simple townhouses. The applicant has included a Development Agreement Currently the developer has approval from the City Council to develop the site with 216 multi-family dwelling units for rent, in the visual appearance of townhouses.

Original Background:

City Council approved a Development Order for a Master Site Plan (MSP) application (AR# 4871), conceptually approving 216 multifamily dwelling units on the site during its January 4, 2022 meeting.
The applicant received a Development Order for the related Technical Site Plan (TSP) application (AR# 4996), approving the 216 multifamily dwelling units on May 23, 2023. A copy of the Development Order and Overall Site Plan have been included as attachments for this application to compare the previously approved versus the proposed requests.
The applicant received a Development Order extension extending the TSP approval to May 23, 2026.
The applicant submitted an application to rezone the site from MFR-1 to MPD on March 31, 2025. As the application for rezoning was received while a Development Order was valid for the overall site, the TSP Development Order is considered active until a determination is made on the rezoning application. Since this time staff has worked with the applicant and their team to reduce deviations within the MPD's

Development Agreement from the Unified Land Development Code (LDC) and allow them time to host a neighborhood meeting for the MPD. During this time, it is worth noting that the majority of the time from the applicant's original submission to now was pending resubmittals from the applicant.
Project Description: The applicant's MPD Development Agreement (DA) would allow the site to be developed with the same overall density as previously approved, at up to 216 dwelling units. The applicant's purpose of the MPD rezoning and Development Agreement is to allow the applicant to develop the site as fee-simple townhouses owned by the individual residents as opposed to operating the site as a multifamily rental property.

The project is planned to be developed in three phases and feature an amenity center for the project's residents along with a publicly accessible dog park that is planned to be ±0.25 acres in size. The applicant included language to require the amenity center and dog park to be constructed during the first phase of the development and shall be completed or concurrent with the first Certificate of Occupancy for any residential unit. The MPD DA also establishes provisions to allow on-street "roadside" parking for ±34 guest parking spaces scattered throughout the project site. Section 11.1 of the MPD DA provides dimensional standards within the site.

In review of the deviations of the dimensional standards from the existing MFR-1 zoning district the MPD DA features:
Minimum Lot Width of 20 feet for interior townhouse units, the exterior units meet the LDC's 25-foot minimum lot width.
Minimum Lot Size of 1,800 square feet for interior townhouse units is a reduction of the LDC's 2,500-square-foot minimum lot size, while the DA also provides a minimum exterior unit size of 2,550 square feet.
Minimum Front setback of 20 feet, which is a reduction of the LDC's 25-foot minimum setback.
Minimum Rear setback of 10 feet, which is a reduction of the LDC's 20-foot minimum setback.
In the event that the proposed MPD is approved by City Council, the project will require platting to establish the individual tracts for wetland preservation, common open space, recreation, roads, and the residential lots for each townhouse dwelling unit. Due to that the Conceptual Plan of the MPD may undergo slight alterations due to the platting review process, but the MPD DA explicitly caps density at up to 216 dwelling units.

Public Participation: The applicant hosted a neighborhood meeting as required by LDC Section 2.05.02 at 6:00 p.m. on Tuesday July 14, 2026, in Rymfire Elementary School's cafeteria. The applicant also met the public notice requirements of LDC Section 2.05.03. The neighborhood meeting was attended by approximately 25 members of the public.
Documentation summarizing the neighborhood meeting and an email inquiry has been attached to the agenda item.

Planning and Land Development Regulation Board: The Planning and Land Development Regulation Board heard this item at their August 19, 2026 meeting. During the meeting two members of the public spoke against the proposed MPD rezoning. After deliberation, the Planning and Land Development Regulation Board voted unanimously, with a four to zero vote, to recommend approval to the City Council.

City Council First Read: The City Council heard this item for first read at its October 6, 2026 meeting. It was approved with a unanimous vote of five to zero. No members of the public spoke in regard to this item.

Updated Background: No Changes.

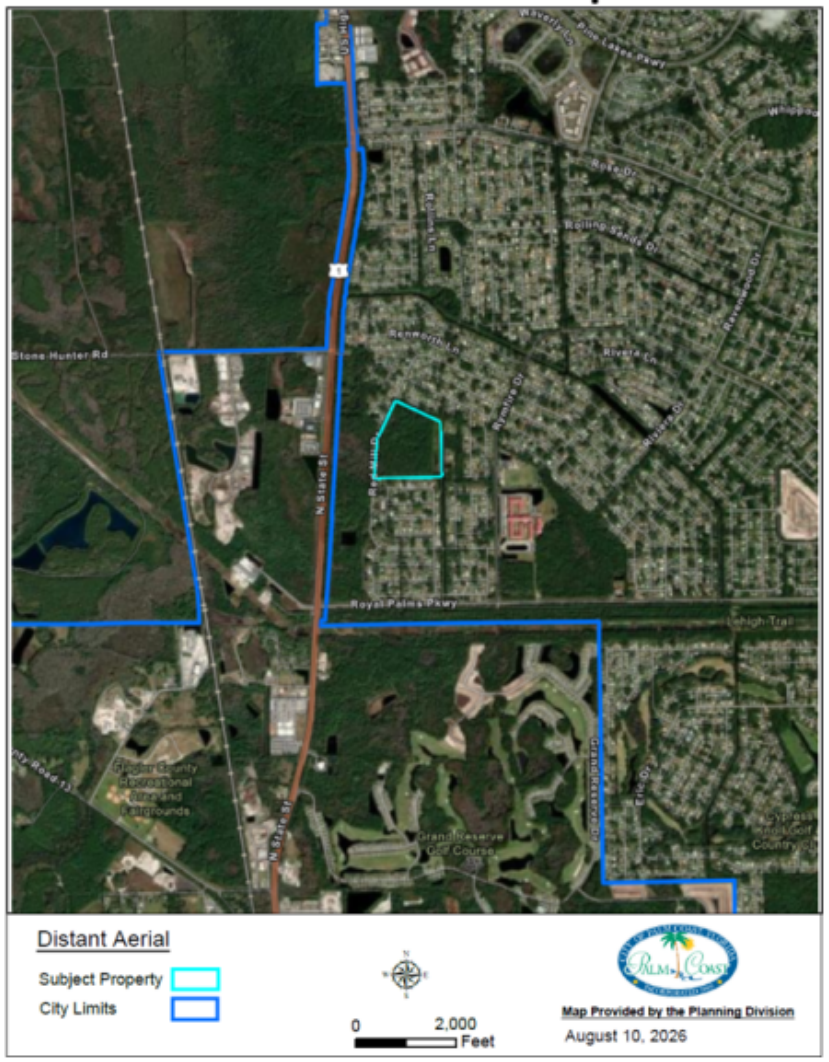
This is a quasi judicial item, please disclose any ex parte communication.

Recommended Action:
THE PLANNING AND LAND DEVELOPMENT REGULATION BOARD RECOMMENDS THAT THE CITY COUNCIL DETERMINE THAT THE PROPOSED MASTER PLANNED DEVELOPMENT (APPLICATION NO. 6212) IS CONSISTENT WITH THE COMPREHENSIVE PLAN AND APPROVE THE APPLICANT'S OFFICIAL ZONING MAP AMENDMENT TO MASTER PLANNED DEVELOPMENT.

City Council
Public Hearing October 20, 2026

Red Mill Pointe Master Planned Development
AR # 6212

Staff Presentation:
Michael Hanson, AICP, Senior Planner



Application Background

- Owner: Red Mill Pointe LLC
- Applicant: Michael D. Chiumento III, Esq. of Chiumento Law
- Subject Property: 76 Red Mill Drive
- Location: East side of Red Mill Drive approximately 3/4 miles from its intersections with Rymfire Drive.
- Request: Amend the Official Zoning Map on the subject property from Multifamily Residential (MFR-1) to Master Planned Development (MPD) with a Development Agreement, in order for the property to be developed with fee-simple townhouses.

Background & History

- City Council approved a Development Order for a Master Site Plan (MSP) application (AR# 4871), conceptually approving 216 multifamily dwelling units on the site during its January 4, 2022 meeting.
- The applicant received a Development Order for the related Technical Site Plan (TSP) application (AR# 4996), approving the 216 multifamily dwelling units on May 23, 2023. A copy of the Development Order and Overall Site Plan have been included as attachments for this application to compare the previously approved versus the proposed requests.
- The applicant received a Development Order extension extending the TSP approval to May 23, 2026.
- The applicant submitted an application to rezone the site from MFR-1 to MPD on March 31, 2025. As the application for rezoning was received while a Development Order was valid for the overall site, the TSP Development Order is considered active until a determination is made on the rezoning application. Since this time staff has worked with the applicant and their team to reduce deviations within the MPD's Development Agreement from the Unified Land Development Code (LDC) and allow them time to host a neighborhood meeting for the MPD. During this time, it is worth noting that the majority of the time from the applicant's original submission to now was pending resubmittals from the applicant.

Project Description

The applicant's MPD Development Agreement (DA) would allow the site to be developed with the same overall density as previously approved, at up to 216 dwelling units. The applicant's purpose of the MPD rezoning and Development Agreement is to allow the applicant to develop the site as fee-simple townhouses owned by the individual residents as opposed to operating the site as a multifamily rental property.

The project is planned to be developed in three phases and feature an amenity center for the project's residents along with a publicly accessible dog park that is planned to be ±0.25 acres in size. The applicant included language to require the amenity center and dog park to be constructed during the first phase of the development and shall be completed or concurrent with the first Certificate of Occupancy for any residential unit. The MPD DA also establishes provisions to allow on-street "roadside" parking for ±34 guest parking spaces scattered throughout the project site. Section 11.1 of the MPD DA provides dimensional standards within the site.

MPD Deviations to LDC

In review of the deviations of the dimensional standards from the existing MFR-1 zoning district the MPD DA features:

- Minimum Lot Width of 20 feet for interior townhouse units, the exterior units meet the LDC's 25-foot minimum lot width.
- Minimum Lot Size of 1,800 square feet for interior townhouse units is a reduction of the LDC's 2,500-square-foot minimum lot size, while the DA also provides a minimum exterior unit size of 2,550 square feet.
- Minimum Front setback of 20 feet, which is a reduction of the LDC's 25-foot minimum setback.
- Minimum Rear setback of 10 feet, which is a reduction of the LDC's 20-foot minimum setback.

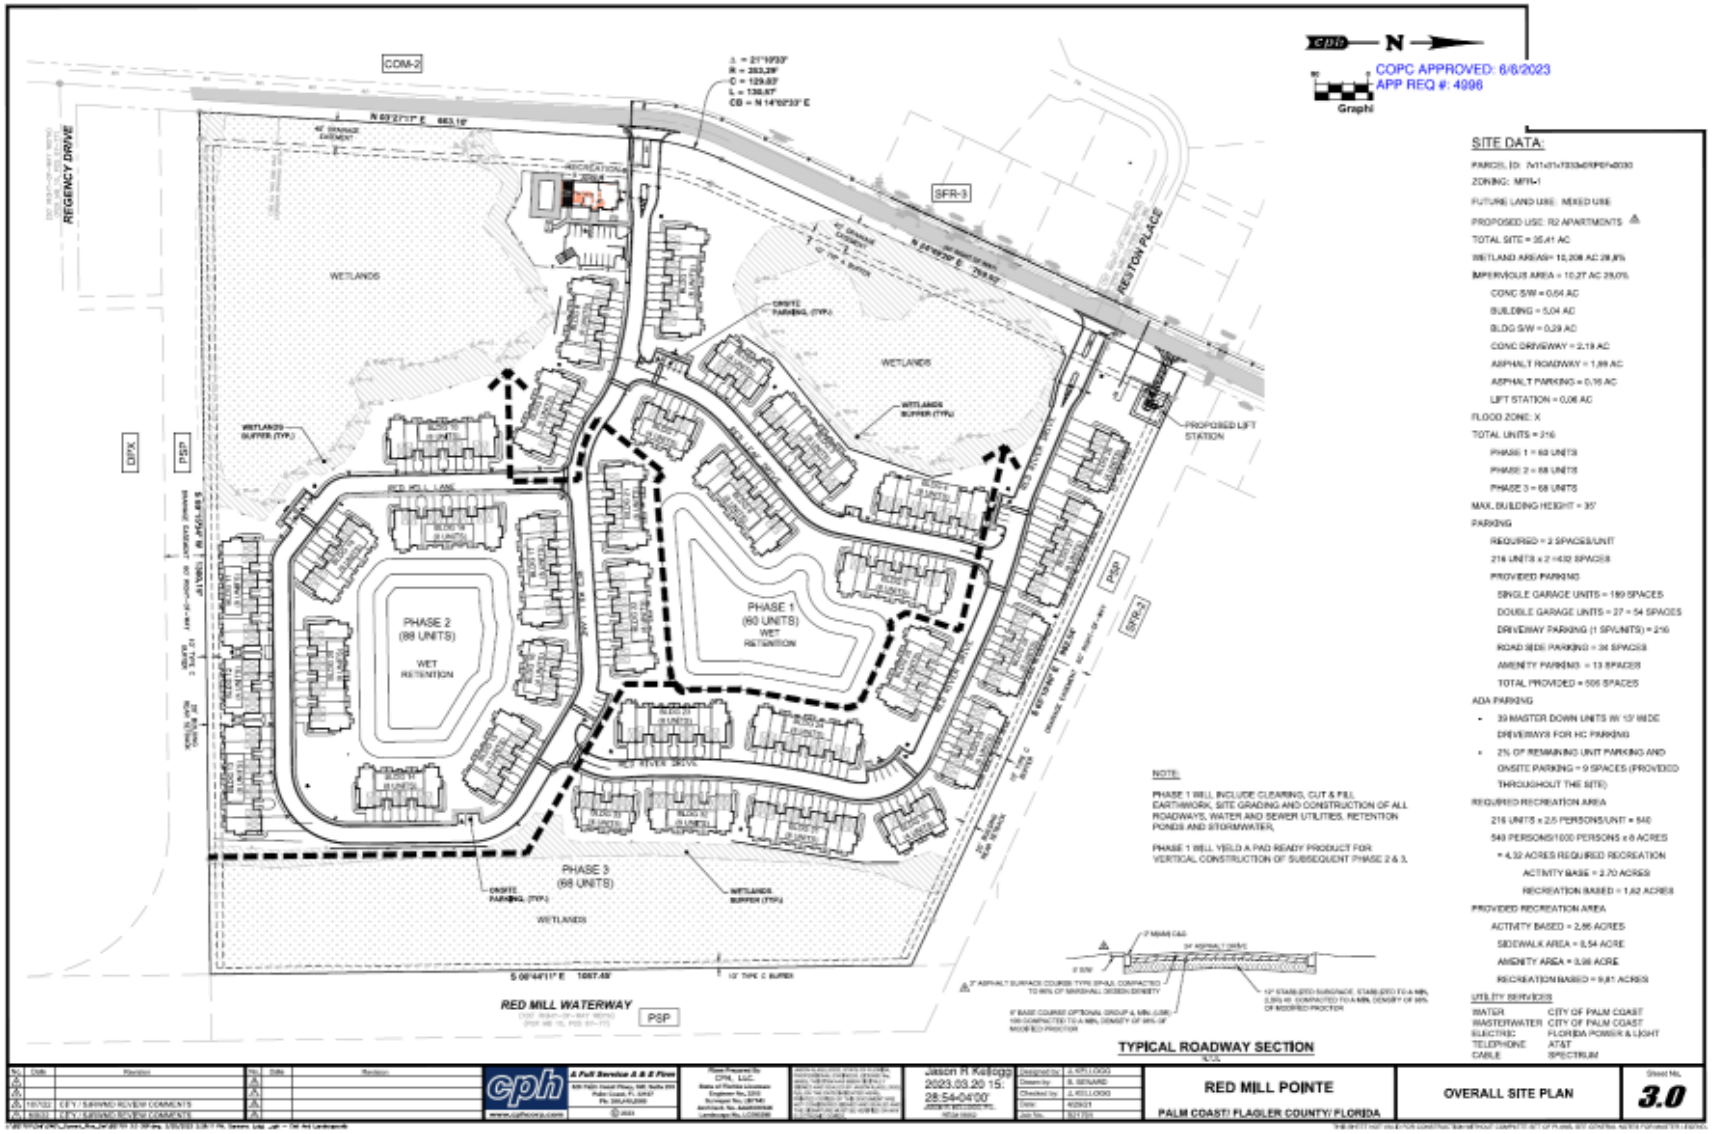
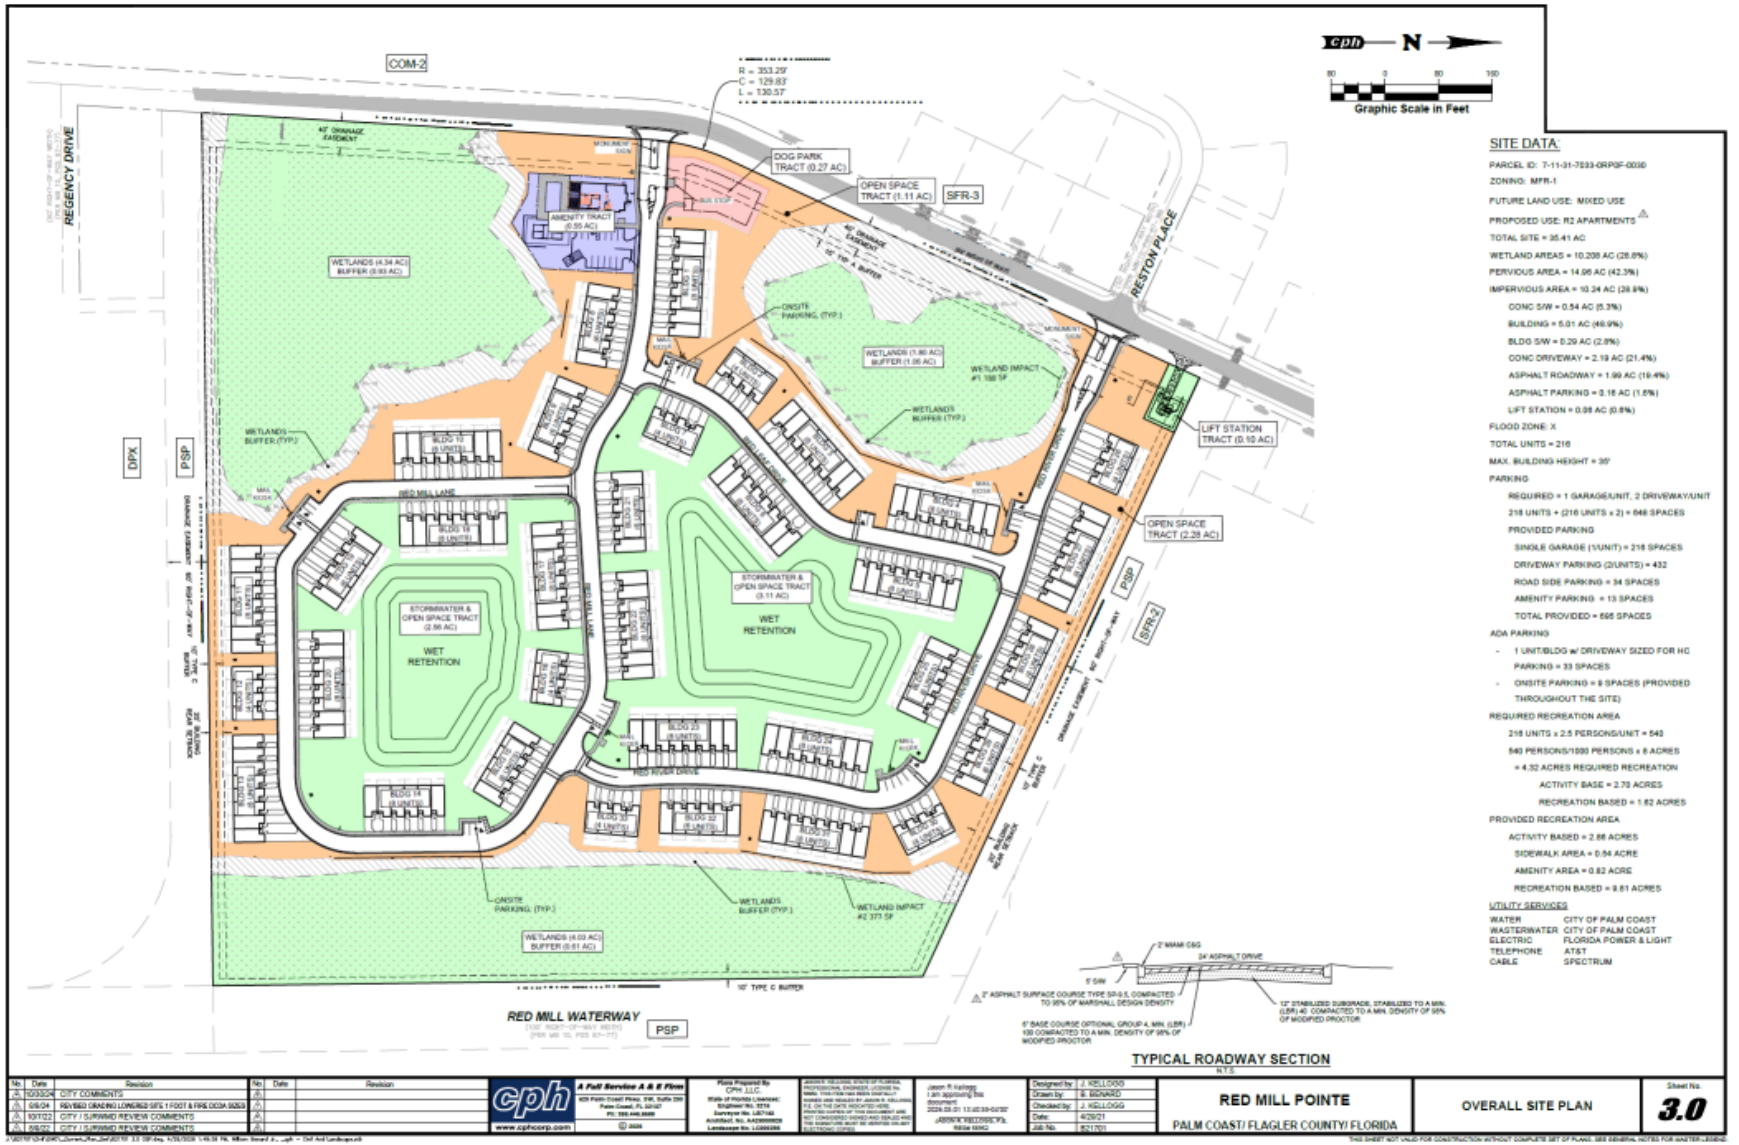
Pervious/Open Space: 71%



CONCLUSIONS OF LAW

The Development Approval sought is consistent with the *City of Palm Coast Comprehensive Plan* and will be developed consistent with and in compliance to applicable land development regulations and all other applicable regulations and ordinances as set forth in the Code of Ordinances of the City of Palm Coast.



The Owners have expressly agreed to be bound by and subject to the development conditions and commitments stated below and have covenanted and agreed to have such conditions and commitments run with, follow, and perpetually burden the afore described property.

PALM COAST

Approved Site Plan (AR# 4996)

Proposed MPD Conceptual Plan

Master Planned Development

LDC Sec. 2.05.05
Criteria Analysis

A. *The proposed development must not be in conflict with or contrary to the public interest;*
B. *The proposed development must be consistent with the Comprehensive Plan and the provisions of this LDC;*
C. *The proposed development must not impose a significant financial liability or hardship for the City;*
D. *The proposed development must not create an unreasonable hazard, or nuisance, or constitute a threat to the general health, welfare, or safety of the City's inhabitants;*
E. *The proposed development must comply with all other applicable local, state and federal laws, statutes, ordinances, regulations, or codes.*

Palm Coast

Master Planned Development

LDC Sec. 2.09.04
Criteria Analysis

A. Consistency with all adopted elements of the Comprehensive Plan and whether it furthers the goals and objectives of the Comprehensive Plan.
B. Consistency with the general intent of the LDC.
C. Degree of departure of the proposed development from surrounding areas in terms of character and density/intensity.
D. Compatibility within the development and relationship with surrounding neighborhoods.
E. Adequate provision for future public education and recreation facilities, transportation, water supply, sewage disposal, surface drainage, flood control, and soil conservation as shown in the development plan.
F. The feasibility and compatibility of development phases to stand as independent developments.

Master Planned Development

LDC Sec. 2.09.04
Criteria Analysis
(continued)

G. The availability and adequacy of primary streets and thoroughfares to support traffic to be generated within the proposed development.

H. The benefits within the proposed development and to the general public to justify the requested departure from standard development requirements inherent in a Master Planned Development District classification.

I. The conformity and compatibility of the development with any adopted development plan of the City of Palm Coast.

J. Impact upon the environment or natural resources.

K. Impact on the economy of any affected area.

PALM COAST

Master Planned Development

Findings Summary

- The project currently has entitlements for 216 multifamily dwelling units already, MPD rezoning keeps the entitlements at the number previously approved by City Council,
- The MPD enables the project to be platted with the almost the same site plan layout as what Council previously approved, promoting residential home ownership.
- The requested MPD rezoning meets the developmental criteria of LDC Sections 2.05.05 and 2.09.04,
- The public gains access to a neighborhood scale dog park.

Public Participation

- The applicant hosted a neighborhood meeting as required by LDC Section 2.05.02 at 6:00 p.m. on Tuesday July 14, 2026, in Rymfire Elementary School's cafeteria. The applicant also met the public notice requirements of LDC Section 2.05.03. The neighborhood meeting was attended by approximately 25 members of the public.

- Documentation summarizing the neighborhood meeting has been attached to the agenda item.

- Staff has received one email inquiry regarding the process following the neighborhood meeting at this time, it was included with the application.

Zoning Map Amendment

PLDRB Meeting

The Planning and Land Development Regulation Board heard this item at their August 19, 2026 meeting. During the meeting two members of the public spoke against the proposed MPD rezoning. After deliberation, the Planning and Land Development Regulation Board voted unanimously, with a four to zero vote, to recommend approval to the City Council.

Master Planned Development

Recommendation

The Planning and Land Development Regulation Board recommends that the City Council determine that the proposed Master Planned Development (Application No. 6212) is consistent with the Comprehensive Plan and approve the applicant's official zoning map amendment to Master Planned Development.

Next Steps

- The PLDRB's recommendation shall be forwarded to the City Council for consideration during first and second readings of the proposed ordinance, these are currently scheduled for October 6th, 2026, and October 20th, 2026.
- The developer will be required go through the platting process prior to developing the site.

Staff is available for any questions and the applicant's team is in attendance.

Thank you.

ORDINANCE 2026-_____
REZONING APPLICATION NO. 6212
RED MILL POINTE MASTER PLAN DEVELOPMENT

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF PALM COAST, FLORIDA, AMENDING THE OFFICIAL ZONING MAP, AS ESTABLISHED IN SECTION 2.06 OF THE CITY OF PALM COAST UNIFIED LAND DEVELOPMENT CODE; FOR 35.41± ACRES OF CERTAIN REAL PROPERTY GENERALLY LOCATED ON THE EAST SIDE OF RED MILL DRIVE APPROXIMATELY 3/4 MILES FROM ITS INTERSECTIONS WITH RYMFIRE DRIVE, AND BEING MORE PARTICULARLY DESCRIBED IN THE ATTACHED EXHIBIT "A" FROM THE MULTIFAMILY RESIDENTIAL (MFR-1) ZONING DISTRICT TO THE MASTER PLANNED DEVELOPMENT (MPD) ZONING DISTRICT ALONG WITH A DEVELOPMENT AGREEMENT; PROVIDING FOR SEVERABILITY; PROVIDING FOR CONFLICTS; AND PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, the City of Palm Coast ("City"), as the governing body of the City, pursuant to the authority vested in Chapter 163 and Chapter 166, Florida Statutes, and the City of Palm Coast Unified Land Development Code, is authorized and empowered to consider applications relating to zoning; and

WHEREAS, Red Mill Point LLC, a Florida limited liability company ("Owner") is the Owner of real property identified by parcel number 07-11-31-7033-0RP0F-0030, which consists of ±35.41 acres ("Property") generally located on the east side of Red Mill Drive approximately 3/4 miles from its intersections with Rymfire Drive, in the City of Palm Coast, Flagler County, Florida, more particularly described in Exhibit "A"; and

WHEREAS, the Owner has received Master Site Plan approval for 216 multifamily dwelling units on the site as approved by City Council at their January, 4, 2022 meeting; and

WHEREAS, on May 23, 2023 the Owner received a Development Order for Technical Site Plan approval of the site to be developed with 216 multifamily dwelling units, and now desires to develop the previously approved 216 dwelling units as attached single-family townhouse residences on fee-simple lots; and

WHEREAS, as a result, the Owner requests approval for an official zoning map amendment to Master Planned Development (MPD) on the Property per the conditions set forth in this Development Agreement and its exhibits attached hereto as Exhibit "B"; and

WHEREAS, the notice and public hearing requirements, as provided for in Chapter 2 (Review Authority, Enforcement, and Procedures) of the City of Palm Coast Unified Land Development Code (Ordinance No. 2008-23) have been satisfied; and

WHEREAS, the Planning and Land Development Regulation Board and City Staff of the City of Palm Coast have recommended approval of this Ordinance and the Planning and Land Development Regulation Board has found this requested change and recommended conditions of approval consistent with the City of Palm Coast Comprehensive Plan; and

WHEREAS, the City Council of the City of Palm Coast held duly noticed public hearings on the proposed amendment set forth hereunder and considered findings and advice of staff, citizens, and all interested parties submitting written and oral comments and supporting data and analysis, and has considered the evidence and testimony presented by the applicant and other interested parties, the recommendations of the various City reviewing departments, and the recommendation of the Planning and Land Development Regulation Board (PLDRB) at its regularly scheduled meeting conducted on August 19, 2026, and after complete deliberation, the City Council hereby finds the requested change consistent with the City of Palm Coast Comprehensive Plan, and that sufficient, competent and substantial evidence supports the proposed amendment set forth hereunder; and

WHEREAS, the City Council of the City of Palm Coast hereby finds that this Ordinance serves a legitimate government purpose and is in the best interests of the public health, safety, and welfare of the citizens of Palm Coast, Florida.

NOW, THEREFORE, IT IS HEREBY ORDAINED BY THE CITY OF PALM COAST, FLORIDA:

SECTION 1. LEGISLATIVE AND ADMINISTRATIVE FINDINGS. The above recitals (whereas clauses) are hereby adopted as the legislative and administrative findings of the City Council.

SECTION 2. ZONING MAP AMENDMENT AND MPD AGREEMENT.

(a) That the Official Zoning Map of the City of Palm Coast as described in City of Palm Coast Unified Land Development Code Section 3.01.02. is hereby amended to

include a change of classification to City of Palm Coast Master Planned Development District (MPD) for the property legally described on Exhibit "A," which is attached and incorporated herein by this reference. City Staff is hereby directed to promptly amend the Official Zoning Map upon the effective date of this Ordinance.

(b) The Red Mill Pointe Master Planned Development Agreement ("Development Agreement") and its exhibits attached hereto as Exhibit "B", with all appropriate signatures and joinders, is hereby adopted and approved by the City Council of the City of Palm Coast and shall constitute the regulations for the specific MPD District. The Development Agreement shall be recorded in the Official Records of Flagler County, Florida, by the City Clerk.

SECTION 3. SEVERABILITY.

It is hereby declared to be the intention of the City Council that the sections, paragraphs, sentences, clauses and phrases of this Code are severable, and if any phrase, clause, sentence, paragraph or section of this Code shall be declared unconstitutional by the valid judgment or decree of a court of competent jurisdiction, such unconstitutionality shall not affect any of the remaining phrases, clauses, sentences, paragraphs and sections of this Code.

SECTION 4. CONFLICTS. All Ordinances or parts of Ordinances in conflict with this Ordinance are hereby repealed.

SECTION 5. EFFECTIVE DATE. This Ordinance shall become effective immediately upon its passage and adoption.

APPROVED on first reading this 6th day of October 2026.

ADOPTED on second reading after due public notice and hearing this 20th day of October 2026.

MASTER PLAN DEVELOPMENT AGREEMENT

FOR RED MILL POINTE

THIS MASTER PLAN DEVELOPMENT AGREEMENT, (herein referred to as the "Development Agreement") is made and executed this ____day of _____, 2026, by and between the **CITY OF PALM COAST, a Florida municipal corporation** (herein referred to as the "City"), whose address is 160 Lake Avenue, Palm Coast, Florida, 32164, and **RED MILL POINTE, LLC, a Florida limited liability company** (herein referred to from time-to-time as the "Owner" regardless of whether singular or plural ownership status) whose address is Post Office Box 770279, Orlando, Florida 32877.

WITNESSETH:

WHEREAS, the Owner is the fee simple title owner of certain real property consisting of +/- 35 acres located in the City of Palm Coast, Flagler County, Florida, more particularly described in the legal description attached hereto as **Exhibit "1"** and incorporated herein ("Owner's Property" or "Subject Property");

WHEREAS, on November 6, 2007 the City of Palm Coast issued a Development Order recorded on February 26, 2008 in O.R. Book 1645, Page 1882, Public Records of Flagler

County, Florida, relating to and concerning the Subject Property which originally approved the development of a multifamily residence community with approval for 174 townhomes.

WHEREAS, on January 4, 2022 the City of Palm Coast issued a Development Order recorded on February 11, 2022 in O.R. Book 2657, Page 1870, Public Records of Flagler County, Florida, relating to and concerning the Subject Property which originally approved the development of a multifamily residence community with approval for 216 townhomes.

WHEREAS, on May 23, 2023, the City of Palm Coast issued a Development Order recorded on July 20, 2023 in O.R. Book 2797, Page 1843, Public Records of Flagler County, Florida, relating to and concerning the Subject Property which originally approved the development of a multifamily residence community with approval for 216 townhomes.

WHEREAS, on February 11, 2025, the City approved an extension for the Development Order to May 23, 2026.

WHEREAS, the Owner voluntarily agrees with the conditions, terms, and restrictions hereinafter recited, and has agreed voluntarily to their imposition as an incident to development of the Subject Property.

WHEREAS the City of Palm Coast City Council ("City Council") finds that this Development Agreement (the "MPD") is consistent with the City's Comprehensive Plan (2050) (the "Comprehensive Plan") and Unified Land Development Code ("LDC") and that the conditions, terms, restrictions, and requirements set forth herein are necessary for the protection of the public health, safety, and welfare of the citizens of the City;

WHEREAS, the City Council further finds that this Development Agreement is consistent with and an exercise of the City's powers under the Municipal Home Rule Powers Act; Article VIII, Section 2(b) of the Constitution of the State of Florida; Chapter 166, Florida Statutes; the City of Palm Coast City Charter; other controlling law; and the City's police

powers;

WHEREAS, the City Council deems the development of the Owner's Property to be a proper public purpose, and that said development will achieve important City objectives, such as stimulating economic development in the City, improving stormwater capacity and flood prevention, and increasing property values;

WHEREAS, additional conditions of approval may also be included within the minutes of relevant meetings of the PLDRB and City Council. Furthermore, any representations or promises made by the Owner during the zoning review and approval process for the Project (whether oral or in writing) shall also be additional conditions of approval if deemed appropriate by the City;

WHEREAS, this is a non-statutory Development Agreement which is not subject to or enacted pursuant to the provisions of Sections 163.3220 -163.3243, Florida Statutes.

NOW, THEREFORE, it is hereby resolved and agreed by and between the City and the Owner that the Owner's application for a Master Planned Development is approved subject to the Development Agreement's following terms and conditions:

SECTION 1. RECITALS.

The above recitals are taken as true, incorporated herein by this reference and form a material part of this Development Agreement upon which the City and the Owner have relied.

SECTION 2. REPRESENTATIONS OF OWNER.

(a) The Owner hereby represents and warrants to the City that the Owner is the owner of the Owner's Property in accordance with the title opinion or title certification provided by the Owner to the City issued by an attorney or title insurance company licensed to provide services in the State of Florida with said title opinion or certification showing all

liens, mortgages, and other encumbrances not satisfied or released of record relative to the Subject Property.

(b) The Owner represents and warrants to the City that it has the power and authority to enter into and consummate the terms and conditions of this Development Agreement; that all acts, approvals, procedures, and similar matters required in order to authorize this Development Agreement have been taken, obtained or followed, as the case may be; that this Development Agreement and the proposed performance of this Development Agreement by the Owner is not an ultra vires act; and that, upon the execution of this Development Agreement by the parties, this Development Agreement shall be valid and binding upon the parties hereto and their successors in interest.

(c) The Owner hereby represents to the City that all required joinders and consents have been obtained and set forth in a properly executed form on this Development Agreement. Unless otherwise agreed to by the City, all liens, mortgages, and encumbrances not satisfied or released of record must be subordinated to the terms of this Development Agreement and joinders must be executed by any mortgagees. It is the responsibility of the Owner to ensure that said subordinations and joinders occur in a form and substance acceptable to the City Attorney prior to the City's execution of this Development Agreement. If the Owner fails to attain the joinder and consent, then the Owner shall lose all rights and benefits deriving hereunder.

SECTION 3. PROJECT DESCRIPTION.

The Applicant may develop a mixed-use development consistent with the Conceptual Master Plan(s) attached hereto as **Exhibit "2"** and as further described as follows: up to 216 residential units.

FUTURE LAND USE MAP (FLUM).

The future land use designation for the Subject Property is Mixed Use. This Development Agreement is consistent with the City's Comprehensive Plan (2050).

SECTION 4. APPROVAL OF MASTER PLAN DEVELOPMENT, CONCEPTUAL MASTER PLAN APPROVAL, AND DEVELOPMENT REVIEW PROCESS.

(a) The City Council, at its regular meeting on _____, 2026, adopted Ordinance 2026-for a Master Planned Development affecting the Owner's Property subject to the terms and conditions of this Development Agreement.

(b) The Owner acknowledges if this Development Agreement is ever terminated, the approval shall be deemed null and void and the land uses approved for the Subject Property shall no longer be permitted, unless otherwise approved by the City Council.

(c) The provisions of the then current LDC shall be applicable to the Subject Property unless otherwise specifically stated herein. Any City Code provision not specifically identified will not be affected by the terms of this Development Agreement, and will be subject to enforcement as if no Development Agreement were in effect.

(d) The Conceptual Master Plan generally depicts the layout of the Project and delineates the approximate property boundaries, streets, easements, property lines, general location of lots and intended uses.

(e) The Conceptual Master Plan contains a level of detail satisfactory to permit the Project to proceed directly to Preliminary Plat.

SECTION 5. MODIFICATIONS TO THE DEVELOPMENT AGREEMENT CONCEPTUAL MASTER PLAN.

Modifications to the exact location of lots, roadways, primary sidewalk/pathway system, and other improvements may be requested by the Owner and approved by the Land

Use Administrator ("LUA") during review of construction documents, site plans, or Preliminary Plat for the Project or portions thereof, as long as the development standards contained in this Development Agreement are maintained. Moreover, the Land Use Administrator is authorized to approve those modifications to the Development Agreement and Conceptual Master Plan and any construction documents, and Preliminary Plat for the Subject Property or portions thereof as allowed by Code, provided that: (1) the maximum building height and number of residential lots described herein are not exceeded; (2) the Subject Property setbacks from adjacent properties are not modified; and (3) the approved plans maintain the general development standards in this Development Agreement.

SECTION 6. PERMITTED USES.

The Owner agrees to fully comply with the following uses and restrictions on the Subject Property. The Owner must develop the Subject Property consistent with the Conceptual Master Plan (Exhibit "2") with the uses of the Subject Property being limited to those provided on the table provided below. The design standards for the permitted use on the Subject Property shall comply with the LDC or design standards provided in Section 11.1, Lot Dimensional Standards, below:

ZONING DISTRICT	APPROVED USES
Residential	Town House, Amenity

(a) Town House: This use permits three or more attached single-family dwelling unit constructed in a series or group of attached units with property lines separating such units.

6.1 VEHICULAR/NON-VEHICULAR AND PEDESTRIAN ACCESS, PARKING AND INTERCONNECTIVITY.

(a) The Conceptual Master Plan integrates pedestrian, bicycle, and vehicular traffic circulation systems within the Subject Property and with adjacent rights-of-ways. All uses shall have access to a roadway but are not required to front on a dedicated road. The City shall be granted access at all times to all roadways to ensure that public safety is maintained.

SECTION 7. LAND DEVELOPMENT CODE PARTIAL NON-APPLICABILITY.

The development of the Project shall proceed in accordance with the terms of this Development Agreement. In the event of an inconsistency between the terms of this Development Agreement and the LDC, the terms of this Development Agreement shall prevail. Where specific requirements are not contained in this Development Agreement, the LDC shall apply to the extent that it does not conflict with the provisions of this Development Agreement or the general intent of the Conceptual Master Plan.

SECTION 8. FACILITY COMMITMENTS.

(a) Unless otherwise described elsewhere in this Development Agreement, the Owner agrees that the City is not responsible for the construction or creation of public facilities or capacity to facilitate the development of the Subject Property. No building permits or development permits shall be issued for the Subject Property unless adequate capacity of concurrency monitored facilities are available concurrent with the impact on said facilities by the Project.

(b) Private & Public Improvements: The Owner agrees to construct, at a minimum, the following on-site improvements, at the Owner's sole and exclusive expense, as a condition of this Development Agreement and in addition to the payment of all impact fees relating to the development of the Subject Property, unless otherwise provided for herein:

i. Private Improvements: The parking areas; utilities; master stormwater

system; sidewalks; lighting; recreational facilities, and perimeter buffer landscaping.

ii. The Owner shall grant any and all drainage and utility easements to the City which are deemed necessary by the City to serve the public utilities.

iii. The Owner agrees that the City has shown an essential nexus between a legitimate City interest and the conditions, if any, imposed herein. The Owner further agrees that all proposed conditions are roughly proportional to the impact the development will have upon the public, based upon an individualized determination by the City that the required conditions are related in both nature and extent to the impacts of the proposed Project.

iv. Nothing herein shall be deemed a prohibited exaction under Fla. Stat. 70.45, and Owner agrees it has not suffered any damages under that statute.

(c) SIDEWALKS AND PEDESTRIAN PATHS: The Owner shall provide an internal integrated system of sidewalks to ensure that pedestrians maintain an easy and safe access to all uses as depicted on the Conceptual Master Plan.

(d) ACCESS: Ingress and egress to the Project shall be provided, constructed and maintained as depicted on the Conceptual Master Plan. At the sole discretion of the Owner, the development or portions of it may be gated.

(e) OWNER STORMWATER SYSTEM: The Owner shall be responsible for designing, permitting, constructing, and maintaining the means of conveyance of stormwater runoff from the Project including, but not limited to, all stormwater lines, ditches, culverts, and other stormwater facilities that are necessary to convey the stormwater runoff to the Stormwater Facility (the "Owner Stormwater System").

(f) PARK AND RECREATION: As generally depicted on the Conceptual

Master Plan, the Owner shall provide parks and recreation for the benefit of the Project. The actual location and design of all parks and recreation facilities will be provided at a later date. In addition, the Owner shall construct and maintain a dog park on the Property, which shall be accessible to the surrounding community at no charge; provided, however, that such access shall be limited to pedestrian access only, and no vehicular access or parking rights are granted or implied. Reasonable restrictions, such as open and close time, may be imposed so long as they are equally applicable to the residents of the Property and the general public.

SECTION 9. DEVELOPMENT STANDARDS.

9.1 PARKING: Parking requirements for the Subject Property shall be depicted on the Conceptual Master Plan and shall include the following:

(a) UNIT PARKING: There shall be two (2) driveway parking spaces and one (1) single garage space per unit

(b) ROAD SIDE PARKING: There shall be thirty-four (34) spaces of road side parking available for guests throughout the Property.

(c) AMENITY PARKING: There shall be thirteen (13) spaces available for amenity parking.

9.2 OPEN SPACE: Minimum open space shall be forty percent (40%) of the Subject Property's gross area. Open space is defined in the LDC and includes on-site stormwater ponds, and all open space within the Property. Flexibility to the minimum open space requirements shall be as provided by the LDC, which may include, but not be limited to, green building principles, land donation, or other mechanisms that would justify a lower percentage of open space, if approved by the Land Use Administrator. Open space shall be maintained by either the actual owner of the property, a property owners' association, or other method satisfactory to the Owner and the City.

9.3 WATER/WASTEWATER: The Project is located wholly within the City limits and is therefore within the City's water and wastewater service areas. All permanent uses within the Project will be served by central water and sewer services. The City shall be the potable water and wastewater service provider for the Project upon payment of applicable fees. The City is under no obligation to accept the dedication of any facility.

9.4 TRANSPORTATION: Transportation concurrency shall be addressed during the Preliminary Plat or technical site plan process.

9.5 DRAINAGE:

(a) The Owner shall construct and maintain a stormwater management system that provides treatment and attenuation as required by St. Johns River Water Management District (SJRWMD) and the City's LDC. Best Management Practices (BMPs) shall be used during and after construction to minimize erosion and sedimentation and to properly manage runoff for both stormwater quantity and quality. BMPs shall be in accordance with the Florida Department of Environmental Protection (FDEP) and Florida Department of Transportation (FDOT) design standards and details.

(b) Stormwater piping, swales and ditches shall be designed to convey a ten (10)-year, twenty-four (24)-hour storm event. Stormwater detention facilities shall be designed to meet the water quality and attenuation requirements of SJRWMD and the City's LDC.

9.6 LANDSCAPING: No potable water shall be used for irrigation once a reclaimed water source is available after which all landscaping and irrigation shall comply with the LDC except for perimeter buffers, which shall be governed by section 10.20, below.

9.7 LIGHTING: All lighting including but not limited to all pole mounted lighting shall be designed to minimize light pollution to off-site properties and to comply with the LDC.

9.8 FIRE PROTECTION: Fire protection requirements for the Project will be met

through a system of fire hydrants installed on the Subject Property by the Owner in accordance with City standards. The locations of fire hydrants shall be shown on all construction documents, technical site plans, or preliminary plats. The water requirements for the fire system will be served by the City's Utility Department. The Project shall comply with the City's fire protection requirements. The City will provide fire protection services to the Project in accordance with established local response agreements.

9.9 UTILITIES: The Owner shall be responsible for any and all costs associated with the extension of existing City utilities to the Subject Property that may be required to serve this Project. All internal utility lines for the Project shall be placed underground.

9.10 INTERCONNECTIVITY AND ACCESS: All units within the Subject Property shall be interconnected by roadways and sidewalks as called for by the City's Comprehensive Plan. The Project shall provide and maintain the minimum number of access drives onto adjacent roadway as generally depicted on the Conceptual Master Plan.

9.11 RESOURCE PROTECTION:

(a) Except as depicted on the Conceptual Master Plan and in this Development Agreement, the Owner shall comply with the resource protection requirements of the LDC.

(b) Natural upland buffers must be provided if required by Chapter 10 of the LDC.

9.12 WETLANDS: The Project shall be subject to all Federal, State and City of Palm Coast environmental and wetland regulations and ordinances. Impacts are limited. All preserved wetlands within the Project shall be placed into conservation easements in favor of the St. Johns River Water Management District, in a form acceptable to the District.

9.13 PROHIBITION OF DISCHARGES: The Owner shall comply with the City of Palm Coast Code of Ordinances, Article VI, Prohibition of Discharges, and all applicable local,

state, federal, and City water quality laws, rules, regulations, and ordinances.

9.14 STORMWATER POLLUTION PREVENTION: A stormwater pollution prevention plan shall be attached to and incorporated into the construction and permit documents pursuant to the requirements of applicable federal, state, and City regulations.

9.15 WILDLIFE PROTECTION: In the event that listed species have been determined to be residing on, or otherwise be significantly dependent on the Subject Property, the Owner shall obtain the necessary permits from the Florida Fish and Wildlife Conservation Commission and other applicable agencies. Activities associated with listed flora and fauna shall comply with the LDC.

9.16 SIGNAGE: The Red Mill Pointe development may be identified as provided on the Conceptual Master Plan.

SECTION 10. PHASING OF DEVELOPMENT.

(a) The Subject Property may be developed in multiple phases. Prior to the issuance of any permit for any phase of the Project (and prior to any construction of any improvement, building, or structure on the Subject Property), the Owner shall submit a Preliminary Plat for the relevant phase. A Subdivision Master Plan as provided in Section 2.10, LDC is not required. Each phase of the Project will include infrastructure to support the proposed uses, including water and wastewater service, drainage, private roads, vehicular, and pedestrian access facilities. All infrastructure necessary to support each phase that is constructed on the Subject Property shall be constructed concurrently with, or prior to construction of that phase of the Project, as approved by the City, and prior to the issuance of building permits for that phase. Adequate emergency vehicle access and turnarounds shall be provided at all times.

(b) Roadways shall be constructed concurrently with development of adjacent lots to insure that contiguous roadways are available at all times prior to the issuance of any

building permits for that phase.

(c) The amenity centers and public benefit uses associated with the development shall be constructed as part of the first phase of development and shall be completed prior to or concurrent with the issuance of the first Certificate of Occupancy for any residential unit within the project.

SECTION 11. LOT AND BUILDING STANDARDS.

11.1 LOT DIMENSIONAL STANDARDS: Dimensional standards for the permitted use shall comply with the LDC for townhomes and are as follows:

Townhome Site Development Requirements

Type	Townhome
Min. Lot Width interior/exterior	**20'/25'**
Min. Lot Depth	**90'**
Min. Lot Size (SF) interior/exterior	**1800/2550**
Min. Side Setback Interior/exterior	**0'/10**
Min. Street-Side Setback	**20'**
Min. Front Setback	**20'**
Max. Bldg. Height	**50'**
Min. Rear Setback	**10'**
Max. Impervious Surface Ratio	**70%**
Min. Square Footage	**1400**

(Note – All lot sizes, setbacks and dimensions are minimum unless otherwise indicated and may be increased.)

11.2 ARCHITECTURE: Prior to issuance of the Preliminary Plat Development order, the Owner shall submit to the LUA an architectural program for the Project which shall be consistent with Chapter 13 of the City's LDC. Such program shall include signage and lighting for the Project.

SECTION 12. LIST OF OUTSTANDING PERMITS/APPROVALS AND PROPER SEQUENCING.

(a) The failure of the Development Agreement to address any specific City, County, State, or Federal permit, condition, term, or restriction shall not relieve the Owner of the requirement of complying with the law governing said permitting requirements, conditions, terms, or restrictions.

(b) All required City, County, State, or Federal permits shall be obtained prior to commencement of construction. This Development Agreement is not a Preliminary Plat approval and the Owner remains responsible for complying with all provisions of the Land Development Code unless provided elsewhere in this Development Agreement.

SECTION 13. DEVELOPMENT FEES.

The Owner acknowledges and agrees that the City has enacted citywide impact fees, and may in the future increase the amount of those fees. The Owner acknowledges that the Subject Property shall be subject to all fees in effect at the time of permitting.

SECTION 14. COMMON AREAS AND MAINTENANCE.

For all common areas, to ensure the long-term ownership, maintenance, and control of those areas, prior to the issuance of any building permit and before recording the final plat, the

Owner shall maintain or establish an association, in accordance with Florida law, comprised of the owners of lots or parcels with the development (the "Association"). The Association documentation shall be subject to the prior reasonable review of the City to ensure adequate provisions for the ongoing care and maintenance of the common areas. The documentation, whether contained in a deed restriction or otherwise, shall provide for the permanent maintenance of the Common Areas by the Association, minimum insurance requirements for the Association, adequate mechanisms to force financial participation by members of the Association, and restrictions on the ability to amend these requirements without the City's approval. The City shall not be required to accept ownership or maintenance of any of the Project's common elements including but not limited to roads, landscaping and buffers.

SECTION 15. BREACH, ENFORCEMENT, ALTERNATIVE DISPUTE AND CONFLICT RESOLUTION.

(a) In the event of a breach hereof by either party hereto, the other party hereto shall have all rights and remedies allowed by law, including the right to specific performance of the provisions hereof.

(b) In the event that a dispute arises under this Development Agreement, and the City and Owner are unable to resolve the issues, the parties shall attempt to resolve all disputes informally. In the event of a failure to informally resolve all disputes, the City and Owner agree to engage in mediation before a certified Circuit Court mediator selected by the parties. In the event that the parties fail to agree to a mediator, a certified mediator will be selected solely by the City. The parties shall equally pay all costs of mediation.

(c) In the event of conflict between the terms of this Development Agreement and the Development Agreement Master Plan, the provisions of this Development Agreement shall prevail.

SECTION 16. NOTICES.

(a) All notices required or permitted to be given under this Development Agreement must be in writing and must be delivered to the City or the Owner at its address set forth below (or such other address as may be hereafter be designated in writing by such party).

(b) Any such notice must be personally delivered or sent by certified mail, overnight courier, or telecopy.

(c) Any such notice will be deemed effective when received (if sent by hand delivery, overnight courier, or telecopy) or on that date which is three (3) days after such notice is deposited in the United States mail (if sent by certified mail).

(d) The parties' addresses for the delivery of all such notices are as follows:

SECTION 17. SEVERABILITY.

The terms and provisions of this Development Agreement are not severable and in the

event any portion of this Development Agreement shall be found to be invalid or illegal, then the entire Development Agreement shall remain valid and binding on the parties.

SECTION 18. SUCCESSORS AND ASSIGNS.

(a) This Development Agreement and the terms and conditions hereof shall be binding upon and inure to the benefit of the City and Owner and their respective successors-in-interest. The terms and conditions of this Development Agreement similarly shall be binding upon the Subject Property and shall run with the land and the title to the same.

(b) This Development Agreement touches and concerns the Subject Property.

(c) The Owner has expressly covenanted and agreed to this provision and all other terms and provisions of this Development Agreement.

SECTION 19. GOVERNING LAW, VENUE AND COMPLIANCE WITH LAW.

(a) This Development Agreement shall be governed by and construed in accordance with the laws of the State of Florida and the Code of Ordinances of the City of Palm Coast.

(b) Venue for any dispute shall be in the Seventh Judicial Circuit Court in and for Flagler County, Florida, or the Middle District if in federal court.

(c) The Owner shall fully comply with all applicable local, State, and Federal environmental regulations and all other laws of similar type or nature.

(d) This Development Agreement shall not limit the future exercise of the police powers of the City to enact ordinances, standards, or rules regulating development generally applicable to the entire area of the City, such as requiring compliance with the City capital facilities plan; parks master plan, including parks and trail dedications; utility construction and connections; mandating utility capacities; requiring street development or other such similar

land development regulations and requirements.

(e) If state or federal laws are enacted after execution of this Development Agreement which are applicable to and preclude the parties' compliance with this Development Agreement, this Development Agreement shall be modified or revoked as necessary to comply with the relevant law.

(f) This Development Agreement shall also not be construed to prohibit the City from adopting lawfully imposed impact fees applicable to the Owner and the development of the Conceptual Master Plan authorized hereunder.

SECTION 20. TERM / EFFECTIVE DATE.

(a) This Development Agreement shall be effective upon approval by the City Council and execution of this Development Agreement by all parties (the "Effective Date").

(b) This Development Agreement provides an initial timeframe of ten (10) years to commence development from the Effective Date.

Development of the Project shall commence within the timeframes set forth herein. Such timeframes may be extended in accordance with the extension provisions of the City's Land Development Code, as may be amended from time to time, or pursuant to any applicable statutory tolling provisions. In the event the Project fails to commence within the required timeframe, as may be extended, this Development Agreement and the approvals granted herein may expire. Any subsequent development of the Property shall require approval by the City through an amendment to this Development Agreement, rezoning, or other applicable development order, in accordance with the City's Land Development Code. SECTION 21. RECORDATION.

Upon approval by the City Council and execution of this Development Agreement by all parties, this Development Agreement and any and all amendments hereto shall be recorded by the City with the Clerk of the Circuit Court of Flagler County within fourteen (14) days after its execution by the City, and the Development Agreement shall run with the land. The Owner shall pay the costs to record this Development Agreement.

SECTION 22. THIRD PARTY RIGHTS.

This Development Agreement is not a third-party beneficiary contract, and shall not in any way whatsoever create any rights on behalf of any third party.

SECTION 23. SPECIFIC PERFORMANCE / TIME IS OF THE ESSENCE.

(a) Strict compliance shall be required with each and every provision of this Development Agreement. The parties agree that each has the remedy of specific performance of these obligations.

(b) Time is of the essence to this Development Agreement and every right or responsibility required herein shall be performed within the times specified.

SECTION 24. ATTORNEYS' FEES.

In the event of any action to enforce the terms of this Development Agreement, the prevailing party shall be entitled to recover reasonable attorneys' fees, paralegals' fees, and all costs incurred, whether the same be incurred in a pre-litigation negotiation, litigation at the trial, or appellate level.

SECTION 25. FORCE MAJEURE.

The parties agree that in the event that the failure by either party to accomplish any action required hereunder within a specific time period ("Time Period") constitutes a default under terms of this Development Agreement, and if any such failure is due to any unforeseeable or unpredictable event or condition beyond the control of such party, including, but not limited to: acts of God, acts of government authority (other than the City's own acts), acts of public enemy or war, terrorism, riots, civil disturbances, power failure, shortages of labor or materials, injunction or other court proceedings beyond the control of such party, or severe adverse weather conditions ("Uncontrollable Event"); then notwithstanding any provision of this

Development Agreement to the contrary, that failure shall not constitute a default under this Development Agreement and any Time Period prescribed hereunder shall be extended by the amount of time that such party was unable to perform solely due to the Uncontrollable Event.

SECTION 26. INDEMNIFICATION.

The Owner shall indemnify for and save the City harmless from and against any and all liability, claims for damages and suits for any injury to any person or persons, or damages to any property of any kind whatsoever arising out of in any way connected with the Owner's development of the Subject Property as provided in this Development Agreement. This agreement by the Owner to indemnify and hold the City harmless shall include, but not be limited to: all charges, expenses, and costs, including reasonable attorneys' fees, both at trial and on appeal, incurred by the City on account of or by reason of such injuries, damages, liability, claims, suits, or losses and all damages arising therefrom.

SECTION 27. ENFORCEMENT; CITY'S RIGHT TO TERMINATE DEVELOPMENT AGREEMENT.

(a) This Development Agreement shall continue to be enforceable, unless lawfully terminated, notwithstanding any subsequent changes in any applicable law.

(b) The failure by the Owner to perform each and every one of its obligations hereunder shall constitute a default, entitling the City to pursue whatever remedies are available to it under Florida law or equity, including, without limitation, an action for specific performance and/or injunctive relief, or alternatively, the termination of this Development Agreement. Prior to the City filing any action or terminating this Development Agreement as a result of a default under this Development Agreement, the City shall first provide the Owner written notice of said default. Upon receipt of said notice, the Owner shall be provided a thirty

(30) day period in which to cure the default to the reasonable satisfaction of the City prior to the City filing an action or terminating this Development Agreement. If thirty (30) days is not considered by the parties to be a reasonable period in which to cure the default, the cure period shall be extended to such cure period acceptable to the City, but in no case shall that cure period exceed ninety (90) days from initial notification of default. Upon termination of the Development Agreement, the Owner shall immediately be divested of all rights and privileges granted hereunder.

SECTION 28. CAPTIONS.

Sections and other captions contained in this Development Agreement are for reference purposes only and are in no way intended to describe, interpret, define, or limit the scope, extent or intent of this Development Agreement, or any provision hereof.

SECTION 29. EXHIBITS.

Each exhibit referred to and attached to this Development Agreement is an essential part of this Development Agreement. The exhibits and any amendments or revisions thereto, even if not physically attached hereto, shall be treated as if they are part of this Development Agreement.

SECTION 30. INTERPRETATION.

(a) The Owner and the City agree that all words, terms and conditions contained herein are to be read in concert, each with the other, and that a provision contained under one (1) heading may be considered to be equally applicable under another in the interpretation of this Development Agreement.

(b) This Development Agreement shall not be construed more strictly against either party on the basis of being the drafter thereof, and both parties have contributed to the drafting

of this Development Agreement.

SECTION 31. FURTHER ASSURANCES.

Each party agrees to sign any other and further instruments and documents consistent herewith as may be necessary and proper to give complete effect to the terms of this Development Agreement.

SECTION 32. COUNTERPARTS.

This Development Agreement may be executed in any number of counterparts, each of which shall be deemed an original, but all of which, taken together, shall constitute one (1) and the same document.

SECTION 33. MODIFICATIONS, AMENDMENTS AND NON-WAIVER.

(a) Unless provided for elsewhere in this Development Agreement, (1) Amendments to and waivers of the provisions herein shall be made by the parties only in writing by formal amendment, and (2) This Development Agreement shall not be modified or amended except by written agreement executed by all parties hereto and upon approval of the City Council of the City of Palm Coast.

(b) Failure of any party hereto to exercise any right hereunder shall not be deemed a waiver of any such right and shall not affect the right of such party to exercise at some future date any such right or any other right it may have.

SECTION 34. ENTIRE AGREEMENT AND EFFECT ON PRIOR AGREEMENTS.

This Development Agreement constitutes the entire agreement between the parties and supersedes all previous oral discussions, understandings, and agreements of any kind and nature, , as between the parties relating to the subject matter of this Development Agreement.

IN WITNESS WHEREOF, the Parties have executed this Development Agreement on the dates set forth below.

CONCEPTUAL MASTER PLAN

COMMUNITY DEVELOPMENT DEPARTMENT
STAFF REPORT FOR RED MILL POINTE MASTER PLANNED DEVELOPMENT
CITY COUNCIL
PUBLIC HEARING ON OCTOBER 20, 2026

OVERVIEW

Application Number:	6212
Applicant:	Michael D. Chiumento III, Esq. of Chiumento Law
Property Description:	The east side of Red Mill Drive approximately 3/4 miles from its intersections with Rymfire Drive.
Property Owner:	Red Mill Pointe LLC
Parcel ID #:	07-11-31-7033-0RP0F-0030
Parcel Address:	76 Red Mill Drive
Current FLUM:	Mixed Use
Current Zoning:	Multifamily Residential (MFR-1)
Current Use:	Vacant
Size of Property:	±35.41 acres
Requested Action:	Amend the Official Zoning Map on the subject property from Multifamily Residential (MFR-1) to Master Planned Development (MPD) with a Development Agreement, in order for the property to be developed with fee-simple townhouses.

ANALYSIS

REQUESTED ACTION

The applicant is requesting an amendment to the Official Zoning Map (rezoning) from MFR-1 to MPD for their client to be able to develop the site with 216 single-family dwelling units in the form of attached fee-simple townhouses. The applicant has included a Development Agreement Currently the developer has approval from the City Council to develop the site with 216 multi-family dwelling units for rent, in the visual appearance of townhouses.

BACKGROUND/SITE HISTORY

- City Council approved a Development Order for a Master Site Plan (MSP) application (AR# 4871), conceptually approving 216 multifamily dwelling units on the site during its January 4, 2022 meeting.
- The applicant received a Development Order for the related Technical Site Plan (TSP) application (AR# 4996), approving the 216 multifamily dwelling units on May 23, 2023. A copy of the Development Order and Overall Site Plan have been included as attachments for this application to compare the previously approved versus the proposed requests.
- The applicant received a Development Order extension extending the TSP approval to May 23, 2026.

- The applicant submitted an application to rezone the site from MFR-1 to MPD on March 31, 2025. As the application for rezoning was received while a Development Order was valid for the overall site, the TSP Development Order is considered active until a determination is made on the rezoning application. Since this time staff has worked with the applicant and their team to reduce deviations within the MPD's Development Agreement from the Unified Land Development Code (LDC) and allow them time to host a neighborhood meeting for the MPD. During this time, it is worth noting that the majority of the time from the applicant's original submission to now was pending resubmittals from the applicant.

PROJECT DESCRIPTION

The applicant's MPD Development Agreement (DA) would allow the site to be developed with the same overall density as previously approved, at up to 216 dwelling units. The applicant's purpose of the MPD rezoning and Development Agreement is to allow the applicant to develop the site as fee-simple townhouses owned by the individual residents as opposed to operating the site as a multifamily rental property.

The project is planned to be developed in three phases and feature an amenity center for the project's residents along with a publicly accessible dog park that is planned to be ±0.25 acres in size. The applicant included language to require the amenity center and dog park to be constructed during the first phase of the development and shall be completed or concurrent with the first Certificate of Occupancy for any residential unit. The MPD DA also establishes provisions to allow on-street "roadside" parking for ±34 guest parking spaces scattered throughout the project site. Section 11.1 of the MPD DA provides dimensional standards within the site.

In review of the deviations of the dimensional standards from the existing MFR-1 zoning district the MPD DA features:

- Minimum Lot Width of 20 feet for interior townhouse units, the exterior units meet the LDC's 25-foot minimum lot width.
- Minimum Lot Size of 1,800 square feet for interior townhouse units is a reduction of the LDC's 2,500-square-foot minimum lot size, while the DA also provides a minimum exterior unit size of 2,550 square feet.
- Minimum Front setback of 20 feet, which is a reduction of the LDC's 25-foot minimum setback.
- Minimum Rear setback of 10 feet, which is a reduction of the LDC's 20-foot minimum setback.

In the event that the proposed MPD is approved by City Council, the project will require platting to establish the individual tracts for wetland preservation, common open space, recreation, roads, and the residential lots for each townhouse dwelling unit. Due to that the Conceptual Plan of the MPD may undergo slight alterations due to the platting review process, but the MPD DA explicitly caps density at up to 216 dwelling units.

LAND USE AND ZONING INFORMATION

USE SUMMARY TABLE:

CATEGORY:	EXISTING:	PROPOSED:
Future Land Use Map (FLUM)	Mixed Use	Mixed Use

Zoning District	MFR-1	MPD
Use	Vacant Land	Townhouse subdivision
Acreage	±35.41 acres	±35.41 acres

SURROUNDING LAND USES:

NORTH:	FLUM:	Residential, Canals
	Zoning:	Single-Family Residential (SFR-2 & SFR-3), Public/Semipublic (PSP)
EAST:	FLUM:	Residential, Canals
	Zoning:	Suburban Estate (EST-2), Single-Family Residential (SFR-2 & SFR-3), Public/Semipublic (PSP)
SOUTH:	FLUM:	Residential
	Zoning:	Duplex Residential (DPX), Public/Semipublic (PSP)
WEST:	FLUM:	Residential, Mixed Use, Greenbelt
	Zoning:	Single-Family Residential (SFR-2 & SFR-3), General Commercial (COM-2), Public/Semipublic (PSP)

ANALYSIS BASED ON UNIFIED LAND DEVELOPMENT CODE, CHAPTER 2, SECTION 2.05.05

The Unified Land Development Code, Chapter 2, Part II, Section 2.05.05 states: *When reviewing a development order application, the approval authority shall determine whether sufficient factual data was presented in order to render a decision. The decision to issue a development order shall be based upon the following, including but not limited to*:

A. The proposed development must not be in conflict with or contrary to the public interest;

Staff Finding: The proposed MPD does not add any additional density to the overall project's previous approved 216 dwelling units. The TSP application proposed a total of 33 buildings with the appearance of townhouses. Reviewing the MPD's conceptual plan versus the previously approved site plan is almost identical with the addition of the MPD providing a publicly accessible dog park. The MPD proposes using the same two access points from Red Mill Drive. Although the MPD DA has some deviations to the LDC's MFR-1 minimum setbacks and lot size/width requirements, the project enables the developer to create fee-simple townhouse lots utilizing the overall design of the previously approved multifamily project. Staff finds that will the proposed MPD DA does not create a further impact upon the public than what was previously approved by City Council, and therefore the criteria is met.

B. The proposed development must be consistent with the Comprehensive Plan and the provisions of this LDC;

Staff Finding: The request is consistent with the Comprehensive Plan. The following policies are provided for elaboration:

- **Chapter 1 Future Land Use Element:**

-Objective 1.1.4 – Discourage Urban Sprawl – Promote compact and contiguous development, a mixture of land uses, and discourage urban sprawl.

The project site is a contiguous pocket of land that was previously approved for 216 multi-family residential units.

-Policy 1.3.1.3 – The City shall encourage development to locate in the areas where public facilities, infrastructure, and services are available. Where there are deficiencies and where appropriate, the City shall require the developer to provide or extend the facilities as necessary to accommodate development. Applicable impact fees shall be used by the City consistent with State law to offset the costs of the City providing facilities.

The project does not expand into areas which are currently not served by infrastructure. The attached concept plan proposes a lift station in the northwest of their development. During the Preliminary Plat process, the applicant will have to ensure that the facilities are adequate to serve the proposed development. City review staff will evaluate the plans at that point to determine if any additional improvements are necessary to support the project.

C. The proposed development must not impose a significant financial liability or hardship for the City;

Staff Finding: Potable water and sewer services are available nearby to serve the project. The developer will be required to pay applicable impact fees to ensure that the City does not have a financial liability for the project.

D. The proposed development must not create an unreasonable hazard, or nuisance, or constitute a threat to the general health, welfare, or safety of the City's inhabitants;

Staff Finding: The project already has approved residential entitlements to support the 216 dwelling units as multifamily apartments in the form of townhomes on the site. The proposed MPD would allow the applicant to modify developmental dimensional standards in order to convert their proposed project into platted fee-simple lots that are owned by the individual residents which promotes home ownership and community investment.

The proposed conceptual plan is almost identical to the approved TSP with the exception of an additional public benefit of the previously discussed dog park. It has the same perimeter buffers that were required with the TSP application. Therefore, the MPD rezoning does not create an unreasonable hazard, nuisance, or threat to the general health, welfare, or safety of the City's inhabitants. As the MPD is a zoning district, and the concept plan is conceptual, City review staff shall evaluate the project during its platting to ensure compliance with all applicable code requirements and ensure all concurrency monitored facilities are met.

E. The proposed development must comply with all other applicable local, state and federal laws, statutes, ordinances, regulations, or codes.

Staff Finding: If the subject property's MPD rezoning is approved by City Council, it will be required to comply with its Development Agreement, the LDC, the Comprehensive Plan, and all other applicable local, state and federal regulations throughout the development process.

ANALYSIS BASED ON UNIFIED LAND DEVELOPMENT CODE, CHAPTER 2, SECTION 2.09.04

The Unified Land Development Code, Chapter 2, Part II, Sec. 2.09.04 states: "*The Planning and Land Development Regulation Board and City Council shall consider the following criteria, in addition to the findings listed in Subsection 2.05.05, when reviewing a master planned development application*":

A. Consistency with all adopted elements of the Comprehensive Plan and whether it furthers the goals and objectives of the Comprehensive Plan.

Staff Finding: As previously stated, the proposed application is consistent with the Comprehensive Plan.

B. Consistency with the general intent of the LDC.

Staff Finding: The MPD DA is significantly consistent with the general intent of the LDC, as the conceptual plan almost identically mirrors the approved TSP site plan of AR# 4996. As discussed during the project description section some deviations include modifying the minimum dimensional standards such as:

- Minimum Lot Width of 20 feet for interior townhouse units, the exterior units meet the LDC's 25-foot minimum lot width.
- Minimum Lot Size of 1,800 square feet for interior townhouse units is a reduction of the LDC's 2,500-square-foot minimum lot size, while the DA also provides a minimum exterior unit size of 2,550 square feet.
- Minimum Front setback of 20 feet, which is a reduction of the LDC's 25-foot minimum setback.
- Minimum Rear setback of 10 feet, which is a reduction of the LDC's 20-foot minimum setback.

C. Degree of departure of the proposed development from surrounding areas in terms of character and density/intensity.

Staff Finding: The property has a Mixed Use Future Land Use Map (FLUM) designation which allows a potential of 15 dwelling units (DU) per acre by itself. That potential density is limited by the property's zoning district. Its current zoning district of MFR-1 allows for a maximum density of eight DU per acre. The proposed MPD DA would cap the project at a maximum unit count of 216 DU, which when looking at the gross acreage of the site equates to a density of ±6.10 DU per acre which is a reduction of the potential density from the current MFR-1 zoning. As City Council has previously found the project's density consistent with the character of the surrounding area, this criteria is met.

D. Compatibility within the development and relationship with surrounding neighborhoods.

Staff Finding: The project is largely consistent with the LDC's townhouse requirement, with some deviations as previously discussed to minimum setbacks and lot sizes. The project will require its own platting and is contained within its own pocket of the "R" Section of Palm Coast. The previous approval of City Council evaluated the impact of 216 dwelling units within the property and was found consistent with the neighborhood.

E. Adequate provision for future public education and recreation facilities, transportation, water supply, sewage disposal, surface drainage, flood control, and soil conservation as shown in the development plan.

Staff Finding: As this project submits for a Preliminary Plat, a concurrency analysis will be required to determine the adequacy of available infrastructure to serve the project. The applicant will be required during the platting process to ensure that the application is able to meet the City's adopted levels of service. The applicant has already reached out to Flagler Schools to evaluate school concurrency and shall be required to mitigate school concurrency during the platting process.

F. The feasibility and compatibility of development phases to stand as independent developments.

Staff Finding: The MPD DA proposes that the project shall be constructed in three phases with the recreational amenity center and publicly accessible dog park to be constructed as part of phase one. Additionally, internal road infrastructure will be developed as the corresponding phases of their residential lots. The developer will be required to ensure that each phase is able to stand as independent developments including utility, road, pedestrian connectivity, and secondary access requirements during the platting process.

G. The availability and adequacy of primary streets and thoroughfares to support traffic to be generated within the proposed development.

Staff Finding: The project proposes two points of access via Red Mill Drive, which is consistent as approved under the TSP application. The MPD submitted a Transportation Impact Analysis with its application and was reviewed by Transportation Engineering and the City's Transportation Planner. The proposed MPD did not have any additional traffic vehicular traffic generated by the project compared to the previous approved TSP; however, during the platting process, the project's transportation impacts and trip distribution will be further analyzed. The proposed MPD is unlikely to cause Red Mill Drive to fall below the City's adopted level of service.

H. The benefits within the proposed development and to the general public to justify the requested departure from standard development requirements inherent in a Master Planned Development District classification.

Staff Finding: The MPD proposes to provide a dog park that is publicly accessible so that the surrounding community will be able to utilize. As written the MPD does not require the City to accept dedication of the park or any other infrastructure.

I. The conformity and compatibility of the development with any adopted development plan of the City of Palm Coast.

Staff Finding: The request has minor deviations to the MFR-1 zoning district's dimensional requirements pertaining to townhouse developments as previously discussed, but the requested deviations are comparatively in scope with other MPDs within the City. Additionally, the project largely mirrors the approved TSP application but exchanges multifamily rental units for single-family attached fee-simple ownership of townhouse units.

J. Impact upon the environment or natural resources.

Staff Finding: The applicant's Environmental Assessment states the project proposes 0.86 acres of secondary impacts due to the project not being able to provide a minimum 15-foot upland buffer and provided Uniform Mitigation Assessment Method (UMAM) analysis and was required to purchase 0.06 UMAM credits to offset the secondary impacts of the project. The applicant purchased the wetland mitigation credits from the Fishtail Mitigation Bank. The MPD DA proposes to place all preserved wetlands into regulatory conservation easements to the benefit of St. Johns River water Management District.

K. Impact on the economy of any affected area.

Staff Finding: The proposed project will provide jobs during construction of the project and provide housing for residents.

PUBLIC PARTICIPATION

The applicant hosted a neighborhood meeting as required by LDC Section 2.05.02 at 6:00 p.m. on Tuesday July 14, 2026, in Rymfire Elementary School's cafeteria. The applicant also met the public notice requirements of LDC Section 2.05.03. The neighborhood meeting was attended by approximately 25 members of the public.

Documentation summarizing the neighborhood meeting and an email inquiry has been attached to the agenda item.

PLANNING AND LAND DEVELOPMENT REGULATION BOARD

The Planning and Land Development Regulation Board heard this item at their August 19, 2026 meeting. During the meeting two members of the public spoke against the proposed MPD rezoning. After deliberation, the Planning and Land Development Regulation Board voted unanimously, with a four to zero vote, to recommend approval to the City Council.

CITY COUNCIL FIRST READ

The City Council heard this item for first read at its October 6, 2026 meeting. It was approved with a unanimous vote of five to zero. No members of the public spoke in regard to this item.

RECOMMENDATION

The Planning and Land Development Regulation Board recommends that the City Council determine that the proposed Master Planned Development (Application No. 6212) is consistent with the Comprehensive Plan and approve the applicant's official zoning map amendment to Master Planned Development.

THE CITY OF PALM COAST
160 LAKE AVENUE
PALM COAST, FL 32164

BUSINESS IMPACT ESTIMATE
PURSUANT TO F.S. 166.041(4)

Meeting Date: October 6, 2026
Ordinance Number: 2026-XX
Posted To Webpage: August 19th, 2026

This Business Impact Estimate is given as it relates to the proposed ordinance titled:

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF PALM COAST, FLORIDA, AMENDING THE OFFICIAL ZONING MAP, AS ESTABLISHED IN SECTION 2.06 OF THE CITY OF PALM COAST UNIFIED LAND DEVELOPMENT CODE; FOR 35.41± ACRES OF CERTAIN REAL PROPERTY GENERALLY LOCATED ON THE EAST SIDE OF RED MILL DRIVE APPROXIMATELY 3/4 MILES FROM ITS INTERSECTIONS WITH RYMFIRE DRIVE, AND BEING MORE PARTICULARLY DESCRIBED IN THE ATTACHED EXHIBIT "A" FROM THE MULTIFAMILY RESIDENTIAL (MFR-1) ZONING DISTRICT TO THE MASTER PLANNED DEVELOPMENT (MPD) ZONING DISTRICT ALONG WITH A DEVELOPMENT AGREEMENT; PROVIDING FOR SEVERABILITY; PROVIDING FOR CONFLICTS; AND PROVIDING FOR AN EFFECTIVE DATE.

The sections below <u>are not</u> required to be completed if the ordinance involves any one of the following types of regulations. Please check if applicable:

__ 1. Ordinances required for compliance with federal or state law or regulation;
__ 2. Ordinances relating to the issuance or refinancing of debt;
__ 3. Ordinances relating to the adoption of budgets or budget amendments, including revenue sources necessary to fund the budget;

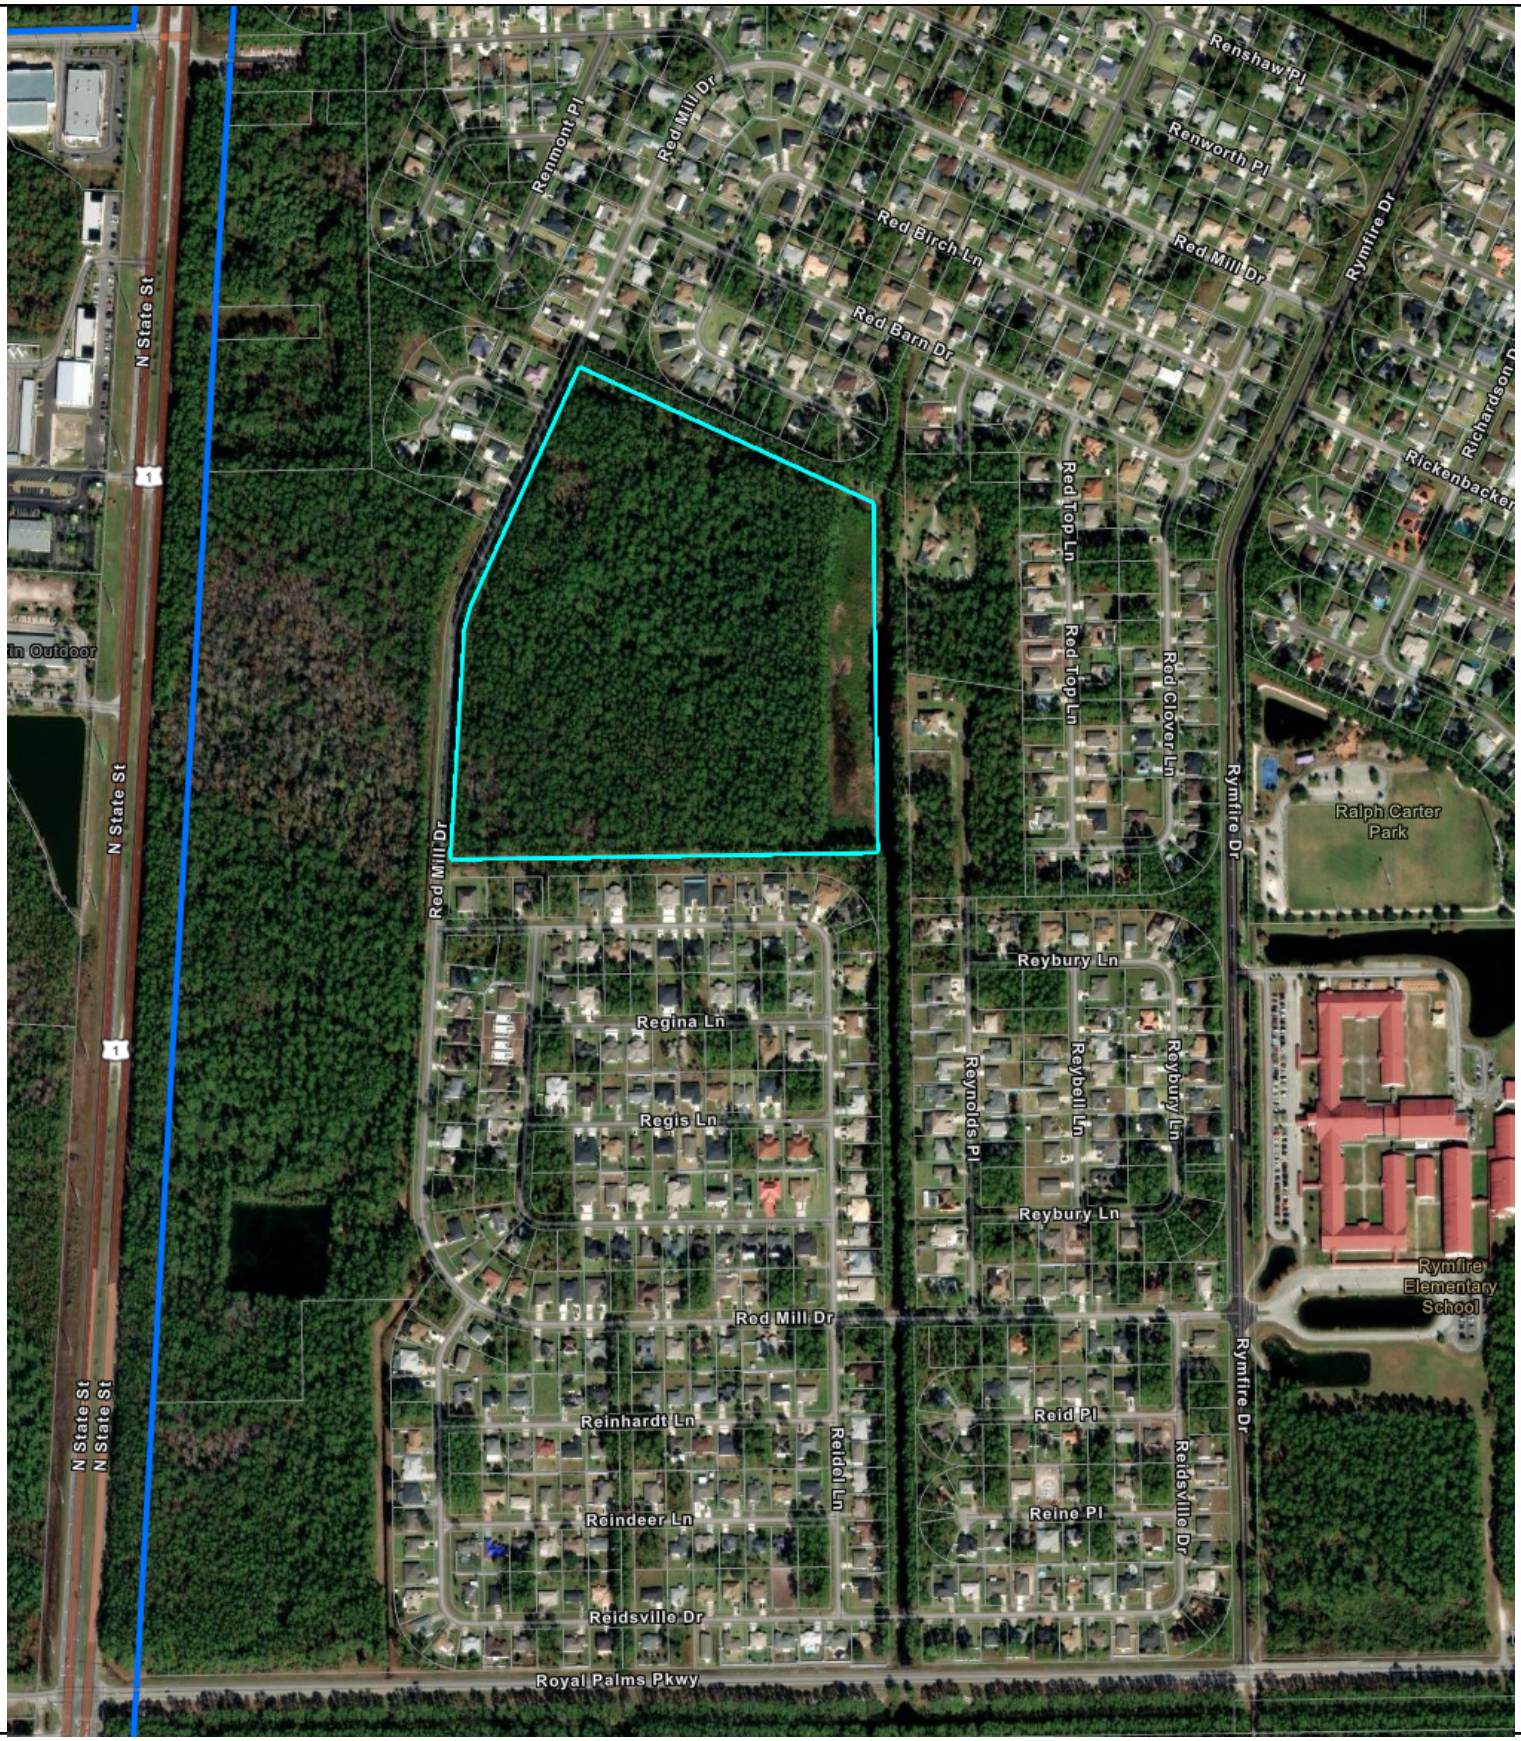
__ 4. Ordinances required to implement a contract or an agreement, including, but not limited to, any federal, state, local, or private grant, or other financial assistance accepted by a municipal government;
__ 5. Emergency ordinances;
__ 6. Ordinances relating to procurement; or
X 7. Ordinances enacted to implement the following:

a. Development orders, and development agreements, and development permits, as those terms are defined in S 163.3164, and development agreements, as authorized by the Florida Local Government Development Acts SS. 163.3220-163.3243;
b. Comprehensive Plan amendments and land development regulation amendments initiated by an application by a private party other than the city;
__ c. Sections 190.005 and 190.046;
__ d. Section 553.73, relating to the Florida Building Code; or
__ e. Section 633.202, relating to the Florida Fire Prevention Code.

Part I. Summary of the proposed ordinance and statement of public purpose:

This ordinance implemented to amend development agreements relating to the subject parcels has been initiated from a private party other than the City, and therefore exempt from addressing the following sections.

ECONOMIC IMPACT ON BUSINESS



a. Estimated number of businesses impacted: Not applicable.

b. Types of businesses affected: Not applicable.

Estimated direct economic impact: Not applicable.

RE: Red Mill Pointe

Dear Mr. Tyner:

I have the pleasure of representing Red Mill Pointe, LLC, a Florida limited liability company (hereinafter "Red Mill") in connection with an application for rezoning. Enclosed please find the Application for Rezoning of the 35.41 acre parcel located on Red Mill Drive, Palm Coast and further identified in the application.

In 2007 the property was approved for the development of a multifamily residence community with approval for 174 townhomes. In May 2023 the property was approved for the development of a multifamily residence with approval for 216 townhomes. The property has always been intended for the development of a townhome community and Red Mill submits this application to rezone to Master Planned Development in order to bring the vision of their project to fruition.

In addition to the application to Rezone to MPD with he corresponding owner authorizations, please find enclosed a list of property owners within 300 feet, Title Opinion letter, Concept Plan, Landscape Design Plans, and a survey. Once you have had an opportunity to review the application, we request you schedule a meeting to discuss your questions and comments. In addition, I will provide a Comprehensive Plan Consistency Analysis under separate cover in the near future. As always, thank you for your cooperation. Should you need any additional information, please contact me at your earliest convenience.

Sincerely,

Michael D. Chiumento III

Palm Coast, FL 32164

RE: Red Mill Pointe Master Planned Development (MPD)
Application Number 6212

Dear Mr. Hanson:

ANALYSIS BASED ON UNIFIED LAND DEVELOPMENT CODE, CHAPTER 2, SECTION 2.05.05

The Unified Land Development Code, Chapter 2, Part II, Section 2.05.05 states: *When reviewing a development order application, the approval authority shall determine whether sufficient factual data was presented in order to render a decision. The decision to issue a development order shall be based upon the following, including but not limited to:*

A. The proposed development must not be in conflict with or contrary to the public interest;

The proposed MPD is not in conflict with, or contrary to, the public interest as the MPD Master Plan shows the proposed uses to be in harmony within the project and with neighboring lands.

B. The proposed development must be consistent with the Comprehensive Plan and the provisions of the LDC;

The proposed development is consistent with the City of Palm Coast's Comprehensive Plan, as it aligns with the Future Land Use Map designation of Mixed Use and supports policies promoting compact, walkable communities. The plan furthers the objectives of diverse housing and efficient infrastructure use. The development also complies with all applicable standards in the Land Development Code, including zoning requirements for density and setbacks, stormwater management, and transportation access. All necessary utilities are available, and environmental features are protected in accordance with City Code.

The request is consistent with the following objectives and policies of the Comprehensive Plan:

Chapter 1 Future Land Use Element:

-Objective 1.1.4 – Discourage Urban Sprawl – Promote compact and contiguous development, a mixture of land uses, and discourage urban sprawl.

This project is located in an area adjacent to other properties where development is under construction or in the design/permitting stage, which will discourage urban sprawl.

-Policy 1.1.4.2 – The Master Planned Development (MPD) zoning district shall allow residential housing types to be developed within existing residential development. Potential areas for MPDs are strategically located throughout the City to promote infill development and to maximize vehicular and pedestrian accessibility.

The property subject to the MPD will provide for a neighborhood community of townhomes with access to community amenities.

-Policy 1.1.4.5 – Land use patterns will be required to be efficient and not disproportionately increase the cost of providing and maintaining public facilities, as well as providing housing and transportation strategies that will foster energy conservation.

The proposed MPD is consistent with the above policy as the proposed residential community will be located within an existing residential neighborhoods that are already serviced by nearby schools, grocery stores and gas stations thereby taking advantage of facilities servicing local areas.

-Policy 1.3.1.3 – The City shall encourage development to locate in the areas where public facilities, infrastructure, and services are available. Where there are deficiencies and where appropriate, the City shall require the developer to provide or extend the facilities as necessary to accommodate development. Applicable impact fees shall be used by the City consistent with State law to offset the costs of the City providing facilities.

The proposed MPD does not expand into areas that are currently not served by infrastructure. The applicant will provide an analysis during the Preliminary Plat process to ensure that facilities to serve the proposed development are adequate. In addition, the property is currently subject to a site plan approval and permit.

C. The proposed development must not impose a significant financial liability or hardship for the City.

All proposed development within the MPD will be required to pay applicable impact fees which will ensure the City does not have a financial liability for this project.

D. The proposed development must not create an unreasonable hazard, or nuisance, or constitute a threat to the general health, welfare, or safety of the City's inhabitants.

The project will not create issues that will threaten the City's inhabitants as the proposed land use

will be buffered from neighboring properties by appropriate landscape buffers as required in the LDC.

E. The proposed development must comply with all other applicable local, state and federal laws, statutes, ordinances, regulations, or codes.

The development of this MPD must also comply with the development standards of the City's Land Development Code, the Comprehensive Plan, and the requirements of all other applicable agencies throughout the development process.

ANALYSIS BASED ON UNIFIED LAND DEVELOPMENT CODE, CHAPTER 2, SECTION 2.09.04

The Planning and Land Development Regulation Board and City Council shall consider the following criteria, in addition to the findings listed in Subsection 2.05.05, when reviewing the Master Planned Development Application.

A. *Consistency with all adopted elements of the Comprehensive Plan and whether it furthers the goals and objectives of the Comprehensive Plan.*

As previously stated, the proposed application is consistent and furthers the goals and objectives of the Comprehensive Plan.

B. Consistency with the general intent of the LDC.

The standards established in the Red Mill Pointe Master Planned Development (MPD) are consistent with the general intent of the LDC.

C. Degree of departure of the proposed development from surrounding areas in terms of character and density/intensity.

The standards established in the Red Mill Pointe MPD are consistent with the general intent of the LDC. The proposed MPD Development Agreement has only minor and moderate departures from the LDC.

D. Compatibility within the development and relationship with surrounding neighborhoods.

The proposed MPD is compatible with the neighboring properties.

E. Adequate provision for future public education and recreation facilities, transportation, water supply, sewage disposal, surface drainage, flood control, and soil conservation as shown in the development plan.

As this project is submitted for a Preliminary Plat, a concurrency analysis will be required to determine the adequacy of available infrastructure to serve the project.

F. The feasibility and compatibility of development phases to stand as independent developments.

This is not a multi-phased project so this will not be of concern.

G. The availability and adequacy of primary streets and thoroughfares to support traffic to be generated within the proposed development.

Rymfire Drive and Redmill Drive have sufficient capacity to handle the project's traffic.

H. The benefits within the proposed development and to the general public to justify the requested departure from standard development requirements inherent in a Master Planned Development District classification.

The development utilizes existing roads and utilities, reducing the need for costly infrastructure extensions and supporting infill development in a responsible manner. The project provides attainable housing options for young families, professionals, and retirees in a rapidly growing market.

I. The conformity and compatibility of the development with any adopted development plan of the City of Palm Coast.

The project is in compliance with the Mixed Use designation of the Future Land Use Element, supporting residential uses in line with the City's intent to create vibrant, walkable neighborhoods.

J. Impact upon the environment or natural resources.

The project meets the LDC in compliance with protecting natural resources as its development site contains an area of low-quality wetlands.

K. Impact on the economy of any affected area.

The proposed project will provide jobs during the construction of the project and provide housing for residents.

Sincerely yours,

Michael D. Chiumento III

14. FENCES AND WALLS EXISTING ON, OVER OR ADJACENT TO SUBJECT PROPERTY, ARE DISPLAYED HEREON; OWNERSHIP WHETHER SINGULAR OR JOINT WAS NOT DETERMINED BY THIS SURVEY.
15. VERTICAL FEATURE ACCURACY: "ELEVATIONS OF WELL-IDENTIFIED FEATURES CONTAINED IN THIS SURVEY AND MAP HAVE BEEN MEASURED TO AN ESTIMATED VERTICAL POSITIONAL ACCURACY OF 0.05 (FT)."
16. DIMENSIONS ARE SHOWN RELATIVE TO UNITED STATES STANDARD FEET AND DECIMALS THEREOF, UNLESS THE OBJECT SHOWN IS COMMONLY IDENTIFIED IN INCHES, I.E. TREE DIAMETER, PIPE DIAMETER, ETC. TREES DEPICTED ARE COMMON NAMES AND MEASURED AND LABELED AS DIAMETER AT BREAST HEIGHT IN INCHES.
17. CERTAIN INSTRUMENTS OF RECORD REFLECTING EASEMENTS, RIGHTS-OF-WAY, AND/OR OWNERSHIP WERE FURNISHED TO THIS SURVEYOR AS NOTED OR DISPLAYED HEREON.
18. THE UNDERGROUND UTILITIES DEPICTED BY PIPE LINETYPES ARE APPROXIMATE IN NATURE BASED UPON AN INSPECTION OF THE MANHOLE, GRATE, ETC. OF EACH FACILITY. EXISTING PIPES WERE NOT LAMPED OR REMOTELY VIEWED FOR DIRECTION, OBSTRUCTIONS OR CONNECTIVITY.

RE: Red Mill Pointe
Parcel Identification No. 07-11-31-7033-0RP0F-0030

Dear Mr. Tyner:

I have reviewed the title with respect to the property as described in Exhibit "A" attached hereto: Based upon my examination of the title search, it is my legal opinion that as of February 28, 2025; that fee simple title to the property is vested in **Red Mill Pointe, LLC, a Florida limited liability company,** subject to the following matters:

1. All matters as contained on the Plat of Royal Palms, Section 33, Palm Coast, as recorded in Plat Book 10, Page 67; as affected by Surveyor's Affidavits as recorded in O.R. Book 86, Page 497, O.R. Book 122, Page 239, and O.R. Book 189, Page 255, Public Records of Flagler County, Florida.
2. Drainage Easement to Palm Coast Community Service Corporation as recorded in O.R. Book 549, Page 991; as assigned in O.R. Book 602, Page 53, Public Records of Flagler County, Florida.
3. Right of others to use any portion of the land lying within the waters of Red Mill Waterway as shown on Plat Book 10, Page 74, Public Records of Flagler County, Florida.
4. Development Order Approval as recorded in O.R. Book 1645, Page 1882; O.R. Book 2657, Page 1870 and O.R. Book 2797, Page 1843, Public Records of Flagler County, Florida.
5. Covenants, conditions and restrictions as recorded in O.R. Book 40, Page 692; as amended in O.R. Book 53, Page 426; O.R. Book 81, Page 560; O.R. Book 95, Page 254; O.R. Book 100, Page 9; O.R. Book 119, Page 620; O.R. Book 119, Page 641; O.R. Book 218, Page 594; O.R. Book 381, Page 168; O.R. Book 391, Page 144; O.R. Book 641, Page 982 and evidence of transfer of authority to the City of Palm Coast as recorded in O.R. Book 1303, Page 1664 and joinder recorded in O.R. Book 1303, Page 1681, Public

Records of Flagler County, Florida, which contain provisions creating easements and/or assessments.

6. Covenant recorded in O.R. Book 130, Page 19, Public Records of Flagler County, Florida.
7. Easement contained in instrument recorded in O.R. Book 458, Page 6, as assigned by instrument recorded in O.R. Book 679, Page 537, and O.R. Book 1814, Page 118, Public Records of Flagler County, Florida.
8. Declaration of Consent as recorded in O.R. Book 641, Page 980, Public Records of Flagler County, Florida.
9. Bill of Sale recorded in O.R. Book 641, Page 1048, Public Records of Flagler County, Florida.

Sincerely,

Michael D. Chiumento
Attorney

Affidavit
Survey - No Additional Improvements

BEFORE ME, the undersigned authority, duly authorized to take acknowledgments and administer oaths, personally appeared **Robert Kociecki, Manager of Red Mill Pointe, LLC, a Florida limited liability company** ("Affiant"), who depose(s) and say(s) under penalties of perjury that:

1. This affidavit is made with regard to the following described property:

Parcel Identification Number 07-11-31-7033-0RP0F-0030

Reserved Parcel F3, Royal Palms Section 33, Palm Coast, according to the Plat thereof as recorded in Map Book 10, Pages 67 through 77, inclusive, of the Public Records of Flagler County, Florida.

2. Affiant is the fee simple owner of the real property described under item 1 above ("Property").
3. Affiant has reviewed the survey of the Property prepared by CPH, dated April 7, 2021 and recertified on January 6, 2022 under Job No. B21701.
4. There has been no construction on the Property since the original survey and no construction on adjoining land that would encroach onto the Property.

Red Mill Pointe, LLC

By:_____
Robert Kociecki, Manager

STATE OF FLORIDA
COUNTY OF Orange

The foregoing instrument was sworn to and subscribed before me by means of [X] physical presence or [_] online notarization, this 22 day of May, 2025 by Robert Kociecki, Manager of Red Mill Pointe, LLC, who [_] is personally known or [X] has produced a driver's license as identification.

1.0 PROJECT INTRODUCTION

The Red Mill Drive property is located within the City of Palm Coast, Flagler County, Florida, in Section 34, Township 11 South, Range 31 East. The project area is approximately 35.41 acres in total size and is located in Flagler County Parcel ID# 07113170330RP0F0030. The subject property is located north of Regency Drive and east of Red Mill Drive. The project area consists of undeveloped land. Please see the attached Location Map and Aerial Map within Appendix I for details. The latitude and longitude coordinates for the approximate center of the project are 29° 30' 21.843" North and 81° 15' 33.75" West.

The owner/applicant for the project is:

Stephen Harris
Brite Homes
6751 Forum Drive, 215
Orlando, FL 32821

The proposed project is to construct residential housing.

Atlantic Ecological Services (AES) conducted an Environmental Assessment (EA) on the Red Mill Drive property (herein referred to as the subject property). The subject property was reviewed to determine habitat types present, boundaries of habitat types, presence of or the potential for protected species, wildlife utilization of the site and other environmental constraints noted during the site visits. The subject property field visit and surveys occurred on February 12, 2026. This EA report discusses the methods used to conduct the EA, the results thereof and includes several supplementary figures.

Mr. Jody Sisk of AES performed the wetland and protected species review on the subject property. Mr. Sisk currently holds certifications from the City of Palm Coast as a Qualified Environmental Professional, including Gopher Tortoise Agent (#19567), Wetlands (#19568), and Listed Species (#19569).

Wetlands within the subject property were reviewed and approved in the field with Mr. Cameron Allen and Mrs. Lauren Brogley of the St. Johns River Water Management District (SJRWMD) on 12/05/2022. The wetland approval remains valid under ERP Application #111135 – 2.

2.0 EXISTING SITE CONDITIONS

The subject property consisted of forested upland and wetlands with a canal located along the eastern boundary.

The communities and land use areas were categorized according to the Florida Department of Transportation (FDOT) (1991) *Florida Land Use, Cover and Forms Classification*

System (FLUCFCS). The communities and land uses observed and delineated on the subject property are described in detail below and are shown on the attached Habitat Map.

2.1 Uplands

Pine Plantation (FLUCCS 441) – Uplands within the subject property consisted of former planted silviculture lands. The tree canopy is slash pine (*Pinus elliottii)* and longleaf pine (*Pinus palustris*) planted in bedded rows. Sub-canopy species are limited to saw palmetto (*Serona repens*).

2.2 Wetlands

Wetland Mixed Forest (FLUCCS 630) – Two isolated wetland areas were located along the western portions of the subject property. Vegetation consisted of slash pine, cypress (*Taxodium* sp.), cabbage palm (*Sabal palmetto*), Virginia chain fern (*Woodwardia virginicus*), cinnamon fern (*Osmunda cinnamomea*) and fetter bush (*Lyonia lucida*).

Marsh (FLUCCS 641) – The wetland located along the eastern boundary which abuts a large canal and consists of an herbaceous marsh with sapling trees and shrubs. Vegetation included salt bush (*Baccharis halimifolia*), shiny lyonia (*Lyonia lucida*), spike rush (*Rhynchospora* sp.), bushy broom sedge (*Andropogon glomeratus*), yellow eyed grass (*Xyris* sp.), cinnamon fern (*Osmundastrum cinnamomeum*), maiden cane (*Panicum hemitomon).*

3.0 SOILS

A discussion of each soil type present on the subject property is documented below. Please see the attached Soils Map within Appendix I for the location of each soil type.

Placid, Basinger, & St. Johns soils, depressional (12) – These are very deep, poorly drained soils which are present in depressions along flatwoods. Undrained areas are ponded for long periods. They range from 3 to 400 acres in size. In most years, undrained areas are ponded for more than 6 months, and the seasonal high-water table is as much as 2 feet above the surface.

Valkaria Fine Sand (19) – This is a very deep, nearly level, poorly drained soil on flatwoods. Areas in this soil are irregular and range from 40 to 300 acres. The seasonal high water table is at a depth of 6 to 18 inches for 1 to 4 months of the year. It is at a depth of 10 to 40 inches or more during extended dry periods.

Smyrna fine sand (21) – This is a very deep, poorly drained soil which is present in nearly level flatwoods areas. They range from 4 to 400 acres. The seasonal high-water table is at a depth of 6 to 18 inches for 1 to 4 months during wet seasons and at 10 to 40 inches for more than 6 months.

Udarents, moderately wet (29) – This map unit consists of heterogenous soil material that was removed from other soils and used in land-leveling operations as fill material. The seasonal high-water table is at a depth of 18 to 36 inches for 2 to 6 months.

4.0 WETLANDS AND SURFACE WATERS

4.1 Methods and Jurisdiction

Criteria used to determine the presence of the boundaries of wetlands and surface waters were in accordance with Chapter 62-340 F.A.C. The onsite wetlands were reviewed and approved by Cameron Allen and Lauren Brogley of the SJRWMD. Wetland limits are approved under ERP Application #111135 – 2. A total of approximately 10.21 acres of wetland are found on the subject property.

Wetlands within the subject property are jurisdictional to the St. Johns River Water Management District (SJRWMD), City of Palm Coast and Florida Department of Environmental Protection (FDEP). The wetland is considered moderate quality under the City of Palm Coast LDC.

Based on preliminary desktop review, the wetland areas W-1 and W-2 lack a direct connection to navigable waters and may not meet federal jurisdiction requirements. Wetland W-3 connects directly to a large canal which maintains a direct hydrologic connection to Graham Swamp. W-3 would be considered a jurisdictional water of the U.S. An Approved Jurisdictional Determination with the United States Army Corps of Engineers will be required to confirm jurisdiction.

4.2 Wetland Impacts

This project proposes 0.86 acres of secondary impacts due to not providing a minimum 15' upland buffer to the wetland. No direct dredge or fill impacts within wetlands are proposed. A UMAM analysis was conducted and 0.06 UMAM credits will be required to completely offset all secondary impacts. Please find the wetland impact map and UMAM sheet within Appendix II. Wetland mitigation was provided through the purchase of 0.06 forested freshwater UMAM credits from Fishtail Mitigation Bank.

5.0 WILDLIFE OBSERVATIONS

Wildlife observations, both direct and indirect, were made throughout the course of the site investigation. A list of species observed is provided in the following table:

Table 5.1 Wildlife species observed on the subject project area in Palm Coast, Flagler County, Florida.

Taxon	Common Name	Scientific Name	Protected*
Birds	Mourning dove	*Zenaida macroura*	No
	Northern mockingbird	*Mimus polyglottos*	No
	Northern cardinal	*Cardinalis cardinalis*	No
Mammals	Nine-banded armadillo	*Dasypus novemcinctus*	No

6.0 PROTECTED SPECIES

Prior to visiting the site, a background literature search was conducted to compile a list of state and federally protected animal and plant species that could occur on the subject property. The primary sources of literature reviewed include the Florida Natural Areas Inventory Biodiversity Matrix and the United States Fish and Wildlife Service Information, Planning, and Consultation System (IPAC). During the site reconnaissance, observations or evidence of protected species and the likelihood of occurrence of each protected species were noted. Further review was completed following the habitat mapping and descriptions.

6.1 Protected Wildlife Species

The protected animal species with at least some likelihood of occurrence are listed in Table 6.1.1, below. The likelihood of occurrence of each species is noted in the table and those species with at least a moderate likelihood of occurrence are discussed following the table.

Table 6.1.1: Protected wildlife species with the potential to occur on the subject property, in Palm Coast, Flagler County, Florida.

Species Name	Common Name	Agency Listing		Likelihood of Occurrence	Habitat
		FWC	FWS/NMFS		
Drymarchon corais couperi	Eastern indigo snake	T	T	Low	Wide variety of habitats
Gopherus Polyphemus	Gopher tortoise	T		Low	Sandhills, scrub, hammocks, dry prairies, flatwoods, & ruderal

T=Threatened

No listed species are anticipated to utilize the subject property. Vegetative coverage within the subject property is thick with a dense canopy and sub-canopy which provides non-suitable habitat for the gopher tortoise. A preliminary survey for gopher tortoise burrows was completed on February 12, 2026 and no burrows were observed.

The FWC's Eagle Nest Locator website was queried for data regarding documented southern bald eagle (*Haliaeetus l. leucocephalus*) nests in the project vicinity. The southern bald eagle is protected under the Bald and Golden Eagle Protection Act (BGEPA). Development guidelines are required for any proposed projects with 330 feet for urban areas and 660 feet for non-urban areas. Two known bald eagle nests are both located approximately 5 miles northeast of the subject property. Therefore, this project is not likely to adversely affect the southern bald eagle.

No other protected species are anticipated to utilize the subject property.

6.2 Protected Plant Species

The protected plant species with some potential to occur on the subject property are listed in Table 6.2.1, below.

Table 6.2.1: Protected plant species with the potential to occur on the subject property, in Palm Coast, Flagler County, Florida.

Species Name	Common Name	Agency Listing		Likelihood of Occurrence	Habitat
		FDACS	FWS		
Calopogon multiflorus	Many-flowered grass pink	E		Low	Pine flatwoods, esp. recently burned
Centrosema arenicola	Sand butterfly pea	E		Low	pine flatwoods, sandhills, coastal strands and interdunal swales
Helianthus carnosus	Lakeside sunflower	E		Low	Wet flatwoods
Lechea cernua	Nodding pineweed	E		Low	dry sandy areas, sand pine scrub, scrub, dunes and sandy ridges
Nemastylis floridana	Fall-flowering ixia; celestial lily	E		Low	Swamps, marshes and wet pine flatwoods
Nolina atopocarpa	Florida beargrass	T		Low	grassy areas of mesic and wet flatwoods
Pteroglossaspis ecristata	Giant orchid	T		Low	Sandhill, scrub, pine flatwoods, pine rocklands

E= Endangered; T= Threatened; CE= Commercially Exploited

No federally protected plant species are expected to occur on the subject property.

7.0 Cultural Resources

A master file search was reviewed by the Division of Historical Resources (DHR) for potential of cultural resources. No cultural resources were identified within the subject property. Please find DHR letter within Appendix III.

8.0 Summary

The Red Mill Drive property is located within the City of Palm Coast, Flagler County, Florida. The parcel is approximately 35.41 acres in size and includes 10.21 acres of wetlands. Wetlands within the property were delineated, and approved by the SJRWMD under ERP Application #111135 – 2. The proposed project will cause 0.86 acres of secondary impacts due to upland buffer impacts. Mitigation was provided in the form of 0.06 forested freshwater UMAM credits from Fishtail Mitigation Bank.

The subject property does not provide suitable habitat for the gopher tortoise. A preliminary gopher tortoise burrow was completed on February 12, 2026, and no potentially occupied gopher tortoise burrows were identified.

No other protected fauna species are anticipated within the project area. No federally protected flora species are anticipated on the subject property.

PART I – Qualitative Description
(See Section 62-345.400, F.A.C.)

Site/Project Name	Application Number	Assessment Area Name or Number
Red Mill	111135 – 2	630/641

FLUCCs code	Further classification (optional)	Impact or Mitigation Site?	Assessment Area Size
630/641		Secondary Impact	0.86

Basin/Watershed Name/Number	Affected Waterbody (Class)	Special Classification (i.e.OFW, AP, other local/state/federal designation of importance)
9 - Pellicer Creek & Matanzas River	Class III	

Geographic relationship to and hydrologic connection with wetlands, other surface water, uplands

An isolated forested wetland area within pine silviculture and a wetland marsh which abuts drainage canal.

Assessment area description

Area 1 - Isolated forested wetland within pine silviculture. Vegetation comprises slash pine cypress, cabbage palm, Virginia chain fern, cinnamon fern, fetter bush. Area 2 - a wetland marsh where vegetation comprises salt bush, shiny lyonia, spike rush, bushy broom sedge, yellow eyed grass, cinnamon fern, and maiden cane

Significant nearby features	Uniqueness (considering the relative rarity in relation to the regional landscape.)
none	not unique

Functions	Mitigation for previous permit/other historic use
Refugia for wildlife, water filtration and storage, nutrient cycling, water recharge	

Anticipated Wildlife Utilization Based on Literature Review (List of species that are representative of the assessment area and reasonably expected to be found)	Anticipated Utilization by Listed Species (List species, their legal classification (E, T, SSC), type of use, and intensity of use of the assessment area)
frogs, snakes, mosquito fish, raccoon, song birds	none

Observed Evidence of Wildlife Utilization (List species directly observed, or other signs such as tracks, droppings, casings, nests, etc.):

none

Additional relevant factors:

Assessment conducted by:	Assessment date(s):
J. Sisk	12/5/2022

PART II – Quantification of Assessment Area (impact or mitigation)
(See Sections 62-345.500 and .600, F.A.C.)

DHR Correspondence

FLORIDA DEPARTMENT of STATE

RON DESANTIS
Governor

CORD BYRD
Secretary of State

St. Johns River Water Management District
4049 Reid Street
Palatka, Florida 32177

August 31, 2022

RE: DHR Project File No.: 2022-5341, Received by DHR: August 2, 2022
Application No.: 111135 - 2
Project: Red Mill Pointe
County: Flagler

To whom it may concern:

Our office reviewed additional information the referenced project in accordance with Chapters 267.061 and 373.414, *Florida Statutes*, and implementing state regulations, for possible effects on historic properties listed, or eligible for listing, in the *National Register of Historic Places*, or otherwise of historical, architectural or archaeological value.

It is the opinion of this office that the proposed project is unlikely to affect historic properties. However, since unexpected finds may occur during ground disturbing activities, we request that the permit, if issued, include the following special condition regarding inadvertent discoveries:

- If prehistoric or historic artifacts, such as pottery or ceramics, projectile points, dugout canoes, metal implements, historic building materials, or any other physical remains that could be associated with Native American, early European, or American settlement are encountered at any time within the project site area, the permitted project shall cease all activities involving subsurface disturbance in the vicinity of the discovery. The applicant shall contact the Florida Department of State, Division of Historical Resources, Compliance and Review Section at (850)-245-6333. Project activities shall not resume without verbal and/or written authorization. In the event that unmarked human remains are encountered during permitted activities, all work shall stop immediately and the proper authorities notified in accordance with Section 872.05, *Florida Statutes*.

If you have any questions, please contact Daniel Vasquez, Historic Sites Specialist, by email at *Daniel.Vasquez@dos.myflorida.com*.

Sincerely,

Kelly L Chase
For

Alissa S. Lotane
Director, Division of Historical Resources
& State Historic Preservation Officer

INTRODUCTION

This traffic analysis was performed in order to assess the impact of the proposed Red Mill Pointe development in the City of Palm Coast, Florida. Located on Red Mill Drive to the west of Rymfire Drive, the proposed townhome development will consist of 216 dwelling units. **Figure 1** depicts the site location of the development and its one-mile impact area. Access to the site will be provided by two roadway connections to Red Mill Drive. **Figure 2** depicts the site plan of the development and its access configuration.

The analysis was conducted in accordance with City of Palm Coast Unified Land Development Code (LDC), Chapter 7. A traffic study methodology was submitted to and approved by the City of Palm Coast. The methodology coordination and correspondence are provided in **Appendix A**. Data used in this analysis consists of site plan/development information provided by the Developers, 2024 Transportation Facility Status Report from the City of Palm Coast, and A.M. and P.M. peak hour traffic counts at intersections collected by Traffic Planning and Design, Inc. (TPD).

EXISTING CONDITIONS ANALYSIS

An existing conditions analysis was conducted for the study roadway segments and intersections to establish their current operating conditions in terms of Levels of Service. The study roadways were identified to consist of those roadway segments included in the City's 2024 Transportation Facility Status Report within one mile of the project site. The study intersections were determined to include four intersections inside the one-mile impact area as follows:

- Rymfire Drive and Red Mill Drive North
- Rymfire Drive and Red Mill Drive South
- Rymfire Drive and Royal Palms Parkway
- US 1 and Royal Palms Parkway

Roadway Segment Analysis

The study roadway segments were analyzed by comparing the existing P.M. peak hour and vested trips with their respective capacities at the adopted LOS standards. The 2024 Transportation Facility Status Report is provided in **Appendix B**. A summary of the roadway capacity analysis is presented in **Table 1**. The results of the analysis reveal that the study segments currently operate at satisfactory LOS.

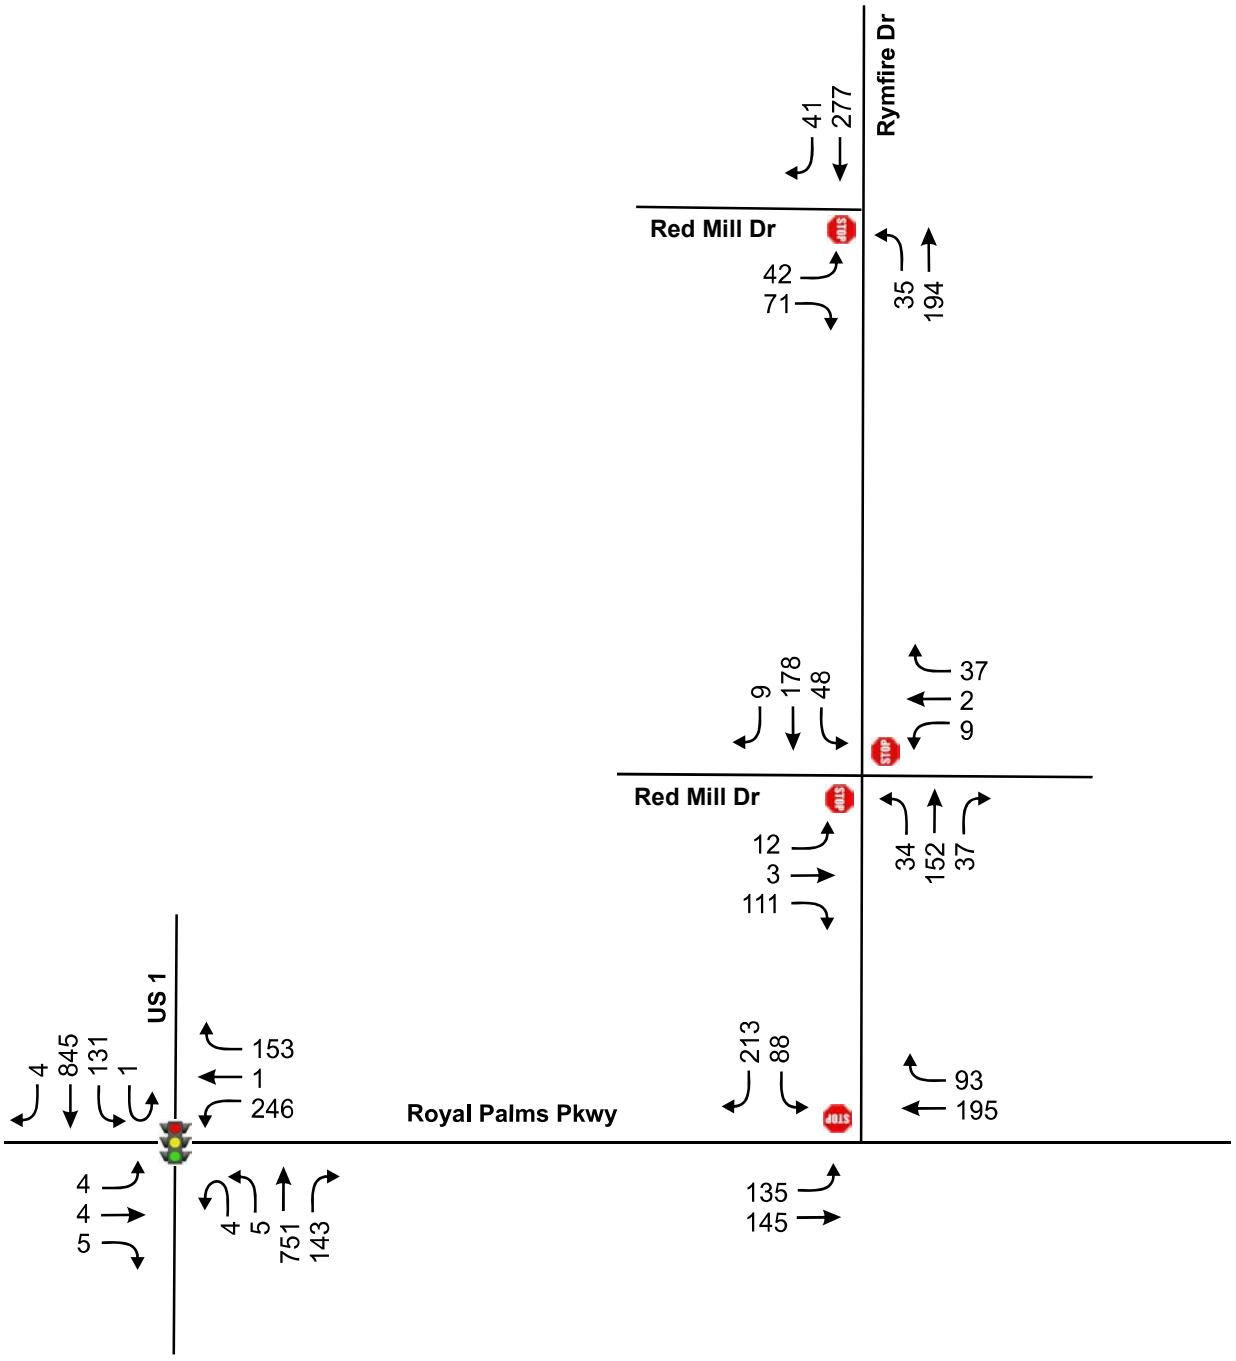
[1]Existing 2023 counts



Intersection Analysis

A capacity analysis was conducted for each study intersection using *Highway Capacity Software (HCS)* in accordance with the procedures of the *Highway Capacity Manual (HCM)*. The capacity analysis was performed using the existing intersection geometries and intersection traffic counts during the A.M. and P.M. peak hour. The intersection counts were made on December 10, 2025, when the FDOT seasonal factor was 1.03 and therefore the counts were adjusted. **Figures 3a and 3b** depict the A.M. and P.M. peak hour traffic volumes, respectively at the study intersections. The intersection capacity analysis results are summarized in **Table 2**.

Table 2
Existing Intersection Capacity Analysis

Intersection	Control	Time Period	EB		WB		NB		SB		Overall	
			Delay	LOS	Delay	LOS	Delay	LOS	Delay	LOS	Delay	LOS

PROPOSED DEVELOPMENT AND TRIP GENERATION

The proposed development will consist of 216 dwelling unit multi-family development to be completed by 2028. To determine the impact of this development, an analysis of its trip generation characteristics was conducted. This included the determination of the trips to be generated along with their distribution and assignment to the area roadways.

Trip Generation

The trip generation of the proposed development was calculated with the use of equations obtained from the 12th Edition of the *Institute of Transportation Engineers* (ITE) *Trip Generation Manual.* **Table 3** provides a summary of the trip generation calculation. The development is expected to generate 1,337 daily trips of which 89 will occur during the A.M. peak hour and 111 during the P.M. peak hour.

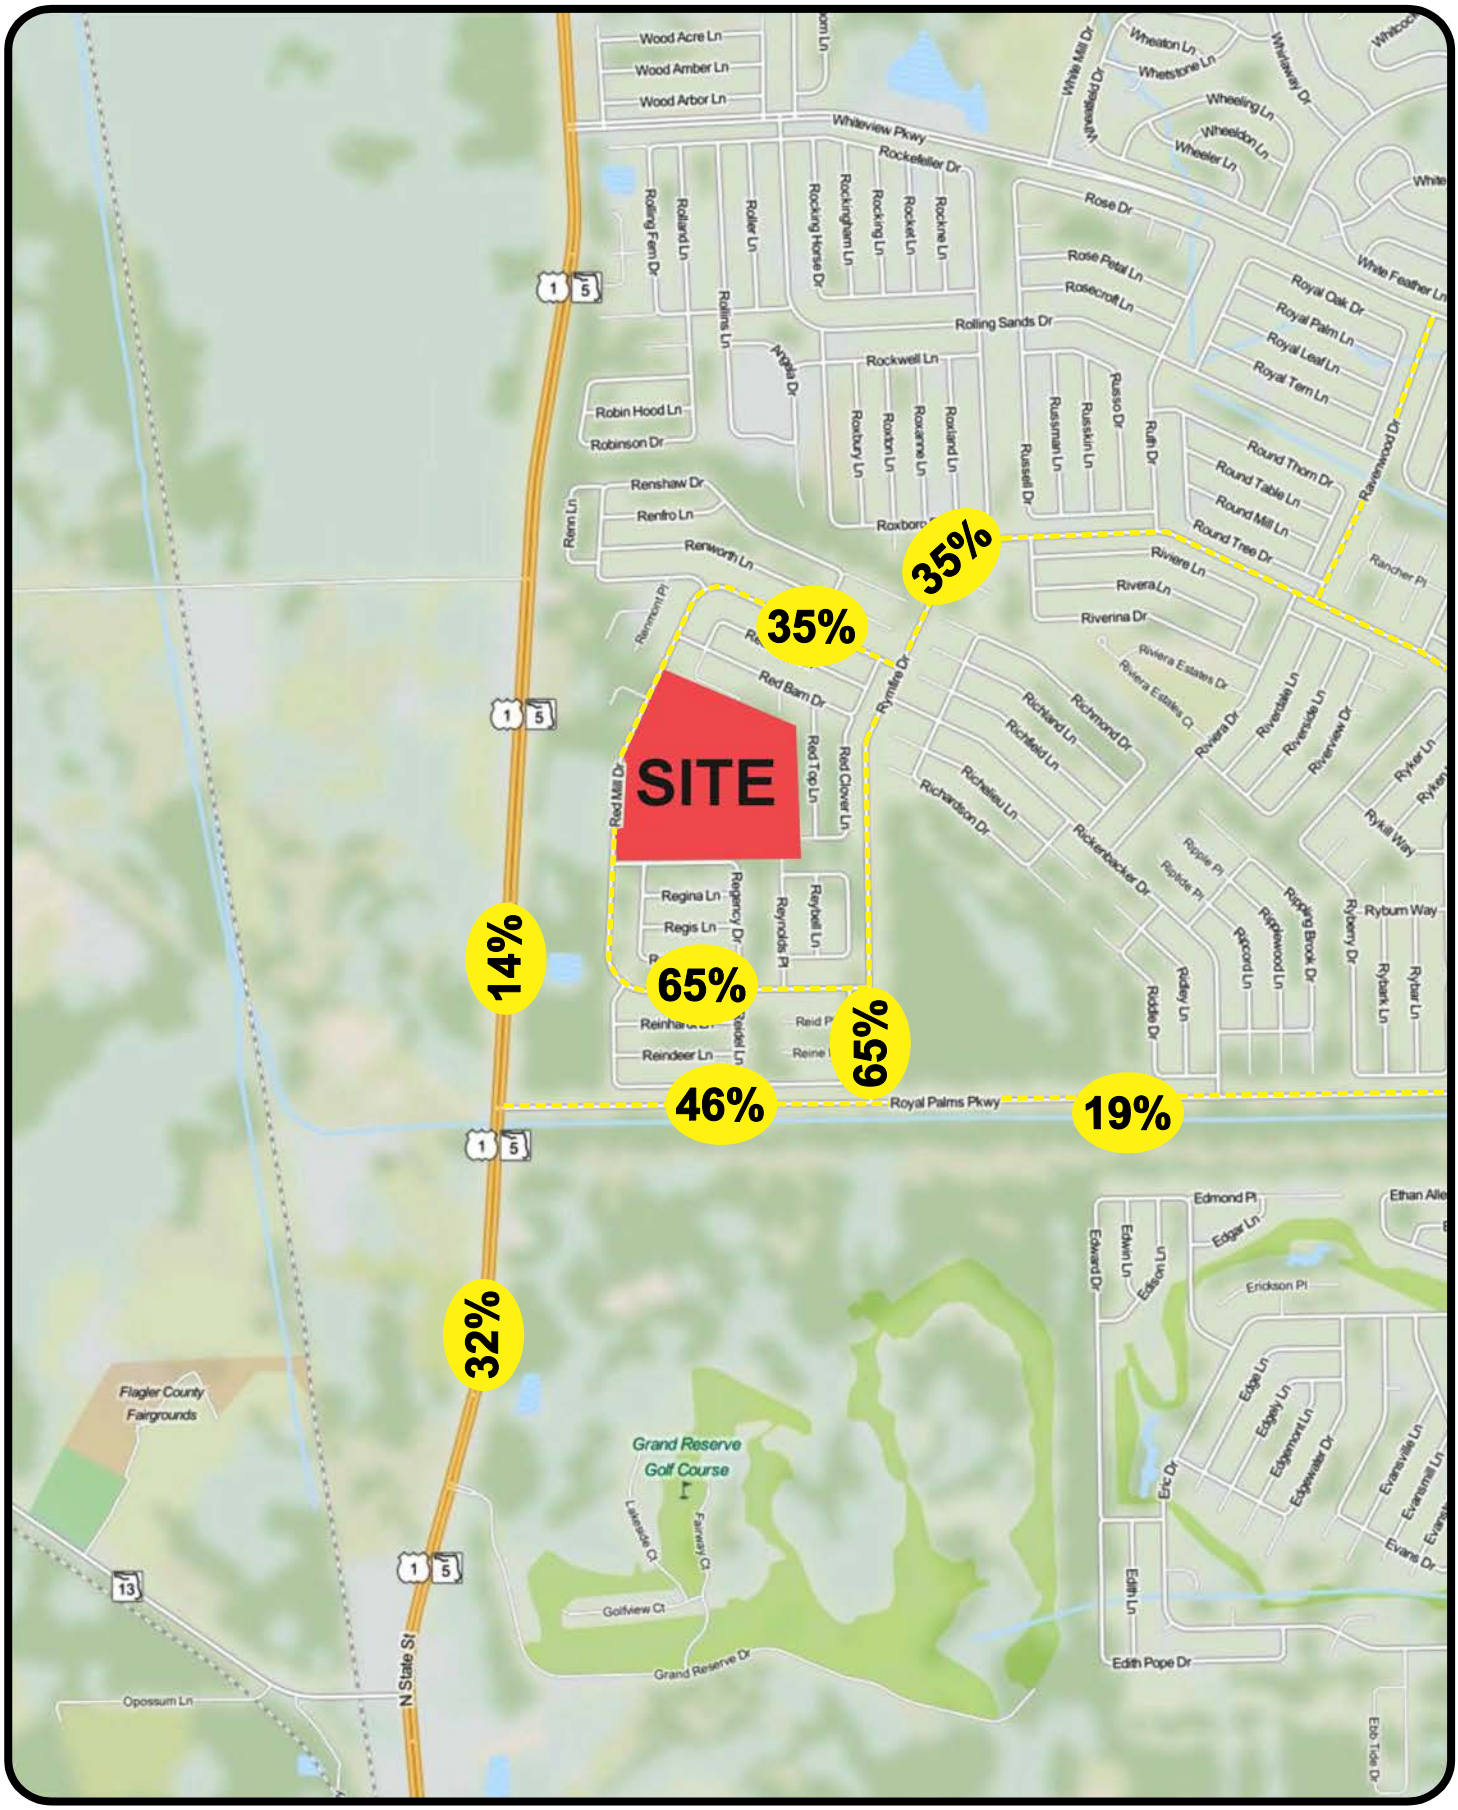

Table 3
Trip Generation Summary

ITE Code	Land Use	Size	Daily		A.M. Peak Hour				P.M. Peak Hour			
			Rate	Trips	Rate	Enter	Exit	Total	Rate	Enter	Exit	Total
220	Multi-Family (Apartments/Townhomes)	216 DU[1]	6.19	1,337	0.41	21	68	89	0.514	69	42	111
		Total	**--**	**1,337**	**--**	**21**	**68**	**89**	**--**	**69**	**42**	**111**

[1]DU = Dwelling Unit

Trip Distribution / Trip Assignment

The trip distribution pattern was estimated using the *Central Florida Regional Planning Model* (CFRPM), version 7. A Selected Zone Analysis (SZA) was conducted by modifying the 2035 interim year model network to include a Traffic Analysis Zone (TAZ) representing the proposed project and the model's socio-economic data was updated to reflect the proposed project buildout. The project distribution in the model output was manually adjusted for reasonableness using engineering judgement and proposed access to the site. This adjusted distribution pattern is depicted in **Figure 4** and the model plot outputs are provided in the Study Methodology in Appendix A. Utilizing this distribution, the development project trips were assigned to the study roadways.

Figure 4
Page 9

Project Trip Distribution

N
NTS

PROJECTED TRAFFIC CONDITIONS

Projected traffic conditions were assessed in order to evaluate the impact of the proposed development within its area of influence. The projected conditions were estimated by combining the daily and P.M. peak hour project trips with the background traffic volumes.

Background Traffic Projections

Background traffic volumes are determined by expanding existing daily and peak hour traffic volumes to the buildout year using an annual growth rate. In coordination with the City of Palm Coast, historical analysis using 2-year growth rates from the City of Palm Coast Annual Daily Traffic database was utilized for each study segment and shown in Table 4. These growth factors was utilized for the intersections to project to the buildout year of 2028.

Roadway Segment Analysis

A roadway segment analysis was performed for the study roadway segments similar to existing conditions by comparing the projected daily traffic volume of each segment with the capacity of the segment at the adopted LOS standard. This analysis is summarized in **Table 4**. The table lists the roadway segments along with their number of lanes, growth rates, adopted LOS/capacity, and projected traffic volumes. This analysis shows that the roadway segments under consideration are projected to operate at satisfactory Levels of Service upon build out of the development.

Intersection Analysis

To assess the projected operating conditions at the study intersections, intersection capacity analyses were conducted using the *Highway Capacity Software (HCS)*. Total P.M. peak hour traffic volumes were determined by combining background traffic with project trips. **Figures 5a and 5b** shows the projected A.M. and P.M. peak hour intersection turning movements, respectively for the study intersections and site access roadway connections. The projected Levels of Service are summarized in **Table 5**. Detailed HCS analysis worksheets are included in **Appendix E**. The analysis indicates that the study intersections and site access roadway connections will operate at overall satisfactory Level of Service upon build out of the development.

Turn Lane Analysis

A turn lane analysis was conducted at both project roadway connections and at north and south Red Mill Drive intersections with Rymfire Drive to determine whether turn lanes would be needed as a result of the proposed development. The analysis was undertaken in accordance with the procedures of the *Palm Coast Turn Lane Technical Guidelines on November 10, 2020.* The guidelines indicate that on a 2-lane city roadway with a posted speed limit of 30 mph, 30 or more left turning vehicle per hour would require a dedicated left turn lane. Similarly, the guidelines indicate that on a 2-lane city roadway with a posted speed limit of 30 mph, 120 or more right turning vehicle per hour would require a dedicated right turn lane. Using the projected P.M. peak hour traffic volumes from Figures 5a and 5b, the highest left turning vehicles are 21 during the P.M. peak hour and the highest right turning vehicles are 37 during the P.M. peak hour. These results revealed that left or right turn lanes will not be needed at the site roadway locations. Excerpts from the guidelines are provided in **Appendix F**

STUDY CONCLUSIONS

This traffic analysis was performed in order to assess the impact of a proposed 216-unit multi-family project located on Red Mill Drive in the City of Palm Coast, Florida. Access to the site will be provided via roadway connections on Red Mill Drive which intersects Rymfire Drive at two locations. The results of the study as documented herein are summarized below:

- The proposed development will generate a daily traffic volume of 1,337 vehicle trips, of which 89 will occur during the A.M. peak hour and 111 will occur during the P.M. peak hour.

- The study roadway segments and intersections within a one-mile impact area currently operate at satisfactory Levels of Service.

- The study roadways and intersections are projected to operate satisfactorily within their adopted LOS standards with the addition of project trips.

- The project roadway connections to Red Mill Drive will operate at acceptable levels of service upon completion of the project.

- A turn lane analysis conducted at both project roadway connections to Red Mill Drive revealed that left and right turn lanes would not be needed as a result of the proposed development.

Good morning, Jay

Please see Citywide historical traffic counts for our major roads (attached) which has growth rates based either on previous 5 years growth or 2 years growth. Use this data to come up with growth rate for each roadway. You may use 10 year, 5 year, or 2 year historical traffic counts to determine your annual growth rate to apply to projected build-out design year. Please be specific on your TIA.

Good morning,

Please advise what growth factor we should use to grow the traffic for two years?

As per your prior comments number 2 and 3, from December 2, 2025, (see attached) we are not to use the FDOT growth factor that was determined from the trends analysis, since the area is mostly built out. Usually we use a 2% per year factor. If this is acceptable, please let us know as soon as possible.

Thanks,

RESPONSE TO CITY OF PALM COAST COMMENTS
RED MILL POINTE 1 TRAFFIC IMPACT ANALYSIS METHODOLOGY

The following is our response to the City of Palm Coast's comments dated December 2, 2025, regarding the TIA Methodology for the Red Mill Pointe 1, located on Red Mill Drive to the west of Rymfire Drive. The comments are listed first in **bold** followed by our responses.

Comment 1. Distribution is tentatively accepted but will confirm once turning movement counts are collected at nearby identified intersections.

Response – Acknowledged, will document traffic counts in TIA.

Comment 2. Please use local data and not FDOT online data for growth and or traffic data counts. The City just finished Citywide traffic data counts and will have it available in January so please use the City's 2025 traffic data.

Response – Acknowledge, please provide the City's 2025 traffic data report.

Comment 3. The area is mostly build-out so such growth number as indicated up to 9.51% is not acceptable. Please use the City's traffic counts data for historical growth.

Response – Acknowledged, please provide the City's 2025 traffic data report

Comment 4. As indicated that you came up with an average growth rate of 6.17% per year so you concluded growth factor of 1.617% is incorrect. Please correct this growth factor.

Response – Acknowledged, revised typo, but will utilize local data as requested. Please provide the City's 2025 traffic data report. See revised TIA methodology.

Comment 5. For background growth, you can use historical growth rate or use our vested trips as provided in our Transportation Facility Status Report.

Response – Acknowledged, will utilize whichever is higher of the two scenarios. Please confirm that the Transportation Facility Status Report dated May 19, 2024, is the latest version. If not, please provide the most current version.

Comment 6. Intersection at Red Mill Drive and Reston Place is not needed to evaluate. All other intersections listed are relevant to evaluate.

Response – Acknowledged, see revised TIA methodology.

Comment 7. Please revise and resubmit TM.

Response – Acknowledged, see revised TIA methodology.

RE: **Comment Letter for Project Name , RED MILL POINTE TM**
Application: 6499

Dear Ms. MERHI,

Thank you for your recent submittal. Staff has reviewed your submittal, however due to comments noted below, the plans cannot be approved at this time.

Kindly submit revised plans to show the following changes:

PLTR - PLANNING TRANSPORTATION/CONCURRENCY
Comments:
Held By: PHONG NGUYEN - (386)986-3779 - PNGUYEN@PALMCOASTGOV.COM
1) Distribution is tentatively accepted but will confirm once turning movement counts are collected at nearby identfified intersections.
2) Please use local data and not FDOT online data for growth and or traffic data counts. The City just finished Citywide traffic data counts and will have it available in January so please use the City's 2025 traffic data counts as the basis.
3) The area is mostly build-out so such growth number as indicated upto 9.52% is not acceptable. Please use the City's traffic counts data for historical growth.
4) As indicated that you came up with an average growth rate of 6.17% per year so you concluded growith factor of 1.617% is incorrect. Please correct this growth factor.
5) For background growth, you can use historical growth rate or use our vested trips as provided in our Transportation Facility Status Report.
6) Intersection at Red Mill Drive and Reston Place is not needed to evaluate. All other intersections listed are relevant to evaluate.
7) Please revise and resubmit TM.

If you have any questions concerning the comments noted, please contact me at 386-986-3779.

Sincerely,

Phong Nguyen,
Planning Manager/Project Manager

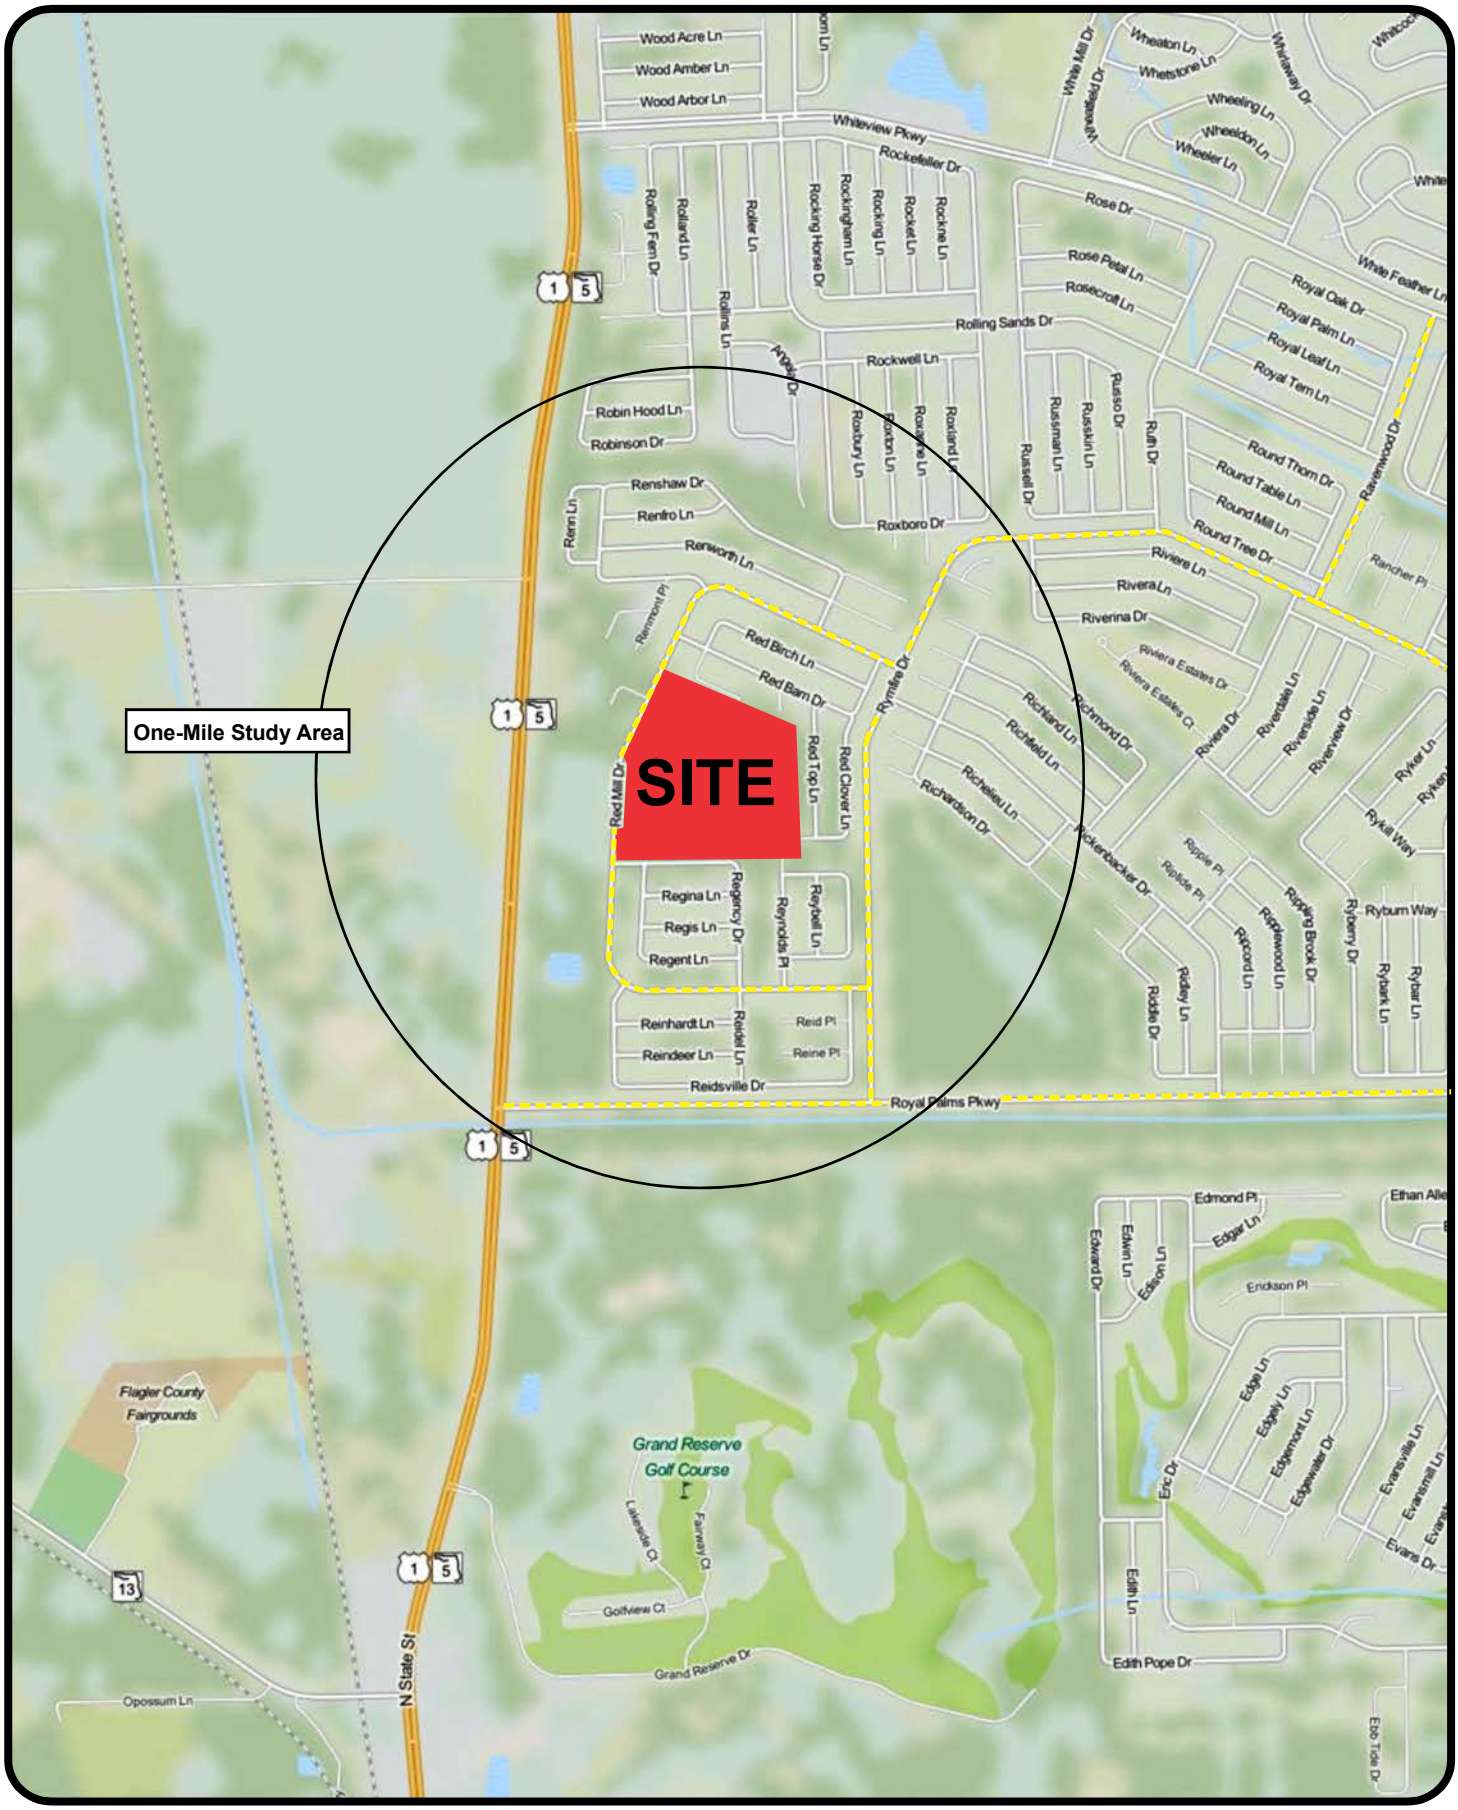
RE: Red Mill Pointe 1
Traffic Impact Analysis Methodology - Revised
TPD No. 5537.1

The following is our proposed traffic study methodology for the above-referenced development project in Palm Coast for your review:

1) Proposed Development

The proposed residential development will consist of 216 multi-family dwelling units. **Figure 1** depicts the location of the project site and the area roadways. Access to the site will be via two full access connections on Red Mill Drive. **Figure 2** provides the preliminary site plan. The development is anticipated to be completed by 2028.



2) Trip Generation

Table 1 provides a summary of the trip generation for the proposed development. Trip generation rates were obtained from *the Institute of Transportation Engineers (ITE) Trip Generation Manual, 12th Edition*. As shown in the table, the proposed development is estimated to generate 1,337 daily trips, of which 89 will occur in the A.M. peak hour and 111 in the P.M. peak hour. Copies of the ITE trip generation sheets are included in **Attachment A.**

Table 1
Trip Generation Summary

ITE Code	Land Use	Size	Daily		A.M. Peak Hour				P.M. Peak Hour			
			Rate	Trips	Rate	Enter	Exit	Total	Rate	Enter	Exit	Total
220	Multi-Family (Apartments/Townhomes)	216 DU[1]	6.19	1,337	0.41	21	68	89	0.514	69	42	111
Total			**--**	**1,337**	**--**	**21**	**68**	**89**	**--**	**69**	**42**	**111**

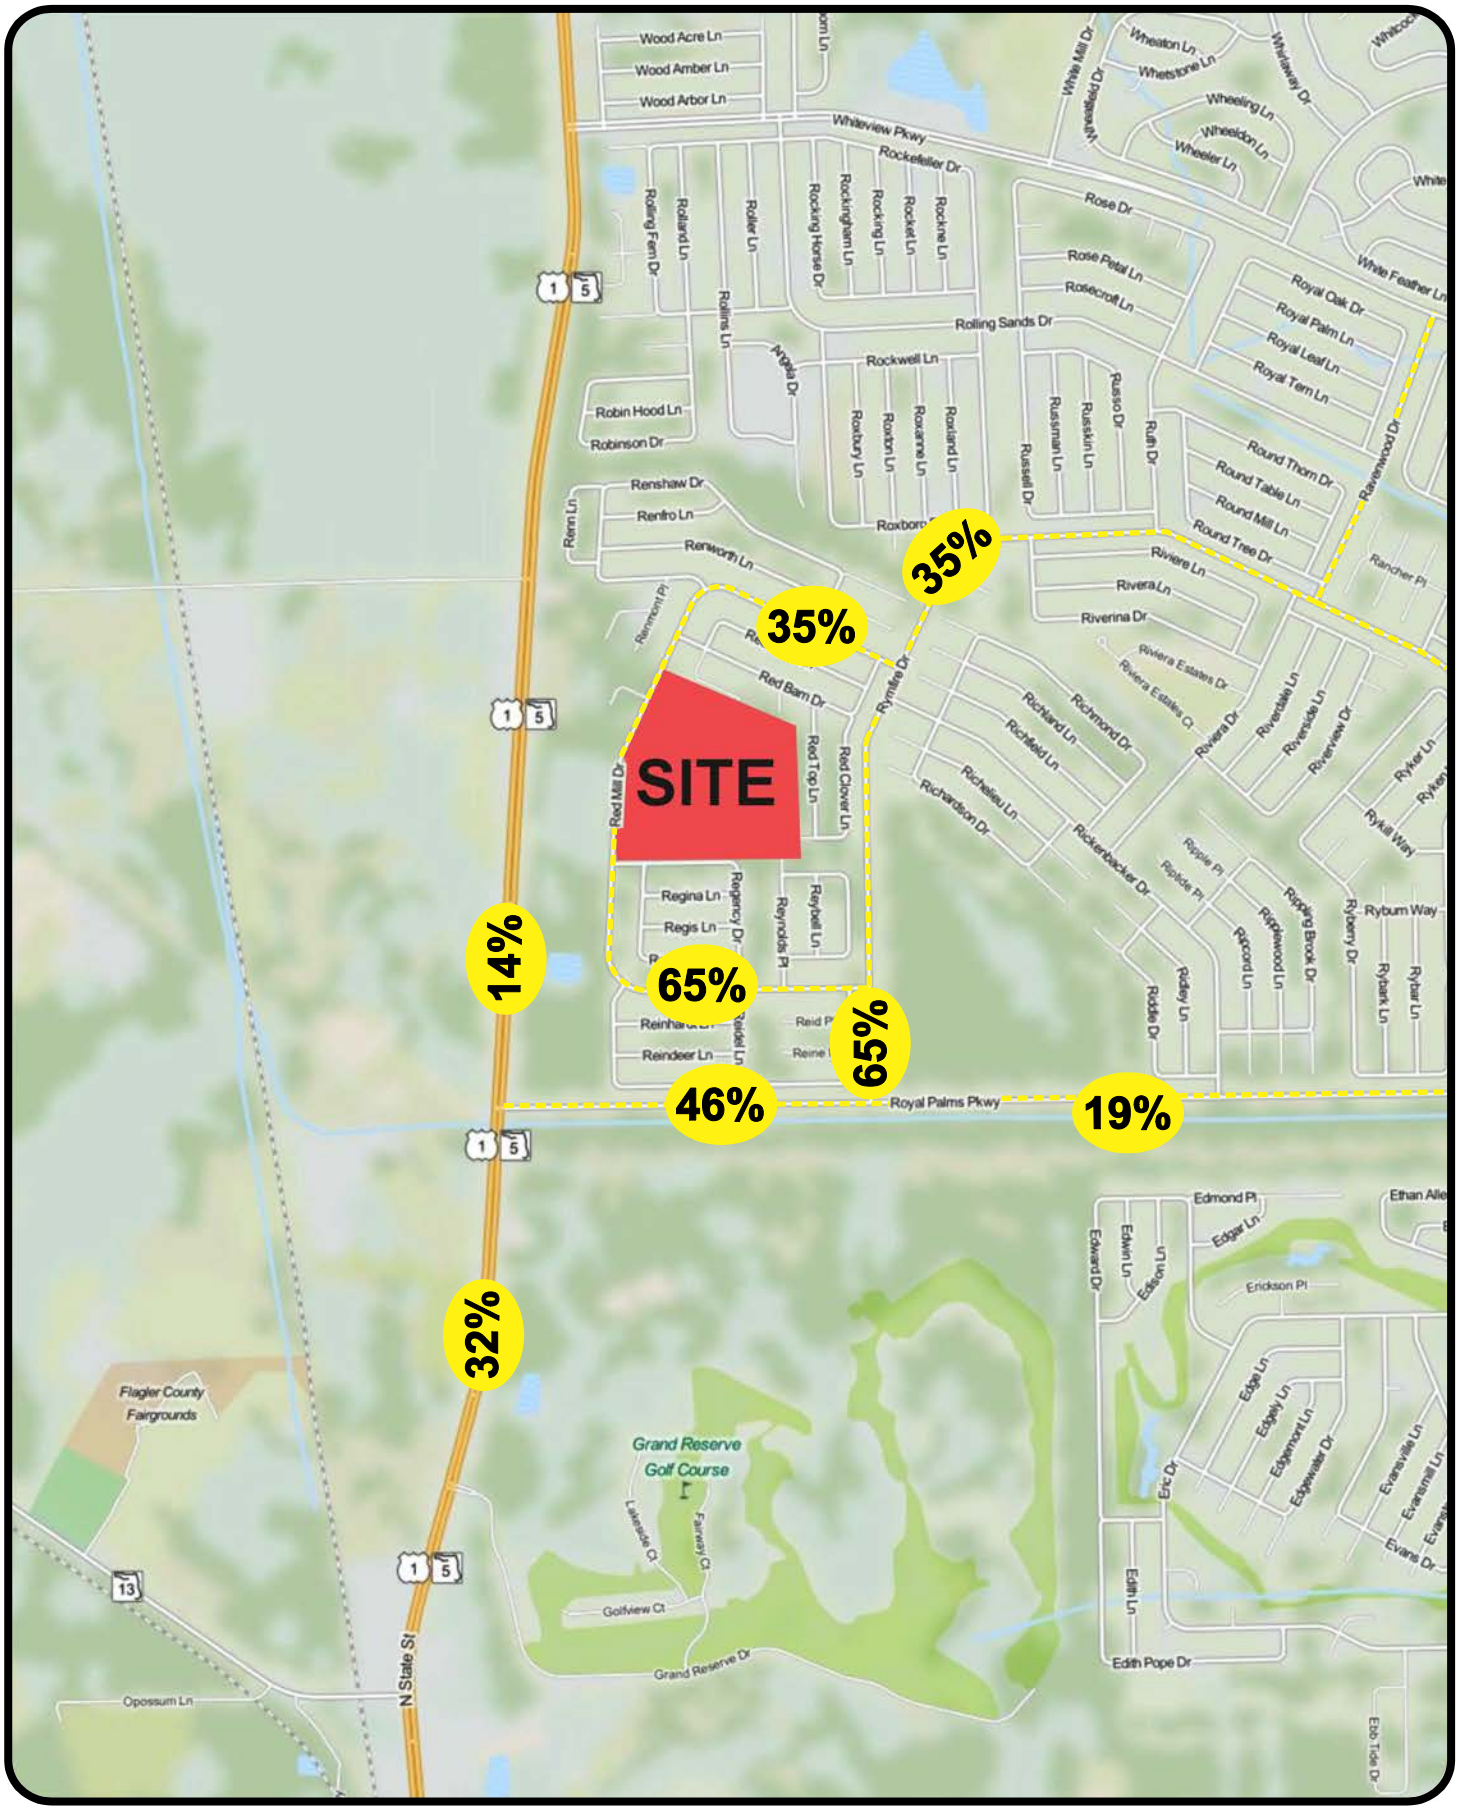
Figure 2
Page 3

Site Plan

N
NTS

3) Trip Distribution

The trip distribution pattern was estimated using the *Central Florida Regional Planning Model* (CFRPM), version 7. A Selected Zone Analysis (SZA) was conducted by modifying the 2035 interim year model network to include a Traffic Analysis Zone (TAZ) representing the proposed project and the model's socio-economic data was updated to reflect the proposed project buildout. The project distribution in the model output was manually adjusted for reasonableness using engineering judgement and proposed access to the site. This adjusted distribution pattern is depicted in **Figure 3** and the model plot outputs are provided in **Attachment B**. Utilizing this distribution, the development project trips will be assigned to the area roadways.



4) Study Area as per the City TIS Guidelines

The proposed development consists of a residential subdivision with 216 multi-family dwelling units. Based upon its peak hour generation, this residential subdivision will require a one-mile study area.

The roadway segments to which site has direct connections and all roadways listed in the Transportation Facility Status Report that are within the one-mile radius are to be included in the study. A significance analysis was conducted as shown in **Table 2** to determine if the study area should be expanded beyond the 1.0-mile impact area. Based on this analysis, the study area will not be expanded beyond the one-mile impact area.

Table 2
Significance Analysis

Seg ID	Roadway Segment	# of Lns	Area Type	Adopted		Project Trip		% Significant
				LOS	PH 2-Way Capacity	%	Volume	
Rymfire Drive								
3215	Royal Palms Pkwy to Ravenwood Dr	2L	Collector UFH	D	2,170	65%	72	3.32%
Royal Palms Parkway								
3200	US 1 to Rymfire Dr	2L	Arterial Class 1	D	1,600	46%	51	3.19%
3210	Rymfire Dr to Belle Terre Blvd	2L	Arterial Class 1	D	1,600	19%	21	1.31%
US1 (SR5)								
3720	White View Pkwy to Royal Palm Pkwy	4LD	Arterial State Class 1	D	3,580	32%	36	1.01%
3725	Royal Palm Pkwy to Espanola Rd	4LD	Arterial State Class 1	D	3,580	14%	16	0.45%
Ravenwood Drive								
3911	White View Pkwy to Rymfire Dr	2L	Collector UFH	D	2,170	35%	39	1.80%

Project Trip Distribution

N
NTS

5) Traffic Analysis

The traffic analysis will be conducted for the classified roadways within the study area and major intersections. The analysis will be conducted for existing and projected conditions for the following roadways/intersections:

Roadways:

- Rymfire Drive
  Royal Palms Parkway to Ravenwood Drive

- Royal Palms Parkway
  US 1 to Rymfire Drive
  Rimfire Drive to Belle Terre Boulevard

- US 1 (SR 5)
  White View Parkway to Royal Palm Parkway
  Royal Palm Parkway to Espanola Road

Intersections:

- Rymfire Drive and Red Mill Drive North
- Rymfire Drive and Red Mill Drive South
- Rymfire Drive and Royal Palms Parkway
- US 1 and Royal Palms Parkway
- Red Mill Drive and Site Entrances

The roadway segments will be analyzed for the P.M. peak hour conditions utilizing data provided by the city and/or collected in the field. The roadway segments will be analyzed by comparing the peak hour volumes of each segment with the corresponding capacity of the adopted LOS standard. The intersections will be analyzed utilizing A.M./P.M. peak hour traffic counts obtained in the field in accordance with the procedures of the Highway Capacity Manual. HCS and/or Synchro Software will be used in the analysis.

To determine projected traffic conditions for use in the analysis, existing traffic volumes will be for the project's buildout year with the use of growth factors determined from historical trends analysis of existing traffic volumes. Utilizing FDOT on-line traffic count data on Rymfire Drive and Royal Palms Parkway revealed growth rate ranging from 2.82% to 9.52%. Therefore, the average growth rate was 6.17% per year. Copies of the Trend Analysis worksheets utilizing FDOT counts are provided in **Attachment C.** However, the City of Palm Coast requested that local data be used for determining the growth rate, so the City's 2025 Traffic Data Counts will be utilized and the growth rate document in the TIA.

The study roadways and intersections for the projected conditions will be analyzed similar to existing conditions.

6) Major Traffic Review Report

A traffic report will be prepared as per the City's TIA guidelines addressing the project's trip generation/distribution characteristics and its impact area. The report will also provide:

- An analysis of roadway links within the project impact area of one mile (existing and projected).
- An analysis of the study intersections as per the Highway Capacity Manual (existing and projected).
- Identification of needed improvements to segments and intersection in the study area.
- Review/Identification of turn lanes needed at the proposed access connection.

Please contact us at 407-628-9955 if you have questions or need additional information.

APPENDIX F

Turn Lane Warrant Analysis

Palm Coast Turn Lane Technical Guidelines on November 10, 2020

The purpose of this document is to assist the City and design professionals regarding turn lane design as part of a development for a property accessing a City street. It determines:

a) when a turn lane is required to be built as a condition of access to the City street, and
b) the required dimensions of the turn lane.

These guidelines provide guidance for developers on what to expect for design and construction requirements on a roadway connecting to their driveway (entrance) when developing a property.

Turn lanes for left-turning and right-turning traffic are desirable for the safe execution of speed change maneuvers. Turn lanes also allow for the storage and protection of left-turning or right-turning vehicles while allowing through traffic to pass safely with minimal induced delay.

Deceleration lanes shall be provided at all intersection and/or access points adjacent to the project on all City-maintained and privately-maintained roadways as required by these guidelines. (Turn lanes along Flagler County owned roadways will be determined by Flagler County after receiving input from the City.) However, these guidelines shall not be construed in any manner to allow a left-turn lane and/or a right-turn lane into a project where such turning movement is not approved by the City.

All table values referenced in this document presume design of a single turn lane. The City will use the latest edition of the Florida Department of Transportation's (FDOT's) publication: "Standard Plans and Manual of Uniform Minimum Standards for Design, Construction and Maintenance for Streets and Highways" (commonly referred to as the "Florida Greenbook") as a design reference. The City will be the sole judge, when backed by engineering analysis, to define whether a multi-lane turn lane design is adequate in dimension.

Turn Volume Thresholds that Require the Addition of a Dedicated Left Turn Lane from the City Street

A left turn lane shall be provided at each access driveway of the project when a Left-Turning Vehicle (LTV) count during a Peak Hour (Weekday AM, Weekday PM, Weekend Mid-Day) from the City roadway entering that driveway meets or exceeds the criteria below. The roadway column in the table below shall be utilized for the type and volume of traffic on the roadway from where the turn would originate and shall be based on the Average Annual Daily Traffic (AADT) from the City's bi-annual traffic counts and projected forward including background traffic from other projects, as determined by the City, until the time when the project and its driveway are reasonably expected to finish construction and be open.

Left Turn Lane Thresholds

Posted Speed Limit	2 Lane Roadways AADT of 5,000 or less	2 Lane Roadways AADT over 5,000	4+ Lane Roadways AADT of 10,000 or less	4+ Lane Roadways AADT over 10,000
Up to 25 mph	40 LTV/Peak Hour	35 LTV/Peak Hour	50 LTV/Peak Hour	40 LTV/Peak Hour
30 - 35 mph	30 LTV/Peak Hour	25 LTV/Peak Hour	35 LTV/Peak Hour	25 LTV/Peak Hour
40 + mph	20 LTV/Peak Hour	15 LTV/Peak Hour	25 LTV/Peak Hour	20 LTV/Peak Hour

Turn Volume Thresholds that Require the Addition of a Dedicated Right Turn Lane from the City Street

A right turn lane shall be provided at each access driveway of the project when a Right-Turning Vehicle (RTV) count during a Peak Hour (Weekday AM, Weekday PM, Weekend Mid-Day) from the City roadway entering that driveway meets or exceeds the criteria below. The roadway column in the table below shall be utilized for the type and volume of traffic on the roadway from where the turn would originate and shall be based on the AADT from the City's bi-annual traffic counts and projected forward including background

traffic from other projects, as determined by the City, until the time when the project and its driveway are reasonably expected to finish construction and be open.

Right Turn Lane Thresholds

Posted Speed Limit	2 Lane Roadways AADT of 5,000 or less	2 Lane Roadways AADT over 5,000	4+ Lane Roadways AADT of 10,000 or less	4+ Lane Roadways AADT over 10,000
Up to 25 mph	175 RTV/Peak Hour	150 RTV/Peak Hour	155 RTV/Peak Hour	120 RTV/Peak Hour
30 - 35 mph	120 RTV/Peak Hour	100 RTV/Peak Hour	100 RTV/Peak Hour	70 RTV/Peak Hour
40 + mph	70 RTV/Peak Hour	60 RTV/Peak Hour	60 RTV/Peak Hour	40 RTV/Peak Hour

Other Criteria

When a project's driveway meets at least 75% of the above thresholds for Peak Hour (Weekday AM, Weekday PM or Weekend Mid-Day) left or right turns and at least one of the following criteria is also present, the City, in its sole judgment, may require the developer to provide the turn lane.

1. Sight distance is limited due to curves or hills or other unalterable object.
2. The intersection or driveway is just after a signalized intersection where acceleration or driver expectancy would make a separate right turn desirable (this would also be the case downstream soon after a dual left-turn lane onto a four-lane roadway).
3. At least 50% higher than normal crash experience (or 33% above normal rear-end collisions) or the City has determined that this roadway section has a Level of Service (LOS) of D or lower.
4. Severe skewed angle of the intersection so that right-turn traffic has to slow more than would be expected for a 90-degree turn.
5. The turn-lane into the project occurs at an existing or proposed signalized intersection where adequate right-of-way exists or is available from the development.

Construction Timing

Turn lanes shall be constructed with the infrastructure and prior to the vertical construction of any buildings unless the City allows some of the vertical building construction prior to completion of the turn lanes. When a project is phased, the turn lanes shall be constructed with the earliest phase that the turn lane meets at least 50% of the criteria for requiring the turn lane.

Turn Lane Design Standards

A turn lane shall consist of the following components: A taper and a full width lane length of a turn lane. The total length of the turn lane shall be the taper length plus the full width lane length.

A taper shall be the longitudinal length of a development of a lane from zero width to full width. Find the length of taper required in the tables below (See Sections *Left turn Lane Table* and *Right Turn Lane Table*).

Turn lane widths shall be a minimum of 11 feet on roadways where the posted speed is 40 mph or less (see exceptions in next sentence).

Turn lane widths, when turn lanes are required, shall be a minimum of 12 feet on roadways where at least one condition below is present:

1. Where the posted speed is 45 mph or greater.
2. With more than two lanes of opposing traffic.
3. With medians at least 16 feet wide separating opposing traffic lanes.

Turn lane length shall be measured along the lane segment constructed at full lane width. The required turn lane length of right turn lanes and left turn lanes exiting the City street shall be determined by choosing the greater of:

1. The minimum full width turn lane length. The minimum full width turn lane length shall be 75 feet.
2. The calculation of full width turn lane length based on conditions in the following tables. Total required full width turn lane length shall be the sum of the deceleration length dimension (See Left Turn Lane Table; See Right Turn Lane Table) plus the storage length dimension (see Storage Length Dimension Table - SLDT).

Shorter turn lanes will not be allowed except under special circumstances as approved by the City.

Storage Length Dimension Table For Unsignalized Intersections*

Largest Peak Hour Volume in Vehicles Per Hour (vph)	Storage Length (feet)*
Up to 25	30
26 to 50	50
51 to 75	75
76 to 100	100
Every additional increment, or partial increment, of 50 vph	75

**Per FDOT Greenbook*

Dimensions in the SLDT presume the traffic in the turn lane consists of less than 5% heavy vehicles (where a heavy vehicle is any vehicle longer than 34 feet including a trailer). If heavy vehicle percentage will be between 5% and 20% of turning vehicles, increase storage length by 20%. If heavy vehicle percentage will be greater than 20% of turning vehicles, increase storage length by 100%.

Left Turn Lane Length

The requirements for lengths of tapers, deceleration and storage for left turn lanes are based on the speed limit of the road and are shown in the following table:

Left Turn Lane Table For Unsignalized Intersections*

Posted Speed Limit Of Roadway (mph)	Length of Taper (feet)	Length of Deceleration (feet)	Length of Storage (feet)*
Up to 25	50	0	100% of SLDT Value
30	75	0	100% of SLDT Value
35	75	75	100% of SLDT Value
40	90	75	100% of SLDT Value
45	100	100	100% of SLDT Value
50	100	135	100% of SLDT Value

**For 2 Lane Roadways less than 5,000 ADT and for 4-Lane Roadways less than 10,000 ADT, reduce the 100% qualification to 70%.Per FDOT Greenbook*

Total required full width turn lane length shall be the sum of the deceleration length dimension plus the storage length dimension. The taper is not considered part of the full width turn lane length.

Right Turn Lane Length

The requirements for lengths of tapers, deceleration and storage for right turn lanes are based on the speed limit of the road and are shown in the following table:

Right Turn Lane Table For Unsignalized Intersections*

Posted Speed Limit Of Roadway (mph)	Length of Taper (feet)	Length of Deceleration (feet)	Length of Storage (feet) Stop Condition	Length of Storage (feet) Free Flow
Up to 25	50	0	50% of SLDT Value	0
30	75	0	50% of SLDT Value	0
35	100	75	50% of SLDT Value	25% of SLDT Value
40	100	75	60% of SLDT Value	30% of SLDT Value
45	100	100	75% of SLDT Value	35% of SLDT Value
50 +	100	135	80% of SLDT Value	45% of SLDT Value

***Per FDOT Greenbook*

Total required full width turn lane length shall be the sum of the deceleration length dimension plus the storage length dimension. The taper is not considered part of the full width turn lane length. Right turn lane lengths at traffic signal controlled intersections shall be based on queue lengths determined through an engineering traffic study.

Deviations

The City may grant a deviation from these guidelines in part or in whole after determining that any of the following conditions make compliance infeasible:

1. Right-of-way constraints do not permit the installation of the turn lane or to its full dimensions. This does not include cases where the developer is unwilling to provide the developer's own property from the development under consideration for additional right-of-way to construct or compensate for the turn lane.
2. Existing topographic or roadway geometric features would cause construction of the turn lane to be prohibitively expensive if constructed to standards.
3. Unusual roadway features would cause a turn lane to be detrimental to the health, safety and general welfare of the public. This could include a case where a right-turn lane could negatively impact bicyclists or pedestrians.
4. Such turn lane or in its full dimension would require removal of a specimen or historic tree as described in Section 11.02.04.A of the Land Development Code or significantly impact a high quality wetland.

Calculation Examples

Example 1

A 30 mph 2 lane 2-way road. AADT of 4,000. Heavy Truck percentage into property: 15%. Largest Peak Hour projected left turns: 32 vph. Largest Peak Hour Projected Right Turns 62 vph.

Compare to Turn Volumes Threshold Tables

Is Left Turn lane required? 32 vph > 30 LTV threshold Yes. Left turn lane is required.

Is Right Turn lane required? 62 vph < 120 RTV threshold. No. Right turn lane is not required.

Calculate Left turn Length

See Left Turn Lane Table

For 30 mph,

Taper = 75 feet

Deceleration Length = 0 feet

SLDT for 32 vph = 50 feet

Truck factor for 5 to 20% trucks = 1.2

Full width length = 0 + (1.2 * 50) = 60 feet round up to nearest 10 feet → 60 feet

Final answer: Left turn lane length = 50 foot taper plus 60 feet full width lane = 110 feet.

Full width lane = 11 feet for 30 mph road with no special conditions.

Note: The transition from the typical two-lane width to the beginning of taper is covered in the FDOT Greenbook, which is referenced as the design guidelines for the transition.

Example 2

A 45 mph 4 lane road with divided median. AADT of 12,800. Heavy Truck percentage into property: 2 to 4%. Largest Peak Hour projected Left turns: 44 vph. Largest Peak Hour Projected Right Turns 164 vph.

Compare to Turn Volumes Threshold Tables

Is Left Turn lane required? 44 vph > 20 LTV threshold Yes. Left turn lane is required.

Is Right Turn lane required? 164 vph > 40 RTV threshold Yes. Right turn lane is required.

Calculate Left turn Length

See Left Turn Lane Table

For 45 mph

Taper = 100 feet

Deceleration Length = 100 feet (deceleration occurs in taper)

SLDT for 44 vph = 50 feet

Truck factor for 2-4% trucks = 1.0

Full width length = 100 + (1.0 * 50) = 150 feet round up to nearest 10 feet → 150 feet

Final answer: Left turn lane length = 100 foot taper plus 150 feet full width lane = 250 feet.

Full width lane = 12 feet for 45 mph road

Calculate Right Turn Length

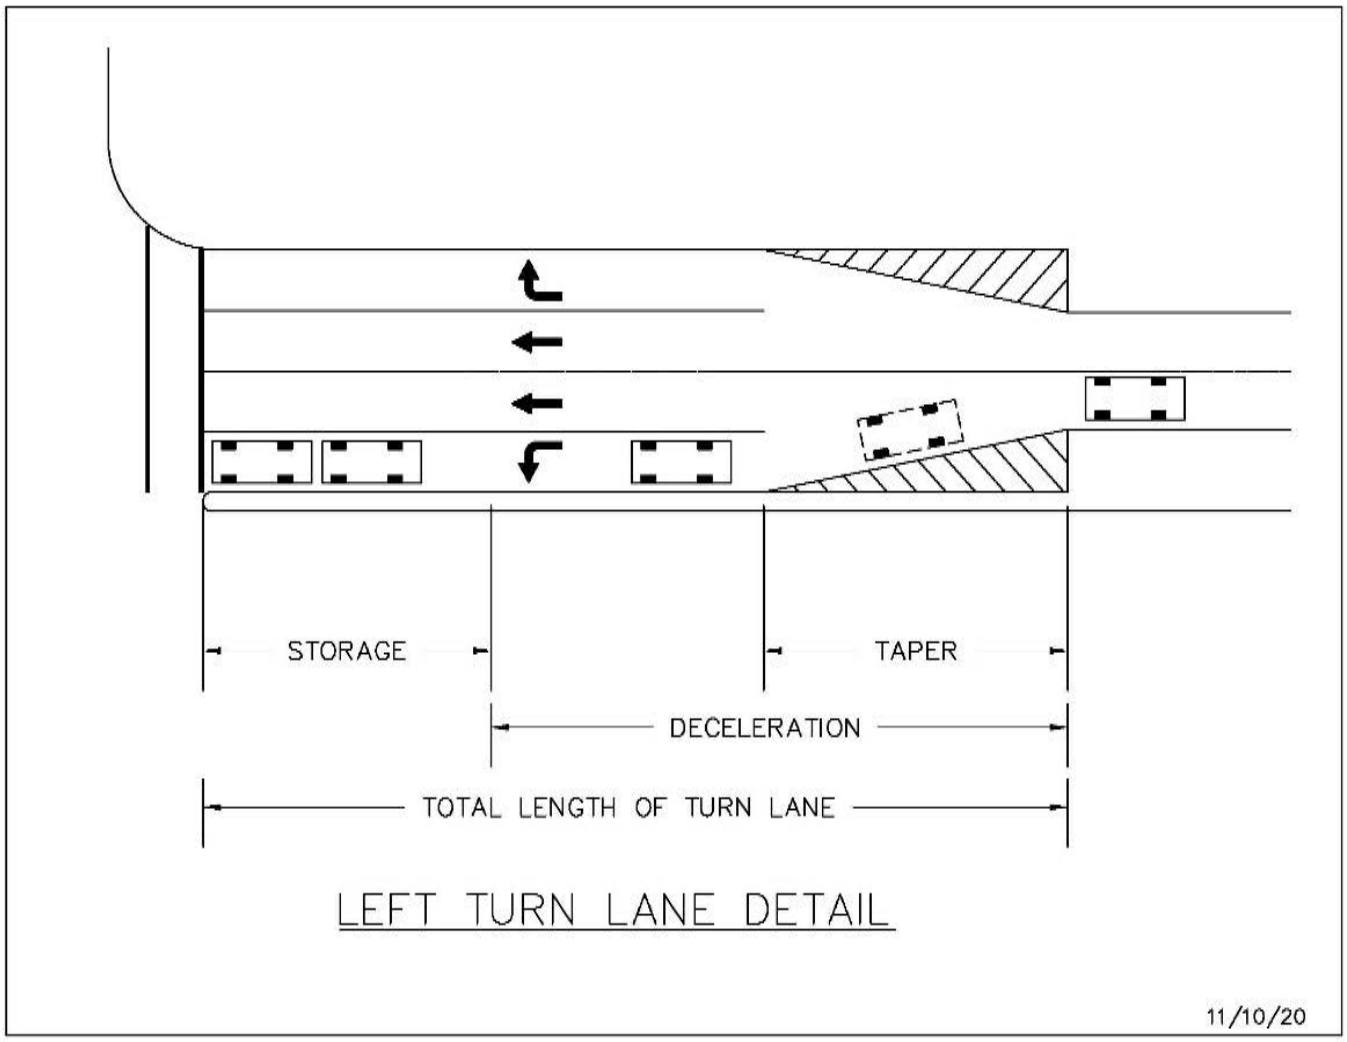
See Right Turn Lane Table

For 45 mph

Taper = 100 feet

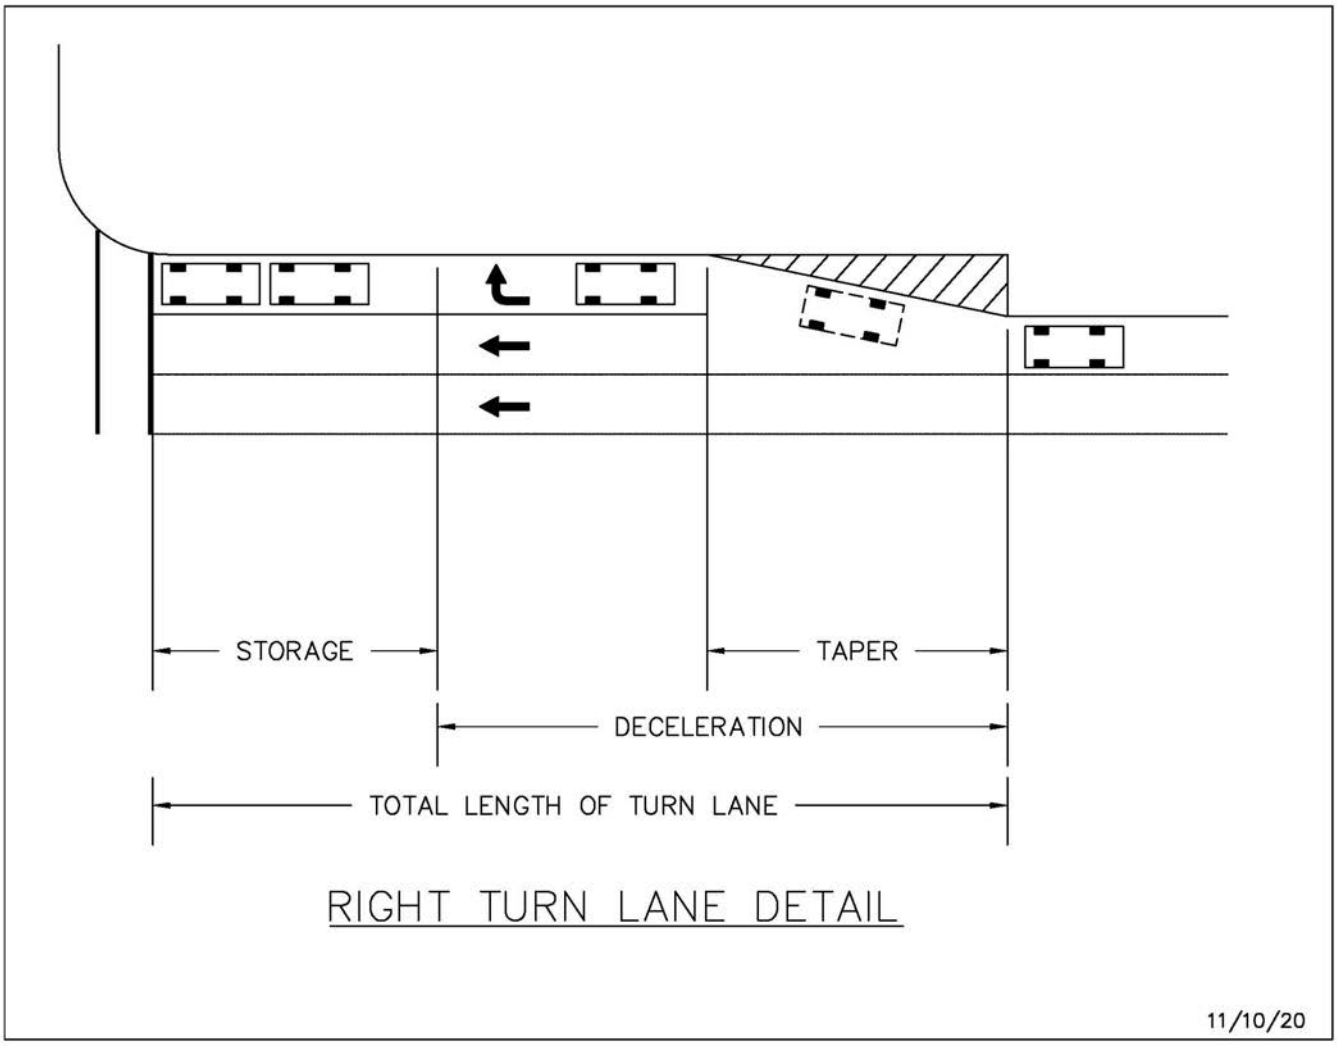
Deceleration Length = 100 feet (deceleration occurs in taper)

SLDT for 164 vph = 100 feet plus two units of 50 vph = 100 + (2.0*75) = 250 feet



Truck factor for 2-4% trucks = 1.0

Full width length = 100 + (1.0 *((0.75) * 250)) = 100 + 187.5 feet = 287.5 feet round up to nearest 10 feet -> 290 feet



Final answer: Right turn lane length = 100 foot taper plus 290 feet full width lane = 390 feet.

Full width lane = 12 feet for 45 mph road.

RE: Parcel Identification Number 07-11-31-7033-0RP0F-0030
Red Mill Point, LLC

To Whom It May Concern:

Red Mill Point, LLC, a Florida limited liability company is the owner of approximately 35.41 acres located West of Rymfire Drive and East of N. State Street as further described on the attached **Exhibit "A".**

Currently, the owner has an application, application number #6212, into the City of Palm Coast to rezone the property from MFR-1 to MPD. Currently, the property has an approved Development Order with a Master Site Plan that was previously approved for 216 multifamily units. The intent of the application is to change the property's proposed ownership structure from multifamily condominiums to platted townhouse lots. The proposed MPD rezoning will cap the density to match the already approved 216 units approved by Technical Site Plan application number #4996. This request is subject to approval by the City Council, and has tentative public hearing dates scheduled as follows:

Planning and Land Development Regulation Board: August 19,2026 at 5:30pm.
City Council – First Reading: October 6, 2026 at 6pm.
City Council – Second Reading: October 20, 2026 at 9am.

As required by City Code, we will be having a neighborhood meeting on **Tuesday, July 14, 2026, 2026 at 6:00 p.m. at the Cafeteria (Building #3) of Rymfire Elementary School, 1425 Rymfire Drive, Palm Coast, Florida 32164** (see attached **Exhibit "B"** with directions on how to enter the school) to answer any of your questions. It is open to the public.

Sincerely yours,

Michael D. Chiumento III

MEMORANDUM

TO: **CITY OF PALM COAST**

FROM: **MICHAEL D. CHIUMENTO III**

RE: **NEIGHBORHOOD MEETING SUMMARY/CONCERNS RAISED BY RESIDENTS**
RED MILL POINT, LLC
APPLICATION #6212

DATE: **JULY 21, 2026**

On Tuesday, July 14, 2026, we held the required neighborhood information meeting for the above referenced application. During the community meeting, residents identified the following primary concerns regarding the proposed development:

1. **Traffic**
   - Increased overall traffic volume.
   - Safety and operational concerns at nearby intersections.
   - Traffic conflicts involving nearby schools, including student and pedestrian safety.
2. **Environmental Impacts**
   - Protection of wetlands located on the property.
   - Preservation of existing vegetation, lakes, and other natural features.
3. **Density**
   - Opposition to the proposed number of residential units.
   - Requests that the overall density of the development be reduced.
4. **Dog Park**
   - Opposition to the inclusion of the proposed dog park.
5. **Discriminatory Comments**
   - One or more comments were made expressing opposition based on the race or skin color of prospective residents. These comments are noted solely as part of the meeting record and are not legitimate land-use considerations.
6. **Stormwater and Drainage**
   - Concerns regarding drainage.
   - Potential flooding impacts on adjacent properties.

7. **Property Values**
    - Concerns that the development could negatively affect surrounding property values.
8. **Employment and Commuting**
    - Concerns regarding additional population and increased commuting traffic associated with new residents traveling to work.
9. **Public Infrastructure**
    - School capacity and the ability of local schools to accommodate additional students.
    - Capacity of the wastewater (sewer) system.
    - Capacity and availability of potable water service.

This summary reflects the principal topics raised during the community discussion and is intended to identify the issues most frequently expressed by attendees. Attached please find the sign-in sheet from the meeting.

Subject: RE: Red Mill point

Good afternoon ma'am,

Thanks for your inquiry regarding the Red Mill Point MPD rezoning project. This MPD rezoning application is conceptual in nature and affects the underlying zoning of the land, if approved the applicant would then need to submit for a plat application to actually create the individual tracts and lots for the project.

Please see the embedded answers to your questions/statements below in *Italicized Red* text and the attached documentation as requested.

Have a great day.

Sent from my Galaxy

Sir after the meeting we spoke briefly. I understand you weren't anxious to answer my questions directly as you don't know me. *The neighborhood meetings are required by LDC Section 2.05.02 for the applicant/developer to host the meeting and discuss their projects with the neighbors. My place at them as staff is to answer process related questions pertaining to the rezoning application. I'm not sure exactly what questions you have in particular as I spoke with a number of residents that asked me questions that I assumed I had answered each question as it relates to the City.*

As a resident of this city of over 20 years I am concerned about the impact this development will cause. Personally I found all three of you evaded directly answering the questions asked. *As I mentioned, my role was to answer process related questions for the logistics of the rezoning application, and give dates for upcoming meetings, which I did during the meeting. Any technical related questions would pertain to the applicant/developer for their request as the project is an applicant requested application. That said you're more than welcome to attend any of the public hearings that are tentatively scheduled (I say tentatively as the applicant will have to complete public notice requirements found in LDC Sec. 2.05.03 prior to their items being heard) on:*

- *August 19th, 2026, for the Planning and Land Development Regulation Board at 5:30pm.*
- *October 6th, 2026, for City Council 1st Reading at 6pm.*
- *October 20th, 2026, for City Council 2nd Reading at 9am.*

Each of these meetings will be at the City Council Chambers at 160 Lake Avenue, Palm Coast, FL 32137. Additionally, if you are unable to physically attend, you can prepare written public participation that can be sent to PLDRB@palmcoastgov.com for the Planning Board meeting, or CityClerk@palmcoastgov.com for the City Council meetings. We ask that any public participation emailed in, be sent at least 24 hours before the public hearing to give time for the recording secretary to ensure that it is with the application's file so that the appointed and elected officials can see it. Additionally, both the Planning Board and City Council meetings can be streamed online at the City's YouTube Channel live or after the meetings so if you'd like to watch and unable to attend, or if you attend and wanted to go back and see it again.
Agendas for these meetings will be posted at Planning and Land Development Regulation Board Meetings and City Council Meetings, when they are available, approximately a week before the item is scheduled to be heard.

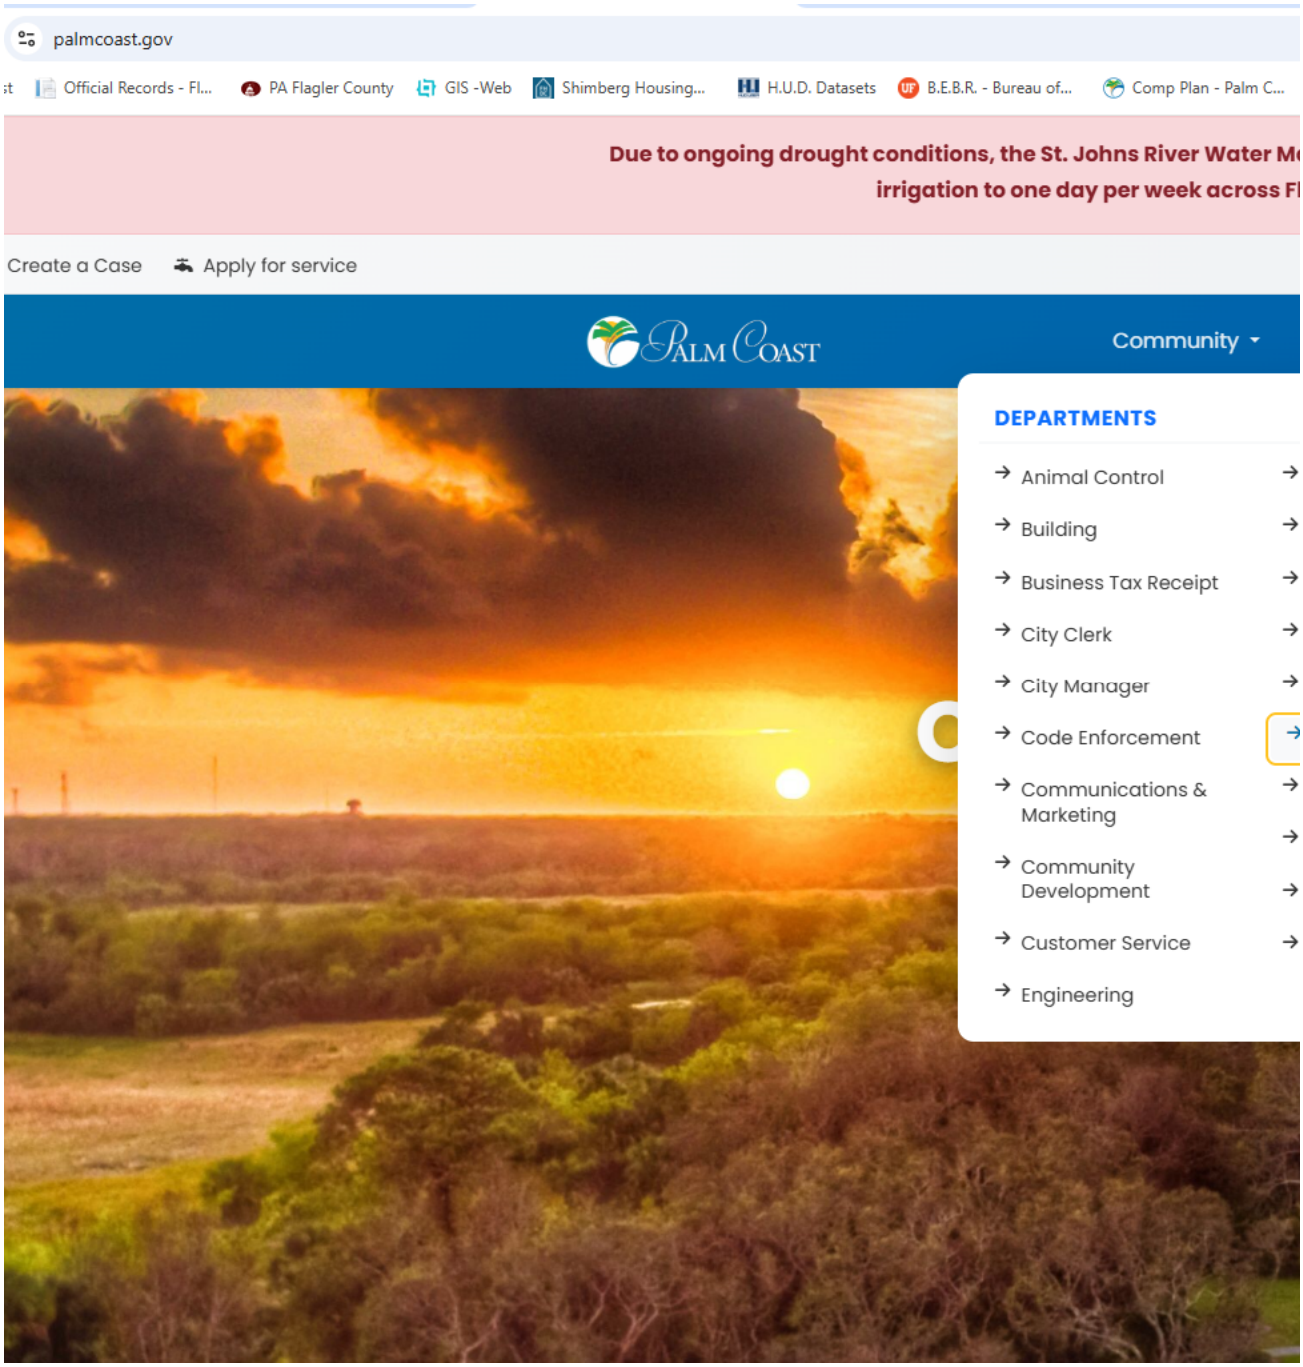
Upon reviewing the package we were given, several. Items disturb me. *Questions relating to the packet of slides the developer provided should be directed to the applicant Michael Chiumento (michael3@legalteamforlife.com) or the development manager Chuck Thompson (cthompson@northportusa.com) as that document was prepared by the developer for the purposes of the neighborhood meeting.*

First this so called study is several years old. The 2 lakes aren't shown as the resident stated. *I'm not entirely sure what the individual meant when he said "two lakes", there is a canal system on the rear boundary of the*

property. Here's a screenshot of a recent aerial map showing the subject property highlighted in a light blue-teal color.

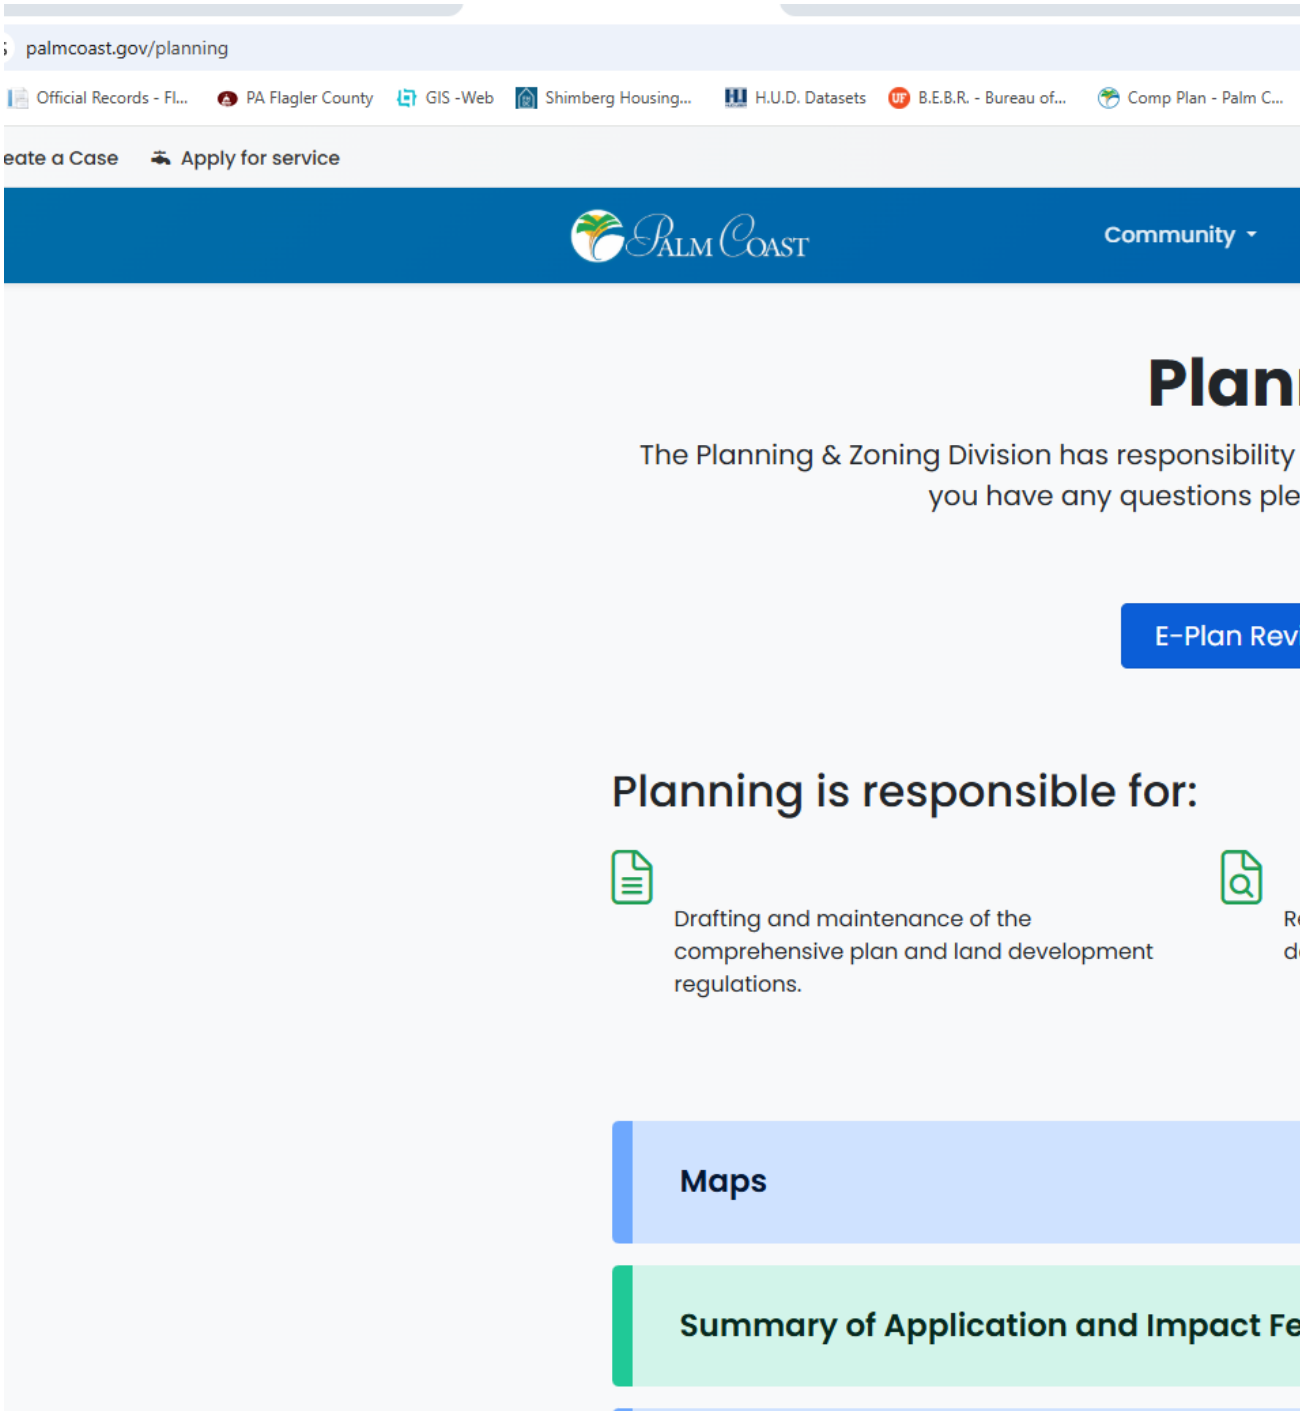
Second. Where is last years traffic study , as indicated in the packet *Please see attached Transportation Impact Analysis (TIA) to this email, this is a 14mb sized file, so if it doesn't come through on the email to you let me know and I'll provide an alternative route for you to get access to it.*

Third. Has an environmental study been done. If so where is it . Has anyone considered the additional pollution from 400 more vehicles. Flooding sewage . Again the gentleman who works for the developer hedged his answer. *Please see the attached Environmental Assessment (EA) and UMAM Scores sheets.*



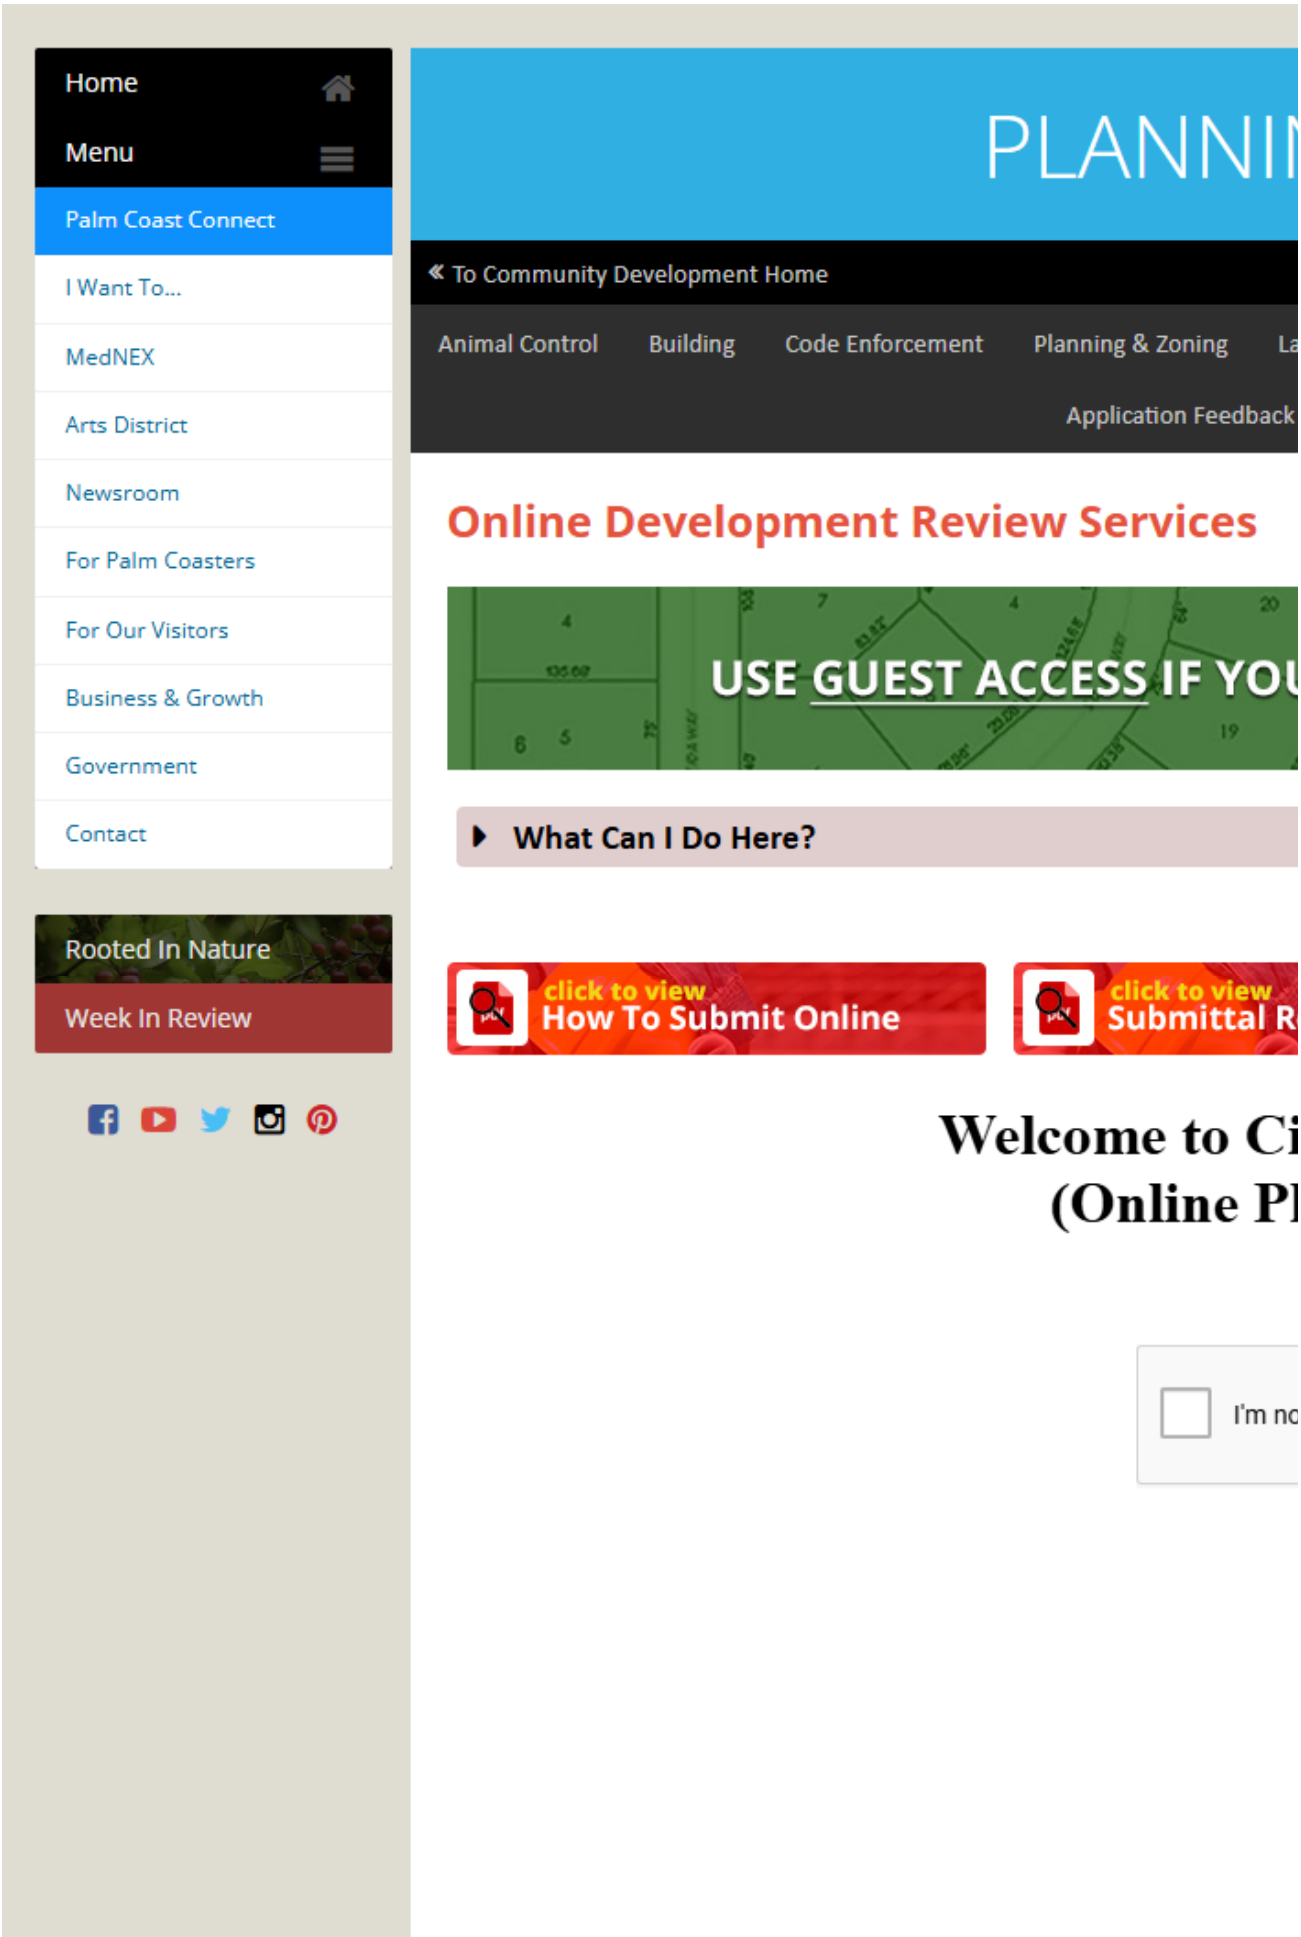
Fourth. The so called dog park public area should not be infront ofthe development. If a dog park will be built, let it be inside the complex *The applicant's intent for the dog park is to provide a public benefit, as the*

concept plan shows the design is for people walking along Red Mill Drive or from within the project to walk to access the proposed dog park. Locating the proposed dog park interior of the site would likely have the affect of it having no outside utilization as it would not be visible. Ultimately the design is up to the developer as long as it meets the code requirements, so it may be more practical to reach out to the applicant/developer on its potential location.

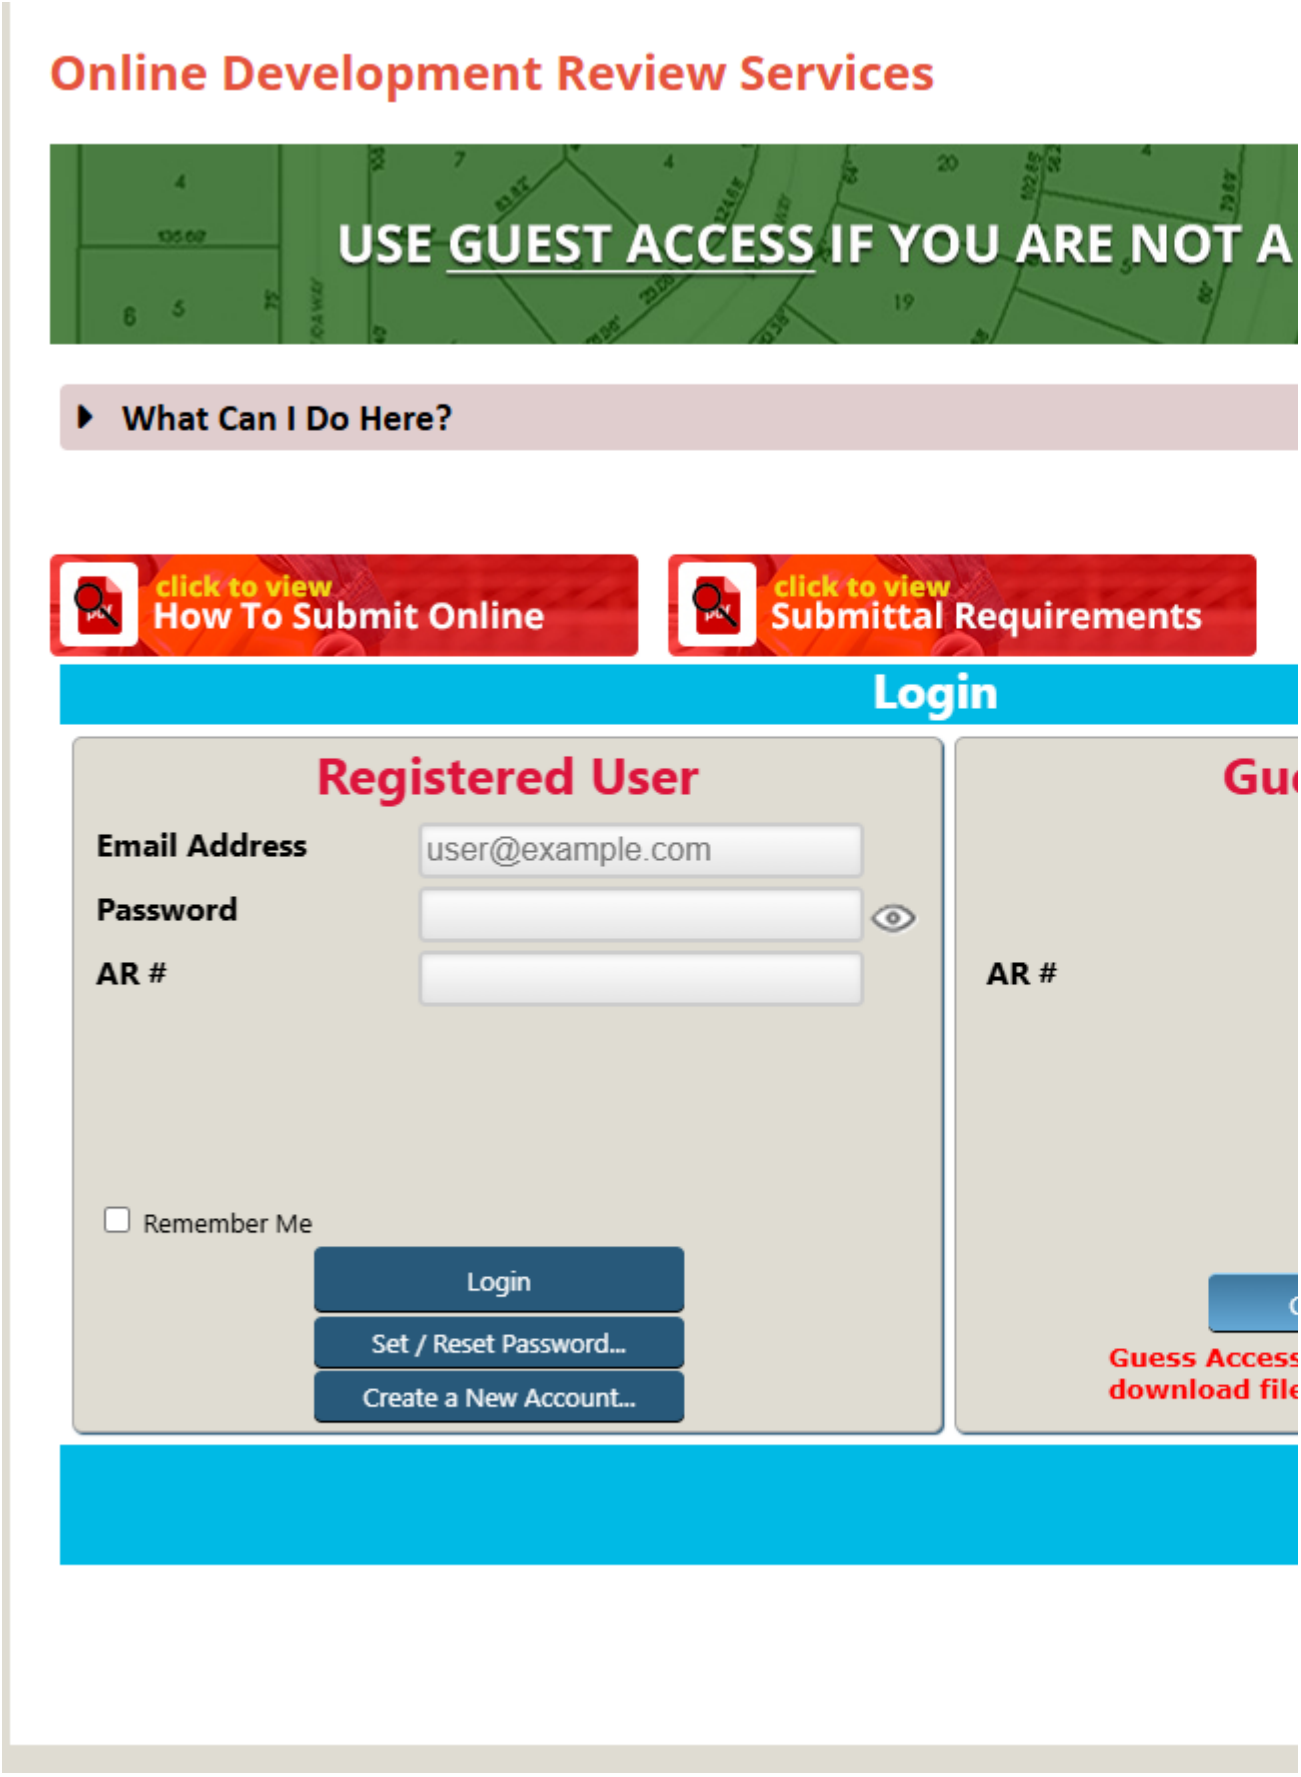


Fifth The access and egress on Red Mill is unacceptable, as residents who live directly across or down the street will be hampered by all the cars delivery trucks etc, entering any exiting the development. *Red Mill Drive is the only road available to the subject property as it is bordered by Red Oak Place to the north, Regency Drive to the south, and the existing canal system to the east. Please note that the access points were previously approved during the project's previous approval by City Council when it was being considered as a multi-family residential development. Developments with 100 or greater units are required to have two points of access from the project.*

As a resident, I am now requesting you to forward to me any and all recent surveys and studies done, as the packet didn't include them. We have every legal right to read and review these studies, and I would appreciate them prior to the August planning meeting. *Due to the size of all the applicant's submitted files, they will not all fit through an email, so I'll provide you with step-by-step instructions on how to access the requested documents yourself as a member of the public….*



1. *Navigate an internet browser to the City's Home Page.*
2. *From there, hover your mouse over Departments and click on "Planning and Zoning"*



3. *On the Planning and Zoning webpage, click on "E-Plan Review"*

4. *Click on the "I'm not a robot" button*

5. *Type in the Redmill Point Project's AR# of 6212 into the box under Guest Access, then click on "Continue as Guest"*

6. *On the next page, they'll be a pop-up that says the attached files may be under review and are not approved. Click on the "OK" button*

Online Development Review Services

7. *From here you can click on "Attachments" to see all the documentation submitted through the E-Portal system by the applicant and view it on your own computer or save copies of files. Please note that newer documents appear towards the end of the submitted documents. There are blue colored arrows to navigate through the pages of submitted files.*
8. *Additionally, you can review project Comment Letters or Application Deficiency Letters (which they had to address to move on in the review process.*

This development will not only devalue the homes directly across and down the streets . It will overload a street that cannot handle the extreme additional traffic, and God knows how the environment will be affected.

Your cooperation in providing myself and others with the above data is appreciated. *You're most welcome. At the end of the day, we're here to safeguard the public trust, however, we are bound to act within the confines of State Statute, the Comprehensive Plan, and our Land Development Code. As a reminder the applicant already has a current development order approving 216 multifamily units (approved by City Council at their meeting on January 4th, 2022 – and the development order has been extended to get them to the current application request). The current request does not increase the density of the previous approval, but would allow the approved units to be platted to be fee-simple lots and owned by the individuals living in them rather than as rental properties.*

If you have questions or can't provide me with the data requested, please contact me at
386 986 0008

Thank you
Barbara RonsSmith

CONCLUSIONS OF LAW

The Development Approval sought is consistent with the *City of Palm Coast Comprehensive Plan* and will be developed consistent with and in compliance to applicable land development regulations and all other applicable regulations and ordinances as set forth in the Code of Ordinances of the City of Palm Coast.

The Owners have expressly agreed to be bound by and subject to the development conditions and commitments stated below and have covenanted and agreed to have such conditions and commitments run with, follow, and perpetually burden the afore described property.

ORDER

NOW, THEREFORE, IT IS ORDERED AND AGREED THAT:

(1) The afore mentioned application for Development Approval is **GRANTED**.

(2) All development of the property shall fully comply with all of the codes and ordinances in effect in the City of Palm Coast at the time of issuance of a development order and/or development permit, including but not limited to, all impact fee ordinances.

(3) Issuance of a Development Permit or Development Order by a municipality does not create any right on the part of an applicant to obtain a permit from a state or federal agency and does not create any liability on the part of the municipality for issuance of the permit if the applicant fails to obtain requisite approvals or fulfill the obligations imposed by a state or federal agency or undertakes actions that result in a violation of state or federal law.

(4) The conditions upon this development approval and the commitment made as to this development approval, which have been accepted by and agreed to by the Owner of the property is as follows:

PLENG - PLANNING ENGINEER
Comments:
Marked INFORMATION By: DENNIS R. LEAP, P.E. - (386)986-2482 - DLEAP@PALMCOASTGOV.COM
Sidewalk Fund Contribution (Informational Comment)
1. The contribution to the sidewalk fund is $51,226. The fee is based on the frontage along Red Mill Drive of 1,563.6 LF – 100 LF for the driveway widths = 1,463.6 LF for sidewalk fund length. The sidewalk fund contribution is $35/LF * 1,463.6 LF for sidewalk fund length = $51,226 for total sidewalk fund contribution. The payment into the sidewalk fund would be required prior to issuance of the Site Development Permit.

(5) This Development Order touches and concerns the afore described property and the conditions, commitments and provisions of this Development Order shall perpetually burden, run with and follow the said property and be a servitude upon and binding upon said property unless released in whole or in part by action of the City of Palm Coast by virtue of a document of equal dignity herewith. The Owners have expressly covenanted and agreed to this provision and all other terms and provisions of this Development Order.

(6) The terms and provisions of this Order are not severable and in the event any portion of this Development Order shall be found to be invalid or illegal then the entire Development Order shall be null and void.

(7) The Development Order shall remain valid for a period of twelve (12) months from the date of issuance. If construction has not commenced or is not continuing in good faith to conclusion during this valid period, this Development Order will expire. The Development Order

Unofficial Copy

may be extended, upon request, during the period of three (3) months before the expiration of the valid period. Staff may approve an extension not to exceed twelve (12) months. A maximum of three (3) extensions may be granted provided the development has a valid Certificate of Concurrency.

(8) No construction of any TYPE shall commence until a mandatory pre-construction meeting has been conducted with City Staff.

(9) Utility fees and applicable agreements shall be executed prior to issuance of a Site Development permit.

(10) All required federal, state, county, and/or local permits shall be acquired prior to construction.

(11) All projects located in Special Flood Hazard Area "A" or "AE" zone(s) shall meet Chapter 10.02, Unified Land Development Code and Chapter 15, Code of Ordinances regarding Flood Damage Protection regulations. These building(s) and associated utilities will require elevation certificates at all three stages (construction drawing, building under construction and final construction) at building permit.

(12) This Development Order satisfies the concurrency requirements for transportation, parks & recreation and fire. This Development Order is limited to the land uses and associated development as listed below:

Description: Multi-Family Apartments; Unit Amount: 216

Concurrency shall remain valid with the life of this Development Order.

Unofficial Copy

Done and Ordered on the date first written above.
As approved and authorized for execution by the
City of Palm Coast staff, through administrative review.

Subject: ORDINANCE 2026-XX LAKEVIEW ESTATES COMPREHENSIVE PLAN AMENDMENT APPLICATION # 5576

Presenter: **Michael Hanson, A.I.C.P, Senior Planner**

Attachments:

1. Power Point Presentation
2. Ordinance
3. Staff Report
4. Business Impact Estimate
5. Map Series
6. Applicant Cover Letter, Application, Corp ID, Owner Authorization
7. Applicant FLUM Analysis, FLUM Traffic Report, Environmental Report
8. Boundary Survey, Title Opinion Tract 9
9. Public Notice Documentation
10. Recorded Lakeview Estates MPD Ordinance

Original Background:

Request: This Future Land Use Map (FLUM) amendment has a companion Master Planned Development (MPD) Agreement amendment requesting the subject ±20-acre site be rezoned to permit General Commercial (COM-2) uses limited to a maximum height of 35 feet. Additionally, the COM-2 uses will be limited to not permit special exceptions for mini-warehouses, office warehouses, or self-storage on the site. The MPD amendment also requests changes to other tracts within the MPD which do not affect the FLUM amendment.

Michael Chiumento III of Chiumento Law, as agent for Matanzas GC Palm Coast LLC, is proposing to redesignate a ±20-acre portion of vacant land located on the east side of US Highway 1, approximately ±3,300 feet north of its intersection with Matanzas Woods Parkway from Greenbelt to Mixed Use in order for the applicant to develop a ±20 acre portion of Tract 9 for commercial uses.

Background: This property was previously developed and operated as part of the now defunct Grand Club Matanzas Golf Course, which permanently closed in 2007. At that time the property was zoned MPD with land designated as Greenbelt or Conservation. The current property owner purchased the former golf course in 2019. In January 2021, the City Council approved the Lakeview Estates Master Planned Development Agreement during a public hearing. The overall development (±280.6 acres) was assigned residential entitlements for 272 dwelling units under the Greenbelt designations density of one dwelling unit (du) per acre, and ±8.3 acres of institutional uses (meeting the Public Semi-Public zoning district) on Tract

9 after an environmental assessment reduced ±4.3 acres of potential land to be conserved to ±0.2 acres.

Since then, the developer has received approvals for 200 single-family residential units in Tract 1; 12 single-family residential units scattered on Tract 1, 2, 4, and 7; and most recently 9 single-family residential units on Tract 10. This results in the overall project maintaining residential entitlements for 51 dwelling units.

In 2024, the applicant requested the proposed FLUM amendment and companion MPD amendment. The proposed FLUM amendment would redesignate a ±20-acre portion of Tract 9 to Mixed Use. Mixed use allows a density of 15 du per acre. It is advisable to include a site specific limiting policy to ensure that the FLUM amendment does not create more density for the overall development than currently permitted. With this in place, and the development of the 20-acre tract as commercial uses, the remaining overall density entitlement for the project will be 39 du per acre.

This application has taken a significant amount of time as staff waited on multiple resubmittals from the applicant in order to make a complete application. Staff had originally requested a Transportation Impact Analysis (TIA) for the FLUM amendment area, which the applicant has requested through City Administration the ability to defer submitting the TIA until the Technical Site Plan application to develop Tract 9 for commercial uses. In place of the analysis that the TIA would bring, the applicant has requested a site specific limiting policy that caps the maximum daily trips of the subject area to what is currently allowed by the most intense use allowed in the Greenbelt FLUM designation.

The applicant hosted a neighborhood meeting as required by Unified Land Development Code (LDC) Section 2.05.02 at 5:30 p.m. Tuesday April 14th, 2026, in the cafeteria of Indian Trails Middle School. The applicant also met the public notice requirements of LDC Section 2.05.03. The neighborhood meeting had approximately 125 attendees. Since then, staff has been contacted by several of the surrounding residents with clarifying questions about the applicant's requests.

<u>Proposed Comprehensive Plan Text Amendment:</u> To facilitate the requested map amendment while protecting infrastructure capacity, staff recommends the adoption of the following site-specific limiting policy to the Future Land Use Element (FLUE): Policy 1.1.2.5 - For the 20-acre portion of Tract 9 of Lakeview Estates MPD, identified as Parcel ID No. 07-11-31-7037-0RP0A-0002 and legally described in Ordinance 2026- XX, designated as Mixed Use on the Future Land Use Map, development shall be subject to the following limitations:

1. Intensity Cap: Non-residential development shall generate no more than 1,815 PM Peak Hour trips, as determined by the latest edition of the ITE Trip Generation Manual and be capped in building height to no higher than 35 feet.
2. Density Cap: Residential density shall be capped to producing no more than one dwelling unit per acre.

<u>Planning and Land Development Regulation Board Meeting:</u> The Planning and Land Development Regulation Board (PLDRB) heard the Comprehensive Plan Amendment, application #5576, and its companion MPD Amendment, application #5575, at their May 20, 2026 meeting.

During the evening, the PLDRB unanimously approved a motion to delay public comment on the Comprehensive Plan Amendment until after the companion MPD Amendment, application #5575, had been presented to the PLDRB as well. 10 members of the public spoke in opposition to the proposed Comprehensive Plan Amendment and MPD Amendment.

The PLDRB voted five to one in favor of recommending approval of the Comprehensive Plan Amendment subject to the concurrent adoption of staff's draft FLUE Policy 1.1.2.5 serving as a site specific limiting policy capping the intensity and density of the 20-acre portion of Tract 9 of the Lakeview Estate MPD. The PLDRB voted six to zero in favor of recommending denial of the MPD Amendment subject to criteria analysis of LDC Section 2.05.05A finding the application contrary to public interest based on compelling evidence presented by the public during public comment in addition to analysis of LDC Sections 3.03.04.J1 and 3.03.04.J2.

City Council First Read: City Council heard this item at its September 1st meeting, and it was continued until the September 15th meeting. City Council voted to approve the Comprehensive Plan Amendment with a vote of three to one. Four members of the public spoke at the September 1st meeting, and two members of the public spoke at the September 15th meeting.

Updated Background: No changes to the Comprehensive Plan Amendment.

This is a Quasi-Judicial Item, please disclose all ex-parte communication.

Recommended Action:
THE PLANNING AND LAND DEVELOPMENT REGULATION BOARD RECOMMENDS THAT CITY COUNCIL FIND APPLICATION #5576 CONSISTENT WITH THE COMPREHENSIVE PLAN AND APPROVE THE COMPREHENSIVE PLAN AMENDMENT FROM GREENBELT TO MIXED USE, SUBJECT TO THE CONCURRENT ADOPTION OF FLUE POLICY 1.1.2.5 LIMITING THE SITE'S DEVELOPMENT POTENTIAL.

City Council
Public Hearing

Lakeview Estates
FLUM and MPD Amendment
AR # 5575 & 5576

Revised 10/8/2026

Lakeview Estates
Future Land Use Map Amendment
Analysis and Recommendation
AR # 5576

Future Land Use Map Amendment

Findings Summary

- Public facilities are available to accommodate the impact of the FLUM amendment,
- Environmental standards for development will need to be met,
- Requested FLUM designation is consistent with the surrounding land use and development pattern,
- Requested FLUM is appropriate on US -1,
- The FLUM amendment is consistent with various policies of the Comprehensive Plan

PALM COAST

Future Land Use Map Amendment

Recommendation

The Planning and Land Development Regulation Board recommends that City Council find Application #5576 consistent with the Comprehensive Plan and approve the FLUM amendment from Greenbelt to Mixed Use, subject to the concurrent adoption of FLUE Policy 1.1.2.5 limiting the site's developmental potential.

PALM COAST

MPD Amendment

Project Amendments

The property owner, using clustering provisions of the LDC, the overall acreage of the project, and a field verified conservation area of ±0.2 acres ended up with residential entitlements of ±272 dwelling units (du). To date, 221 lots have received varying levels of approval (Preliminary and Final plats) between Tracts 1, 2, 4, 7, and 10 resulting in the project retaining 51 residential entitlements. The applicant's requested MPD DA Amendment relies on the potential approval of their requested FLUM amendment and has the effect of reducing the remaining residential entitlements from 51 du to 39 du due to the planned development of ±20 acres of COM-2 uses on Tract 9.

- The applicant is proposing to site the remaining 39 residential entitlements on Tract 3, these lots will likely be designed to be ±10,000 square feet or larger to make use of their proposed language for recreational vehicle garages, but at a minimum size lots meeting the Unified Land Development Code (LDC) requirements of the SFR-2 zoning district, which requires 7,500-square-foot lots which are compatible with the existing platted single-family residential lots found on nearby Lee Drive.
- The DA provides language for siting additional stormwater retention ponds in Tracts 3, 6, and 7, which supports the City's recent effort to add additional stormwater retention in the area by vacating Learning Lane and Leaf Lane.
- The applicant is also requesting to amend the allowed use on tract 8 to convey the City a site for a future City park at no cost and not subject to park impact fee credits.

Updated for 9.15 Council Meeting

MPD Amendment

MPD DA Changes

9-1 to 9-15 versions

Following the City Council Meeting on 9/1/2026 the applicant has modified the proposed MPD Development Agreement Amendment and associated exhibits.

1. City Community Park: The applicant has added language to ensure the owner shall demonstrate that arsenic levels on Tract 8 are under limits for human occupation as regulated by Federal, State, and Local regulations prior to conveyance of the Tract to the City.
2. Project Description: Now includes a line providing the to date utilization of the residential entitlements (221) and remaining balance (39, assuming the FLUM amendment is approved).
3. Tract utilization table for Tract 9 is also updated to limit commercial uses to a cap of 250,000 square feet (SF) of development, and provides a new exhibit (Exhibit “C” to the MPD which provides clarification on the COM-2 uses the applicant is seeking.
4. Text for Tract 3 has been reworded to clarify that potential development on Tract 3 shall maintain a minimum 50-foot View Protection Zone (VPZ), and ensures that the VPZ may not be cleared during development of the tract.

Changes continue on next slide.

PALM COAST

Updated for 9.15 Council Meeting

MPD Amendment

MPD DA Changes

9-1 to 9-15 versions

5. Text for Tract 9 has been reworded to reference the intensity cap of 250,000 SF. Additionally, language has been provided to allow for potential waiver reductions to the landscaping buffers adjacent to US-1 and parking requirements. Such waivers are worded to follow existing LDC requirements for landscape betterment plans (approved by PLDRB), or parking flexibility studies based on Institute of Traffic Engineers' Parking Manual (administratively approved by the LUA in the LDC). These potential waivers are designed to ensure that the 100' VPZ on Tract 9 is maintained.
6. Section 4 – 13 added.

   "Prior to filing any application for development of Tract 3 or Tract 9, the Owner shall either (1) place a conservation easement over portions of the Subject Property prohibited from being developed ("Undeveloped Property") with the terms of such easement in a form acceptable to the City's LUA or (2) convey the Undeveloped Property pursuant to a mutually agreeable purchase and sale agreement approved by the LUA."

MPD Amendment

MPD DA Changes 10-20 version

2. Section 4 – 14 added.

"Existing vegetative screening in all View Protection Zones (VPZ) shall be maintained in perpetuity with no land clearing activities, except for those deemed necessary by the City for emergency services. Any other clearing activities within the VPZ is prohibited. In the event of any non-exempted clearing activities occurs, the property owner shall be required to replant the VPZ with a like for like replacement based on the diameter inches of trees cleared, with minimum replanting of trees of at least six (6) inches in diameter at breast height (dbh). The Land Use Administrator shall have approval of replacement species and spacing. Any tree replacement within a VPZ shall be made using native drought tolerant species. Further, tree removal or land clearing activities within the VPZ that are not exempted per this subsection shall be subject Code Enforcement action as prescribed in the City's Code of Ordinances, including administrative fines and liens as outlined in Section 2-211 of the Code of Ordinances, with fines accruing at a rate of $1,000 per day for first violation, and $5,000 per day for subsequent violations, until such violations are resolved."

PALM COAST

MPD Amendment

View Protection Zones – LDC Sec. 3.03.04(J)

The term and utilization of VPZ was established within the Lakeview Estates MPD DA that was adopted in 2021 to be consistent with the Land Development Code regulations related to development in former GCC Districts.

Section 3.03.04(J) of the LDC provides the following redevelopment criteria:

J. *Existing golf course communities. Existing golf courses communities located within the former Golf Course Communities (GCC) District seeking to add residential units must comply with the standards established for the Master Planned Development (MPD) District. In addition, the development shall utilize the following guidelines in order to minimize adverse impacts on any abutting single-family residentially zoned areas.*

1. *Existing direct golf course views from the rear yards of all existing, platted lots located within any residentially zoned districts directly abutting the site shall be maintained. Peripheral (i.e. side) views from these existing rear yards may be impacted by new development and new development may be visible from existing development.*

2. *Existing golf course views from existing platted lots located within any residentially zoned area located across a right-of-way or a water body from the site shall be maintained to the maximum extent practical.*

3. *Multifamily uses shall be surrounded by fairways, clubhouse, and/or other golf course facilities to buffer single-family areas within the same development. The multifamily uses shall not be located within 150 feet from any existing, platted lots located within a residentially zoned area.*

Palm Coast

MPD Amendment

LDC Sec. 2.05.05 Criteria Analysis

A. *The proposed development must not be in conflict with or contrary to the public interest;*
B. *The proposed development must be consistent with the Comprehensive Plan and the provisions of this LDC;*
C. *The proposed development must not impose a significant financial liability or hardship for the City;*
D. *The proposed development must not create an unreasonable hazard, or nuisance, or constitute a threat to the general health, welfare, or safety of the City's inhabitants;*
E. *The proposed development must comply with all other applicable local, state and federal laws, statutes, ordinances, regulations, or codes.*

PALM COAST

A. The proposed development must not be in conflict with or contrary to the public interest;

MPD Amendment

LDC Sec. 2.05.05 Criteria Analysis

- The proposed MPD amendment ultimately would reduce the remaining residential entitlements from 51 to 39 remaining du on the subject property as ±20 acres would be slotted for commercial development adjacent to US Highway 1.
- The conveyance of Tract 8 as a City park site without requiring the City to buy the land or for park impact fee credits is a benefit to the neighborhood.
- The proposed residential uses on Tract 3 adjacent to Lakeview Boulevard are likely the most significant impact to the surrounding neighborhood; however, the minimum sizes of the proposed residences would match the existing residential neighborhood's zoning of SFR-2.
- The applicant's request to be able to site recreational vehicle garages as an accessory use on any residential lot 10,000 or more square feet has the potential to reduce the need of residents with recreational vehicles or boats from having to utilize private off-site storage options.
- The neighborhood meeting did have ±125 individuals attend, so there is clearly a vested interest by the public in the proposed MPD DA amendment; however, due to the nature of the neighborhood meeting and its technical limitations, it is difficult to gauge consensus on the public's interest.

Palm Coast

B. The proposed development must be consistent with the Comprehensive Plan and the provisions of this LDC;

MPD Amendment

LDC Sec. 2.05.05 Criteria Analysis

The request is consistent with the Comprehensive Plan. However, its staff's opinion that the applicant's request is not totally consistent with the following sections of the Unified Land Development Code (LDC):

- ***Section 3.03.04.J.1.*** *Existing direct golf course views from the rear yards of all existing, platted lots located within any residentially zoned districts directly abutting the site shall be maintained. Peripheral (i.e. side) views from these existing rear yards may be impacted by new development and new development may be visible from existing development.*
- ***Section 3.03.04.J.2.*** *Existing golf course views from existing platted lots located within any residentially zoned area located across a right-of-way or a water body from the site shall be maintained to the maximum extent practical.*

Palm Coast

C. The proposed development must not impose a significant financial liability or hardship for the City;

MPD Amendment

LDC Sec. 2.05.05 Criteria Analysis

- Potable water and sewer services are available to serve the project.
- Through the development review process, further analysis of the development impact on public infrastructure will be completed.

D. The proposed development must not create an unreasonable hazard, or nuisance, or constitute a threat to the general health, welfare, or safety of the City's inhabitants;

MPD Amendment

LDC Sec. 2.05.05 Criteria Analysis

- The project already has approved residential entitlements to support a total of 272 du on the site. The proposed MPD Amendment reduces the overall density of the project area by reducing the residential entitlements 260 units. At this time 221 residential entitlements have been used. Additionally, it provides land for a public park site, and language to require emergency access to US Highway 1.
- At this time the proposed amendment does not create by itself an unreasonable hazard; however, during the platting process, City review staff shall evaluate the proposed project to ensure compliance with all applicable code requirements.

PALM COAST

E. The proposed development must comply with all other applicable local, state and federal laws, statutes, ordinances, regulations, or codes.

MPD Amendment

LDC Sec. 2.05.05 Criteria Analysis

- The subject property will be required to comply with the MPD Development Agreement, City's Land Development Code (LDC), Comprehensive Plan, and the requirements of all other applicable local, state and federal agencies throughout the development process.

MPD Amendment

LDC Sec. 2.09.04 Criteria Analysis

A. Consistency with all adopted elements of the Comprehensive Plan and whether it furthers the goals and objectives of the Comprehensive Plan.

B. Consistency with the general intent of the LDC.

C. Degree of departure of the proposed development from surrounding areas in terms of character and density/intensity.

D. Compatibility within the development and relationship with surrounding neighborhoods.

E. Adequate provision for future public education and recreation facilities, transportation, water supply, sewage disposal, surface drainage, flood control, and soil conservation as shown in the development plan.

F. The feasibility and compatibility of development phases to stand as independent developments.

PALM COAST

MPD Amendment

LDC Sec. 2.09.04 Criteria Analysis (continued)

G. The availability and adequacy of primary streets and thoroughfares to support traffic to be generated within the proposed development.

H. The benefits within the proposed development and to the general public to justify the requested departure from standard development requirements inherent in a Master Planned Development District classification.

I. The conformity and compatibility of the development with any adopted development plan of the City of Palm Coast.

J. Impact upon the environment or natural resources.

K. Impact on the economy of any affected area.

A. Consistency with all adopted elements of the Comprehensive Plan and whether it furthers the goals and objectives of the Comprehensive Plan.

MPD Amendment

LDC Sec. 2.09.04 Criteria Analysis

- The proposed application remains consistent with and will further the goals and objectives of the Comprehensive Plan.

B. Consistency with the general intent of the LDC.

MPD Amendment

LDC Sec. 2.09.04 Criteria Analysis

- The development standards in the MPD remain generally consistent with the standards established by the LDC.

C. Degree of departure of the proposed development from surrounding areas in terms of character and density/intensity.

MPD Amendment

LDC Sec. 2.09.04 Criteria Analysis

- The proposed changes will not cause the MPD Agreement to further depart from customary standards in the LDC.

D. Compatibility within the development and relationship with surrounding neighborhoods.

MPD Amendment

LDC Sec. 2.09.04 Criteria Analysis

- The proposed uses are similar to existing developments. The neighborhood of the Matanzas Woods area includes SFR-1, SFR-2, SFR-3 and MFR-1 zoning districts. The proposed development is compatible with those zoning districts. In addition, a neighborhood park is compatible with the residential uses found in the area. The height limitation on tract 9 and enhanced vegetative buffers within the VPZ areas help to ensure compatibility with the existing neighborhood. Furthermore, staff's VPZ recommendation helps to ensure compatibility with adjacent existing properties.

E. Adequate provision for future public education and recreation facilities, transportation, water supply, sewage disposal, surface drainage, flood control, and soil conservation as shown in the development plan.

MPD Amendment

LDC Sec. 2.09.04 Criteria Analysis

- As required by the LDC, future development applications will be analyzed in further detail to determine if there is adequate public infrastructure capacity to serve the development. Other public service needs will also be reviewed in more detail as the development review progresses. For example, future applications for development will require further environmental analysis, utility agreements, coordination with Flagler Schools, etc. before approval. The subject project will be required to pay applicable impact fees to accommodate its impact on the public infrastructure and services.

F. The feasibility and compatibility of development phases to stand as independent developments.

MPD Amendment

LDC Sec. 2.09.04 Criteria Analysis

- The developer has not shown any specific phasing of the project. However, various tracts within the MPD are situated where they can adequately be developed independently through the platting process.

G. The availability and adequacy of primary streets and thoroughfares to support traffic to be generated within the proposed development.

MPD Amendment

LDC Sec. 2.09.04 Criteria Analysis

- The applicant previously submitted a Transportation Impact Study when the application was heard in 2021 that demonstrated that all roadways within the study area with the project's traffic included will operate at the City's adopted level of service. This amendment reduces the overall density of the MPD and the applicant has requested a site-specific limiting policy to cap the amount of traffic on Tract 9 to what is currently allowed. The applicant did not provide an updated Transportation Impact Analysis (TIA) with this application after making a request to City Administration, so staff is unable to evaluate the proposed distribution on US Highway 1 for the ±20-acre commercial site. An updated TIA shall be required during the Technical Site Plan stage of Tract 9's commercial development for further review.

H. The benefits within the proposed development and to the general public to justify the requested departure from standard development requirements inherent in a Master Planned Development District classification.

MPD Amendment

LDC Sec. 2.09.04 Criteria Analysis

- The MPD DA amendment reduces residential density, provides additional stormwater, a City park site without cost to the City, and commercial uses along US Highway 1's expanding commercial corridor which could ultimately reduce trip ends to other areas of the City when developed. This project is consistent with the requirements of an MPD to provide a public benefit.

I. The conformity and compatibility of the development with any adopted development plan of the City of Palm Coast.

MPD Amendment

LDC Sec. 2.09.04 Criteria Analysis

- The request adds more commercially designated land to the City and results in a minor reduction of density of the MPD. The proposed uses are similar to the existing residential neighborhood and do not request a reduction in lot sizes from the existing adjacent neighborhood. The proposed height limitation helps ensure compatibility with the existing residential land uses, and although the VPZ areas are reduced in width from the approved MPD DA, the language for enhanced vegetative screening helps buffer existing land uses from those within the MPD.

J. Impact upon the environment or natural resources.

MPD Amendment

LDC Sec. 2.09.04 Criteria Analysis

- The landowners will be required to submit all applicable environmental reports or studies as required by the LDC during subsequent development. These studies will include environmental resource assessments, cultural resources, soil and groundwater analyses, stormwater calculations, floodplain analysis, and threatened and endangered species studies as applicable during the site plan or platting process for any new project within the MPD.

K. Impact on the economy of any affected area.

MPD Amendment

LDC Sec. 2.09.04 Criteria Analysis

- The residents that will inhabit these new homes will have a positive impact on State and local income including permit and impact fees, taxes, and other sources. The project will also provide a significant number of constructions jobs, which should have a positive direct and indirect impact on the local economy. Further the applicant's analysis of the commercial development at Tract 9 estimates that ±250,000 gross square feet could be developed which will enhance the City's nonresidential tax base.

MPD Amendment

Findings Summary

- Public facilities are available to accommodate the impact of the MPD amendment,
- The requested MPD amendment meets the developmental criteria of LDC Sections 2.05.05 and 2.09.04,
- The requested MPD amendment is generally consistent with the Comprehensive Plan and Unified Land Development Code.

MPD Amendment
PLDRB

- The Planning and Land Development Regulation Board (PLDRB) heard the Comprehensive Plan Amendment, application #5576, and its companion MPD Amendment, application #5575, at their May 20, 2026 meeting.

- During the evening, the PLDRB unanimously approved a motion to delay public comment on the Comprehensive Plan Amendment until after the companion MPD Amendment, application #5575, had been presented to the PLDRB as well. 10 members of the public spoke in opposition to the proposed Comprehensive Plan Amendment and MPD Amendment.

- The PLDRB voted five to one in favor of recommending approval of the Comprehensive Plan Amendment subject to the concurrent adoption of staff's draft FLUE Policy 1.1.2.5 serving as a site specific limiting policy capping the intensity and density of the 20-acre portion of Tract 9 of the Lakeview Estate MPD.

- The PLDRB voted six to zero in favor of recommending denial of the MPD Amendment subject to criteria analysis of LDC Section 2.05.05A finding the application contrary to public interest based on compelling evidence presented by the public during public comment in addition to analysis of LDC Sections 3.03.04.J1 and 3.03.04.J2.

PALM COAST

MPD Amendment Recommendation

The Planning and Land Development Regulation Board recommends that the City Council finds the proposed MPD Amendment (Application No. 5575) not consistent with the Comprehensive Plan and deny the application.

Next Steps

- The developer will be required to submit for a Technical Site Plan application prior to developing Tract 9 and will need to plat Tract 3.
- Depending on the gross square footage of development on Tract 9, it may be required to come back to either the PLDRB or City Council.

Staff is available for any questions and the applicant's team is in attendance.

Thank you.

ORDINANCE 2026-____
COMPREHENSIVE PLAN AMENDMENT TO
LAKEVIEW ESTATES APPLICATION 5576

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF PALM COAST, FLORIDA, PROVIDING FOR THE AMENDMENT OF THE CITY OF PALM COAST 2050 COMPREHENSIVE PLAN, AS AMENDED, PURSUANT TO SECTION 163, FLORIDA STATUTES; AMENDING THE FUTURE LAND USE MAP (FLUM) DESIGNATION FOR A ±20 ACRE PORTION OF TRACT 9 OF CERTAIN REAL PROPERTY DESCRIBED AS TAX PARCEL IDENTIFICATION NUMBER 07-11-31-7037-0RP0A-0002, GENERALLY LOCATED ON THE EAST SIDE OF US HIGHWAY 1 APPROXIMATELY ±3,300 FEET NORTH OF ITS INTERSECTION WITH MATANZAS WOODS PARKWAY AND BEING MORE PARTICULARLY DESCRIBED IN ATTACHED EXHIBIT A, FROM GREENBELT TO MIXED USE AND AMENDING THE FUTURE LAND USE ELEMENT PROVIDING A SITE-SPECFIC LIMITING POLICY CAPPING DENSITY AND INTENSITY; PROVIDING FOR SEVERABILITY, CODIFICATION, CONFLICTS, AND AN EFFECTIVE DATE.

WHEREAS, the City Council of the City of Palm Coast enacted Ordinance 2025-06, adopting the City *of Palm Coast 2050 Comprehensive Plan* which includes the City of Palm Coast Future Land Use Map (FLUM), which Plan and FLUM have been amended from time-to-time; and

WHEREAS, Section 163.3161 et seq., Florida Statutes established the Community Planning Act; and

WHEREAS, Section 163.3184, Florida Statutes, establishes a process for adoption of comprehensive plans or plan amendments amending the future land use designation of property; and

WHEREAS, MATANZAS GC PALM COAST LLC, a Florida limited liability company ("Owner") is the Owner of the property further described in "Exhibit A"; and

WHEREAS, the Owner is has requested to amend the future land use designation of the property described in Exhibit A from City of Palm Coast Future Land Use Designation of Greenbelt to City of Palm Coast Future Land Use Designation of Mixed Use; and

WHEREAS, the City of Palm Coast Planning and Land Development Regulation Board (PLDRB) acting as the City's Local Planning Agency, considered the proposed map

amendments at a public hearing on May 20, 2026, and voted to recommend Approval of the proposed Comprehensive Plan Amendment; and

WHEREAS, on September 1, 2026, and October 20, 2026 the City of Palm Coast City Council held public hearings on this Comprehensive Plan amendment after due public notice and upon thorough and complete consideration and deliberation, adopted the proposed Comprehensive Plan amendment; and

WHEREAS, the Comprehensive Plan amendments adopted by this Ordinance complies with the requirements of the Community Planning Act, the State Comprehensive Plan as set forth in Chapter 187, Florida Statutes, as well as other applicable law, and is consistent with the goals, objectives, and policies and the overall land use plan of the City's *Comprehensive Plan*; and

WHEREAS, the City Council of the City of Palm Coast hereby reaffirms its commitment to the goal of enacting and implementing sound growth management practices within the City; and

WHEREAS, the City Council of the City of Palm Coast finds that this Ordinance is in the best interests of the health, safety, and welfare of the citizens of Palm Coast.

NOW, THEREFORE, IT IS HEREBY ORDAINED BY THE CITY OF PALM COAST, FLORIDA, THAT THE FUTURE LAND USE MAP IS AMENDED AS FOLLOWS:

SECTION 1. LEGISLATIVE AND ADMINISTRATIVE FINDINGS. The above recitals (whereas clauses) are hereby adopted as the legislative and administrative findings of the City Council of the City of Palm Coast.

SECTION 2. FUTURE LAND USE MAP AMENDED. The ±20-acre portion of Tract 9 of certain real property described as tax parcel identification number 07-11-31-7037-0RP0A-0002, generally located on the east side of US Highway 1 approximately ±3,300 feet north of its intersection with Matanzas Woods Parkway and being more particularly described in attached Exhibit A, is hereby amended from the City of Palm Coast Future Land Use Designation of Greenbelt to the City of Palm Coast Future Land Use Designation of Mixed Use.

SECTION 3. FUTURE LAND USE ELEMENT SITE SPECIFIC LIMITING POLICY. The Future Land Use Element is amended to add Policy 1.1.2.5 - For the 20-acre portion of Tract 9 of Lakeview Estates MPD, identified as Parcel ID No. 07-11-31-7037-0RP0A-0002 and legally described in Ordinance 2026-XX, designated as Mixed Use on the Future Land Use Map, development shall be subject to the following limitations:

1. Intensity Cap: Non-residential development shall generate no more than 1,815 PM Peak Hour trips, as determined by the latest edition of the ITE Trip Generation Manual and be capped in building height to no higher than 35 feet.

2. Density Cap: Residential density shall be capped to producing no more than one dwelling unit per acre.

SECTION 4. SEVERABILITY. If any section, subsection, sentence, clause, phrase or provision of this Ordinance is held to be unconstitutional or otherwise invalid by a court of competent jurisdiction, such unconstitutionality or invalidity shall not be construed as to render unconstitutional or invalid the remaining provision of the Ordinance.

SECTION 5. CODIFICATION. It is the intention of the City Council of the City of Palm Coast, Florida, and it is hereby ordained that the provisions of this Ordinance shall become and be made a part of the Code of Ordinance of the City of Palm Coast, Florida; that the Sections of this Ordinance may be renumbered or re-lettered to accomplish such intention; that the word, "Ordinance" may be changed to Section," "Article," or other appropriate word.

SECTION 6. CONFLICTS. All ordinances or parts of ordinances in conflict herewith are hereby repealed.

SECTION 7. EFFECTIVE DATE. The effective date of this plan amendment, if the amendment is not timely challenged, shall be 31 days after the state land planning agency notifies the local government that the plan amendment package is complete. If timely challenged, this amendment shall become effective on the date the state land planning agency or the Administration Commission enters a final order determining this adopted amendment to be in compliance. No development orders, development permits, or land uses dependent on this amendment may be issued or commence before it has become effective. If a final order of noncompliance is issued by the Administration Commission, this

amendment may nevertheless be made effective by adoption of a resolution affirming its effective status, a copy of which resolution shall be sent to the state land planning agency.

APPROVED on first reading this 15th day of September 2026.

ADOPTED on second reading after due public notice and hearing this 20th day of October 2026.

LEGAL DESCRIPTION

A PORTION OF RESEVED PARCEL "C", LAKEVIEW – SECTION 37 PALM COAST PARK AT PALM COAST, AS RECORDED IN MAP BOOK 13, PAGES 1 THROUGH 29 INCLUSIVE, PUBLIC RECORDS OF FLAGLER COUNTY, FLORIDA, BEING MORE PARTICULARLY DESCRIBED AS FOLLOWS:

FROM A POINT OF BEGINNING, BEING THE NORTHWEST CORNER OF SAID RESERVED PARCEL "C" (SAID POINT BEING LOCATED ON THE EASTERLY RIGHT–OF–WAY LINE OF U.S. HIGHWAY NO. 1, A VARIABLE WIDTH PUBLIC RIGHT–OF–WAY); THENCE DEPARTING SAID RIGHT–OF–WAY LINE ALONG THE NORTHERLY LINE OF SAID PARCEL "C", NORTH 89°26'28" EAST FOR A DISTANCE OF 338.33 FEET; THENCE DEPARTING SAID NORTHERLY LINE SOUTH 09°19'20" EAST FOR A DISTANCE OF 461.65 FEET TO A NON–TANGENT CURVE TO THE LEFT HAVING AN ARC LENGTH OF 34.59 FEET, A RADIUS OF 430.06 FEET, A CENTRAL AGLE OF 04°36'28", A CHORD BEARING OF SOUTH 07°15'28" EAST AND A CHORD LENGTH OF 34.58 FEET TO A POINT OF TANGENCY; THENCE SOUTH 09°33'42" EAST FOR A DISTANCE OF 297.51 FEET; THENCE NORTH 80°26'17" EAST FOR A DISTANCE OF 125.00 FEET TO THE WESTERLY RIGHT–OF–WAY LINE OF LONDON DRIVE, A 60–FOOT WIDE PUBLIC RIGHT–OF–WAY PER SAID PLAT OF LAKEVIEW SECTION 37; THENCE ALONG SAID RIGHT–OF–WAY LINE SOUTH 09°34'33" EAST FOR A DISTANCE OF 6.16 FEET; THENCE DEPARTING SAID RIGHT–OF–WAY LINE SOUTH 80°26'17" WEST FOR A DISTANCE OF 225.00 FEET; THENCE SOUTH 09°33'43" EAST FOR A DISTANCE OF 1640.61 FEET TO A POINT OF CURVATURE; THENCE SOUTHERLY ALONG A CURVE TO THE LEFT HAVING AN ARC LENGTH OF 261.00 FEET, A RADIUS OF 825.00 FEET, A CENTRAL ANGLE OF 18°07'34", A CHORD BEARING OF SOUTH 18°37'30" EAST AND A CHORD DISTANCE OF 259.91 FEET TO A NON–TANGENT LINE; THENCE DEPARTING SAID CURVE ALONG SAID LINE SOUTH 78°45'33" WEST FOR A DISTANCE OF 524.16 FEET TO THE AFOREMENTIONED EASTERLY RIGHT–OF–WAY LINE OF U.S. HIGHWAY NO. 1; THENCE NORTHERLY ALONG SAID RIGHT–OF–WAY LINE FOR THE FOLLOWING FIVE (5) COURSES; THENCE NORTH 09°59'31" EAST FOR A DISTANCE OF 128.08 FEET; THENCE SOUTH 89°43'01" WEST FOR A DISTANCE OF 5.08 FEET; THENCE NORTH 09°59'31" EAST FOR A DISTANCE OF 253.32 FEET TO A POINT OF CURVATURE; THENCE NORTHERLY ALONG A CURVE TO THE LEFT HAVING AN ARC LENGTH OF 655.07 FEET, A RADIUS OF 2030.05 FEET, A CENTRAL ANGLE OF 18°29'19", A CHORD BEARING OF NORTH 00°44'52" EAST AND A CHORD DISTANCE OF 652.23 FEET TO A POINT OF TANGENCY; THENCE NORTH 08°29'47" WEST FOR A DISTANCE OF 179.58 FEET; THENCE SOUTH 81°30'12" WEST FOR A DISTANCE OF 20.00 FEET; THENCE NORTH 08°29'47" WEST FOR A DISTANCE OF 1583.88 FEET TO THE AFOREMENTIONED POINT OF BEGINNING.

EXHIBIT B
AMENDED FUTURE LAND USE MAP

COMMUNITY DEVELOPMENT DEPARTMENT
COMPREHENSIVE PLAN AMENDMENT STAFF REPORT
CITY COUNCIL
PUBLIC HEARING ON OCTOBER 20, 2026

OVERVIEW

Application Number:	5576
Applicant:	Michael Chiumento III, Esq. Chiumento Law, agent for owner
Property Description:	The east side of US Highway 1, approximately ±3,300 feet north of its intersection with Matanzas Woods Parkway
Property Owner:	Matanzas GC Palm Coast LLC
Parcel ID #:	07-11-31-7037-0RP0A-0002, 07-11-31-7037-0RP0A-0011
Current FLUM:	Greenbelt
Current Zoning:	Lakeview Estates Master Planned Development (MPD) – Tract 9
Current Use:	Vacant
Size of Property:	±280.6 acres Overall (±32.5 acres Tract 9)
Requested Action:	Future Land Use Map (FLUM) amendment from the Greenbelt land use designation to the Mixed Use land use designation for a ±20-acre portion of Tract 9 with a site specific limiting policy capping the maximum PM peak hour trips, and the maximum density.

ANALYSIS

REQUESTED ACTION

This Future Land Use Map (FLUM) amendment has a companion Master Planned Development (MPD) Agreement amendment requesting the subject ±20-acre site be rezoned to permit General Commercial (COM-2) uses limited to a maximum height of 35 feet. Additionally, the COM-2 uses will be limited to not permit special exceptions for mini-warehouses, office warehouses, or self-storage on the site. The MPD amendment also requests changes to other tracts within the MPD which do not affect the FLUM amendment.

Michael Chiumento III of Chiumento Law, as agent for Matanzas GC Palm Coast LLC, is proposing to redesignate a ±20-acre portion of vacant land located on the east side of US Highway 1, approximately ±3,300 feet north of its intersection with Matanzas Woods Parkway from Greenbelt to Mixed Use in order for the applicant to develop a ±20 acre portion of Tract 9 for commercial uses.

BACKGROUND/SITE HISTORY

This property was previously developed and operated as part of the now defunct Grand Club Matanzas Golf Course, which permanently closed in 2007. At that time the property was zoned MPD with land designated as Greenbelt or Conservation. The current property owner purchased the former golf course in 2019. In January 2021, the City Council approved the Lakeview Estates Master Planned Development Agreement during a public hearing. The overall development (±280.6 acres) was assigned residential entitlements for 272 dwelling units under the Greenbelt designations density of one dwelling unit (du) per acre, and ±8.3 acres of institutional uses

(meeting the Public Semi-Public zoning district) on Tract 9 after an environmental assessment reduced ±4.3 acres of potential land to be conserved to ±0.2 acres.

Since then, the developer has received approvals for 200 single-family residential units in Tract 1; 12 single-family residential units scattered on Tract 1, 2, 4, and 7; and most recently 9 single-family residential units on Tract 10. This results in the overall project maintaining residential entitlements for 51 dwelling units.

In 2024, the applicant requested the proposed FLUM amendment and companion MPD amendment. The proposed FLUM amendment would redesignate a ±20-acre portion of Tract 9 to Mixed Use. Mixed use allows a density of 15 du per acre. It is advisable to include a site specific limiting policy to ensure that the FLUM amendment does not create more density for the overall development than currently permitted. With this in place, and the development of the 20-acre tract as commercial uses, the remaining overall density entitlement for the project will be 39 du per acre.

This application has taken a significant amount of time as staff waited on multiple resubmittals from the applicant in order to make a complete application. Staff had originally requested a Transportation Impact Analysis (TIA) for the FLUM amendment area, which the applicant has requested through City Administration the ability to defer submitting the TIA until the Technical Site Plan application to develop Tract 9 for commercial uses. In place of the analysis that the TIA would bring, the applicant has requested a site specific limiting policy that caps the maximum daily trips of the subject area to what is currently allowed by the most intense use allowed in the Greenbelt FLUM designation.

The applicant hosted a neighborhood meeting as required by Unified Land Development Code (LDC) Section 2.05.02 at 5:30 p.m. Tuesday April 14th, 2026, in the cafeteria of Indian Trails Middle School. The applicant also met the public notice requirements of LDC Section 2.05.03. The neighborhood meeting had approximately 125 attendees. Since then, staff has been contacted by several of the surrounding residents with clarifying questions about the applicant's requests.

DENSITY/INTENSITY AND POPULATION

Note: The analysis for comprehensive plan map amendments takes into consideration the maximum development potential under the current and proposed FLUM categories and represent the theoretical maximum development potential within the land use category.

The tables below show a comparison should the project area be zoned and developed for residential or nonresidential use between the current future land use designation of Greenbelt and the proposed future land use designation of Mixed Use. It is unlikely for the theoretical maximum in either residential density or nonresidential intensity to be achieved as the current existing MPD Development Agreement (DA) does not permit residential development as a use type and the maximum height is limited to 35 feet, which may affect some nonresidential uses from being able to go vertical.

The maximum residential development potential is depicted in Table 1. Greenbelt allows a maximum density of 1 du per acre. Therefore, the 20-acre portion of Tract 9 allows for maximum density of 20 du. As the Mixed Use designation allows for up to 15 du per acre, which could create an additional residential unit entitlement of 280 du, staff recommends a site specific limiting policy that caps the residential density to a maximum of 1 du per acre (as currently allowed under Greenbelt).

TABLE 1 - FLUM DESIGNATION MAXIMUM DENSITY/INTENSITY ALLOWED (RESIDENTIAL USE)				
	# of Acres	Maximum Density[1]	Maximum # of units	Population (2.5 persons/dwelling unit) (3)
Proposed FLUM: Mixed Use	20	15 du/acre[2]	300	750
Current FLUM: Greenbelt	20	1 du/acre	20	50
NET CHANGE	0		280	700

Footnotes:

[1] Maximum densities are established by Comprehensive Plan Policy.

[2] This level of density is only achievable with a Master Planned Development zoning district.

[3] Population projection per dwelling unit established by Comprehensive Plan Policy.

Table 2 depicts the maximum nonresidential potential based on the existing Greenbelt future land use designation and the proposed Mixed Use future land use designation. Greenbelt allows a maximum floor area ratio of 0.30, while Mixed Use allows a maximum floor area ratio of 0.55. This indicates a theoretical net increase of 217,800 square feet of developable intensity.

TABLE 2 - FLUM DESIGNATION MAXIMUM DENSITY/INTENSITY ALLOWED (NON-RESIDENTIAL USE)			
	# of Acres	Maximum FAR [1]	Maximum Sq. Ft.
Proposed FLUM: Mixed Use	20	0.55	479160
Current FLUM: Greenbelt	20	0.30	261360
NET CHANGE			217800

Footnotes:

[1] Maximum Floor Area Ratios are established by Comprehensive Plan Policy.

PUBLIC FACILITIES AVAILABILITY /IMPACT ANALYSIS (BASED ON THEORETICAL YIELD OF MAXIMUM DEVELOPMENT POTENTIAL)

Objective 1.1.3-Evaluation of Amendments to the FLUM

Review proposed amendments to the Future Land Use Map (FLUM) based upon environmental conditions, the availability of facilities and services, school capacity, compatibility with surrounding uses, and other generally accepted land use planning principles.

Policy 1.1.3.2 - At a minimum, infrastructure availability and capacity, specified as follows, shall be considered when evaluating proposed FLUM amendments:

A. *Existing and future capacity of roadways based on functional classifications and best available data for traffic modeling. For the purposes of evaluating capacity, roadway improvements programmed in the FDOT 5-year Work Plan or listed in either the City or the County 5-year Capital Improvement Program shall be considered.*
B. *Large-scale, high-intensity commercial projects shall be concentrated at intersections of the following arterials*
C. *Existing and future availability and capacity of central utility systems.*
D. *Availability and capacity of receiving watercourses and drainage systems to convey design storm events.*

PUBLIC FACILITIES CAPACITY/IMPACT ANALYSIS

The analysis for comprehensive plan map amendments takes into consideration the theoretical maximum development potential under the current and proposed land use category and represents the theoretical maximum development potential within the existing and proposed land use categories. Based on an analysis of the development potential under the existing and proposed FLUM, the proposed amendment will result in an increase on the potential impact on public facilities (transportation, water, and sewer). Once a specific development is proposed for the site, a more detailed review of the development impacts on public facilities will be conducted.

Table 3 Public Facilities Impact Analysis

Density[1]	# of units or square feet of development	Transportation (PHT)[2]	Potable Water (GPD)[3]	Sanitary Sewer (GPD)[4]	Solid Waste (lbs./capita/day)[5]	Recreation and Parks (8 acres/ 1000 pop.)[6]	Public Education (students)[7]	Stormwater Drainage[8]
Proposed FLUM designation								
Mixed Use (20 ac.) - Max Use FAR .55[9]	479160	39,823	81,457	47,916	--	--	--	--
	Total	39823	81,457	47,916	--	--	--	--
Current FLUM designation - Current FLUM designation assumes .30 FAR for uses permitted in Public/Semipublic (PSP) zoning (e.g. of permitted use - library, hospital, church, or school)**								
Greenbelt - Max FAR .30 (20 ac.)	261360	21,722	44,431	26,136	--	--	--	--
Net Change	**217800**	**18101**	**37026**	**21780**	--	--	--	--

Footnotes:

*[1] Calculation of Intensity: Lot Size (acre)*FAR*43560.*
[2] Transportation: Non-residential PM Peak Hour Trips (PHT), ITE Code 732: United States Post Office = 83.11/1000 sq. ft. (from ITE Manual, 12th Edition)
[2] Transportation: Non-residential PM Peak Hour Trips (PHT) = ITE Code 732: United States Post Office = 83.11/1000 sq. ft. (from ITE Manual, 12th Edition)
[3] Potable Water: Commercial = 17 gpd/100 sq. ft.
[4] Wastewater: Commercial = 10 gpd/100 sq. ft.
[5] Solid Waste: No Level of Service Requirement for Non-residential
[6] Recreation and Parks = No LOS Requirement for Non-residential
[7] Public Education Non-Residential = No LOS Requirement for Non-residential
[8] Stormwater/Drainage: Stormwater Treatment will be reviewed for consistency with adopted LOS, during site plan approval process.

The results of the net impact analysis are shown on Table 3, and are summarized below:

Transportation

The proposed FLUM amendment to Mixed Use from Greenbelt for the 20-acre site will have a potential maximum increase of 18,101 P.M. peak hour trips based on the theoretical maximum floor area ratio (FAR) and the most intense land use found under the Institute of Traffic Engineers (ITE) Trip Generation Manual 12th Edition, land use type 732: *United States Post Office*. ITE Land Use Type yields a maximum 83.11 P.M. peak hour trip per 1,000 square feet. This land type use is allowed in both the PSP and COM-2 land uses. The reason for the difference between the existing and proposed FLUM designations is that the Mixed Use FLUM designation allows a FAR of 0.55, while the Greenbelt FLUM designation allows a maximum FAR of 0.30.

Normally at this stage an application proposing over 1,000 daily trips or 100 p.m. peak hour trips would have to include a Transportation Impact Analysis (TIA) with their application. The TIA analyzes the potential impact of the trips distributed across the right-of-way system. The applicant requested to the City Administration that the project be allowed to proceed with the application without this document. Due to that City staff and Florida Department of Transportation staff were unable to review and analyze the requested TIA for this staff report. Instead based on City Administration determination this document is being deferred until the project is ready to submit a potential Technical Site Plan application as the applicant has not finalized what kind of uses that they plan to develop. As a means to minimize the potential traffic impact to US-1 of the FLUM amendment, the applicant proposed a site specific limiting policy capping the maximum daily trips of the site to the maximum amount allowed under the Greenbelt FLUM designation.

Potable Water

The City's analysis for nonresidential potable water at this stage is based on a rate of 17 gallons per day (GPD) divided by every 100 square feet of development. Since the FAR for the Mixed Used FLUM designation is 0.55 as opposed to the Greenbelt's FAR limit of 0.3, the proposed FLUM amendment will have a potential maximum net increase in demand for potable water of ±0.037 million gallons per day (MGD). As part of the Technical Site Plan review process, the property owner and/or developer will need to coordinate with the City of Palm Coast Utility Department to determine the appropriate engineering requirements (size of water line, pump stations, etc.) for potable water service. The potential approval of the FLUM amendment does not create a reservation of capacity, as that is typically handled at the Technical Site Plan stage based on the actual need for a proposed development.

Wastewater

The City's analysis for nonresidential potable water at this stage is based on a rate of 10 (GPD) divided by every 100 square feet of development. The proposed FLUM amendment will have a potential maximum net increase in demand for sanitary sewer treatment of ±0.0218 MGD. As part of the technical site plan review process, the property owner and/or developer will need to coordinate with the City of Palm Coast Utility Department to determine the appropriate engineering requirements (size of sewer line, lift stations, etc.) for wastewater service. The potential approval of the FLUM amendment does not create a reservation of capacity, as that is typically handled at the Technical Site Plan stage based on the actual need for a proposed development.

Solid Waste

There is no LOS requirement for solid waste for non-residential development since the developer will be required to provide their own solid waste provider.

Public Recreation and Open Space

There is no projected demand from the proposed amendment since it is likely to be developed for non-residential uses.

Public Schools

There is no projected demand from the proposed amendment since it is likely to be developed for non-residential uses.

Stormwater

N/A. Stormwater treatment facilities are reviewed for consistency with the adopted level of service (LOS) during Technical Site Plan review.

ENVIRONMENTAL/CULTURAL RESOURCES ANALYSIS

Objective 1.1.3-Evaluation of Amendments to the FLUM

Review proposed amendments to the Future Land Use Map (FLUM) based upon environmental conditions, the availability of facilities and services, school capacity, compatibility with surrounding uses, and other generally accepted land use planning principles.

Policy 1.1.3.1- At a minimum, the following environmental factors shall be evaluated each time FLUM amendments are proposed:

A. Topography and soil conditions including the presence of hydric soils.
B. Location and extent of floodplains and the Coastal Planning Area, including areas subject to seasonal or periodic flooding.
C. Location and extent of wetlands, certain vegetative communities, and protected wildlife species.
D. Location and extent of other environmentally sensitive features.
E. Proximity to wellfields and aquifer recharge areas.
F. Impacts to potable water supply.

A. TOPOGRAPHY AND SOIL CONDITIONS

The analysis area is vacant and vegetated. The area is a former golf course fairway. The site is bounded by US-1 to the west, and a residential neighborhood commonly known as the "L" section of Palm Coast. According to the Environmental report dated April 2021 by Atlantic Ecological Services, LLC., the subject area for Tract 9 does contain ±0.02 acres of jurisdictional wetlands, ±1.86 acres of isolated wetlands, and ±4.62 acres of surface water. The wetlands detailed in the applicant's environmental assessment reflect the boundaries that were delineated in the field pursuant to state and federal guidelines (Chapter 62-340 F.A.C. and the 1987 Corps of Engineers Wetlands Delineation Manual). Further description of these features may be found in the Section C. Vegetative Communities.

As detailed within the Environmental report, the *Soils Map* indicates the following soil types within the site: 11 - Myakka fine sand; 13 – Immokalee fine sand; 8 – Hicoria, Riviera, and Gator soils, depressional; 29 - Udarents; moderately wet, and 30 – Pits.

Analysis: There are no indicators of unique topographical reliefs or soils that would be affected by the FLUM change.

FINDING: It is not anticipated that the proposed FLUM change from Greenbelt to Mixed Use will negatively impact the local topography or prevent the proposed development permissible within the FLUM designation.

B. FLOODPLAINS

Federal Emergency Management Agency's (FEMA), Flood Insurance Rate Map (FIRM) source indicates that portions of the subject property lie within a Special Flood Hazard Area (SFHA) with

"A" Zone designation. Portions of the properties lie outside of the SFHA and has a designation of a "X" Zone.

Analysis: Compensatory storage will be required for any floodplain impacts as well as a Letter of Map Change to establish a Base Flood Elevation during the Technical Site Plan application prior to development.

FINDING: It is not anticipated that the proposed FLUM change will negatively impact the function of a SFHA as compensatory storage will be required.

C. VEGETATIVE COMMUNITIES

According to the Environmental report, the uplands onsite are classified as a mix of golf course – remnant (FLUCCS 182) and pine flatwoods (FLUCCS 411). The area not formerly maintained as the golf course area include: A canopy that is dominated by slash pine (Pinus elliottii) with some Chinese tallow (Sapium sebiferum), live oak (Quercus virginiana), laurel oak (Quercus laurifolia), and loblolly bay (Gordonia lasianthus) located within the uplands, but at much less coverage. The understory is dominated by a thick cover of saw palmetto (Serenoa repens). Other species found, but at a much lesser extent, include wax myrtle (Myrica cerifera), gallberry (Ilex glabra), yaupon holly (Ilex vomitoria), bushy broom grass (Andropogon glomeratus), blackberry (Rubus spp.), Greenbriar (Smilax spp.), Bahia grass (Paspalum notatum), cogon grass (Imperata cylindrica), and bracken fern (Pteridium aquilinum). The remnant fairways, greens, and associated components of the derelict Matanzas Golf Course include a mix of turf grass, ruderal weeds, landscape plants and trees, parking, and associated structures.

Analysis: As mentioned in the topography section, there are some wetlands located on the site and any impacts will need to be permitted through St. Johns River Water Management District (SJRWMD) and/or the Florida Department of Environmental Protection (FDEP).

FINDING: It is not anticipated that the proposed FLUM amendment will negatively affect the vegetative communities. During the Technical Site Plan phase of development, the developer will be required to submit a threatened and endangered species report and wetland delineation with UNAM scores.

D. PROTECTED SPECIES DISTRIBUTION/ WILDLIFE UTILIZATION

The submitted environmental report states that no gopher tortoise burrows were observed on-site; however, that the potential existence of gopher tortoise burrows exists within the uplands. A 100 percent gopher tortoise survey by a Florida Fish and Wildlife Conservation Commission (FWC) Authorized Gopher Tortoise Agent will be required 90 days prior to construction. If any gopher tortoise burrows are observed onsite, additional gopher tortoise permitting, and relocation may be required. The Environmental report further states that the following animals have a low to high likelihood of occurrence: American alligator, Kirtland's warbler, Eastern indigo snake, Little blue heron, Tri-colored heron, Southeastern American kestrel, Gopher tortoise, Florida sandhill crane, Southern bald eagle, Wood stork, Florida black bear.

Analysis: While the applicant's submitted environmental report did not observe any of the listed species, it states that there is potential for the listed wildlife species to utilize the property. It is interconnected to other vacant land making the site easier to access for some of the listed species. Wildlife utilization may change over time due to various factors. To ensure that the referenced species and any potentially occurring species in the future, the Unified Land Development Code (Section 10.04.03.A, LDC) requires that a listed

species study is performed by a Qualified Environmental Professional (QEP) during the technical site plan application. Further, a study is valid for one year for the property that was investigated to capture any changes in wildlife utilization.

FINDING: The proposed FLUM amendment will not change the need to relocate any potential gopher tortoise discovered prior to any development activities or need for the listed species study. These needs remains no matter the FLUM designation and are required prior to any site clearing.

E. GROUNDWATER RESOURCE PROTECTION

According to City maintained data, the nearest production well is not within 500 feet of the site. The site is not located within the Secondary Protection Zone or the Primary Protection Zone as defined by Section 10.03.02.B, LDC.

Analysis: The amendment is not within an aquifer recharge area or within a wellhead protection zone(s).

FINDING: The proposed land use change is not anticipated to impact groundwater resources.

F. HISTORICAL RESOURCES

A preliminary review of the Florida Master Site File (FMSF) was completed through the Division of Historical Resources (DHR) and the State Historic Preservation Officer (SHPO) for the subject property and included with the applicant's environmental report. One known archaeological resource and one resource group were adjacent to the subject property. US Highway 1 (FL00291) is listed as a linear resource by DHR. No significant impacts to US Highway 1 are anticipated. Davis' Store (FL00248) is listed as an archaeological resource. This resource was identified as part of the Palm Coast Park DRI. The resource is no longer in existence and is not eligible for further evaluation.

Analysis: As there were not any FMSFs found on site, it is unlikely that the proposed FLUM amendment will impact any historical or cultural resources.

FINDING: Any finding of architectural and cultural resources during the site plan review or construction process will require compliance with LDC and state rules for protecting such resources including stopping construction while further investigation is conducted.

LAND USE COMPATIBILITY ANALYSIS

Policy 1.1.3.3 – At a minimum, compatibility with proximate uses and development patterns shall be considered when evaluating proposed FLUM amendments. "Compatibility" shall be as defined in Section 163.3164(9), Florida Statutes.

A. This policy shall not be construed to mean that different categories of uses are inherently incompatible. This policy is intended to promote the use of transitional areas where densities and intensities can be appropriately scaled.

B. Buffers are encouraged as an effective means of transition between areas where there is a greater difference between densities and intensities of the existing and proposed developments.

C. Impacts to the health, safety, and welfare of surrounding residents shall be considered.

D. An analysis shall be conducted of the proposed development, and how that will interface with existing abutting development, if approval is granted.
E. Neighborhood character shall be preserved and promoted by working toward maintaining

Surrounding Future Land Use Map Designations:
North: DRI-Mixed Use; Conservation; Agriculture & Timberlands (Flagler County)
South: Residential
East: Residential; Greenbelt; Agriculture & Timberlands (Flagler County)
West: DRI-Mixed Use

Surrounding Zoning Districts:
North: PSP; COM-2; Rural Estate (EST-2); MPD; Agriculture (Flagler County)
South: Single-Family Residential (SFR) Zones 1-3; Preservation; Heavy Commercial (COM-3)
East: SFR-2; SFR-3
West: MPD

Surrounding Property Existing Uses:
North: Self-storage; residential; warehouse; vacant lands
South: Residential
East: Residential, Interstate 95
West: Residential, US Highway 1

The proposed project area is adjacent to the east side of US-1. The existing developmental pattern following US-1 has land designated mixed-use adjacent to the US-1 right-of-way. Further given the increased residential development in the area, the potential expansion of commercial uses that the applicant intends with the proposed language within their companion MPD amendment application would potentially reduce longer trip ends for nearby residents to access commercial uses when developed.

CONSISTENCY WITH COMPREHENSIVE PLAN

In addition to being consistent with Objective 1.1.3 and Policy 1.1.3.3 which establishes the criteria for review of Future Land Use Map Amendments as provided in the previous section. The proposed amendment is consistent with the following policies in the Comprehensive Plan:

Policy 1.1.3.3 *– At a minimum, compatibility with proximate uses and development patterns shall be considered when evaluating proposed FLUM amendments.*

A. This policy shall not be construed to mean that different categories of uses are inherently incompatible. This policy is intended to promote the use of transitional areas where densities and intensities can be appropriately scaled.

Analysis: As discussed in the section titled "Land Use Compatibility Analysis", the proposed designation of the subject property to Mixed Use is compatible with existing and on-going development patterns along the US-1 corridor near the Matanzas Woods Parkway intersection. The applicant's proposal to only designate a 20-acre portion of Tract 9 as Mixed Use, leaves a remaining strip of Greenbelt, which according to the applicant's proposed MPD amendment is intended to remain as a view protection zone for the existing residents living on London Drive.

Policy 1.3.1.3 - *The City shall encourage development to locate in the areas where public facilities, infrastructure, and services are available. Where there are deficiencies and where appropriate, the City shall require the developer to provide or extend the facilities as necessary to accommodate development provided such provision or extension is consistent with state law. Applicable impact fees shall be used by the City consistent with State law to offset the costs of the City providing facilities.*

Analysis: The proposed amendment is consistent with Policy 1.3.1.3. The location of the subject property is adjacent to US-1, which serves as a principal arterial linking the northwest portion of the City to the remainder of the City. There are existing water and sewer lines along the US-1 corridor. Consistent with the policy, the developer will be responsible for extending any facilities as necessary.

Policy 5.1.3.2 *– The City shall designate urban densities or intensities on the Future Land Use Map only in areas that have sufficient existing or planned capacity for potable water facilities and wastewater facilities where connection is available consistent with Policies 1.1.1.2 and 1.1.3.2. For the purposes of this Plan, any residential density exceeding one (1) dwelling unit per acre shall be deemed to be an urban density.*

Analysis: The proposed FLUM amendment to Mixed Use at this location is consistent with Comprehensive Plan policy to create urban densities or intensities in areas that have sufficient existing or planned capacity for potable water and wastewater facilities.

Policy 5.2.2.3 – The City shall designate urban densities or intensities on the Future Land Use Map only in areas that have sufficient existing or planned capacity for sanitary sewer facilities and where connection is available as set forth in State law and City regulations. The City shall minimize the use of septic tanks in accordance with the provisions of Objective 5.2.3 and policies implementing that objective. For the purpose of this Plan, any residential density exceeding one (1) dwelling unit per acre shall be deemed to be an urban density.

Analysis: The proposed FLUM amendment to Mixed Use land use designation is consistent with Comprehensive Plan policy above to designate urban densities or intensities in areas that have sufficient existing or planned capacity for sanitary sewer facilities.

PROPOSED COMPREHENSIVE PLAN TEXT AMENDMENT

To facilitate the requested map amendment while protecting infrastructure capacity, staff recommends the adoption of the following site-specific limiting policy to the Future Land Use Element (FLUE): **Policy 1.1.2.5 -** For the 20-acre portion of Tract 9 of Lakeview Estates MPD, identified as Parcel ID No. 07-11-31-7037-0RP0A-0002 and legally described in Ordinance 2026-XX, designated as Mixed Use on the Future Land Use Map, development shall be subject to the following limitations:

1. **Intensity Cap:** Non-residential development shall generate no more than 1,815 PM Peak Hour trips, as determined by the latest edition of the ITE Trip Generation Manual and be capped in building height to no higher than 35 feet.
2. **Density Cap:** Residential density shall be capped to producing no more than one dwelling unit per acre.

PLANNING AND LAND DEVELOPMENT REGULATION BOARD MEETING

The Planning and Land Development Regulation Board (PLDRB) heard the Comprehensive Plan Amendment, application #5576, and its companion MPD Amendment, application #5575, at their May 20, 2026 meeting.

During the evening, the PLDRB unanimously approved a motion to delay public comment on the Comprehensive Plan Amendment until after the companion MPD Amendment, application #5575, had been presented to the PLDRB as well. 10 members of the public spoke in opposition to the proposed Comprehensive Plan Amendment and MPD Amendment.

The PLDRB voted five to one in favor of recommending approval of the Comprehensive Plan Amendment subject to the concurrent adoption of staff's draft FLUE Policy 1.1.2.5 serving as a site specific limiting policy capping the intensity and density of the 20-acre portion of Tract 9 of the Lakeview Estate MPD.

The PLDRB voted six to zero in favor of recommending denial of the MPD Amendment subject to criteria analysis of LDC Section 2.05.05A finding the application contrary to public interest based on compelling evidence presented by the public during public comment in addition to analysis of LDC Sections 3.03.04.J1 and 3.03.04.J2.

CITY COUNCIL FIRST READ

City Council heard this item at its September 1st meeting, and it was continued until the September 15th meeting. City Council voted to approve the Comprehensive Plan Amendment with a vote of three to one.
Four members of the public spoke at the September 1st meeting, and two members of the public spoke at the September 15th meeting.

RECOMMENDATION

The Planning and Land Development Regulation Board recommends that City Council find Application #5576 consistent with the Comprehensive Plan and approve the Comprehensive Plan Amendment amendment from Greenbelt to Mixed Use, subject to the concurrent adoption of FLUE Policy 1.1.2.5 limiting the site's developmental potential.

PALM COAST, FL 32164

BUSINESS IMPACT ESTIMATE
PURSUANT TO F.S. 166.041(4)

Meeting Date: September 1, 2026
Ordinance Number: 2026-XX
Posted To Webpage: August 19, 2026

This Business Impact Estimate is given as it relates to the proposed ordinance titled:

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF PALM COAST, FLORIDA, PROVIDING FOR THE AMENDMENT OF THE CITY OF PALM COAST 2050 COMPREHENSIVE PLAN, AS AMENDED, PURSUANT TO SECTION 163, FLORIDA STATUTES; AMENDING THE FUTURE LAND USE MAP (FLUM) DESIGNATION FOR A ±20 ACRE PORTION OF TRACT 9 OF CERTAIN REAL PROPERTY DESCRIBED AS TAX PARCEL IDENTIFICATION NUMBER 07-11-31-7037-0RP0A-0002, GENERALLY LOCATED ON THE EAST SIDE OF US HIGHWAY 1 APPROXIMATELY ±3,300 FEET NORTH OF ITS INTERSECTION WITH MATANZAS WOODS PARKWAY AND BEING MORE PARTICULARLY DESCRIBED IN ATTACHED EXHIBIT A, FROM GREENBELT TO MIXED USE AND AMENDING THE FUTURE LAND USE ELEMENT PROVIDING A SITE-SPECFIC LIMITING POLICY CAPPING DENSITY AND INTENSITY; PROVIDING FOR SEVERABILITY, CODIFICATION, CONFLICTS, AND AN EFFECTIVE DATE.

The sections below <u>are not</u> required to be completed if the ordinance involves any one of the following types of regulations. Please check if applicable:

__ 1. Ordinances required for compliance with federal or state law or regulation;
__ 2. Ordinances relating to the issuance or refinancing of debt;
__ 3. Ordinances relating to the adoption of budgets or budget amendments, including revenue sources necessary to fund the budget;

__ 4. Ordinances required to implement a contract or an agreement, including, but not limited to, any federal, state, local, or private grant, or other financial assistance accepted by a municipal government;
__ 5. Emergency ordinances;
__ 6. Ordinances relating to procurement; or
X 7. Ordinances enacted to implement the following:

a. Development orders, and development agreements, and development permits, as those terms are defined in S 163.3164, and development agreements, as authorized by the Florida Local Government Development Acts SS. 163.3220-163.3243;

b. Comprehensive Plan amendments and land development regulation amendments initiated by an application by a private party other than the county;

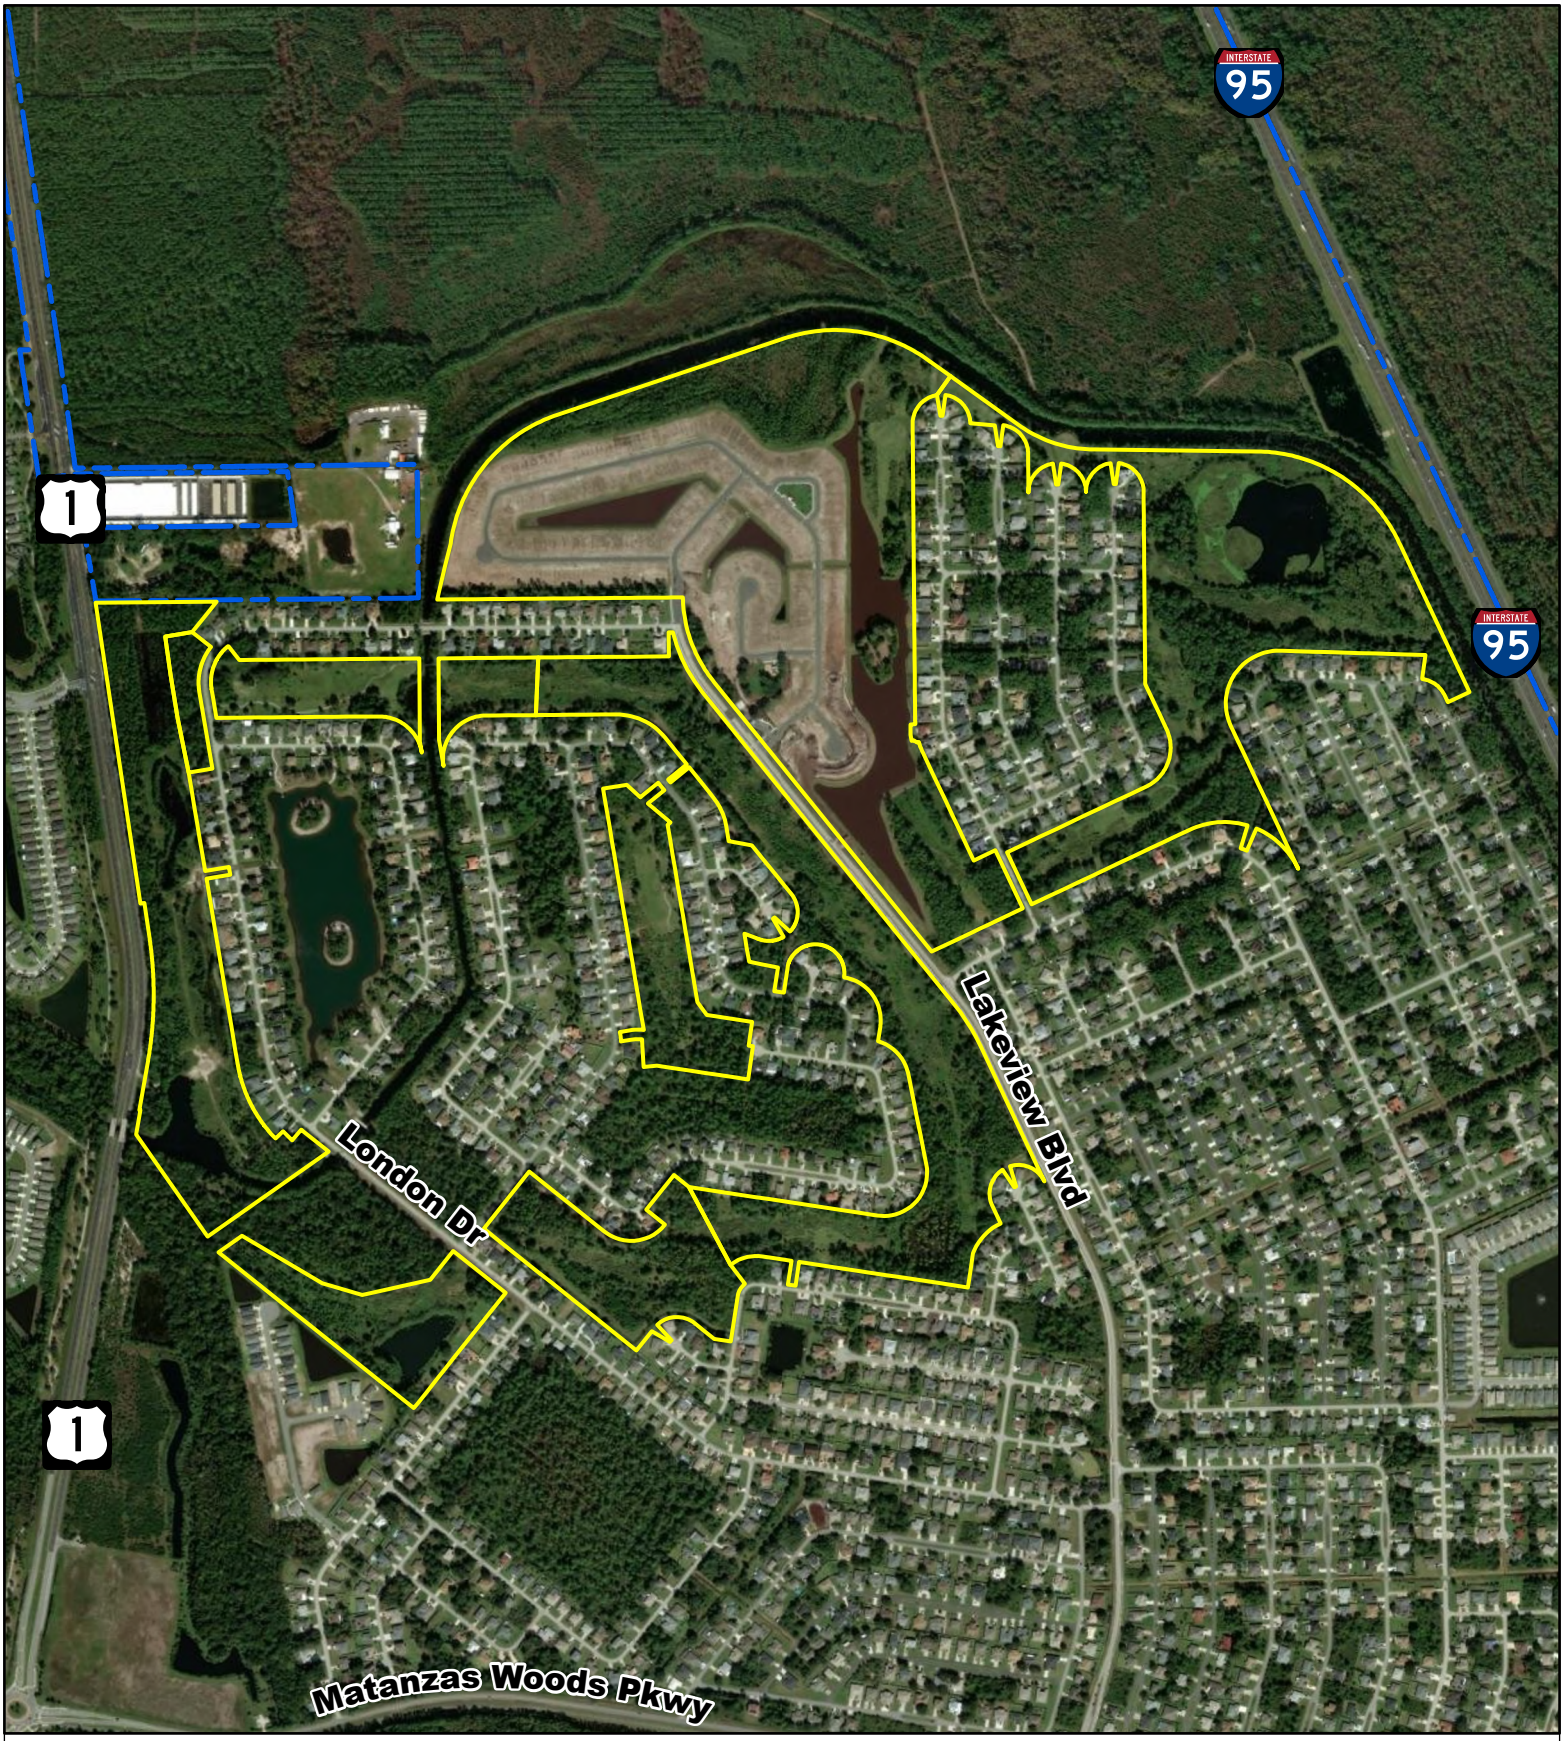
__ c. Sections 190.005 and 190.046;
__ d. Section 553.73, relating to the Florida Building Code; or
__ e. Section 633.202, relating to the Florida Fire Prevention Code.

Part I. Summary of the proposed ordinance and statement of public purpose:

This ordinance implemented to amend development agreements relating to the subject parcels has been initiated from a private party other than the City and therefore exempt from addressing the following sections.

ECONOMIC IMPACT ON BUSINESS

a. Estimated number of businesses impacted: Not applicable.



b. Types of businesses affected: Not applicable.

Estimated direct economic impact: Not applicable.

RE: City of Palm Coast Park Dedication / Lakeview Estates Amendment

Dear Mr. Tyner:

It has been a pleasure to work with the City in its efforts to provide a community park for the Matanzas Woods neighborhood. We reviewed the City's updated parks plan as provided in the P.O.P Report and agree that a park for the residents in this part of the City is long overdue. Therefore, my client is willing to give lands to the City for purposes of community park.

In this light, please find enclosed applications to (i) amend the Comprehensive Plan designation for a portion of the Owner's property and (ii) rezone portions of the property to provide for the donation of +/- 11 ac of land to the City for the community park and additional lands to be developed. Note however, that these applications do not provide for any new residential development rights. The maximum residential development is actually decreased from the present MPD Agreement.

Rezoning Application

The enclosed application requests an Amendment to the MPD Agreement. Rather than provide an amended and restated agreement, the application provides a simple amendment focusing on the specific changes. We have included a redline version for your convenience to show the proposed changes. In general, the proposed amendment (i) reduces the number of residential units to be developed on the property from 268 to 260; (2) broadens the commercial uses on Tract 9, (iii) conveys an +/- 11acres of land to the City for a community park, and (iv) allows residential development on other areas of the property.

These proposed changes remain consistent with the City's comprehensive plan and other land development regulations. We will provide a consistency analysis under separate cover in the next week or so. The proposed changes serve a public purpose in that the community requested a

10/23/2023 02:12 pm IP:[10.10.250.10] Packet No: 91566

community park in this area as provided in the P.O.P Report. We look forward to your comments and hope to placed on the December Planning Board agenda.

Comprehensive Plan Amendment

Also enclosed is an application to amend the Comprehensive Plan designation on a portion of the Property. Specifically, Tract #9 is located on U.S.1 adjacent to the entrance of 1500 units subdivision commonly known as Sawmill Creek. Presently, Tract #9 allows for the development of non-residential uses. The proposed amendment request that the Land Use designation be changed from Greenbelt to Mixed Use to allow for a broader range of commercial uses on that Tract. The goal and objective is to promote economic development and jobs in this area of Palm Coast, increase the commercially zone property in an attempt to balance the community's tax base, and (iii) provide residents in this area with local commercial opportunities minimizing their trip lengths which adversely impact other City roadways such as Palm Coast Parkway.

Conclusion

We appreciate the opportunity to work with the City in its efforts to provide the citizens a community park. We too believe a park in this area of Palm Coast is benefit for the residents in the Matanzas Woods neighborhood. From a planning perspective, this application will not only benefit those residents but will also benefit all the residents in the northeast portion of the City by providing parks, recreation, shopping opportunities for them while lessening traffic impacts on other City roads.

Once you have had an opportunity to review these applications, we respectfully request a meeting to discuss your questions concerns and changes.

Sincerely,

Michael D. Chiumento III
Attorney

LAKEVIEW ESTATES MPD TRACT 9 FLUM AMENDMENT

PROJECT OVERVIEW

Matanzas GC Palm Coast ,LLC, a Florida Limited Liability Company (the "Owner") is the owner of approximately 32 acres of vacant land located at Tract 9 of subject property as depicted on Proposed Zoning/FLUM Plan.

The owner is requesting to amend the Future Land Use Map to change the Property's Future Land Use Designation from Greenbelt to Mixed Use. The current Zoning is MPD and proposed change to approximately 20 acres Commercial. The owner agrees to limit the proposed commercial development to 250,000 sf of interior commercial space with 35 ft building height limitation. The owner further agrees to provide 100 ft. VPZ to accommodate community drainage and provide a buffer along the western boundary with existing single family homes. See Exhibit B Tract 9 for illustration.

DATA AND ANALYSIS

PROOF OF OWNERSHIP / PROPERTY INFORMATION
The Original Recorded Warranty Deed, Boundary Survey and Legal Description are included as part of the application. The Development Timetable is to be determined.

AGENT AUTHORIZATION
The agent authorization is included.

TECHNICAL MEMORANDUM

To: Micheal D. Chiumento III, Chiumento Law

From: Kady L. Dearing, PE

Subject: Matanzas Woods Tract 9 – Comprehensive Plan Amendment (CPA) and Rezoning Traffic Impact Analysis (RTIA)

Date: December 18, 2025

INTRODUCTION

LTG, Inc. (LTG) has been retained by Matanzas GC Palm Coast, LLC, to prepare a traffic analysis in support of a Future Land Use (FLU) change and proposed rezoning for Matanzas Woods Tract 9. The parcel (Tract 9) consists of approximately 32.58 total acres and is a part of the Lakeview Estates Master Planned Development (MPD) Agreement between the City of Palm Coast and Matanzas GC Palm Coast, LLC. The purpose of this analysis is to modify the existing MPD to allow commercial land use. The subject property is located on the east side of US 1 and north of Matanzas Woods Parkway, in the City of Palm Coast, Florida. **Figure 1** shows the location of the project relative to the surrounding roadway network.

COMPREHENSIVE PLAN AMENDMENT (CPA) & PROPOSED REZONING

The CPA is required to revise the existing FLU from Greenbelt to Mixed Use for the 32.58-acre property. It should be noted that according to the existing MPD, only 8.3 acres are able to be developed.

The site has an existing FLU designation of Greenbelt, which allows a maximum of 1 dwelling per acre (DU/AC), resulting in a total of 8 dwelling units; represented by Single-Family Detached Housing (ITE code 210) or institutional uses meeting the Private/Semi-Public (PSP) Zoning District standards. The purpose of PSP is to provide areas for government owned facilities, religious institutions, civic buildings, educational institutions, etc. The maximum Floor Area Ratio (FAR) for the PSP District is 0.30, which results in 108,464 square-feet of institutional land use. The highest potential trip generator under this designation has been identified as United States Postal Services (ITE code 732).

Due to the nature of the MPD, both options were examined to determine the highest trip-generating use for the existing FLU designation. The daily, AM and PM peak-hour trip generation for the existing future land uses were determined using the Institute of Transportation Engineers (ITE) document, *Trip Generation Manual*, 12th Edition and are presented in **Table 1**, below.

Table 1
Existing FLU & Zoning Trip Generation
Matanzas Woods PUD, Tract 9

Time Period	Land Use	ITE LUC	Trip Rate Equation	Quantity (X)		Percent Entering	Percent Exiting	Trips Entering	Trips Exiting	Total Trips (T)
Daily	Single Family Residential	210	T = 8.07(X) + 265.45	8	DU	50%	50%	165	165	330
	United States Postal Services	732	T = 319.08(X)	108.46	KSF	50%	50%	17,305	17,304	34,609
AM Peak-Hour	Single Family Residential	210	T = 0.67(X) + 5.59	8	DU	27%	73%	3	8	11
	United States Postal Services	732	T = 19.03(X) + 25.66	108.46	KSF	52%	48%	1,087	1,003	2,090
PM Peak-Hour	Single Family Residential	210	Ln(T)=0.92Ln(X)+0.33	8	DU	62%	38%	6	3	9
	United States Postal Services	732	T = 16.73(X)	108.46	KSF	51%	49%	926	889	1,815

As shown in **Table 1**, the existing Greenbelt FLU designation results in a maximum total of 34,609 daily, 2,090 AM peak-hour, and 1,815 PM peak-hour trips.

Matanzas Woods PUD Tract 9 CPA and RTIA	N NTS	**Location Map**	LTG Engineering & Planning
		Project No.: 6602.01 Figure 1	

The applicant is requesting that the developable area be increased from 8.3 acres to 20 acres under a Mixed-Use FLU designation, as described in the City of Palm Coast Comprehensive Plan, as a General Commercial (COM-2) Zoning District. The Mixed-Use FLU, under this zoning designation, has a maximum FAR of 0.40, resulting in a maximum of 348,480 square-feet of mixed commercial land use. A combination of commercial land uses, as allowable under the COM-2 zoning designation, was used to estimate the highest trip-generating potential for the site. The total trip generation for the proposed future land use is shown in **Table 2**, below.

Table 2
Proposed FLU & Zoning Trip Generation
Matanzas Woods PUD, Tract 9

Time Period	Land Use	ITE LUC	Trip Rate Equation	Quantity (X)		Percent Entering	Percent Exiting	Trips Entering	Trips Exiting	Total Trips (T)
Daily	United States Postal Service	732	T = 319.08(X)	20.00	KSF	50%	50%	3,191	3,191	6,382
	Shopping Plaza (w/ Supermarket)	821	T = 136.41(X) - 2680.46	135.48	KSF	50%	50%	7,900	7,900	15,800
	Home Improvement Superstore	862	T = 30.65(X)	150.00	KSF	50%	50%	2,299	2,299	4,598
	High-Turnover (Sit-Down) Restaurant	932	T = 103.75(X)	18.00	KSF	50%	50%	934	934	1,868
	Fast-Food Restaurant	934	T = 448.12(X)	20.00	KSF	50%	50%	4,481	4,481	8,962
	Coffee/Donut Shop	937	T = 600.50(X)	5.00	KSF	50%	50%	1,502	1,501	3,003
	Total:			**348.48**	**KSF**			**20,307**	**20,306**	**40,613**
AM Peak-Hour	United States Postal Service	732	T = 19.03(X) + 25.66	20.00	KSF	52%	48%	211	195	406
	Shopping Plaza (w/ Supermarket)	821	T = 3.54 (X)	135.48	KSF	60%	40%	288	192	480
	Home Improvement Superstore	862	T = 1.50(X)	150.00	KSF	57%	43%	128	97	225
	High-Turnover (Sit-Down) Restaurant	932	T = 8.97(X)	18.00	KSF	55%	45%	89	72	161
	Fast-Food Restaurant	934	T = 33.24(X)	20.00	KSF	51%	49%	339	326	665
	Coffee/Donut Shop	937	T = 85.41(X)	5.00	KSF	51%	49%	218	209	427
	Total:			**348.48**	**KSF**			**1,273**	**1,091**	**2,364**
PM Peak-Hour	United States Postal Service	732	T = 319.08(X)	20.00	KSF	51%	49%	171	164	335
	Shopping Plaza (w/ Supermarket)	821	T = 8.58 (X)	135.48	KSF	49%	51%	569	593	1,162
	Home Improvement Superstore	862	T = 2.28(X)	150.00	KSF	57%	43%	195	147	342
	High-Turnover (Sit-Down) Restaurant	932	T = 9.18(X)	18.00	KSF	61%	39%	101	64	165
	Fast-Food Restaurant	934	T = 31.60(X)	20.00	KSF	52%	48%	329	303	632
	Coffee/Donut Shop	937	T = 39.0(X)	5.00	KSF	50%	50%	98	97	195
	Total:			**348.48**	**KSF**			**1,463**	**1,368**	**2,831**

As shown in **Table 2**, the proposed Mixed-Use FLU has the potential to result in 40,613 daily, 2,364 AM peak-hour, and 2,831 PM peak-hour trips.

The trip difference between the existing and the proposed future land use designations is determined by subtracting trips generated by the existing designation from the trips generated by the proposed designation. The results are presented in **Table 3**.

Table 3
Trip Generation Comparison
Matanzas Woods PUD, Tract 9

Period	Existing	Proposed	Trip Difference	
Daily	34,609	40,613	6,004	Increase
AM Peak-Hour	2,090	2,364	274	Increase
PM Peak-Hour	1,815	2,831	1,016	Increase

As shown in **Table 3**, this results in an overall trip increase of 6,004 daily trips (17.3%), 274 a.m. peak hour trips (13.1%), and 1,016 p.m. peak hour trips (56.0%).

CONCLUSION

This study was conducted to evaluate the impact of the proposed FLU and rezoning for a 32.58-acre parcel within the Lakeview Estates Master Planned Development, known as Tract 9. The proposed CPA will amend the current FLU designation from Greenbelt to Mixed Use. The rezoning will revise the zoning designation from Public/Semi-Private (PSP) to General Commercial (COM-2). The maximum developed area will also increase from 8.3 acres to 20 acres.

When evaluating the difference between the existing and proposed potential development scenarios for the proposed change, the trip generation comparison results in a trip increase of 6,004 daily trips (17.3%), 274 a.m. peak hour trips (13.1%), and 1,016 p.m. peak hour trips (56.0%).

Transportation concurrency and any potential mitigation required to offset deficiencies caused by the project will be assessed at the time a site plan application is filed with the City of Palm Coast.

I affirm, by affixing my signature below, that the findings contained herein are, to my knowledge, accurate and truthful and were developed using current procedures standard to the practice of professional planning.

1.0 PROJECT INTRODUCTION

The Matanzas Woods Golf Course property is located within the City of Palm Coast, Flagler County, Florida, in a portion of Sections 21, 22, 27, & 28, Township 10 South, Range 30 East. The project area is approximately 275.96 acres in total size. The proposed project is identified as Flagler County Parcel ID # 07-11-31-7037-ORPOA0002. The subject property is generally located north of Matanzas Woods Parkway, east of US Highway 1, west of Interstate 95, and south of lands associated with the Palm Coast Park DRI. The property consists of an abandoned golf course within the City of Palm Coast. Please see the attached Location Map and Aerial Map within Appendix I for details. The latitude and longitude coordinates for the approximate center of the project are 29.615 North and -81.281 West, as determined via Google Earth.

The applicant for the project is:

Matanzas GC Palm Coast, LLC
Attn: Mr. Alex Ustilovsky
200 Ocean Crest Drive, Unit # 1111
Palm Coast, FL 32137

The subject property was previously permitted as a golf course within St. Johns River Water Management District MSSW# 4-035-0003A. The golf course has been closed since 2007.

Atlantic Ecological Services (AES) conducted an Environmental Assessment (EA) on the Matanzas Woods Golf Course property (herein referred to as the subject property). The subject property was reviewed to determine habitat type's present, boundaries of habitat types, presence of or the potential for protected species, wildlife utilization of the site and other environmental constraints noted during the site visits. This EA report discusses the methods used to conduct the EA, the results thereof and includes several supplementary figures.

Mr. Jody Sisk of AES performed the wetland and protected species review on the subject property. Mr. Sisk currently holds certifications from the City of Palm Coast as a Qualified Environmental Professional, including Gopher Tortoise Agent (#19567), Wetlands (#19568), and Listed Species (#19569).

2.0 EXISTING SITE CONDITIONS

The subject property consists of disturbed uplands, wetlands, and surface water ponds associated with the former golf course. The uplands consist of remnant pine flatwoods and golf course, and the wetlands consists of multiple hardwood forested systems, mixed hardwood/pine systems, freshwater marsh, and surface water ponds.

The communities and land use areas were categorized according to the Florida Department of Transportation (FDOT) (1991) Florida Land Use, Cover and Forms Classification System (FLUCFCS). The communities and land uses observed and delineated on the subject property are described in detail below and are shown on the attached Habitat Map.

2.1 Uplands

Golf Course - Remnant (FLUCCS 182) – Approximately 133.95 acres of the property exists as the remnant fairways, greens, and associated components of the Matanzas Golf Course. These areas exist as a mix of turf grass, ruderal weeds, landscape plants and trees, parking, and associated structures.

Pine Flatwoods (FLUCCS 411) – The remaining uplands, not included in the managed golf course area, found on the subject property are considered remnant pine flatwoods. They were part of the ITT pine plantation prior to the opening of the golf course in the 1980's. Evidence of remnant row planting was identified across the site. This habitat community s approximately 98.24 acres in total size. The canopy is dominated by slash pine (*Pinus elliottii*). Some Chinese tallow (*Sapium sebiferum*), live oak (*Quercus virginiana*), laurel oak (*Quercus laurifolia*), and loblolly bay (*Gordonia lasianthus*) are also located within the uplands, but at much less coverage. The understory is dominated by a thick cover of saw palmetto (*Serenoa repens*). Other species found, but at a much lesser extent, include wax myrtle (*Myrica cerifera*), gallberry (*Ilex glabra*), yaupon holly (Ilex vomitoria), bushy broom grass (*Andropogon glomeratus*), blackberry (*Rubu*s spp.), greenbriar (*Smilax* spp.), bahia grass (*Paspalum notatum*), cogon grass (*Imperata cylindrica*), and bracken fern (*Pteridium aquilinum*).

2.2 Wetlands

Mixed Wetland Hardwoods (FLUCCS 617) – Multiple mixed hardwood wetland systems are located on the subject property totaling approximately 0.2 acres. These wetlands consist primarily of a canopy of red maple (*Acer rubrum*), Chinese tallow, laurel oak, and loblolly bay. The understory includes dahoon holly (*Ilex cassine*), wax myrtle and saw palmetto.

Cypress (FLUCCS 621) – Multiple small, isolated cypress depressions totaling 2.97 acres are located on the subject property. These systems are dominated by cypress (*Taxodium* spp.). Other species include red maple, slash pine, and dahoon holly.

Wetland Mixed Forest (FLUCCS 630) – Multiple mixed hardwood and pine wetlands are located on the subject property. The wetland mixed forest communities combined equal approximately 15.09 acres in total area on the subject property. The canopy is dominated by red maple, sweetgum (*Liquidambar styraciflua*), cypress, Chinese tallow, laurel oak, loblolly bay, and slash pine. The understory includes dahoon holly, wax

myrtle, saw palmetto, shiny lyonia (*Lyonia lucida*), gallberry, and herbaceous species such as Virginia chain fern (*Woodwardia virginica*), beakrush (*Rhynchospora* spp.), and yellow-eyed grass (*Xyris* spp.).

Freshwater Marsh (FLUCCS 641) – One freshwater marsh is located on the subject property totaling approximately 5.33 acres. The marshes are dominated by St. Johns wort (*Hypericum fasciculatum*), maidencane (*Panicum hemitomon*), torpedo grass (*Panicum repens*), Carolina willow (*Salix caroliniana*), red root (*Lacnanthes caroliniana*), and primrose willow (*Ludwigia peruviana*).

2.3 Surface Waters

Ponds (FLUCCS 530) – Approximately 20.18 acres of the subject property exists as surface water ponds associated with the former golf course.

3.0 SOILS

A discussion of each soil type present on the subject property is documented below. Please see the attached Soils Map within Appendix I for the location of each soil type.

Wabasso fine sand (4) – This very deep, nearly level, poorly drained soil is in broad flatwood areas. Individual areas of this soil are irregular in shape and range from 4 to 200 acres. The seasonal high water table is at a depth of 6 to 18 inches for as much as 3 months during most years. It recedes to a depth of more than 40 inches during dry periods.

Hicoria, Riviera, and Gator soils, depressional (8) – This is a very deep, nearly level, poorly drained soil found in depressions in the flatwoods. Individual areas are circular to irregular in shape and range from 3 to 1,500 acres. The undrained areas of this map unit are ponded, as much as 24 inches of water is above the surface for 6 months or more except during extended dry periods.

Myakka fine sand (11) – This is a very deep, nearly level, very poorly drained soil that is in broad flatwood areas. The areas range from 5 to 500 acres. The seasonal high water table is at a depth of 6 to 18 inches for 1 to 4 months of the year. It is at a depth of 10 to 40 inches for more than 6 months of the year.

Placid, Basinger, and St. Johns soil, depressional (12) – These are very deep, poorly drained soils which are present in depressions along flatwoods. Undrained areas are ponded for long periods. They range from 3 to 400 acres in size. In most years, undrained areas are ponded for more than 6 months, and the seasonal high water table is as much as 2 feet above the surface.

Immokalee fine sand (13) – This is a poorly drained, nearly level soil on broad flats and low knolls in flatwoods. Mapped areas of this soil range from 5 to 600 acres. The

seasonal high water table is at a depth of 6 to 18 inches for 2 months and at 10 to 40 inches during periods of lower rainfall in most years under natural conditions. During extended dry periods, the water table recedes to a depth of more than 40 inches.

Valkaria-Smyrna Complex (18) – This is a very deep, nearly level, poorly drained soil on flatwoods. Areas in this soil are irregular and range from 40 to 300 acres. The seasonal high water table is at a depth of 6 to 18 inches for 1 to 4 months of the year. It is at a depth of 10 to 40 inches or more during extended dry periods.

Vakaria fine sand (19) – This is a very deep, nearly level, poorly drained soil on low broad flats and in sloughs connecting depressions. Areas in this soil are irregular and range from 5 to 100 acres in size. The seasonal high water table is at a depth of 0 to 6 inches for 2 to 6 months of the year.

Smyrna fine sand (21) – This is a very deep, poorly drained soil which is present in nearly level flatwoods areas. They range from 4 to 400 acres. The seasonal high water table is at a depth of 6 to 18 inches for 1 to 4 months during wet seasons and at 10 to 40 inches for more than 6 months.

Uderants, moderately wet (29) – This map unit consists of heterogeneous soil material that was removed from other soils and used in land-leveling operations as fill material. Uderants do not have an orderly sequence of soil layers. This soil makes up the areas which were excavated and filled during the construction of the city drainage system in the 1970's.

Pits (30) – This map unit consists of excavated areas from which soil and geologic material was removed for use mainly in road construction and as fill material.

Pomona fine sand (40) – This very deep, poorly drained, nearly level soil is in the broad flatwood areas. Individual areas are irregular in shape and range from 80 to 400 acres in size. The seasonal high water table is at a depth of 6 to 18 inches for 1 to 3 months and is at a depth of 10 to 40 inches for more than 6 months in most years.

4.0 WETLANDS AND SURFACE WATERS

4.1 Methods and Jurisdiction

The wetlands on the subject property fall under the regulatory jurisdiction of the Florida Department of Environmental Protection (federal 404), St. Johns River Water Management District (state) and the City of Palm Coast (local). The criteria used to determine the presence of the boundaries of wetlands and surface waters were in accordance with Chapter 62-340 F.A.C. Approximately 23.57 acres of wetlands, 20.18 acres of surface water ponds, and 0.84 acres of surface water ditches are located on the subject property. Please see the attached Wetland Map within Appendix I.

Multiple wetlands onsite could be considered isolated and therefore not jurisdictional to the State 404 Program. Due to the isolated nature of Wetlands 2-4, 8-12, and 14-16, it is not anticipated each will meet the requirements to be considered Waters of the United States (WotUS).

4.2 Wetland Quality, Impacts, and Mitigation

The wetlands onsite are of moderate quality. The City of Palm Coast will require a 25' average/15' minimum upland buffer due to the quality of wetland. The wetland onsite was assessed utilizing the City of Palm Coast Wetland Quality Assessment Methodology (WQAM). Please see Appendix II for the attached WQAM worksheets.

If wetland impacts are proposed the wetland mitigation could be completed through onsite wetland preservation/enhancement or wetland creation, or through the purchase of mitigation credits from the Fish Tail Swamp Wetland Mitigation Bank or the Brick Road Wetland Mitigation Bank. The project and the proposed mitigation are located within the Matanzas River and Pellicer Creek basin (Basin 9). Both mitigation banks listed above have available credits within the basin.

5.0 WILDLIFE OBSERVATIONS

Wildlife observations, both direct and indirect, were made throughout the course of the site investigation. A list of species observed is provided in the following table:

Table 5.1 Wildlife species observed on the Matanzas Woods Golf Course Property in Flagler County, Florida.

Taxon	Common Name	Scientific Name	Protected*
Birds	Black vulture	*Coragyps atratus*	No
	Carolina wren	*Thryothorus ludovicianus*	No
	Common grackle	*Quiscalus quiscula*	No
	Grey catbird	*Dumetella carolinensis*	No
	Northern mockingbird	*Mimus polyglottos*	No
	Great blue heron	*Ardea herodias*	No
	White ibis	*Eudocimus albus*	No
	Wood stork	*Mycteria americana*	Yes
	Tri-colored heron	*Egretta tricolor*	Yes
Mammals			
	Nine-banded armadillo	*Dasypus novemcinctus*	No
	Racoon	*Procyon lotor*	No
	Feral pig	*Sus scrofa*	No
	White-tailed deer	*Odocoileus virginianus*	No

6.0 PROTECTED SPECIES

Prior to visiting the site, a background literature search was conducted to compile a list of state and federally protected animal and plant species that could occur on the subject property. The three primary sources of literature reviewed include the Florida Fish and Wildlife Conservation Commission's (FWC) *Florida's Endangered Species, Threatened Species, And Species of Special Concern*, the United States Fish and Wildlife Service's (FWS) Threatened and Endangered Species System (TESS) database, and the Florida Department of Agriculture and Consumer Services (FDACS), Division of Plant Industry's (DPI) *Notes on Florida's Endangered and Threatened Plants*. During the site reconnaissance, observations or evidence of protected species and the likelihood of occurrence of each protected species were noted. Further review was completed following the habitat mapping and descriptions.

6.1 Protected Wildlife Species

The protected animal species with at least some likelihood of occurrence are listed in Table 6.1.1, below. The likelihood of occurrence of each species is noted in the table and those species with at least a moderate likelihood of occurrence are discussed following the table.

Table 6.1.1: Protected wildlife species with the potential to occur on the Matanzas Woods Golf Course Property in Flagler County, Florida.

Species Name	Common Name	Agency Listing		Likelihood of Occurrence	Habitat
		FWC	FWS/NMFS		
Alligator mississippiensis	American alligator		T(S/A)	Low	Various aquatic habitats
Dendroica kirtlandii	Kirtland's warbler	E	E	Low	Migrant, utilizing various terrestrial and palustrine habitats
Drymarchon corais couperi	Eastern indigo snake	T	T	Mod	Wide variety of habitats
Egretta caerulea	Little blue heron	T		High	Marshes, ponds, lakes, meadows, streams & mangroves
Egretta tricolor	Tri-colored heron	T		High	Marshes, ponds, lakes, meadows, streams & mangroves
Falco sparverius paulus	Southeastern American kestral	T		Mod	Wide variety of open habitats
Gopherus polyphemus	Gopher tortoise	T	CS	Mod	Sandhills, scrub, hammocks, dry prairies, flatwoods, & ruderal
Grus canadensis pratensis	Florida sandhill crane	T		Mod	Shallow wetlands, freshwater marshes and wet prairies
Haliaeetus	Southern bald		BGEPA	Mod	Coasts, rivers and large

leucocephalus	eagle				lakes in open areas
Mycteria americana	Wood stork	E	E	Obs	Marshes, swamps, streams and mangroves
Ursus americanus floridanus	Florida black bear			Mod	Variety of forested landscapes

Those species listed as having a moderate likelihood of occurrence or higher in Table 6.1 are listed as such due to presence of suitable habitat.

Long-legged waders have a high likelihood of occurrence onsite due to the marsh and surface water ponds found on the subject property. This includes the little blue heron (*Egretta caerulea*), snowy egret (*Egretta thula*), tricolored heron (*Egretta tricolor*), and white ibis (*Eudocimus albus*). It is anticipated these species utilize the wetlands onsite for foraging and roosting. No wading bird rookeries are known or were identified on or near the subject property. Any modifications to the existing surface water ponds would include creation of stormwater ponds. Therefore, this project is not likely to adversely affect any wading bird populations.

While no wood storks (*Mycteria americana*) were observed on the subject property, wood storks have been observed routinely throughout the area. No nesting rookeries were observed. The project site is not located within a Core Foraging Area (CFA) for wood storks. Therefore, this project is not likely to adversely affect the wood stork population.

Florida sandhill cranes (*Grus canadensis pratensis*) are routinely observed in the area. No sandhill cranes were observed on the subject property during the onsite surveys. The marsh wetland and littoral zones of the surface water ponds onsite are considered potential for nesting. No nests or signs of nesting activity were identified. Prior to construction of the site a Florida sandhill crane nest survey should be completed to determine if any nesting pairs are utilizing the site.

The FWC's Eagle Nest Locator website was queried for data regarding documented southern bald eagle (*Haliaeetus l. leucocephalus*) nests in the project vicinity. The southern bald eagle is protected under the Bald and Golden Eagle Protection Act (BGEPA). Development guidelines are required for any proposed projects with 330 feet for urban areas and 660 feet for non-urban areas. No active bald eagle nests are located within 2 miles of the project area. No bald eagle nests were observed on the subject property or adjacent to its boundaries. Therefore, this project is not likely to adversely affect the southern bald eagle.

The southeastern American kestrel (Falco sparverius paulus) is listed as a Species of Special Concern by the FWC. The subject property provides habitat which could be conducive to utilization and nesting by the southeastern American kestrel. It is recommended that southeastern American kestrel surveys be completed prior to

development of the site. The surveys should be conducted in accordance with guidelines set forth within the publication *Ecology and Habitat Protection Needs of the southeastern American kestrel* (Falco sparverius paulus) *on large-scale development sites in Florida*.

A preliminary gopher tortoise (*Gopherus polyphemus*) burrow survey was conducted on the subject property. The gopher tortoise survey was conducted in accordance with the techniques outlined in the publication*, Ecology and Habitat Protection Needs of Gopher Tortoise (*Gopherus polyphemus*) Populations Found on Lands Slated for Development in Florida*. The gopher tortoise, listed as Threatened by the FWC, is a key component in the determination of habitat suitability for other protected species because of the large number of other animals that will use tortoise burrows for one or more of their life requisites. No potentially occupied gopher tortoise burrows were identified. Prior to construction an updated 100% gopher tortoise survey should be completed.

The eastern indigo snake (*Drymarchon corais couperi*), has a moderate likelihood to occur on the subject property due to the habitats identified. The species is a gopher tortoise commensal species due to its association and utilization of gopher tortoise burrows for their life requisites. Prior to construction a 100% gopher tortoise survey will be completed.

The American alligator (Alligator mississippiensis) is listed as Threatened by the FWS. Best Management Practices (BMP's) should be followed in the case of any individual American alligator entering the project area during construction will be provided ample space to allow the animal to exit the construction zone. Through this management technique, the project is not likely to adversely affect the American alligator.

Florida black bear (Ursus americanus floridanus) have been observed in the vicinity of the subject property along US Highway 1. No signs of Florida black bears were identified on the subject property. Any proposed project for development should adhere to the Florida Bear Smart Communities program. If the development criteria are adhered to then the project is not anticipated to adversely affect the Florida black bear.

No other protected species are anticipated to utilize the subject property.

6.2 Protected Plant Species

The protected plant species with some potential to occur on the subject property are listed in Table 6.2.1, below.

Table 6.2.1: Protected plant species with the potential to occur on the Matanzas Woods Golf Course property, in Palm Coast, Flagler County, Florida.

Species Name	Common Name	Agency Listing		Likelihood of Occurrence	Habitat
		FDACS	FWS		
Asclepias viridula	Southern milkweed	T		Low	Pine flatwoods at wetland margins

Calopogon barbatus	Bearded grass pink	T	Low	Wet pine flatwoods, bogs
Calopogon multiflorus	Many-flowered grass pink	E	Low	Pine flatwoods, esp. recently burned
Encyclia tampensis	Butterfly orchid	CE	Low	Mangrove, cypress and hardwood swamps; hammocks
Epidendrum conopseum	Greenfly orchid	CE	Low	Moist hammocks, cypress and hardwood swamps; epiphytic
Helianthus carnosus	Lakeside sunflower	E	Low	Wet flatwoods
Lilium catesbaei	Catesby's lily	T	Low	Moist pine flatwoods and savannahs
Lycopodiella cernua	Nodding clubmoss	CE	Low	Wet pinelands
Nemastylis floridana	Fall-flowering ixia; celestial lily	E	Low	Swamps, marshes and wet pine flatwoods
Osmunda cinnamomea	Cinnamon fern	CE	Obs	Wet woods and swamps
Osmunda regalis	Royal fern	CE	Obs	Wet woods and swamps
Platanthera blephariglottis	Large white fringed orchid	T	Low	Marshes, and wet, open, grassy areas
Platanthera flava	Southern tubercled orchid;gypsy-spikes	T	Low	Cypress and hardwood swamps
Platanthera nivea	Snowy orchid; bog torch	T	Low	Wet pine flatwoods
Pogonia ophioglossoides	Rose pogonia	T	Low	Marshes and wet, pine flatwoods
Sarracenia minor	Hooded pitcherplant	T	Low	Wet, open, acid pinelands and bogs
Spiranthes brevilabris var. floridana	Florida ladies' tresses	E	Low	Pine flatwoods
Spiranthes laciniata	Lace-lip ladies' tresses	T	Low	Marshes and cypress swamps
Spiranthes longilabris	Long-lip ladies' tresses	T	Low	Marshes and wet pine flatwoods
Spiranthes tuberosa	Little ladies' tresses; little pearl twist	T	Low	Pine flatwoods
Zephyranthes atamasca	Rain lily	T	Low	Wet pine flatwoods and meadows
Zephyranthes simpsonii	Simpson's zephyr lily	T	Low	Wet pine flatwoods and meadows

E= Endangered; T= Threatened; CE= Commercially Exploited

No federally protected plant species are expected to occur on the subject property.

7.0 CULTURAL RESOURCES

A preliminary review of the Florida Master Site File (FMSF) was completed through the Division of Historical Resources (DHR) and the State Historic Preservation Officer (SHPO) for the subject property. One known archaeological resource and one resource group were adjacent to the subject property. US Highway 1 (FL00291) is listed as a linear resource by DHR. No significant impacts to US Highway 1 are anticipated. Davis' Store (FL00248) is listed as an archaeological resource. This resource was identified as part of the Palm Coast Park DRI. The resource is no longer in existence and is not eligible for further evaluation. Please see Appendix III for correspondence from the Florida Master Site File. The project is not anticipated to affect any cultural resources.

8.0 SUMMARY

The Matanzas Woods Golf Course property is located within the City of Palm Coast, Flagler County, Florida. The subject property consists disturbed upland, wetland, and surface water habitats. The property is approximately 275.96 acres in total size.

Multiple wetlands totalling approximately 1.86 acres and surface waters totaling approximately 23.57 acres were delineated on the subject property. In addition to the wetlands, approximately 20.18 acres of surface water ponds, and 0.84 acres of surface water ditches are located on the subject property. The wetlands on the subject property are all considered moderate quality and would therefore require a 25' average/15' minimum upland buffer by the City of Palm Coast. If wetland impacts are proposed the wetland mitigation could be completed through onsite wetland preservation/enhancement or wetland creation, or through the purchase of mitigation credits from the Fish Tail Swamp Wetland Mitigation Bank or the Brick Road Wetland Mitigation Bank.

The subject property provides potential habitat for a multitude of protected wildlife species. Further specific species surveys are recommended prior to construction of the project. Specific surveys for the gopher tortoise, Florida sandhill crane, and southeastern American kestrel should be completed.

No federally protected flora species are anticipated on the subject property.

No known cultural resources are anticipated on or adjacent to the subject property. Therefore, no impacts to cultural resources is anticipated due to development of the property.

HABITAT ASSESSMENTS

PART I – Qualitative Description
Wetland Quality Assessment Method

Site/Project Name	Application Number	Assessment Area Name or Number
Matanzas Woods Golf Course		

FLUCCs code	Further classification (optional)	Impact or Mitigation Site?	Assessment Area Size
617,630, 641			26.20 acre

Basin/Watershed Name/Number	Affected Waterbody (Class)	Special Classification (i.e.OFW, AP, other local/state/federal designation of importance)
9 - Matanzas & Pellicer Creek		

Geographic relationship to and hydrologic connection with wetlands, other surface water, uplands

The site is bound by development and roads

Assessment area description

The wetlands onsite have been impacted by the past pine silviculture, surrounding develpment, and fire suppression.

Significant nearby features	Uniqueness (considering the relative rarity in relation to the regional landscape.)
Roads and homes around the property	N/A

Functions	Mitigation for previous permit/other historic use
Provides cover, roosting, substrate, and/or refuge; food chain support; water quality improvements, flood water storage/attenuation.	N/A

Anticipated Wildlife Utilization Based on Literature Review (List of species that are representative of the assessment area and reasonably expected to be found)	Anticipated Utilization by Listed Species (List species, their legal classification (E, T, SSC), type of use, and intensity of use of the assessment area)
Whitetail deer, bobcat, cottonmouth, Eastern diamondback rattlesnake, pigmy rattlesnake, wading birds, redshouldered hawk, vultures, various passerine birds,	Wading Birds - feeding & roosting ;

Observed Evidence of Wildlife Utilization (List species directly observed, or other signs such as tracks, droppings, casings, nests, etc.):

Additional relevant factors:

Assessment conducted by:	Assessment date(s):
JS	3/25/2019

PART II – Quantification of Assessment Area
Wetland Quality Assessment Method

Site/Project Name	Application Number	Assessment Area Name - Review (Original)
Matanzas Golf Course		
Assessment Area Acreage	**Review (Original) Assessment conducted by:**	**Review (Original) Assessment dates:**
26.20 acre	JS	3/25/19

Scoring Guidance	**Optimal (10)**	**Moderate(7)**	**Minimal (4)**	**Not Present (0)**
The scoring of each indicator is based on what would be suitable for the type of wetland or surface water assessed	Condition is optimal and fully supports wetland/surface water functions	Condition is less than optimal, but sufficient to maintain most wetland/surface water functions	Minimal level of support of wetland/surface water functions	Condition is insufficient to provide wetland/surface water functions

Location and Landscape Support Score: 6	Notes:	Adjacent Landscape Description Development and roads and past land uses and disturbance dramatically affect habitat and wildlife usage.
Water Environment Score: 6	Notes:	Soils Description not appropriate soil composition due to drainage and ditching found offsite Hydrology Description Hydrology has been affected by pine rowing, ditches, and development
Community structure 1. Vegetation and/or 2. Benthic Community Score: 6	Notes:	Vegetation & Wildlife Notations Heavy coverage of Chinese tallow. Fire suppresion has affected biodiversity and age composition. FLUCFCS** Code: 617, 621,630, 641

WQAM Score	Wetland Category Key - Application Package Requirements from Proposed Wetland Impacts		
Sum of above / 30	Minimal (0.00 - 0.40)	Moderate (0.41 - 0.70)	Optimal (0.71 - 1.0)
	Wetland Impact Analysis	Wetland Impact Analysis	Wetland Impact Analysis
	25' avg. 15' min. upland buffer	25' avg. 15' min. upland buffer	50' avg. 25' min. upland buffer

Score: 0.6	State and federal permits	State and federal permits	State and federal permits
		Avoidance and Minimization Analysis	Avoidance and Minimization Analysis
			No Net Loss' Analysis

APPENDIX III

CULTURAL RESOURCE ASSESSMENT

This record search is for informational purposes only and does NOT constitute a project review. This search only identifies resources recorded at the Florida Master Site File and does NOT provide project approval from the Division of Historical Resources. Contact the Compliance and Review Section of the Division of Historical Resources at 850-245-6333 for project review information.

March 27, 2019

Jody Sisk

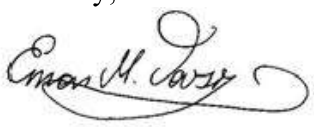
jody@atlanticeco.com

Parcel ID 07-11-31-7037-ORPOA-0002

In response to your inquiry of March 27, 2019, the Florida Master Site File lists one archeological resource and one resource group recorded at the designated area in Flagler County, Florida



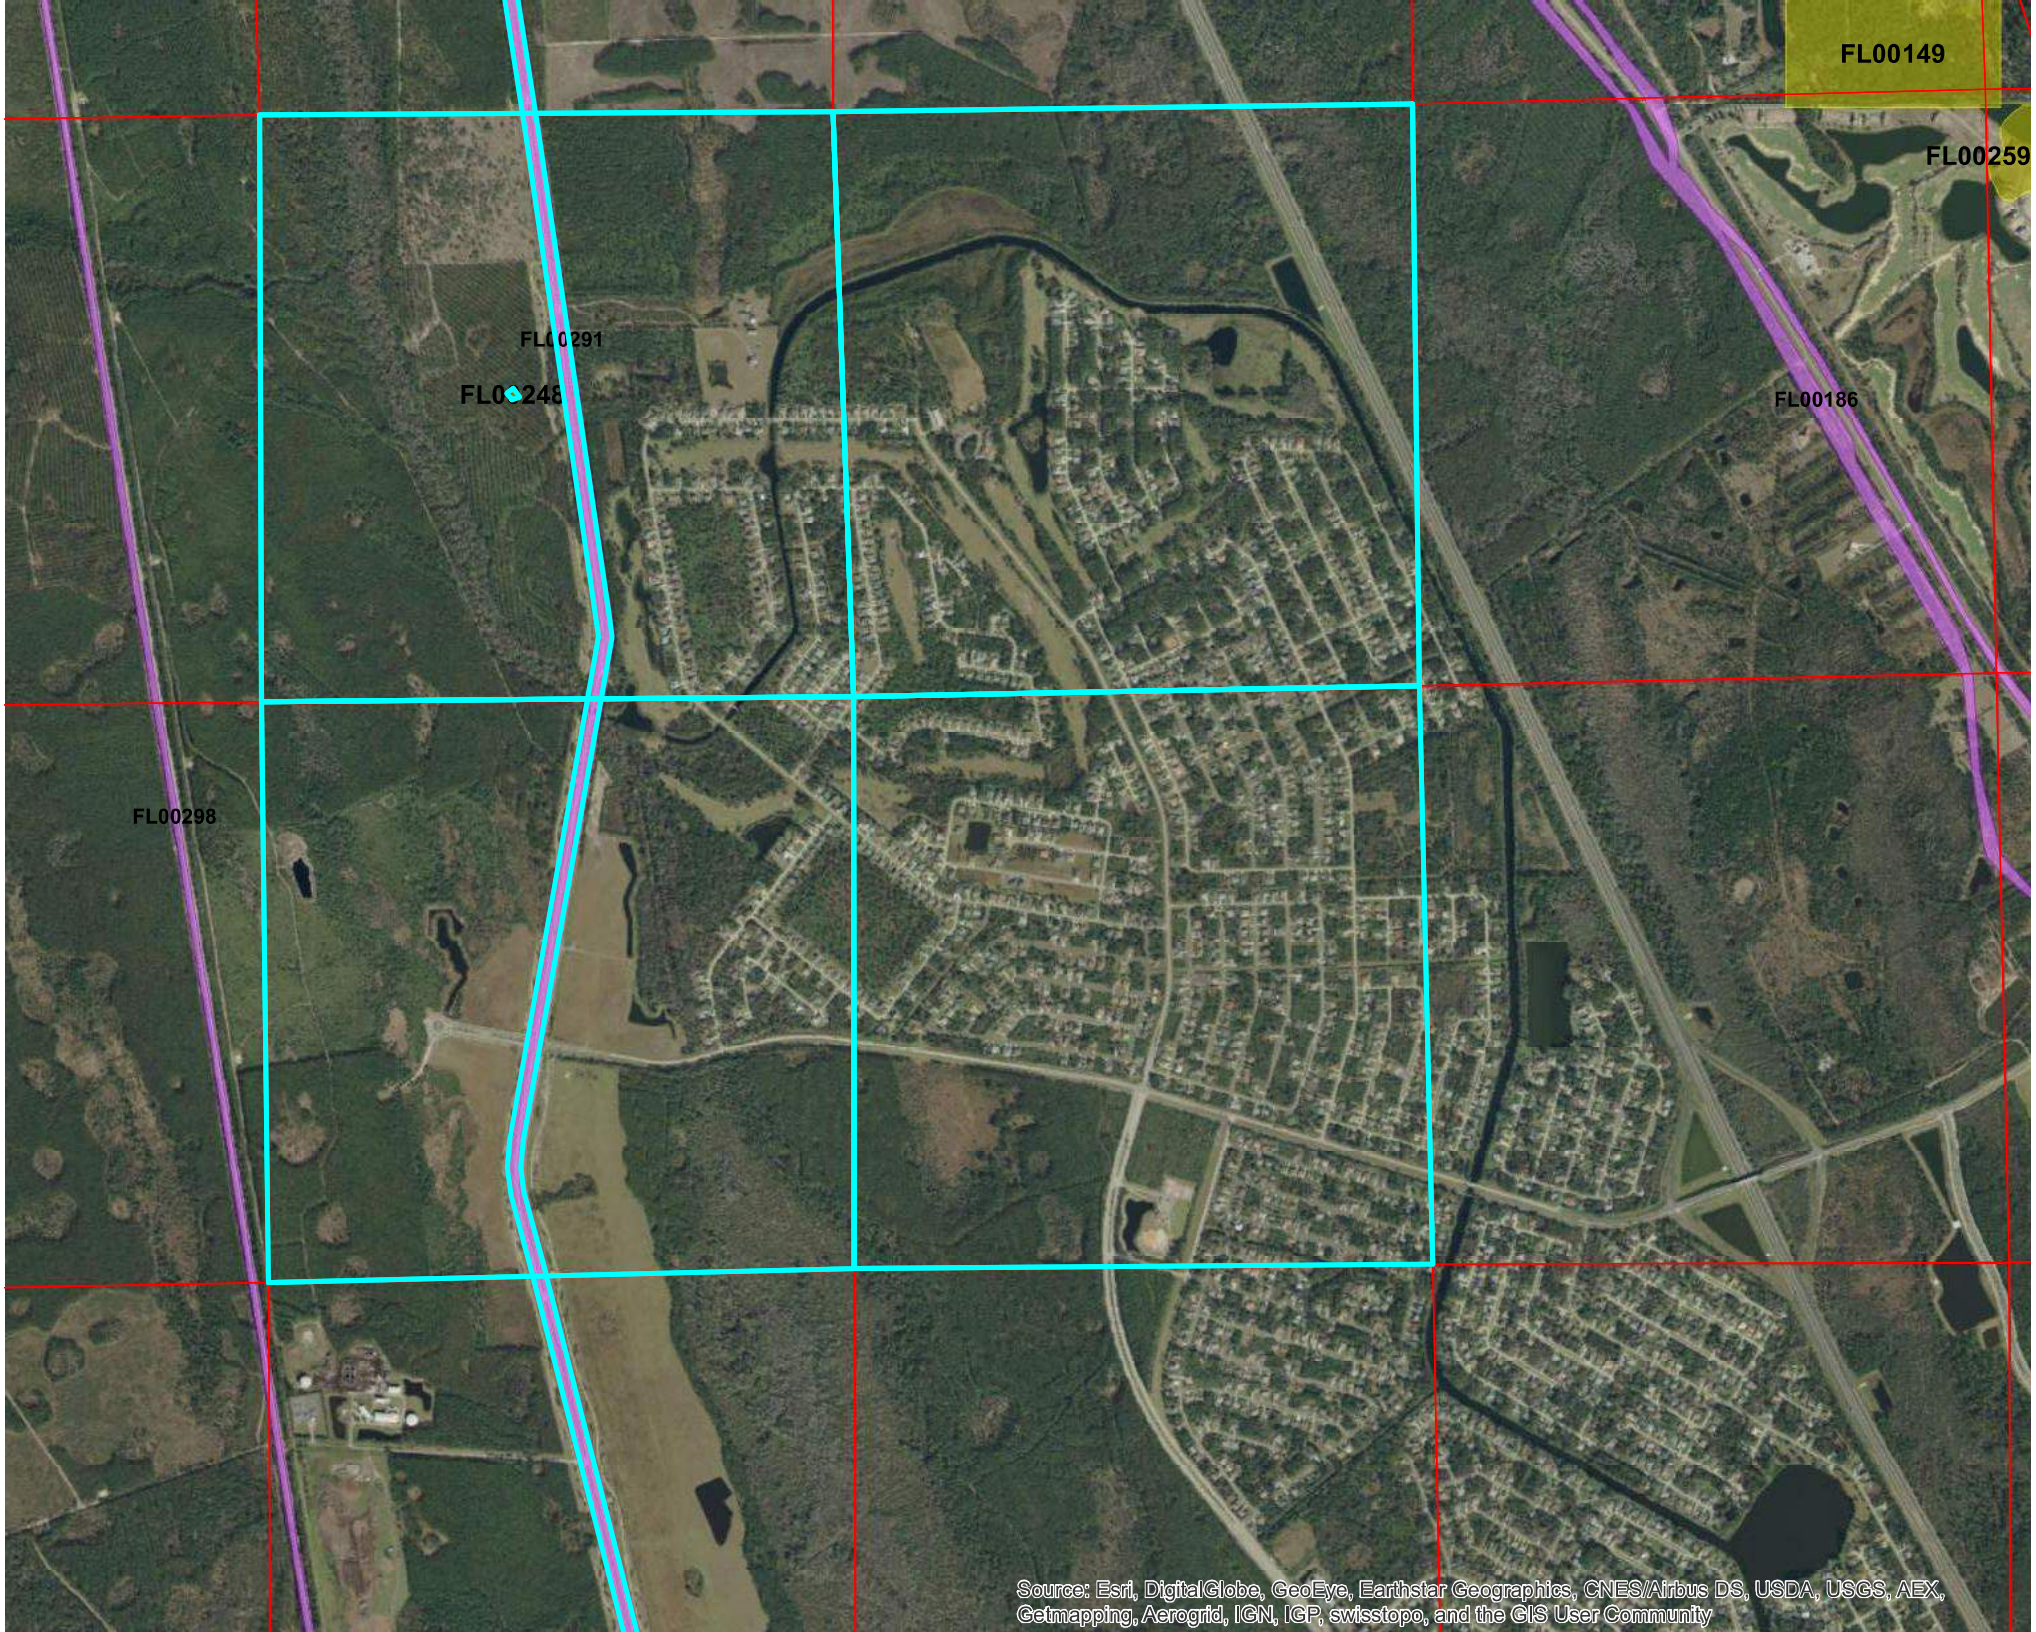
Sections 21, 22, 27, and 28, Township 10 S, Range 30 E

When interpreting the results of our search, please consider the following information:

- **This search area may contain *unrecorded* archaeological sites, historical structures or other resources even if previously surveyed for cultural resources.**
- **Because vandalism and looting are common at Florida sites, we ask that you limit the distribution of location information on archaeological sites.**
- **While many of our records document historically significant resources, the documentation of a resource at the Florida Master Site File does not necessarily mean the resource is historically significant.**
- **Federal, state and local laws require formal environmental review for most projects. This search DOES NOT constitute such a review. If your project falls under these laws, you should contact the Compliance and Review Section of the Division of Historical Resources at 850-245-6333.**

Please do not hesitate to contact us if you have any questions regarding the results of this search.

Sincerely,



Eman M. Vovsi, Ph.D.

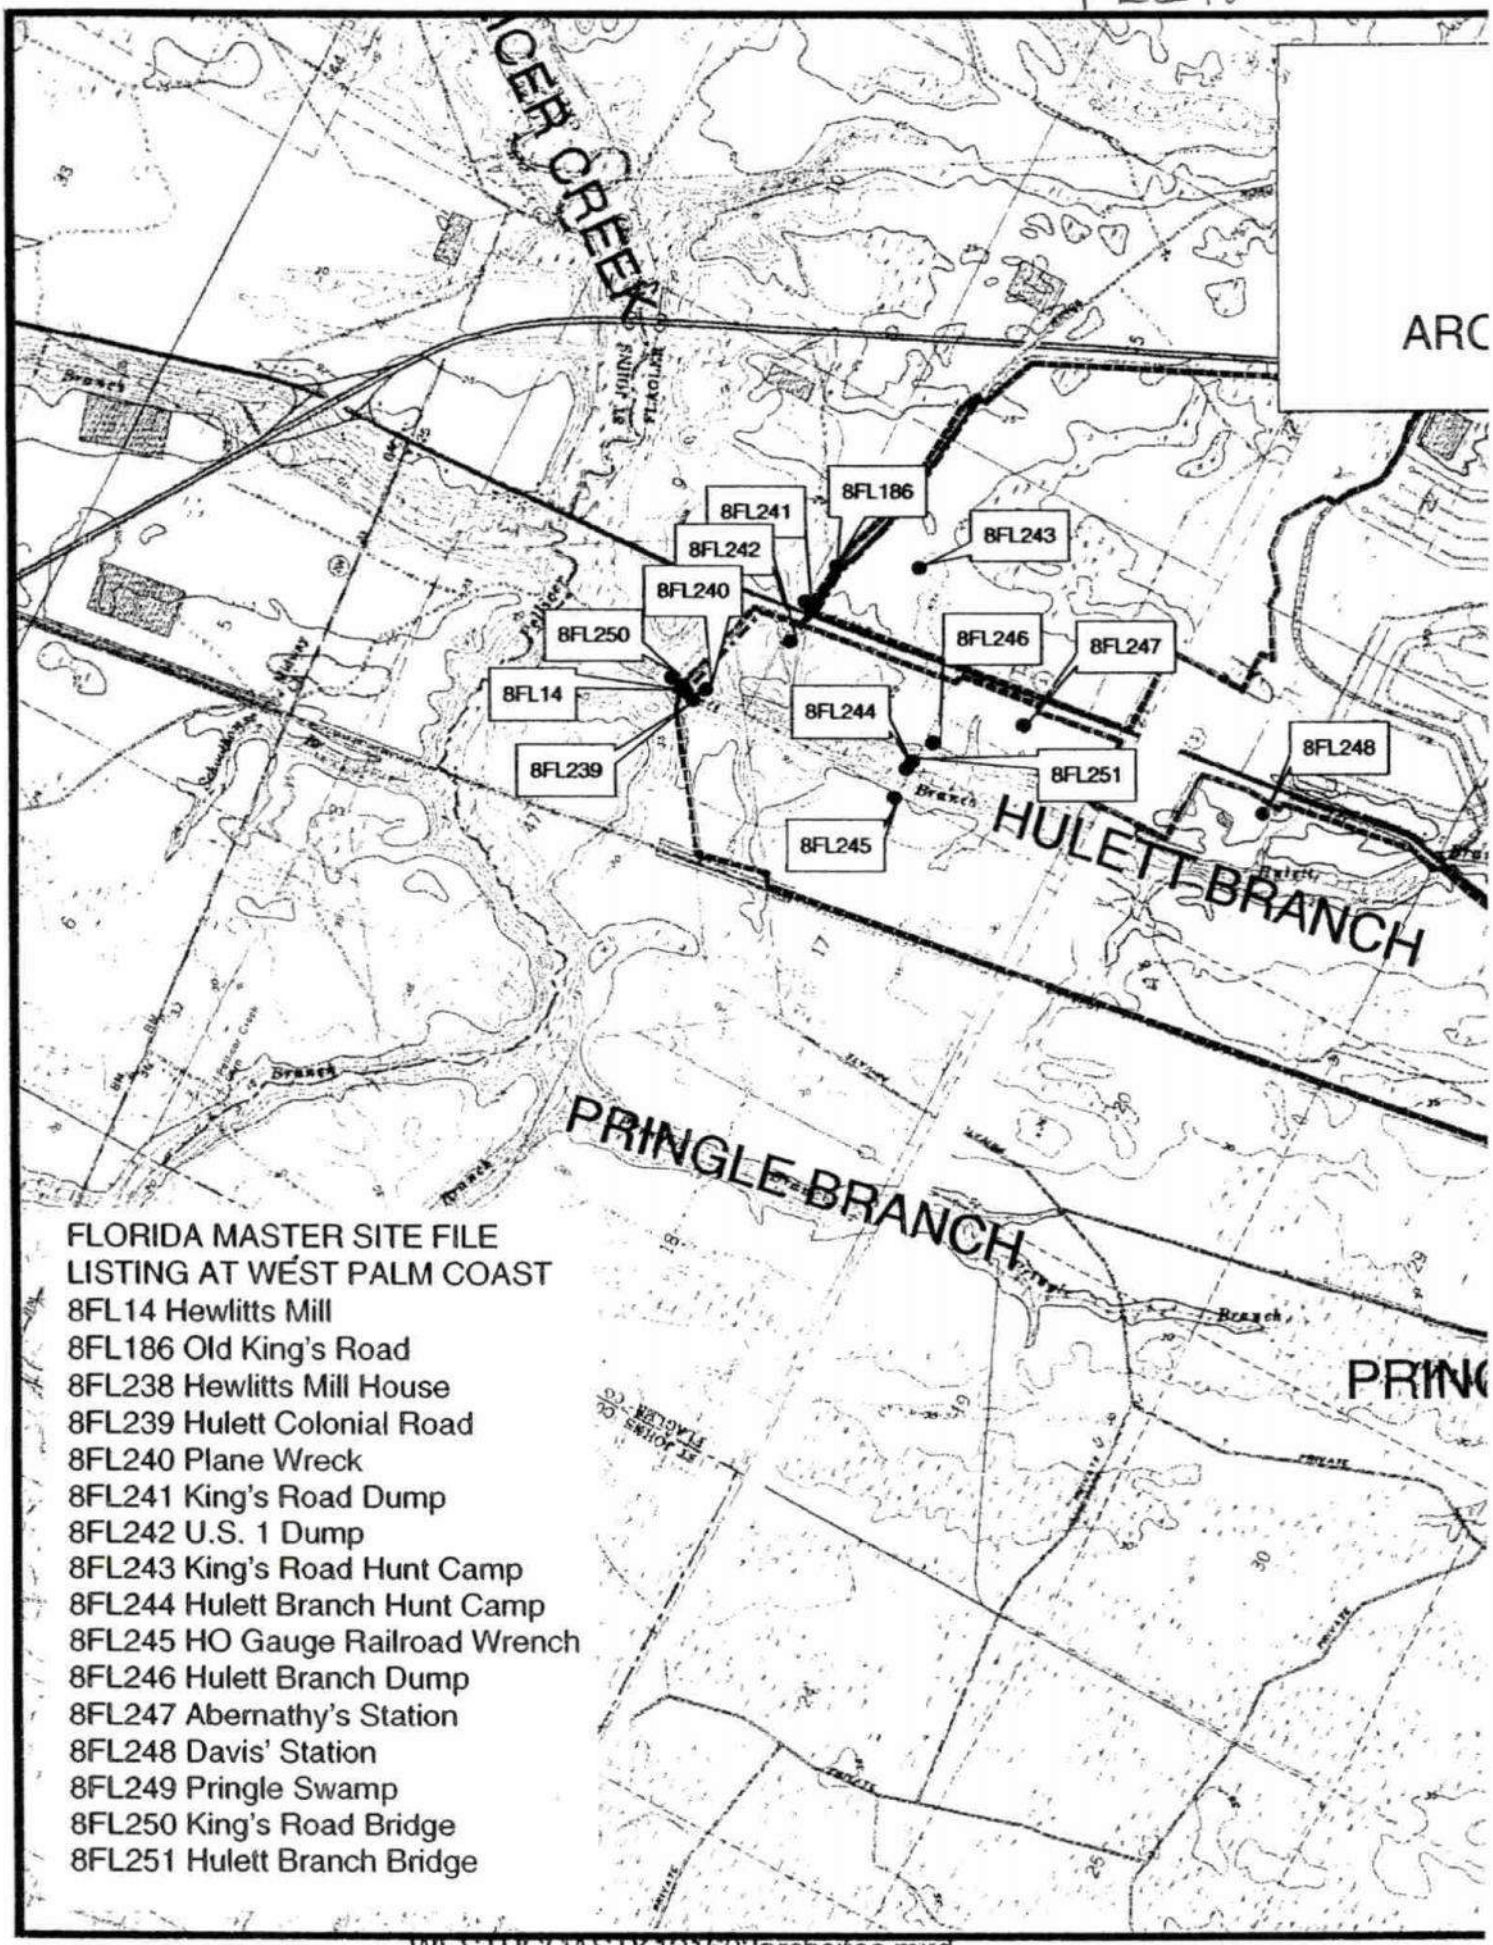
Hulett Branch Dump – 8FL246

This small, spatially isolated refuse dump site was discovered during a surface inspection of a sandy fire lane in western regions of the West Palm Coast properties (see Figure 5). It is located in the northwest quarter of the southwest quarter of Section 16, Township 10 South, Range 30 East. The site was evidenced by a scatter of characteristic late 19th century bottle fragments and a few metal pieces. The refuse pit has been thoroughly displaced by the fire land cut. Efforts to locate associated features or a possibly related homestead site through subsurface testing were unsuccessful. It is surmised that the site is completed destroyed. Thus, **it is concluded that 8FL246 is not eligible for inclusion on the National Register of Historic Places.**



Abernathy's Station – 8FL247
Davis' Station – 8FL248

Interviews with two local residents provided information regarding two historic sites that were located on Parcel A of West Palm Coast properties. The locations of two filling stations/general stores were identified by Dupont (2003) for the west side of U.S. 1 (the northeast quarter of the southwest quarter of Section 16, Township 10 South, Range 30 East for Abernathy's Station and the center of Section 21, Township 10 South, Range 30 East for Davis' Station. Both Abernathy's and Davis' Stations were once essential businesses to service vehicular traffic prior to the construction of I-95. Dupont stated the Ralph Abernathy filling station was opened sometime in the 1930s. He thought the Davis filling station was later, in the early 1950s. The sites of these two businesses were identified by the field reconnaissance crew at the specific areas pinpointed by Dupont on topographic and aerial maps. Field inspections reveal the remnants of structures demolished in the past decade. Structural and archaeological integrity of both sites have been greatly compromised due to the destruction of the stations, thus **it is concluded that 8FL247 and 8FL248 are not eligible for inclusion on the National Register of Historic Places.**

Pringle Swamp – 8FL249

Only one prehistoric archaeological site (8FL249), a small ceramic scatter, was discovered during the subject survey. The site is located in the northwest quarter of the northwest quarter of Section 10, Township 11 South, Range 30 East (see Figure 5). The site was evidenced by two pottery sherds: a St. Johns Plain fragment and a St. Johns Check-Stamped fragment. Based on site density and diagnostic artifacts, it is surmised that the ceramics represent an isolated prehistoric hinterland activity, possible hunting, during the late St. Johns cultural periods (ca. post A.D. 800).

LEGAL DESCRIPTION

A PORTION OF RESEVED PARCEL "C", LAKEVIEW – SECTION 37 PALM COAST PARK AT PALM COAST, AS RECORDED IN MAP BOOK 13, PAGES 1 THROUGH 29 INCLUSIVE, PUBLIC RECORDS OF FLAGLER COUNTY, FLORIDA, BEING MORE PARTICULARLY DESCRIBED AS FOLLOWS:

FROM A POINT OF BEGINNING, BEING THE NORTHWEST CORNER OF SAID RESERVED PARCEL "C" (SAID POINT BEING LOCATED ON THE EASTERLY RIGHT-OF-WAY LINE OF U.S. HIGHWAY NO. 1, A VARIABLE WIDTH PUBLIC RIGHT-OF-WAY); THENCE DEPARTING SAID RIGHT-OF-WAY LINE ALONG THE NORTHERLY LINE OF SAID PARCEL "C", NORTH 89°26'28" EAST FOR A DISTANCE OF 338.33 FEET; THENCE DEPARTING SAID NORTHERLY LINE SOUTH 09°19'20" EAST FOR A DISTANCE OF 461.65 FEET TO A NON-TANGENT CURVE TO THE LEFT HAVING AN ARC LENGTH OF 34.59 FEET, A RADIUS OF 430.06 FEET, A CENTRAL AGLE OF 04°36'28", A CHORD BEARING OF SOUTH 07°15'28" EAST AND A CHORD LENGTH OF 34.58 FEET TO A POINT OF TANGENCY; THENCE SOUTH 09°33'42" EAST FOR A DISTANCE OF 297.51 FEET; THENCE NORTH 80°26'17" EAST FOR A DISTANCE OF 125.00 FEET TO THE WESTERLY RIGHT-OF-WAY LINE OF LONDON DRIVE, A 60-FOOT WIDE PUBLIC RIGHT-OF-WAY PER SAID PLAT OF LAKEVIEW SECTION 37; THENCE ALONG SAID RIGHT-OF-WAY LINE SOUTH 09°34'33" EAST FOR A DISTANCE OF 6.16 FEET; THENCE DEPARTING SAID RIGHT-OF-WAY LINE SOUTH 80°26'17" WEST FOR A DISTANCE OF 225.00 FEET; THENCE SOUTH 09°33'43" EAST FOR A DISTANCE OF 1640.61 FEET TO A POINT OF CURVATURE; THENCE SOUTHERLY ALONG A CURVE TO THE LEFT HAVING AN ARC LENGTH OF 261.00 FEET, A RADIUS OF 825.00 FEET, A CENTRAL ANGLE OF 18°07'34", A CHORD BEARING OF SOUTH 18°37'30" EAST AND A CHORD DISTANCE OF 259.91 FEET TO A NON-TANGENT LINE; THENCE DEPARTING SAID CURVE ALONG SAID LINE SOUTH 78°45'33" WEST FOR A DISTANCE OF 524.16 FEET TO THE AFOREMENTIONED EASTERLY RIGHT-OF-WAY LINE OF U.S. HIGHWAY NO. 1; THENCE NORTHERLY ALONG SAID RIGHT-OF-WAY LINE FOR THE FOLLOWING FIVE (5) COURSES; THENCE NORTH 09°59'31" EAST FOR A DISTANCE OF 128.08 FEET; THENCE SOUTH 89°43'01" WEST FOR A DISTANCE OF 5.08 FEET; THENCE NORTH 09°59'31" EAST FOR A DISTANCE OF 253.32 FEET TO A POINT OF CURVATURE; THENCE NORTHERLY ALONG A CURVE TO THE LEFT HAVING AN ARC LENGTH OF 655.07 FEET, A RADIUS OF 2030.05 FEET, A CENTRAL ANGLE OF 18°29'19", A CHORD BEARING OF NORTH 00°44'52" EAST AND A CHORD DISTANCE OF 652.23 FEET TO A POINT OF TANGENCY; THENCE NORTH 08°29'47" WEST FOR A DISTANCE OF 179.58 FEET; THENCE SOUTH 81°30'12" WEST FOR A DISTANCE OF 20.00 FEET; THENCE NORTH 08°29'47" WEST FOR A DISTANCE OF 1583.88 FEET TO THE AFOREMENTIONED POINT OF BEGINNING.

THE ABOVE DESCRIBED PARCEL CONTAINS 19.41 ACRES, MORE OR LESS.

SURVEYOR'S NOTES:

1. THE LEGAL DESCRIPTION AS SHOWN HEREON WAS PREPARED BY THE UNDERSIGNED. THIS IS NOT A BOUNDARY SURVEY.

2. BEARINGS BASED ON THE EASTERLY RIGHT-OF-WAY LINE OF U.S. HIGHWAY 1 HAVING A BEARING OF N08°29'47"W (PLAT).

3. HORIZONTAL DATUM IS NORTH AMERICAN DATUM 1983 (NAD 83), FLORIDA STATE PLANE COORDINATE SYSTEM, EAST ZONE. DISTANCES SHOWN HEREON ARE GROUND DISTANCES.

4. THERE MAY BE ADDITIONAL EASEMENTS, RESTRICTIONS AND/OR OTHER MATTERS NOT SHOWN ON THIS SKETCH AND DESCRIPTION WHICH MAY BE FOUND IN THE PUBLIC RECORDS OF FLAGLER COUNTY, FLORIDA. NO TITLE WORK HAS BEEN PROVIDED TO THE UNDERSIGNED FOR THIS PARCEL OF LAND OR ADJACENT PARCELS.

5. UNDERGROUND FOUNDATIONS AND UTILITIES (IF ANY) NOT SHOWN HEREON.

6. THIS SKETCH AND DESCRIPTION IS NOT VALID WITHOUT THE SIGNATURE AND ORIGINAL RAISED SEAL OF A FLORIDA LICENSED SURVEYOR/MAPPER.

7. SYMBOLS SHOWN HEREON SUCH AS VALVES AND UTILITY POLES ARE NOT TO SCALE.

8. THE PURPOSE OF THIS SKETCH AND DESCRIPTION WAS TO PREPARE A DESCRIPTION FOR ADMINISTRAIVE PURPOSES, AS REQUESTED BY THE CLIENT.

9. THE UNDERSIGNED MAKES NO CLAIMS AS TO OWNERSHIP AND/OR RIGHTS OF POSSESSION.

07-11-31-7037-0RP0A-0011
07-11-31-7037-0RP0A-0140

To Whom It May Concern:

Matanzas GC Palm Coast, LLC, a Florida limited liability company is the owner of approximately 182 acres located in the L Section of Palm Coast (formerly known as the Matanzas Golf Course) and as further demonstrated on the attached map identified on **Exhibit "A".**

Currently, the owner has an application into the City of Palm Coast for the First Amendment to the Master Planned Development Agreement. The intent of the application to amend is to allow for development on Tract 3 and amend the allowed uses on Tract 8 along U.S. Highway 1. This Amendment will also incorporate the dedication by the developer to the City of a park. This request is consistent with the City's comprehensive plan and land development regulations.

As required by City Code, we will be having a neighborhood meeting on **Tuesday, April 14, 2026 at 6:00 p.m. at the Cafeteria (Room 511 & 512) of Indian Trails Middle School, 5505 Belle Terre Parkway, Palm Coast, Florida 32137** (see attached **Exhibit "B"** with directions on how to enter the school) to answer any of your questions. It is open to the public.

Sincerely yours,

Michael D. Chiumento III

07-11-31-7037-0RP0A-0140

Dear Sir or Madam:

On Tuesday, April 14, 2026 the Applicant, Matanzas GC Palm Coast, LLC conducted a neighborhood information meeting held at the Cafeteria (Room 511 & 512) of Indian Trails Middle School, 5505 Belle Terre Parkway, Palm Coast, Florida 32137. As noted by the attached sign-in sheet, more than fifty (50) people from the public attended. Present at the meeting were myself, applicant representative and City Planner.

During the neighborhood meeting, the attendees asked several questions regarding the aforementioned application. Below is a reproduction of those questions/concerns and the Applicant's response in *italics* directly beneath the question.

- **Will this project increase density beyond what is currently allowed or expected?**

The rezoning request is being evaluated in accordance with the City's Comprehensive Plan and Land Development Code. Any proposed density will remain within the parameters established or approved through the rezoning process and will not exceed what is ultimately authorized by the City.

- **How will existing viewshed protections be preserved or modified?**

Site design will take into account applicable buffering, setbacks, and landscaping requirements to help preserve visual character. Any modifications to existing viewshed conditions would be subject

to City review and compliance with adopted standards.

- **Are any structures or improvements planned directly adjacent to or behind my property?**

Specific site layout details are still being refined. Future development plans will comply with all required setbacks, buffering, and compatibility standards to ensure appropriate transitions between uses.

- **Which parcels or tracts are proposed for development, and what are their current designations?**

The rezoning application identifies the subject parcels under consideration. All current and proposed land use and zoning designations are documented in the application materials submitted to the City for review.

- **Will you commit to continued investigation and remediation of any arsenic or environmental contamination issues?**

Any environmental concerns will be addressed in accordance with applicable state and federal regulations. Appropriate assessments and, if necessary, remediation efforts will be conducted to ensure the property meets required safety standards.

- **Do you intend to convey any remaining portions of the property to the City of Palm Coast?**

There are no commitments at this time regarding conveyance of additional property. Any such action would be coordinated with the appropriate governing agencies if it becomes relevant.

- **Will any undeveloped portions of the property be placed into a permanent conservation easement?**

The potential for conservation areas or easements will be evaluated as part of the overall development planning process and in coordination with City requirements and environmental considerations.

- **How will utilities (water, sewer, stormwater, electric) be extended and managed for this development?**

Utility infrastructure will be designed and constructed in coordination with the City and relevant service providers. All systems will meet applicable capacity, design, and regulatory requirements.

- **What analysis has been performed regarding potential impacts on surrounding property values?**

Property value impacts are influenced by a variety of market factors. The project will be designed to meet City standards and compatibility requirements, which are intended to support orderly and beneficial development.

- **Do you dispute or acknowledge concerns that the project may negatively affect nearby property values?**

We understand that property value concerns are important to residents. While outcomes can vary, the project will adhere to City regulations and design standards intended to promote compatibility and protect community character.

- **Will there be new or modified access points to U.S. Highway 1, and how will traffic be managed?**

Access and traffic circulation will be evaluated through required traffic studies and coordinated with the appropriate transportation agencies. Any improvements or modifications will be subject to agency approval.

- **What measures will be implemented to address flooding or stormwater impacts in the area?**

Stormwater management systems will be designed in accordance with local and state regulations

to ensure proper drainage, retention, and water quality treatment, minimizing impacts to surrounding properties.

- **How will local wildlife and habitat displacement be addressed?**

Environmental features and habitat considerations will be evaluated during the planning process. Development will comply with applicable environmental regulations and incorporate mitigation measures where required.

- **What provisions are being made for school transportation and student safety?**

The project will coordinate with the local school district regarding transportation needs. Roadway and pedestrian infrastructure will be designed to meet safety standards applicable to school access.

- **How will anticipated population increases affect school capacity and overcrowding?**

School capacity is managed by the local school district. Any impacts will be addressed through the district's planning processes, and applicable impact fees or requirements will be met.

- **What impact will this project have on local taxes or assessments?**

The project is expected to contribute to the local tax base. Any applicable impact fees or assessments will be paid in accordance with City and County requirements.

- **What is the timeline for development of any proposed park or recreational facilities?**

If recreational amenities are included, their timing will be aligned with the overall development phasing plan and subject to City review and approval.

- **Who will be responsible for funding, constructing, and maintaining the park?**

Responsibility for funding, construction, and maintenance will be determined as part of the development approvals and may involve the developer, a homeowners' association, or other entities as approved by the City.

Sincerely,

Michael D. Chiumento III
Attorney
MDC/cm

This document, once executed, must be returned to a Land Development Technician in the City of Palm Coast Community Development Department prior to the hearing date. Failure to provide document by that time will result in the application not being placed on the agenda for a public hearing.

ORDINANCE NO. 2021-01
LAKEVIEW ESTATES MPD
DEVELOPMENT AGREEMENT
APPLICATION #4150

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF PALM COAST, FLORIDA, PROVIDING FOR AN AMENDMENT TO THE OFFICIAL ZONING MAP AS ESTABLISHED IN SECTION 2.06 OF THE CITY OF PALM COAST UNIFIED LAND DEVELOPMENT CODE; AMENDING THE OFFICIAL ZONING MAP FOR 280.6 +/- ACRES OF CERTAIN REAL PROPERTY PREVIOUSLY KNOWN AS THE MATANZAS GOLF COURSE AND GENERALLY LOCATED BETWEEN 0.5 TO 1.25 MILES NORTH OF MATANZAS WOODS PARKWAY, WEST OF I-95, AND EAST OF US HIGHWAY 1, AND MORE PARTICULARLY DESCRIBED IN THE ATTACHED EXHIBIT "A" FROM MASTER PLANNED DEVELOPMENT WITHOUT A DEVELOPMENT AGREEMENT TO LAKEVIEW ESTATES MASTER PLANNED DEVELOPMENT (MPD) WITH A DEVELOPMENT AGREEMENT AS PER SECTION 2.09 OF THE CITY OF PALM COAST UNIFIED LAND DEVELOPMENT CODE; BY ALLOWING INSTITUTIONAL USES ALONG US HIGHWAY 1; CLUSTERED RESIDENTIAL USES AT AN OVERALL DENSITY OF UP TO ONE DWELLING UNIT PER ACRE WITH TOWNHOMES IN THE AREA LOCATED SOUTH OF LONDON DRIVE AND WEST OF LONDONDERRY DRIVE AND SINGLE-FAMILY HOMES OVER THE REMAINDER OF THE RESIDENTIALLY USED PROPERTY; AND ESTABLISHING VIEW PROTECTION ZONES AND WETLAND CONSERVATION AREAS; PROVIDING FOR SEVERABILITY; PROVIDING FOR CONFLICTS; AND PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, the Subject Property on the City's original zoning map in 1999/2000 had a Flagler County zoning designation of Urban Single-Family Residential (R-1B); and

WHEREAS, the Golf Course Community (GCC) Zoning District was created when the initial chapters of the Unified Land Development Code were adopted by Palm Coast through Ordinance 2005-33; and

WHEREAS, the Golf Course Community Zoning District was converted to the Master Planned Development (MPD) Zoning District by Palm Coast through Ordinance 2008-23; and

WHEREAS, the Subject Property ceased to operate as a golf course in or around 2007, and since that time, has not been used for any purpose other than vacant land; and

WHEREAS, the Subject Property has Future Land Use Map (FLUM) designations of Greenbelt and Conservation.

WHEREAS, Matanzas GC Palm Coast, LLC ("Owner") is the Owner of the 280.6 +/- acres of property further described in "Attachment A"("Subject Property") and has agreed to enter into the Lakeview Estates Master Plan Development Agreement, attached hereto as "Attachment B" ("Development Agreement"); and

WHEREAS, the Owner has requested to amend the Master Planned Development Zoning District by adding a Development Agreement in order to allow for 8.3 +/- acres of institutional uses along US Highway 1 and clustered homes at a density of up to one unit per acre on the balance of the land designated Greenbelt on the Future Land Use Map; and

WHEREAS, the Planning and Land Development Regulation Board ("PLDRB") and City Staff of the City of Palm Coast have recommended approval of this Ordinance and the Development Agreement, as modified by the PLDRB, and the PLDRB has found the requested changes and Development Agreement consistent with the City of Palm Coast Comprehensive Plan; and

WHEREAS, the City Council has considered the evidence and testimony presented by the applicant and other interested parties, the recommendations of City staff, and the recommendation of the Planning and Land Development Regulation; and

WHEREAS, the City Council of the City of Palm Coast, as the governing body of the City, pursuant to the authority vested in Chapter 163, Florida Statutes and the City of Palm Coast Unified Land Development Code, is authorized and empowered to consider applications relating to zoning; and

WHEREAS, the notice and public hearing requirements, as provided for in Chapter 2 (Review Authority, Enforcement, and Procedures) of the City of Palm Coast Unified Land Development Code (Ordinance No. 2008-23) have been satisfied; and

WHEREAS, the City Council of the City of Palm Coast held duly noticed public hearings on the proposed amendment and Development Agreement set forth herein and considered findings and advice of staff, citizens, and all interested parties submitting written and oral comments and supporting data and analysis, and has considered the evidence and testimony presented by the applicant and other interested parties, the recommendations of the various City reviewing departments, and the recommendation of the Planning and Land Development Regulation Board (PLDRB) which voted to recommend approval at its regularly scheduled meeting conducted on November 18, 2020, and after complete deliberation, the City Council hereby finds the requested change consistent with the City of Palm Coast Comprehensive Plan, and that sufficient, competent and substantial evidence supports the proposed rezoning as set forth hereunder; and

WHEREAS, the Owner has fully complied with the requirements of City of Palm Coast Unified Land Development Code and the MPD Zoning District by agreeing to the MPD Development Agreement to permit the approved changes; and

WHEREAS, the City Council of the City of Palm Coast hereby finds that this Ordinance serves a legitimate government purpose and is in the best interests of the public health, safety, and welfare of the citizens of Palm Coast, Florida.

NOW, THEREFORE, IT IS HEREBY ORDAINED BY THE CITY OF PALM COAST, FLORIDA:

SECTION 1. Legislative and Administrative Findings. The above recitals (whereas clauses) are hereby adopted as the legislative and administrative findings of the City Council.

SECTION 2. MPD Rezoning. The Palm Coast City Council, pursuant to the Land Development Code of the City of Palm Coast hereby rezones the Subject Property from Master Planned Development without a Development Agreement to Lakeview Estates Master Planned Development Agreement ("MPD") and enacts this Ordinance creating the Lakeview Estates MPD Development Agreement, attached hereto as "Attachment B," for the property generally located between 0.5 and 1.25 miles north of Matanzas Woods Parkway, west of Interstate 95 and east of US Highway 1, legally described in "Attachment A" attached hereto.

SECTION 3. Severability. It is hereby declared to be the intention of the City Council that the sections, paragraphs, sentences, clauses and phrases of this Code are severable, and if any phrase, clause, sentence, paragraph or section of this Code shall be declared unconstitutional by the valid judgment or decree of a court of competent jurisdiction, such unconstitutionality shall not affect any of the remaining phrases, clauses, sentences, paragraphs and sections of this Code.

SECTION 4. Conflicts. All Ordinances or parts of Ordinances in conflict with this Ordinance are hereby repealed.

SECTION 5. Effective Date. This Ordinance shall become effective immediately upon its passage and adoption.

Approved on first reading this 5th day of January 2021.

Adopted on second reading after due public notice and hearing City of Palm Coast this 19th day of January 2021.

MATANZAS WOODS GOLF COURSE:

Reserved Parcel "A", Lakeview - Section 37 Palm Coast Park at Palm Coast, as recorded in Map Book 13, pages 1 through 29, Public Records of Flagler County, Florida, being more particularly described as follows:
From a POINT OF BEGINNING, being the northeast corner of Block 165 of said Plat of Lakeview; thence North 89°30'56" East 21.68 feet to a point on a curve; thence southerly along a curve to the left having an arc length of 349.56 feet, a radius of 800.00 feet, a central angle of 25°02'07" and a chord bearing South 26°22'21" East, 346.78 feet to a point of tangency; thence South 38°53'25" East 2087.61 feet to a point of curvature; thence southerly along a curve to the right having an arc length of 266.63 feet, a radius of 1120.00 feet, a central angle of 13°38'23" and a chord bearing South 32°04'13" East, 265.99 feet to a point of tangency; thence South 25°15'02" East 772.55 feet to a point of cusp; thence northwesterly along a curve to the left having an arc length of 213.75 feet, a radius of 150.00 feet, a central angle of 81°38'47" and a chord bearing North 66°04'26" West 196.12 feet to a point; thence South 16°53'50" East 110.00 feet to a point on a curve; thence westerly along a curve to the left having an arc length of 11.66 feet, a radius of 40.00 feet, a central angle of 16°42'25" and a chord bearing South 64°44'57" West 11.62 feet to a point; thence North 33°36'15" West 110.00 feet to a point on a curve; thence southerly along a curve to the left having an arc length of 213.75 feet, a radius of 150.00 feet, a central angle of 81°38'47" and a chord bearing South 15°34'21" West 196.12 feet to a point of tangency; thence South 25°15'02" East 100.25 feet to a point on a curve; thence southwesterly along a curve to the left having an arc length of 217.30 feet, a radius of 280.98 feet, a central angle of 44°18'38" and a chord bearing South 42°35'39" West 211.92 feet to a point of tangency; thence South 08°35'49" West 179.39 feet; thence North 81°24'11" West 913.66 feet; thence South 08°35'49" West 125.00 feet; thence North 81°24'11" West 40.00 feet; thence North 08°35'49" East 125.00 feet; thence North 81°24'11" West 125.00 feet to a point of curvature; thence westerly along a curve to the left having an arc length of 180.00 feet, a radius of 225.00 feet, a central angle of 45°50'12" and a chord bearing South 75°40'43" West,175.24 feet to a point; thence South 37°14'23" East, 125.00 feet to a point on a curve; thence southerly along a curve to the left having an arc length of 77.08 feet, a radius of 100.00 feet, a central angle of 44°09'48" and a chord bearing South 30°40'43" West 75.19 feet to a point of tangency; thence South 08°35'49" West, 237.34 feet; thence North 81°24'11" West 87.50 feet; thence North 51°24'11" West 130.00 feet to a point of curvature; thence westerly along a curve to the left having an arc length of 213.75 feet, a radius of 150.00 feet, a central angle of 81°38'47" and a chord bearing South 87°46'25" West,196.12 feet to a point; thence South 43°02'58" East 110.00 feet to a point on a curve; thence southerly along a curve to the left having an arc length of 11.66 feet, a radius of 40.00 feet, a central angle of 16°42'26" and a chord bearing South 38°35'49" West 11.62 feet to a point; thence North 59°45'24" West 110.00 feet; thence South 38°35"49" West 128.21 feet; thence North 51°24'11" West 1018.03 feet; thence North 38°35'49" East 380.00 feet;

thence South 51°24'11" East 500.00 feet to a point of curvature; thence easterly along a curve to the left having an arc length of 353.43 feet, a radius of 225.00, a central angle of 90°00'00" and a chord bearing North 83°35'49" East, 318.20 feet to a point; thence North 51°24'11" West 125.00 feet; thence North 38°35"49" East 230.92 feet; thence South 51°24'11" East 100.00 feet; thence South 81°24'11" East 993.30 feet to a point of curvature; thence northeasterly along a curve to the left having an arc length of 431.48 feet, a radius of 225.00 feet, a central angle of 109°52'35" and a chord bearing North 43°39'32" East, 368.34 feet to a point of tangency; thence North 11°16'46" West 478.51 feet to a point of curvature; thence northwesterly along a curve to the left having an arc length of 245.29 feet, a radius of 225.00 feet, a central angle of 62°27'41" and a chord bearing North 42°30'36" West, 233.32 feet to a point; thence North 08°35'49" East 77.01 feet to a point of curvature; thence northwesterly along a curve to the left having an arc length of 353.43 feet, a radius of 225.00 feet, a central angle of 90°00'00" and a chord bearing North 36°24'11" West 318.20 feet to a point; thence westerly along a curve to the left having an arc length of 446.47 feet, a radius of 150.00 feet, a central angle of 170°32'16" and a chord bearing North 76°40'19" West 298.98 feet to a point of tangency; thence South 08°35'49" West 149.66 feet; thence North 81°24'11" West 50.00 feet; thence North 08°35'49" East 125.00 feet; thence North 78°43'26" West 153.29 feet; thence North 09°33'43" West 148.11 feet; thence South 69°50'14" East 67.79 feet to a point of curvature; thence easterly along a curve to the left having an arc length of 146.25 feet, a radius of 150.00 feet, a central angle of 55°51'48" and a chord bearing North 87°23'42" East,140.53 feet to a point; thence North 30°32'12" West 110.00 feet to a point on a curve; thence northeasterly along a curve to the left having an arc length of 11.66 feet, a radius of 40.00 feet, a central angle of 16°42'25" and a chord bearing North 51°06'35" East 11.62 feet to a point; thence South 47°14'37" East 110.00 feet to a point on a curve; thence northerly along a curve to the left having an arc length of 213.75 feet, a radius of 150.00 feet, a central angle of 81°38'48" and a chord bearing North 01°55'59" East 196.12 feet to a point of tangency; thence North 38°53'25" West 326.21 feet; thence North 80°07'23" West 122.65 feet; thence North 09°33'42" West 80.00 feet to a point of curvature; thence northerly along a curve to the left having an arc length of 166.36 feet, a radius of 325.00 feet, a central angle of 29°19'42" and a chord bearing North 24°13'34" West,164.55 feet to a point of tangency; thence North 38°53'25" West 200.00 feet; thence South 51°06'35" West 125.00 feet; thence North 38°53'25" West 20.00 feet; thence North 51°06'35" East 125.00 feet; thence North 38°53'25" West 178.81 feet to a point of curvature; thence northwesterly along a curve to the left having an arc length of 292.66 feet, a radius of 325.00 feet, a central angle of 51°35'39" and a chord bearing North 64°41'14" West, 282.87 feet to a point of tangency; thence South 89°30'56" West 678.94 feet to a point of curvature; thence southwesterly along a curve to the left having an arc length of 389.08 feet, a radius of 225.00 feet, a central angle of 99°04'39" and a chord bearing South 39°58'37" West, 342.38 feet to a point of cusp; thence North 09°33'43" West 137.22 feet; thence North 00°29'04" West 425.00 feet; thence North 89°30'56" East 1200.00 feet; thence North 00°29'04" West 125.00 feet to the POINT OF BEGINNING.

ALSO INCLUDING:

Reserved Parcel "C", Lakeview - Section 37 Palm Coast Park at Palm Coast, as recorded in Map Book 13, pages 1 through 29, Public Records of Flagler County, Florida, being more particularly described as follows:
From a POINT OF BEGINNING, being the northwest corner of said Reserved Parcel "C"; thence North 89°26'28" East 630.08 feet; thence South 38°43'02" West 202.91 feet; thence South 51°40'07" East 125.00 feet to a point on a curve; thence southerly along a curve to the left having an arc length of 250.77 feet, a radius of 300.00 feet; a central angle of 47°53'36" and a chord bearing South 14°23'05" West 243.53 feet to a point of tangency; thence South 09°33'43" East 403.87 feet; thence South 80°26'17" West 125.00 feet; thence South 09°33'43" East 520.00 feet, thence North 80°26'17" East 125.00 feet; thence South 09°33'43" East 40.00 feet; thence South 80°26'17" West 125.00 feet; thence South 09°33'43" East 980.61 feet to a point of curvature; thence southerly along a curve to the left having an arc length of 441.04 feet, a radius of 725.00 feet, a central angle of 34°51'17" and a chord bearing South 26°59'21" East, 434.27 feet to a point; thence North 45°35'00" East 55.00 feet; thence South 44°25'00" East 67.22 feet; thence North 39°51'14" East 73.36 feet to a point on a curve; thence southeasterly along a curve to the left having an arc length of 13.16 feet, a radius of 600.00 feet; a central angle of 01°15'25" and a chord bearing South 50°46'29" East 13.16 feet to a point of tangency; thence South 51°24'11" East 170.76 feet; thence South 54°59'31" West 770.58 feet; thence North 35°00'29" West 649.53 feet to a point on the east right of way line of U.S. Highway No.1; thence northerly along said right of way line of the following six courses; run North 09°59'31" East 128.08 feet; thence South 89°43'01" West 5.08 feet; thence North 09°59'31" East 253.32 feet to a point of curvature; thence northerly along a curve to the left having an arc length of 655.06 feet, a radius of 2030.05 feet, a central angle of 18°29'18" and a chord bearing North 00°44'52" East, 652.23 feet to a point of tangency; thence North 08°29'47" West 179.58 feet; thence South 81°30'12" West 20.00 feet; thence North 08°29'47" West 1583.88 feet to the POINT OF BEGINNING.

ALSO INCLUDING:

Reserved Parcel "D" Lake View - Section 37 Palm Coast Park at Palm Coast, as recorded in Map Book 13, pages 1 through 29, Public Records of Flagler County, Florida, being more particularly described as follows:
From a POINT OF BEGINNING, being the most northerly corner of said Reserved Parcel "D"; thence South 38'53'28" East 93.32 feet; thence North 89°30'56" East 936.80 feet; thence South 00°29'04" East 432.94 feet; thence South 09°33'42" East 57.28 feet to a cusp point; thence northwesterly along a curve to the left having an arc length of 317.78 feet, a radius of 225.00 feet; a central angle of 80°55'21" and a chord bearing North 50°01'23" West 292.02 feet to a point of tangency; thence South 89°30'56" West 846.10 feet; thence North 09°33'43" West 149.00 feet to a point of curvature; thence northerly along a curve to the right having an arc length of 254.23 feet, a radius of 240.00 feet, a central angle of 60°41'38" and a chord bearing North 20°47'06" East, 242.51 feet to the POINT OF BEGINNING.

ALSO INCLUDING:

A parcel of land being a portion of Reserved Parcel "E", Lakeview - Section 37 Palm Coast Park at Palm Coast, as recorded in Map Book 13, pages 1 through 29, Public Records of Flagler County, Florida, being more particularly described as follows: From a POINT OF BEGINNING, being the most southerly corner at said Reserved Parcel "E"; thence North 64°44'58" East 526.36 feet; thence North 25°15'02" West 335.20 feet; thence South 64°44'58" West 125.00 feet; thence North 25°15'02" West 620.00 feet to a point of curvature; thence northwesterly along a curve to the right having an arc length of 60.46 feet, a radius of 425.00 feet, a central angle of 08°09'02" and a chord bearing North 21°10'31" West, 60.41 feet to the southeasterly corner of a parcel described in Official Records Book 492, pages 936-939; thence northerly along the boundary of said parcel described in Official Records Book 492, pages 936-939 for the following five courses; thence South 72°54'00" West 10.00 feet; thence North 53°38'13" West 20.65 feet; thence South 05°01'26" West 11.50 feet; thence North 10°42'21" West 31.82 feet; thence North 01°05'36" East 53.63 feet; thence North 85°41'45" East 24.67 feet to the boundary of above said Reserved Parcel "2", being a point on a curve; thence northerly along a curve to the right having an arc length of 28.33 feet, a radius of 425.00 feet; a central angle of 03°49'11" and a chord bearing North 02°23'39" West 28.33 feet to a point of tangency; thence North 00°29'04" West 1536.30 feet to a point of curvature; thence northeasterly along a curve to the right having an arc length of 213.75 feet, a radius of 150.00 feet; a central angle of 81°38'47" and a chord bearing North 40°20'20" East, 196.12 feet to a point; thence South 08°50'16" East 110.00 feet to a point on a curve; thence easterly along a curve to the right having an arc length of 11.66 feet, a radius of 40.00 feet, a central angle of 16°42'25" and a chord bearing North 89°30'57" East 11.62 feet to a point; thence North 07°52'09" East 110.00 feet to a point on a curve; thence southeasterly along a curve to the right having an arc length of 213.75 feet, a radius of 150.00 feet, a central angle of 81°38'47" and a chord bearing South 41°18'27" East 196.12 feet to a point; thence South 85°19'06" East 128.73 feet; thence South 08°50'16" East 110.00 feet to a point on a curve; thence easterly along a curve to the right having an arc length of 11.66 feet, a radius of 40.00 feet a central angle of 16°42'25" and a chord bearing North 89°30'57" East 11.62 feet to a point; thence North 07°52'09" East 110.00 feet to a point on a curve; thence southeasterly along a curve to the right having an arc length of 213.75 feet, a radius of 150.00 feet, a central angle of 81°38'47" and a chord bearing South 41°18'27" East 196.12 feet to a point of tangency; thence South 00°29'04" East 202.47 feet to a point of cusp; thence northeasterly along a curve to the right having an arc length of 213.75 feet, a radius of 150.00 feet, a central angle of 81°38'47" and a chord bearing North 40°20'20" East, 196.12 feet to a point; thence South 08°50'16" East 110.00 feet to a point on a curve; thence easterly along a curve to the right having an arc length of 11.66 feet, a radius of 40.00 feet a central angle of 16°42'25" and a chord bearing North 89°30'57" East 11.62 feet to a point; thence North 07°52'09" East 110.00 feet to a point on a curve; thence southeasterly along a curve to the right having an arc length of 213.75 feet, a radius of 150.00 feet; a central angle of 81°38'47" and a chord bearing South 41°18'27" East 196.12 feet to a point of cusp; thence northeasterly along a curve to the right having an arc length of 213.75 feet, a radius of 150.00 feet; a central angle of 81°38'47" and a chord bearing North 40°20'20" East 196.12 feet to a point; thence South 08°50'16" East 110.00 feet to a point; thence easterly along a curve to the right having an arc length of 11.66 feet, a radius of 40.00 feet, a central angle of

16°42'25" and a chord bearing North 89°30'57" East 11.62 feet to a point; thence North 07°52'09" East 110.00 feet to a point on a curve; thence southeasterly along a curve to the right having an arc length of 213.75 feet, a radius of 150.00 feet; a central angle of 81°38'47" and a chord bearing South 41°18'27" East 196.12 feet to a point of tangency; thence South 00°29'04" East 1003.67 feet; thence South 25°15'02" East 260.04 feet to a point of curvature; thence southerly along a curve to the right having an arc length of 353.43 feet, a radius of 225.00 feet, a central angle of 90°00'00" and a chord bearing South 19°44'58" West, 318.20 feet to a point of tangency; thence South 64°44'58" West 800.00 feet; thence South 25°15'02" East 300.00 feet; thence North 64°44'58" East 910.00 feet to a point of curvature; thence easterly along a curve to the right having an arc length of 309.71 feet, a radius of 425.00 feet, a central angle of 41°45'11" and a chord bearing North 85°37'33" East, 302.90 feet to a point; thence South 16°30'09" West 125.00 feet to a point on a curve; thence easterly along a curve to the right having an arc length of 34.00 feet, a radius of 300.00 feet, a central angle of 06°29'36" and a chord bearing South 70°15'03" East 33.98 feet to a point; thence North 22°59'45" East 125.00 feet to a point on a curve; thence southeasterly along a curve to the right having an arc length of 309.71 feet, a radius of 425.00 feet, a central angle of 41°45'13" and a chord bearing South 46°07'39" East 302.91 feet to a point of cusp; thence North 25°15'02" West 822.28 feet to a point of curvature; thence northeasterly along a curve to the right having an arc length of 561.16 feet, a radius of 275.00 feet, a central angle of 116°54'59" and a chord bearing North 33°12'28" East, 468.74 feet to a point of tangency; thence South 88°20'03" East 756.56 feet; thence South 07°23'44" West 126.38 feet to a point of on a curve; thence easterly along a curve to the right having an arc length of 150.15 feet, a radius of 150.00 feet, a central angle of 57°21'14" and a chord bearing South 53°55'39" East 143.96 feet to a point of tangency; thence South 25°15'02" East 40.00 feet; thence North 64°44'58" East 125.00 feet to the easterly line of Belle Terre Waterway; thence North 25°15'02" West along said easterly line of Belle Terre Waterway for a distance of 862.29 feet to a point of curvature; thence depart said boundary line of said Reserved Parcel "2" and run westerly along the southerly line of Jefferson Davis Waterway for the following four courses: run westerly along a curve to the left having an arc length of 921.97 feet, a radius of 825.00 feet, a central angle of 64°01'49" and a chord bearing North 57°15'57" West, 874.74 feet to a point of tangency; thence North 89°16'51" West 858.76 feet to a point of curvature; thence westerly along a curve to the right having an arc length of 411.10 feet, a radius of 675.00 feet, a central angle of 34°53'44" and a chord bearing North 71°49'59" West, 404.78 feet to a point of tangency; thence North 54°23'07" West 585.58 feet to a point of curvature; thence westerly along a curve to the left having an arc length of 177.30 feet, a radius of 825.00 feet, a central angle of 12°18'47" and a chord bearing North 60°32'31" West,176.96 feet to a point on the westerly boundary of said Reserved Parcel "2"; thence southerly and westerly along said westerly boundary of said Reserved Parcel "E" for the following seven courses: South 29°30'56" West 419.65 feet; thence South 14°30'56" West 66.19 feet; thence South 00°29'04" East 810.00 feet to a point of curvature; thence southeasterly along a curve to the right having an arc length of 353.43 feet, a radius of 225.00 feet, a central angle of 90°00'00" and a chord bearing South 44°30'56" West, 318.20 feet to a point of tangency; thence South 89°30'56" West 659.20 feet to a point on a curve; thence southeasterly along a curve to the left having an arc length of 331.52 feet, a radius of 720.00 feet, a

central angle of 26°22'53" and a chord bearing South 25°41 '59" East 328.59 feet to a point of tangency; thence South 38°53'25" East 1801.29 feet to the POINT OF BEGINNING.

ALSO INCLUDING:

Part of Government Sections 21 and 22, Township 10 South, Range 30 East, Flagler County, Florida being that part of PARCEL NO. 2 of the property described in Official Records Book 142, pages 278-279, lying south of Jefferson Davis Waterway and being more particularly described as follows:
From a POINT OF REFERENCE being a point on the easterly boundary line of the above described PARCEL NO. 2, said point being the northwest corner of Reserved Parcel "2" as shown on the recorded plat of Lakeview - Section 37 Palm Coast Park at Palm Coast, as recorded in Map Book 13, pages 1 through 29, Public Records of Flagler County, Florida; thence South 29°30'56" West along the easterly boundary of said PARCEL NO. 2 being also along the westerly boundary of said Reserved Parcel "E" for a distance of 390.35 feet to the POINT OF BEGINNING; thence continue along the easterly and southerly boundary of said PARCEL NO. 2 being also along the westerly and northerly boundary of said Reserved Parcel "E" for the following seven courses: run South 29°30'56" West 419.65 feet; thence South 14°30'56" West 66.19 feet; thence South 00°29'04" East 810.00 feet to a point of curvature; thence southwesterly along a curve to the right having an arc length of 353.43 feet, a radius of 225.00 feet, a central angle of 90°00'00" and a chord bearing South 44°30'56" West, 318.20 feet to a point of tangency; thence South 89°30'56" West 659.20 feet to a point on a curve; thence northerly along a curve to the right having an arc length of 151.10 feet, a radius of 720.00 feet, a central angle of 12°01'28" and a chord bearing North 06°29'48" West 150.83 feet to a point; thence South 89°30'56" West 1280.00 feet to the northwest corner of Block 164 of said plat of Lakeview; thence North 12°53'48" East along the southerly line of said Jefferson Waterway for a distance of 297.66 feet to a point on a curve; thence northeasterly along a curve to the right having an arc length of 913.19 feet, a radius of 825.00 feet, a central angle of 63°25'15" and a chord bearing North 39°41'03" East 867.28 feet to a point of tangency; thence North 71°23'41" East 1251.37 feet to a point of curvature; thence easterly along a curve to the right having an arc length of 603.42 feet, a radius of 825.00 feet; a central angle of 41°54'25" and a chord bearing South 87°39'07" East, 590.05 feet to the POINT OF BEGINNING.

ALSO INCLUDING:

All of that land vacated in the Subdivision Plat Of Lakeview - Section 37 Palm Coast Map Book 13 Pages 1 through 29, per Resolution 95-56 as recorded in Official Records Book 538 at Pages 1611 through 1613, Public Records of Flagler County, Florida, being described as follows:
BEGINNING at the southwesterly corner of Lot 22, Block 143 of the aforesaid Lakeview - Section 37; thence North 80°26'17" East a distance of 49.47 feet to a point of curvature of a curve to the right; thence northeasterly along said curve having a radius of 300.00 feet, a central angle of 14°34'59" an arc of 76.36 feet and a chord bearing North

87°43'47" East, 76.15 feet to a point on a non-tangent line; thence North 09°33'43" West, a distance of 1273.40 feet; thence North 80°26'17" East a distance of 124.48 feet; thence South 47°01'13" East a distance of 97.49 feet to a point on a non-tangent curve; thence northeasterly along a curve to the right having a radius of 150.00 feet; a central angle of 08°07'48", an arc length of 21.28 feet and a chord bearing North 47°02'41" East, 21.27 feet to a point of tangency; thence North 51°06'35" East a distance of 100.00 feet; thence South 38°53'25" East a distance of 50.00 feet; thence South 51°06'35" West a distance of 100.00 feet to a point of curvature; thence southwesterly along a curve to the left having a radius of 100.00 feet, central angle of 05°43'46, an arc length of 10.00 feet and a chord bearing South 48°14'42" West,10.00 feet to a point on a non-tangent line; thence South 50°07'21" East a distance of 153.93 feet; thence South 51°06'35" West a distance of 20.25 feet; thence South 09°33'43" East a distance of 936.00 feet; thence South 35°36'55" East a distance of 82.42 feet; thence South 81°24'11" East a distance of 240.00 feet; thence South 08°35'49" West a distance of 125.00 feet; thence South 81°24'11" East a distance of 27.55 feet to a point on a non-tangent curve; thence southwesterly along curve to the left having a radius of 40.00 feet, a central angle of 77°21'52", an arc of 54.01 feet and a chord bearing South 08°35'49" West 50.00 feet to a point on a non-tangent line; thence North 81°24'11" West a distance of 4.59 feet; thence South 08°35'49" West a distance of 125.00 feet; thence North 81°24'11" West a distance of 480.00 feet; thence South 84°38'20" West a distance of 69.97 feet; thence North 03°00'11" West a distance of 144.02 feet to a point on a non-tangent curve; thence southwesterly along a curve to the left having a radius of 250.00 feet, a central angle of 13°34'27", an arc of 59.23 feet and a chord bearing South 87°13'31" West, 59.09 feet to a point of tangency; thence South 80°26'17" West a distance of 51.03 feet to a point on a non-tangent curve; thence northwesterly along a curve to the left having a radius of 200.00 feet, a central angle of 07°10'51" an arc of 25.07 feet and a chord bearing North 05°58'17" West 25.05 feet to a point of tangency; thence North 09°33'43" West a distance of 25.00 feet to the POINT OF Beginning, the above described parcel of land is situated in Section 22, Township 10 South, Range 30 East, Flagler County, Florida.

ALSO INCLUDING:

Part of Reserved Parcel "R-1", Lakeview - Section 37 Palm Coast Park at Palm Coast, as recorded in Map Book 13, pages 1 through 29, Public Records of Flagler County, Florida, being more particularly described as follows:
From a POINT OF BEGINNING, being the most easterly corner of said Reserved Parcel "R-1"; thence South 38°35'49" West along the southeasterly line of said Reserved Parcel "R-1" for a distance of 767.47 feet; thence North 51°24'11" West 1300.81 feet to the most westerly corner of said Reserved Parcel "R-1"; thence North 54°59'31" East,148.96 feet; thence South 59°22'19" East 485.17 feet; thence South 73°43'22" East 217.49 feet; thence North 77°17'42" East 363.21 feet; thence North 38°35'49" East 191.24 feet; thence South 51°24'11" East 350.00 feet to the POINT OF BEGINNING.

ALSO INCLUDING:

A parcel of land being a portion of Reserved Parcel "E" according to the Subdivision Plat Lakeview Section 37, Palm Coast, recorded in Map Book 13, Pages 1 Through 29, of the Public Records of Flagler County, Florida, being more particularly described as follows: A POINT OF REFERENCE being the northeast corner of Lot 1, Block 75; thence North 25°15'02" West along the west line of Belle Terre Waterway a distance of 862.29 feet to THE POINT OF BEGINNING; thence departing Belle Terre Waterway (as platted) 921.97 feet along the arc of a curve to the left (concave southerly) have a central angle of 64°01'49", a radius of 825.00 feet, a chord bearing of North 57°15'57" West and a chord distance of 874.74 feet to a point of tangency, thence North 89°16'51" West a distance of 858.76 feet to a point of curvature; thence 411.10 feet along the arc of a curve to the right (concave northerly) having a central angle of 34°53'44", a radius of 675.00 feet, a chord Bearing of North 71°49'59" West and a chord distance of 404.78 feet to the end of said curve being a point on the boundary of Jefferson Davis Waterway as recorded in Official Records Book 549, Pages 966 through 990, of the Public Records of Flagler County, Florida; thence North 35°36'53" East along said waterway a distance of 30.00 feet to a point on a non-tangent curve; thence easterly 392.83 feet along the arc of a curve to the left (concave northerly)having a central angle of 34°53'44", a radius of 645.00 feet, a chord bearing of South 71°49'59" East and a chord distance of 386.79 feet to a point of tangency; thence South 89°16'51" East a distance of 858.76 feet to a point of curvature; thence 955.50 feet along the arc of a curve to the right concave southwesterly having a central angle of 64°01'49", a radius of 855.00 feet, a chord bearing of South 57°15'57" East and a chord distance of 906.54 feet to the end of said curve; thence South 64°44'58" West a distance of 30.00 feet to the POINT OF BEGINNING.

ALSO INCLUDING:

A PARCEL OF LAND LYING EAST OF U.S. HIGHWAY NO. 1 (STATE ROAD 5), BEING A PORTION OF LONDON WATERWAY, LAKEVIEW SECTION 37, AS RECORDED IN MAP BOOK 13, PAGE 26, LOCATED IN GOVERNMENT SECTION 28, TOWNSHIP 10 SOUTH, RANGE 30 EAST, FLAGLER COUNTY, FLORIDA, BEING MORE PARTICULARLY DESCRIBED AS FOLLOWS:
AS A POINT OF REFERENCE, COMMENCE AT THE INTERSECTION OF THE NORTHEASTERLY LINE OF ASHWOOD WATERWAY (A 300 FOOT RIGHT-OF-WAY) PER SAID LAKEVIEW SECTION 37, WITH THE EASTERLY RIGHT-OF-WAY LINE OF U.S. HIGHWAY No. 1, (STATE ROAD 5, A 175 FOOT RIGHT-OF-WAY AT THIS POINT); THENCE DEPARTING SAID RIGHT-OF-WAY LINE SOUTH 35°00'29" EAST ALONG SAID NORTHEASTERLY LINE OF ASHWOOD WATERWAY FOR A DISTANCE OF 649.53 FEET TO THE INTERSECTION OF THE NORTHWESTERLY LINE OF SAID LONDON WATERWAY, ALSO BEING THE POINT OF BEGINNING OF THIS DESCRIPTION; THENCE DEPARTING SAID ASHWOOD WATERWAY LINE NORTH 54°59'31" EAST ALONG THE NORTHWESTERLY LINE OF SAID LONDON WATERWAY FOR A DISTANCE OF 770.58 FEET TO THE INTERSECTION OF THE SOUTHWESTERLY RIGHT-OF-WAY LINE OF LONDON DRIVE, (A 60 FOOT RIGHT-OF-WAY), PER SAID LAKEVIEW-SECTION 37; THENCE DEPARTING THE NORTHWESTERLY LINE OF SAID LONDON WATERWAY SOUTH 51°24'11" EAST ALONG SAID RIGHT-

OF-WAY LINE FOR A DISTANCE OF 104.24 FEET TO THE SOUTHERLY LINE OF SAID LONDON WATERWAY; THENCE DEPARTING SAID RIGHT-OF-WAY LINE SOUTH 54'59'31" WEST ALONG SAID SOUTHERLY LINE OF LONDON WATERWAY FOR A DISTANCE OF 800.00 FEET TO THE INTERSECTION OF SAID NORTHEASTERLY LINE OF ASHWOOD WATERWAY; THENCE NORTH 35°00'29" WEST ALONG SAID ASHWOOD WATERWAY LINE FOR A DISTANCE OF 100.00 FEET TO THE AFOREMENTIONED POINT OF BEGINNING OF THIS DESCRIPTION.

LAKEVIEW ESTATES

MASTER PLAN DEVELOPMENT AGREEMENT

THIS MASTER PLAN DEVELOPMENT AGREEMENT, (herein referred to as the "Development Agreement") is made and executed this 19th day of January, 2021, by and between the **CITY OF PALM COAST**, a Florida municipal corporation (herein referred to as the "City"), whose address is 160 Lake Avenue, Palm Coast, Florida, 32164, and the owner of the subject property, **MATANZAS GC PALM COAST, LLC**, a Florida limited liability company (herein referred to from time-to-time as the "Owner" regardless of whether singular or plural ownership status) whose address is 200 Ocean Crest Drive, Unit 111, Palm Coast, Florida 32137.

WITNESSETH:

WHEREAS, the Owner is the fee simple title owner of certain real property consisting of 280.6 +/- acres located in the City of Palm Coast, Flagler County, Florida, more particularly described in the legal description attached hereto as **Exhibit "A"** and incorporated herein ("Subject Property"); and

WHEREAS, the Subject Property ceased to operate as a golf course in or around 2007, and since said time, has not been used for any purpose other than vacant land; and

WHEREAS, the Subject Property has Future Land Use Map (FLUM) designations of Greenbelt and Conservation.

WHEREAS, the Owner requests approval for a Master Planned Development ("MPD") on the Subject Property, subject to the conditions set forth in this Development Agreement; and

WHEREAS, the Owner voluntarily agrees with the conditions, terms, and restrictions hereinafter recited, and has agreed voluntarily to their imposition as an incident to development of the Subject Property; and

WHEREAS, the City of Palm Coast Planning and Land Use Regulations Board (PLDRB) and the City of Palm Coast City Council ("City Council") find that this Development Agreement is consistent with the City's Comprehensive Plan (2035) (the "Comprehensive Plan") and Unified Land Development Code (LDC) and that the conditions, terms, restrictions, and requirements set forth herein are necessary for the protection of the public health, safety, and welfare of the citizens of the City; and

WHEREAS, the City Council further finds that this Development Agreement is consistent with and an exercise of the City's powers under the Municipal Home Rule Powers Act; Article VIII, Section 2(b) of the Constitution of the State of Florida; Chapter 166, Florida Statutes; the City of Palm Coast City Charter; other controlling law; and the City's police powers; and

WHEREAS, additional conditions of approval may also be included within the minutes of relevant meetings of the (PLDRB) and City Council. Furthermore, any

representations or promises made by the Owner during the zoning review and approval process for the Project (whether oral or in writing) shall also be additional conditions of approval if deemed appropriate by the City; and

WHEREAS, this is a non-statutory Development Agreement which is not subject to or enacted pursuant to the provisions of Sections 163.3220 -163.3243, Florida Statutes.

NOW, THEREFORE, it is hereby resolved and agreed by and between the City and the Owner that the Owner's application for a Master Planned Development is approved subject to the Development Agreement's following terms and conditions:

SECTION 1. RECITALS.

The above recitals are true and correct and are incorporated herein by this reference and form a material part of this Development Agreement upon which the City and the Owner have relied.

SECTION 2. REPRESENTATIONS OF OWNER.

(a) The Owner hereby represents and warrants to the City that the Owner is the fee simple record title owner of the Subject Property in accordance with the title opinion or title certification provided by the Owner to the City issued by an attorney or title insurance company licensed to provide services in the State of Florida with said title opinion or certification showing all liens, mortgages, and other encumbrances not satisfied or released of record relative to the Subject Property.

(b) The Owner represents and warrants to the City that it has the power and authority to enter into and consummate the terms and conditions of this Development Agreement; that all acts, approvals, procedures, and similar matters required in order to authorize this Development Agreement have been taken, obtained or followed, as the

case may be; that this Development Agreement and the proposed performance of this Development Agreement by the Owner is not an ultra vires act; and that, upon the execution of this Development Agreement by the parties, this Development Agreement shall be valid and binding upon the parties hereto and their successors in interest.

(c) The Owner hereby represents to the City that all required joinders and consents have been obtained and set forth in a properly executed form on this Development Agreement. Unless otherwise agreed to by the City, all liens, mortgages, and encumbrances not satisfied or released of record must be subordinated to the terms of this Development Agreement and joinders must be executed by any mortgagees. It is the responsibility of the Owner to ensure that said subordinations and joinders occur in a form and substance acceptable to the City Attorney prior to the City's execution of this Development Agreement. If the Owner fails to attain the joinder and consent, then the Owner shall lose all rights and benefits deriving hereunder.

SECTION 3. APPROVAL OF MASTER PLAN DEVELOPMENT

(a). The City Council at its business meeting of January 5, 2021, approved a Master Plan Development for the Subject Property subject to the terms and conditions of this Development Agreement.

(b). The Owner acknowledges that if this Development Agreement is ever terminated, the approval shall be deemed null and void and the land uses approved for the Subject Property shall no longer be permitted, unless otherwise approved by the City Council.

(c). The current provisions of the LDC, as may be amended from time-to-time, shall be applicable to the Subject Property unless otherwise specifically stated herein.

Any City Code provision not specifically so identified will not be affected by the terms of this Development Agreement, and will be subject to enforcement and change under the same criteria as if no Development Agreement were in effect.

SECTION 4. PROJECT DESCRIPTION.

The Subject Property has two Comprehensive Plan FLUM designations, Greenbelt on approximately 276.3 +/- acres and Conservation on approximately 4.3 +/- acres. The current MPD zoning on the property will be maintained and this Development Agreement shall govern all development on the Subject Property as defined herein. Consistent with the Comprehensive Plan and the Greenbelt FLUM, residential units may be developed at one unit per acre. Institutional uses proposed on Greenbelt FLUM acreage shall be deducted from the one-unit per acre residential unit calculations. The Project proposes 8.3 +/- acres of Greenbelt FLUM for institutional uses within the Greenbelt FLUM. As a result, 268 residential units are permitted to be clustered within the remaining 268.0 +/- acres of Greenbelt FLUM. The Owner may develop a residential and institutional development as depicted on the Lakeview Estates Conceptual Master Plan, attached hereto as **Exhibit "B"** and as further defined herein ("Project"). **Exhibit "B-1"** through **Exhibit "B-8"** further define the project and illustrate allowable uses within each Tract. The uses on each Tract (shall be as follows which are consistent with the Conceptual Site Plan:

TRACT	USE	LDC Designation to be used for Development Standards purposes only
1	Uses on this tract will be single-family residential homes along with View Protection Zones (VPZ), wetland preservation, stormwater pond creation, and community amenities including exterior storage of	SFR-1

	boats and RVs exclusively for residents residing in the community that will be totally screened from view from off-site properties, Lakeview Boulevard and London Drive.	
2	Uses on this tract primarily consist of View Protection Zones, wetlands, natural buffers, and stormwater ponds. In addition, the property is limited to single family residential dwellings view protection zones, natural buffers, and stormwater ponds.	SFR-2 and P&G
3	This tract is designated as View Protection Zones and natural buffers.	P&G
4	Uses on this tract primarily consist of View Protection Zones/conservation, and wetlands. The property is limited to single family residential dwellings.	SFR-2 and P&G
5	This Tract is designated as a View Protection Zone/conservation.	P&G
6	This Tract is designated as a View Protection Zone	P&G
7	Uses on this tract primarily consist of View Protection Zone and an existing pond. The property is limited to single family residential dwellings.	SFR-2 and P&G
8	Use of this Tract is limited to townhouses, single-family, View Protection Zones, and existing pond. FLUM areas designated Conservation shall be field verified prior to development and the boundaries between the Greenbelt and Conservation areas shall be modified accordingly on the FLUM.	MFR-1[1], SFR-1and P&G
9	Use of this Tract will be limited to 8.3 acres of institutional uses meeting the PSP zoning standards except the maximum building height shall be 35 feet and there shall be a minimum View Protection Zone of 150 feet in width along its eastern property line where it abuts the rear of all existing platted residential lots. All remaining areas include View Protection Zones, new and existing ponds, and natural buffers.	PSP and P&G
10	Use of this Tract is limited to single family residential units with View Protection Zones.	SFR-2

[1] There is a height limitation of thirty-five (35) feet for townhouses, a minimum living area of 1,000 sq. ft. with at least a one-car garage per unit and a minimum setback of 150' from all existing single-family platted lots imposed on this use.

1. TRACT 1: Tract 1 shall be permitted to develop into a single family detached residential community consistent with the City's SFR-1 zoning district

standards. This community will contain its own private amenities which may include a club house, pools, activities room, exercise trails and self-storage of boats and recreational vehicles limited to residents use only. It shall have two (2) entrances onto Lakeview Drive. Stormwater ponds will be developed on site to contain all runoff as required by Federal, State and City rules. In the areas that abut existing residential platted lots, a View Protection Zone ("VPZ") will be required (See Section 10.7). Prior to application for Subdivision Master Plan or Site Plan Approval, an applicant shall ensure that the VPZ is designed in such a fashion that it maintains the Lot Owners' view of the Subject Property consistent with the City's Land Development Code (LDC). Also prior to the above-mentioned application, an applicant shall demonstrate that Tract 1 is or shall be free from environmental hazards and safe for human occupation as regulated by Federal, State and local law including, but not limited to, the Florida Department of Environmental Protection ("FDEP"). The existing golf course maintenance building may be utilized during construction of the residential community on Tract 1 but shall be removed prior to completion of the infrastructure for the residential community.

2. TRACT 2: Tract 2 shall be maintained as a VPZ except for the area depicted on Exhibit "B-2" Tract Plan for single family residential lots. The single family residential area shall be developed consistent with the SRF-2 zoning district standards. As a condition of approval of these lots, a VPZ shall be provided to specifically address the adjacent existing single-family platted lots.

3. TRACT 3: Tract 3 is designated as VPZ and natural buffers.

4. TRACT 4: Tract 4 shall be mostly preserved as a natural area through the use of VPZs and Conservation Easements over existing wetlands. The on-site wetlands are intended to be preserved and, if impacted, avoidance and minimization techniques will be required pursuant to Federal, State and local law. Consistent with Exhibit "B-4" Tract Plan, some single-family residential lots may be developed consistent with the SFR-2 zoning designation standards, however they will be required to provide a VPZ if behind existing platted residential lots.

5. TRACT 5: Tract 5 shall be a VPZ. No development shall be permitted on Tract 5.

6. TRACT 6: Tract 6 shall be a VPZ.

7. TRACT 7: Tract 7 shall be maintained as a VPZ except for the areas depicted on Exhibit "B-6" Tract Plan for single family residential lots. The single family residential areas shall be developed consistent with the SRF-2 zoning district and shall provide a VPZ behind existing platted residential lots.

8. TRACT 8: Tract 8 shall be permitted to be developed consistent with the development standard for the LDC zoning classification of MFR-1 but limited to townhouses. Single-family homes could also be developed using the SFR-1 standards. Notwithstanding said designation, no development on this tract shall exceed thirty-five (35) feet in height. All townhouse development on Tract 8 shall be set back a minimum of 150 feet from any existing single-family platted lot. The existing pond shall be preserved for the benefit of adjacent property owners. The area designated Conservation on the FLUM can be field verified by the Owner through all applicable governmental

agencies and areas designated as uplands may be reclassified to Greenbelt on the FLUM and then utilized for residential purposes.

9. TRACT 9: The easterly 150 feet of Tract 9 that is located behind existing residential platted lots located along the westerly side of London Drive shall be maintained as a VPZ to ensure protection of natural areas. Stormwater areas are also permitted on Tract 9. PSP (institutional) uses with a height limit of 35 feet will be permitted on 8.3 acres of the remaining area. Prior to making any application for development, the Owner shall prepare a conceptual site plan and hold a neighborhood meeting consistent with the requirements of the LDC. Any development application for Tract 9 shall require final action by the PLDRB.

10. Tract 10: Tract 10 shall be permitted to develop single family detached residential units consistent with the LDC SFR-2 zoning district standards. Additionally, a VPZ is required to be provided as shown on the Exhibit "B-8" Tract Plan.

11. In addition to the above, Tracts 1, 8 and 9 of the Project shall be integrated internally and externally by a series of pedestrian pathways and roadways and developed in conformance with the LDC and this Development Agreement.

12. All common areas, VPZ, stormwater ponds and natural areas shall be maintained by a POA or third party determined acceptable to the City.

SECTION 5. FUTURE LAND USE MAP (FLUM).

The future land use designation for the Subject Property is primarily Greenbelt. More specifically about 276.3 +/- acres are designated Greenbelt and the remaining 4.3 +/- acres are designated Conservation. Policy 1.1.1.2 of the Comprehensive Plan establishes the density and intensity for each land use category and zoning district. The density for

Greenbelt is one dwelling unit/acre. Density calculations are not permitted for Conservation areas or Greenbelt lands utilized for PSP (institutional) uses.

SECTION 6. APPROVAL OF CONCEPTUAL PLAN AND DEVELOPMENT REVIEW PROCESS.

(a) The City Council, at its regular meeting on January 19, 2021, adopted Ordinance 2021-_____for a Master Planned Development affecting the Subject Property subject to the terms and conditions of this Development Agreement.

(b) The Owner acknowledges if this Development Agreement is ever terminated, the approval shall be deemed null and void and the land uses approved for the Subject Property shall no longer be permitted, unless otherwise approved by the City Council.

(c) The provisions of the then current LDC shall be applicable to the Subject Property unless otherwise specifically stated herein. Any City Code provision not specifically identified will not be affected by the terms of this Development Agreement and will be subject to enforcement as if no Development Agreement were in effect.

(d) The Conceptual Site Plan, Exhibit "B", generally depicts the layout of the Project and delineates the approximate property boundaries, streets, property lines, general location of lots and intended uses. Exhibits B-1 through B-8 depict the layout of the Project in more detail and where a conflict exists between Exhibit "B" and Exhibits B-1 through B-8, the more detailed Exhibits B-1 through B-8 shall govern.

SECTION 7. MODIFICATIONS TO THE CONCEPTUAL SITE PLAN.

Modifications to the exact location and number of lots, roadways, primary sidewalk/pathway system, and other improvements may be requested by the Owner and

approved by the Land Use Administrator during review of construction documents, site plans, or Subdivision Master Plan for the Project or portions thereof, as long as the development standards contained in this Development Agreement are maintained. Moreover, the Land Use Administrator is authorized to approve those modifications to the Conceptual Site Plan as allowed by Code, and any construction documents, and Subdivision Master Plan for the Subject Property or portions thereof provided that: (1) The location of the VPZs are not reduced or relocated, (2) The maximum building height is not exceeded, (3) Property setbacks and landscape buffers are not modified, and (4) the approved plans maintain the development standards in this Development Agreement. In accordance with the Land Development Code, future neighborhood meetings may be required. Distance notification requirements will be from the applicable development tract consistent with the neighborhood meeting requirements.

SECTION 8. PERMITTED USES.

ALL USES ON THE PROPERTY SHALL BE CONSISTENT WITH THIS AGREEMENT AND SPECIFICALLY SECTION 4, ABOVE. NOTWITHSTANDING SUCH, THE OWNER AGREES TO FULLY COMPLY WITH THE FOLLOWING USE RESTRICTIONS ON THE SUBJECT PROPERTY. THE OWNER MUST DEVELOP THE SUBJECT PROPERTY CONSISTENT WITH THE CONCEPTUAL SITE PLAN, EXCEPT AS OTHERWISE PROVIDED IN SECTION 8 OF THIS DEVELOPMENT AGREEMENT.

8.1 USE RESTRICTIONS.

(a) Any use of any portion of the Subject Property not designated in Section 4 (inclusive of all exhibits included therein), on the Conceptual Site Plan shall be prohibited.

(b) Except as provided elsewhere in this Development Agreement, any modification to the Development Agreement that proposes a change of uses approved herein, increases the intensity or types of development, or removes, decreases or modifies the location of a VPZ shall require the approval of the City Council, following the review and recommendation of the PLDRB.

8.2 VEHICULAR/NON-VEHICULAR AND PEDESTRIAN ACCESS, PARKING AND INTERCONNECTIVITY.

(a) The Conceptual Plan integrates pedestrian, bicycle, and vehicular traffic circulation systems within, and outside of, the Subject Property and with adjacent rights-of-ways. All uses shall have access to a roadway but are not required to front on a dedicated road. The City shall be granted access to all roadways to ensure that public safety is maintained.

(b) There shall be at a minimum two (2) methods of entrance and exit consistent with the City's Comprehensive Plan and LDC.

SECTION 9. LAND DEVELOPMENT CODE NON-APPLICABILITY.

The development of the Project shall proceed in accordance with the terms of this Development Agreement. In the event of an inconsistency between the terms of this Development Agreement and the LDC, the terms of this Development Agreement shall prevail except as it pertains to MPD regulations within the LDC. In the event of an inconsistency between the terms of this Development Agreement and the Conceptual Site Plan, the terms of this Development Agreement shall prevail. Where specific requirements are not contained in this Development Agreement, the LDC shall apply but

only to the extent that it does not conflict with the provisions of this Development Agreement or the general intent of the Conceptual Site Plan.

SECTION 10. FACILITY COMMITMENTS.

(a) Unless otherwise described elsewhere in this Development Agreement, the Owner agrees that the City is not responsible for the construction or creation of public facilities or capacity to facilitate the development of the Subject Property. No building permits or development permits shall be issued for the Subject Property unless adequate capacity of concurrency monitored facilities are available concurrent with the impact on said facilities by the Project.

(b) PRIVATE AND PUBLIC IMPROVEMENTS: The Owner, its successors, and assigns, agree to construct, at a minimum, the following on-site improvements, at their sole and exclusive expense, as a condition of this Development Agreement and in addition to the payment of all impact fees relating to the development of the Subject Property, unless otherwise provided for herein; parking areas; roads, utilities; master stormwater system; sidewalks; lighting; recreational facilities, and perimeter buffer landscaping. In addition to the foregoing on-site improvements, the Owner must complete any required remediation of contamination in accordance with FDEP/State regulations and provide a performance bond to the City for the remediation work. Bonds for the work described herein shall be in a form acceptable by the City. The Owner agrees that the City has shown an essential nexus between a legitimate City interest and the conditions, if any, imposed herein. The Owner further agrees that all proposed conditions are roughly proportional to the impact the development will have upon the public, based upon an individualized determination by the City that the required

conditions are related in both nature and extent to the impacts of the proposed Project. Nothing herein shall be deemed a prohibited exaction under Fla. Stat. 70.45, and Owner agrees it has not suffered any damages under that statute.

(c) SIDEWALKS AND PEDESTRIAN PATHS: The Owner shall provide a system of sidewalks on the tracts with direct access from Lakeview Boulevard to ensure that pedestrians maintain easy and safe access to all uses as depicted on the Conceptual Site Plan. The Owner shall provide community sidewalks that are a minimum of five (5) feet wide on only one side of the internal roadway system on Tract 1 as may be required. Owner shall be obligated to provide sidewalks on the portion of the Tract 9 property that abuts US Highway 1. Owner shall not be obligated to provide sidewalks on the scattered single-family lots with direct access from Lee Drive, Leidel Drive, London Drive, Lake Success Drive, Lindsay Drive, or Lewis Drive.

(d) ACCESS: Ingress and egress needed for the Project shall be provided, constructed, and maintained by Owner, its successors, and assigns.

(f) MOWING: The Owner, or a POA, shall continue to pick up trash and mow the rights-of-way that are adjacent to the Subject Property along Lakeview Boulevard, Leaver Drive, London Drive, and Lake Success Drive.

SECTION 11. DEVELOPMENT STANDARDS.

11.1 PARKING: Parking requirements shall be consistent with the LDC.

11.2 OPEN SPACE: Minimum open space shall be forty percent (40%) of the Subject Property's gross area. Open space is defined in the LDC and includes on-site stormwater ponds and all open space within the Property. Flexibility to the minimum open space requirements shall be as provided by the LDC, which may include, but not be

limited to, green building principles, land donation, or other mechanisms that would justify a lower percentage of open space, if approved by the Land Use Administrator. Open space shall be maintained by either the actual owner of the property, a POA, or other method satisfactory to the Owner and the City.

11.3 WATER/WASTEWATER: The Project is located wholly within the City limits and is therefore within the City's water and wastewater service areas. All permanent uses within the Project will be served by the City. The City shall be the service provider for potable water and wastewater service for the Project. The City is under no obligation to accept the dedication of any facility.

11.4 TRANSPORTATION CONCURRENCY: Transportation concurrency shall be addressed during the Preliminary Plat or Technical Site Plan process.

11.5 STORMWATER AND DRAINAGE:

(a) The Owner, or a POA, shall be responsible for designing, permitting, constructing, and maintaining the means of conveyance of stormwater runoff from the Project to the stormwater facility including, but not limited to, all stormwater lines, ditches, culverts, and other stormwater facilities that are necessary to convey the stormwater runoff to the Stormwater Facility (the "Owner's Stormwater System").

(b) The Owner shall grant any and all drainage and utility easements to the City which are deemed necessary to serve the public utilities.

(c) The Owner shall construct a stormwater management system that provides treatment and attenuation as required by St. Johns River Water Management District ("SJRWMD") and the City's LDC. Best Management Practices ("BMPs") shall be used during and after construction to minimize erosion and sedimentation and to properly

manage runoff for both stormwater quantity and quality. BMPs shall be in accordance with the FDEP and Florida Department of Transportation ("FDOT") design standards and details.

(d) Stormwater piping, swales, and ditches shall be designed to convey a ten (10)-year, twenty-four (24)-hour storm event. Stormwater detention facilities shall be designed to meet water quality and attenuation requirements by SJRWMD and the City's LDC.

(e) Existing drainage conveyance along the northern property line, as indicated on the Conceptual Site Plan, shall be maintained through the use of drainage swales and/or storm drainage piping.

11.6 LANDSCAPING: All landscaping and irrigation shall comply with the LDC.

11.7 VIEW PROTECTION ZONES (VPZ): The Conceptual Site Plan provides for areas designated as View Protection Zones which shall protect a property owner's view of the Subject Property pursuant to Section 3.03.04(J) of the LDC. VPZs shall be designed and approved by the City prior to any site plan, Subdivision Master Plan or plat approval. Prior to the approval of any residential or institutional designation on Tracts 1, 2, 8 or 9, the Owner shall utilize the following VPZ guidelines in order to minimize adverse impacts on any abutting single-family residentially zoned areas:

- Views of the Subject Property from the rear yards of all existing platted lots located within any residentially zoned districts directly abutting the Subject Property shall be maintained. Peripheral (i.e. side) views from these lots may

be impacted by new development and new development may be visible from existing development;

- Views of the Subject Property from existing platted lots located within any residentially zoned area located across a right-of-way or a water body from the site shall be maintained to the maximum extent practical; and
- A VPZ must be established in one of the following ways:

  1) The VPZ must be included in a subdivision plat of the Subject Property and designated as a natural buffer area, with the responsibility for maintenance on the Owner, POA or other entity determined acceptable to the City; or

  2) The Owner must record a conservation easement over the VPZ area.

- All VPZ areas must be maintained in a natural state. Vegetation removal and mowing is prohibited, except to the extent these activities are undertaken to remove fire or safety hazards. Should removal activities be required due to a hazard, documentation of the hazard must be provided to the City prior to any vegetation removal and the applicable City approvals/permits granted.

11.8 LIGHTING: All lighting shall be designed to minimize light pollution to off-site properties and to comply with the LDC.

11.9 FIRE PROTECTION: Fire protection requirements for the Project will be met through a system of fire hydrants installed on the Subject Property by the Owner in accordance with City standards. The locations of fire hydrants shall be shown on all construction documents, site plans, or preliminary plats. The water requirements for the fire system will be served by the City's Utility Department. The Project shall comply

with the City's fire protection requirements. The City will provide fire protection services to the Project in accordance with established local response agreements.

11.10 UTILITIES: The Owner shall be responsible for any and all costs associated with the extension of existing City utilities to the Subject Property that may be required to serve this Project. All internal utility lines for the Project shall be placed underground.

11.11 INTERCONNECTIVITY AND ACCESS: All units within the Subject Property shall be interconnected by roadways and sidewalks as called for by the City's Comprehensive Plan. Tract 1 shall provide two points of access onto Lakeview Boulevard.

11.12 RESOURCE PROTECTION:

(a) Except as depicted on the Conceptual Site Plan and in this Development Agreement, the Owner shall comply with the resource protection requirements of the LDC.

(b) Natural upland buffers may be required by Chapter 10 of the LDC.

11.13 WETLANDS: An Environmental Assessment for the Subject Property was performed. All wetlands identified on **Exhibit "B"** shall be conserved and shall not be impacted with exception to the wetlands located on the north side of Tract 1. Owner and City shall, in good faith, determine if it is feasible, reasonable, and necessary for the health, safety, and welfare of the public to impact the wetlands to the north of Tract 1 to expand the City's stormwater capacity.

11.14 LOW IMPACT DEVELOPMENT PRACTICES: To further conservation practices identified in the LDC, the Project shall incorporate into the construction,

operation, and maintenance of all facilities, conservation strategies to include but not be limited to:

(a) Water Conservation:

i. Native, drought tolerant plant materials;

ii. St. Johns River Water Management District Florida Water Star program for protection of water resources;

iii. Turf grass – Irrigated area(s) shall not exceed 50% of landscape areas;

iv. Separate irrigation zones shall be required for turf, non-turf areas; and

v. Landscape areas shall not be irrigated using high-volume irrigation systems unless high pressure compensating spray heads are utilized.

All irrigation systems shall employ, at minimum, a rain shut-off device such as a soil moisture sensor or smart irrigation system capable of analyzing and ascertaining weather conditions and time of year. These restrictions shall be clearly stated in the Project's Covenants, Conditions and Restrictions ("CC&Rs"), should they be created.

11.15 PROHIBITION OF DISCHARGES: The Owner shall comply with the City of Palm Coast Code of Ordinances, Article VI, Prohibition of Discharges, and all applicable Local, State, Federal, and City water quality laws, rules, regulations, and ordinances.

11.16 STORMWATER POLLUTION PREVENTION: A stormwater pollution prevention plan shall be attached to and incorporated into the construction and permit

documents pursuant to the requirements of applicable Federal, State, and City regulations.

11.17 WILDLIFE PROTECTION: In the event that listed species have been determined to be residing on, or otherwise be significantly dependent on the Subject Property, the Owner shall obtain the necessary permits from the Florida Fish and Wildlife Conservation Commission and other applicable agencies. Activities associated with listed flora and fauna and shall comply with the LDC. Bear Smart Community principles shall be integrated into design and operations. The intent is to minimize human-animal conflicts from black bear and other species that may be drawn to area attractants.

11.18 SIGNAGE: The Owner may construct signage consistent with the LDC after receiving necessary permits.

11.19 MODEL HOMES: Up to five model homes on Tract 1can be constructed, occupied, and operated under Section 4.19.02 of the LDC. Sales and leasing activities shall be limited to properties located within the Project. Construction and Certificates of Occupancies shall be issued consistent with the City and state rules, regulations, and codes.

11.20 POLLUTANTS: Prior to issuance of any development permit, the Owner shall ensure there are no environmental hazards affecting any development located on the Subject Property and that the Subject Property is safe for human occupation. Contaminant assessment activities including soil and or groundwater sampling shall be conducted by a qualified professional that is authorized to assess and make recommendations for such activities per Florida Department of Environmental Protection standards and shall be consistent with applicable Florida Statutes. Upon

application for a Site Plan or Subdivision Master Plan, the Owner shall provide the City with all studies or reports required by Federal and State agencies, including but not limited to the FDEP and the Army Corp of Engineers. If soil or groundwater contamination is above State concentration levels, remedial action in accordance with FDEP standards shall be accomplished prior to construction activities within the affected area. No project identified on the Concept Plan may occur without strict compliance with this section.

11.21 SCHOOLS: Prior to the approval of any development plan of Tract 1, 3 or 8, the Owner shall coordinate with the Flagler County School District for the location and dedication of a bus stop if necessary.

SECTION 12. PHASING OF DEVELOPMENT.

(a) The Subject Property may be developed in multiple phases. Prior to the issuance of any permit for any phase of the Project (and prior to any construction of any improvement, building, or structure on the Subject Property), the Owner shall submit a Subdivision Master Plan or Site Plan for the relevant phase. Each tract of the Project will include infrastructure to support the proposed uses, including water and wastewater service, drainage, roads, vehicular, and pedestrian access facilities. All infrastructure necessary to support each phase that is constructed on the Subject Property shall be constructed concurrently with, or prior to construction of that phase of the Project, as approved by the City, and prior to the issuance of building permits for that phase. Adequate emergency vehicle access and turnarounds shall be provided at all times. No clearing of land may occur until Preliminary Plat or Site Plan approval is provided for that specific phase of development.

(b) Roadways shall be constructed concurrently with development of adjacent lots to insure that contiguous roadways are available at all times prior to the issuance of any building permits for that phase. To avoid unnecessary construction and repair costs, internal sidewalks may be constructed adjacent to each lot at the time the home is constructed and prior to the Certificate of Occupancy, and each home's building permit shall be conditioned on this requirement.

(c) The Subdivision Process: Subdivision of the property shall comply with Chapter 177, Florida Statutes and the City's Unified Land Development Regulations. The Conceptual Site Plan depicts the general layout of the Project and the various Tracts which are, as of the date of this Agreement, under unified title. Subsequent transfer of title to any Tract or other portion of the Property may be transferred in its entirety without platting if in compliance with Chapter 177, Florida Statutes. No infrastructure improvements may be made until approved by the City and other governing agencies.

SECTION 13. LOT AND BUILDING STANDARDS.

13.1 LOT DIMENSIONAL STANDARDS: All development Standards shall comply with the City of Palm Coast's LDC and those standards provided in Section 4 of this Agreement. If there is a conflict between the two, the standards provided in Section 4 shall control.

13.2 ARCHITECTURE: Shall be consistent with the City's LDC.

SECTION 14. LIST OF OUTSTANDING PERMITS/APPROVALS AND PROPER SEQUENCING.

(a) The failure of the Development Agreement to address any specific City, County, State, or Federal permit, condition, term, or restriction shall not relieve the

Owner of the requirement of complying with the law governing said permitting requirements, conditions, terms, or restrictions.

(b) All required City, County, State, or Federal permits shall be obtained prior to commencement of construction. This Development Agreement is not Preliminary Plat or Site Plan approval and the Owner remains responsible for complying with all provisions of the Land Development Code unless provided elsewhere in this Development Agreement.

SECTION 15. DEVELOPMENT FEES.

The Owner acknowledges and agrees that the City has enacted citywide impact fees and may in the future increase the amount of those fees. Except as provided for herein regarding park system impact fees, the Owner acknowledges that the Subject Property shall be subject to all fees in effect at the time of permitting.

SECTION 16. COMMON AREAS AND MAINTENANCE.

For all common areas, to ensure the long-term ownership, maintenance, and control of those areas, prior to the issuance of any building permit and before recording the final plat, the Owner shall maintain or establish a POA, in accordance with Florida law, comprised of the owners of lots or parcels with the development. The POA documentation shall be subject to the prior reasonable review of the City to ensure adequate provisions for the ongoing care and maintenance of the common areas. The documentation, whether contained in a deed restriction or otherwise, shall provide for the permanent maintenance of the Common Areas by the POA, minimum insurance requirements for the Association, adequate mechanisms to force financial participation by members of the POA, and restrictions on the ability to amend these requirements without

the City's approval. The City shall not be required to accept ownership or maintenance of any of the Project's common elements including but not limited to landscaping and buffers.

SECTION 17. BREACH, ENFORCEMENT, ALTERNATIVE DISPUTE, AND CONFLICT RESOLUTION.

(a) In the event of a breach hereof by either party hereto, the other party hereto shall have all rights and remedies allowed by law, including the right to specific performance of the provisions hereof.

(b) In the event that a dispute arises under this Development Agreement, and the City and Owner are unable to resolve the issues, the parties shall attempt to resolve all disputes informally. In the event of a failure to informally resolve all disputes, the City and Owner agree to engage in mediation before a certified Circuit Court mediator selected by the parties. In the event that the parties fail to agree to a mediator, a certified mediator will be selected solely by the City. The parties shall equally pay all costs of mediation.

(c) In the event of conflict between the terms of this Development Agreement and the LDC, the provisions of this Development Agreement shall prevail.

SECTION 18. NOTICES.

(a) All notices required or permitted to be given under this Development Agreement must be in writing and must be delivered to the City or the Owner at its address set forth below (or such other address as may be hereafter be designated in writing by such party).

(b) Any such notice must be personally delivered or sent by certified mail, overnight courier, facsimile, or telecopy.

(c) Any such notice will be deemed effective when received (if sent by hand delivery, overnight courier, telecopy, or facsimile) or on that date which is three (3) days after such notice is deposited in the United States mail (if sent by certified mail).

(d) The parties' addresses for the delivery of all such notices are as follows:

As to the City: City Manager
160 Lake Avenue
Palm Coast, FL 32164

As to the Owner: Matanzas GC Palm Coast, LLC.
200 Ocean Crest Drive, Unit 111
Palm Coast, FL 32137

With copies to: Michael D. Chiumento III, Esq.
Chiumento Dwyer Hertel Grant
145 City Place, Suite 301
Palm Coast, FL 32164

SECTION 19. SEVERABILITY.

The terms and provisions of this Development Agreement are not severable and in the event any portion of this Development Agreement shall be found to be invalid or illegal, then the entire Development Agreement shall be null and void.

SECTION 20. SUCCESSORS AND ASSIGNS.

(a) This Development Agreement and the terms and conditions hereof shall be binding upon and inure to the benefit of the City and Owner and their respective successors-in-interest. The terms and conditions of this Development Agreement similarly shall be binding upon the Subject Property and shall run with the land and the title to the same.

(b) This Development Agreement touches and concerns the Subject Property.

(c) The Owner has expressly covenanted and agreed to this provision and all other terms and provisions of this Development Agreement.

SECTION 21. GOVERNING LAW, VENUE, AND COMPLIANCE WITH LAW.

(a) This Development Agreement shall be governed by and construed in accordance with the laws of the State of Florida and the Code of Ordinances of the City of Palm Coast.

(b) Venue for any dispute shall be in the Seventh Judicial Circuit Court in and for Flagler County, Florida.

(c) The Owner shall fully comply with all applicable Local, State, and Federal environmental regulations and all other laws of similar type or nature.

(d) This Development Agreement shall not limit the future exercise of the police powers of the City to enact ordinances, standards, or rules regulating development generally applicable to the entire area of the City, such as requiring compliance with the City capital facilities plan, parks master plan (including parks and trail dedications), utility construction and connections, mandating utility capacities, requiring street development, or other such similar land development regulations and requirements.

(e) If State or Federal laws are enacted after execution of this Development Agreement which are applicable to and preclude the parties' compliance with this Development Agreement, this Development Agreement shall be modified or revoked as necessary to comply with the relevant law.

(f) This Development Agreement shall also not be construed to prohibit the City from adopting lawfully imposed impact fees applicable to the Owner and the development of the Conceptual Plan authorized hereunder.

SECTION 22. TERM / EFFECTIVE DATE.

(a) This Development Agreement shall be effective upon approval by the City Council and execution of this Development Agreement by all parties (the "Effective Date").

(b) This Development Agreement provides an initial timeframe of seven (7) years to commence development from the Effective Date.

(c) Should development not commence within the initial established timeframe, the term of this Development Agreement may be modified by action of the City Council, at City Council's discretion. Failure to obtain an extension shall cause the zoning of all lands encumbered to revert to the previous equivalent zoning designation.

SECTION 23. RECORDATION.

Upon approval by the City Council and execution of this Development Agreement by all parties, this Development Agreement and any and all amendments hereto shall be recorded by the City with the Clerk of the Circuit Court of Flagler County within fourteen (14) days after its execution by the City, and the Development Agreement shall run with the land. The Owner shall pay the costs to record this Development Agreement.

SECTION 24. THIRD PARTY RIGHTS.

This Development Agreement is not a third-party beneficiary contract, and shall not in any way whatsoever create any rights on behalf of any third party.

SECTION 25. SPECIFIC PERFORMANCE / TIME IS OF THE ESSENCE.

(a) Strict compliance shall be required with each and every provision of this Development Agreement. The parties agree that each has the remedy of specific performance of these obligations.

(b) Time is of the essence to this Development Agreement and every right or responsibility required herein shall be performed within the times specified.

SECTION 26. ATTORNEYS' FEES.

In the event of any action to enforce the terms of this Development Agreement, the prevailing party shall be entitled to recover reasonable attorneys' fees, paralegals' fees, and all costs incurred, whether the same be incurred in a pre-litigation negotiation, litigation at the trial, or appellate level.

SECTION 27. FORCE MAJEURE.

The parties agree that in the event that the failure by either party to accomplish any action required hereunder within a specific time period ("Time Period") constitutes a default under terms of this Development Agreement, and if any such failure is due to any unforeseeable or unpredictable event or condition beyond the control of such party, including, but not limited to: acts of God, acts of government authority (other than the City's own acts), acts of public enemy or war, terrorism, riots, civil disturbances, power failure, shortages of labor or materials, injunction or other court proceedings beyond the control of such party, or severe adverse weather conditions ("Uncontrollable Event"); then notwithstanding any provision of this Development Agreement to the contrary, that failure shall not constitute a default under this Development Agreement and any Time Period prescribed hereunder shall be extended by the amount of time that such party was unable to perform solely due to the Uncontrollable Event.

SECTION 28. INDEMNIFICATION.

The Owner shall indemnify for and save the City harmless from and against any and all liability, claims for damages and suits for any injury to any person or persons, or damages to any property of any kind whatsoever arising out of in any way connected with the Owner's development of the Subject Property as provided in this Development Agreement. This agreement by the Owner to indemnify and hold the City harmless shall include, but not be limited to: all charges, expenses, and costs, including reasonable attorneys' fees, both at trial and on appeal, incurred by the City on account of or by reason of such injuries, damages, liability, claims, suits, or losses and all damages arising therefrom.

SECTION 29. ENFORCEMENT; CITY'S RIGHT TO TERMINATE DEVELOPMENT AGREEMENT.

(a) This Development Agreement shall continue to be enforceable, unless lawfully terminated, notwithstanding any subsequent changes in any applicable law.

(b) The failure by the Owner to perform each and every one of its obligations hereunder shall constitute a default, entitling the City to pursue whatever remedies are available to it under Florida law or equity, including, without limitation, an action for specific performance and/or injunctive relief, or alternatively, the termination of this Development Agreement. Prior to the City filing any action or terminating this Development Agreement as a result of a default under this Development Agreement, the City shall first provide the Owner written notice of said default. Upon receipt of said notice, the Owner shall be provided a thirty (30) day period in which to cure the default to the reasonable satisfaction of the City prior to the City filing an action or terminating

this Development Agreement. If thirty (30) days is not considered by the parties to be a reasonable period in which to cure the default, the cure period shall be extended to such cure period acceptable to the City, but in no case shall that cure period exceed ninety (90) days from initial notification of default. Upon termination of the Development Agreement, the Owner shall immediately be divested of all rights and privileges granted hereunder.

SECTION 30. CAPTIONS.

Sections and other captions contained in this Development Agreement are for reference purposes only and are in no way intended to describe, interpret, define, or limit the scope, extent or intent of this Development Agreement, or any provision hereof.

SECTION 31. EXHIBITS.

Each exhibit referred to and attached to this Development Agreement is an essential part of this Development Agreement. The exhibits and any amendments or revisions thereto, even if not physically attached hereto, shall be treated as if they are part of this Development Agreement.

SECTION 32. INTERPRETATION.

(a) The Owner and the City agree that all words, terms, and conditions contained herein are to be read in concert, each with the other, and that a provision contained under one (1) heading may be considered to be equally applicable under another in the interpretation of this Development Agreement.

(b) This Development Agreement shall not be construed more strictly against either party on the basis of being the drafter thereof, and both parties have contributed to the drafting of this Development Agreement.

SECTION 34. FURTHER ASSURANCES.

Each party agrees to sign any other and further instruments and documents consistent herewith as may be necessary and proper to give complete effect to the terms of this Development Agreement.

SECTION 35. COUNTERPARTS.

This Development Agreement may be executed in any number of counterparts, each of which shall be deemed an original, but all of which, taken together, shall constitute one (1) and the same document.

SECTION 36. MODIFICATIONS, AMENDMENTS AND NON-WAIVER.

(a) Unless provided for elsewhere in this Development Agreement, (1) Amendments to and waivers of the provisions herein shall be made by the parties only in writing by formal amendment, and (2) This Development Agreement shall not be modified or amended except by written agreement executed by all parties hereto and upon approval of the City Council of the City of Palm Coast.

(b) Failure of any party hereto to exercise any right hereunder shall not be deemed a waiver of any such right and shall not affect the right of such party to exercise at some future date any such right or any other right it may have.

SECTION 37. ENTIRE AGREEMENT AND EFFECT ON PRIOR AGREEMENTS.

This Development Agreement constitutes the entire agreement between the parties and supersedes all previous oral discussions, understandings, and agreements of any kind and nature, as between the parties relating to the subject matter of this Development Agreement.

IN WITNESS WHEREOF, the Parties have executed this Development Agreement on the dates set forth below.

EXHIBIT "A"

MATANZAS WOODS GOLF COURSE:

Reserved Parcel "A", Lakeview - Section 37 Palm Coast Park at Palm Coast, as recorded in Map Book 13, pages 1 through 29, Public Records of Flagler County, Florida, being more particularly described as follows:
From a POINT OF BEGINNING, being the northeast corner of Block 165 of said Plat of Lakeview; thence North 89°30'56" East 21.68 feet to a point on a curve; thence southerly along a curve to the left having an arc length of 349.56 feet, a radius of 800.00 feet, a central angle of 25°02'07" and a chord bearing South 26°22'21" East, 346.78 feet to a point of tangency; thence South 38°53'25" East 2087.61 feet to a point of curvature; thence southerly along a curve to the right having an arc length of 266.63 feet, a radius of 1120.00 feet, a central angle of 13°38'23" and a chord bearing South 32°04'13" East, 265.99 feet to a point of tangency; thence South 25°15'02" East 772.55 feet to a point of cusp; thence northwesterly along a curve to the left having an arc length of 213.75 feet, a radius of 150.00 feet, a central angle of 81°38'47" and a chord bearing North 66°04'26" West 196.12 feet to a point; thence South 16°53'50" East 110.00 feet to a point on a curve; thence westerly along a curve to the left having an arc length of 11.66 feet, a radius of 40.00 feet, a central angle of 16°42'25" and a chord bearing South 64°44'57" West 11.62 feet to a point; thence North 33°36'15" West 110.00 feet to a point on a curve; thence southerly along a curve to the left having an arc length of 213.75 feet, a radius of 150.00 feet, a central angle of 81°38'47" and a chord bearing South 15°34'21" West 196.12 feet to a point of tangency; thence South 25°15'02" East 100.25 feet to a point on a curve; thence southwesterly along a curve to the left having an arc length of 217.30 feet, a radius of 280.98 feet, a central angle of 44°18'38" and a chord bearing South 42°35'39" West 211.92 feet to a point of tangency; thence South 08°35'49" West 179.39 feet; thence North 81°24'11" West 913.66 feet; thence South 08°35'49" West 125.00 feet; thence North 81°24'11" West 40.00 feet; thence North 08°35'49" East 125.00 feet; thence North 81°24'11" West 125.00 feet to a point of curvature; thence westerly along a curve to the left having an arc length of 180.00 feet, a radius of 225.00 feet, a central angle of 45°50'12" and a chord bearing South 75°40'43" West,175.24 feet to a point; thence South 37°14'23" East, 125.00 feet to a point on a curve; thence southerly along a curve to the left having an arc length of 77.08 feet, a radius of 100.00 feet, a central angle of 44°09'48" and a chord bearing South 30°40'43" West 75.19 feet to a point of tangency; thence South 08°35'49" West, 237.34 feet; thence North 81°24'11" West 87.50 feet; thence North 51°24'11" West 130.00 feet to a point of curvature; thence westerly along a curve to the left having an arc length of 213.75 feet, a radius of 150.00 feet, a central angle of 81°38'47" and a chord bearing South 87°46'25" West,196.12 feet to a point; thence South 43°02'58" East 110.00 feet to a point on a curve; thence southerly along a curve to the left having an arc length of 11.66 feet, a radius of 40.00 feet, a central angle of 16°42'26" and a chord bearing South 38°35'49" West 11.62 feet to a point; thence North 59°45'24" West 110.00 feet; thence South 38°35"49" West 128.21 feet; thence North 51°24'11" West 1018.03 feet; thence North 38°35'49" East 380.00 feet; thence South 51°24'11" East 500.00 feet to a point of curvature; thence easterly along a curve to the left having an arc length of 353.43 feet, a radius of 225.00, a central angle of

90°00'00" and a chord bearing North 83°35'49" East, 318.20 feet to a point; thence North 51°24'11" West 125.00 feet; thence North 38°35"49" East 230.92 feet; thence South 51°24'11" East 100.00 feet; thence South 81°24'11" East 993.30 feet to a point of curvature; thence northeasterly along a curve to the left having an arc length of 431.48 feet, a radius of 225.00 feet, a central angle of 109°52'35" and a chord bearing North 43°39'32" East, 368.34 feet to a point of tangency; thence North 11°16'46" West 478.51 feet to a point of curvature; thence northwesterly along a curve to the left having an arc length of 245.29 feet, a radius of 225.00 feet, a central angle of 62°27'41" and a chord bearing North 42°30'36" West, 233.32 feet to a point; thence North 08°35'49" East 77.01 feet to a point of curvature; thence northwesterly along a curve to the left having an arc length of 353.43 feet, a radius of 225.00 feet, a central angle of 90°00'00" and a chord bearing North 36°24'11" West 318.20 feet to a point; thence westerly along a curve to the left having an arc length of 446.47 feet, a radius of 150.00 feet, a central angle of 170°32'16" and a chord bearing North 76°40'19" West 298.98 feet to a point of tangency; thence South 08°35'49" West 149.66 feet; thence North 81°24'11" West 50.00 feet; thence North 08°35'49" East 125.00 feet; thence North 78°43'26" West 153.29 feet; thence North 09°33'43" West 148.11 feet; thence South 69°50'14" East 67.79 feet to a point of curvature; thence easterly along a curve to the left having an arc length of 146.25 feet, a radius of 150.00 feet, a central angle of 55°51'48" and a chord bearing North 87°23'42" East,140.53 feet to a point; thence North 30°32'12" West 110.00 feet to a point on a curve; thence northeasterly along a curve to the left having an arc length of 11.66 feet, a radius of 40.00 feet, a central angle of 16°42'25" and a chord bearing North 51°06'35" East 11.62 feet to a point; thence South 47°14'37" East 110.00 feet to a point on a curve; thence northerly along a curve to the left having an arc length of 213.75 feet, a radius of 150.00 feet, a central angle of 81°38'48" and a chord bearing North 01°55'59" East 196.12 feet to a point of tangency; thence North 38°53'25" West 326.21 feet; thence North 80°07'23" West 122.65 feet; thence North 09°33'42" West 80.00 feet to a point of curvature; thence northerly along a curve to the left having an arc length of 166.36 feet, a radius of 325.00 feet, a central angle of 29°19'42" and a chord bearing North 24°13'34" West,164.55 feet to a point of tangency; thence North 38°53'25" West 200.00 feet; thence South 51°06'35" West 125.00 feet; thence North 38°53'25" West 20.00 feet; thence North 51°06'35" East 125.00 feet; thence North 38°53'25" West 178.81 feet to a point of curvature; thence northwesterly along a curve to the left having an arc length of 292.66 feet, a radius of 325.00 feet, a central angle of 51°35'39" and a chord bearing North 64°41'14" West, 282.87 feet to a point of tangency; thence South 89°30'56" West 678.94 feet to a point of curvature; thence southwesterly along a curve to the left having an arc length of 389.08 feet, a radius of 225.00 feet, a central angle of 99°04'39" and a chord bearing South 39°58'37" West, 342.38 feet to a point of cusp; thence North 09°33'43" West 137.22 feet; thence North 00°29'04" West 425.00 feet; thence North 89°30'56" East 1200.00 feet; thence North 00°29'04" West 125.00 feet to the POINT OF BEGINNING.

ALSO INCLUDING:

Reserved Parcel "C", Lakeview - Section 37 Palm Coast Park at Palm Coast, as recorded in Map Book 13, pages 1 through 29, Public Records of Flagler County, Florida, being more particularly described as follows:
From a POINT OF BEGINNING, being the northwest corner of said Reserved Parcel "C"; thence North 89°26'28" East 630.08 feet; thence South 38°43'02" West 202.91 feet; thence South 51°40'07" East 125.00 feet to a point on a curve; thence southerly along a curve to the left having an arc length of 250.77 feet, a radius of 300.00 feet; a central angle of 47°53'36" and a chord bearing South 14°23'05" West 243.53 feet to a point of tangency; thence South 09°33'43" East 403.87 feet; thence South 80°26'17" West 125.00 feet; thence South 09°33'43" East 520.00 feet, thence North 80°26'17" East 125.00 feet; thence South 09°33'43" East 40.00 feet; thence South 80°26'17" West 125.00 feet; thence South 09°33'43" East 980.61 feet to a point of curvature; thence southerly along a curve to the left having an arc length of 441.04 feet, a radius of 725.00 feet, a central angle of 34°51'17" and a chord bearing South 26°59'21" East, 434.27 feet to a point; thence North 45°35'00" East 55.00 feet; thence South 44°25'00" East 67.22 feet; thence North 39°51'14" East 73.36 feet to a point on a curve; thence southeasterly along a curve to the left having an arc length of 13.16 feet, a radius of 600.00 feet; a central angle of 01°15'25" and a chord bearing South 50°46'29" East 13.16 feet to a point of tangency; thence South 51°24'11" East 170.76 feet; thence South 54°59'31" West 770.58 feet; thence North 35°00'29" West 649.53 feet to a point on the east right of way line of U.S. Highway No.1; thence northerly along said right of way line of the following six courses; run North 09°59'31" East 128.08 feet; thence South 89°43'01" West 5.08 feet; thence North 09°59'31" East 253.32 feet to a point of curvature; thence northerly along a curve to the left having an arc length of 655.06 feet, a radius of 2030.05 feet, a central angle of 18°29'18" and a chord bearing North 00°44'52" East, 652.23 feet to a point of tangency; thence North 08°29'47" West 179.58 feet; thence South 81°30'12" West 20.00 feet; thence North 08°29'47" West 1583.88 feet to the POINT OF BEGINNING.

ALSO INCLUDING:

Reserved Parcel "D" Lake View - Section 37 Palm Coast Park at Palm Coast, as recorded in Map Book 13, pages 1 through 29, Public Records of Flagler County, Florida, being more particularly described as follows:
From a POINT OF BEGINNING, being the most northerly corner of said Reserved Parcel "D"; thence South 38'53'28" East 93.32 feet; thence North 89°30'56" East 936.80 feet; thence South 00°29'04" East 432.94 feet; thence South 09°33'42" East 57.28 feet to a cusp point; thence northwesterly along a curve to the left having an arc length of 317.78 feet, a radius of 225.00 feet; a central angle of 80°55'21" and a chord bearing North 50°01'23" West 292.02 feet to a point of tangency; thence South 89°30'56" West 846.10 feet; thence North 09°33'43" West 149.00 feet to a point of curvature; thence northerly along a curve to the right having an arc length of 254.23 feet, a radius of 240.00 feet, a central angle of 60°41'38" and a chord bearing North 20°47'06" East, 242.51 feet to the POINT OF BEGINNING.

ALSO INCLUDING:

A parcel of land being a portion of Reserved Parcel "E", Lakeview - Section 37 Palm Coast Park at Palm Coast, as recorded in Map Book 13, pages 1 through 29, Public Records of Flagler County, Florida, being more particularly described as follows: From a POINT OF BEGINNING, being the most southerly corner at said Reserved Parcel "E"; thence North 64°44'58" East 526.36 feet; thence North 25°15'02" West 335.20 feet; thence South 64°44'58" West 125.00 feet; thence North 25°15'02" West 620.00 feet to a point of curvature; thence northwesterly along a curve to the right having an arc length of 60.46 feet, a radius of 425.00 feet, a central angle of 08°09'02" and a chord bearing North 21°10'31" West, 60.41 feet to the southeasterly corner of a parcel described in Official Records Book 492, pages 936-939; thence northerly along the boundary of said parcel described in Official Records Book 492, pages 936-939 for the following five courses; thence South 72°54'00" West 10.00 feet; thence North 53°38'13" West 20.65 feet; thence South 05°01'26" West 11.50 feet; thence North 10°42'21" West 31.82 feet; thence North 01°05'36" East 53.63 feet; thence North 85°41'45" East 24.67 feet to the boundary of above said Reserved Parcel "2", being a point on a curve; thence northerly along a curve to the right having an arc length of 28.33 feet, a radius of 425.00 feet; a central angle of 03°49'11" and a chord bearing North 02°23'39" West 28.33 feet to a point of tangency; thence North 00°29'04" West 1536.30 feet to a point of curvature; thence northeasterly along a curve to the right having an arc length of 213.75 feet, a radius of 150.00 feet; a central angle of 81°38'47" and a chord bearing North 40°20'20" East, 196.12 feet to a point; thence South 08°50'16" East 110.00 feet to a point on a curve; thence easterly along a curve to the right having an arc length of 11.66 feet, a radius of 40.00 feet, a central angle of 16°42'25" and a chord bearing North 89°30'57" East 11.62 feet to a point; thence North 07°52'09" East 110.00 feet to a point on a curve; thence southeasterly along a curve to the right having an arc length of 213.75 feet, a radius of 150.00 feet, a central angle of 81°38'47" and a chord bearing South 41°18'27" East 196.12 feet to a point; thence South 85°19'06" East 128.73 feet; thence South 08°50'16" East 110.00 feet to a point on a curve; thence easterly along a curve to the right having an arc length of 11.66 feet, a radius of 40.00 feet a central angle of 16°42'25" and a chord bearing North 89°30'57" East 11.62 feet to a point; thence North 07°52'09" East 110.00 feet to a point on a curve; thence southeasterly along a curve to the right having an arc length of 213.75 feet, a radius of 150.00 feet, a central angle of 81°38'47" and a chord bearing South 41°18'27" East 196.12 feet to a point of tangency; thence South 00°29'04" East 202.47 feet to a point of cusp; thence northeasterly along a curve to the right having an arc length of 213.75 feet, a radius of 150.00 feet, a central angle of 81°38'47" and a chord bearing North 40°20'20" East, 196.12 feet to a point; thence South 08°50'16" East 110.00 feet to a point on a curve; thence easterly along a curve to the right having an arc length of 11.66 feet, a radius of 40.00 feet a central angle of 16°42'25" and a chord bearing North 89°30'57" East 11.62 feet to a point; thence North 07°52'09" East 110.00 feet to a point on a curve; thence southeasterly along a curve to the right having an arc length of 213.75 feet, a radius of 150.00 feet; a central angle of 81°38'47" and a chord bearing South 41°18'27" East 196.12 feet to a point of cusp; thence northeasterly along a curve to the right having an arc length of 213.75 feet, a radius of 150.00 feet; a central angle of 81°38'47" and a chord bearing North 40°20'20" East 196.12 feet to a point; thence South 08°50'16" East 110.00 feet to a point; thence easterly along a curve to the right having an arc length of 11.66 feet, a radius of 40.00 feet, a central angle of

16°42'25" and a chord bearing North 89°30'57" East 11.62 feet to a point; thence North 07°52'09" East 110.00 feet to a point on a curve; thence southeasterly along a curve to the right having an arc length of 213.75 feet, a radius of 150.00 feet; a central angle of 81°38'47" and a chord bearing South 41°18'27" East 196.12 feet to a point of tangency; thence South 00°29'04" East 1003.67 feet; thence South 25°15'02" East 260.04 feet to a point of curvature; thence southerly along a curve to the right having an arc length of 353.43 feet, a radius of 225.00 feet, a central angle of 90°00'00" and a chord bearing South 19°44'58" West, 318.20 feet to a point of tangency; thence South 64°44'58" West 800.00 feet; thence South 25°15'02" East 300.00 feet; thence North 64°44'58" East 910.00 feet to a point of curvature; thence easterly along a curve to the right having an arc length of 309.71 feet, a radius of 425.00 feet, a central angle of 41°45'11" and a chord bearing North 85°37'33" East, 302.90 feet to a point; thence South 16°30'09" West 125.00 feet to a point on a curve; thence easterly along a curve to the right having an arc length of 34.00 feet, a radius of 300.00 feet, a central angle of 06°29'36" and a chord bearing South 70°15'03" East 33.98 feet to a point; thence North 22°59'45" East 125.00 feet to a point on a curve; thence southeasterly along a curve to the right having an arc length of 309.71 feet, a radius of 425.00 feet, a central angle of 41°45'13" and a chord bearing South 46°07'39" East 302.91 feet to a point of cusp; thence North 25°15'02" West 822.28 feet to a point of curvature; thence northeasterly along a curve to the right having an arc length of 561.16 feet, a radius of 275.00 feet, a central angle of 116°54'59" and a chord bearing North 33°12'28" East, 468.74 feet to a point of tangency; thence South 88°20'03" East 756.56 feet; thence South 07°23'44" West 126.38 feet to a point of on a curve; thence easterly along a curve to the right having an arc length of 150.15 feet, a radius of 150.00 feet, a central angle of 57°21'14" and a chord bearing South 53°55'39" East 143.96 feet to a point of tangency; thence South 25°15'02" East 40.00 feet; thence North 64°44'58" East 125.00 feet to the easterly line of Belle Terre Waterway; thence North 25°15'02" West along said easterly line of Belle Terre Waterway for a distance of 862.29 feet to a point of curvature; thence depart said boundary line of said Reserved Parcel "2" and run westerly along the southerly line of Jefferson Davis Waterway for the following four courses: run westerly along a curve to the left having an arc length of 921.97 feet, a radius of 825.00 feet, a central angle of 64°01'49" and a chord bearing North 57°15'57" West, 874.74 feet to a point of tangency; thence North 89°16'51" West 858.76 feet to a point of curvature; thence westerly along a curve to the right having an arc length of 411.10 feet, a radius of 675.00 feet, a central angle of 34°53'44" and a chord bearing North 71°49'59" West, 404.78 feet to a point of tangency; thence North 54°23'07" West 585.58 feet to a point of curvature; thence westerly along a curve to the left having an arc length of 177.30 feet, a radius of 825.00 feet, a central angle of 12°18'47" and a chord bearing North 60°32'31" West,176.96 feet to a point on the westerly boundary of said Reserved Parcel "2"; thence southerly and westerly along said westerly boundary of said Reserved Parcel "E" for the following seven courses: South 29°30'56" West 419.65 feet; thence South 14°30'56" West 66.19 feet; thence South 00°29'04" East 810.00 feet to a point of curvature; thence southeasterly along a curve to the right having an arc length of 353.43 feet, a radius of 225.00 feet, a central angle of 90°00'00" and a chord bearing South 44°30'56" West, 318.20 feet to a point of tangency; thence South 89°30'56" West 659.20 feet to a point on a curve; thence southeasterly along a curve to the left having an arc length of 331.52 feet, a radius of 720.00 feet, a

central angle of 26°22'53" and a chord bearing South 25°41 '59" East 328.59 feet to a point of tangency; thence South 38°53'25" East 1801.29 feet to the POINT OF BEGINNING.

ALSO INCLUDING:

Part of Government Sections 21 and 22, Township 10 South, Range 30 East, Flagler County, Florida being that part of PARCEL NO. 2 of the property described in Official Records Book 142, pages 278-279, lying south of Jefferson Davis Waterway and being more particularly described as follows:
From a POINT OF REFERENCE being a point on the easterly boundary line of the above described PARCEL NO. 2, said point being the northwest corner of Reserved Parcel "2" as shown on the recorded plat of Lakeview - Section 37 Palm Coast Park at Palm Coast, as recorded in Map Book 13, pages 1 through 29, Public Records of Flagler County, Florida; thence South 29°30'56" West along the easterly boundary of said PARCEL NO. 2 being also along the westerly boundary of said Reserved Parcel "E" for a distance of 390.35 feet to the POINT OF BEGINNING; thence continue along the easterly and southerly boundary of said PARCEL NO. 2 being also along the westerly and northerly boundary of said Reserved Parcel "E" for the following seven courses: run South 29°30'56" West 419.65 feet; thence South 14°30'56" West 66.19 feet; thence South 00°29'04" East 810.00 feet to a point of curvature; thence southwesterly along a curve to the right having an arc length of 353.43 feet, a radius of 225.00 feet, a central angle of 90°00'00" and a chord bearing South 44°30'56" West, 318.20 feet to a point of tangency; thence South 89°30'56" West 659.20 feet to a point on a curve; thence northerly along a curve to the right having an arc length of 151.10 feet, a radius of 720.00 feet, a central angle of 12°01'28" and a chord bearing North 06°29'48" West 150.83 feet to a point; thence South 89°30'56" West 1280.00 feet to the northwest corner of Block 164 of said plat of Lakeview; thence North 12°53'48" East along the southerly line of said Jefferson Waterway for a distance of 297.66 feet to a point on a curve; thence northeasterly along a curve to the right having an arc length of 913.19 feet, a radius of 825.00 feet, a central angle of 63°25'15" and a chord bearing North 39°41'03" East 867.28 feet to a point of tangency; thence North 71°23'41" East 1251.37 feet to a point of curvature; thence easterly along a curve to the right having an arc length of 603.42 feet, a radius of 825.00 feet; a central angle of 41°54'25" and a chord bearing South 87°39'07" East, 590.05 feet to the POINT OF BEGINNING.

ALSO INCLUDING:

All of that land vacated in the Subdivision Plat Of Lakeview - Section 37 Palm Coast Map Book 13 Pages 1 through 29, per Resolution 95-56 as recorded in Official Records Book 538 at Pages 1611 through 1613, Public Records of Flagler County, Florida, being described as follows:
BEGINNING at the southwesterly corner of Lot 22, Block 143 of the aforesaid Lakeview - Section 37; thence North 80°26'17" East a distance of 49.47 feet to a point of curvature of a curve to the right; thence northeasterly along said curve having a radius of 300.00 feet, a central angle of 14°34'59" an arc of 76.36 feet and a chord bearing North

87°43'47" East, 76.15 feet to a point on a non-tangent line; thence North 09°33'43" West, a distance of 1273.40 feet; thence North 80°26'17" East a distance of 124.48 feet; thence South 47°01'13" East a distance of 97.49 feet to a point on a non-tangent curve; thence northeasterly along a curve to the right having a radius of 150.00 feet; a central angle of 08°07'48", an arc length of 21.28 feet and a chord bearing North 47°02'41" East, 21.27 feet to a point of tangency; thence North 51°06'35" East a distance of 100.00 feet; thence South 38°53'25" East a distance of 50.00 feet; thence South 51°06'35" West a distance of 100.00 feet to a point of curvature; thence southwesterly along a curve to the left having a radius of 100.00 feet, central angle of 05°43'46, an arc length of 10.00 feet and a chord bearing South 48°14'42" West,10.00 feet to a point on a non-tangent line; thence South 50°07'21" East a distance of 153.93 feet; thence South 51°06'35" West a distance of 20.25 feet; thence South 09°33'43" East a distance of 936.00 feet; thence South 35°36'55" East a distance of 82.42 feet; thence South 81°24'11" East a distance of 240.00 feet; thence South 08°35'49" West a distance of 125.00 feet; thence South 81°24'11" East a distance of 27.55 feet to a point on a non-tangent curve; thence southwesterly along curve to the left having a radius of 40.00 feet, a central angle of 77°21'52", an arc of 54.01 feet and a chord bearing South 08°35'49" West 50.00 feet to a point on a non-tangent line; thence North 81°24'11" West a distance of 4.59 feet; thence South 08°35'49" West a distance of 125.00 feet; thence North 81°24'11" West a distance of 480.00 feet; thence South 84°38'20" West a distance of 69.97 feet; thence North 03°00'11" West a distance of 144.02 feet to a point on a non-tangent curve; thence southwesterly along a curve to the left having a radius of 250.00 feet, a central angle of 13°34'27", an arc of 59.23 feet and a chord bearing South 87°13'31" West, 59.09 feet to a point of tangency; thence South 80°26'17" West a distance of 51.03 feet to a point on a non-tangent curve; thence northwesterly along a curve to the left having a radius of 200.00 feet, a central angle of 07°10'51" an arc of 25.07 feet and a chord bearing North 05°58'17" West 25.05 feet to a point of tangency; thence North 09°33'43" West a distance of 25.00 feet to the POINT OF Beginning, the above described parcel of land is situated in Section 22, Township 10 South, Range 30 East, Flagler County, Florida.

ALSO INCLUDING:

Part of Reserved Parcel "R-1", Lakeview - Section 37 Palm Coast Park at Palm Coast, as recorded in Map Book 13, pages 1 through 29, Public Records of Flagler County, Florida, being more particularly described as follows:
From a POINT OF BEGINNING, being the most easterly corner of said Reserved Parcel "R-1"; thence South 38°35'49" West along the southeasterly line of said Reserved Parcel "R-1" for a distance of 767.47 feet; thence North 51°24'11" West 1300.81 feet to the most westerly corner of said Reserved Parcel "R-1"; thence North 54°59'31" East,148.96 feet; thence South 59°22'19" East 485.17 feet; thence South 73°43'22" East 217.49 feet; thence North 77°17'42" East 363.21 feet; thence North 38°35'49" East 191.24 feet; thence South 51°24'11" East 350.00 feet to the POINT OF BEGINNING.

ALSO INCLUDING:

A parcel of land being a portion of Reserved Parcel "E" according to the Subdivision Plat Lakeview Section 37, Palm Coast, recorded in Map Book 13, Pages 1 Through 29, of the Public Records of Flagler County, Florida, being more particularly described as follows: A POINT OF REFERENCE being the northeast corner of Lot 1, Block 75; thence North 25°15'02" West along the west line of Belle Terre Waterway a distance of 862.29 feet to THE POINT OF BEGINNING; thence departing Belle Terre Waterway (as platted) 921.97 feet along the arc of a curve to the left (concave southerly) have a central angle of 64°01'49", a radius of 825.00 feet, a chord bearing of North 57°15'57" West and a chord distance of 874.74 feet to a point of tangency, thence North 89°16'51" West a distance of 858.76 feet to a point of curvature; thence 411.10 feet along the arc of a curve to the right (concave northerly) having a central angle of 34°53'44", a radius of 675.00 feet, a chord Bearing of North 71°49'59" West and a chord distance of 404.78 feet to the end of said curve being a point on the boundary of Jefferson Davis Waterway as recorded in Official Records Book 549, Pages 966 through 990, of the Public Records of Flagler County, Florida; thence North 35°36'53" East along said waterway a distance of 30.00 feet to a point on a non-tangent curve; thence easterly 392.83 feet along the arc of a curve to the left (concave northerly)having a central angle of 34°53'44", a radius of 645.00 feet, a chord bearing of South 71°49'59" East and a chord distance of 386.79 feet to a point of tangency; thence South 89°16'51" East a distance of 858.76 feet to a point of curvature; thence 955.50 feet along the arc of a curve to the right concave southwesterly having a central angle of 64°01'49", a radius of 855.00 feet, a chord bearing of South 57°15'57" East and a chord distance of 906.54 feet to the end of said curve; thence South 64°44'58" West a distance of 30.00 feet to the POINT OF BEGINNING.

ALSO INCLUDING:

A PARCEL OF LAND LYING EAST OF U.S. HIGHWAY NO. 1 (STATE ROAD 5), BEING A PORTION OF LONDON WATERWAY, LAKEVIEW SECTION 37, AS RECORDED IN MAP BOOK 13, PAGE 26, LOCATED IN GOVERNMENT SECTION 28, TOWNSHIP 10 SOUTH, RANGE 30 EAST, FLAGLER COUNTY, FLORIDA, BEING MORE PARTICULARLY DESCRIBED AS FOLLOWS:
AS A POINT OF REFERENCE, COMMENCE AT THE INTERSECTION OF THE NORTHEASTERLY LINE OF ASHWOOD WATERWAY (A 300 FOOT RIGHT-OF-WAY) PER SAID LAKEVIEW SECTION 37, WITH THE EASTERLY RIGHT-OF-WAY LINE OF U.S. HIGHWAY No. 1, (STATE ROAD 5, A 175 FOOT RIGHT-OF-WAY AT THIS POINT); THENCE DEPARTING SAID RIGHT-OF-WAY LINE SOUTH 35°00'29" EAST ALONG SAID NORTHEASTERLY LINE OF ASHWOOD WATERWAY FOR A DISTANCE OF 649.53 FEET TO THE INTERSECTION OF THE NORTHWESTERLY LINE OF SAID LONDON WATERWAY, ALSO BEING THE POINT OF BEGINNING OF THIS DESCRIPTION; THENCE DEPARTING SAID ASHWOOD WATERWAY LINE NORTH 54°59'31" EAST ALONG THE NORTHWESTERLY LINE OF SAID LONDON WATERWAY FOR A DISTANCE OF 770.58 FEET TO THE INTERSECTION OF THE SOUTHWESTERLY RIGHT-OF-WAY LINE OF LONDON DRIVE, (A 60 FOOT RIGHT-OF-WAY), PER SAID LAKEVIEW-SECTION 37; THENCE DEPARTING THE NORTHWESTERLY LINE OF SAID LONDON WATERWAY SOUTH 51°24'11" EAST ALONG SAID RIGHT-

OF-WAY LINE FOR A DISTANCE OF 104.24 FEET TO THE SOUTHERLY LINE OF SAID LONDON WATERWAY; THENCE DEPARTING SAID RIGHT-OF-WAY LINE SOUTH 54'59'31" WEST ALONG SAID SOUTHERLY LINE OF LONDON WATERWAY FOR A DISTANCE OF 800.00 FEET TO THE INTERSECTION OF SAID NORTHEASTERLY LINE OF ASHWOOD WATERWAY; THENCE NORTH 35°00'29" WEST ALONG SAID ASHWOOD WATERWAY LINE FOR A DISTANCE OF 100.00 FEET TO THE AFOREMENTIONED POINT OF BEGINNING OF THIS DESCRIPTION.

14. Lakeview Estates MPD First Amendment (10.8.26 Clean Version)

Background:

Request: The applicant proposes to amend the existing Lakeview Estates Master Planned Development (MPD) Development Agreement (DA).

Original Background: The subject property was developed as the 18-hole Matanzas Woods Golf Course by ITT and opened in 1985. The golf course permanently closed in 2007. In April 2019, Matanzas GC Palm Coast, LLC purchased the property. The initial City Zoning Map in 1999/2000 showed the subject property having the Flagler County zoning designation of Urban Single-Family Residential (R-1B). Flagler County's Land Development Code (LDC) has the R-1B Zoning District which allowed for single-family residential homes and also recreational areas that are accessory to residential developments. The R-1B zoning district allowed for up to 3 units per acre. In 2004 the City adopted its Comprehensive Plan and designated the subject property as Greenbelt on the Future Land Use Map (FLUM). The Greenbelt designation reduced the overall density on the subject property to 1 unit per acre.

On July 5, 2005, the City Council adopted the initial chapters of our Land Development Code (Ordinance No. 2005-33) which created the Golf Course Community (GCC) Zoning District. The GCC Zoning District allowed

density of one home/per acre and also setup significant standards for the redevelopment of any golf course areas into residential uses. These guidelines, located in section 3.03.04.J of our LDC, were added to minimize adverse impacts to abutting single family residential zoned areas. On October 21, 2008, the City Council adopted Ordinance 2008-23 which implemented the City's first complete Land Development Code and also converted the Golf Course Community (GCC) Zoning District to MPD without a DA.

On January 19, 2021, the City Council approved Ordinance 2021-01 which rezoned the existing MPD to add the existing DA at the applicant's request during public hearing. The previous rezoning application had significant public participation at all facets of the rezoning process from the neighborhood meeting, which drew approximately 250 to 350 residents the two Planning and Land Development Board (PLDRB) meetings drawing approximately 50 to 60 residents and 30 to 35 residents respectively.

Project Description: The property owner using clustering provisions of the LDC, the overall acreage of the project, and a field verified conservation area of ±0.2 acres ended up with residential entitlements of ±272 dwelling units (du). To date, 221 lots have received varying levels of approval (Preliminary and Final plats) between Tracts 1, 2, 4, 7, and 10 resulting in the project retaining 51 residential entitlements. The applicant's requested MPD DA Amendment relies on the potential approval of their requested FLUM amendment and has the effect of reducing the remaining residential entitlements from 51 du to 39 du due to the planned development of ±20 acres of COM-2 uses on Tract 9.

- The applicant is proposing to site the remaining 39 residential entitlements on Tract 3, which would require the approval of the MPD DA amendment and subsequent platting applications by the applicant. The vision that the applicant provided was that these lots would be designed to be ±10,000 square feet or larger to make use of their proposed language for recreational vehicle garages, but at a minimum size lots meeting the Unified Land Development Code (LDC) requirements of the SFR-2 zoning district, which requires 7,500-square-foot lots which are compatible with the existing platted single-family residential lots found on nearby Lee Drive.
- The DA provides language for siting additional stormwater retention ponds in Tracts 3, 6, and 7, which supports the City's recent effort to add additional stormwater retention in the area by vacating Learning Lane and Leaf Lane.
- The applicant is also requesting to amend the allowed use on tract 8 to convey the City a site for a future City park at no cost and not subject to park impact fee credits.
- Additionally, the applicant is requesting to permit ±20 acres of COM-2 uses on a portion of Tract 9 adjacent to US Highway 1.

Public Participation: The applicant hosted a neighborhood meeting as required by Unified Land Development Code (LDC) Section 2.05.02 at 5:30 p.m. Tuesday April 14th, 2026, in the cafeteria of Indian Trails Middle School. The applicant also met the public notice requirements of LDC Section 2.05.03. The neighborhood meeting had approximately 125 attendees. Applicant submitted documentation summarizing the neighborhood meetings that has been attached to the agenda item. Prior to the Planning and Land Development Regulation Board (PLDRB) meeting on May 20, 2026, staff was contacted by several members of the public requesting clarifying information pertaining to public hearing dates or to access to application materials, which staff has provided. The applicant has met their public notice requirements.

Planning and Land Development Regulation Board Meeting: The PLDRB heard the Comprehensive Plan Amendment, application #5576, and its companion MPD Amendment, application #5575, at their May 20, 2026 meeting. During the evening, the PLDRB unanimously approved a motion to delay public comment on the Comprehensive Plan Amendment until after the companion MPD Amendment, application #5575, had been presented to the PLDRB as well. 10 members of the public spoke in opposition to the proposed Comprehensive Plan Amendment and MPD Amendment.

The PLDRB voted five to one in favor of recommending approval of the Comprehensive Plan Amendment subject to the concurrent adoption of staff's draft FLUE Policy 1.1.2.5 serving as a site specific limiting policy capping the intensity and density of the 20-acre portion of Tract 9 of the Lakeview Estate MPD.

The PLDRB voted six to zero in favor of recommending denial of the MPD Amendment subject to criteria analysis of LDC Section 2.05.05A finding the application contrary to public interest based on compelling evidence presented by the public during public comment in addition to analysis of LDC Sections 3.03.04.J1 and 3.03.04.J2.

City Council First Read: City Council heard this item at its September 1st meeting, and it was continued until the September 15th meeting. City Council voted to approve the MPD Amendment with a vote of three to one. Four members of the public spoke at the September 1st meeting, and two members of the public spoke at the September 15th meeting.

Updated Background: The Development Agreement has been updated by the applicant based on Council feedback that they received from the September 1 and September 15 Council meetings. The Development Agreement is in the final form that the applicant would like considered for adoption on this MPD Amendment. Additionally, the Staff Report and Power Point have been updated to reflect the changes. The applicant also provided an updated environmental report focusing on Tract 8 regarding soil testing.

This is a quasi judicial item, please disclose any ex parte communication.

Recommended Action:
THE PLANNING AND LAND DEVELOPMENT REGULATION BOARD RECOMMENDS THAT THE CITY COUNCIL FINDS THE PROPOSED MPD AMENDMENT (APPLICATION NO. 5575) NOT CONSISTENT WITH THE COMPREHENSIVE PLAN AND DENY THE APPLICATION.

Future Land Use Map Amendment
Analysis and Recommendation
AR # 5576

Future Land Use Map Amendment

Findings Summary

- Public facilities are available to accommodate the impact of the FLUM amendment,
- Environmental standards for development will need to be met,
- Requested FLUM designation is consistent with the surrounding land use and development pattern,
- Requested FLUM is appropriate on US -1,
- The FLUM amendment is consistent with various policies of the Comprehensive Plan

PALM COAST

Future Land Use Map Amendment

Recommendation

The Planning and Land Development Regulation Board recommends that City Council find Application #5576 consistent with the Comprehensive Plan and approve the FLUM amendment from Greenbelt to Mixed Use, subject to the concurrent adoption of FLUE Policy 1.1.2.5 limiting the site's developmental potential.

Updated for 9.15 Council Meeting

MPD Amendment

MPD DA Changes

9-1 to 9-15 versions

Following the City Council Meeting on 9/1/2026 the applicant has modified the proposed MPD Development Agreement Amendment and associated exhibits.

1. City Community Park: The applicant has added language to ensure the owner shall demonstrate that arsenic levels on Tract 8 are under limits for human occupation as regulated by Federal, State, and Local regulations prior to conveyance of the Tract to the City.
2. Project Description: Now includes a line providing the to date utilization of the residential entitlements (221) and remaining balance (39, assuming the FLUM amendment is approved).
3. Tract utilization table for Tract 9 is also updated to limit commercial uses to a cap of 250,000 square feet (SF) of development, and provides a new exhibit (Exhibit “C” to the MPD which provides clarification on the COM-2 uses the applicant is seeking.
4. Text for Tract 3 has been reworded to clarify that potential development on Tract 3 shall maintain a minimum 50-foot View Protection Zone (VPZ), and ensures that the VPZ may not be cleared during development of the tract.

Changes continue on next slide.

PALM COAST

Updated for 9.15 Council Meeting

MPD Amendment

MPD DA Changes

9-1 to 9-15 versions

5. Text for Tract 9 has been reworded to reference the intensity cap of 250,000 SF. Additionally, language has been provided to allow for potential waiver reductions to the landscaping buffers adjacent to US-1 and parking requirements. Such waivers are worded to follow existing LDC requirements for landscape betterment plans (approved by PLDRB), or parking flexibility studies based on Institute of Traffic Engineers' Parking Manual (administratively approved by the LUA in the LDC). These potential waivers are designed to ensure that the 100' VPZ on Tract 9 is maintained.
6. Section 4 – 13 added.

   "Prior to filing any application for development of Tract 3 or Tract 9, the Owner shall either (1) place a conservation easement over portions of the Subject Property prohibited from being developed ("Undeveloped Property") with the terms of such easement in a form acceptable to the City's LUA or (2) convey the Undeveloped Property pursuant to a mutually agreeable purchase and sale agreement approved by the LUA."

MPD Amendment

MPD DA Changes 10-20 version

2. Section 4 – 14 added.

"Existing vegetative screening in all View Protection Zones (VPZ) shall be maintained in perpetuity with no land clearing activities, except for those deemed necessary by the City for emergency services. Any other clearing activities within the VPZ is prohibited. In the event of any non-exempted clearing activities occurs, the property owner shall be required to replant the VPZ with a like for like replacement based on the diameter inches of trees cleared, with minimum replanting of trees of at least six (6) inches in diameter at breast height (dbh). The Land Use Administrator shall have approval of replacement species and spacing. Any tree replacement within a VPZ shall be made using native drought tolerant species. Further, tree removal or land clearing activities within the VPZ that are not exempted per this subsection shall be subject Code Enforcement action as prescribed in the City's Code of Ordinances, including administrative fines and liens as outlined in Section 2-211 of the Code of Ordinances, with fines accruing at a rate of $1,000 per day for first violation, and $5,000 per day for subsequent violations, until such violations are resolved."

PALM COAST

MPD Amendment

View Protection Zones – LDC Sec. 3.03.04(J)

The term and utilization of VPZ was established within the Lakeview Estates MPD DA that was adopted in 2021 to be consistent with the Land Development Code regulations related to development in former GCC Districts.

Section 3.03.04(J) of the LDC provides the following redevelopment criteria:

J. *Existing golf course communities. Existing golf courses communities located within the former Golf Course Communities (GCC) District seeking to add residential units must comply with the standards established for the Master Planned Development (MPD) District. In addition, the development shall utilize the following guidelines in order to minimize adverse impacts on any abutting single-family residentially zoned areas.*

1. *Existing direct golf course views from the rear yards of all existing, platted lots located within any residentially zoned districts directly abutting the site shall be maintained. Peripheral (i.e. side) views from these existing rear yards may be impacted by new development and new development may be visible from existing development.*

2. *Existing golf course views from existing platted lots located within any residentially zoned area located across a right-of-way or a water body from the site shall be maintained to the maximum extent practical.*

3. *Multifamily uses shall be surrounded by fairways, clubhouse, and/or other golf course facilities to buffer single-family areas within the same development. The multifamily uses shall not be located within 150 feet from any existing, platted lots located within a residentially zoned area.*

MPD Amendment

LDC Sec. 2.05.05 Criteria Analysis

A. *The proposed development must not be in conflict with or contrary to the public interest;*
B. *The proposed development must be consistent with the Comprehensive Plan and the provisions of this LDC;*
C. *The proposed development must not impose a significant financial liability or hardship for the City;*
D. *The proposed development must not create an unreasonable hazard, or nuisance, or constitute a threat to the general health, welfare, or safety of the City's inhabitants;*
E. *The proposed development must comply with all other applicable local, state and federal laws, statutes, ordinances, regulations, or codes.*

PALM COAST

A. The proposed development must not be in conflict with or contrary to the public interest;

MPD Amendment

LDC Sec. 2.05.05 Criteria Analysis

- The proposed MPD amendment ultimately would reduce the remaining residential entitlements from 51 to 39 remaining du on the subject property as ±20 acres would be slotted for commercial development adjacent to US Highway 1.
- The conveyance of Tract 8 as a City park site without requiring the City to buy the land or for park impact fee credits is a benefit to the neighborhood.
- The proposed residential uses on Tract 3 adjacent to Lakeview Boulevard are likely the most significant impact to the surrounding neighborhood; however, the minimum sizes of the proposed residences would match the existing residential neighborhood's zoning of SFR-2.
- The applicant's request to be able to site recreational vehicle garages as an accessory use on any residential lot 10,000 or more square feet has the potential to reduce the need of residents with recreational vehicles or boats from having to utilize private off-site storage options.
- The neighborhood meeting did have ±125 individuals attend, so there is clearly a vested interest by the public in the proposed MPD DA amendment; however, due to the nature of the neighborhood meeting and its technical limitations, it is difficult to gauge consensus on the public's interest.

Palm Coast

B. The proposed development must be consistent with the Comprehensive Plan and the provisions of this LDC;

MPD Amendment

LDC Sec. 2.05.05 Criteria Analysis

The request is consistent with the Comprehensive Plan. However, its staff's opinion that the applicant's request is not totally consistent with the following sections of the Unified Land Development Code (LDC):

- ***Section 3.03.04.J.1.*** *Existing direct golf course views from the rear yards of all existing, platted lots located within any residentially zoned districts directly abutting the site shall be maintained. Peripheral (i.e. side) views from these existing rear yards may be impacted by new development and new development may be visible from existing development.*
- ***Section 3.03.04.J.2.*** *Existing golf course views from existing platted lots located within any residentially zoned area located across a right-of-way or a water body from the site shall be maintained to the maximum extent practical.*

Palm Coast

C. The proposed development must not impose a significant financial liability or hardship for the City;

MPD Amendment

LDC Sec. 2.05.05 Criteria Analysis

- Potable water and sewer services are available to serve the project.
- Through the development review process, further analysis of the development impact on public infrastructure will be completed.

D. The proposed development must not create an unreasonable hazard, or nuisance, or constitute a threat to the general health, welfare, or safety of the City's inhabitants;

MPD Amendment

LDC Sec. 2.05.05 Criteria Analysis

- The project already has approved residential entitlements to support a total of 272 du on the site. The proposed MPD Amendment reduces the overall density of the project area by reducing the residential entitlements 260 units. At this time 221 residential entitlements have been used. Additionally, it provides land for a public park site, and language to require emergency access to US Highway 1.
- At this time the proposed amendment does not create by itself an unreasonable hazard; however, during the platting process, City review staff shall evaluate the proposed project to ensure compliance with all applicable code requirements.

PALM COAST

E. The proposed development must comply with all other applicable local, state and federal laws, statutes, ordinances, regulations, or codes.

MPD Amendment

LDC Sec. 2.05.05 Criteria Analysis

- The subject property will be required to comply with the MPD Development Agreement, City's Land Development Code (LDC), Comprehensive Plan, and the requirements of all other applicable local, state and federal agencies throughout the development process.

MPD Amendment

LDC Sec. 2.09.04 Criteria Analysis

A. Consistency with all adopted elements of the Comprehensive Plan and whether it furthers the goals and objectives of the Comprehensive Plan.

B. Consistency with the general intent of the LDC.

C. Degree of departure of the proposed development from surrounding areas in terms of character and density/intensity.

D. Compatibility within the development and relationship with surrounding neighborhoods.

E. Adequate provision for future public education and recreation facilities, transportation, water supply, sewage disposal, surface drainage, flood control, and soil conservation as shown in the development plan.

F. The feasibility and compatibility of development phases to stand as independent developments.

PALM COAST

MPD Amendment

LDC Sec. 2.09.04 Criteria Analysis (continued)

G. The availability and adequacy of primary streets and thoroughfares to support traffic to be generated within the proposed development.

H. The benefits within the proposed development and to the general public to justify the requested departure from standard development requirements inherent in a Master Planned Development District classification.

I. The conformity and compatibility of the development with any adopted development plan of the City of Palm Coast.

J. Impact upon the environment or natural resources.

K. Impact on the economy of any affected area.

A. Consistency with all adopted elements of the Comprehensive Plan and whether it furthers the goals and objectives of the Comprehensive Plan.

MPD Amendment

LDC Sec. 2.09.04 Criteria Analysis

- The proposed application remains consistent with and will further the goals and objectives of the Comprehensive Plan.

B. Consistency with the general intent of the LDC.

MPD Amendment

LDC Sec. 2.09.04 Criteria Analysis

- The development standards in the MPD remain generally consistent with the standards established by the LDC.

C. Degree of departure of the proposed development from surrounding areas in terms of character and density/intensity.

MPD Amendment

LDC Sec. 2.09.04 Criteria Analysis

- The proposed changes will not cause the MPD Agreement to further depart from customary standards in the LDC.

D. Compatibility within the development and relationship with surrounding neighborhoods.

MPD Amendment

LDC Sec. 2.09.04 Criteria Analysis

- The proposed uses are similar to existing developments. The neighborhood of the Matanzas Woods area includes SFR-1, SFR-2, SFR-3 and MFR-1 zoning districts. The proposed development is compatible with those zoning districts. In addition, a neighborhood park is compatible with the residential uses found in the area. The height limitation on tract 9 and enhanced vegetative buffers within the VPZ areas help to ensure compatibility with the existing neighborhood. Furthermore, staff's VPZ recommendation helps to ensure compatibility with adjacent existing properties.

E. Adequate provision for future public education and recreation facilities, transportation, water supply, sewage disposal, surface drainage, flood control, and soil conservation as shown in the development plan.

MPD Amendment

LDC Sec. 2.09.04 Criteria Analysis

- As required by the LDC, future development applications will be analyzed in further detail to determine if there is adequate public infrastructure capacity to serve the development. Other public service needs will also be reviewed in more detail as the development review progresses. For example, future applications for development will require further environmental analysis, utility agreements, coordination with Flagler Schools, etc. before approval. The subject project will be required to pay applicable impact fees to accommodate its impact on the public infrastructure and services.

F. The feasibility and compatibility of development phases to stand as independent developments.

MPD Amendment

LDC Sec. 2.09.04 Criteria Analysis

- The developer has not shown any specific phasing of the project. However, various tracts within the MPD are situated where they can adequately be developed independently through the platting process.

G. The availability and adequacy of primary streets and thoroughfares to support traffic to be generated within the proposed development.

MPD Amendment

LDC Sec. 2.09.04 Criteria Analysis

- The applicant previously submitted a Transportation Impact Study when the application was heard in 2021 that demonstrated that all roadways within the study area with the project's traffic included will operate at the City's adopted level of service. This amendment reduces the overall density of the MPD and the applicant has requested a site-specific limiting policy to cap the amount of traffic on Tract 9 to what is currently allowed. The applicant did not provide an updated Transportation Impact Analysis (TIA) with this application after making a request to City Administration, so staff is unable to evaluate the proposed distribution on US Highway 1 for the ±20-acre commercial site. An updated TIA shall be required during the Technical Site Plan stage of Tract 9's commercial development for further review.

H. The benefits within the proposed development and to the general public to justify the requested departure from standard development requirements inherent in a Master Planned Development District classification.

MPD Amendment

LDC Sec. 2.09.04 Criteria Analysis

- The MPD DA amendment reduces residential density, provides additional stormwater, a City park site without cost to the City, and commercial uses along US Highway 1's expanding commercial corridor which could ultimately reduce trip ends to other areas of the City when developed. This project is consistent with the requirements of an MPD to provide a public benefit.

I. The conformity and compatibility of the development with any adopted development plan of the City of Palm Coast.

MPD Amendment

LDC Sec. 2.09.04 Criteria Analysis

- The request adds more commercially designated land to the City and results in a minor reduction of density of the MPD. The proposed uses are similar to the existing residential neighborhood and do not request a reduction in lot sizes from the existing adjacent neighborhood. The proposed height limitation helps ensure compatibility with the existing residential land uses, and although the VPZ areas are reduced in width from the approved MPD DA, the language for enhanced vegetative screening helps buffer existing land uses from those within the MPD.

J. Impact upon the environment or natural resources.

MPD Amendment

LDC Sec. 2.09.04 Criteria Analysis

- The landowners will be required to submit all applicable environmental reports or studies as required by the LDC during subsequent development. These studies will include environmental resource assessments, cultural resources, soil and groundwater analyses, stormwater calculations, floodplain analysis, and threatened and endangered species studies as applicable during the site plan or platting process for any new project within the MPD.

K. Impact on the economy of any affected area.

MPD Amendment

LDC Sec. 2.09.04 Criteria Analysis

- The residents that will inhabit these new homes will have a positive impact on State and local income including permit and impact fees, taxes, and other sources. The project will also provide a significant number of constructions jobs, which should have a positive direct and indirect impact on the local economy. Further the applicant's analysis of the commercial development at Tract 9 estimates that ±250,000 gross square feet could be developed which will enhance the City's nonresidential tax base.

MPD Amendment

Findings Summary

- Public facilities are available to accommodate the impact of the MPD amendment,
- The requested MPD amendment meets the developmental criteria of LDC Sections 2.05.05 and 2.09.04,
- The requested MPD amendment is generally consistent with the Comprehensive Plan and Unified Land Development Code.

MPD Amendment
PLDRB

- The Planning and Land Development Regulation Board (PLDRB) heard the Comprehensive Plan Amendment, application #5576, and its companion MPD Amendment, application #5575, at their May 20, 2026 meeting.

- During the evening, the PLDRB unanimously approved a motion to delay public comment on the Comprehensive Plan Amendment until after the companion MPD Amendment, application #5575, had been presented to the PLDRB as well. 10 members of the public spoke in opposition to the proposed Comprehensive Plan Amendment and MPD Amendment.

- The PLDRB voted five to one in favor of recommending approval of the Comprehensive Plan Amendment subject to the concurrent adoption of staff's draft FLUE Policy 1.1.2.5 serving as a site specific limiting policy capping the intensity and density of the 20-acre portion of Tract 9 of the Lakeview Estate MPD.

- The PLDRB voted six to zero in favor of recommending denial of the MPD Amendment subject to criteria analysis of LDC Section 2.05.05A finding the application contrary to public interest based on compelling evidence presented by the public during public comment in addition to analysis of LDC Sections 3.03.04.J1 and 3.03.04.J2.

PALM COAST

MPD Amendment Recommendation

The Planning and Land Development Regulation Board recommends that the City Council finds the proposed MPD Amendment (Application No. 5575) not consistent with the Comprehensive Plan and deny the application.

Next Steps

- The developer will be required to submit for a Technical Site Plan application prior to developing Tract 9 and will need to plat Tract 3.
- Depending on the gross square footage of development on Tract 9, it may be required to come back to either the PLDRB or City Council.

Staff is available for any questions and the applicant's team is in attendance.

Thank you.

ORDINANCE 2026-____
FIRST AMENDMENT TO THE LAKEVIEW ESTATES MASTER PLAN DEVELOPMENT AGREEMENTAPPLICATION 5575

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF PALM COAST, FLORIDA, AMENDING THE LAKEVIEW ESTATES MASTER PLAN DEVELOPMENT AGREEMENT, AS ESTABLISHED IN SECTION 2.09 OF THE CITY OF PALM COAST UNIFIED LAND DEVELOPMENT CODE, FOR ±280.6 ACRES OF CERTAIN REAL PROPERTY PREVIOUSLY KNOWN AS THE MATANZAS GOLF COURSE AND DESCRIBED AS TAX PARCEL IDENTIFICATION NUMBERS 07-11-31-7037-0RP0A-0002, 07-11-31-7037-0RP0A-0011, AND 07-11-31-7037-0RP0A-0140, GENERALLY LOCATED BETWEEN 0.5 TO 1.25 MILES NORTH OF MATANZAS WOODS PARKWAY, WEST OF INTERSTATE 95, AND EAST OF US HIGHWAY 1, AND BEING MORE PARTICULARLY DESCRIBED IN ATTACHED EXHIBIT A; MODIFYING PERMITTED USES ON TRACTS: 3, 6, 7, 8, AND 9; CONDITIONALLY PERMITTING RECREATIONAL VEHICLE GARAGES FOR ALL TRACTS; PROVIDING FOR LEGISLATIVE FINDINGS AND INTENT; PROVIDING FOR SEVERABILITY, CONFLICTS; AND AN EFFECTIVE DATE.

WHEREAS, the City of Palm Coast ("City"), as the governing body of the City, pursuant to the authority vested in Chapter 163 and Chapter 166, Florida Statutes, and the City of Palm Coast Unified Land Development Code, is authorized and empowered to consider applications relating to zoning; and

WHEREAS, MATANZAS GC PALM COAST LLC, a Florida limited liability company ("Owner") is the Owner of the property further described in "Attachment A" and have entered into the Development Agreement as recorded in Official Records Book 2530, Pages 1215 through 1265 of the public records of Flagler County, Florida ("Development Agreement"); and

WHEREAS, the Owner has requested to amend the Development Agreement in order to modify permitted uses and provide for some revised developmental standards Lakeview Estates MPD; and

WHEREAS, the notice and public hearing requirements, as provided for in Chapter 2 (Review Authority, Enforcement, and Procedures) of the City of Palm Coast Unified Land Development Code (Ordinance No. 2008-23) have been satisfied; and

WHEREAS, the City Council of the City of Palm Coast held duly noticed public hearings on the proposed amendment set forth hereunder and considered findings and advice of staff, citizens, and all interested parties submitting written and oral comments and

supporting data and analysis, and has considered the evidence and testimony presented by the applicant and other interested parties, the recommendations of the various City reviewing departments, and the recommendation of the Planning and Land Development Regulation Board (PLDRB) at its regularly scheduled meeting conducted on May 20, 2026, and after complete deliberation, the City Council hereby finds the requested change consistent with the City of Palm Coast Comprehensive Plan, and that sufficient, competent and substantial evidence supports the proposed amendment set forth hereunder; and

WHEREAS, the City Council of the City of Palm Coast hereby finds that this Ordinance serves a legitimate government purpose and is in the best interests of the public health, safety, and welfare of the citizens of Palm Coast, Florida.

NOW, THEREFORE, IT IS HEREBY ORDAINED BY THE CITY OF PALM COAST, FLORIDA:

SECTION 1. LEGISLATIVE AND ADMINISTRATIVE FINDINGS. The above recitals (whereas clauses) are hereby adopted as the legislative and administrative findings of the City Council.

SECTION 2. MPD AMENDMENT. The Palm Coast City Council, pursuant to the Land Development Code of the City of Palm Coast hereby enacts this Ordinance amending the Development Agreement, attached hereto as "Attachment B", for the property generally located between 0.5 to 1.25 miles north of Matanzas Woods Parkway, west of Interstate 95, and east of US Highway 1 legally described in "Attachment A" attached hereto.

SECTION 3. SEVERABILITY. It is hereby declared to be the intention of the City Council that the sections, paragraphs, sentences, clauses and phrases of this Code are severable, and if any phrase, clause, sentence, paragraph or section of this Code shall be declared unconstitutional by the valid judgment or decree of a court of competent jurisdiction, such unconstitutionality shall not affect any of the remaining phrases, clauses, sentences, paragraphs and sections of this Code.

SECTION 4. CONFLICTS. All Ordinances or parts of Ordinances in conflict with this Ordinance are hereby repealed.

SECTION 5. EFFECTIVE DATE. This Ordinance shall become effective immediately upon its passage and adoption.

APPROVED on the first reading after due public notice and hearing this 15th day of September 2026.

ADOPTED on the second reading after due public notice and hearing this 20th day of October 2026.

LEGAL DESCRIPTION

MATANZAS WOODS GOLF COURSE:

Reserved Parcel "A", Lakeview - Section 37 Palm Coast Park at Palm Coast, as recorded in Map Book 13, pages 1 through 29, Public Records of Flagler County, Florida, being more particularly described as follows:
From a POINT OF BEGINNING, being the northeast corner of Block 165 of said Plat of Lakeview; thence North 89°30'56" East 21.68 feet to a point on a curve; thence southerly along a curve to the left having an arc length of 349.56 feet, a radius of 800.00 feet, a central angle of 25°02'07" and a chord bearing South 26°22'21" East, 346.78 feet to a point of tangency; thence South 38°53'25" East 2087.61 feet to a point of curvature; thence southerly along a curve to the right having an arc length of 266.63 feet, a radius of 1120.00 feet, a central angle of 13°38'23" and a chord bearing South 32°04'13" East, 265.99 feet to a point of tangency; thence South 25°15'02" East 772.55 feet to a point of cusp; thence northwesterly along a curve to the left having an arc length of 213.75 feet, a radius of 150.00 feet, a central angle of 81°38'47" and a chord bearing North 66°04'26" West 196.12 feet to a point; thence South 16°53'50" East 110.00 feet to a point on a curve; thence westerly along a curve to the left having an arc length of 11.66 feet, a radius of 40.00 feet, a central angle of 16°42'25" and a chord bearing South 64°44'57" West 11.62 feet to a point; thence North 33°36'15" West 110.00 feet to a point on a curve; thence southerly along a curve to the left having an arc length of 213.75 feet, a radius of 150.00 feet, a central angle of 81°38'47" and a chord bearing South 15°34'21" West 196.12 feet to a point of tangency; thence South 25°15'02" East 100.25 feet to a point on a curve; thence southwesterly along a curve to the left having an arc length of 217.30 feet, a radius of 280.98 feet, a central angle of 44°18'38" and a chord bearing South 42°35'39" West 211.92 feet to a point of tangency; thence South 08°35'49" West 179.39 feet; thence North 81°24'11" West 913.66 feet; thence South 08°35'49" West 125.00 feet; thence North 81°24'11" West 40.00 feet; thence North 08°35'49" East 125.00 feet; thence North 81°24'11" West 125.00 feet to a point of curvature; thence westerly along a curve to the left having an arc length of 180.00 feet, a radius of 225.00 feet, a central angle of 45°50'12" and a chord bearing South 75°40'43" West,175.24 feet to a point; thence South 37°14'23" East, 125.00 feet to a point on a curve; thence southerly along a curve to the left having an arc length of 77.08 feet, a radius of 100.00 feet, a central angle of 44°09'48" and a chord bearing South 30°40'43" West 75.19 feet to a point of tangency; thence South 08°35'49" West, 237.34 feet; thence North 81°24'11" West 87.50 feet; thence North 51°24'11" West 130.00 feet to a point of curvature; thence westerly along a curve to the left having an arc length of 213.75 feet, a radius of 150.00 feet, a central angle of 81°38'47" and a chord bearing South 87°46'25" West,196.12 feet to a point; thence South 43°02'58" East 110.00 feet to a point on a curve; thence southerly along a curve to the left having an arc length of 11.66 feet, a radius of 40.00 feet, a central angle of 16°42'26" and a chord bearing South 38°35'49" West 11.62 feet to a point; thence North 59°45'24" West 110.00 feet; thence South 38°35"49" West 128.21 feet; thence North 51°24'11" West 1018.03 feet; thence North 38°35'49" East 380.00 feet; thence South 51°24'11" East 500.00 feet to a point of curvature; thence easterly along a curve to the left having an arc length of 353.43 feet, a radius of 225.00, a central angle of 90°00'00" and a chord bearing North 83°35'49" East, 318.20 feet to a point; thence North 51°24'11" West 125.00 feet; thence North 38°35"49" East 230.92 feet; thence South 51°24'11" East 100.00 feet; thence South 81°24'11" East 993.30 feet to a point of

curvature; thence northeasterly along a curve to the left having an arc length of 431.48 feet, a radius of 225.00 feet, a central angle of 109°52'35" and a chord bearing North 43°39'32" East, 368.34 feet to a point of tangency; thence North 11°16'46" West 478.51 feet to a point of curvature; thence northwesterly along a curve to the left having an arc length of 245.29 feet, a radius of 225.00 feet, a central angle of 62°27'41" and a chord bearing North 42°30'36" West, 233.32 feet to a point; thence North 08°35'49" East 77.01 feet to a point of curvature; thence northwesterly along a curve to the left having an arc length of 353.43 feet, a radius of 225.00 feet, a central angle of 90°00'00" and a chord bearing North 36°24'11" West 318.20 feet to a point; thence westerly along a curve to the left having an arc length of 446.47 feet, a radius of 150.00 feet, a central angle of 170°32'16" and a chord bearing North 76°40'19" West 298.98 feet to a point of tangency; thence South 08°35'49" West 149.66 feet; thence North 81°24'11" West 50.00 feet; thence North 08°35'49" East 125.00 feet; thence North 78°43'26" West 153.29 feet; thence North 09°33'43" West 148.11 feet; thence South 69°50'14" East 67.79 feet to a point of curvature; thence easterly along a curve to the left having an arc length of 146.25 feet, a radius of 150.00 feet, a central angle of 55°51'48" and a chord bearing North 87°23'42" East,140.53 feet to a point; thence North 30°32'12" West 110.00 feet to a point on a curve; thence northeasterly along a curve to the left having an arc length of 11.66 feet, a radius of 40.00 feet, a central angle of 16°42'25" and a chord bearing North 51°06'35" East 11.62 feet to a point; thence South 47°14'37" East 110.00 feet to a point on a curve; thence northerly along a curve to the left having an arc length of 213.75 feet, a radius of 150.00 feet, a central angle of 81°38'48" and a chord bearing North 01°55'59" East 196.12 feet to a point of tangency; thence North 38°53'25" West 326.21 feet; thence North 80°07'23" West 122.65 feet; thence North 09°33'42" West 80.00 feet to a point of curvature; thence northerly along a curve to the left having an arc length of 166.36 feet, a radius of 325.00 feet, a central angle of 29°19'42" and a chord bearing North 24°13'34" West,164.55 feet to a point of tangency; thence North 38°53'25" West 200.00 feet; thence South 51°06'35" West 125.00 feet; thence North 38°53'25" West 20.00 feet; thence North 51°06'35" East 125.00 feet; thence North 38°53'25" West 178.81 feet to a point of curvature; thence northwesterly along a curve to the left having an arc length of 292.66 feet, a radius of 325.00 feet, a central angle of 51°35'39" and a chord bearing North 64°41'14" West, 282.87 feet to a point of tangency; thence South 89°30'56" West 678.94 feet to a point of curvature; thence southwesterly along a curve to the left having an arc length of 389.08 feet, a radius of 225.00 feet, a central angle of 99°04'39" and a chord bearing South 39°58'37" West, 342.38 feet to a point of cusp; thence North 09°33'43" West 137.22 feet; thence North 00°29'04" West 425.00 feet; thence North 89°30'56" East 1200.00 feet; thence North 00°29'04" West 125.00 feet to the POINT OF BEGINNING.

ALSO INCLUDING:

Reserved Parcel "C", Lakeview - Section 37 Palm Coast Park at Palm Coast, as recorded in Map Book 13, pages 1 through 29, Public Records of Flagler County, Florida, being more particularly described as follows:
From a POINT OF BEGINNING, being the northwest corner of said Reserved Parcel "C"; thence North 89°26'28" East 630.08 feet; thence South 38°43'02" West 202.91 feet; thence South 51°40'07" East 125.00 feet to a point on a curve; thence southerly along a curve to the left having an arc length of 250.77 feet, a radius of 300.00 feet; a central angle of 47°53'36" and a chord bearing South 14°23'05" West 243.53 feet to a point of tangency; thence South

09°33'43" East 403.87 feet; thence South 80°26'17" West 125.00 feet; thence South 09°33'43" East 520.00 feet, thence North 80°26'17" East 125.00 feet; thence South 09°33'43" East 40.00 feet; thence South 80°26'17" West 125.00 feet; thence South 09°33'43" East 980.61 feet to a point of curvature; thence southerly along a curve to the left having an arc length of 441.04 feet, a radius of 725.00 feet, a central angle of 34°51'17" and a chord bearing South 26°59'21" East, 434.27 feet to a point; thence North 45°35'00" East 55.00 feet; thence South 44°25'00" East 67.22 feet; thence North 39°51'14" East 73.36 feet to a point on a curve; thence southeasterly along a curve to the left having an arc length of 13.16 feet, a radius of 600.00 feet; a central angle of 01°15'25" and a chord bearing South 50°46'29" East 13.16 feet to a point of tangency; thence South 51°24'11" East 170.76 feet; thence South 54°59'31" West 770.58 feet; thence North 35°00'29" West 649.53 feet to a point on the east right of way line of U.S. Highway No.1; thence northerly along said right of way line of the following six courses; run North 09°59'31" East 128.08 feet; thence South 89°43'01" West 5.08 feet; thence North 09°59'31" East 253.32 feet to a point of curvature; thence northerly along a curve to the left having an arc length of 655.06 feet, a radius of 2030.05 feet, a central angle of 18°29'18" and a chord bearing North 00°44'52" East, 652.23 feet to a point of tangency; thence North 08°29'47" West 179.58 feet; thence South 81°30'12" West 20.00 feet; thence North 08°29'47" West 1583.88 feet to the POINT OF BEGINNING.

ALSO INCLUDING:

Reserved Parcel "D" Lake View - Section 37 Palm Coast Park at Palm Coast, as recorded in Map Book 13, pages 1 through 29, Public Records of Flagler County, Florida, being more particularly described as follows:
From a POINT OF BEGINNING, being the most northerly corner of said Reserved Parcel "D"; thence South 38'53'28" East 93.32 feet; thence North 89°30'56" East 936.80 feet; thence South 00°29'04" East 432.94 feet; thence South 09°33'42" East 57.28 feet to a cusp point; thence northwesterly along a curve to the left having an arc length of 317.78 feet, a radius of 225.00 feet; a central angle of 80°55'21" and a chord bearing North 50°01'23" West 292.02 feet to a point of tangency; thence South 89°30'56" West 846.10 feet; thence North 09°33'43" West 149.00 feet to a point of curvature; thence northerly along a curve to the right having an arc length of 254.23 feet, a radius of 240.00 feet, a central angle of 60°41'38" and a chord bearing North 20°47'06" East, 242.51 feet to the POINT OF BEGINNING.

ALSO INCLUDING:

A parcel of land being a portion of Reserved Parcel "E", Lakeview - Section 37 Palm Coast Park at Palm Coast, as recorded in Map Book 13, pages 1 through 29, Public Records of Flagler County, Florida, being more particularly described as follows:
From a POINT OF BEGINNING, being the most southerly corner at said Reserved Parcel "E"; thence North 64°44'58" East 526.36 feet; thence North 25°15'02" West 335.20 feet; thence South 64°44'58" West 125.00 feet; thence North 25°15'02" West 620.00 feet to a point of curvature; thence northwesterly along a curve to the right having an arc length of 60.46 feet, a radius of 425.00 feet, a central angle of 08°09'02" and a chord bearing North 21°10'31" West, 60.41 feet to the southeasterly corner of a parcel described in Official Records Book 492, pages 936-939; thence northerly along the boundary of said parcel described in Official Records Book 492, pages 936-939 for the following five courses; thence South 72°54'00"

West 10.00 feet; thence North 53°38'13" West 20.65 feet; thence South 05°01'26" West 11.50 feet; thence North 10°42'21" West 31.82 feet; thence North 01°05'36" East 53.63 feet; thence North 85°41'45" East 24.67 feet to the boundary of above said Reserved Parcel "2", being a point on a curve; thence northerly along a curve to the right having an arc length of 28.33 feet, a radius of 425.00 feet; a central angle of 03°49'11" and a chord bearing North 02°23'39" West 28.33 feet to a point of tangency; thence North 00°29'04" West 1536.30 feet to a point of curvature; thence northeasterly along a curve to the right having an arc length of 213.75 feet, a radius of 150.00 feet; a central angle of 81°38'47" and a chord bearing North 40°20'20" East, 196.12 feet to a point; thence South 08°50'16" East 110.00 feet to a point on a curve; thence easterly along a curve to the right having an arc length of 11.66 feet, a radius of 40.00 feet, a central angle of 16°42'25" and a chord bearing North 89°30'57" East 11.62 feet to a point; thence North 07°52'09" East 110.00 feet to a point on a curve; thence southeasterly along a curve to the right having an arc length of 213.75 feet, a radius of 150.00 feet, a central angle of 81°38'47" and a chord bearing South 41°18'27" East 196.12 feet to a point; thence South 85°19'06" East 128.73 feet; thence South 08°50'16" East 110.00 feet to a point on a curve; thence easterly along a curve to the right having an arc length of 11.66 feet, a radius of 40.00 feet a central angle of 16°42'25" and a chord bearing North 89°30'57" East 11.62 feet to a point; thence North 07°52'09" East 110.00 feet to a point on a curve; thence southeasterly along a curve to the right having an arc length of 213.75 feet, a radius of 150.00 feet, a central angle of 81°38'47" and a chord bearing South 41°18'27" East 196.12 feet to a point of tangency; thence South 00°29'04" East 202.47 feet to a point of cusp; thence northeasterly along a curve to the right having an arc length of 213.75 feet, a radius of 150.00 feet, a central angle of 81°38'47" and a chord bearing North 40°20'20" East, 196.12 feet to a point; thence South 08°50'16" East 110.00 feet to a point on a curve; thence easterly along a curve to the right having an arc length of 11.66 feet, a radius of 40.00 feet a central angle of 16°42'25" and a chord bearing North 89°30'57" East 11.62 feet to a point; thence North 07°52'09" East 110.00 feet to a point on a curve; thence southeasterly along a curve to the right having an arc length of 213.75 feet, a radius of 150.00 feet; a central angle of 81°38'47" and a chord bearing South 41°18'27" East 196.12 feet to a point of cusp; thence northeasterly along a curve to the right having an arc length of 213.75 feet, a radius of 150.00 feet; a central angle of 81°38'47" and a chord bearing North 40°20'20" East 196.12 feet to a point; thence South 08°50'16" East 110.00 feet to a point; thence easterly along a curve to the right having an arc length of 11.66 feet, a radius of 40.00 feet, a central angle of 16°42'25" and a chord bearing North 89°30'57" East 11.62 feet to a point; thence North 07°52'09" East 110.00 feet to a point on a curve; thence southeasterly along a curve to the right having an arc length of 213.75 feet, a radius of 150.00 feet; a central angle of 81°38'47" and a chord bearing South 41°18'27" East 196.12 feet to a point of tangency; thence South 00°29'04" East 1003.67 feet; thence South 25°15'02" East 260.04 feet to a point of curvature; thence southerly along a curve to the right having an arc length of 353.43 feet, a radius of 225.00 feet, a central angle of 90°00'00" and a chord bearing South 19°44'58" West, 318.20 feet to a point of tangency; thence South 64°44'58" West 800.00 feet; thence South 25°15'02" East 300.00 feet; thence North 64°44'58" East 910.00 feet to a point of curvature; thence easterly along a curve to the right having an arc length of 309.71 feet, a radius of 425.00 feet, a central angle of 41°45'11" and a chord bearing North 85°37'33" East, 302.90 feet to a point; thence South 16°30'09" West 125.00 feet to a point on a curve; thence easterly along a curve to the right having an arc length of 34.00 feet, a radius of 300.00 feet, a central angle of 06°29'36" and a chord bearing South 70°15'03" East 33.98 feet to a point; thence North 22°59'45" East 125.00 feet

to a point on a curve; thence southeasterly along a curve to the right having an arc length of 309.71 feet, a radius of 425.00 feet, a central angle of 41°45'13" and a chord bearing South 46°07'39" East 302.91 feet to a point of cusp; thence North 25°15'02" West 822.28 feet to a point of curvature; thence northeasterly along a curve to the right having an arc length of 561.16 feet, a radius of 275.00 feet, a central angle of 116°54'59" and a chord bearing North 33°12'28" East, 468.74 feet to a point of tangency; thence South 88°20'03" East 756.56 feet; thence South 07°23'44" West 126.38 feet to a point of on a curve; thence easterly along a curve to the right having an arc length of 150.15 feet, a radius of 150.00 feet, a central angle of 57°21'14" and a chord bearing South 53°55'39" East 143.96 feet to a point of tangency; thence South 25°15'02" East 40.00 feet; thence North 64°44'58" East 125.00 feet to the easterly line of Belle Terre Waterway; thence North 25°15'02" West along said easterly line of Belle Terre Waterway for a distance of 862.29 feet to a point of curvature; thence depart said boundary line of said Reserved Parcel "2" and run westerly along the southerly line of Jefferson Davis Waterway for the following four courses: run westerly along a curve to the left having an arc length of 921.97 feet, a radius of 825.00 feet, a central angle of 64°01'49" and a chord bearing North 57°15'57" West, 874.74 feet to a point of tangency; thence North 89°16'51" West 858.76 feet to a point of curvature; thence westerly along a curve to the right having an arc length of 411.10 feet, a radius of 675.00 feet, a central angle of 34°53'44" and a chord bearing North 71°49'59" West, 404.78 feet to a point of tangency; thence North 54°23'07" West 585.58 feet to a point of curvature; thence westerly along a curve to the left having an arc length of 177.30 feet, a radius of 825.00 feet, a central angle of 12°18'47" and a chord bearing North 60°32'31" West,176.96 feet to a point on the westerly boundary of said Reserved Parcel "2"; thence southerly and westerly along said westerly boundary of said Reserved Parcel "E" for the following seven courses: South 29°30'56" West 419.65 feet; thence South 14°30'56" West 66.19 feet; thence South 00°29'04" East 810.00 feet to a point of curvature; thence southeasterly along a curve to the right having an arc length of 353.43 feet, a radius of 225.00 feet, a central angle of 90°00'00" and a chord bearing South 44°30'56" West, 318.20 feet to a point of tangency; thence South 89°30'56" West 659.20 feet to a point on a curve; thence southeasterly along a curve to the left having an arc length of 331.52 feet, a radius of 720.00 feet, a central angle of 26°22'53" and a chord bearing South 25°41 '59" East 328.59 feet to a point of tangency; thence South 38°53'25" East 1801.29 feet to the POINT OF BEGINNING.

ALSO INCLUDING:

Part of Government Sections 21 and 22, Township 10 South, Range 30 East, Flagler County, Florida being that part of PARCEL NO. 2 of the property described in Official Records Book 142, pages 278-279, lying south of Jefferson Davis Waterway and being more particularly described as follows:
From a POINT OF REFERENCE being a point on the easterly boundary line of the above described PARCEL NO. 2, said point being the northwest corner of Reserved Parcel "2" as shown on the recorded plat of Lakeview - Section 37 Palm Coast Park at Palm Coast, as recorded in Map Book 13, pages 1 through 29, Public Records of Flagler County, Florida; thence South 29°30'56" West along the easterly boundary of said PARCEL NO. 2 being also along the westerly boundary of said Reserved Parcel "E" for a distance of 390.35 feet to the POINT OF BEGINNING; thence continue along the easterly and southerly boundary of said PARCEL NO. 2 being also along the westerly and northerly boundary of said Reserved

Parcel "E" for the following seven courses: run South 29°30'56" West 419.65 feet; thence South 14°30'56" West 66.19 feet; thence South 00°29'04" East 810.00 feet to a point of curvature; thence southwesterly along a curve to the right having an arc length of 353.43 feet, a radius of 225.00 feet, a central angle of 90°00'00" and a chord bearing South 44°30'56" West, 318.20 feet to a point of tangency; thence South 89°30'56" West 659.20 feet to a point on a curve; thence northerly along a curve to the right having an arc length of 151.10 feet, a radius of 720.00 feet, a central angle of 12°01'28" and a chord bearing North 06°29'48" West 150.83 feet to a point; thence South 89°30'56" West 1280.00 feet to the northwest corner of Block 164 of said plat of Lakeview; thence North 12°53'48" East along the southerly line of said Jefferson Waterway for a distance of 297.66 feet to a point on a curve; thence northeasterly along a curve to the right having an arc length of 913.19 feet, a radius of 825.00 feet, a central angle of 63°25'15" and a chord bearing North 39°41'03" East 867.28 feet to a point of tangency; thence North 71°23'41" East 1251.37 feet to a point of curvature; thence easterly along a curve to the right having an arc length of 603.42 feet, a radius of 825.00 feet; a central angle of 41°54'25" and a chord bearing South 87°39'07" East, 590.05 feet to the POINT OF BEGINNING.

ALSO INCLUDING:

All of that land vacated in the Subdivision Plat Of Lakeview - Section 37 Palm Coast Map Book 13 Pages 1 through 29, per Resolution 95-56 as recorded in Official Records Book 538 at Pages 1611 through 1613, Public Records of Flagler County, Florida, being described as follows:
BEGINNING at the southwesterly corner of Lot 22, Block 143 of the aforesaid Lakeview - Section 37; thence North 80°26'17" East a distance of 49.47 feet to a point of curvature of a curve to the right; thence northeasterly along said curve having a radius of 300.00 feet, a central angle of 14°34'59" an arc of 76.36 feet and a chord bearing North 87°43'47" East, 76.15 feet to a point on a non-tangent line; thence North 09°33'43" West, a distance of 1273.40 feet; thence North 80°26'17" East a distance of 124.48 feet; thence South 47°01'13" East a distance of 97.49 feet to a point on a non-tangent curve; thence northeasterly along a curve to the right having a radius of 150.00 feet; a central angle of 08°07'48", an arc length of 21.28 feet and a chord bearing North 47°02'41" East, 21.27 feet to a point of tangency; thence North 51°06'35" East a distance of 100.00 feet; thence South 38°53'25" East a distance of 50.00 feet; thence South 51°06'35" West a distance of 100.00 feet to a point of curvature; thence southwesterly along a curve to the left having a radius of 100.00 feet, central angle of 05°43'46, an arc length of 10.00 feet and a chord bearing South 48°14'42" West,10.00 feet to a point on a non-tangent line; thence South 50°07'21" East a distance of 153.93 feet; thence South 51°06'35" West a distance of 20.25 feet; thence South 09°33'43" East a distance of 936.00 feet; thence South 35°36'55" East a distance of 82.42 feet; thence South 81°24'11" East a distance of 240.00 feet; thence South 08°35'49" West a distance of 125.00 feet; thence South 81°24'11" East a distance of 27.55 feet to a point on a non-tangent curve; thence southwesterly along curve to the left having a radius of 40.00 feet, a central angle of 77°21'52", an arc of 54.01 feet and a chord bearing South 08°35'49" West 50.00 feet to a point on a non-tangent line; thence North 81°24'11" West a distance of 4.59 feet; thence South 08°35'49" West a distance of 125.00 feet; thence North 81°24'11" West a distance of 480.00 feet; thence South 84°38'20" West a distance of 69.97 feet; thence North 03°00'11" West a distance of 144.02 feet to a point on a non-tangent curve; thence southwesterly along

a curve to the left having a radius of 250.00 feet, a central angle of 13°34'27", an arc of 59.23 feet and a chord bearing South 87°13'31" West, 59.09 feet to a point of tangency; thence South 80°26'17" West a distance of 51.03 feet to a point on a non-tangent curve; thence northwesterly along a curve to the left having a radius of 200.00 feet, a central angle of 07°10'51" an arc of 25.07 feet and a chord bearing North 05°58'17" West 25.05 feet to a point of tangency; thence North 09°33'43" West a distance of 25.00 feet to the POINT OF Beginning, the above described parcel of land is situated in Section 22, Township 10 South, Range 30 East, Flagler County, Florida.

ALSO INCLUDING:

Part of Reserved Parcel "R-1", Lakeview - Section 37 Palm Coast Park at Palm Coast, as recorded in Map Book 13, pages 1 through 29, Public Records of Flagler County, Florida, being more particularly described as follows:
From a POINT OF BEGINNING, being the most easterly corner of said Reserved Parcel "R-1"; thence South 38°35'49" West along the southeasterly line of said Reserved Parcel "R-1" for a distance of 767.47 feet; thence North 51°24'11" West 1300.81 feet to the most westerly corner of said Reserved Parcel "R-1"; thence North 54°59'31" East,148.96 feet; thence South 59°22'19" East 485.17 feet; thence South 73°43'22" East 217.49 feet; thence North 77°17'42" East 363.21 feet; thence North 38°35'49" East 191.24 feet; thence South 51°24'11" East 350.00 feet to the POINT OF BEGINNING.

ALSO INCLUDING:

A parcel of land being a portion of Reserved Parcel "E" according to the Subdivision Plat Lakeview Section 37, Palm Coast, recorded in Map Book 13, Pages 1 Through 29, of the Public Records of Flagler County, Florida, being more particularly described as follows:
A POINT OF REFERENCE being the northeast corner of Lot 1, Block 75; thence North 25°15'02" West along the west line of Belle Terre Waterway a distance of 862.29 feet to THE POINT OF BEGINNING; thence departing Belle Terre Waterway (as platted) 921.97 feet along the arc of a curve to the left (concave southerly) have a central angle of 64°01'49", a radius of 825.00 feet, a chord bearing of North 57°15'57" West and a chord distance of 874.74 feet to a point of tangency, thence North 89°16'51" West a distance of 858.76 feet to a point of curvature; thence 411.10 feet along the arc of a curve to the right (concave northerly) having a central angle of 34°53'44", a radius of 675.00 feet, a chord Bearing of North 71°49'59" West and a chord distance of 404.78 feet to the end of said curve being a point on the boundary of Jefferson Davis Waterway as recorded in Official Records Book 549, Pages 966 through 990, of the Public Records of Flagler County, Florida; thence North 35°36'53" East along said waterway a distance of 30.00 feet to a point on a non-tangent curve; thence easterly 392.83 feet along the arc of a curve to the left (concave northerly)having a central angle of 34°53'44", a radius of 645.00 feet, a chord bearing of South 71°49'59" East and a chord distance of 386.79 feet to a point of tangency; thence South 89°16'51" East a distance of 858.76 feet to a point of curvature; thence 955.50 feet along the arc of a curve to the right concave southwesterly having a central angle of 64°01'49", a radius of 855.00 feet, a chord bearing of South 57°15'57" East and a chord distance of 906.54 feet to the end of said curve; thence South 64°44'58" West a distance of 30.00 feet to the POINT OF BEGINNING.

ALSO INCLUDING:

A PARCEL OF LAND LYING EAST OF U.S. HIGHWAY NO. 1 (STATE ROAD 5), BEING A PORTION OF LONDON WATERWAY, LAKEVIEW SECTION 37, AS RECORDED IN MAP BOOK 13, PAGE 26, LOCATED IN GOVERNMENT SECTION 28, TOWNSHIP 10 SOUTH, RANGE 30 EAST, FLAGLER COUNTY, FLORIDA, BEING MORE PARTICULARLY DESCRIBED AS FOLLOWS:
AS A POINT OF REFERENCE, COMMENCE AT THE INTERSECTION OF THE NORTHEASTERLY LINE OF ASHWOOD WATERWAY (A 300 FOOT RIGHT-OF-WAY) PER SAID LAKEVIEW SECTION 37, WITH THE EASTERLY RIGHT-OF-WAY LINE OF U.S. HIGHWAY No. 1, (STATE ROAD 5, A 175 FOOT RIGHT-OF-WAY AT THIS POINT); THENCE DEPARTING SAID RIGHT-OF-WAY LINE SOUTH 35°00'29" EAST ALONG SAID NORTHEASTERLY LINE OF ASHWOOD WATERWAY FOR A DISTANCE OF 649.53 FEET TO THE INTERSECTION OF THE NORTHWESTERLY LINE OF SAID LONDON WATERWAY, ALSO BEING THE POINT OF BEGINNING OF THIS DESCRIPTION; THENCE DEPARTING SAID ASHWOOD WATERWAY LINE NORTH 54°59'31" EAST ALONG THE NORTHWESTERLY LINE OF SAID LONDON WATERWAY FOR A DISTANCE OF 770.58 FEET TO THE INTERSECTION OF THE SOUTHWESTERLY RIGHT-OF-WAY LINE OF LONDON DRIVE, (A 60 FOOT RIGHT-OF-WAY), PER SAID LAKEVIEW-SECTION 37; THENCE DEPARTING THE NORTHWESTERLY LINE OF SAID LONDON WATERWAY SOUTH 51°24'11" EAST ALONG SAID RIGHT-OF-WAY LINE FOR A DISTANCE OF 104.24 FEET TO THE SOUTHERLY LINE OF SAID LONDON WATERWAY; THENCE DEPARTING SAID RIGHT-OF-WAY LINE SOUTH 54'59'31" WEST ALONG SAID SOUTHERLY LINE OF LONDON WATERWAY FOR A DISTANCE OF 800.00 FEET TO THE INTERSECTION OF SAID NORTHEASTERLY LINE OF ASHWOOD WATERWAY; THENCE NORTH 35°00'29" WEST ALONG SAID ASHWOOD WATERWAY LINE FOR A DISTANCE OF 100.00 FEET TO THE AFOREMENTIONED POINT OF BEGINNING OF THIS DESCRIPTION.

LESS AND EXCEPT:

A PARCEL OF LAND LYING IN SECTIONS 22 AND 21, TOWNSHIP 10 SOUTH, RANGE 30 EAST, FLAGLER COUNTY, FLORIDA, BEING A PORTION OF RESERVED PARCEL "E" AS SHOWN ON THE PLAT LAKEVIEW -- SECTION 37 PALM COAST PARK AT PALM COAST, MAP BOOK 13, PAGES 1 THROUGH 29 AND DESCRIBED IN OFFICIAL RECORDS BOOK 2354, PAGES 1028 THROUGH 1036, PUBLIC RECORDS OF FLAGLER COUNTY, FLORIDA AND A PORTION OF PARCEL NO. 2, AS DESCRIBED IN OFFICIAL RECORDS BOOK 142, PAGES 278 THROUGH 279, PUBLIC RECORDS OF FLAGLER COUNTY, FLORIDA, BEING MORE PARTICULARLY DESCRIBED AS FOLLOWS:

FROM A POINT OF BEGINNING, BEING THE MOST SOUTHERLY CORNER OF SAID RESERVED PARCEL "E"; THENCE NORTH 38°53'25" WEST ALONG THE EASTERLY RIGHT-OF-WAY LINE OF LAKEVIEW BOULEVARD AS SHOWN ON SAID PLAT OF LAKEVIEW - SECTION 37, PALM COAST PARK AT PALM COAST A DISTANCE OF 1801.29 FEET TO A POINT OF CURVATURE: THENCE CONTINUE ALONG THE

EASTERLY RIGHT-OF-WAY OF SAID LAKEVIEW BOULEVARD NORTHWESTERLY ALONG A CURVE TO THE RIGHT HAVING AN ARC LENGTH OF 331.51 FEET, A RADIUS OF 720.00 FEET, A CENTRAL ANGLE OF 26°22'51" AND A CHORD BEARING AND A CHORD BEARING NORTH 25°41'59" WEST A DISTANCE OF 328.59 FEET TO THE SOUTHERLY LINE OF SAID PARCEL NO. 2; THENCE DEPARTING SAID SOUTHERLY LINE NORTHWESTERLY ALONG A CURVE TO THE RIGHT HAVING AN ARC LENGTH OF 151.11 FEET, A RADIUS OF 720.00 FEET, A CENTRAL ANGLE OF 12°01'29" AND A CHORD BEARING NORTH 06°29'48" WEST A DISTANCE OF 150.83 FEET TO A POINT; THENCE SOUTH 89°30'56" WEST A DISTANCE OF 1280.00 FEET TO THE SOUTHERLY LINE OF JEFFERSON DAVIS WATERWAY AS SHOWN ON SAID PLAT LAKEVIEW - SECTION 37, PALM COAST PARK AT PALM COAST; THENCE ALONG THE SOUTHERLY LINE OF SAID JEFFERSON DAVIS WATERWAY NORTH 12°53'48" EAST A DISTANCE OF 297.66 FEET TO A POINT OF CURVATURE; THENCE CONTINUE ALONG THE SOUTHERLY LINE OF JEFFERSON DAVIS WATERWAY AND ALONG A CURVE TO THE RIGHT HAVING AN ARC LENGTH OF 913.19 FEET, A RADIUS OF 825.00 FEET, A CENTRAL ANGLE OF 63°25'14" AND A CHORD BEARING NORTH 39°41'03" EAST A DISTANCE OF 867.28 FEET TO THE POINT OF TANGENCY, THENCE NORTH 71°23'41" EAST STILL ALONG THE SOUTHERLY LINE OF SAID JEFFERSON DAVIS WATERWAY A DISTANCE OF 1251.37 FEET TO A POINT OF CURVATURE; THENCE CONTINUE ALONG THE SOUTHERLY LINE OF SAID JEFFERSON DAVIS WATERWAY AND ALONG A CURVE TO THE RIGHT HAVING AN ARC LENGTH OF 603.41 FEET, A RADIUS OF 825.00 FEET, A CENTRAL ANGLE OF 41°54'23" AND A CHORD BEARING SOUTH 87°39'07" EAST A DISTANCE OF 590.05 FEET TO A POINT ON THE EASTERLY LINE OF SAID PARCEL NO. 2, SAID POINT ALSO BEING ON THE WESTERLY LINE OF SAID RESERVED PARCEL "E"; THENCE CONTINUE ALONG E"; THENCE CONTINUE ALONG THE SOUTHERLY LINE OF SAID JEFFERSON DAVIS WATERWAY AND ALONG A CURVE TO THE RIGHT HAVING AN ARC LENGTH OF 177.30 FEET, A RADIUS OF 825.00 FEET, A CENTRAL ANGLE OF 12°18'48" AND A CHORD BEARING SOUTH 60°32'31" EAST A DISTANCE OF 176.96 FEET TO THE POINT OF EAST A DISTANCE OF 176.96 FEET TO THE POINT OF TANGENCY; THENCE CONTINUE ALONG THE SOUTHERLY LINE OF SAID JEFFERSON DAVIS WATERWAY SOUTH 54°23'07" EAST A DISTANCE OF 147.50 FEET; THENCE DEPARTING THE SOUTHERLY LINE OF SAID EAST A DISTANCE OF 147.50 FEET; THENCE DEPARTING THE SOUTHERLY LINE OF SAID JEFFERSON DAVIS WATERWAY AND THROUGH SAID RESERVED PARCEL "E" SOUTH 35°36'53" WEST A DISTANCE OF 120.96 FEET TO A NON-TANGENTIAL CURVE; THENCE SOUTHWESTERLY ALONG A CURVE TO THE LEFT HAVING AN ARC LENGTH OF 213.75 FEET, A RADIUS OF 150.00 FEET, A CENTRAL ANGLE OF 81°38'50" AND A CHORD BEARING SOUTH 40°20'20" WEST A DISTANCE OF 196.12 FEET TO THE POINT OF TANGENCY; THENCE SOUTH 00°29'04" EAST A DISTANCE OF 1536.30 FEET TO A POINT OF CURVATURE; THENCE S0UTHEASTERLY ALONG A CURVE TO THE LEFT HAVING AN ARC LENGTH OF 28.34 FEET, A RADIUS OF 425.00 FEET, A CENTRAL ANGLE OF 03°49'12" AND A CHORD BEARING SOUTH 02°23'39" EAST A DISTANCE OF 28.33 FEET TO THE NORTHEASTERLY CORNER OF A PARCEL DESCRIBED IN OFFICIAL RECORDS BOOK 492, PAGES 936 THROUGH 939, PUBLIC RECORDS OF FLAGLER COUNTY, FLORIDA; THENCE SOUTHERLY ALONG THE BOUNDARY LINE OF SAID PARCEL THE FOLLOWING FIVE (6) COURSES; 1) SOUTH 85°41'45" WEST A DISTANCE OF 24.67

FEET, 2) SOUTH 01°05'36" WEST A WEST A DISTANCE OF 24.67 FEET, 2) SOUTH 01°05'36" WEST A DISTANCE OF 53.63 FEET, 3) SOUTH 10°42'21" EAST A DISTANCE OF 31.82 FEET, 4) NORTH 75°01'26" EAST A DISTANCE OF 11.50 FEET, 5) SOUTH 53°38'13" EAST A DISTANCE OF 20.65 FEET, 6) NORTH 72°54'00" EAST A DISTANCE OF 10.00 FEET TO THE SOUTHEASTERLY CORNER OF SAID PARCEL, SAID CORNER ALSO BEING A POINT OF CURVATURE; THENCE DEPARTING SAID BOUNDARY AND ALONG A CURVE TO THE LEFT HAVING AN ARC LENGTH OF 60.46 FEET, A RADIUS OF 425.00 FEET, A CENTRAL ANGLE OF 08°09'03" AND A CHORD BEARING SOUTH 21°10'31" EAST A DISTANCE OF 60.41 FEET TO THE POINT OF TANGENCY: THENCE SOUTH 25°15'02" EAST A DISTANCE OF 620.00 FEET; THENCE NORTH 64°44'58" EAST A DISTANCE OF 125.00 FEET; THENCE SOUTH 25°15'02" EAST A DISTANCE OF 335.20 FEET; THENCE SOUTH 64°44'58" WEST A DISTANCE OF 526.36 FEET TO THE POINT OF BEGINNING.

EXHIBIT "B"
AMENDED MPD DEVELOPMENT AGREEMENT

(This page intentionally left blank. Attachment begins next page.)

Palm Coast, FL 32164

LAKEVIEW ESTATES
FIRST AMENDMENT TO THE
MASTER PLANNED DEVELOPMENT AGREEMENT

THIS, FIRST AMENDMENT TO THE MASTER PLANNED DEVELOPMENT AGREEMENT, (hereinafter referred to as the "Amendment") is made and executed this _____ day of _____, 2026, by and between the **CITY OF PALM COAST,** a Florida municipal corporation (herein referred to as the "City"), whose address is 160 Lake Avenue, Palm Coast, Florida 32164 and **MATANZAS GC PALM COAST, LLC,** a Florida limited liability company (herein referred to from time-to-time as the "Owner" regardless of whether singular or plural ownership status) whose address is 200 Ocean Crest Drive, Unit 1111, Palm Coast, Florida 32137.

RECITALS

1. On or about January 19, 2021, the City approved the Lakeview Estates Master Planned Development Agreement (the "MPD").
2. Pursuant to the citizen survey dated June 19 and 20, 2021, City desires to own, permit and develop a park for the residents of Palm Coast.
3. The Owner desires to convey to the City sufficient lands for purpose of a park and amend the PUD to allow for areas of the property to be developed consistent with the present densities and intensities.

4. The City and Owner enter into this Amendment to the MPD to achieve their respective goals and objectives.
5. The City of Palm Coast City Council ("City Council") has considered the evidence and testimony presented by the applicant and other interested parties, the recommendations of City staff, and the recommendation of the PLDRB, which voted six to zero to recommend denial at their regularly scheduled meeting conducted on May 20, 2026; and
6. The City Council held duly noticed public hearings on the proposed zoning change set forth hereunder and considered findings and advice of staff, citizens, and all interested parties submitting written and oral comments and supporting data and analysis, and after complete deliberation, hereby finds the requested change consistent with the City of Palm Coast Comprehensive Plan and that sufficient, competent, and substantial evidence supports the zoning change set forth hereunder; and
7. The City Council hereby finds that this Ordinance serves a legitimate government purpose and is in the best interests of the public health, safety, and welfare of the citizens of Palm Coast, Florida.

NOW THEREFORE, it is resolved and agreed by and between the City and the Owner that the Owner's application for an Amendment to the MPD is approved, and the parties agree to the following:

FINDINGS OF FACT:

(a) The aforementioned recitals are taken as true, incorporated herein by reference and made a material part of this Amendment.

(b) This Amendment is consistent with (1) the State's Comprehensive Plan as set forth in Chapter 187, Florida Statutes and (2) the City's Comprehensive Plan.

(c) The public hearing to consider this Amendment was properly noticed and held by the City Council pursuant Florida State law and the City's Land Development Code.

CITY COMMUNITY PARK:

At no cost to the City and not subject to City Park Impact Free Credits, the Owner shall convey to the City approximately fifteen (15) acres on a tract of land (the "City Park Site") as generally

depicted on Amended Conceptual Site Plan (**Ex. "A"**) which replaces the Conceptual Site Plan in the MPD. Said conveyance shall take place within one hundred twenty (120) days of execution of this Amendment. The conveyances of lands pursuant to the Amendment shall be free from all encumbrances except easements, reservations, and restrictions acceptable to each other, together with all appurtenances pertaining to the conveyance. Owner will prepay taxes for the year of closing pursuant to Fla. Stat. 196.295. and all special assessments which may have been levied or certified prior to closing on the City Park Site. Sixty (60) days before Closing, the Owner will cause the title company of its choice to issue and deliver to City ALTA title commitments to issue a policy in the amount of the assessed value of the City Park Site, accompanied by one copy of each document supporting any exceptions to the title commitment. The Owner will execute a standard form owner's affidavit and such other affidavits as may be reasonably required by the City, the Title Company, or the Closing Agent. The Owner will also execute an Affidavit of interest in Real Property pursuant to Fla. Stat. 286.23. The Owner will execute affidavits declaring that the City Park Site does not currently contain any Hazardous Substances in violation of any applicable environmental laws or regulations, including but not limited to Section 103 of the Comprehensive Environmental Response, Compensation and Liability Act. 42 U.S.C. Section 9601 et seq. any "super lien" laws, any super fund laws, or similar federal or state laws, or any successor statutes ("Environmental Laws"), nor to Owner's knowledge has any clean-up of their properties occurred pursuant to the Environmental Laws which could give rise to liability to reimburse any governmental authority for the costs of such clean-up or result in a lien or encumbrance. Moreover, prior to conveyance, the Owner shall demonstrate that Tract 8 arsenic levels are under the limit for human occupation as regulated by Federal, State and local law including, but not limited to, the Florida Department of Environmental Protection ("FDEP").

SECTION 4 PROJECT DESCRIPTION.

Section 4 "Project Description" of the MPD Development Agreement shall be deleted in its entirety and replaced with the following:

The Subject Property has ~~two~~ three (3) Comprehensive Plan FLUM designations, Greenbelt on approximately 260~~276.3~~ +/- acres, Mixed Use (20 +/-acres) and Conservation on approximately ~~4.3~~.19 +/- acres. The current MPD zoning on the property will be maintained and this Development Agreement shall govern all development on the Subject Property as defined herein. Consistent with the Comprehensive Plan and the Greenbelt FLUM, residential units may be developed at one unit per acre. ~~Institutional uses proposed on Greenbelt FLUM acreage shall be deducted from the one-unit per acre residential unit calculations.~~ The project proposes 208~~.3~~ +/- acres of ~~Greenbelt~~Mixed Use FLUM for ~~institutional~~commercial uses within the Tract 9.~~Greenbelt FLUM.~~ As a result, 26~~8~~0 residential units are permitted to be clustered within the remaining 26~~8~~0.0 +/- acres of Greenbelt FLUM at the Owner's discretion. To date, 221 residential units have been permitted, leaving the remaining residential unit balance at 39. The Owner may develop a residential and ~~institutional~~commercial development as depicted on the Lakeview Estates Conceptual Master Plan, attached hereto as **Exhibit "B"** and as further defined herein ("Project"). **Exhibit "B-1"** through **Exhibit "B-8"** –further define the project and illustrate allowable uses within each Tract. The uses on each Tract (shall be as follows which are consistent with the Conceptual Site Plan:

TRACT	USE	LDC Designation to be used for Development Standards purposes only
1	Uses on this tract will be single-family residential homes along with View Protection Zones (VPZ), wetland preservation, stormwater pond creation, and community	SFR-1

	amenities including exterior storage of boats and RVs exclusively for residents residing in the community that will be totally screened from view from off-site properties, Lakeview Boulevard and London Drive.	
2	Uses on this tract primarily consist of View Protection Zones, wetlands, natural buffers, and stormwater ponds. In addition, the property is limited to single family residential dwellings, view protection zones, natural buffers, and stormwater ponds.	SFR-2 and P&G
3	Uses on this tract primarily consist of single-family residential homes, View Protection Zones as further discussed below, wetlands, natural buffers, and stormwater ponds. ~~This tract is designated as View Protection Zones, and natural buffers.~~	SFR-2 or P&G
4	Uses on this tract primarily consist of View Protection Zones/conservation, stormwater and wetlands. The property is limited to single family residential dwellings.	SFR-2 and P&G
5	This Tract is designated as a View Protection Zone/conservation.	P&G
6	Uses on this tract primarily consist of View Protection Zones, wetlands, natural buffers, and stormwater ponds. ~~This Tract is designated as a View Protection Zone~~	P&G
7	Uses on this tract primarily consist of View Protection Zone, wetlands, natural buffers, stormwater retention, ~~and~~ an existing pond, and single-family residential dwellings. ~~The property is limited to single family residential dwellings.~~	SFR-2 and P&G
8	Use of this Tract is limited to ~~townhouses, single-family~~a City Park, View Protection Zones, and existing pond. FLUM areas designated Conservation shall be field verified prior to development and the boundaries between the Greenbelt and Conservation areas shall be modified accordingly on the FLUM.	~~MFR-1[1], SFR-1 and~~ P&G
9	Use of this Tract will be limited to 250,000 sq. ft. ~~8.320 acres of institutional~~ commercial uses meeting the ~~PSP~~ COM-2 zoning standards as further provided in Ex. "C". The ~~except the~~ maximum building height shall be 35 feet and there shall be a minimum View Protection	~~PSP~~ COM-2 & P&G

	Zone of 1~~5~~000 feet in width along its eastern property line where it abuts the rear of all existing platted residential lots. All remaining areas include View Protection Zones, new and existing ponds, and natural buffers. This Tract shall also provide Emergency access to US Highway 1 from London Drive.	
10	Use of this Tract is limited to single family residential units with View Protection Zones.	SFR-2

~~[1]There is a height limitation of thirty-five (35) feet for townhouses, a minimum living area of 1,000 sq. ft. with at least a one-car garage per unit and a minimum setback of 150' from all existing single-family platted lots imposed on this use.~~

1. TRACT 1: Tract 1 shall be permitted to develop into a single family detached residential community consistent with the City's SFR-1 and SFR-2 zoning district standards and as depicted on the Conceptual Plan. This community will contain its own private amenities which may include a club house, pools, activities room, exercise trails and self-storage of boats and recreational vehicles limited to residents use only. It shall have two (2) entrances onto Lakeview Drive. Stormwater ponds will be developed on site to contain all runoff as required by Federal, State and City rules. In the areas that abut existing residential platted lots, a View Protection Zone ("VPZ") will be required (See Section 10.7). Prior to application for Subdivision Master Plan or Site Plan Approval, an applicant shall ensure that the VPZ is designed in such a fashion that it maintains the Lot Owners' view of the Subject Property consistent with the City's Land Development Code (LDC). Also prior to the above-mentioned application, an applicant shall demonstrate that Tract 1 is or shall be free from environmental hazards and safe for human occupation as regulated by Federal, State and local law including, but not limited to, the Florida Department of Environmental Protection ("FDEP"). The existing golf course maintenance building may be utilized during construction of the residential community on Tract 1 but shall be removed prior to completion of the infrastructure for the residential community.

2. TRACT 2: Tract 2 shall be maintained as a VPZ except for the area depicted on **Exhibit "B-2"** Tract Plan for single family residential lots. The single family residential area shall be developed consistent with the SFR-2 zoning district standards as provided herein. As a condition of approval of these lots, a VPZ shall be provided to specifically address the adjacent existing single-family platted lots. Stormwater retention is allowed.

3. TRACT 3: Tract 3 may be developed with~~is designated as a fifty (50) foot VPZ,~~ SFR-2, P&G, ~~and~~ natural buffers, and stormwater retention uses, subject to maintaining a minimum fifty (50) foot VPZ. Moreover, development of Tract 3 shall be limited to include two (2) access points and shared driveway to Lakeview Blvd. The VPZ shall (i) be a minimum of fifty feet (50') in width, (ii) minimize the impact to the existing tree canopy adjacent to the existing residential properties, and (iii) use enhanced screening adding additional planting, to include use of canopy trees, understory trees, and shrubbery, to shield the view of adjacent residential properties. The enhanced screening shall be to the satisfaction of the Land Use Administrator or their designee. At no time shall development of Tract 3 permit the clearing of the VPZ.

4. TRACT 4: Tract 4 shall be mostly preserved as a natural area through the use of VPZs and Conservation Easements over existing wetlands. The on-site wetlands are intended to be preserved and, if impacted, avoidance and minimization techniques will be required pursuant to Federal, State and local law. Consistent with **Exhibit "B-4"** Tract Plan, some single-family residential lots may be developed consistent with SFR-2 zoning designation standards, however they will be required to provide a fifty (50) foot VPZ if behind existing platted residential lots.

5. TRACT 5: Tract 5 shall be a VPZ. No development shall be permitted on Tract 5.

6. TRACT 6: Tract 6 shall be a VPZ and stormwater.

7. TRACT 7: Tract 7 shall be maintained as a fifty (50) foot VPZ except for the areas depicted on **Exhibit "B-6"** Tract Plan for single family residential lots, or stormwater retention. The single family residential areas shall be developed consistent with the SFR-2 zoning district and shall provide a VPZ behind existing platted residential lots. The VPZ shall use enhanced screening adding additional planting, to include use of canopy trees, understory trees, and shrubbery, to shield the view of adjacent residential properties. The enhanced screening shall be to the satisfaction of the Land Use Administrator or their designee.

8. TRACT 8: Tract 8 shall be permitted to be developed consistent with the City Park site described on Page 3, the development standard for the LDC zoning classification of ~~MFR-1 but limited to townhouses~~P&G. ~~Single-family homes could also be developed using the SFR-1 standards. Notwithstanding said designation, n~~No development on this tract shall exceed thirty-five (35) feet in height. All ~~townhouse~~ development on Tract 8 shall be set back a minimum of ~~150~~ 100 feet from any existing single-family platted lot. The existing pond shall be preserved for the benefit of adjacent property owners. ~~The area designated Conservation on the FLUM can be field verified by the Owner through all applicable governmental agencies and areas designated as uplands may be reclassified to Greenbelt on the FLUM and then utilized for residential purposes.~~

9. TRACT 9: The easterly 150 feet of Tract 9 that is located behind existing residential platted lots located along the westerly side of London Drive shall be maintained as a VPZ to ensure protection of adjacent residents' existing views and natural areas. This VPZ shall use enhanced screening adding additional planting, to include use of canopy trees, understory trees, and shrubbery, to shield the view of adjacent residential properties. The enhanced screening shall be to the satisfaction of the Land Use Administrator or their designee. Stormwater areas are also

permitted on Tract 9. ~~PSP (institutional)~~ ~~General~~ Commercial uses consistent with the COM-2 zoning designation (See, Ex. "C") shall be limited to a maximum of 250,000 gross square feet of development over the tract. All structures and buildings shall have ~~with~~ a height limit of 35 feet ~~will be permitted on 208.3 acres of the remaining area~~. Special Exceptions for mini-warehouses, office~~r~~ warehouses, or self-storage shall not be authorized. Prior to making any application for development, the Owner shall prepare a conceptual site plan and hold a neighborhood meeting consistent with the requirements of the LDC. Any development application for Tract 9 shall require final action by the PLDRB. Development on this tract shall make every intent to meet the requirements of the MPD and Land Development Code; however, a waiver may be requested ~~which shall be permitted~~ to (i) grant a decrease in the US#1 Highway landscape buffers and/or (ii) approve a reduction in parking space requirements ~~as certified by a licensed traffic engineer both~~ with the intent to enhance the VPZ for the Tract.~~.~~ Any waivers granted to landscaping buffers adjacent to US#1 Highway shall follow the LDC requirements for alternative landscape betterment plans. Any waivers to the minimum parking requirements shall require a parking flexibility study to demonstrate the parking need for the use based on the Institute of Traffic Engineers' Parking Manual or follow the LDC requirements for parking flexibility. A stabilized emergency access from London Drive shall be provided through the tract to US Highway 1.

10. TRACT 10: Tract 10 shall be permitted to develop single family detached residential units consistent with the LDC SFR-2 zoning district standards. Additionally, a VPZ is required to be provided as shown on the **Exhibit "B-8"** Tract Plan.

11. ~~In addition to the above, Tracts 1, 8 and 9 of the Project shall be integrated internally and externally by a series of pedestrian pathways and roadways and developed in conformance with the LDC and this Development Agreement.~~

~~12.~~ ~~All~~ commons areas, VPZ, stormwater ponds and natural areas shall be maintained by a POA or third party determined acceptable to the City.

12. All lots greater than 10,000 square feet shall have the right to construct RV garages so long as such are ancillary to a residential dwelling unit and consistent with the LDC. Lot sizes that are at least 10,000 square feet in size shall be capable of accommodating RV garages. RV garage types are detached RV garages, regular garages with an attached bay, or garages that are part of the house's main structure. Garages that are detached from the principal structure shall be designed and constructed so that the roof and exterior walls of the garage are of similar architecture, materials, and colors as the exterior of the principal structure. All garage~~s~~ types may exceed the height of the first story of the principal dwelling unit. RV garages may exceed the 30 foot depth and 500 square foot limitation in the LDC, but shall be limited to not be larger than 50 percent of the living area of the principal dwelling unit.

13. Prior to filing any application for development of Tract 3 or Tract 9, the Owner shall ~~either (1) place a conservation easement over portions of the Subject Property prohibited from being developed ("Undeveloped Property") with the terms of such easement in a form acceptable to the City's LUA or (2)~~ convey the Undeveloped Property pursuant to a mutually agreeable purchase and sale agreement approved by the LUA.

14. Existing vegetative screening in all View Protection Zones (VPZ) shall be maintained in perpetuity with no land clearing activities, except for those deemed necessary by the City for emergency services. Any other clearing activities within the VPZ is prohibited. In the event of any non-exempted clearing activities occurs, the property owner shall be required to replant the VPZ with a like for like replacement based on the diameter inches of trees cleared, with minimum replanting of trees of at least six (6) inches in diameter at breast height (dbh). The Land Use Administrator shall have approval of

replacement species and spacing. Any tree replacement within a VPZ shall be made using native drought tolerant species. Further, tree removal or land clearing activities within the VPZ that are not exempted per this subsection shall be subject Code Enforcement action as prescribed in the City's Code of Ordinances, including administrative fines and liens as outlined in Section 2-211 of the Code of Ordinances, with fines accruing at a rate of $1,000 per day for first violation, and $5,000 per day for subsequent violations, until such violations are resolved.

GENERAL CONDITIONS OF THIS AMENDMENT:

(a) Except as provided herein, all other terms of the MPD DA shall remain in full force and effect. The provisions of this Amendment shall bind and inure to the benefits of the parties hereto, their heirs, executors, administrators, successors and assigns.

(b) In the event of a conflict between the terms of this Amendment and the MPD DA, the terms of this Amendment shall govern.

(c) The Owner hereby represents to the City that all required joinders and consents have been obtained and set forth in properly executed form on this Amendment. Unless otherwise agreed to by the City, all liens mortgages and encumbrances not satisfied or released of record must be subordinated to the terms of this Amendment. It is the responsibility of the Owner to ensure that said subordination occur in a form and substance acceptable to the City Attorney prior to the City's execution of this Amendment.

IN WITNESS, WHEREOF, the City of Palm Coast and the Owners have caused this Amendment to be duly executed by its duly authorized representative(s) as the date first above written.

CITY OF PALM COAST – COM-2 DISTRICT USES

Summary of uses shown in the COM-2 column of the Palm Coast Land Development Code use table

PERMITTED USES (P) – CIVIC / FOOD / OFFICE

Civic / Institutional

- Town halls, libraries, museums
- Police, fire and postal service
- Civic clubs and fraternal organizations
- ~~Hospice services~~
- Hospitals
- Houses of worship / religious institutions
- Nonprofit organizations

Eating / Drinking / Entertainment

- Drinking establishments – no outdoor entertainment
- Beer, wine and liquor stores
- Cafeterias, coffee/donut shops, snack bars, sandwich shops, delicatessens and bakeries
- Performing arts facilities
- Pizza delivery and takeout places
- Fast-food restaurants
- Sit-down restaurants

Education / Labs / Office

- Elementary / secondary schools
- Medical and diagnostic laboratories
- Dental laboratories
- Multiuse buildings
- Banks and credit unions
- Mail order facilities
- Medical and professional offices
- Outpatient care facilities
- Pharmacies
- Scientific and technical services
- Temporary employment agencies / management services
- Veterinarians (without kennels; post-operative care only)

PERMITTED USES (P) – RECREATION / RESIDENTIAL / RETAIL

Recreation / Residential

- ~~Bed and breakfast inns~~
- ~~Hotels~~
- ~~Commercial marinas~~
- ~~Motels~~
- Indoor recreation
- Assisted living facilities / nursing homes
- Live Local mixed-use residential developments

Retail Sales

- Art dealers
- ~~Building material stores~~
- Clothing and accessory stores
- Retail
- Florists
- Food and beverage stores / supermarkets
- Furniture and home furnishings stores
- Home improvement centers
- Large-scale retail centers
- Lawn and garden equipment / supply stores
- Model home centers
- Pet stores
- ~~Plant nurseries~~
- ~~Photo finishing~~
- Small box discount stores
- Sporting goods, hobby, book and music stores
- Used merchandise stores

PERMITTED USES (P) – SERVICES / TRAINING / VEHICLES

Business / Personal Services

- Printing and publishing
- All other business services
- Adult day care centers
- Child day care centers
- Funeral homes
- All other personal service uses
- ~~Landscaping services~~

Training / Utilities

- ~~Automobile driver schools~~
- Technical / trade schools
- Municipal pump stations and well sites
- ~~Passenger transit or rail stations~~

Vehicle / Fuel Uses

- Convenience stores with fueling facilities
- ~~Motorcycle dealers~~
- Service stations
- ~~Taxi and limousine services~~

SPECIAL EXCEPTION USES (S)

- Drinking establishments with outdoor entertainment
- Microbreweries
- Colleges / universities
- Building contractors
- ~~Electronic game promotion establishments~~
- Public parks and recreation facilities
- Outdoor recreation
- ~~Caretaker dwellings~~
- Dormitories
- Automotive parts / accessories / tires
- Bail bonding
- ~~Tarot card, psychic and palm readings~~

SPECIAL EXCEPTION USES (S) – continued

- Tattooing, body piercing and other body art
- Kennels and animal boarding
- Repair services for commercial / industrial machinery and equipment
- ~~L.P. gas dealer and bulk storage~~
- ~~Power generation and distribution facilities~~
- ~~Automotive, recreational vehicle and boat dealers~~
- Car washes
- Commercial / industrial machinery and equipment rental / leasing
- Vehicle rental / leasing
- Vehicle repair
- ~~Miniwarehouses, office warehouses and self-storage~~
- Warehouse / distribution facilities under 50,000 sq. ft.

Limited designation: Wireless communication facilities are shown as "L" in the COM-2 column. This summary reproduces the use classifications only; applicable definitions, use-specific limitations, special-exception criteria and development standards remain controlling.

Exhibit "C"

COMMUNITY DEVELOPMENT DEPARTMENT
STAFF REPORT FOR LAKEVIEW ESTATES MPD AMENDMENT
CITY COUNCIL
PUBLIC HEARING ON OCTOBER 20, 2026

OVERVIEW

Application Number:	5575
Applicant:	Michael Chiumento III, Esq. Chiumento Law, agent for owner
Property Description:	Generally located between 0.5 to 1.25 miles north of Matanzas Woods Parkway, west of Interstate 95, and east of US Highway 1
Property Owner:	Matanzas GC Palm Coast LLC
Parcel ID #:	07-11-31-7037-0RP0A-0002, 07-11-31-7037-0RP0A-0011, 07-11-31-7037-0RP0A-0011
Current FLUM:	Greenbelt
Current Zoning:	Lakeview Estates Master Planned Development (MPD)
Current Use:	Partially developed
Size of Property:	±280.6 acres
Requested Action:	Amend the Lakeview Estates MPD Development Agreement to modify permitted uses on Tracts: 3, 6, 7, 8, and 9; conditionally permit recreational vehicle garages for all tracts.

ANALYSIS

REQUESTED ACTION

The applicant proposes to amend the existing Lakeview Estates Master Planned Development (MPD) Development Agreement (DA) in order to:

- Add the ability for the developer to site Single-Family Residential (SFR-2) sized residential lots to Tract 3 with access limited to Lakeview Boulevard.
- Add the ability for the developer to site stormwater ponds to Tract 3, Tract 6, Tract 7.
- Replace the ability for the developer to site (Multifamily Residential) MFR-1 and SFR-1 sized residential lots to Tract 8 with the ability to site a City Park site. It also reduces the minimum 150 feet setback from any existing single-family platted lot on Tract 8 to 100 feet.
- Replace the ability for the developer to site ±8.3 acres of Public Semi-Public (PSP) with ±20 acres of General Commercial (COM-2) uses, limited to a maximum of 35 feet, and providing emergency access from US Highway 1 to London Drive. Further the COM-2 uses are limited to not allow a special exception for mini-warehouses, office warehouses, or self-storage. Note: the proposed use of 20 acres as COM-2 is based on the potential approval of a related Future Land Use Map (FLUM) Amendment application, and if developed for commercial uses would reduce the overall remaining residential entitlements from 51 to 39 dwelling units.

- Reduce the existing View Protection Zone (VPZ) on Tract 3 to 50 feet and on Tract 10 from 150 feet to 100 feet. The VPZ depth for tract 4 is defined as 50 feet. The proposed text adds the requirement for enhanced screening and additional plantings to the satisfaction of the Land Use Administrator (LUA) or their designee to shield the view of adjacent residential properties within VPZs.
- Add the ability of residential property owners within the MPD with lots with a size of 10,000 or greater square feet to be able to construct a garage for recreational vehicles as an accessory use to lots with a principal dwelling unit, subject to maximum impervious surface and building setbacks.

BACKGROUND/SITE HISTORY

The subject property was developed as the 18-hole Matanzas Woods Golf Course by ITT and opened in 1985. The golf course permanently closed in 2007. In April 2019, Matanzas GC Palm Coast, LLC purchased the property. The initial City Zoning Map in 1999/2000 showed the subject property having the Flagler County zoning designation of Urban Single-Family Residential (R-1B). Flagler County's Land Development Code (LDC) has the R-1B Zoning District which allowed for single-family residential homes and also recreational areas that are accessory to residential developments. The R-1B zoning district allowed for up to 3 units per acre. In 2004 the City adopted its Comprehensive Plan and designated the subject property as Greenbelt on the Future Land Use Map (FLUM). The Greenbelt designation reduced the overall density on the subject property to 1 unit per acre.

On July 5, 2005, the City Council adopted the initial chapters of our Land Development Code (Ordinance No. 2005-33) which created the Golf Course Community (GCC) Zoning District. The GCC Zoning District allowed density of one home/per acre and also setup significant standards for the redevelopment of any golf course areas into residential uses. These guidelines, located in section 3.03.04.J of our LDC, were added to minimize adverse impacts to abutting single family residential zoned areas. On October 21, 2008, the City Council adopted Ordinance 2008-23 which implemented the City's first complete Land Development Code and also converted the Golf Course Community (GCC) Zoning District to MPD without a DA.

On January 19, 2021, the City Council approved Ordinance 2021-01 which rezoned the existing MPD to add the existing DA at the applicant's request during public hearing. The previous rezoning application had significant public participation at all facets of the rezoning process from the neighborhood meeting, which drew approximately 250 to 350 residents the two Planning and Land Development Board (PLDRB) meetings drawing approximately 50 to 60 residents and 30 to 35 residents respectively.

PROJECT DESCRIPTION

The property owner using clustering provisions of the LDC, the overall acreage of the project, and a field verified conservation area of ±0.2 acres ended up with residential entitlements of ±272 dwelling units (du). To date, 221 lots have received varying levels of approval (Preliminary and Final plats) between Tracts 1, 2, 4, 7, and 10 resulting in the project retaining 51 residential entitlements. The applicant's requested MPD DA Amendment relies on the potential approval of their requested FLUM amendment and has the effect of reducing the remaining residential entitlements from 51 du to 39 du due to the planned development of ±20 acres of COM-2 uses on Tract 9.

- The applicant is proposing to site the remaining 39 residential entitlements on Tract 3, which would require the approval of the MPD DA amendment and subsequent platting applications by the applicant. The vision that the applicant provided was that these lots would be designed to be ±10,000 square feet or larger to make use of their proposed language for recreational vehicle garages, but at a minimum size lots meeting the Unified Land Development Code (LDC) requirements of the SFR-2 zoning district, which requires 7,500-square-foot lots which are compatible with the existing platted single-family residential lots found on nearby Lee Drive.
- The DA provides language for siting additional stormwater retention ponds in Tracts 3, 6, and 7, which supports the City's recent effort to add additional stormwater retention in the area by vacating Learning Lane and Leaf Lane.
- The applicant is also requesting to amend the allowed use on tract 8 to convey the City a site for a future City park at no cost and not subject to park impact fee credits.
- Additionally, the applicant is requesting to permit ±20 acres of COM-2 uses on a portion of Tract 9 adjacent to US Highway 1.

LAND USE AND ZONING INFORMATION

SURROUNDING LAND USES:

NORTH:	FLUM:	DRI-Mixed Use; Conservation; Agriculture & Timberlands (Flagler County)
	Zoning:	PSP; COM-2; Rural Estate (EST-2); MPD; Agriculture (Flagler County)
EAST:	FLUM:	Residential; Greenbelt; Agriculture & Timberlands (Flagler County)
	Zoning:	SFR-2; SFR-3
SOUTH:	FLUM:	Residential
	Zoning:	SFR-2; SFR-3
WEST:	FLUM:	DRI-Mixed Use
	Zoning:	MPD

VPZ Guidelines LDC Section 3.03.04(J)

The City approved its first city wide zoning and complete LDC in 2008, which eliminated the Golf Course Community (GCC) Zoning District. However, regulations related to future development within the previous GCC Zoning District remained in the LDC. The term and utilization of VPZ was established within the Lakeview Estates MPD DA that was adopted in 2021 to be consistent with the Land Development Code regulations related to development in former GCC Districts.

Section 3.03.04(J) of the LDC provides the following redevelopment criteria:

J. *Existing golf course communities. Existing golf courses communities located within the former Golf Course Communities (GCC) District seeking to add residential units must comply with the standards established for the Master Planned Development (MPD) District. In addition, the development shall utilize the following guidelines in order to minimize adverse impacts on any abutting single-family residentially zoned areas.*

1. *Existing direct golf course views from the rear yards of all existing, platted lots located within any residentially zoned districts directly abutting the site shall be maintained. Peripheral (i.e.*

side) views from these existing rear yards may be impacted by new development and new development may be visible from existing development.
2. *Existing golf course views from existing platted lots located within any residentially zoned area located across a right-of-way or a water body from the site shall be maintained to the maximum extent practical.*
3. *Multifamily uses shall be surrounded by fairways, clubhouse, and/or other golf course facilities to buffer single-family areas within the same development. The multifamily uses shall not be located within 150 feet from any existing, platted lots located within a residentially zoned area.*

The LDC does not quantify the depth or thickness of the VPZ. More than likely it was not quantified since both factors (width of VPZ and amount of vegetative screening) affect the quality of a VPZ. Based on subsection 1, it is clear, that new development does not need to be completely out of view and may be visible from existing properties.

The applicant's draft MPD DA has requested modifications to several Tract's VPZs. While the applicant is able to make the requests, staff worked with the applicant to add the following provision: "The VPZ shall use enhanced screening adding additional planting, to include use of canopy trees, understory trees, and shrubbery, to shield the view of adjacent residential properties. The enhanced screening shall be to the satisfaction of the Land Use Administrator or their designee". The applicants proposed VPZ changes are summarized as follows:

- Tract 3 – defining depth of VPZ to 50 feet.
- Tract 4 - defining depth of VPZ to 50 feet.
- Tract 7 – defining depth of VPZ to 50 feet.
- Tract 9 - reducing the defined VPZ depth from 150 feet to 100 feet.

ANALYSIS BASED ON UNIFIED LAND DEVELOPMENT CODE, CHAPTER 2, SECTION 2.05.05

The Unified Land Development Code, Chapter 2, Part II, Section 2.05.05 states: *When reviewing a development order application, the approval authority shall determine whether sufficient factual data was presented in order to render a decision. The decision to issue a development order shall be based upon the following, including but not limited to*:

A. The proposed development must not be in conflict with or contrary to the public interest;

Staff Finding: The proposed MPD amendment ultimately would reduce the remaining residential entitlements from 51 to 39 remaining du on the subject property as ±20 acres would be slotted for commercial development adjacent to US Highway 1. The development of COM-2 uses would be compatible with the commercial development pattern along the US Highway 1 corridor, and depending on potential end users could provide needed commercial services to the northwest portion of the City which ultimately could reduce trip ends to Palm Coast Parkway. The conveyance of Tract 8 as a City park site without requiring the City to buy the land or for park impact fee credits is a benefit to the neighborhood. The proposed residential uses on Tract 3 adjacent to Lakeview Boulevard are likely the most significant impact to the surrounding neighborhood; however, the minimum sizes of the proposed residences would match the existing residential neighborhood's zoning of SFR-2. The applicant's request to be able to site recreational vehicle garages as an accessory use on any residential lot 10,000 or more square feet has the potential to reduce the need of residents with recreational vehicles or boats from having to utilize private off-site storage options. Allowing more tracts to support stormwater retention may have a positive effect for the overall neighborhood regarding stormwater and drainage. The neighborhood meeting did have ±125 individuals attend, so there is clearly a vested interest by the public in the proposed MPD DA amendment; however, due to the nature

of the neighborhood meeting and its technical limitations, it is difficult to gauge consensus on the public's interest.

B. The proposed development must be consistent with the Comprehensive Plan and the provisions of this LDC;

Staff Finding: The request is consistent with the Comprehensive Plan. The following policies are provided for elaboration:

- **Chapter 1 Future Land Use Element (FLUE):**

  Policy 1.1.1.2 The future land use designations shall permit the zoning districts listed and generally described in the following table. The maximum densities and intensities for each future land use designation and zoning district are also included in the table……..

  The maximum allowable density for residential uses within the Greenbelt designation is one (1) unit per acre after subtracting lands that are designated for non-residential uses. The proposed COM-2 use requires the associated FLUM amendment, as those uses are more intense than what the Greenbelt designation requires; however, the compact area requested to be designated as Mixed Use follows the character of the developmental pattern exhibited along the US Highway 1 commercial corridor.

  Policy 1.1.2.3 In order to allow for clustering of residential units to create rural communities and minimize the need for extensive infrastructure, the Greenbelt land use designation may include MPDs or PRDs having lot sizes of less than one (1) acre with common open spaces provided that the development's overall density does not exceed one (1) unit per acre.

  The residential component of the MPD DA does not exceed a density of one dwelling unit per acre. Nonresidential components are subtracted from the overall residential land to ensure that additional density is not created. With the associated FLUM amendment, a site specific limiting policy is provided which ensures that designating the proposed ±20-acre commercial site does not create density entitlements consistent with the normal Mixed Use designation in effort to ensure compliance with this policy and the overall character of the development.

  -Objective 1.1.4 – Discourage Urban Sprawl – Promote compact and contiguous development, a mixture of land uses, and discourage urban sprawl.

  The project site is a bifurcated pocket of land that was previously utilized as a golf course. The proposed FLUM amendment and MPD DA amendment ultimately reduce the remaining density of the project area and keep the development compacted minimizing sprawl. Additionally supporting a variety of land uses – residential, stormwater, park land, commercial development support the applicability of this FLUE policy.

  -Policy 1.3.1.3 – The City shall encourage development to locate in the areas where public facilities, infrastructure, and services are available. Where there are deficiencies and where appropriate, the City shall require the developer to provide or extend the facilities as necessary to accommodate development. Applicable impact fees shall be used by the City consistent with State law to offset the costs of the City providing facilities.

The proposed MPD amendment does not expand into areas which are currently not served by public facilities or infrastructure. During the subsequent platting or Technical Site Plan applications, the developer shall be subject to the cost of connecting to municipal services.

Other supporting Comprehensive Plan policies include:

Policy 1.1.2.1 - Permitted uses within a mixed use development shall follow those allowed within the corresponding zoning districts associated with the Future Land Use designation. Deviations from the land development regulation standards may be permissible in order to promote and encourage creatively planned projects and in recognition of special geographical features, environmental conditions, economic issues, or other unique circumstances.

Policy 3.3.2.4 – An analysis of compatibility is required when a new non-residential use is proposed to locate next to existing residential uses. Compatibility analyses during Land Use Amendments, Zoning Amendments, or Site Plan applications may include, but are not limited to, review of the following circumstances and attributes of the new development in comparison to the existing development pattern within a 500 foot vicinity of the parcel boundary of the subject parcel proposed for development or redevelopment:

a. A comparison of lot sizes, intensity, and/or density to understand potential trip generation of the new use.
b. Location in proximity of a collector or arterial roadway, or a transit stop to determine vehicle miles traveled of the new development that may impact existing residential uses.
c. A comparison of the scale of the building envelope(s) including floor area ratio and height.
d. Locations of ingress and egress, and whether or not there are multiple alternate roadways for access to the new development.
e. Hours of operation of a non-residential use.
f. Any creation of noise, smoke, glare, fumes, aromas, or other potential nuisance generating activities.
g. Installation of vegetative buffers, and setback provisions provided with the plan for development.
h. Any nuisance abatement provisions of the new development.

In review of the criteria listed in Policy 3.3.2.4, staff finds that the proposed MPD DA amendment provides a ±20-acre site for COM-2 uses on the western portion of Tract 9. This is adjacent to US Highway 1, and the applicant provides language for emergency access to the residential neighborhood. The height is capped to 35 feet which is the maximum building height of a single-family residence per the LDC, and they propose a 100-foot VPZ with enhanced vegetative screening to the satisfaction of the LUA. The impacts of any potential use will be analyzed during the Technical Site Plan stage for potential incompatibility of hours of operation, and creation of potential nuisance generating activities. The applicant has already requested a site-specific limiting policy capping the maximum trips to what could potentially be constructed under the current MPD DA and FLUM designation. Additionally, Tract 8 is being conveyed to the City for a future City park site. City parks are generally considered compatible with residential development; however, these criteria will be analyzed upon the development of a potential City park in the future.

Staff Finding: Its staff's opinion that the applicant's request is not totally consistent with the following sections of the Unified Land Development Code (LDC):

Section 3.03.04.J.1. *Existing direct golf course views from the rear yards of all existing, platted lots located within any residentially zoned districts directly abutting the site shall be maintained. Peripheral (i.e. side) views from these existing rear yards may be impacted by new development and new development may be visible from existing development.*

Staff finds that the applicant has not provided evidence and reasonable assurances that the existing direct golf course views have been maintained throughout the entire project.

Section 3.03.04.J.2. *Existing golf course views from existing platted lots located within any residentially zoned area located across a right-of-way or a water body from the site shall be maintained to the maximum extent practical.*

The existing golf course views across a right-of-way or a water body in staff's opinion are not being maintained consistently throughout the entire project. That said, the proposed language in the MPD DA amendment requiring the developer to provide enhanced vegetative screening to the satisfaction of the LUA helps the existing residents from being visually impacted by the proposed developments.

C. The proposed development must not impose a significant financial liability or hardship for the City;

Staff Finding: Potable water and sewer services are available nearby to serve the project. The developer will be required to pay applicable impact fees to ensure that the City does not have a financial liability for the project.

D. The proposed development must not create an unreasonable hazard, or nuisance, or constitute a threat to the general health, welfare, or safety of the City's inhabitants;

Staff Finding: The project already has approved residential entitlements to support a total of 272 du on the site. The proposed MPD Amendment reduces the overall density of the project area by reducing the residential entitlements 260 units. At this time 221 residential entitlements have been used. Additionally, it provides land for a public park site, and language to require emergency access to US Highway 1. At this time the proposed amendment does not create by itself an unreasonable hazard; however, during the platting process, City review staff shall evaluate the proposed project to ensure compliance with all applicable code requirements.

E. The proposed development must comply with all other applicable local, state and federal laws, statutes, ordinances, regulations, or codes.

Staff Finding: The subject property will be required to comply with the MPD Development Agreement, City's Land Development Code (LDC), Comprehensive Plan, and the requirements of all other applicable local, state and federal agencies throughout the development process.

ANALYSIS BASED ON UNIFIED LAND DEVELOPMENT CODE, CHAPTER 2, SECTION 2.09.04

The Unified Land Development Code, Chapter 2, Part II, Sec. 2.09.04 states: "*The Planning and Land Development Regulation Board and City Council shall consider the following criteria, in addition to the findings listed in Subsection 2.05.05, when reviewing a master planned development application*":

A. Consistency with all adopted elements of the Comprehensive Plan and whether it furthers the goals and objectives of the Comprehensive Plan.

Staff Finding: The proposed application remains consistent with and will further the goals and objectives of the Comprehensive Plan.

B. Consistency with the general intent of the LDC.

Staff Finding: The development standards in the MPD remain generally consistent with the standards established by the LDC.

C. Degree of departure of the proposed development from surrounding areas in terms of character and density/intensity.

Staff Finding: The proposed changes will not cause the MPD Agreement to further depart from customary standards in the LDC.

D. Compatibility within the development and relationship with surrounding neighborhoods.

Staff Finding: The proposed uses are similar to existing developments. The neighborhood of the Matanzas Woods area includes SFR-1, SFR-2, SFR-3 and MFR-1 zoning districts. The proposed development is compatible with those zoning districts. In addition, a neighborhood park is compatible with the residential uses found in the area. The height limitation on tract 9 and enhanced vegetative buffers within the VPZ areas help to ensure compatibility with the existing neighborhood. Furthermore, staff's VPZ recommendation helps to ensure compatibility with adjacent existing properties.

E. Adequate provision for future public education and recreation facilities, transportation, water supply, sewage disposal, surface drainage, flood control, and soil conservation as shown in the development plan.

Staff Finding: As required by the LDC, future development applications will be analyzed in further detail to determine if there is adequate public infrastructure capacity to serve the development. Other public service needs will also be reviewed in more detail as the development review progresses. For example, future applications for development will require further environmental analysis, utility agreements, coordination with Flagler Schools, etc. before approval. The subject project will be required to pay applicable impact fees to accommodate its impact on the public infrastructure and services.

F. The feasibility and compatibility of development phases to stand as independent developments.

Staff Finding: The developer has not shown any specific phasing of the project. However, various tracts within the MPD are situated where they can adequately be developed independently through the platting process.

G. The availability and adequacy of primary streets and thoroughfares to support traffic to be generated within the proposed development.

Staff Finding: The applicant previously submitted a Transportation Impact Study when the application was heard in 2021 that demonstrated that all roadways within the study area with the project's traffic included will operate at the City's adopted level of service. This amendment reduces the overall density of the MPD and the applicant has requested a site-specific limiting policy to cap the amount of traffic on Tract 9 to what is currently allowed. The applicant did not provide an updated Transportation Impact Analysis (TIA) with this application after making a request to City Administration, so staff is unable to evaluate the proposed distribution on US Highway 1 for the ±20-acre commercial site. An updated TIA shall be required during the Technical Site Plan stage of Tract 9's commercial development for further review.

H. The benefits within the proposed development and to the general public to justify the requested departure from standard development requirements inherent in a Master Planned Development District classification.

Staff Finding: The MPD DA amendment reduces residential density, provides additional stormwater, a City park site without cost to the City, and commercial uses along US Highway 1's expanding commercial corridor which could ultimately reduce trip ends to other areas of the City when developed. This project is consistent with the requirements of an MPD to provide a public benefit.

I. The conformity and compatibility of the development with any adopted development plan of the City of Palm Coast.

Staff Finding: The request adds more commercially designated land to the City and results in a minor reduction of density of the MPD. The proposed uses are similar to the existing residential neighborhood and do not request a reduction in lot sizes from the existing adjacent neighborhood. The proposed height limitation helps ensure compatibility with the existing residential land uses, and although the VPZ areas are reduces in width from the approved MPD DA, the language for enhanced vegetative screening helps buffer existing land uses from those within the MPD.

J. Impact upon the environment or natural resources.

Staff Finding: The landowners will be required to submit all applicable environmental reports or studies as required by the LDC during subsequent development. These studies will include environmental resource assessments, cultural resources, soil and groundwater analyses, stormwater calculations, floodplain analysis, and threatened and endangered species studies as applicable during the site plan or platting process for any new project within the MPD.

K. Impact on the economy of any affected area.

Staff Finding: The residents that will inhabit these new homes will have a positive impact on State and local income including permit and impact fees, taxes, and other sources. The project will also provide a significant number of constructions jobs, which should have a positive direct and indirect impact on the local economy. Further the applicant's analysis of the commercial development at Tract 9 estimates that ±250,000 gross square feet could be developed which will enhance the City's nonresidential tax base.

PUBLIC PARTICIPATION

The applicant hosted a neighborhood meeting as required by Unified Land Development Code (LDC) Section 2.05.02 at 5:30 p.m. Tuesday April 14th, 2026, in the cafeteria of Indian Trails Middle School. The applicant also met the public notice requirements of LDC Section 2.05.03. The neighborhood meeting had approximately 125 attendees. Applicant submitted documentation summarizing the neighborhood meetings that has been attached to the agenda item.

Prior to the Planning and Land Development Regulation Board (PLDRB) meeting on May 20, 2026, staff was contacted by several members of the public requesting clarifying information pertaining to public hearing dates or to access to application materials, which staff has provided. The applicant has met their public notice requirements.

PLANNING AND LAND DEVELOPMENT REGULATION BOARD MEETING

The PLDRB heard the Comprehensive Plan Amendment, application #5576, and its companion MPD Amendment, application #5575, at their May 20, 2026 meeting.

During the evening, the PLDRB unanimously approved a motion to delay public comment on the Comprehensive Plan Amendment until after the companion MPD Amendment, application #5575, had been presented to the PLDRB as well. 10 members of the public spoke in opposition to the proposed Comprehensive Plan Amendment and MPD Amendment.

The PLDRB voted five to one in favor of recommending approval of the Comprehensive Plan Amendment subject to the concurrent adoption of staff's draft FLUE Policy 1.1.2.5 serving as a site specific limiting policy capping the intensity and density of the 20-acre portion of Tract 9 of the Lakeview Estate MPD.

The PLDRB voted six to zero in favor of recommending denial of the MPD Amendment subject to criteria analysis of LDC Section 2.05.05A finding the application contrary to public interest based on compelling evidence presented by the public during public comment in addition to analysis of LDC Sections 3.03.04.J1 and 3.03.04.J2.

CITY COUNCIL FIRST READ

City Council heard this item at its September 1st meeting, and it was continued until the September 15th meeting. City Council voted to approve the MPD Amendment with a vote of three to one.

Four members of the public spoke at the September 1st meeting, and two members of the public spoke at the September 15th meeting.

RECOMMENDATION

The Planning and Land Development Regulation Board recommends that the City Council finds the proposed MPD Amendment (Application No. 5575) not consistent with the Comprehensive Plan and deny the application.

THE CITY OF PALM COAST
160 LAKE AVENUE
PALM COAST, FL 32164

BUSINESS IMPACT ESTIMATE
PURSUANT TO F.S. 166.041(4)

Meeting Date: September 1, 2026
Ordinance Number: 2026-XX
Posted To Webpage: August 19, 2026

This Business Impact Estimate is given as it relates to the proposed ordinance titled:

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF PALM COAST, FLORIDA, AMENDING THE LAKEVIEW ESTATES MASTER PLAN DEVELOPMENT AGREEMENT, AS ESTABLISHED IN SECTION 2.09 OF THE CITY OF PALM COAST UNIFIED LAND DEVELOPMENT CODE, FOR ±280.6 ACRES OF CERTAIN REAL PROPERTY PREVIOUSLY KNOWN AS THE MATANZAS GOLF COURSE AND DESCRIBED AS TAX PARCEL IDENTIFICATION NUMBERS 07-11-31-7037-0RP0A-0002, 07-11-31-7037-0RP0A-0011, AND 07-11-31-7037-0RP0A-0140, GENERALLY LOCATED BETWEEN 0.5 TO 1.25 MILES NORTH OF MATANAZAS WOODS PARKWAY, WEST OF INTERSTATE 95, AND EAST OF US HIGHWAY 1, AND BEING MORE PARTICULARLY DESCRIBED IN ATTACHED EXHIBIT A; MODIFYING PERMITTED USES ON TRACTS: 3, 6, 7, 8, AND 9; CONDITIONALLY PERMITTING RECREATIONAL VEHICLE GARAGES FOR ALL TRACTS; PROVIDING FOR SEVERABILITY, CONFLICTS; AND AN EFFECTIVE DATE.

The sections below <u>are not</u> required to be completed if the ordinance involves any one of the following types of regulations. Please check if applicable:

__ 1. Ordinances required for compliance with federal or state law or regulation;
__ 2. Ordinances relating to the issuance or refinancing of debt;

__ 3. Ordinances relating to the adoption of budgets or budget amendments, including revenue sources necessary to fund the budget;
__ 4. Ordinances required to implement a contract or an agreement, including, but not limited to, any federal, state, local, or private grant, or other financial assistance accepted by a municipal government;
__ 5. Emergency ordinances;
__ 6. Ordinances relating to procurement; or
X 7. Ordinances enacted to implement the following:

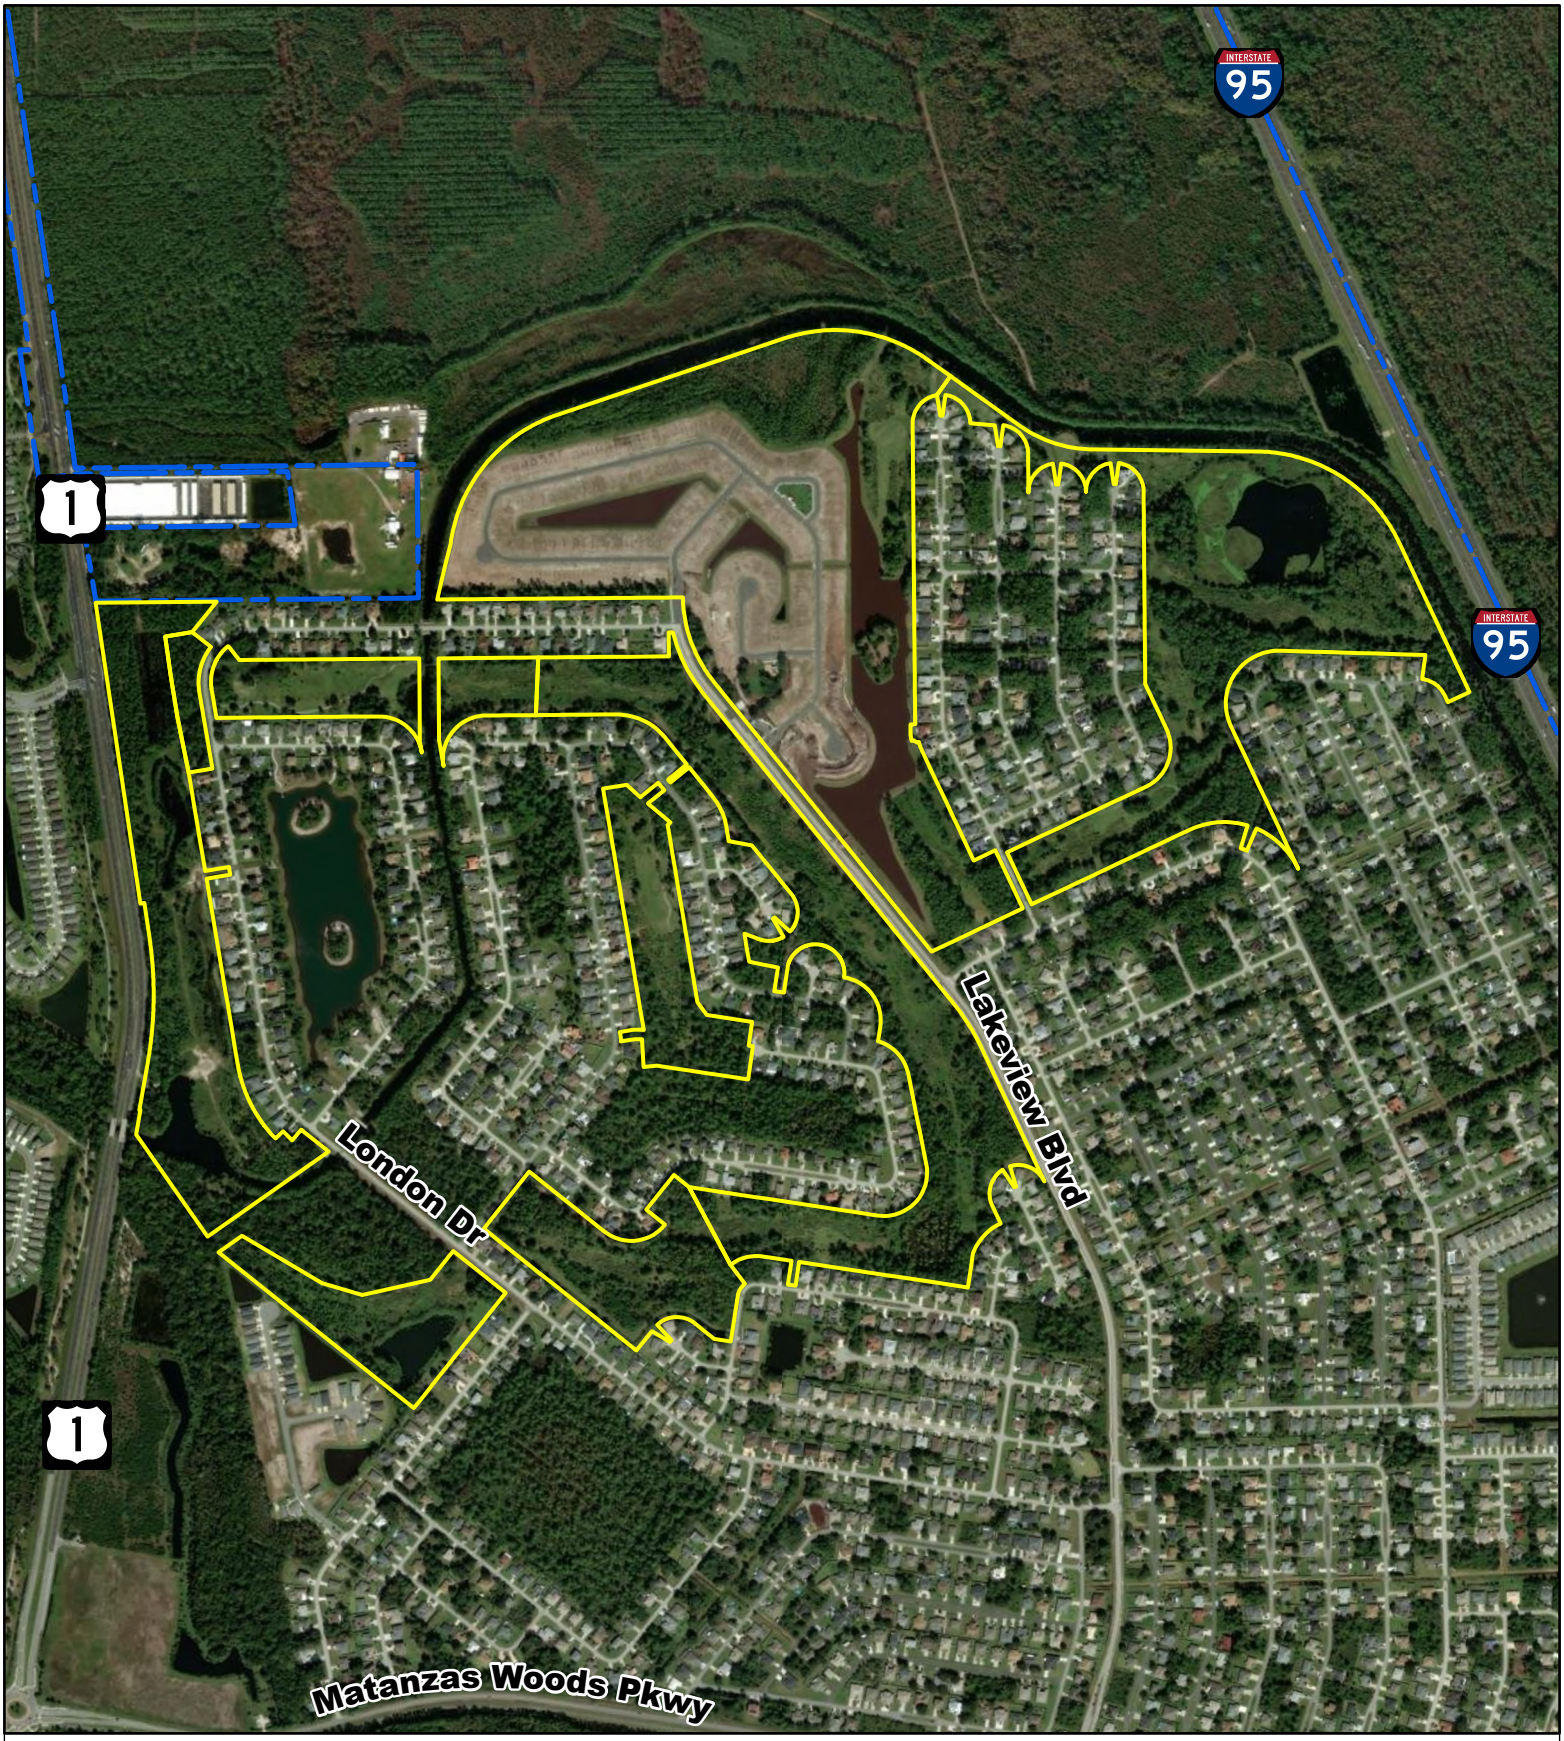
a. Development orders, and development agreements, and development permits, as those terms are defined in S 163.3164, and development agreements, as authorized by the Florida Local Government Development Acts SS. 163.3220-163.3243;
b. Comprehensive Plan amendments and land development regulation amendments initiated by an application by a private party other than the city;
__ c. Sections 190.005 and 190.046;
__ d. Section 553.73, relating to the Florida Building Code; or
__ e. Section 633.202, relating to the Florida Fire Prevention Code.

Part I. Summary of the proposed ordinance and statement of public purpose:

This ordinance implemented to amend development agreements relating to the subject parcels has been initiated from a private party other than the City, and therefore exempt from addressing the following sections.

ECONOMIC IMPACT ON BUSINESS

a. Estimated number of businesses impacted: Not applicable.



b. Types of businesses affected: Not applicable.

RE: City of Palm Coast Park Dedication / Lakeview Estates Amendment

Dear Mr. Tyner:

It has been a pleasure to work with the City in its efforts to provide a community park for the Matanzas Woods neighborhood. We reviewed the City's updated parks plan as provided in the P.O.P Report and agree that a park for the residents in this part of the City is long overdue. Therefore, my client is willing to give lands to the City for purposes of community park.

In this light, please find enclosed applications to (i) amend the Comprehensive Plan designation for a portion of the Owner's property and (ii) rezone portions of the property to provide for the donation of +/- 11 ac of land to the City for the community park and additional lands to be developed. Note however, that these applications do not provide for any new residential development rights. The maximum residential development is actually decreased from the present MPD Agreement.

Rezoning Application

The enclosed application requests an Amendment to the MPD Agreement. Rather than provide an amended and restated agreement, the application provides a simple amendment focusing on the specific changes. We have included a redline version for your convenience to show the proposed changes. In general, the proposed amendment (i) reduces the number of residential units to be developed on the property from 268 to 260; (2) broadens the commercial uses on Tract 9, (iii) conveys an +/- 11acres of land to the City for a community park, and (iv) allows residential development on other areas of the property.

These proposed changes remain consistent with the City's comprehensive plan and other land development regulations. We will provide a consistency analysis under separate cover in the next week or so. The proposed changes serve a public purpose in that the community requested a

10/23/2023 02:21 pm IP:[10.10.250.10] Packet No: 91816

community park in this area as provided in the P.O.P Report. We look forward to your comments and hope to placed on the December Planning Board agenda.

Comprehensive Plan Amendment

Also enclosed is an application to amend the Comprehensive Plan designation on a portion of the Property. Specifically, Tract #9 is located on U.S.1 adjacent to the entrance of 1500 units subdivision commonly known as Sawmill Creek. Presently, Tract #9 allows for the development of non-residential uses. The proposed amendment request that the Land Use designation be changed from Greenbelt to Mixed Use to allow for a broader range of commercial uses on that Tract. The goal and objective is to promote economic development and jobs in this area of Palm Coast, increase the commercially zone property in an attempt to balance the community's tax base, and (iii) provide residents in this area with local commercial opportunities minimizing their trip lengths which adversely impact other City roadways such as Palm Coast Parkway.

Conclusion

We appreciate the opportunity to work with the City in its efforts to provide the citizens a community park. We too believe a park in this area of Palm Coast is benefit for the residents in the Matanzas Woods neighborhood. From a planning perspective, this application will not only benefit those residents but will also benefit all the residents in the northeast portion of the City by providing parks, recreation, shopping opportunities for them while lessening traffic impacts on other City roads.

Once you have had an opportunity to review these applications, we respectfully request a meeting to discuss your questions concerns and changes.

Sincerely,

Michael D. Chiumento III
Attorney

Attn: Ray Tyner

RE: Matanzas Golf Course

Dear Mr. Tyner:

I have examined the title with respect to the property described in Exhibit A attached hereto and made part hereof. Based upon my examination of the title search, it is my legal opinion that as of **March 18, 2024**, that fee simple title to the property is vested in **MATANZAS GC PALM COAST, LLC, a Florida limited liability company.** subject to the following matters:

1. All matters as shown on the plat of Lakeview-Section 37 Palm Coast Park at Palm Coast, a subdivision recorded in Plat Book 13, pages 1 through 29, inclusive, of the Public Records of Flagler County, Florida.

2. Covenants and Restrictions recorded in Official Records Book 47, page 295 and amended in Official Records Book 48, page 225, Official Records Book 76, page 267, Official Records Book 81, page 560, Official Records Book 95, page 254, Official Records Book 100, page 9, Official Records Book 119, page 641, Official Records Book 218, page 594 and amended in Official Records Book 278, page 447, Public Records of Flagler County, Florida.

3. Agreement between Palm Coast Utility Corporation and Sunsport Recreation, Inc. recorded in Official Records Book 283, Page 396, Public Records of Flagler County, Florida.

4. Agreement between Palm Coast Utility Corporation and Sunsport Recreation, Inc. recorded in Official Records Book 293, Page 871, Public Records of Flagler County, Florida.

5. Agreement between Palm Coast Utility Corporation and Sunsport Recreation, Inc. recorded in Official Records Book 293, Page 875, Public Records of Flagler County, Florida.

6. Drainage Easement recorded in Official Records Book 549, page 991, Assignment of Reserved Rights recorded in Official Records Book 602, page 53 and Amendment to Drainage Easement to add Additional Lands recorded in Official Records Book 1680, page 1751, Public Records of Flagler County, Florida.

7. Declaration of Restrictive Covenants and Easements recorded in Official Records Book 550, Page 1568, Public Records of Flagler County, Florida.

8. Terms and conditions of the Access Easement Agreement in favor of Commonwealth Palm Coast Corporation recorded in Official Records Book 550, Page 1682, assigned to The Grand Club, LLC, by Assignment of Access Easements recorded in Official Records Book 1118, page 859, Public Records of Flagler County, Florida.

9. Access Easement Agreement in favor of Commonwealth Palm Coast Corporation recorded in Official Records Book 550, Page 1688, assigned to The Grand Club, LLC, by Assignment of Access Easements recorded in Official Records Book 1118, page 859, Public Records of Flagler County, Florida.

10. Drainage Easement Agreement in favor of Palm Coast Community Service Corporation recorded in Official Records Book 550, Page 1750 together with the Amendment to Drainage Easement to add Additional Lands recorded in Official Records Book 1680, page 1681, Public Records of Flagler County, Florida.

11. Declaration of Covenants recorded In Official Records Book 1118, page 868, Public Records of Flagler County, Florida.

12. Easement Agreement for Utilities recorded In Official Records Book 1579, page 472, Public Records of Flagler County, Florida.

13. Development Order(s) recorded in Official Records Book 1599, page 511 and Official Records Book 1615, page 638, Public Records of Flagler County, Florida.

14. Lease and Access Agreement dated March 1, 2008 by and between The Grand Club, LLC, (Landlord) and Palm Coast Outdoor, Inc. (Tenant) together with First Amendment dated October 8, 2008 and Second Amendment dated February 25, 2011 as evidenced by the Memorandum of Lease recorded In Official Records Book 1807, page 683 and Assignment and Assumption of Lease Agreement recorded in Official Records Book 1814, page 159, Public Records of Flagler County, Florida.

15. Lease Agreement dated February 20, 2014 as evidenced by the Lease Memorandum recorded In Official Records Book 1999, Page 1476 and Assignment and Assumption of Lease Agreement recorded in O.R. Book 2354, Page 1621, Public Records of Flagler County, Florida. Seller's Certificate recorded in O.R. Book 2354, Page 1051, Public Records of Flagler County, Florida.

16. Lakeview Estates Master Plan Development Agreement between City of Palm Coast, a Florida municipal corporation and Matanzas GC Palm Coast, LLC, a Florida limited liability company as recorded in O.R. Book 2530, Page 1215, Public Records of Flagler County, Florida.

17. City of Palm Coast Development Order approval for Lakeview Estates Tract 1 Subdivision Master Plan recorded in O.R. Book 2647, Page 1522, Public Records of Flagler County, Florida.

18. City of Palm Coast Subdivision Preliminary Plat Development Order approval for Lakeview Estates Tract 1 recorded in O.R. Book 2756, Page 793, Public Records of Flagler County, Florida.

19. Lakeview Estates Master Plan Development Agreement between City of Palm Coast, a Florida municipal corporation and Matanzas GC Palm Coast, LLC, a Florida limited liability company as recorded in O.R. Book 2530, Page 1215, Public Records of Flagler County, Florida.

Sincerely yours,

Michael D. Chiumento III
MC/cm

EXHIBIT "A"

MATANZAS WOODS GOLF COURSE:

Reserved Parcel "A", Lakeview - Section 37 Palm Coast Park at Palm Coast, as recorded in Map Book 13, pages 1 through 29, Public Records of Flagler County, Florida, being more particularly described as follows:
From a POINT OF BEGINNING, being the northeast corner of Block 165 of said Plat of Lakeview; thence North 89°30'56" East 21.68 feet to a point on a curve; thence southerly along a curve to the left having an arc length of 349.56 feet, a radius of 800.00 feet, a central angle of 25°02'07" and a chord bearing South 26°22'21" East, 346.78 feet to a point of tangency; thence South 38°53'25" East 2087.61 feet to a point of curvature; thence southerly along a curve to the right having an arc length of 266.63 feet, a radius of 1120.00 feet, a central angle of 13°38'23" and a chord bearing South 32°04'13" East, 265.99 feet to a point of tangency; thence South 25°15'02" East 772.55 feet to a point of cusp; thence northwesterly along a curve to the left having an arc length of 213.75 feet, a radius of 150.00 feet, a central angle of 81°38'47" and a chord bearing North 66°04'26" West 196.12 feet to a point; thence South 16°53'50" East 110.00 feet to a point on a curve; thence westerly along a curve to the left having an arc length of 11.66 feet, a radius of 40.00 feet, a central angle of 16°42'25" and a chord bearing South 64°44'57" West 11.62 feet to a point; thence North 33°36'15" West 110.00 feet to a point on a curve; thence southerly along a curve to the left having an arc length of 213.75 feet, a radius of 150.00 feet, a central angle of 81°38'47" and a chord bearing South 15°34'21" West 196.12 feet to a point of tangency; thence South 25°15'02" East 100.25 feet to a point on a curve; thence southwesterly along a curve to the left having an arc length of 217.30 feet, a radius of 280.98 feet, a central angle of 44°18'38" and a chord bearing South 42°35'39" West 211.92 feet to a point of tangency; thence South 08°35'49" West 179.39 feet; thence North 81°24'11" West 913.66 feet; thence South 08°35'49" West 125.00 feet; thence North 81°24'11" West 40.00 feet; thence North 08°35'49" East 125.00 feet; thence North 81°24'11" West 125.00 feet to a point of curvature; thence westerly along a curve to the left having an arc length of 180.00 feet, a radius of 225.00 feet, a central angle of 45°50'12" and a chord bearing South 75°40'43" West,175.24 feet to a point; thence South 37°14'23" East, 125.00 feet to a point on a curve; thence southerly along a curve to the left having an arc length of 77.08 feet, a radius of 100.00 feet, a central angle of 44°09'48" and a chord bearing South 30°40'43" West 75.19 feet to a point of tangency; thence South 08°35'49" West, 237.34 feet; thence North 81°24'11" West 87.50 feet; thence North 51°24'11" West 130.00 feet to a point of curvature; thence westerly along a curve to the left having an arc length of 213.75 feet, a radius of 150.00 feet, a central angle of 81°38'47" and a chord bearing South 87°46'25" West,196.12 feet to a point; thence South 43°02'58" East 110.00 feet to a point on a curve; thence southerly along a curve to the left having an arc length of 11.66 feet, a radius of 40.00 feet, a central angle of 16°42'26" and a chord bearing South 38°35'49" West 11.62 feet to a point; thence North 59°45'24" West 110.00 feet; thence South 38°35"49" West 128.21 feet; thence North 51°24'11" West 1018.03 feet; thence North 38°35'49" East 380.00 feet; thence South 51°24'11" East 500.00 feet to a point of curvature; thence easterly along a curve to the left having an arc length of 353.43 feet, a radius of 225.00, a central angle of 90°00'00" and a chord bearing North 83°35'49" East, 318.20 feet to a point; thence North 51°24'11" West 125.00 feet; thence North 38°35"49" East 230.92 feet; thence South 51°24'11" East 100.00 feet; thence South 81°24'11" East 993.30 feet to a point of

curvature; thence northeasterly along a curve to the left having an arc length of 431.48 feet, a radius of 225.00 feet, a central angle of 109°52'35" and a chord bearing North 43°39'32" East, 368.34 feet to a point of tangency; thence North 11°16'46" West 478.51 feet to a point of curvature; thence northwesterly along a curve to the left having an arc length of 245.29 feet, a radius of 225.00 feet, a central angle of 62°27'41" and a chord bearing North 42°30'36" West, 233.32 feet to a point; thence North 08°35'49" East 77.01 feet to a point of curvature; thence northwesterly along a curve to the left having an arc length of 353.43 feet, a radius of 225.00 feet, a central angle of 90°00'00" and a chord bearing North 36°24'11" West 318.20 feet to a point; thence westerly along a curve to the left having an arc length of 446.47 feet, a radius of 150.00 feet, a central angle of 170°32'16" and a chord bearing North 76°40'19" West 298.98 feet to a point of tangency; thence South 08°35'49" West 149.66 feet; thence North 81°24'11" West 50.00 feet; thence North 08°35'49" East 125.00 feet; thence North 78°43'26" West 153.29 feet; thence North 09°33'43" West 148.11 feet; thence South 69°50'14" East 67.79 feet to a point of curvature; thence easterly along a curve to the left having an arc length of 146.25 feet, a radius of 150.00 feet, a central angle of 55°51'48" and a chord bearing North 87°23'42" East,140.53 feet to a point; thence North 30°32'12" West 110.00 feet to a point on a curve; thence northeasterly along a curve to the left having an arc length of 11.66 feet, a radius of 40.00 feet, a central angle of 16°42'25" and a chord bearing North 51°06'35" East 11.62 feet to a point; thence South 47°14'37" East 110.00 feet to a point on a curve; thence northerly along a curve to the left having an arc length of 213.75 feet, a radius of 150.00 feet, a central angle of 81°38'48" and a chord bearing North 01°55'59" East 196.12 feet to a point of tangency; thence North 38°53'25" West 326.21 feet; thence North 80°07'23" West 122.65 feet; thence North 09°33'42" West 80.00 feet to a point of curvature; thence northerly along a curve to the left having an arc length of 166.36 feet, a radius of 325.00 feet, a central angle of 29°19'42" and a chord bearing North 24°13'34" West,164.55 feet to a point of tangency; thence North 38°53'25" West 200.00 feet; thence South 51°06'35" West 125.00 feet; thence North 38°53'25" West 20.00 feet; thence North 51°06'35" East 125.00 feet; thence North 38°53'25" West 178.81 feet to a point of curvature; thence northwesterly along a curve to the left having an arc length of 292.66 feet, a radius of 325.00 feet, a central angle of 51°35'39" and a chord bearing North 64°41'14" West, 282.87 feet to a point of tangency; thence South 89°30'56" West 678.94 feet to a point of curvature; thence southwesterly along a curve to the left having an arc length of 389.08 feet, a radius of 225.00 feet, a central angle of 99°04'39" and a chord bearing South 39°58'37" West, 342.38 feet to a point of cusp; thence North 09°33'43" West 137.22 feet; thence North 00°29'04" West 425.00 feet; thence North 89°30'56" East 1200.00 feet; thence North 00°29'04" West 125.00 feet to the POINT OF BEGINNING.

ALSO INCLUDING:

Reserved Parcel "C", Lakeview - Section 37 Palm Coast Park at Palm Coast, as recorded in Map Book 13, pages 1 through 29, Public Records of Flagler County, Florida, being more particularly described as follows:
From a POINT OF BEGINNING, being the northwest corner of said Reserved Parcel "C"; thence North 89°26'28" East 630.08 feet; thence South 38°43'02" West 202.91 feet; thence South 51°40'07" East 125.00 feet to a point on a curve; thence southerly along a curve to the left having an arc length of 250.77 feet, a radius of 300.00 feet; a central angle of 47°53'36" and a chord bearing South 14°23'05" West 243.53 feet to a point of tangency; thence South

09°33'43" East 403.87 feet; thence South 80°26'17" West 125.00 feet; thence South 09°33'43" East 520.00 feet, thence North 80°26'17" East 125.00 feet; thence South 09°33'43" East 40.00 feet; thence South 80°26'17" West 125.00 feet; thence South 09°33'43" East 980.61 feet to a point of curvature; thence southerly along a curve to the left having an arc length of 441.04 feet, a radius of 725.00 feet, a central angle of 34°51'17" and a chord bearing South 26°59'21" East, 434.27 feet to a point; thence North 45°35'00" East 55.00 feet; thence South 44°25'00" East 67.22 feet; thence North 39°51'14" East 73.36 feet to a point on a curve; thence southeasterly along a curve to the left having an arc length of 13.16 feet, a radius of 600.00 feet; a central angle of 01°15'25" and a chord bearing South 50°46'29" East 13.16 feet to a point of tangency; thence South 51°24'11" East 170.76 feet; thence South 54°59'31" West 770.58 feet; thence North 35°00'29" West 649.53 feet to a point on the east right of way line of U.S. Highway No.1; thence northerly along said right of way line of the following six courses; run North 09°59'31" East 128.08 feet; thence South 89°43'01" West 5.08 feet; thence North 09°59'31" East 253.32 feet to a point of curvature; thence northerly along a curve to the left having an arc length of 655.06 feet, a radius of 2030.05 feet, a central angle of 18°29'18" and a chord bearing North 00°44'52" East, 652.23 feet to a point of tangency; thence North 08°29'47" West 179.58 feet; thence South 81°30'12" West 20.00 feet; thence North 08°29'47" West 1583.88 feet to the POINT OF BEGINNING.

ALSO INCLUDING:

Reserved Parcel "D" Lake View - Section 37 Palm Coast Park at Palm Coast, as recorded in Map Book 13, pages 1 through 29, Public Records of Flagler County, Florida, being more particularly described as follows:
From a POINT OF BEGINNING, being the most northerly corner of said Reserved Parcel "D"; thence South 38'53'28" East 93.32 feet; thence North 89°30'56" East 936.80 feet; thence South 00°29'04" East 432.94 feet; thence South 09°33'42" East 57.28 feet to a cusp point; thence northwesterly along a curve to the left having an arc length of 317.78 feet, a radius of 225.00 feet; a central angle of 80°55'21" and a chord bearing North 50°01'23" West 292.02 feet to a point of tangency; thence South 89°30'56" West 846.10 feet; thence North 09°33'43" West 149.00 feet to a point of curvature; thence northerly along a curve to the right having an arc length of 254.23 feet, a radius of 240.00 feet, a central angle of 60°41'38" and a chord bearing North 20°47'06" East, 242.51 feet to the POINT OF BEGINNING.

ALSO INCLUDING:

A parcel of land being a portion of Reserved Parcel "E", Lakeview - Section 37 Palm Coast Park at Palm Coast, as recorded in Map Book 13, pages 1 through 29, Public Records of Flagler County, Florida, being more particularly described as follows:
From a POINT OF BEGINNING, being the most southerly corner at said Reserved Parcel "E"; thence North 64°44'58" East 526.36 feet; thence North 25°15'02" West 335.20 feet; thence South 64°44'58" West 125.00 feet; thence North 25°15'02" West 620.00 feet to a point of curvature; thence northwesterly along a curve to the right having an arc length of 60.46 feet, a radius of 425.00 feet, a central angle of 08°09'02" and a chord bearing North 21°10'31" West, 60.41 feet to the southeasterly corner of a parcel described in Official Records Book 492, pages 936-939; thence northerly along the boundary of said parcel described in Official Records Book 492, pages 936-939 for the following five courses; thence South 72°54'00"

West 10.00 feet; thence North 53°38'13" West 20.65 feet; thence South 05°01'26" West 11.50 feet; thence North 10°42'21" West 31.82 feet; thence North 01°05'36" East 53.63 feet; thence North 85°41'45" East 24.67 feet to the boundary of above said Reserved Parcel "2", being a point on a curve; thence northerly along a curve to the right having an arc length of 28.33 feet, a radius of 425.00 feet; a central angle of 03°49'11" and a chord bearing North 02°23'39" West 28.33 feet to a point of tangency; thence North 00°29'04" West 1536.30 feet to a point of curvature; thence northeasterly along a curve to the right having an arc length of 213.75 feet, a radius of 150.00 feet; a central angle of 81°38'47" and a chord bearing North 40°20'20" East, 196.12 feet to a point; thence South 08°50'16" East 110.00 feet to a point on a curve; thence easterly along a curve to the right having an arc length of 11.66 feet, a radius of 40.00 feet, a central angle of 16°42'25" and a chord bearing North 89°30'57" East 11.62 feet to a point; thence North 07°52'09" East 110.00 feet to a point on a curve; thence southeasterly along a curve to the right having an arc length of 213.75 feet, a radius of 150.00 feet, a central angle of 81°38'47" and a chord bearing South 41°18'27" East 196.12 feet to a point; thence South 85°19'06" East 128.73 feet; thence South 08°50'16" East 110.00 feet to a point on a curve; thence easterly along a curve to the right having an arc length of 11.66 feet, a radius of 40.00 feet a central angle of 16°42'25" and a chord bearing North 89°30'57" East 11.62 feet to a point; thence North 07°52'09" East 110.00 feet to a point on a curve; thence southeasterly along a curve to the right having an arc length of 213.75 feet, a radius of 150.00 feet, a central angle of 81°38'47" and a chord bearing South 41°18'27" East 196.12 feet to a point of tangency; thence South 00°29'04" East 202.47 feet to a point of cusp; thence northeasterly along a curve to the right having an arc length of 213.75 feet, a radius of 150.00 feet, a central angle of 81°38'47" and a chord bearing North 40°20'20" East, 196.12 feet to a point; thence South 08°50'16" East 110.00 feet to a point on a curve; thence easterly along a curve to the right having an arc length of 11.66 feet, a radius of 40.00 feet a central angle of 16°42'25" and a chord bearing North 89°30'57" East 11.62 feet to a point; thence North 07°52'09" East 110.00 feet to a point on a curve; thence southeasterly along a curve to the right having an arc length of 213.75 feet, a radius of 150.00 feet; a central angle of 81°38'47" and a chord bearing South 41°18'27" East 196.12 feet to a point of cusp; thence northeasterly along a curve to the right having an arc length of 213.75 feet, a radius of 150.00 feet; a central angle of 81°38'47" and a chord bearing North 40°20'20" East 196.12 feet to a point; thence South 08°50'16" East 110.00 feet to a point; thence easterly along a curve to the right having an arc length of 11.66 feet, a radius of 40.00 feet, a central angle of 16°42'25" and a chord bearing North 89°30'57" East 11.62 feet to a point; thence North 07°52'09" East 110.00 feet to a point on a curve; thence southeasterly along a curve to the right having an arc length of 213.75 feet, a radius of 150.00 feet; a central angle of 81°38'47" and a chord bearing South 41°18'27" East 196.12 feet to a point of tangency; thence South 00°29'04" East 1003.67 feet; thence South 25°15'02" East 260.04 feet to a point of curvature; thence southerly along a curve to the right having an arc length of 353.43 feet, a radius of 225.00 feet, a central angle of 90°00'00" and a chord bearing South 19°44'58" West, 318.20 feet to a point of tangency; thence South 64°44'58" West 800.00 feet; thence South 25°15'02" East 300.00 feet; thence North 64°44'58" East 910.00 feet to a point of curvature; thence easterly along a curve to the right having an arc length of 309.71 feet, a radius of 425.00 feet, a central angle of 41°45'11" and a chord bearing North 85°37'33" East, 302.90 feet to a point; thence South 16°30'09" West 125.00 feet to a point on a curve; thence easterly along a curve to the right having an arc length of 34.00 feet, a radius of 300.00 feet, a central angle of 06°29'36" and a chord bearing South 70°15'03" East 33.98 feet to a point; thence North 22°59'45" East 125.00 feet

to a point on a curve; thence southeasterly along a curve to the right having an arc length of 309.71 feet, a radius of 425.00 feet, a central angle of 41°45'13" and a chord bearing South 46°07'39" East 302.91 feet to a point of cusp; thence North 25°15'02" West 822.28 feet to a point of curvature; thence northeasterly along a curve to the right having an arc length of 561.16 feet, a radius of 275.00 feet, a central angle of 116°54'59" and a chord bearing North 33°12'28" East, 468.74 feet to a point of tangency; thence South 88°20'03" East 756.56 feet; thence South 07°23'44" West 126.38 feet to a point of on a curve; thence easterly along a curve to the right having an arc length of 150.15 feet, a radius of 150.00 feet, a central angle of 57°21'14" and a chord bearing South 53°55'39" East 143.96 feet to a point of tangency; thence South 25°15'02" East 40.00 feet; thence North 64°44'58" East 125.00 feet to the easterly line of Belle Terre Waterway; thence North 25°15'02" West along said easterly line of Belle Terre Waterway for a distance of 862.29 feet to a point of curvature; thence depart said boundary line of said Reserved Parcel "2" and run westerly along the southerly line of Jefferson Davis Waterway for the following four courses: run westerly along a curve to the left having an arc length of 921.97 feet, a radius of 825.00 feet, a central angle of 64°01'49" and a chord bearing North 57°15'57" West, 874.74 feet to a point of tangency; thence North 89°16'51" West 858.76 feet to a point of curvature; thence westerly along a curve to the right having an arc length of 411.10 feet, a radius of 675.00 feet, a central angle of 34°53'44" and a chord bearing North 71°49'59" West, 404.78 feet to a point of tangency; thence North 54°23'07" West 585.58 feet to a point of curvature; thence westerly along a curve to the left having an arc length of 177.30 feet, a radius of 825.00 feet, a central angle of 12°18'47" and a chord bearing North 60°32'31" West,176.96 feet to a point on the westerly boundary of said Reserved Parcel "2"; thence southerly and westerly along said westerly boundary of said Reserved Parcel "E" for the following seven courses: South 29°30'56" West 419.65 feet; thence South 14°30'56" West 66.19 feet; thence South 00°29'04" East 810.00 feet to a point of curvature; thence southeasterly along a curve to the right having an arc length of 353.43 feet, a radius of 225.00 feet, a central angle of 90°00'00" and a chord bearing South 44°30'56" West, 318.20 feet to a point of tangency; thence South 89°30'56" West 659.20 feet to a point on a curve; thence southeasterly along a curve to the left having an arc length of 331.52 feet, a radius of 720.00 feet, a central angle of 26°22'53" and a chord bearing South 25°41 '59" East 328.59 feet to a point of tangency; thence South 38°53'25" East 1801.29 feet to the POINT OF BEGINNING.

ALSO INCLUDING:

Part of Government Sections 21 and 22, Township 10 South, Range 30 East, Flagler County, Florida being that part of PARCEL NO. 2 of the property described in Official Records Book 142, pages 278-279, lying south of Jefferson Davis Waterway and being more particularly described as follows:
From a POINT OF REFERENCE being a point on the easterly boundary line of the above described PARCEL NO. 2, said point being the northwest corner of Reserved Parcel "2" as shown on the recorded plat of Lakeview - Section 37 Palm Coast Park at Palm Coast, as recorded in Map Book 13, pages 1 through 29, Public Records of Flagler County, Florida; thence South 29°30'56" West along the easterly boundary of said PARCEL NO. 2 being also along the westerly boundary of said Reserved Parcel "E" for a distance of 390.35 feet to the POINT OF BEGINNING; thence continue along the easterly and southerly boundary of said PARCEL NO. 2 being also along the westerly and northerly boundary of said Reserved

Parcel "E" for the following seven courses: run South 29°30'56" West 419.65 feet; thence South 14°30'56" West 66.19 feet; thence South 00°29'04" East 810.00 feet to a point of curvature; thence southwesterly along a curve to the right having an arc length of 353.43 feet, a radius of 225.00 feet, a central angle of 90°00'00" and a chord bearing South 44°30'56" West, 318.20 feet to a point of tangency; thence South 89°30'56" West 659.20 feet to a point on a curve; thence northerly along a curve to the right having an arc length of 151.10 feet, a radius of 720.00 feet, a central angle of 12°01'28" and a chord bearing North 06°29'48" West 150.83 feet to a point; thence South 89°30'56" West 1280.00 feet to the northwest corner of Block 164 of said plat of Lakeview; thence North 12°53'48" East along the southerly line of said Jefferson Waterway for a distance of 297.66 feet to a point on a curve; thence northeasterly along a curve to the right having an arc length of 913.19 feet, a radius of 825.00 feet, a central angle of 63°25'15" and a chord bearing North 39°41'03" East 867.28 feet to a point of tangency; thence North 71°23'41" East 1251.37 feet to a point of curvature; thence easterly along a curve to the right having an arc length of 603.42 feet, a radius of 825.00 feet; a central angle of 41°54'25" and a chord bearing South 87°39'07" East, 590.05 feet to the POINT OF BEGINNING.

ALSO INCLUDING:

All of that land vacated in the Subdivision Plat Of Lakeview - Section 37 Palm Coast Map Book 13 Pages 1 through 29, per Resolution 95-56 as recorded in Official Records Book 538 at Pages 1611 through 1613, Public Records of Flagler County, Florida, being described as follows:
BEGINNING at the southwesterly corner of Lot 22, Block 143 of the aforesaid Lakeview - Section 37; thence North 80°26'17" East a distance of 49.47 feet to a point of curvature of a curve to the right; thence northeasterly along said curve having a radius of 300.00 feet, a central angle of 14°34'59" an arc of 76.36 feet and a chord bearing North 87°43'47" East, 76.15 feet to a point on a non-tangent line; thence North 09°33'43" West, a distance of 1273.40 feet; thence North 80°26'17" East a distance of 124.48 feet; thence South 47°01'13" East a distance of 97.49 feet to a point on a non-tangent curve; thence northeasterly along a curve to the right having a radius of 150.00 feet; a central angle of 08°07'48", an arc length of 21.28 feet and a chord bearing North 47°02'41" East, 21.27 feet to a point of tangency; thence North 51°06'35" East a distance of 100.00 feet; thence South 38°53'25" East a distance of 50.00 feet; thence South 51°06'35" West a distance of 100.00 feet to a point of curvature; thence southwesterly along a curve to the left having a radius of 100.00 feet, central angle of 05°43'46, an arc length of 10.00 feet and a chord bearing South 48°14'42" West,10.00 feet to a point on a non-tangent line; thence South 50°07'21" East a distance of 153.93 feet; thence South 51°06'35" West a distance of 20.25 feet; thence South 09°33'43" East a distance of 936.00 feet; thence South 35°36'55" East a distance of 82.42 feet; thence South 81°24'11" East a distance of 240.00 feet; thence South 08°35'49" West a distance of 125.00 feet; thence South 81°24'11" East a distance of 27.55 feet to a point on a non-tangent curve; thence southwesterly along curve to the left having a radius of 40.00 feet, a central angle of 77°21'52", an arc of 54.01 feet and a chord bearing South 08°35'49" West 50.00 feet to a point on a non-tangent line; thence North 81°24'11" West a distance of 4.59 feet; thence South 08°35'49" West a distance of 125.00 feet; thence North 81°24'11" West a distance of 480.00 feet; thence South 84°38'20" West a distance of 69.97 feet; thence North 03°00'11" West a distance of 144.02 feet to a point on a non-tangent curve; thence southwesterly along

a curve to the left having a radius of 250.00 feet, a central angle of 13°34'27", an arc of 59.23 feet and a chord bearing South 87°13'31" West, 59.09 feet to a point of tangency; thence South 80°26'17" West a distance of 51.03 feet to a point on a non-tangent curve; thence northwesterly along a curve to the left having a radius of 200.00 feet, a central angle of 07°10'51" an arc of 25.07 feet and a chord bearing North 05°58'17" West 25.05 feet to a point of tangency; thence North 09°33'43" West a distance of 25.00 feet to the POINT OF Beginning, the above described parcel of land is situated in Section 22, Township 10 South, Range 30 East, Flagler County, Florida.

ALSO INCLUDING:

Part of Reserved Parcel "R-1", Lakeview - Section 37 Palm Coast Park at Palm Coast, as recorded in Map Book 13, pages 1 through 29, Public Records of Flagler County, Florida, being more particularly described as follows:
From a POINT OF BEGINNING, being the most easterly corner of said Reserved Parcel "R-1"; thence South 38°35'49" West along the southeasterly line of said Reserved Parcel "R-1" for a distance of 767.47 feet; thence North 51°24'11" West 1300.81 feet to the most westerly corner of said Reserved Parcel "R-1"; thence North 54°59'31" East,148.96 feet; thence South 59°22'19" East 485.17 feet; thence South 73°43'22" East 217.49 feet; thence North 77°17'42" East 363.21 feet; thence North 38°35'49" East 191.24 feet; thence South 51°24'11" East 350.00 feet to the POINT OF BEGINNING.

ALSO INCLUDING:

A parcel of land being a portion of Reserved Parcel "E" according to the Subdivision Plat Lakeview Section 37, Palm Coast, recorded in Map Book 13, Pages 1 Through 29, of the Public Records of Flagler County, Florida, being more particularly described as follows:
A POINT OF REFERENCE being the northeast corner of Lot 1, Block 75; thence North 25°15'02" West along the west line of Belle Terre Waterway a distance of 862.29 feet to THE POINT OF BEGINNING; thence departing Belle Terre Waterway (as platted) 921.97 feet along the arc of a curve to the left (concave southerly) have a central angle of 64°01'49", a radius of 825.00 feet, a chord bearing of North 57°15'57" West and a chord distance of 874.74 feet to a point of tangency, thence North 89°16'51" West a distance of 858.76 feet to a point of curvature; thence 411.10 feet along the arc of a curve to the right (concave northerly) having a central angle of 34°53'44", a radius of 675.00 feet, a chord Bearing of North 71°49'59" West and a chord distance of 404.78 feet to the end of said curve being a point on the boundary of Jefferson Davis Waterway as recorded in Official Records Book 549, Pages 966 through 990, of the Public Records of Flagler County, Florida; thence North 35°36'53" East along said waterway a distance of 30.00 feet to a point on a non-tangent curve; thence easterly 392.83 feet along the arc of a curve to the left (concave northerly)having a central angle of 34°53'44", a radius of 645.00 feet, a chord bearing of South 71°49'59" East and a chord distance of 386.79 feet to a point of tangency; thence South 89°16'51" East a distance of 858.76 feet to a point of curvature; thence 955.50 feet along the arc of a curve to the right concave southwesterly having a central angle of 64°01'49", a radius of 855.00 feet, a chord bearing of South 57°15'57" East and a chord distance of 906.54 feet to the end of said curve; thence South 64°44'58" West a distance of 30.00 feet to the POINT OF BEGINNING.

ALSO INCLUDING:

A PARCEL OF LAND LYING EAST OF U.S. HIGHWAY NO. 1 (STATE ROAD 5), BEING A PORTION OF LONDON WATERWAY, LAKEVIEW SECTION 37, AS RECORDED IN MAP BOOK 13, PAGE 26, LOCATED IN GOVERNMENT SECTION 28, TOWNSHIP 10 SOUTH, RANGE 30 EAST, FLAGLER COUNTY, FLORIDA, BEING MORE PARTICULARLY DESCRIBED AS FOLLOWS:
AS A POINT OF REFERENCE, COMMENCE AT THE INTERSECTION OF THE NORTHEASTERLY LINE OF ASHWOOD WATERWAY (A 300 FOOT RIGHT-OF-WAY) PER SAID LAKEVIEW SECTION 37, WITH THE EASTERLY RIGHT-OF-WAY LINE OF U.S. HIGHWAY No. 1, (STATE ROAD 5, A 175 FOOT RIGHT-OF-WAY AT THIS POINT); THENCE DEPARTING SAID RIGHT-OF-WAY LINE SOUTH 35°00'29" EAST ALONG SAID NORTHEASTERLY LINE OF ASHWOOD WATERWAY FOR A DISTANCE OF 649.53 FEET TO THE INTERSECTION OF THE NORTHWESTERLY LINE OF SAID LONDON WATERWAY, ALSO BEING THE POINT OF BEGINNING OF THIS DESCRIPTION; THENCE DEPARTING SAID ASHWOOD WATERWAY LINE NORTH 54°59'31" EAST ALONG THE NORTHWESTERLY LINE OF SAID LONDON WATERWAY FOR A DISTANCE OF 770.58 FEET TO THE INTERSECTION OF THE SOUTHWESTERLY RIGHT-OF-WAY LINE OF LONDON DRIVE, (A 60 FOOT RIGHT-OF-WAY), PER SAID LAKEVIEW-SECTION 37; THENCE DEPARTING THE NORTHWESTERLY LINE OF SAID LONDON WATERWAY SOUTH 51°24'11" EAST ALONG SAID RIGHT-OF-WAY LINE FOR A DISTANCE OF 104.24 FEET TO THE SOUTHERLY LINE OF SAID LONDON WATERWAY; THENCE DEPARTING SAID RIGHT-OF-WAY LINE SOUTH 54'59'31" WEST ALONG SAID SOUTHERLY LINE OF LONDON WATERWAY FOR A DISTANCE OF 800.00 FEET TO THE INTERSECTION OF SAID NORTHEASTERLY LINE OF ASHWOOD WATERWAY; THENCE NORTH 35°00'29" WEST ALONG SAID ASHWOOD WATERWAY LINE FOR A DISTANCE OF 100.00 FEET TO THE AFOREMENTIONED POINT OF BEGINNING OF THIS DESCRIPTION.

LESS AND EXCEPT:

A PARCEL OF LAND LYING IN SECTIONS 22 AND 21, TOWNSHIP 10 SOUTH, RANGE 30 EAST, FLAGLER COUNTY, FLORIDA, BEING A PORTION OF RESERVED PARCEL "E" AS SHOWN ON THE PLAT LAKEVIEW -- SECTION 37 PALM COAST PARK AT PALM COAST, MAP BOOK 13, PAGES 1 THROUGH 29 AND DESCRIBED IN OFFICIAL RECORDS BOOK 2354, PAGES 1028 THROUGH 1036, PUBLIC RECORDS OF FLAGLER COUNTY, FLORIDA AND A PORTION OF PARCEL NO. 2, AS DESCRIBED IN OFFICIAL RECORDS BOOK 142, PAGES 278 THROUGH 279, PUBLIC RECORDS OF FLAGLER COUNTY, FLORIDA, BEING MORE PARTICULARLY DESCRIBED AS FOLLOWS:

FROM A POINT OF BEGINNING, BEING THE MOST SOUTHERLY CORNER OF SAID RESERVED PARCEL "E"; THENCE NORTH 38°53'25" WEST ALONG THE EASTERLY RIGHT-OF-WAY LINE OF LAKEVIEW BOULEVARD AS SHOWN ON SAID PLAT OF LAKEVIEW - SECTION 37, PALM COAST PARK AT PALM COAST A DISTANCE OF 1801.29 FEET TO A POINT OF CURVATURE; THENCE CONTINUE ALONG THE

EASTERLY RIGHT-OF-WAY OF SAID LAKEVIEW BOULEVARD NORTHWESTERLY ALONG A CURVE TO THE RIGHT HAVING AN ARC LENGTH OF 331.51 FEET, A RADIUS OF 720.00 FEET, A CENTRAL ANGLE OF 26°22'51" AND A CHORD BEARING AND A CHORD BEARING NORTH 25°41'59" WEST A DISTANCE OF 328.59 FEET TO THE SOUTHERLY LINE OF SAID PARCEL NO. 2; THENCE DEPARTING SAID SOUTHERLY LINE NORTHWESTERLY ALONG A CURVE TO THE RIGHT HAVING AN ARC LENGTH OF 151.11 FEET, A RADIUS OF 720.00 FEET, A CENTRAL ANGLE OF 12°01'29" AND A CHORD BEARING NORTH 06°29'48" WEST A DISTANCE OF 150.83 FEET TO A POINT; THENCE SOUTH 89°30'56" WEST A DISTANCE OF 1280.00 FEET TO THE SOUTHERLY LINE OF JEFFERSON DAVIS WATERWAY AS SHOWN ON SAID PLAT LAKEVIEW - SECTION 37, PALM COAST PARK AT PALM COAST; THENCE ALONG THE SOUTHERLY LINE OF SAID JEFFERSON DAVIS WATERWAY NORTH 12°53'48" EAST A DISTANCE OF 297.66 FEET TO A POINT OF CURVATURE; THENCE CONTINUE ALONG THE SOUTHERLY LINE OF JEFFERSON DAVIS WATERWAY AND ALONG A CURVE TO THE RIGHT HAVING AN ARC LENGTH OF 913.19 FEET, A RADIUS OF 825.00 FEET, A CENTRAL ANGLE OF 63°25'14" AND A CHORD BEARING NORTH 39°41'03" EAST A DISTANCE OF 867.28 FEET TO THE POINT OF TANGENCY, THENCE NORTH 71°23'41" EAST STILL ALONG THE SOUTHERLY LINE OF SAID JEFFERSON DAVIS WATERWAY A DISTANCE OF 1251.37 FEET TO A POINT OF CURVATURE; THENCE CONTINUE ALONG THE SOUTHERLY LINE OF SAID JEFFERSON DAVIS WATERWAY AND ALONG A CURVE TO THE RIGHT HAVING AN ARC LENGTH OF 603.41 FEET, A RADIUS OF 825.00 FEET, A CENTRAL ANGLE OF 41°54'23" AND A CHORD BEARING SOUTH 87°39'07" EAST A DISTANCE OF 590.05 FEET TO A POINT ON THE EASTERLY LINE OF SAID PARCEL NO. 2, SAID POINT ALSO BEING ON THE WESTERLY LINE OF SAID RESERVED PARCEL "E"; THENCE CONTINUE ALONG E"; THENCE CONTINUE ALONG THE SOUTHERLY LINE OF SAID JEFFERSON DAVIS WATERWAY AND ALONG A CURVE TO THE RIGHT HAVING AN ARC LENGTH OF 177.30 FEET, A RADIUS OF 825.00 FEET, A CENTRAL ANGLE OF 12°18'48" AND A CHORD BEARING SOUTH 60°32'31" EAST A DISTANCE OF 176.96 FEET TO THE POINT OF EAST A DISTANCE OF 176.96 FEET TO THE POINT OF TANGENCY; THENCE CONTINUE ALONG THE SOUTHERLY LINE OF SAID JEFFERSON DAVIS WATERWAY SOUTH 54°23'07" EAST A DISTANCE OF 147.50 FEET; THENCE DEPARTING THE SOUTHERLY LINE OF SAID EAST A DISTANCE OF 147.50 FEET; THENCE DEPARTING THE SOUTHERLY LINE OF SAID JEFFERSON DAVIS WATERWAY AND THROUGH SAID RESERVED PARCEL "E" SOUTH 35°36'53" WEST A DISTANCE OF 120.96 FEET TO A NON-TANGENTIAL CURVE; THENCE SOUTHWESTERLY ALONG A CURVE TO THE LEFT HAVING AN ARC LENGTH OF 213.75 FEET, A RADIUS OF 150.00 FEET, A CENTRAL ANGLE OF 81°38'50" AND A CHORD BEARING SOUTH 40°20'20" WEST A DISTANCE OF 196.12 FEET TO THE POINT OF TANGENCY; THENCE SOUTH 00°29'04" EAST A DISTANCE OF 1536.30 FEET TO A POINT OF CURVATURE; THENCE SOUTHEASTERLY ALONG A CURVE TO THE LEFT HAVING AN ARC LENGTH OF 28.34 FEET, A RADIUS OF 425.00 FEET, A CENTRAL ANGLE OF 03°49'12" AND A CHORD BEARING SOUTH 02°23'39" EAST A DISTANCE OF 28.33 FEET TO THE NORTHEASTERLY CORNER OF A PARCEL DESCRIBED IN OFFICIAL RECORDS BOOK 492, PAGES 936 THROUGH 939, PUBLIC RECORDS OF FLAGLER COUNTY, FLORIDA; THENCE SOUTHERLY ALONG THE BOUNDARY LINE OF SAID PARCEL THE FOLLOWING FIVE (6) COURSES; 1) SOUTH 85°41'45" WEST A DISTANCE OF 24.67

FEET, 2) SOUTH 01°05'36" WEST A WEST A DISTANCE OF 24.67 FEET, 2) SOUTH 01°05'36" WEST A DISTANCE OF 53.63 FEET, 3) SOUTH 10°42'21" EAST A DISTANCE OF 31.82 FEET, 4) NORTH 75°01'26" EAST A DISTANCE OF 11.50 FEET, 5) SOUTH 53°38'13" EAST A DISTANCE OF 20.65 FEET, 6) NORTH 72°54'00" EAST A DISTANCE OF 10.00 FEET TO THE SOUTHEASTERLY CORNER OF SAID PARCEL, SAID CORNER ALSO BEING A POINT OF CURVATURE; THENCE DEPARTING SAID BOUNDARY AND ALONG A CURVE TO THE LEFT HAVING AN ARC LENGTH OF 60.46 FEET, A RADIUS OF 425.00 FEET, A CENTRAL ANGLE OF 08°09'03" AND A CHORD BEARING SOUTH 21°10'31" EAST A DISTANCE OF 60.41 FEET TO THE POINT OF TANGENCY: THENCE SOUTH 25°15'02" EAST A DISTANCE OF 620.00 FEET; THENCE NORTH 64°44'58" EAST A DISTANCE OF 125.00 FEET; THENCE SOUTH 25°15'02" EAST A DISTANCE OF 335.20 FEET; THENCE SOUTH 64°44'58" WEST A DISTANCE OF 526.36 FEET TO THE POINT OF BEGINNING.

April 3,2024

Bill Hoover
Senior Planner
City of Palm Coast
160 Lake Avenue
Palm Coast, Florida 32164

RE: Matanzas MPD Revision Application
Analysis Review per Subsection 2.05.05 and 2.06.03 of the LDC

Dear Mr. Hoover,

The following is a summary of Review Findings

2.05.05 LDC

A . The proposed development must not be in conflict with or contrary to public interest.

The proposed rezoning will provide commercial and office uses to meet community demand for retail, services, business and employment opportunities.

B The proposed development must consistent with Comprehensive Plan and provisions of this LDC

The Rezoning provides needed public services and revenues based on projected population and employment growth.

C. The proposed development must not impose a significant financial liability or hardship for the City.

The Rezoning will not impose significant financial liability or hardship for the City
The project will enhance the City by improved community wide drainage improvements for Matanzas neighborhood area.

D. The proposed development must not create an unreasonable hazard, or nuisance, or constitute a threat to the general health, welfare, or safety of the City's inhabitants: and

The development will create a perpetual buffer to the east adjacent to existing residential properties.
The western portion of the property is proposed commercial development adjacent to, and accessed from, US Rt. 1

E. The proposed development must comply with all other applicable local, state, and federal laws, statutes, ordinances, regulations, or codes.

The development of the property will comply with all local, state, and federal laws statutes, ordinances regulations, or codes.

2.06.03 LDC

A. Whether it is consistent with all adopted elements of the Comprehensive Plan and whether It furthers the goals and objectives of the Comprehensive Plan.

The Rezoning provides attractive job opportunities with superbly designed commercial area while providing for the diverse needs of the citizens.

B. Its impact on environmental or natural resources.

The Rezoning provides for over 6 acres of natural buffers adjacent to existing residential and US 1 road frontage.

C. Its impact on the economy of any affected area.

The Rezoning from PSP (Public Semi Public) to Com 2 (General Commercial) Will provide general commercial and office uses to meet community demand for retail, services, business and employment opportunities.

D. Its impact upon necessary governmental services such as schools, sewage disposal, Potable water, drainage, fire and police protection, solid waste, or transportation systems.

The Rezoning will have not have adverse impact on schools, sewage disposal, potable, drainage, fire Protection, solid waste or transportation systems.

E Any changes in circumstances or conditions affecting the area.

The continued residential growth in the area will be enhanced with services provided by the proposed Rezoning.

F Compatibility with proximate uses and development patterns, impacts to the health, safety, And welfare of the surrounding residents.

The proposed Rezoning with the implementation of proposed buffers protects the health safety,and welfare of the surrounding residents.

G. Whether it accomplishes a legitimate public purpose.

The Rezoning provides legitimate public purpose by providing community needs for services as growth continues.

Environmental Assessment

For the

Matanzas Woods Golf Course Property

1.0 PROJECT INTRODUCTION

The Matanzas Woods Golf Course property is located within the City of Palm Coast, Flagler County, Florida, in a portion of Sections 21, 22, 27, & 28, Township 10 South, Range 30 East. The project area is approximately 275.96 acres in total size. The proposed project is identified as Flagler County Parcel ID # 07-11-31-7037-ORPOA0002. The subject property is generally located north of Matanzas Woods Parkway, east of US Highway 1, west of Interstate 95, and south of lands associated with the Palm Coast Park DRI. The property consists of an abandoned golf course within the City of Palm Coast. Please see the attached Location Map and Aerial Map within Appendix I for details. The latitude and longitude coordinates for the approximate center of the project are 29.615 North and -81.281 West, as determined via Google Earth.

The applicant for the project is:

Matanzas GC Palm Coast, LLC
Attn: Mr. Alex Ustilovsky
200 Ocean Crest Drive, Unit # 1111
Palm Coast, FL 32137

The subject property was previously permitted as a golf course within St. Johns River Water Management District MSSW# 4-035-0003A. The golf course has been closed since 2007.

Atlantic Ecological Services (AES) conducted an Environmental Assessment (EA) on the Matanzas Woods Golf Course property (herein referred to as the subject property). The subject property was reviewed to determine habitat type's present, boundaries of habitat types, presence of or the potential for protected species, wildlife utilization of the site and other environmental constraints noted during the site visits. This EA report discusses the methods used to conduct the EA, the results thereof and includes several supplementary figures.

Mr. Jody Sisk of AES performed the wetland and protected species review on the subject property. Mr. Sisk currently holds certifications from the City of Palm Coast as a Qualified Environmental Professional, including Gopher Tortoise Agent (#19567), Wetlands (#19568), and Listed Species (#19569).

2.0 EXISTING SITE CONDITIONS

The subject property consists of disturbed uplands, wetlands, and surface water ponds associated with the former golf course. The uplands consist of remnant pine flatwoods and golf course, and the wetlands consists of multiple hardwood forested systems, mixed hardwood/pine systems, freshwater marsh, and surface water ponds.

The communities and land use areas were categorized according to the Florida Department of Transportation (FDOT) (1991) Florida Land Use, Cover and Forms Classification System (FLUCFCS). The communities and land uses observed and delineated on the subject property are described in detail below and are shown on the attached Habitat Map.

2.1 Uplands

Golf Course - Remnant (FLUCCS 182) – Approximately 133.95 acres of the property exists as the remnant fairways, greens, and associated components of the Matanzas Golf Course. These areas exist as a mix of turf grass, ruderal weeds, landscape plants and trees, parking, and associated structures.

Pine Flatwoods (FLUCCS 411) – The remaining uplands, not included in the managed golf course area, found on the subject property are considered remnant pine flatwoods. They were part of the ITT pine plantation prior to the opening of the golf course in the 1980's. Evidence of remnant row planting was identified across the site. This habitat community s approximately 98.24 acres in total size. The canopy is dominated by slash pine (*Pinus elliottii*). Some Chinese tallow (*Sapium sebiferum*), live oak (*Quercus virginiana*), laurel oak (*Quercus laurifolia*), and loblolly bay (*Gordonia lasianthus*) are also located within the uplands, but at much less coverage. The understory is dominated by a thick cover of saw palmetto (*Serenoa repens*). Other species found, but at a much lesser extent, include wax myrtle (*Myrica cerifera*), gallberry (*Ilex glabra*), yaupon holly (Ilex vomitoria), bushy broom grass (*Andropogon glomeratus*), blackberry (*Rubu*s spp.), greenbriar (*Smilax* spp.), bahia grass (*Paspalum notatum*), cogon grass (*Imperata cylindrica*), and bracken fern (*Pteridium aquilinum*).

2.2 Wetlands

Mixed Wetland Hardwoods (FLUCCS 617) – Multiple mixed hardwood wetland systems are located on the subject property totaling approximately 0.2 acres. These wetlands consist primarily of a canopy of red maple (*Acer rubrum*), Chinese tallow, laurel oak, and loblolly bay. The understory includes dahoon holly (*Ilex cassine*), wax myrtle and saw palmetto.

Cypress (FLUCCS 621) – Multiple small, isolated cypress depressions totaling 2.97 acres are located on the subject property. These systems are dominated by cypress (*Taxodium* spp.). Other species include red maple, slash pine, and dahoon holly.

Wetland Mixed Forest (FLUCCS 630) – Multiple mixed hardwood and pine wetlands are located on the subject property. The wetland mixed forest communities combined equal approximately 15.09 acres in total area on the subject property. The canopy is dominated by red maple, sweetgum (*Liquidambar styraciflua*), cypress, Chinese tallow, laurel oak, loblolly bay, and slash pine. The understory includes dahoon holly, wax

myrtle, saw palmetto, shiny lyonia (*Lyonia lucida*), gallberry, and herbaceous species such as Virginia chain fern (*Woodwardia virginica*), beakrush (*Rhynchospora* spp.), and yellow-eyed grass (*Xyris* spp.).

Freshwater Marsh (FLUCCS 641) – One freshwater marsh is located on the subject property totaling approximately 5.33 acres. The marshes are dominated by St. Johns wort (*Hypericum fasciculatum*), maidencane (*Panicum hemitomon*), torpedo grass (*Panicum repens*), Carolina willow (*Salix caroliniana*), red root (*Lacnanthes caroliniana*), and primrose willow (*Ludwigia peruviana*).

2.3 Surface Waters

Ponds (FLUCCS 530) – Approximately 20.18 acres of the subject property exists as surface water ponds associated with the former golf course.

3.0 SOILS

A discussion of each soil type present on the subject property is documented below. Please see the attached Soils Map within Appendix I for the location of each soil type.

Wabasso fine sand (4) – This very deep, nearly level, poorly drained soil is in broad flatwood areas. Individual areas of this soil are irregular in shape and range from 4 to 200 acres. The seasonal high water table is at a depth of 6 to 18 inches for as much as 3 months during most years. It recedes to a depth of more than 40 inches during dry periods.

Hicoria, Riviera, and Gator soils, depressional (8) – This is a very deep, nearly level, poorly drained soil found in depressions in the flatwoods. Individual areas are circular to irregular in shape and range from 3 to 1,500 acres. The undrained areas of this map unit are ponded, as much as 24 inches of water is above the surface for 6 months or more except during extended dry periods.

Myakka fine sand (11) – This is a very deep, nearly level, very poorly drained soil that is in broad flatwood areas. The areas range from 5 to 500 acres. The seasonal high water table is at a depth of 6 to 18 inches for 1 to 4 months of the year. It is at a depth of 10 to 40 inches for more than 6 months of the year.

Placid, Basinger, and St. Johns soil, depressional (12) – These are very deep, poorly drained soils which are present in depressions along flatwoods. Undrained areas are ponded for long periods. They range from 3 to 400 acres in size. In most years, undrained areas are ponded for more than 6 months, and the seasonal high water table is as much as 2 feet above the surface.

Immokalee fine sand (13) – This is a poorly drained, nearly level soil on broad flats and low knolls in flatwoods. Mapped areas of this soil range from 5 to 600 acres. The

seasonal high water table is at a depth of 6 to 18 inches for 2 months and at 10 to 40 inches during periods of lower rainfall in most years under natural conditions. During extended dry periods, the water table recedes to a depth of more than 40 inches.

Valkaria-Smyrna Complex (18) – This is a very deep, nearly level, poorly drained soil on flatwoods. Areas in this soil are irregular and range from 40 to 300 acres. The seasonal high water table is at a depth of 6 to 18 inches for 1 to 4 months of the year. It is at a depth of 10 to 40 inches or more during extended dry periods.

Vakaria fine sand (19) – This is a very deep, nearly level, poorly drained soil on low broad flats and in sloughs connecting depressions. Areas in this soil are irregular and range from 5 to 100 acres in size. The seasonal high water table is at a depth of 0 to 6 inches for 2 to 6 months of the year.

Smyrna fine sand (21) – This is a very deep, poorly drained soil which is present in nearly level flatwoods areas. They range from 4 to 400 acres. The seasonal high water table is at a depth of 6 to 18 inches for 1 to 4 months during wet seasons and at 10 to 40 inches for more than 6 months.

Uderants, moderately wet (29) – This map unit consists of heterogeneous soil material that was removed from other soils and used in land-leveling operations as fill material. Uderants do not have an orderly sequence of soil layers. This soil makes up the areas which were excavated and filled during the construction of the city drainage system in the 1970's.

Pits (30) – This map unit consists of excavated areas from which soil and geologic material was removed for use mainly in road construction and as fill material.

Pomona fine sand (40) – This very deep, poorly drained, nearly level soil is in the broad flatwood areas. Individual areas are irregular in shape and range from 80 to 400 acres in size. The seasonal high water table is at a depth of 6 to 18 inches for 1 to 3 months and is at a depth of 10 to 40 inches for more than 6 months in most years.

4.0 WETLANDS AND SURFACE WATERS

4.1 Methods and Jurisdiction

The wetlands on the subject property fall under the regulatory jurisdiction of the Florida Department of Environmental Protection (federal 404), St. Johns River Water Management District (state) and the City of Palm Coast (local). The criteria used to determine the presence of the boundaries of wetlands and surface waters were in accordance with Chapter 62-340 F.A.C. Approximately 23.57 acres of wetlands, 20.18 acres of surface water ponds, and 0.84 acres of surface water ditches are located on the subject property. Please see the attached Wetland Map within Appendix I.

Multiple wetlands onsite could be considered isolated and therefore not jurisdictional to the State 404 Program. Due to the isolated nature of Wetlands 2-4, 8-12, and 14-16, it is not anticipated each will meet the requirements to be considered Waters of the United States (WotUS).

4.2 Wetland Quality, Impacts, and Mitigation

The wetlands onsite are of moderate quality. The City of Palm Coast will require a 25' average/15' minimum upland buffer due to the quality of wetland. The wetland onsite was assessed utilizing the City of Palm Coast Wetland Quality Assessment Methodology (WQAM). Please see Appendix II for the attached WQAM worksheets.

If wetland impacts are proposed the wetland mitigation could be completed through onsite wetland preservation/enhancement or wetland creation, or through the purchase of mitigation credits from the Fish Tail Swamp Wetland Mitigation Bank or the Brick Road Wetland Mitigation Bank. The project and the proposed mitigation are located within the Matanzas River and Pellicer Creek basin (Basin 9). Both mitigation banks listed above have available credits within the basin.

5.0 WILDLIFE OBSERVATIONS

Wildlife observations, both direct and indirect, were made throughout the course of the site investigation. A list of species observed is provided in the following table:

Table 5.1 Wildlife species observed on the Matanzas Woods Golf Course Property in Flagler County, Florida.

Taxon	Common Name	Scientific Name	Protected*
Birds	Black vulture	*Coragyps atratus*	No
	Carolina wren	*Thryothorus ludovicianus*	No
	Common grackle	*Quiscalus quiscula*	No
	Grey catbird	*Dumetella carolinensis*	No
	Northern mockingbird	*Mimus polyglottos*	No
	Great blue heron	*Ardea herodias*	No
	White ibis	*Eudocimus albus*	No
	Wood stork	*Mycteria americana*	Yes
	Tri-colored heron	*Egretta tricolor*	Yes
Mammals			
	Nine-banded armadillo	*Dasypus novemcinctus*	No
	Racoon	*Procyon lotor*	No
	Feral pig	*Sus scrofa*	No
	White-tailed deer	*Odocoileus virginianus*	No

6.0 PROTECTED SPECIES

Prior to visiting the site, a background literature search was conducted to compile a list of state and federally protected animal and plant species that could occur on the subject property. The three primary sources of literature reviewed include the Florida Fish and Wildlife Conservation Commission's (FWC) *Florida's Endangered Species, Threatened Species, And Species of Special Concern*, the United States Fish and Wildlife Service's (FWS) Threatened and Endangered Species System (TESS) database, and the Florida Department of Agriculture and Consumer Services (FDACS), Division of Plant Industry's (DPI) *Notes on Florida's Endangered and Threatened Plants*. During the site reconnaissance, observations or evidence of protected species and the likelihood of occurrence of each protected species were noted. Further review was completed following the habitat mapping and descriptions.

6.1 Protected Wildlife Species

The protected animal species with at least some likelihood of occurrence are listed in Table 6.1.1, below. The likelihood of occurrence of each species is noted in the table and those species with at least a moderate likelihood of occurrence are discussed following the table.

Table 6.1.1: Protected wildlife species with the potential to occur on the Matanzas Woods Golf Course Property in Flagler County, Florida.

Species Name	Common Name	Agency Listing		Likelihood of Occurrence	Habitat
		FWC	FWS/NMFS		
Alligator mississippiensis	American alligator		T(S/A)	Low	Various aquatic habitats
Dendroica kirtlandii	Kirtland's warbler	E	E	Low	Migrant, utilizing various terrestrial and palustrine habitats
Drymarchon corais couperi	Eastern indigo snake	T	T	Mod	Wide variety of habitats
Egretta caerulea	Little blue heron	T		High	Marshes, ponds, lakes, meadows, streams & mangroves
Egretta tricolor	Tri-colored heron	T		High	Marshes, ponds, lakes, meadows, streams & mangroves
Falco sparverius paulus	Southeastern American kestral	T		Mod	Wide variety of open habitats
Gopherus polyphemus	Gopher tortoise	T	CS	Mod	Sandhills, scrub, hammocks, dry prairies, flatwoods, & ruderal
Grus canadensis pratensis	Florida sandhill crane	T		Mod	Shallow wetlands, freshwater marshes and wet prairies
Haliaeetus	Southern bald		BGEPA	Mod	Coasts, rivers and large

leucocephalus	eagle				lakes in open areas
Mycteria americana	Wood stork	E	E	Obs	Marshes, swamps, streams and mangroves
Ursus americanus floridanus	Florida black bear			Mod	Variety of forested landscapes

Those species listed as having a moderate likelihood of occurrence or higher in Table 6.1 are listed as such due to presence of suitable habitat.

Long-legged waders have a high likelihood of occurrence onsite due to the marsh and surface water ponds found on the subject property. This includes the little blue heron (*Egretta caerulea*), snowy egret (*Egretta thula*), tricolored heron (*Egretta tricolor*), and white ibis (*Eudocimus albus*). It is anticipated these species utilize the wetlands onsite for foraging and roosting. No wading bird rookeries are known or were identified on or near the subject property. Any modifications to the existing surface water ponds would include creation of stormwater ponds. Therefore, this project is not likely to adversely affect any wading bird populations.

While no wood storks (*Mycteria americana*) were observed on the subject property, wood storks have been observed routinely throughout the area. No nesting rookeries were observed. The project site is not located within a Core Foraging Area (CFA) for wood storks. Therefore, this project is not likely to adversely affect the wood stork population.

Florida sandhill cranes (*Grus canadensis pratensis*) are routinely observed in the area. No sandhill cranes were observed on the subject property during the onsite surveys. The marsh wetland and littoral zones of the surface water ponds onsite are considered potential for nesting. No nests or signs of nesting activity were identified. Prior to construction of the site a Florida sandhill crane nest survey should be completed to determine if any nesting pairs are utilizing the site.

The FWC's Eagle Nest Locator website was queried for data regarding documented southern bald eagle (*Haliaeetus l. leucocephalus*) nests in the project vicinity. The southern bald eagle is protected under the Bald and Golden Eagle Protection Act (BGEPA). Development guidelines are required for any proposed projects with 330 feet for urban areas and 660 feet for non-urban areas. No active bald eagle nests are located within 2 miles of the project area. No bald eagle nests were observed on the subject property or adjacent to its boundaries. Therefore, this project is not likely to adversely affect the southern bald eagle.

The southeastern American kestrel (Falco sparverius paulus) is listed as a Species of Special Concern by the FWC. The subject property provides habitat which could be conducive to utilization and nesting by the southeastern American kestrel. It is recommended that southeastern American kestrel surveys be completed prior to

development of the site. The surveys should be conducted in accordance with guidelines set forth within the publication *Ecology and Habitat Protection Needs of the southeastern American kestrel* (Falco sparverius paulus) *on large-scale development sites in Florida*.

A preliminary gopher tortoise (*Gopherus polyphemus*) burrow survey was conducted on the subject property. The gopher tortoise survey was conducted in accordance with the techniques outlined in the publication*, Ecology and Habitat Protection Needs of Gopher Tortoise (*Gopherus polyphemus*) Populations Found on Lands Slated for Development in Florida*. The gopher tortoise, listed as Threatened by the FWC, is a key component in the determination of habitat suitability for other protected species because of the large number of other animals that will use tortoise burrows for one or more of their life requisites. No potentially occupied gopher tortoise burrows were identified. Prior to construction an updated 100% gopher tortoise survey should be completed.

The eastern indigo snake (*Drymarchon corais couperi*), has a moderate likelihood to occur on the subject property due to the habitats identified. The species is a gopher tortoise commensal species due to its association and utilization of gopher tortoise burrows for their life requisites. Prior to construction a 100% gopher tortoise survey will be completed.

The American alligator (Alligator mississippiensis) is listed as Threatened by the FWS. Best Management Practices (BMP's) should be followed in the case of any individual American alligator entering the project area during construction will be provided ample space to allow the animal to exit the construction zone. Through this management technique, the project is not likely to adversely affect the American alligator.

Florida black bear (Ursus americanus floridanus) have been observed in the vicinity of the subject property along US Highway 1. No signs of Florida black bears were identified on the subject property. Any proposed project for development should adhere to the Florida Bear Smart Communities program. If the development criteria are adhered to then the project is not anticipated to adversely affect the Florida black bear.

No other protected species are anticipated to utilize the subject property.

6.2 Protected Plant Species

The protected plant species with some potential to occur on the subject property are listed in Table 6.2.1, below.

Table 6.2.1: Protected plant species with the potential to occur on the Matanzas Woods Golf Course property, in Palm Coast, Flagler County, Florida.

Species Name	Common Name	Agency Listing		Likelihood of Occurrence	Habitat
		FDACS	FWS		
Asclepias viridula	Southern milkweed	T		Low	Pine flatwoods at wetland margins

Calopogon barbatus	Bearded grass pink	T	Low	Wet pine flatwoods, bogs
Calopogon multiflorus	Many-flowered grass pink	E	Low	Pine flatwoods, esp. recently burned
Encyclia tampensis	Butterfly orchid	CE	Low	Mangrove, cypress and hardwood swamps; hammocks
Epidendrum conopseum	Greenfly orchid	CE	Low	Moist hammocks, cypress and hardwood swamps; epiphytic
Helianthus carnosus	Lakeside sunflower	E	Low	Wet flatwoods
Lilium catesbaei	Catesby's lily	T	Low	Moist pine flatwoods and savannahs
Lycopodiella cernua	Nodding clubmoss	CE	Low	Wet pinelands
Nemastylis floridana	Fall-flowering ixia; celestial lily	E	Low	Swamps, marshes and wet pine flatwoods
Osmunda cinnamomea	Cinnamon fern	CE	Obs	Wet woods and swamps
Osmunda regalis	Royal fern	CE	Obs	Wet woods and swamps
Platanthera blephariglottis	Large white fringed orchid	T	Low	Marshes, and wet, open, grassy areas
Platanthera flava	Southern tubercled orchid;gypsy-spikes	T	Low	Cypress and hardwood swamps
Platanthera nivea	Snowy orchid; bog torch	T	Low	Wet pine flatwoods
Pogonia ophioglossoides	Rose pogonia	T	Low	Marshes and wet, pine flatwoods
Sarracenia minor	Hooded pitcherplant	T	Low	Wet, open, acid pinelands and bogs
Spiranthes brevilabris var. floridana	Florida ladies' tresses	E	Low	Pine flatwoods
Spiranthes laciniata	Lace-lip ladies' tresses	T	Low	Marshes and cypress swamps
Spiranthes longilabris	Long-lip ladies' tresses	T	Low	Marshes and wet pine flatwoods
Spiranthes tuberosa	Little ladies' tresses; little pearl twist	T	Low	Pine flatwoods
Zephyranthes atamasca	Rain lily	T	Low	Wet pine flatwoods and meadows
Zephyranthes simpsonii	Simpson's zephyr lily	T	Low	Wet pine flatwoods and meadows

E= Endangered; T= Threatened; CE= Commercially Exploited

No federally protected plant species are expected to occur on the subject property.

7.0 CULTURAL RESOURCES

A preliminary review of the Florida Master Site File (FMSF) was completed through the Division of Historical Resources (DHR) and the State Historic Preservation Officer (SHPO) for the subject property. One known archaeological resource and one resource group were adjacent to the subject property. US Highway 1 (FL00291) is listed as a linear resource by DHR. No significant impacts to US Highway 1 are anticipated. Davis' Store (FL00248) is listed as an archaeological resource. This resource was identified as part of the Palm Coast Park DRI. The resource is no longer in existence and is not eligible for further evaluation. Please see Appendix III for correspondence from the Florida Master Site File. The project is not anticipated to affect any cultural resources.

8.0 SUMMARY

The Matanzas Woods Golf Course property is located within the City of Palm Coast, Flagler County, Florida. The subject property consists disturbed upland, wetland, and surface water habitats. The property is approximately 275.96 acres in total size.

Multiple wetlands totalling approximately 1.86 acres and surface waters totaling approximately 23.57 acres were delineated on the subject property. In addition to the wetlands, approximately 20.18 acres of surface water ponds, and 0.84 acres of surface water ditches are located on the subject property. The wetlands on the subject property are all considered moderate quality and would therefore require a 25' average/15' minimum upland buffer by the City of Palm Coast. If wetland impacts are proposed the wetland mitigation could be completed through onsite wetland preservation/enhancement or wetland creation, or through the purchase of mitigation credits from the Fish Tail Swamp Wetland Mitigation Bank or the Brick Road Wetland Mitigation Bank.

The subject property provides potential habitat for a multitude of protected wildlife species. Further specific species surveys are recommended prior to construction of the project. Specific surveys for the gopher tortoise, Florida sandhill crane, and southeastern American kestrel should be completed.

No federally protected flora species are anticipated on the subject property.

No known cultural resources are anticipated on or adjacent to the subject property. Therefore, no impacts to cultural resources is anticipated due to development of the property.

HABITAT ASSESSMENTS

PART I – Qualitative Description
Wetland Quality Assessment Method

Site/Project Name	Application Number	Assessment Area Name or Number
Matanzas Woods Golf Course		

FLUCCs code	Further classification (optional)	Impact or Mitigation Site?	Assessment Area Size
617,630, 641			26.20 acre

Basin/Watershed Name/Number	Affected Waterbody (Class)	Special Classification (i.e.OFW, AP, other local/state/federal designation of importance)
9 - Matanzas & Pellicer Creek		

Geographic relationship to and hydrologic connection with wetlands, other surface water, uplands

The site is bound by development and roads

Assessment area description

The wetlands onsite have been impacted by the past pine silviculture, surrounding develpment, and fire suppression.

Significant nearby features	Uniqueness (considering the relative rarity in relation to the regional landscape.)
Roads and homes around the property	N/A

Functions	Mitigation for previous permit/other historic use
Provides cover, roosting, substrate, and/or refuge; food chain support; water quality improvements, flood water storage/attenuation.	N/A

Anticipated Wildlife Utilization Based on Literature Review (List of species that are representative of the assessment area and reasonably expected to be found)	Anticipated Utilization by Listed Species (List species, their legal classification (E, T, SSC), type of use, and intensity of use of the assessment area)
Whitetail deer, bobcat, cottonmouth, Eastern diamondback rattlesnake, pigmy rattlesnake, wading birds, redshouldered hawk, vultures, various passerine birds,	Wading Birds - feeding & roosting ;

Observed Evidence of Wildlife Utilization (List species directly observed, or other signs such as tracks, droppings, casings, nests, etc.):

Additional relevant factors:

Assessment conducted by:	Assessment date(s):

CULTURAL RESOURCE ASSESSMENT

This record search is for informational purposes only and does NOT constitute a project review. This search only identifies resources recorded at the Florida Master Site File and does NOT provide project approval from the Division of Historical Resources. Contact the Compliance and Review Section of the Division of Historical Resources at 850-245-6333 for project review information.

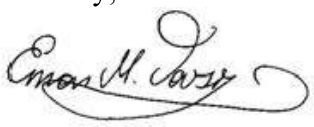
jody@atlanticeco.com

Parcel ID 07-11-31-7037-ORPOA-0002

In response to your inquiry of March 27, 2019, the Florida Master Site File lists one archeological resource and one resource group recorded at the designated area in Flagler County, Florida



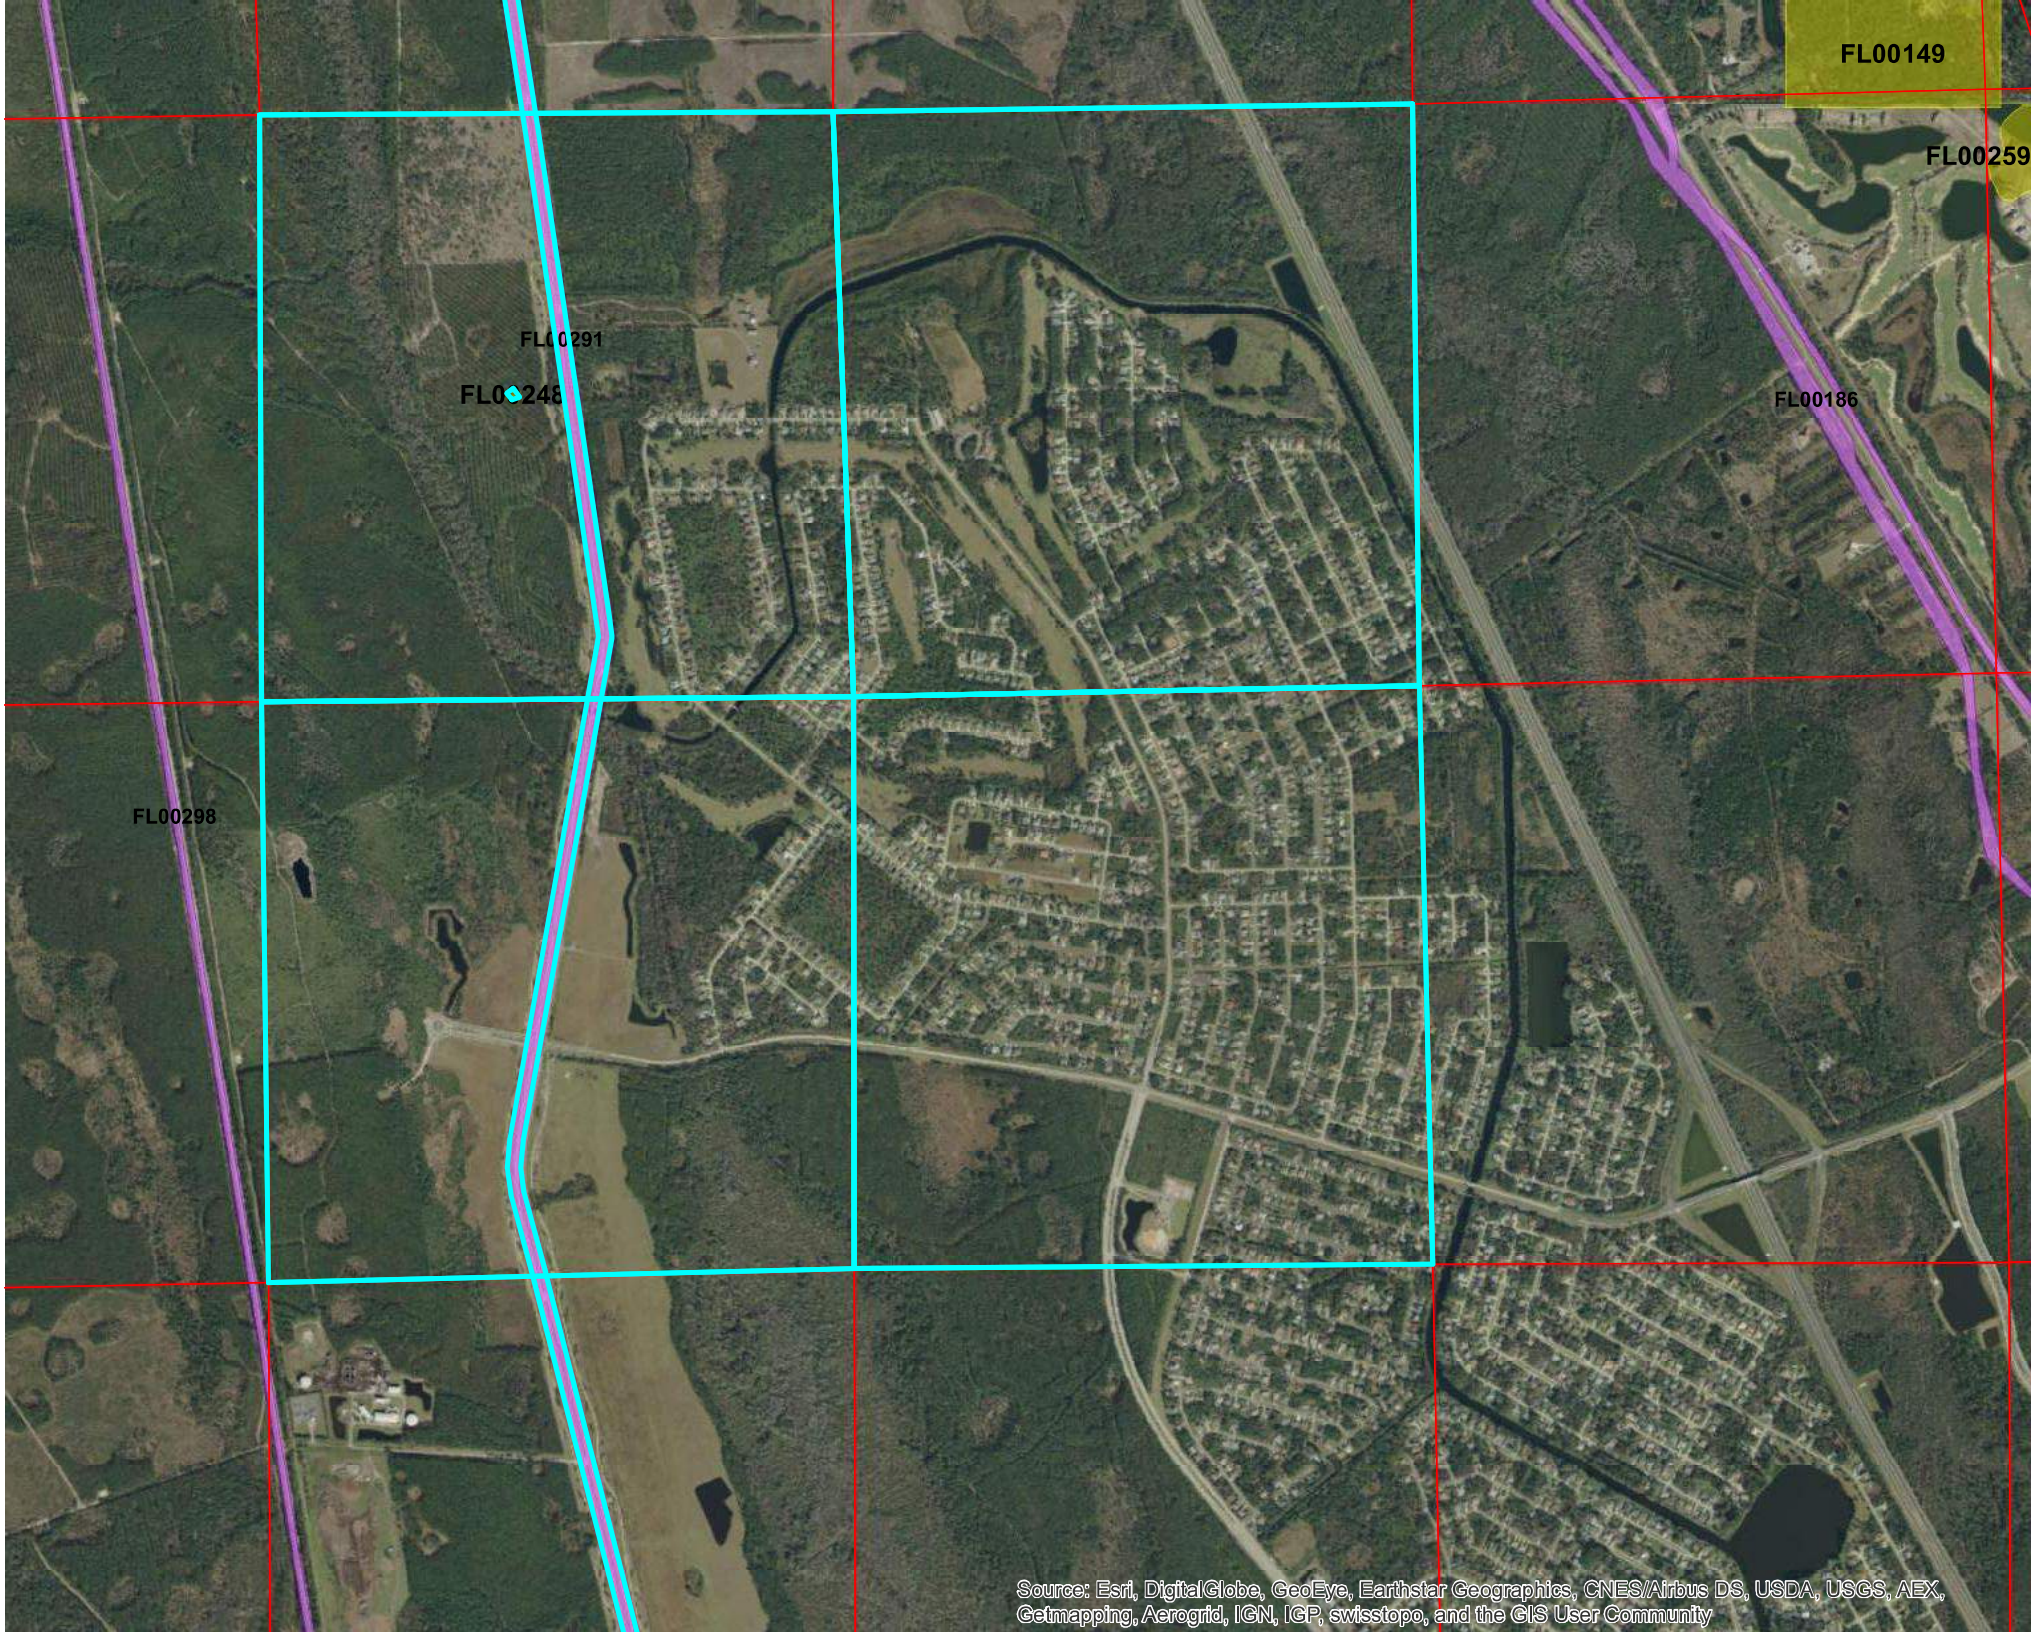
Sections 21, 22, 27, and 28, Township 10 S, Range 30 E

When interpreting the results of our search, please consider the following information:

- **This search area may contain *unrecorded* archaeological sites, historical structures or other resources even if previously surveyed for cultural resources.**
- **Because vandalism and looting are common at Florida sites, we ask that you limit the distribution of location information on archaeological sites.**
- **While many of our records document historically significant resources, the documentation of a resource at the Florida Master Site File does not necessarily mean the resource is historically significant.**
- **Federal, state and local laws require formal environmental review for most projects. This search DOES NOT constitute such a review. If your project falls under these laws, you should contact the Compliance and Review Section of the Division of Historical Resources at 850-245-6333.**

Please do not hesitate to contact us if you have any questions regarding the results of this search.

Sincerely,



Eman M. Vovsi, Ph.D.

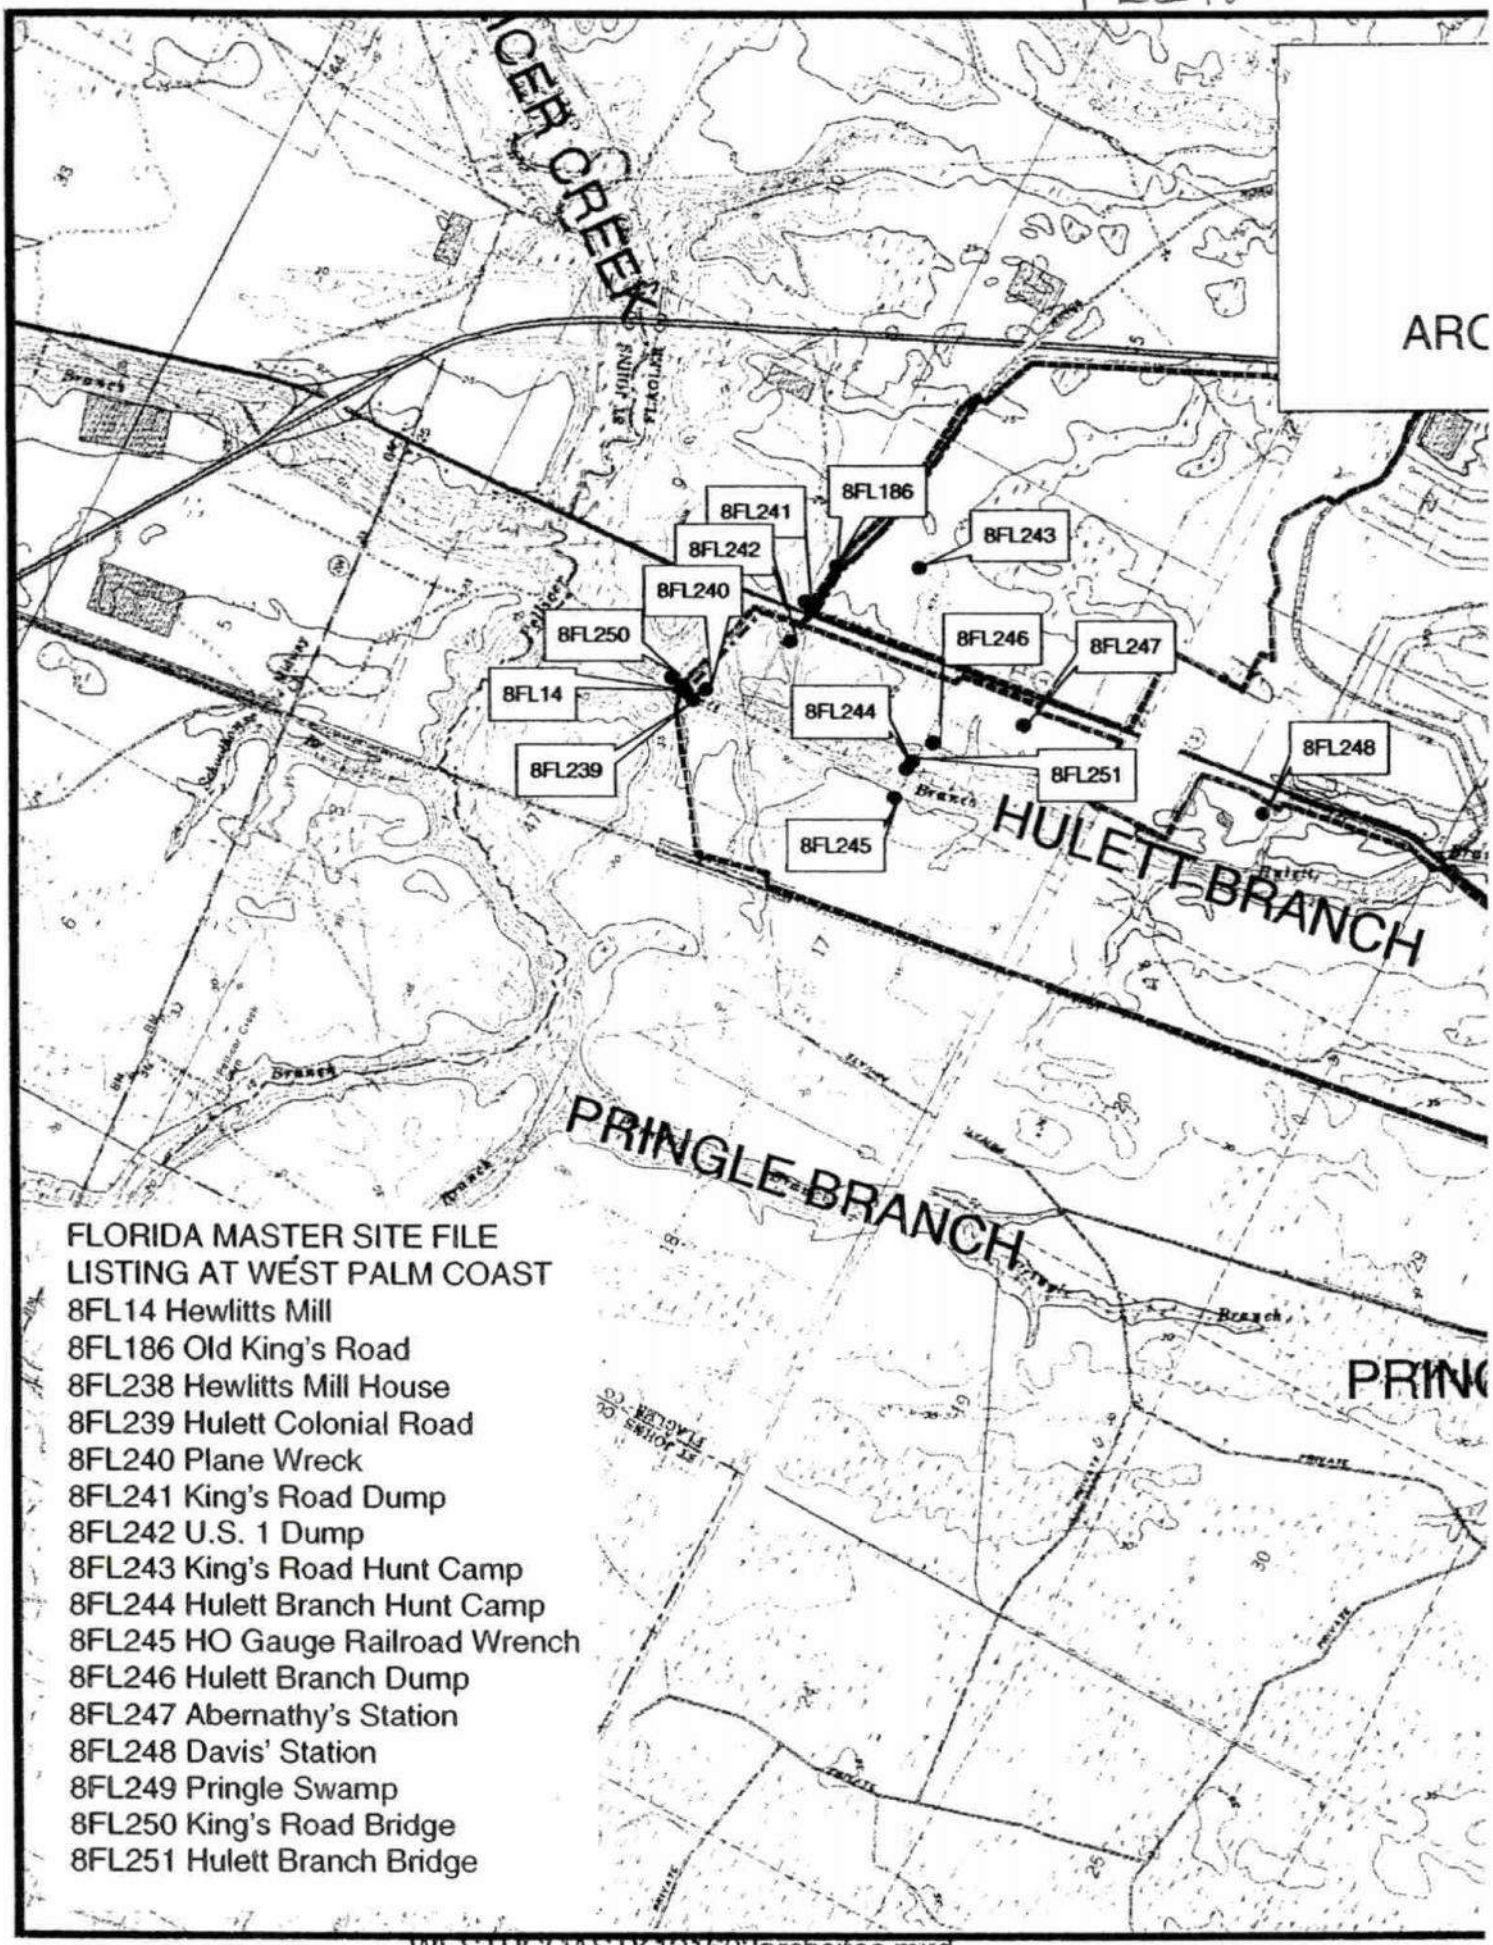
SITE PLAN & USGS REQUIRED At 1"=300' (1:3600) or larger scale, show: site boundaries, scale, north arrow, datum, test/collection units, landmarks, mappers, date.

Hulett Branch Dump – 8FL246

This small, spatially isolated refuse dump site was discovered during a surface inspection of a sandy fire lane in western regions of the West Palm Coast properties (see Figure 5). It is located in the northwest quarter of the southwest quarter of Section 16, Township 10 South, Range 30 East. The site was evidenced by a scatter of characteristic late 19th century bottle fragments and a few metal pieces. The refuse pit has been thoroughly displaced by the fire land cut. Efforts to locate associated features or a possibly related homestead site through subsurface testing were unsuccessful. It is surmised that the site is completed destroyed. Thus, **it is concluded that 8FL246 is not eligible for inclusion on the National Register of Historic Places.**



Abernathy's Station – 8FL247
Davis' Station – 8FL248

Interviews with two local residents provided information regarding two historic sites that were located on Parcel A of West Palm Coast properties. The locations of two filling stations/general stores were identified by Dupont (2003) for the west side of U.S. 1 (the northeast quarter of the southwest quarter of Section 16, Township 10 South, Range 30 East for Abernathy's Station and the center of Section 21, Township 10 South, Range 30 East for Davis' Station. Both Abernathy's and Davis' Stations were once essential businesses to service vehicular traffic prior to the construction of I-95. Dupont stated the Ralph Abernathy filling station was opened sometime in the 1930s. He thought the Davis filling station was later, in the early 1950s. The sites of these two businesses were identified by the field reconnaissance crew at the specific areas pinpointed by Dupont on topographic and aerial maps. Field inspections reveal the remnants of structures demolished in the past decade. Structural and archaeological integrity of both sites have been greatly compromised due to the destruction of the stations, thus **it is concluded that 8FL247 and 8FL248 are not eligible for inclusion on the National Register of Historic Places.**

Pringle Swamp – 8FL249

Only one prehistoric archaeological site (8FL249), a small ceramic scatter, was discovered during the subject survey. The site is located in the northwest quarter of the northwest quarter of Section 10, Township 11 South, Range 30 East (see Figure 5). The site was evidenced by two pottery sherds: a St. Johns Plain fragment and a St. Johns Check-Stamped fragment. Based on site density and diagnostic artifacts, it is surmised that the ceramics represent an isolated prehistoric hinterland activity, possible hunting, during the late St. Johns cultural periods (ca. post A.D. 800).

07-11-31-7037-0RP0A-0011
07-11-31-7037-0RP0A-0140

To Whom It May Concern:

Matanzas GC Palm Coast, LLC, a Florida limited liability company is the owner of approximately 182 acres located in the L Section of Palm Coast (formerly known as the Matanzas Golf Course) and as further demonstrated on the attached map identified on **Exhibit "A".**

Currently, the owner has an application into the City of Palm Coast for the First Amendment to the Master Planned Development Agreement. The intent of the application to amend is to allow for development on Tract 3 and amend the allowed uses on Tract 8 along U.S. Highway 1. This Amendment will also incorporate the dedication by the developer to the City of a park. This request is consistent with the City's comprehensive plan and land development regulations.

As required by City Code, we will be having a neighborhood meeting on **Tuesday, April 14, 2026 at 6:00 p.m. at the Cafeteria (Room 511 & 512) of Indian Trails Middle School, 5505 Belle Terre Parkway, Palm Coast, Florida 32137** (see attached **Exhibit "B"** with directions on how to enter the school) to answer any of your questions. It is open to the public.

Sincerely yours,

Michael D. Chiumento III

07-11-31-7037-0RP0A-0140

Dear Sir or Madam:

On Tuesday, April 14, 2026 the Applicant, Matanzas GC Palm Coast, LLC conducted a neighborhood information meeting held at the Cafeteria (Room 511 & 512) of Indian Trails Middle School, 5505 Belle Terre Parkway, Palm Coast, Florida 32137. As noted by the attached sign-in sheet, more than fifty (50) people from the public attended. Present at the meeting were myself, applicant representative and City Planner.

During the neighborhood meeting, the attendees asked several questions regarding the aforementioned application. Below is a reproduction of those questions/concerns and the Applicant's response in *italics* directly beneath the question.

- **Will this project increase density beyond what is currently allowed or expected?**

The rezoning request is being evaluated in accordance with the City's Comprehensive Plan and Land Development Code. Any proposed density will remain within the parameters established or approved through the rezoning process and will not exceed what is ultimately authorized by the City.

- **How will existing viewshed protections be preserved or modified?**

Site design will take into account applicable buffering, setbacks, and landscaping requirements to help preserve visual character. Any modifications to existing viewshed conditions would be subject

to City review and compliance with adopted standards.

- **Are any structures or improvements planned directly adjacent to or behind my property?**

Specific site layout details are still being refined. Future development plans will comply with all required setbacks, buffering, and compatibility standards to ensure appropriate transitions between uses.

- **Which parcels or tracts are proposed for development, and what are their current designations?**

The rezoning application identifies the subject parcels under consideration. All current and proposed land use and zoning designations are documented in the application materials submitted to the City for review.

- **Will you commit to continued investigation and remediation of any arsenic or environmental contamination issues?**

Any environmental concerns will be addressed in accordance with applicable state and federal regulations. Appropriate assessments and, if necessary, remediation efforts will be conducted to ensure the property meets required safety standards.

- **Do you intend to convey any remaining portions of the property to the City of Palm Coast?**

There are no commitments at this time regarding conveyance of additional property. Any such action would be coordinated with the appropriate governing agencies if it becomes relevant.

- **Will any undeveloped portions of the property be placed into a permanent conservation easement?**

The potential for conservation areas or easements will be evaluated as part of the overall development planning process and in coordination with City requirements and environmental considerations.

- **How will utilities (water, sewer, stormwater, electric) be extended and managed for this development?**

Utility infrastructure will be designed and constructed in coordination with the City and relevant service providers. All systems will meet applicable capacity, design, and regulatory requirements.

- **What analysis has been performed regarding potential impacts on surrounding property values?**

Property value impacts are influenced by a variety of market factors. The project will be designed to meet City standards and compatibility requirements, which are intended to support orderly and beneficial development.

- **Do you dispute or acknowledge concerns that the project may negatively affect nearby property values?**

We understand that property value concerns are important to residents. While outcomes can vary, the project will adhere to City regulations and design standards intended to promote compatibility and protect community character.

- **Will there be new or modified access points to U.S. Highway 1, and how will traffic be managed?**

Access and traffic circulation will be evaluated through required traffic studies and coordinated with the appropriate transportation agencies. Any improvements or modifications will be subject to agency approval.

- **What measures will be implemented to address flooding or stormwater impacts in the area?**

Stormwater management systems will be designed in accordance with local and state regulations

to ensure proper drainage, retention, and water quality treatment, minimizing impacts to surrounding properties.

- **How will local wildlife and habitat displacement be addressed?**

Environmental features and habitat considerations will be evaluated during the planning process. Development will comply with applicable environmental regulations and incorporate mitigation measures where required.

- **What provisions are being made for school transportation and student safety?**

The project will coordinate with the local school district regarding transportation needs. Roadway and pedestrian infrastructure will be designed to meet safety standards applicable to school access.

- **How will anticipated population increases affect school capacity and overcrowding?**

School capacity is managed by the local school district. Any impacts will be addressed through the district's planning processes, and applicable impact fees or requirements will be met.

- **What impact will this project have on local taxes or assessments?**

The project is expected to contribute to the local tax base. Any applicable impact fees or assessments will be paid in accordance with City and County requirements.

- **What is the timeline for development of any proposed park or recreational facilities?**

If recreational amenities are included, their timing will be aligned with the overall development phasing plan and subject to City review and approval.

- **Who will be responsible for funding, constructing, and maintaining the park?**

Responsibility for funding, construction, and maintenance will be determined as part of the development approvals and may involve the developer, a homeowners' association, or other entities as approved by the City.

Sincerely,

Michael D. Chiumento III
Attorney

ORDINANCE NO. 2021-01
LAKEVIEW ESTATES MPD
DEVELOPMENT AGREEMENT
APPLICATION #4150

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF PALM COAST, FLORIDA, PROVIDING FOR AN AMENDMENT TO THE OFFICIAL ZONING MAP AS ESTABLISHED IN SECTION 2.06 OF THE CITY OF PALM COAST UNIFIED LAND DEVELOPMENT CODE; AMENDING THE OFFICIAL ZONING MAP FOR 280.6 +/- ACRES OF CERTAIN REAL PROPERTY PREVIOUSLY KNOWN AS THE MATANZAS GOLF COURSE AND GENERALLY LOCATED BETWEEN 0.5 TO 1.25 MILES NORTH OF MATANZAS WOODS PARKWAY, WEST OF I-95, AND EAST OF US HIGHWAY 1, AND MORE PARTICULARLY DESCRIBED IN THE ATTACHED EXHIBIT "A" FROM MASTER PLANNED DEVELOPMENT WITHOUT A DEVELOPMENT AGREEMENT TO LAKEVIEW ESTATES MASTER PLANNED DEVELOPMENT (MPD) WITH A DEVELOPMENT AGREEMENT AS PER SECTION 2.09 OF THE CITY OF PALM COAST UNIFIED LAND DEVELOPMENT CODE; BY ALLOWING INSTITUTIONAL USES ALONG US HIGHWAY 1; CLUSTERED RESIDENTIAL USES AT AN OVERALL DENSITY OF UP TO ONE DWELLING UNIT PER ACRE WITH TOWNHOMES IN THE AREA LOCATED SOUTH OF LONDON DRIVE AND WEST OF LONDONDERRY DRIVE AND SINGLE-FAMILY HOMES OVER THE REMAINDER OF THE RESIDENTIALLY USED PROPERTY; AND ESTABLISHING VIEW PROTECTION ZONES AND WETLAND CONSERVATION AREAS; PROVIDING FOR SEVERABILITY; PROVIDING FOR CONFLICTS; AND PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, the Subject Property on the City's original zoning map in 1999/2000 had a Flagler County zoning designation of Urban Single-Family Residential (R-1B); and

WHEREAS, the Golf Course Community (GCC) Zoning District was created when the initial chapters of the Unified Land Development Code were adopted by Palm Coast through Ordinance 2005-33; and

WHEREAS, the Golf Course Community Zoning District was converted to the Master Planned Development (MPD) Zoning District by Palm Coast through Ordinance 2008-23; and

WHEREAS, the Subject Property ceased to operate as a golf course in or around 2007, and since that time, has not been used for any purpose other than vacant land; and

WHEREAS, the Subject Property has Future Land Use Map (FLUM) designations of Greenbelt and Conservation.

WHEREAS, Matanzas GC Palm Coast, LLC ("Owner") is the Owner of the 280.6 +/- acres of property further described in "Attachment A"("Subject Property") and has agreed to enter into the Lakeview Estates Master Plan Development Agreement, attached hereto as "Attachment B" ("Development Agreement"); and

WHEREAS, the Owner has requested to amend the Master Planned Development Zoning District by adding a Development Agreement in order to allow for 8.3 +/- acres of institutional uses along US Highway 1 and clustered homes at a density of up to one unit per acre on the balance of the land designated Greenbelt on the Future Land Use Map; and

WHEREAS, the Planning and Land Development Regulation Board ("PLDRB") and City Staff of the City of Palm Coast have recommended approval of this Ordinance and the Development Agreement, as modified by the PLDRB, and the PLDRB has found the requested changes and Development Agreement consistent with the City of Palm Coast Comprehensive Plan; and

WHEREAS, the City Council has considered the evidence and testimony presented by the applicant and other interested parties, the recommendations of City staff, and the recommendation of the Planning and Land Development Regulation; and

WHEREAS, the City Council of the City of Palm Coast, as the governing body of the City, pursuant to the authority vested in Chapter 163, Florida Statutes and the City of Palm Coast Unified Land Development Code, is authorized and empowered to consider applications relating to zoning; and

WHEREAS, the notice and public hearing requirements, as provided for in Chapter 2 (Review Authority, Enforcement, and Procedures) of the City of Palm Coast Unified Land Development Code (Ordinance No. 2008-23) have been satisfied; and

WHEREAS, the City Council of the City of Palm Coast held duly noticed public hearings on the proposed amendment and Development Agreement set forth herein and considered findings and advice of staff, citizens, and all interested parties submitting written and oral comments and supporting data and analysis, and has considered the evidence and testimony presented by the applicant and other interested parties, the recommendations of the various City reviewing departments, and the recommendation of the Planning and Land Development Regulation Board (PLDRB) which voted to recommend approval at its regularly scheduled meeting conducted on November 18, 2020, and after complete deliberation, the City Council hereby finds the requested change consistent with the City of Palm Coast Comprehensive Plan, and that sufficient, competent and substantial evidence supports the proposed rezoning as set forth hereunder; and

WHEREAS, the Owner has fully complied with the requirements of City of Palm Coast Unified Land Development Code and the MPD Zoning District by agreeing to the MPD Development Agreement to permit the approved changes; and

WHEREAS, the City Council of the City of Palm Coast hereby finds that this Ordinance serves a legitimate government purpose and is in the best interests of the public health, safety, and welfare of the citizens of Palm Coast, Florida.

NOW, THEREFORE, IT IS HEREBY ORDAINED BY THE CITY OF PALM COAST, FLORIDA:

SECTION 1. Legislative and Administrative Findings. The above recitals (whereas clauses) are hereby adopted as the legislative and administrative findings of the City Council.

SECTION 2. MPD Rezoning. The Palm Coast City Council, pursuant to the Land Development Code of the City of Palm Coast hereby rezones the Subject Property from Master Planned Development without a Development Agreement to Lakeview Estates Master Planned Development Agreement ("MPD") and enacts this Ordinance creating the Lakeview Estates MPD Development Agreement, attached hereto as "Attachment B," for the property generally located between 0.5 and 1.25 miles north of Matanzas Woods Parkway, west of Interstate 95 and east of US Highway 1, legally described in "Attachment A" attached hereto.

SECTION 3. Severability. It is hereby declared to be the intention of the City Council that the sections, paragraphs, sentences, clauses and phrases of this Code are severable, and if any phrase, clause, sentence, paragraph or section of this Code shall be declared unconstitutional by the valid judgment or decree of a court of competent jurisdiction, such unconstitutionality shall not affect any of the remaining phrases, clauses, sentences, paragraphs and sections of this Code.

SECTION 4. Conflicts. All Ordinances or parts of Ordinances in conflict with this Ordinance are hereby repealed.

SECTION 5. Effective Date. This Ordinance shall become effective immediately upon its passage and adoption.

Approved on first reading this 5th day of January 2021.

Adopted on second reading after due public notice and hearing City of Palm Coast this 19th day of January 2021.

MATANZAS WOODS GOLF COURSE:

Reserved Parcel "A", Lakeview - Section 37 Palm Coast Park at Palm Coast, as recorded in Map Book 13, pages 1 through 29, Public Records of Flagler County, Florida, being more particularly described as follows:
From a POINT OF BEGINNING, being the northeast corner of Block 165 of said Plat of Lakeview; thence North 89°30'56" East 21.68 feet to a point on a curve; thence southerly along a curve to the left having an arc length of 349.56 feet, a radius of 800.00 feet, a central angle of 25°02'07" and a chord bearing South 26°22'21" East, 346.78 feet to a point of tangency; thence South 38°53'25" East 2087.61 feet to a point of curvature; thence southerly along a curve to the right having an arc length of 266.63 feet, a radius of 1120.00 feet, a central angle of 13°38'23" and a chord bearing South 32°04'13" East, 265.99 feet to a point of tangency; thence South 25°15'02" East 772.55 feet to a point of cusp; thence northwesterly along a curve to the left having an arc length of 213.75 feet, a radius of 150.00 feet, a central angle of 81°38'47" and a chord bearing North 66°04'26" West 196.12 feet to a point; thence South 16°53'50" East 110.00 feet to a point on a curve; thence westerly along a curve to the left having an arc length of 11.66 feet, a radius of 40.00 feet, a central angle of 16°42'25" and a chord bearing South 64°44'57" West 11.62 feet to a point; thence North 33°36'15" West 110.00 feet to a point on a curve; thence southerly along a curve to the left having an arc length of 213.75 feet, a radius of 150.00 feet, a central angle of 81°38'47" and a chord bearing South 15°34'21" West 196.12 feet to a point of tangency; thence South 25°15'02" East 100.25 feet to a point on a curve; thence southwesterly along a curve to the left having an arc length of 217.30 feet, a radius of 280.98 feet, a central angle of 44°18'38" and a chord bearing South 42°35'39" West 211.92 feet to a point of tangency; thence South 08°35'49" West 179.39 feet; thence North 81°24'11" West 913.66 feet; thence South 08°35'49" West 125.00 feet; thence North 81°24'11" West 40.00 feet; thence North 08°35'49" East 125.00 feet; thence North 81°24'11" West 125.00 feet to a point of curvature; thence westerly along a curve to the left having an arc length of 180.00 feet, a radius of 225.00 feet, a central angle of 45°50'12" and a chord bearing South 75°40'43" West,175.24 feet to a point; thence South 37°14'23" East, 125.00 feet to a point on a curve; thence southerly along a curve to the left having an arc length of 77.08 feet, a radius of 100.00 feet, a central angle of 44°09'48" and a chord bearing South 30°40'43" West 75.19 feet to a point of tangency; thence South 08°35'49" West, 237.34 feet; thence North 81°24'11" West 87.50 feet; thence North 51°24'11" West 130.00 feet to a point of curvature; thence westerly along a curve to the left having an arc length of 213.75 feet, a radius of 150.00 feet, a central angle of 81°38'47" and a chord bearing South 87°46'25" West,196.12 feet to a point; thence South 43°02'58" East 110.00 feet to a point on a curve; thence southerly along a curve to the left having an arc length of 11.66 feet, a radius of 40.00 feet, a central angle of 16°42'26" and a chord bearing South 38°35'49" West 11.62 feet to a point; thence North 59°45'24" West 110.00 feet; thence South 38°35"49" West 128.21 feet; thence North 51°24'11" West 1018.03 feet; thence North 38°35'49" East 380.00 feet;

thence South 51°24'11" East 500.00 feet to a point of curvature; thence easterly along a curve to the left having an arc length of 353.43 feet, a radius of 225.00, a central angle of 90°00'00" and a chord bearing North 83°35'49" East, 318.20 feet to a point; thence North 51°24'11" West 125.00 feet; thence North 38°35"49" East 230.92 feet; thence South 51°24'11" East 100.00 feet; thence South 81°24'11" East 993.30 feet to a point of curvature; thence northeasterly along a curve to the left having an arc length of 431.48 feet, a radius of 225.00 feet, a central angle of 109°52'35" and a chord bearing North 43°39'32" East, 368.34 feet to a point of tangency; thence North 11°16'46" West 478.51 feet to a point of curvature; thence northwesterly along a curve to the left having an arc length of 245.29 feet, a radius of 225.00 feet, a central angle of 62°27'41" and a chord bearing North 42°30'36" West, 233.32 feet to a point; thence North 08°35'49" East 77.01 feet to a point of curvature; thence northwesterly along a curve to the left having an arc length of 353.43 feet, a radius of 225.00 feet, a central angle of 90°00'00" and a chord bearing North 36°24'11" West 318.20 feet to a point; thence westerly along a curve to the left having an arc length of 446.47 feet, a radius of 150.00 feet, a central angle of 170°32'16" and a chord bearing North 76°40'19" West 298.98 feet to a point of tangency; thence South 08°35'49" West 149.66 feet; thence North 81°24'11" West 50.00 feet; thence North 08°35'49" East 125.00 feet; thence North 78°43'26" West 153.29 feet; thence North 09°33'43" West 148.11 feet; thence South 69°50'14" East 67.79 feet to a point of curvature; thence easterly along a curve to the left having an arc length of 146.25 feet, a radius of 150.00 feet, a central angle of 55°51'48" and a chord bearing North 87°23'42" East,140.53 feet to a point; thence North 30°32'12" West 110.00 feet to a point on a curve; thence northeasterly along a curve to the left having an arc length of 11.66 feet, a radius of 40.00 feet, a central angle of 16°42'25" and a chord bearing North 51°06'35" East 11.62 feet to a point; thence South 47°14'37" East 110.00 feet to a point on a curve; thence northerly along a curve to the left having an arc length of 213.75 feet, a radius of 150.00 feet, a central angle of 81°38'48" and a chord bearing North 01°55'59" East 196.12 feet to a point of tangency; thence North 38°53'25" West 326.21 feet; thence North 80°07'23" West 122.65 feet; thence North 09°33'42" West 80.00 feet to a point of curvature; thence northerly along a curve to the left having an arc length of 166.36 feet, a radius of 325.00 feet, a central angle of 29°19'42" and a chord bearing North 24°13'34" West,164.55 feet to a point of tangency; thence North 38°53'25" West 200.00 feet; thence South 51°06'35" West 125.00 feet; thence North 38°53'25" West 20.00 feet; thence North 51°06'35" East 125.00 feet; thence North 38°53'25" West 178.81 feet to a point of curvature; thence northwesterly along a curve to the left having an arc length of 292.66 feet, a radius of 325.00 feet, a central angle of 51°35'39" and a chord bearing North 64°41'14" West, 282.87 feet to a point of tangency; thence South 89°30'56" West 678.94 feet to a point of curvature; thence southwesterly along a curve to the left having an arc length of 389.08 feet, a radius of 225.00 feet, a central angle of 99°04'39" and a chord bearing South 39°58'37" West, 342.38 feet to a point of cusp; thence North 09°33'43" West 137.22 feet; thence North 00°29'04" West 425.00 feet; thence North 89°30'56" East 1200.00 feet; thence North 00°29'04" West 125.00 feet to the POINT OF BEGINNING.

ALSO INCLUDING:

Reserved Parcel "C", Lakeview - Section 37 Palm Coast Park at Palm Coast, as recorded in Map Book 13, pages 1 through 29, Public Records of Flagler County, Florida, being more particularly described as follows:
From a POINT OF BEGINNING, being the northwest corner of said Reserved Parcel "C"; thence North 89°26'28" East 630.08 feet; thence South 38°43'02" West 202.91 feet; thence South 51°40'07" East 125.00 feet to a point on a curve; thence southerly along a curve to the left having an arc length of 250.77 feet, a radius of 300.00 feet; a central angle of 47°53'36" and a chord bearing South 14°23'05" West 243.53 feet to a point of tangency; thence South 09°33'43" East 403.87 feet; thence South 80°26'17" West 125.00 feet; thence South 09°33'43" East 520.00 feet, thence North 80°26'17" East 125.00 feet; thence South 09°33'43" East 40.00 feet; thence South 80°26'17" West 125.00 feet; thence South 09°33'43" East 980.61 feet to a point of curvature; thence southerly along a curve to the left having an arc length of 441.04 feet, a radius of 725.00 feet, a central angle of 34°51'17" and a chord bearing South 26°59'21" East, 434.27 feet to a point; thence North 45°35'00" East 55.00 feet; thence South 44°25'00" East 67.22 feet; thence North 39°51'14" East 73.36 feet to a point on a curve; thence southeasterly along a curve to the left having an arc length of 13.16 feet, a radius of 600.00 feet; a central angle of 01°15'25" and a chord bearing South 50°46'29" East 13.16 feet to a point of tangency; thence South 51°24'11" East 170.76 feet; thence South 54°59'31" West 770.58 feet; thence North 35°00'29" West 649.53 feet to a point on the east right of way line of U.S. Highway No.1; thence northerly along said right of way line of the following six courses; run North 09°59'31" East 128.08 feet; thence South 89°43'01" West 5.08 feet; thence North 09°59'31" East 253.32 feet to a point of curvature; thence northerly along a curve to the left having an arc length of 655.06 feet, a radius of 2030.05 feet, a central angle of 18°29'18" and a chord bearing North 00°44'52" East, 652.23 feet to a point of tangency; thence North 08°29'47" West 179.58 feet; thence South 81°30'12" West 20.00 feet; thence North 08°29'47" West 1583.88 feet to the POINT OF BEGINNING.

ALSO INCLUDING:

Reserved Parcel "D" Lake View - Section 37 Palm Coast Park at Palm Coast, as recorded in Map Book 13, pages 1 through 29, Public Records of Flagler County, Florida, being more particularly described as follows:
From a POINT OF BEGINNING, being the most northerly corner of said Reserved Parcel "D"; thence South 38'53'28" East 93.32 feet; thence North 89°30'56" East 936.80 feet; thence South 00°29'04" East 432.94 feet; thence South 09°33'42" East 57.28 feet to a cusp point; thence northwesterly along a curve to the left having an arc length of 317.78 feet, a radius of 225.00 feet; a central angle of 80°55'21" and a chord bearing North 50°01'23" West 292.02 feet to a point of tangency; thence South 89°30'56" West 846.10 feet; thence North 09°33'43" West 149.00 feet to a point of curvature; thence northerly along a curve to the right having an arc length of 254.23 feet, a radius of 240.00 feet, a central angle of 60°41'38" and a chord bearing North 20°47'06" East, 242.51 feet to the POINT OF BEGINNING.

ALSO INCLUDING:

A parcel of land being a portion of Reserved Parcel "E", Lakeview - Section 37 Palm Coast Park at Palm Coast, as recorded in Map Book 13, pages 1 through 29, Public Records of Flagler County, Florida, being more particularly described as follows: From a POINT OF BEGINNING, being the most southerly corner at said Reserved Parcel "E"; thence North 64°44'58" East 526.36 feet; thence North 25°15'02" West 335.20 feet; thence South 64°44'58" West 125.00 feet; thence North 25°15'02" West 620.00 feet to a point of curvature; thence northwesterly along a curve to the right having an arc length of 60.46 feet, a radius of 425.00 feet, a central angle of 08°09'02" and a chord bearing North 21°10'31" West, 60.41 feet to the southeasterly corner of a parcel described in Official Records Book 492, pages 936-939; thence northerly along the boundary of said parcel described in Official Records Book 492, pages 936-939 for the following five courses; thence South 72°54'00" West 10.00 feet; thence North 53°38'13" West 20.65 feet; thence South 05°01'26" West 11.50 feet; thence North 10°42'21" West 31.82 feet; thence North 01°05'36" East 53.63 feet; thence North 85°41'45" East 24.67 feet to the boundary of above said Reserved Parcel "2", being a point on a curve; thence northerly along a curve to the right having an arc length of 28.33 feet, a radius of 425.00 feet; a central angle of 03°49'11" and a chord bearing North 02°23'39" West 28.33 feet to a point of tangency; thence North 00°29'04" West 1536.30 feet to a point of curvature; thence northeasterly along a curve to the right having an arc length of 213.75 feet, a radius of 150.00 feet; a central angle of 81°38'47" and a chord bearing North 40°20'20" East, 196.12 feet to a point; thence South 08°50'16" East 110.00 feet to a point on a curve; thence easterly along a curve to the right having an arc length of 11.66 feet, a radius of 40.00 feet, a central angle of 16°42'25" and a chord bearing North 89°30'57" East 11.62 feet to a point; thence North 07°52'09" East 110.00 feet to a point on a curve; thence southeasterly along a curve to the right having an arc length of 213.75 feet, a radius of 150.00 feet, a central angle of 81°38'47" and a chord bearing South 41°18'27" East 196.12 feet to a point; thence South 85°19'06" East 128.73 feet; thence South 08°50'16" East 110.00 feet to a point on a curve; thence easterly along a curve to the right having an arc length of 11.66 feet, a radius of 40.00 feet a central angle of 16°42'25" and a chord bearing North 89°30'57" East 11.62 feet to a point; thence North 07°52'09" East 110.00 feet to a point on a curve; thence southeasterly along a curve to the right having an arc length of 213.75 feet, a radius of 150.00 feet, a central angle of 81°38'47" and a chord bearing South 41°18'27" East 196.12 feet to a point of tangency; thence South 00°29'04" East 202.47 feet to a point of cusp; thence northeasterly along a curve to the right having an arc length of 213.75 feet, a radius of 150.00 feet, a central angle of 81°38'47" and a chord bearing North 40°20'20" East, 196.12 feet to a point; thence South 08°50'16" East 110.00 feet to a point on a curve; thence easterly along a curve to the right having an arc length of 11.66 feet, a radius of 40.00 feet a central angle of 16°42'25" and a chord bearing North 89°30'57" East 11.62 feet to a point; thence North 07°52'09" East 110.00 feet to a point on a curve; thence southeasterly along a curve to the right having an arc length of 213.75 feet, a radius of 150.00 feet; a central angle of 81°38'47" and a chord bearing South 41°18'27" East 196.12 feet to a point of cusp; thence northeasterly along a curve to the right having an arc length of 213.75 feet, a radius of 150.00 feet; a central angle of 81°38'47" and a chord bearing North 40°20'20" East 196.12 feet to a point; thence South 08°50'16" East 110.00 feet to a point; thence easterly along a curve to the right having an arc length of 11.66 feet, a radius of 40.00 feet, a central angle of

16°42'25" and a chord bearing North 89°30'57" East 11.62 feet to a point; thence North 07°52'09" East 110.00 feet to a point on a curve; thence southeasterly along a curve to the right having an arc length of 213.75 feet, a radius of 150.00 feet; a central angle of 81°38'47" and a chord bearing South 41°18'27" East 196.12 feet to a point of tangency; thence South 00°29'04" East 1003.67 feet; thence South 25°15'02" East 260.04 feet to a point of curvature; thence southerly along a curve to the right having an arc length of 353.43 feet, a radius of 225.00 feet, a central angle of 90°00'00" and a chord bearing South 19°44'58" West, 318.20 feet to a point of tangency; thence South 64°44'58" West 800.00 feet; thence South 25°15'02" East 300.00 feet; thence North 64°44'58" East 910.00 feet to a point of curvature; thence easterly along a curve to the right having an arc length of 309.71 feet, a radius of 425.00 feet, a central angle of 41°45'11" and a chord bearing North 85°37'33" East, 302.90 feet to a point; thence South 16°30'09" West 125.00 feet to a point on a curve; thence easterly along a curve to the right having an arc length of 34.00 feet, a radius of 300.00 feet, a central angle of 06°29'36" and a chord bearing South 70°15'03" East 33.98 feet to a point; thence North 22°59'45" East 125.00 feet to a point on a curve; thence southeasterly along a curve to the right having an arc length of 309.71 feet, a radius of 425.00 feet, a central angle of 41°45'13" and a chord bearing South 46°07'39" East 302.91 feet to a point of cusp; thence North 25°15'02" West 822.28 feet to a point of curvature; thence northeasterly along a curve to the right having an arc length of 561.16 feet, a radius of 275.00 feet, a central angle of 116°54'59" and a chord bearing North 33°12'28" East, 468.74 feet to a point of tangency; thence South 88°20'03" East 756.56 feet; thence South 07°23'44" West 126.38 feet to a point of on a curve; thence easterly along a curve to the right having an arc length of 150.15 feet, a radius of 150.00 feet, a central angle of 57°21'14" and a chord bearing South 53°55'39" East 143.96 feet to a point of tangency; thence South 25°15'02" East 40.00 feet; thence North 64°44'58" East 125.00 feet to the easterly line of Belle Terre Waterway; thence North 25°15'02" West along said easterly line of Belle Terre Waterway for a distance of 862.29 feet to a point of curvature; thence depart said boundary line of said Reserved Parcel "2" and run westerly along the southerly line of Jefferson Davis Waterway for the following four courses: run westerly along a curve to the left having an arc length of 921.97 feet, a radius of 825.00 feet, a central angle of 64°01'49" and a chord bearing North 57°15'57" West, 874.74 feet to a point of tangency; thence North 89°16'51" West 858.76 feet to a point of curvature; thence westerly along a curve to the right having an arc length of 411.10 feet, a radius of 675.00 feet, a central angle of 34°53'44" and a chord bearing North 71°49'59" West, 404.78 feet to a point of tangency; thence North 54°23'07" West 585.58 feet to a point of curvature; thence westerly along a curve to the left having an arc length of 177.30 feet, a radius of 825.00 feet, a central angle of 12°18'47" and a chord bearing North 60°32'31" West,176.96 feet to a point on the westerly boundary of said Reserved Parcel "2"; thence southerly and westerly along said westerly boundary of said Reserved Parcel "E" for the following seven courses: South 29°30'56" West 419.65 feet; thence South 14°30'56" West 66.19 feet; thence South 00°29'04" East 810.00 feet to a point of curvature; thence southeasterly along a curve to the right having an arc length of 353.43 feet, a radius of 225.00 feet, a central angle of 90°00'00" and a chord bearing South 44°30'56" West, 318.20 feet to a point of tangency; thence South 89°30'56" West 659.20 feet to a point on a curve; thence southeasterly along a curve to the left having an arc length of 331.52 feet, a radius of 720.00 feet, a

central angle of 26°22'53" and a chord bearing South 25°41 '59" East 328.59 feet to a point of tangency; thence South 38°53'25" East 1801.29 feet to the POINT OF BEGINNING.

ALSO INCLUDING:

Part of Government Sections 21 and 22, Township 10 South, Range 30 East, Flagler County, Florida being that part of PARCEL NO. 2 of the property described in Official Records Book 142, pages 278-279, lying south of Jefferson Davis Waterway and being more particularly described as follows:
From a POINT OF REFERENCE being a point on the easterly boundary line of the above described PARCEL NO. 2, said point being the northwest corner of Reserved Parcel "2" as shown on the recorded plat of Lakeview - Section 37 Palm Coast Park at Palm Coast, as recorded in Map Book 13, pages 1 through 29, Public Records of Flagler County, Florida; thence South 29°30'56" West along the easterly boundary of said PARCEL NO. 2 being also along the westerly boundary of said Reserved Parcel "E" for a distance of 390.35 feet to the POINT OF BEGINNING; thence continue along the easterly and southerly boundary of said PARCEL NO. 2 being also along the westerly and northerly boundary of said Reserved Parcel "E" for the following seven courses: run South 29°30'56" West 419.65 feet; thence South 14°30'56" West 66.19 feet; thence South 00°29'04" East 810.00 feet to a point of curvature; thence southwesterly along a curve to the right having an arc length of 353.43 feet, a radius of 225.00 feet, a central angle of 90°00'00" and a chord bearing South 44°30'56" West, 318.20 feet to a point of tangency; thence South 89°30'56" West 659.20 feet to a point on a curve; thence northerly along a curve to the right having an arc length of 151.10 feet, a radius of 720.00 feet, a central angle of 12°01'28" and a chord bearing North 06°29'48" West 150.83 feet to a point; thence South 89°30'56" West 1280.00 feet to the northwest corner of Block 164 of said plat of Lakeview; thence North 12°53'48" East along the southerly line of said Jefferson Waterway for a distance of 297.66 feet to a point on a curve; thence northeasterly along a curve to the right having an arc length of 913.19 feet, a radius of 825.00 feet, a central angle of 63°25'15" and a chord bearing North 39°41'03" East 867.28 feet to a point of tangency; thence North 71°23'41" East 1251.37 feet to a point of curvature; thence easterly along a curve to the right having an arc length of 603.42 feet, a radius of 825.00 feet; a central angle of 41°54'25" and a chord bearing South 87°39'07" East, 590.05 feet to the POINT OF BEGINNING.

ALSO INCLUDING:

All of that land vacated in the Subdivision Plat Of Lakeview - Section 37 Palm Coast Map Book 13 Pages 1 through 29, per Resolution 95-56 as recorded in Official Records Book 538 at Pages 1611 through 1613, Public Records of Flagler County, Florida, being described as follows:
BEGINNING at the southwesterly corner of Lot 22, Block 143 of the aforesaid Lakeview - Section 37; thence North 80°26'17" East a distance of 49.47 feet to a point of curvature of a curve to the right; thence northeasterly along said curve having a radius of 300.00 feet, a central angle of 14°34'59" an arc of 76.36 feet and a chord bearing North

87°43'47" East, 76.15 feet to a point on a non-tangent line; thence North 09°33'43" West, a distance of 1273.40 feet; thence North 80°26'17" East a distance of 124.48 feet; thence South 47°01'13" East a distance of 97.49 feet to a point on a non-tangent curve; thence northeasterly along a curve to the right having a radius of 150.00 feet; a central angle of 08°07'48", an arc length of 21.28 feet and a chord bearing North 47°02'41" East, 21.27 feet to a point of tangency; thence North 51°06'35" East a distance of 100.00 feet; thence South 38°53'25" East a distance of 50.00 feet; thence South 51°06'35" West a distance of 100.00 feet to a point of curvature; thence southwesterly along a curve to the left having a radius of 100.00 feet, central angle of 05°43'46, an arc length of 10.00 feet and a chord bearing South 48°14'42" West,10.00 feet to a point on a non-tangent line; thence South 50°07'21" East a distance of 153.93 feet; thence South 51°06'35" West a distance of 20.25 feet; thence South 09°33'43" East a distance of 936.00 feet; thence South 35°36'55" East a distance of 82.42 feet; thence South 81°24'11" East a distance of 240.00 feet; thence South 08°35'49" West a distance of 125.00 feet; thence South 81°24'11" East a distance of 27.55 feet to a point on a non-tangent curve; thence southwesterly along curve to the left having a radius of 40.00 feet, a central angle of 77°21'52", an arc of 54.01 feet and a chord bearing South 08°35'49" West 50.00 feet to a point on a non-tangent line; thence North 81°24'11" West a distance of 4.59 feet; thence South 08°35'49" West a distance of 125.00 feet; thence North 81°24'11" West a distance of 480.00 feet; thence South 84°38'20" West a distance of 69.97 feet; thence North 03°00'11" West a distance of 144.02 feet to a point on a non-tangent curve; thence southwesterly along a curve to the left having a radius of 250.00 feet, a central angle of 13°34'27", an arc of 59.23 feet and a chord bearing South 87°13'31" West, 59.09 feet to a point of tangency; thence South 80°26'17" West a distance of 51.03 feet to a point on a non-tangent curve; thence northwesterly along a curve to the left having a radius of 200.00 feet, a central angle of 07°10'51" an arc of 25.07 feet and a chord bearing North 05°58'17" West 25.05 feet to a point of tangency; thence North 09°33'43" West a distance of 25.00 feet to the POINT OF Beginning, the above described parcel of land is situated in Section 22, Township 10 South, Range 30 East, Flagler County, Florida.

ALSO INCLUDING:

Part of Reserved Parcel "R-1", Lakeview - Section 37 Palm Coast Park at Palm Coast, as recorded in Map Book 13, pages 1 through 29, Public Records of Flagler County, Florida, being more particularly described as follows:
From a POINT OF BEGINNING, being the most easterly corner of said Reserved Parcel "R-1"; thence South 38°35'49" West along the southeasterly line of said Reserved Parcel "R-1" for a distance of 767.47 feet; thence North 51°24'11" West 1300.81 feet to the most westerly corner of said Reserved Parcel "R-1"; thence North 54°59'31" East,148.96 feet; thence South 59°22'19" East 485.17 feet; thence South 73°43'22" East 217.49 feet; thence North 77°17'42" East 363.21 feet; thence North 38°35'49" East 191.24 feet; thence South 51°24'11" East 350.00 feet to the POINT OF BEGINNING.

ALSO INCLUDING:

A parcel of land being a portion of Reserved Parcel "E" according to the Subdivision Plat Lakeview Section 37, Palm Coast, recorded in Map Book 13, Pages 1 Through 29, of the Public Records of Flagler County, Florida, being more particularly described as follows: A POINT OF REFERENCE being the northeast corner of Lot 1, Block 75; thence North 25°15'02" West along the west line of Belle Terre Waterway a distance of 862.29 feet to THE POINT OF BEGINNING; thence departing Belle Terre Waterway (as platted) 921.97 feet along the arc of a curve to the left (concave southerly) have a central angle of 64°01'49", a radius of 825.00 feet, a chord bearing of North 57°15'57" West and a chord distance of 874.74 feet to a point of tangency, thence North 89°16'51" West a distance of 858.76 feet to a point of curvature; thence 411.10 feet along the arc of a curve to the right (concave northerly) having a central angle of 34°53'44", a radius of 675.00 feet, a chord Bearing of North 71°49'59" West and a chord distance of 404.78 feet to the end of said curve being a point on the boundary of Jefferson Davis Waterway as recorded in Official Records Book 549, Pages 966 through 990, of the Public Records of Flagler County, Florida; thence North 35°36'53" East along said waterway a distance of 30.00 feet to a point on a non-tangent curve; thence easterly 392.83 feet along the arc of a curve to the left (concave northerly)having a central angle of 34°53'44", a radius of 645.00 feet, a chord bearing of South 71°49'59" East and a chord distance of 386.79 feet to a point of tangency; thence South 89°16'51" East a distance of 858.76 feet to a point of curvature; thence 955.50 feet along the arc of a curve to the right concave southwesterly having a central angle of 64°01'49", a radius of 855.00 feet, a chord bearing of South 57°15'57" East and a chord distance of 906.54 feet to the end of said curve; thence South 64°44'58" West a distance of 30.00 feet to the POINT OF BEGINNING.

ALSO INCLUDING:

A PARCEL OF LAND LYING EAST OF U.S. HIGHWAY NO. 1 (STATE ROAD 5), BEING A PORTION OF LONDON WATERWAY, LAKEVIEW SECTION 37, AS RECORDED IN MAP BOOK 13, PAGE 26, LOCATED IN GOVERNMENT SECTION 28, TOWNSHIP 10 SOUTH, RANGE 30 EAST, FLAGLER COUNTY, FLORIDA, BEING MORE PARTICULARLY DESCRIBED AS FOLLOWS:
AS A POINT OF REFERENCE, COMMENCE AT THE INTERSECTION OF THE NORTHEASTERLY LINE OF ASHWOOD WATERWAY (A 300 FOOT RIGHT-OF-WAY) PER SAID LAKEVIEW SECTION 37, WITH THE EASTERLY RIGHT-OF-WAY LINE OF U.S. HIGHWAY No. 1, (STATE ROAD 5, A 175 FOOT RIGHT-OF-WAY AT THIS POINT); THENCE DEPARTING SAID RIGHT-OF-WAY LINE SOUTH 35°00'29" EAST ALONG SAID NORTHEASTERLY LINE OF ASHWOOD WATERWAY FOR A DISTANCE OF 649.53 FEET TO THE INTERSECTION OF THE NORTHWESTERLY LINE OF SAID LONDON WATERWAY, ALSO BEING THE POINT OF BEGINNING OF THIS DESCRIPTION; THENCE DEPARTING SAID ASHWOOD WATERWAY LINE NORTH 54°59'31" EAST ALONG THE NORTHWESTERLY LINE OF SAID LONDON WATERWAY FOR A DISTANCE OF 770.58 FEET TO THE INTERSECTION OF THE SOUTHWESTERLY RIGHT-OF-WAY LINE OF LONDON DRIVE, (A 60 FOOT RIGHT-OF-WAY), PER SAID LAKEVIEW-SECTION 37; THENCE DEPARTING THE NORTHWESTERLY LINE OF SAID LONDON WATERWAY SOUTH 51°24'11" EAST ALONG SAID RIGHT-

OF-WAY LINE FOR A DISTANCE OF 104.24 FEET TO THE SOUTHERLY LINE OF SAID LONDON WATERWAY; THENCE DEPARTING SAID RIGHT-OF-WAY LINE SOUTH 54'59'31" WEST ALONG SAID SOUTHERLY LINE OF LONDON WATERWAY FOR A DISTANCE OF 800.00 FEET TO THE INTERSECTION OF SAID NORTHEASTERLY LINE OF ASHWOOD WATERWAY; THENCE NORTH 35°00'29" WEST ALONG SAID ASHWOOD WATERWAY LINE FOR A DISTANCE OF 100.00 FEET TO THE AFOREMENTIONED POINT OF BEGINNING OF THIS DESCRIPTION.

LAKEVIEW ESTATES

MASTER PLAN DEVELOPMENT AGREEMENT

THIS MASTER PLAN DEVELOPMENT AGREEMENT, (herein referred to as the "Development Agreement") is made and executed this 19th day of January, 2021, by and between the **CITY OF PALM COAST**, a Florida municipal corporation (herein referred to as the "City"), whose address is 160 Lake Avenue, Palm Coast, Florida, 32164, and the owner of the subject property, **MATANZAS GC PALM COAST, LLC**, a Florida limited liability company (herein referred to from time-to-time as the "Owner" regardless of whether singular or plural ownership status) whose address is 200 Ocean Crest Drive, Unit 111, Palm Coast, Florida 32137.

WITNESSETH:

WHEREAS, the Owner is the fee simple title owner of certain real property consisting of 280.6 +/- acres located in the City of Palm Coast, Flagler County, Florida, more particularly described in the legal description attached hereto as **Exhibit "A"** and incorporated herein ("Subject Property"); and

WHEREAS, the Subject Property ceased to operate as a golf course in or around 2007, and since said time, has not been used for any purpose other than vacant land; and

WHEREAS, the Subject Property has Future Land Use Map (FLUM) designations of Greenbelt and Conservation.

WHEREAS, the Owner requests approval for a Master Planned Development ("MPD") on the Subject Property, subject to the conditions set forth in this Development Agreement; and

WHEREAS, the Owner voluntarily agrees with the conditions, terms, and restrictions hereinafter recited, and has agreed voluntarily to their imposition as an incident to development of the Subject Property; and

WHEREAS, the City of Palm Coast Planning and Land Use Regulations Board (PLDRB) and the City of Palm Coast City Council ("City Council") find that this Development Agreement is consistent with the City's Comprehensive Plan (2035) (the "Comprehensive Plan") and Unified Land Development Code (LDC) and that the conditions, terms, restrictions, and requirements set forth herein are necessary for the protection of the public health, safety, and welfare of the citizens of the City; and

WHEREAS, the City Council further finds that this Development Agreement is consistent with and an exercise of the City's powers under the Municipal Home Rule Powers Act; Article VIII, Section 2(b) of the Constitution of the State of Florida; Chapter 166, Florida Statutes; the City of Palm Coast City Charter; other controlling law; and the City's police powers; and

WHEREAS, additional conditions of approval may also be included within the minutes of relevant meetings of the (PLDRB) and City Council. Furthermore, any

representations or promises made by the Owner during the zoning review and approval process for the Project (whether oral or in writing) shall also be additional conditions of approval if deemed appropriate by the City; and

WHEREAS, this is a non-statutory Development Agreement which is not subject to or enacted pursuant to the provisions of Sections 163.3220 -163.3243, Florida Statutes.

NOW, THEREFORE, it is hereby resolved and agreed by and between the City and the Owner that the Owner's application for a Master Planned Development is approved subject to the Development Agreement's following terms and conditions:

SECTION 1. RECITALS.

The above recitals are true and correct and are incorporated herein by this reference and form a material part of this Development Agreement upon which the City and the Owner have relied.

SECTION 2. REPRESENTATIONS OF OWNER.

(a) The Owner hereby represents and warrants to the City that the Owner is the fee simple record title owner of the Subject Property in accordance with the title opinion or title certification provided by the Owner to the City issued by an attorney or title insurance company licensed to provide services in the State of Florida with said title opinion or certification showing all liens, mortgages, and other encumbrances not satisfied or released of record relative to the Subject Property.

(b) The Owner represents and warrants to the City that it has the power and authority to enter into and consummate the terms and conditions of this Development Agreement; that all acts, approvals, procedures, and similar matters required in order to authorize this Development Agreement have been taken, obtained or followed, as the

case may be; that this Development Agreement and the proposed performance of this Development Agreement by the Owner is not an ultra vires act; and that, upon the execution of this Development Agreement by the parties, this Development Agreement shall be valid and binding upon the parties hereto and their successors in interest.

(c) The Owner hereby represents to the City that all required joinders and consents have been obtained and set forth in a properly executed form on this Development Agreement. Unless otherwise agreed to by the City, all liens, mortgages, and encumbrances not satisfied or released of record must be subordinated to the terms of this Development Agreement and joinders must be executed by any mortgagees. It is the responsibility of the Owner to ensure that said subordinations and joinders occur in a form and substance acceptable to the City Attorney prior to the City's execution of this Development Agreement. If the Owner fails to attain the joinder and consent, then the Owner shall lose all rights and benefits deriving hereunder.

SECTION 3. APPROVAL OF MASTER PLAN DEVELOPMENT

(a). The City Council at its business meeting of January 5, 2021, approved a Master Plan Development for the Subject Property subject to the terms and conditions of this Development Agreement.

(b). The Owner acknowledges that if this Development Agreement is ever terminated, the approval shall be deemed null and void and the land uses approved for the Subject Property shall no longer be permitted, unless otherwise approved by the City Council.

(c). The current provisions of the LDC, as may be amended from time-to-time, shall be applicable to the Subject Property unless otherwise specifically stated herein.

Any City Code provision not specifically so identified will not be affected by the terms of this Development Agreement, and will be subject to enforcement and change under the same criteria as if no Development Agreement were in effect.

SECTION 4. PROJECT DESCRIPTION.

The Subject Property has two Comprehensive Plan FLUM designations, Greenbelt on approximately 276.3 +/- acres and Conservation on approximately 4.3 +/- acres. The current MPD zoning on the property will be maintained and this Development Agreement shall govern all development on the Subject Property as defined herein. Consistent with the Comprehensive Plan and the Greenbelt FLUM, residential units may be developed at one unit per acre. Institutional uses proposed on Greenbelt FLUM acreage shall be deducted from the one-unit per acre residential unit calculations. The Project proposes 8.3 +/- acres of Greenbelt FLUM for institutional uses within the Greenbelt FLUM. As a result, 268 residential units are permitted to be clustered within the remaining 268.0 +/- acres of Greenbelt FLUM. The Owner may develop a residential and institutional development as depicted on the Lakeview Estates Conceptual Master Plan, attached hereto as **Exhibit "B"** and as further defined herein ("Project"). **Exhibit "B-1"** through **Exhibit "B-8"** further define the project and illustrate allowable uses within each Tract. The uses on each Tract (shall be as follows which are consistent with the Conceptual Site Plan:

TRACT	USE	LDC Designation to be used for Development Standards purposes only
1	Uses on this tract will be single-family residential homes along with View Protection Zones (VPZ), wetland preservation, stormwater pond creation, and community amenities including exterior storage of	SFR-1

	boats and RVs exclusively for residents residing in the community that will be totally screened from view from off-site properties, Lakeview Boulevard and London Drive.	
2	Uses on this tract primarily consist of View Protection Zones, wetlands, natural buffers, and stormwater ponds. In addition, the property is limited to single family residential dwellings view protection zones, natural buffers, and stormwater ponds.	SFR-2 and P&G
3	This tract is designated as View Protection Zones and natural buffers.	P&G
4	Uses on this tract primarily consist of View Protection Zones/conservation, and wetlands. The property is limited to single family residential dwellings.	SFR-2 and P&G
5	This Tract is designated as a View Protection Zone/conservation.	P&G
6	This Tract is designated as a View Protection Zone	P&G
7	Uses on this tract primarily consist of View Protection Zone and an existing pond. The property is limited to single family residential dwellings.	SFR-2 and P&G
8	Use of this Tract is limited to townhouses, single-family, View Protection Zones, and existing pond. FLUM areas designated Conservation shall be field verified prior to development and the boundaries between the Greenbelt and Conservation areas shall be modified accordingly on the FLUM.	MFR-1[1], SFR-1and P&G
9	Use of this Tract will be limited to 8.3 acres of institutional uses meeting the PSP zoning standards except the maximum building height shall be 35 feet and there shall be a minimum View Protection Zone of 150 feet in width along its eastern property line where it abuts the rear of all existing platted residential lots. All remaining areas include View Protection Zones, new and existing ponds, and natural buffers.	PSP and P&G
10	Use of this Tract is limited to single family residential units with View Protection Zones.	SFR-2

[1] There is a height limitation of thirty-five (35) feet for townhouses, a minimum living area of 1,000 sq. ft. with at least a one-car garage per unit and a minimum setback of 150' from all existing single-family platted lots imposed on this use.

1. TRACT 1: Tract 1 shall be permitted to develop into a single family detached residential community consistent with the City's SFR-1 zoning district

standards. This community will contain its own private amenities which may include a club house, pools, activities room, exercise trails and self-storage of boats and recreational vehicles limited to residents use only. It shall have two (2) entrances onto Lakeview Drive. Stormwater ponds will be developed on site to contain all runoff as required by Federal, State and City rules. In the areas that abut existing residential platted lots, a View Protection Zone ("VPZ") will be required (See Section 10.7). Prior to application for Subdivision Master Plan or Site Plan Approval, an applicant shall ensure that the VPZ is designed in such a fashion that it maintains the Lot Owners' view of the Subject Property consistent with the City's Land Development Code (LDC). Also prior to the above-mentioned application, an applicant shall demonstrate that Tract 1 is or shall be free from environmental hazards and safe for human occupation as regulated by Federal, State and local law including, but not limited to, the Florida Department of Environmental Protection ("FDEP"). The existing golf course maintenance building may be utilized during construction of the residential community on Tract 1 but shall be removed prior to completion of the infrastructure for the residential community.

2. TRACT 2: Tract 2 shall be maintained as a VPZ except for the area depicted on Exhibit "B-2" Tract Plan for single family residential lots. The single family residential area shall be developed consistent with the SRF-2 zoning district standards. As a condition of approval of these lots, a VPZ shall be provided to specifically address the adjacent existing single-family platted lots.

3. TRACT 3: Tract 3 is designated as VPZ and natural buffers.

4. TRACT 4: Tract 4 shall be mostly preserved as a natural area through the use of VPZs and Conservation Easements over existing wetlands. The on-site wetlands are intended to be preserved and, if impacted, avoidance and minimization techniques will be required pursuant to Federal, State and local law. Consistent with Exhibit "B-4" Tract Plan, some single-family residential lots may be developed consistent with the SFR-2 zoning designation standards, however they will be required to provide a VPZ if behind existing platted residential lots.

5. TRACT 5: Tract 5 shall be a VPZ. No development shall be permitted on Tract 5.

6. TRACT 6: Tract 6 shall be a VPZ.

7. TRACT 7: Tract 7 shall be maintained as a VPZ except for the areas depicted on Exhibit "B-6" Tract Plan for single family residential lots. The single family residential areas shall be developed consistent with the SRF-2 zoning district and shall provide a VPZ behind existing platted residential lots.

8. TRACT 8: Tract 8 shall be permitted to be developed consistent with the development standard for the LDC zoning classification of MFR-1 but limited to townhouses. Single-family homes could also be developed using the SFR-1 standards. Notwithstanding said designation, no development on this tract shall exceed thirty-five (35) feet in height. All townhouse development on Tract 8 shall be set back a minimum of 150 feet from any existing single-family platted lot. The existing pond shall be preserved for the benefit of adjacent property owners. The area designated Conservation on the FLUM can be field verified by the Owner through all applicable governmental

agencies and areas designated as uplands may be reclassified to Greenbelt on the FLUM and then utilized for residential purposes.

9. TRACT 9: The easterly 150 feet of Tract 9 that is located behind existing residential platted lots located along the westerly side of London Drive shall be maintained as a VPZ to ensure protection of natural areas. Stormwater areas are also permitted on Tract 9. PSP (institutional) uses with a height limit of 35 feet will be permitted on 8.3 acres of the remaining area. Prior to making any application for development, the Owner shall prepare a conceptual site plan and hold a neighborhood meeting consistent with the requirements of the LDC. Any development application for Tract 9 shall require final action by the PLDRB.

10. Tract 10: Tract 10 shall be permitted to develop single family detached residential units consistent with the LDC SFR-2 zoning district standards. Additionally, a VPZ is required to be provided as shown on the Exhibit "B-8" Tract Plan.

11. In addition to the above, Tracts 1, 8 and 9 of the Project shall be integrated internally and externally by a series of pedestrian pathways and roadways and developed in conformance with the LDC and this Development Agreement.

12. All common areas, VPZ, stormwater ponds and natural areas shall be maintained by a POA or third party determined acceptable to the City.

SECTION 5. FUTURE LAND USE MAP (FLUM).

The future land use designation for the Subject Property is primarily Greenbelt. More specifically about 276.3 +/- acres are designated Greenbelt and the remaining 4.3 +/- acres are designated Conservation. Policy 1.1.1.2 of the Comprehensive Plan establishes the density and intensity for each land use category and zoning district. The density for

Greenbelt is one dwelling unit/acre. Density calculations are not permitted for Conservation areas or Greenbelt lands utilized for PSP (institutional) uses.

SECTION 6. APPROVAL OF CONCEPTUAL PLAN AND DEVELOPMENT REVIEW PROCESS.

(a) The City Council, at its regular meeting on January 19, 2021, adopted Ordinance 2021-_____for a Master Planned Development affecting the Subject Property subject to the terms and conditions of this Development Agreement.

(b) The Owner acknowledges if this Development Agreement is ever terminated, the approval shall be deemed null and void and the land uses approved for the Subject Property shall no longer be permitted, unless otherwise approved by the City Council.

(c) The provisions of the then current LDC shall be applicable to the Subject Property unless otherwise specifically stated herein. Any City Code provision not specifically identified will not be affected by the terms of this Development Agreement and will be subject to enforcement as if no Development Agreement were in effect.

(d) The Conceptual Site Plan, Exhibit "B", generally depicts the layout of the Project and delineates the approximate property boundaries, streets, property lines, general location of lots and intended uses. Exhibits B-1 through B-8 depict the layout of the Project in more detail and where a conflict exists between Exhibit "B" and Exhibits B-1 through B-8, the more detailed Exhibits B-1 through B-8 shall govern.

SECTION 7. MODIFICATIONS TO THE CONCEPTUAL SITE PLAN.

Modifications to the exact location and number of lots, roadways, primary sidewalk/pathway system, and other improvements may be requested by the Owner and

approved by the Land Use Administrator during review of construction documents, site plans, or Subdivision Master Plan for the Project or portions thereof, as long as the development standards contained in this Development Agreement are maintained. Moreover, the Land Use Administrator is authorized to approve those modifications to the Conceptual Site Plan as allowed by Code, and any construction documents, and Subdivision Master Plan for the Subject Property or portions thereof provided that: (1) The location of the VPZs are not reduced or relocated, (2) The maximum building height is not exceeded, (3) Property setbacks and landscape buffers are not modified, and (4) the approved plans maintain the development standards in this Development Agreement. In accordance with the Land Development Code, future neighborhood meetings may be required. Distance notification requirements will be from the applicable development tract consistent with the neighborhood meeting requirements.

SECTION 8. PERMITTED USES.

ALL USES ON THE PROPERTY SHALL BE CONSISTENT WITH THIS AGREEMENT AND SPECIFICALLY SECTION 4, ABOVE. NOTWITHSTANDING SUCH, THE OWNER AGREES TO FULLY COMPLY WITH THE FOLLOWING USE RESTRICTIONS ON THE SUBJECT PROPERTY. THE OWNER MUST DEVELOP THE SUBJECT PROPERTY CONSISTENT WITH THE CONCEPTUAL SITE PLAN, EXCEPT AS OTHERWISE PROVIDED IN SECTION 8 OF THIS DEVELOPMENT AGREEMENT.

8.1 USE RESTRICTIONS.

(a) Any use of any portion of the Subject Property not designated in Section 4 (inclusive of all exhibits included therein), on the Conceptual Site Plan shall be prohibited.

(b) Except as provided elsewhere in this Development Agreement, any modification to the Development Agreement that proposes a change of uses approved herein, increases the intensity or types of development, or removes, decreases or modifies the location of a VPZ shall require the approval of the City Council, following the review and recommendation of the PLDRB.

8.2 VEHICULAR/NON-VEHICULAR AND PEDESTRIAN ACCESS, PARKING AND INTERCONNECTIVITY.

(a) The Conceptual Plan integrates pedestrian, bicycle, and vehicular traffic circulation systems within, and outside of, the Subject Property and with adjacent rights-of-ways. All uses shall have access to a roadway but are not required to front on a dedicated road. The City shall be granted access to all roadways to ensure that public safety is maintained.

(b) There shall be at a minimum two (2) methods of entrance and exit consistent with the City's Comprehensive Plan and LDC.

SECTION 9. LAND DEVELOPMENT CODE NON-APPLICABILITY.

The development of the Project shall proceed in accordance with the terms of this Development Agreement. In the event of an inconsistency between the terms of this Development Agreement and the LDC, the terms of this Development Agreement shall prevail except as it pertains to MPD regulations within the LDC. In the event of an inconsistency between the terms of this Development Agreement and the Conceptual Site Plan, the terms of this Development Agreement shall prevail. Where specific requirements are not contained in this Development Agreement, the LDC shall apply but

only to the extent that it does not conflict with the provisions of this Development Agreement or the general intent of the Conceptual Site Plan.

SECTION 10. FACILITY COMMITMENTS.

(a) Unless otherwise described elsewhere in this Development Agreement, the Owner agrees that the City is not responsible for the construction or creation of public facilities or capacity to facilitate the development of the Subject Property. No building permits or development permits shall be issued for the Subject Property unless adequate capacity of concurrency monitored facilities are available concurrent with the impact on said facilities by the Project.

(b) PRIVATE AND PUBLIC IMPROVEMENTS: The Owner, its successors, and assigns, agree to construct, at a minimum, the following on-site improvements, at their sole and exclusive expense, as a condition of this Development Agreement and in addition to the payment of all impact fees relating to the development of the Subject Property, unless otherwise provided for herein; parking areas; roads, utilities; master stormwater system; sidewalks; lighting; recreational facilities, and perimeter buffer landscaping. In addition to the foregoing on-site improvements, the Owner must complete any required remediation of contamination in accordance with FDEP/State regulations and provide a performance bond to the City for the remediation work. Bonds for the work described herein shall be in a form acceptable by the City. The Owner agrees that the City has shown an essential nexus between a legitimate City interest and the conditions, if any, imposed herein. The Owner further agrees that all proposed conditions are roughly proportional to the impact the development will have upon the public, based upon an individualized determination by the City that the required

conditions are related in both nature and extent to the impacts of the proposed Project. Nothing herein shall be deemed a prohibited exaction under Fla. Stat. 70.45, and Owner agrees it has not suffered any damages under that statute.

(c) SIDEWALKS AND PEDESTRIAN PATHS: The Owner shall provide a system of sidewalks on the tracts with direct access from Lakeview Boulevard to ensure that pedestrians maintain easy and safe access to all uses as depicted on the Conceptual Site Plan. The Owner shall provide community sidewalks that are a minimum of five (5) feet wide on only one side of the internal roadway system on Tract 1 as may be required. Owner shall be obligated to provide sidewalks on the portion of the Tract 9 property that abuts US Highway 1. Owner shall not be obligated to provide sidewalks on the scattered single-family lots with direct access from Lee Drive, Leidel Drive, London Drive, Lake Success Drive, Lindsay Drive, or Lewis Drive.

(d) ACCESS: Ingress and egress needed for the Project shall be provided, constructed, and maintained by Owner, its successors, and assigns.

(f) MOWING: The Owner, or a POA, shall continue to pick up trash and mow the rights-of-way that are adjacent to the Subject Property along Lakeview Boulevard, Leaver Drive, London Drive, and Lake Success Drive.

SECTION 11. DEVELOPMENT STANDARDS.

11.1 PARKING: Parking requirements shall be consistent with the LDC.

11.2 OPEN SPACE: Minimum open space shall be forty percent (40%) of the Subject Property's gross area. Open space is defined in the LDC and includes on-site stormwater ponds and all open space within the Property. Flexibility to the minimum open space requirements shall be as provided by the LDC, which may include, but not be

limited to, green building principles, land donation, or other mechanisms that would justify a lower percentage of open space, if approved by the Land Use Administrator. Open space shall be maintained by either the actual owner of the property, a POA, or other method satisfactory to the Owner and the City.

11.3 WATER/WASTEWATER: The Project is located wholly within the City limits and is therefore within the City's water and wastewater service areas. All permanent uses within the Project will be served by the City. The City shall be the service provider for potable water and wastewater service for the Project. The City is under no obligation to accept the dedication of any facility.

11.4 TRANSPORTATION CONCURRENCY: Transportation concurrency shall be addressed during the Preliminary Plat or Technical Site Plan process.

11.5 STORMWATER AND DRAINAGE:

(a) The Owner, or a POA, shall be responsible for designing, permitting, constructing, and maintaining the means of conveyance of stormwater runoff from the Project to the stormwater facility including, but not limited to, all stormwater lines, ditches, culverts, and other stormwater facilities that are necessary to convey the stormwater runoff to the Stormwater Facility (the "Owner's Stormwater System").

(b) The Owner shall grant any and all drainage and utility easements to the City which are deemed necessary to serve the public utilities.

(c) The Owner shall construct a stormwater management system that provides treatment and attenuation as required by St. Johns River Water Management District ("SJRWMD") and the City's LDC. Best Management Practices ("BMPs") shall be used during and after construction to minimize erosion and sedimentation and to properly

manage runoff for both stormwater quantity and quality. BMPs shall be in accordance with the FDEP and Florida Department of Transportation ("FDOT") design standards and details.

(d) Stormwater piping, swales, and ditches shall be designed to convey a ten (10)-year, twenty-four (24)-hour storm event. Stormwater detention facilities shall be designed to meet water quality and attenuation requirements by SJRWMD and the City's LDC.

(e) Existing drainage conveyance along the northern property line, as indicated on the Conceptual Site Plan, shall be maintained through the use of drainage swales and/or storm drainage piping.

11.6 LANDSCAPING: All landscaping and irrigation shall comply with the LDC.

11.7 VIEW PROTECTION ZONES (VPZ): The Conceptual Site Plan provides for areas designated as View Protection Zones which shall protect a property owner's view of the Subject Property pursuant to Section 3.03.04(J) of the LDC. VPZs shall be designed and approved by the City prior to any site plan, Subdivision Master Plan or plat approval. Prior to the approval of any residential or institutional designation on Tracts 1, 2, 8 or 9, the Owner shall utilize the following VPZ guidelines in order to minimize adverse impacts on any abutting single-family residentially zoned areas:

- Views of the Subject Property from the rear yards of all existing platted lots located within any residentially zoned districts directly abutting the Subject Property shall be maintained. Peripheral (i.e. side) views from these lots may

be impacted by new development and new development may be visible from existing development;

- Views of the Subject Property from existing platted lots located within any residentially zoned area located across a right-of-way or a water body from the site shall be maintained to the maximum extent practical; and
- A VPZ must be established in one of the following ways:

  1) The VPZ must be included in a subdivision plat of the Subject Property and designated as a natural buffer area, with the responsibility for maintenance on the Owner, POA or other entity determined acceptable to the City; or

  2) The Owner must record a conservation easement over the VPZ area.

- All VPZ areas must be maintained in a natural state. Vegetation removal and mowing is prohibited, except to the extent these activities are undertaken to remove fire or safety hazards. Should removal activities be required due to a hazard, documentation of the hazard must be provided to the City prior to any vegetation removal and the applicable City approvals/permits granted.

11.8 LIGHTING: All lighting shall be designed to minimize light pollution to off-site properties and to comply with the LDC.

11.9 FIRE PROTECTION: Fire protection requirements for the Project will be met through a system of fire hydrants installed on the Subject Property by the Owner in accordance with City standards. The locations of fire hydrants shall be shown on all construction documents, site plans, or preliminary plats. The water requirements for the fire system will be served by the City's Utility Department. The Project shall comply

with the City's fire protection requirements. The City will provide fire protection services to the Project in accordance with established local response agreements.

11.10 UTILITIES: The Owner shall be responsible for any and all costs associated with the extension of existing City utilities to the Subject Property that may be required to serve this Project. All internal utility lines for the Project shall be placed underground.

11.11 INTERCONNECTIVITY AND ACCESS: All units within the Subject Property shall be interconnected by roadways and sidewalks as called for by the City's Comprehensive Plan. Tract 1 shall provide two points of access onto Lakeview Boulevard.

11.12 RESOURCE PROTECTION:

(a) Except as depicted on the Conceptual Site Plan and in this Development Agreement, the Owner shall comply with the resource protection requirements of the LDC.

(b) Natural upland buffers may be required by Chapter 10 of the LDC.

11.13 WETLANDS: An Environmental Assessment for the Subject Property was performed. All wetlands identified on **Exhibit "B"** shall be conserved and shall not be impacted with exception to the wetlands located on the north side of Tract 1. Owner and City shall, in good faith, determine if it is feasible, reasonable, and necessary for the health, safety, and welfare of the public to impact the wetlands to the north of Tract 1 to expand the City's stormwater capacity.

11.14 LOW IMPACT DEVELOPMENT PRACTICES: To further conservation practices identified in the LDC, the Project shall incorporate into the construction,

operation, and maintenance of all facilities, conservation strategies to include but not be limited to:

(a) Water Conservation:

i. Native, drought tolerant plant materials;

ii. St. Johns River Water Management District Florida Water Star program for protection of water resources;

iii. Turf grass – Irrigated area(s) shall not exceed 50% of landscape areas;

iv. Separate irrigation zones shall be required for turf, non-turf areas; and

v. Landscape areas shall not be irrigated using high-volume irrigation systems unless high pressure compensating spray heads are utilized.

All irrigation systems shall employ, at minimum, a rain shut-off device such as a soil moisture sensor or smart irrigation system capable of analyzing and ascertaining weather conditions and time of year. These restrictions shall be clearly stated in the Project's Covenants, Conditions and Restrictions ("CC&Rs"), should they be created.

11.15 PROHIBITION OF DISCHARGES: The Owner shall comply with the City of Palm Coast Code of Ordinances, Article VI, Prohibition of Discharges, and all applicable Local, State, Federal, and City water quality laws, rules, regulations, and ordinances.

11.16 STORMWATER POLLUTION PREVENTION: A stormwater pollution prevention plan shall be attached to and incorporated into the construction and permit

documents pursuant to the requirements of applicable Federal, State, and City regulations.

11.17 WILDLIFE PROTECTION: In the event that listed species have been determined to be residing on, or otherwise be significantly dependent on the Subject Property, the Owner shall obtain the necessary permits from the Florida Fish and Wildlife Conservation Commission and other applicable agencies. Activities associated with listed flora and fauna and shall comply with the LDC. Bear Smart Community principles shall be integrated into design and operations. The intent is to minimize human-animal conflicts from black bear and other species that may be drawn to area attractants.

11.18 SIGNAGE: The Owner may construct signage consistent with the LDC after receiving necessary permits.

11.19 MODEL HOMES: Up to five model homes on Tract 1can be constructed, occupied, and operated under Section 4.19.02 of the LDC. Sales and leasing activities shall be limited to properties located within the Project. Construction and Certificates of Occupancies shall be issued consistent with the City and state rules, regulations, and codes.

11.20 POLLUTANTS: Prior to issuance of any development permit, the Owner shall ensure there are no environmental hazards affecting any development located on the Subject Property and that the Subject Property is safe for human occupation. Contaminant assessment activities including soil and or groundwater sampling shall be conducted by a qualified professional that is authorized to assess and make recommendations for such activities per Florida Department of Environmental Protection standards and shall be consistent with applicable Florida Statutes. Upon

application for a Site Plan or Subdivision Master Plan, the Owner shall provide the City with all studies or reports required by Federal and State agencies, including but not limited to the FDEP and the Army Corp of Engineers. If soil or groundwater contamination is above State concentration levels, remedial action in accordance with FDEP standards shall be accomplished prior to construction activities within the affected area. No project identified on the Concept Plan may occur without strict compliance with this section.

11.21 SCHOOLS: Prior to the approval of any development plan of Tract 1, 3 or 8, the Owner shall coordinate with the Flagler County School District for the location and dedication of a bus stop if necessary.

SECTION 12. PHASING OF DEVELOPMENT.

(a) The Subject Property may be developed in multiple phases. Prior to the issuance of any permit for any phase of the Project (and prior to any construction of any improvement, building, or structure on the Subject Property), the Owner shall submit a Subdivision Master Plan or Site Plan for the relevant phase. Each tract of the Project will include infrastructure to support the proposed uses, including water and wastewater service, drainage, roads, vehicular, and pedestrian access facilities. All infrastructure necessary to support each phase that is constructed on the Subject Property shall be constructed concurrently with, or prior to construction of that phase of the Project, as approved by the City, and prior to the issuance of building permits for that phase. Adequate emergency vehicle access and turnarounds shall be provided at all times. No clearing of land may occur until Preliminary Plat or Site Plan approval is provided for that specific phase of development.

(b) Roadways shall be constructed concurrently with development of adjacent lots to insure that contiguous roadways are available at all times prior to the issuance of any building permits for that phase. To avoid unnecessary construction and repair costs, internal sidewalks may be constructed adjacent to each lot at the time the home is constructed and prior to the Certificate of Occupancy, and each home's building permit shall be conditioned on this requirement.

(c) The Subdivision Process: Subdivision of the property shall comply with Chapter 177, Florida Statutes and the City's Unified Land Development Regulations. The Conceptual Site Plan depicts the general layout of the Project and the various Tracts which are, as of the date of this Agreement, under unified title. Subsequent transfer of title to any Tract or other portion of the Property may be transferred in its entirety without platting if in compliance with Chapter 177, Florida Statutes. No infrastructure improvements may be made until approved by the City and other governing agencies.

SECTION 13. LOT AND BUILDING STANDARDS.

13.1 LOT DIMENSIONAL STANDARDS: All development Standards shall comply with the City of Palm Coast's LDC and those standards provided in Section 4 of this Agreement. If there is a conflict between the two, the standards provided in Section 4 shall control.

13.2 ARCHITECTURE: Shall be consistent with the City's LDC.

SECTION 14. LIST OF OUTSTANDING PERMITS/APPROVALS AND PROPER SEQUENCING.

(a) The failure of the Development Agreement to address any specific City, County, State, or Federal permit, condition, term, or restriction shall not relieve the

Owner of the requirement of complying with the law governing said permitting requirements, conditions, terms, or restrictions.

(b) All required City, County, State, or Federal permits shall be obtained prior to commencement of construction. This Development Agreement is not Preliminary Plat or Site Plan approval and the Owner remains responsible for complying with all provisions of the Land Development Code unless provided elsewhere in this Development Agreement.

SECTION 15. DEVELOPMENT FEES.

The Owner acknowledges and agrees that the City has enacted citywide impact fees and may in the future increase the amount of those fees. Except as provided for herein regarding park system impact fees, the Owner acknowledges that the Subject Property shall be subject to all fees in effect at the time of permitting.

SECTION 16. COMMON AREAS AND MAINTENANCE.

For all common areas, to ensure the long-term ownership, maintenance, and control of those areas, prior to the issuance of any building permit and before recording the final plat, the Owner shall maintain or establish a POA, in accordance with Florida law, comprised of the owners of lots or parcels with the development. The POA documentation shall be subject to the prior reasonable review of the City to ensure adequate provisions for the ongoing care and maintenance of the common areas. The documentation, whether contained in a deed restriction or otherwise, shall provide for the permanent maintenance of the Common Areas by the POA, minimum insurance requirements for the Association, adequate mechanisms to force financial participation by members of the POA, and restrictions on the ability to amend these requirements without

the City's approval. The City shall not be required to accept ownership or maintenance of any of the Project's common elements including but not limited to landscaping and buffers.

SECTION 17. BREACH, ENFORCEMENT, ALTERNATIVE DISPUTE, AND CONFLICT RESOLUTION.

(a) In the event of a breach hereof by either party hereto, the other party hereto shall have all rights and remedies allowed by law, including the right to specific performance of the provisions hereof.

(b) In the event that a dispute arises under this Development Agreement, and the City and Owner are unable to resolve the issues, the parties shall attempt to resolve all disputes informally. In the event of a failure to informally resolve all disputes, the City and Owner agree to engage in mediation before a certified Circuit Court mediator selected by the parties. In the event that the parties fail to agree to a mediator, a certified mediator will be selected solely by the City. The parties shall equally pay all costs of mediation.

(c) In the event of conflict between the terms of this Development Agreement and the LDC, the provisions of this Development Agreement shall prevail.

SECTION 18. NOTICES.

(a) All notices required or permitted to be given under this Development Agreement must be in writing and must be delivered to the City or the Owner at its address set forth below (or such other address as may be hereafter be designated in writing by such party).

(b) Any such notice must be personally delivered or sent by certified mail, overnight courier, facsimile, or telecopy.

(c) Any such notice will be deemed effective when received (if sent by hand delivery, overnight courier, telecopy, or facsimile) or on that date which is three (3) days after such notice is deposited in the United States mail (if sent by certified mail).

(d) The parties' addresses for the delivery of all such notices are as follows:

As to the City: City Manager
160 Lake Avenue
Palm Coast, FL 32164

As to the Owner: Matanzas GC Palm Coast, LLC.
200 Ocean Crest Drive, Unit 111
Palm Coast, FL 32137

With copies to: Michael D. Chiumento III, Esq.
Chiumento Dwyer Hertel Grant
145 City Place, Suite 301
Palm Coast, FL 32164

SECTION 19. SEVERABILITY.

The terms and provisions of this Development Agreement are not severable and in the event any portion of this Development Agreement shall be found to be invalid or illegal, then the entire Development Agreement shall be null and void.

SECTION 20. SUCCESSORS AND ASSIGNS.

(a) This Development Agreement and the terms and conditions hereof shall be binding upon and inure to the benefit of the City and Owner and their respective successors-in-interest. The terms and conditions of this Development Agreement similarly shall be binding upon the Subject Property and shall run with the land and the title to the same.

(b) This Development Agreement touches and concerns the Subject Property.

(c) The Owner has expressly covenanted and agreed to this provision and all other terms and provisions of this Development Agreement.

SECTION 21. GOVERNING LAW, VENUE, AND COMPLIANCE WITH LAW.

(a) This Development Agreement shall be governed by and construed in accordance with the laws of the State of Florida and the Code of Ordinances of the City of Palm Coast.

(b) Venue for any dispute shall be in the Seventh Judicial Circuit Court in and for Flagler County, Florida.

(c) The Owner shall fully comply with all applicable Local, State, and Federal environmental regulations and all other laws of similar type or nature.

(d) This Development Agreement shall not limit the future exercise of the police powers of the City to enact ordinances, standards, or rules regulating development generally applicable to the entire area of the City, such as requiring compliance with the City capital facilities plan, parks master plan (including parks and trail dedications), utility construction and connections, mandating utility capacities, requiring street development, or other such similar land development regulations and requirements.

(e) If State or Federal laws are enacted after execution of this Development Agreement which are applicable to and preclude the parties' compliance with this Development Agreement, this Development Agreement shall be modified or revoked as necessary to comply with the relevant law.

(f) This Development Agreement shall also not be construed to prohibit the City from adopting lawfully imposed impact fees applicable to the Owner and the development of the Conceptual Plan authorized hereunder.

SECTION 22. TERM / EFFECTIVE DATE.

(a) This Development Agreement shall be effective upon approval by the City Council and execution of this Development Agreement by all parties (the "Effective Date").

(b) This Development Agreement provides an initial timeframe of seven (7) years to commence development from the Effective Date.

(c) Should development not commence within the initial established timeframe, the term of this Development Agreement may be modified by action of the City Council, at City Council's discretion. Failure to obtain an extension shall cause the zoning of all lands encumbered to revert to the previous equivalent zoning designation.

SECTION 23. RECORDATION.

Upon approval by the City Council and execution of this Development Agreement by all parties, this Development Agreement and any and all amendments hereto shall be recorded by the City with the Clerk of the Circuit Court of Flagler County within fourteen (14) days after its execution by the City, and the Development Agreement shall run with the land. The Owner shall pay the costs to record this Development Agreement.

SECTION 24. THIRD PARTY RIGHTS.

This Development Agreement is not a third-party beneficiary contract, and shall not in any way whatsoever create any rights on behalf of any third party.

SECTION 25. SPECIFIC PERFORMANCE / TIME IS OF THE ESSENCE.

(a) Strict compliance shall be required with each and every provision of this Development Agreement. The parties agree that each has the remedy of specific performance of these obligations.

(b) Time is of the essence to this Development Agreement and every right or responsibility required herein shall be performed within the times specified.

SECTION 26. ATTORNEYS' FEES.

In the event of any action to enforce the terms of this Development Agreement, the prevailing party shall be entitled to recover reasonable attorneys' fees, paralegals' fees, and all costs incurred, whether the same be incurred in a pre-litigation negotiation, litigation at the trial, or appellate level.

SECTION 27. FORCE MAJEURE.

The parties agree that in the event that the failure by either party to accomplish any action required hereunder within a specific time period ("Time Period") constitutes a default under terms of this Development Agreement, and if any such failure is due to any unforeseeable or unpredictable event or condition beyond the control of such party, including, but not limited to: acts of God, acts of government authority (other than the City's own acts), acts of public enemy or war, terrorism, riots, civil disturbances, power failure, shortages of labor or materials, injunction or other court proceedings beyond the control of such party, or severe adverse weather conditions ("Uncontrollable Event"); then notwithstanding any provision of this Development Agreement to the contrary, that failure shall not constitute a default under this Development Agreement and any Time Period prescribed hereunder shall be extended by the amount of time that such party was unable to perform solely due to the Uncontrollable Event.

SECTION 28. INDEMNIFICATION.

The Owner shall indemnify for and save the City harmless from and against any and all liability, claims for damages and suits for any injury to any person or persons, or damages to any property of any kind whatsoever arising out of in any way connected with the Owner's development of the Subject Property as provided in this Development Agreement. This agreement by the Owner to indemnify and hold the City harmless shall include, but not be limited to: all charges, expenses, and costs, including reasonable attorneys' fees, both at trial and on appeal, incurred by the City on account of or by reason of such injuries, damages, liability, claims, suits, or losses and all damages arising therefrom.

SECTION 29. ENFORCEMENT; CITY'S RIGHT TO TERMINATE DEVELOPMENT AGREEMENT.

(a) This Development Agreement shall continue to be enforceable, unless lawfully terminated, notwithstanding any subsequent changes in any applicable law.

(b) The failure by the Owner to perform each and every one of its obligations hereunder shall constitute a default, entitling the City to pursue whatever remedies are available to it under Florida law or equity, including, without limitation, an action for specific performance and/or injunctive relief, or alternatively, the termination of this Development Agreement. Prior to the City filing any action or terminating this Development Agreement as a result of a default under this Development Agreement, the City shall first provide the Owner written notice of said default. Upon receipt of said notice, the Owner shall be provided a thirty (30) day period in which to cure the default to the reasonable satisfaction of the City prior to the City filing an action or terminating

this Development Agreement. If thirty (30) days is not considered by the parties to be a reasonable period in which to cure the default, the cure period shall be extended to such cure period acceptable to the City, but in no case shall that cure period exceed ninety (90) days from initial notification of default. Upon termination of the Development Agreement, the Owner shall immediately be divested of all rights and privileges granted hereunder.

SECTION 30. CAPTIONS.

Sections and other captions contained in this Development Agreement are for reference purposes only and are in no way intended to describe, interpret, define, or limit the scope, extent or intent of this Development Agreement, or any provision hereof.

SECTION 31. EXHIBITS.

Each exhibit referred to and attached to this Development Agreement is an essential part of this Development Agreement. The exhibits and any amendments or revisions thereto, even if not physically attached hereto, shall be treated as if they are part of this Development Agreement.

SECTION 32. INTERPRETATION.

(a) The Owner and the City agree that all words, terms, and conditions contained herein are to be read in concert, each with the other, and that a provision contained under one (1) heading may be considered to be equally applicable under another in the interpretation of this Development Agreement.

(b) This Development Agreement shall not be construed more strictly against either party on the basis of being the drafter thereof, and both parties have contributed to the drafting of this Development Agreement.

SECTION 34. FURTHER ASSURANCES.

Each party agrees to sign any other and further instruments and documents consistent herewith as may be necessary and proper to give complete effect to the terms of this Development Agreement.

SECTION 35. COUNTERPARTS.

This Development Agreement may be executed in any number of counterparts, each of which shall be deemed an original, but all of which, taken together, shall constitute one (1) and the same document.

SECTION 36. MODIFICATIONS, AMENDMENTS AND NON-WAIVER.

(a) Unless provided for elsewhere in this Development Agreement, (1) Amendments to and waivers of the provisions herein shall be made by the parties only in writing by formal amendment, and (2) This Development Agreement shall not be modified or amended except by written agreement executed by all parties hereto and upon approval of the City Council of the City of Palm Coast.

(b) Failure of any party hereto to exercise any right hereunder shall not be deemed a waiver of any such right and shall not affect the right of such party to exercise at some future date any such right or any other right it may have.

SECTION 37. ENTIRE AGREEMENT AND EFFECT ON PRIOR AGREEMENTS.

This Development Agreement constitutes the entire agreement between the parties and supersedes all previous oral discussions, understandings, and agreements of any kind and nature, as between the parties relating to the subject matter of this Development Agreement.

IN WITNESS WHEREOF, the Parties have executed this Development Agreement on the dates set forth below.

MATANZAS WOODS GOLF COURSE:

Reserved Parcel "A", Lakeview - Section 37 Palm Coast Park at Palm Coast, as recorded in Map Book 13, pages 1 through 29, Public Records of Flagler County, Florida, being more particularly described as follows:
From a POINT OF BEGINNING, being the northeast corner of Block 165 of said Plat of Lakeview; thence North 89°30'56" East 21.68 feet to a point on a curve; thence southerly along a curve to the left having an arc length of 349.56 feet, a radius of 800.00 feet, a central angle of 25°02'07" and a chord bearing South 26°22'21" East, 346.78 feet to a point of tangency; thence South 38°53'25" East 2087.61 feet to a point of curvature; thence southerly along a curve to the right having an arc length of 266.63 feet, a radius of 1120.00 feet, a central angle of 13°38'23" and a chord bearing South 32°04'13" East, 265.99 feet to a point of tangency; thence South 25°15'02" East 772.55 feet to a point of cusp; thence northwesterly along a curve to the left having an arc length of 213.75 feet, a radius of 150.00 feet, a central angle of 81°38'47" and a chord bearing North 66°04'26" West 196.12 feet to a point; thence South 16°53'50" East 110.00 feet to a point on a curve; thence westerly along a curve to the left having an arc length of 11.66 feet, a radius of 40.00 feet, a central angle of 16°42'25" and a chord bearing South 64°44'57" West 11.62 feet to a point; thence North 33°36'15" West 110.00 feet to a point on a curve; thence southerly along a curve to the left having an arc length of 213.75 feet, a radius of 150.00 feet, a central angle of 81°38'47" and a chord bearing South 15°34'21" West 196.12 feet to a point of tangency; thence South 25°15'02" East 100.25 feet to a point on a curve; thence southwesterly along a curve to the left having an arc length of 217.30 feet, a radius of 280.98 feet, a central angle of 44°18'38" and a chord bearing South 42°35'39" West 211.92 feet to a point of tangency; thence South 08°35'49" West 179.39 feet; thence North 81°24'11" West 913.66 feet; thence South 08°35'49" West 125.00 feet; thence North 81°24'11" West 40.00 feet; thence North 08°35'49" East 125.00 feet; thence North 81°24'11" West 125.00 feet to a point of curvature; thence westerly along a curve to the left having an arc length of 180.00 feet, a radius of 225.00 feet, a central angle of 45°50'12" and a chord bearing South 75°40'43" West,175.24 feet to a point; thence South 37°14'23" East, 125.00 feet to a point on a curve; thence southerly along a curve to the left having an arc length of 77.08 feet, a radius of 100.00 feet, a central angle of 44°09'48" and a chord bearing South 30°40'43" West 75.19 feet to a point of tangency; thence South 08°35'49" West, 237.34 feet; thence North 81°24'11" West 87.50 feet; thence North 51°24'11" West 130.00 feet to a point of curvature; thence westerly along a curve to the left having an arc length of 213.75 feet, a radius of 150.00 feet, a central angle of 81°38'47" and a chord bearing South 87°46'25" West,196.12 feet to a point; thence South 43°02'58" East 110.00 feet to a point on a curve; thence southerly along a curve to the left having an arc length of 11.66 feet, a radius of 40.00 feet, a central angle of 16°42'26" and a chord bearing South 38°35'49" West 11.62 feet to a point; thence North 59°45'24" West 110.00 feet; thence South 38°35"49" West 128.21 feet; thence North 51°24'11" West 1018.03 feet; thence North 38°35'49" East 380.00 feet; thence South 51°24'11" East 500.00 feet to a point of curvature; thence easterly along a curve to the left having an arc length of 353.43 feet, a radius of 225.00, a central angle of

90°00'00" and a chord bearing North 83°35'49" East, 318.20 feet to a point; thence North 51°24'11" West 125.00 feet; thence North 38°35"49" East 230.92 feet; thence South 51°24'11" East 100.00 feet; thence South 81°24'11" East 993.30 feet to a point of curvature; thence northeasterly along a curve to the left having an arc length of 431.48 feet, a radius of 225.00 feet, a central angle of 109°52'35" and a chord bearing North 43°39'32" East, 368.34 feet to a point of tangency; thence North 11°16'46" West 478.51 feet to a point of curvature; thence northwesterly along a curve to the left having an arc length of 245.29 feet, a radius of 225.00 feet, a central angle of 62°27'41" and a chord bearing North 42°30'36" West, 233.32 feet to a point; thence North 08°35'49" East 77.01 feet to a point of curvature; thence northwesterly along a curve to the left having an arc length of 353.43 feet, a radius of 225.00 feet, a central angle of 90°00'00" and a chord bearing North 36°24'11" West 318.20 feet to a point; thence westerly along a curve to the left having an arc length of 446.47 feet, a radius of 150.00 feet, a central angle of 170°32'16" and a chord bearing North 76°40'19" West 298.98 feet to a point of tangency; thence South 08°35'49" West 149.66 feet; thence North 81°24'11" West 50.00 feet; thence North 08°35'49" East 125.00 feet; thence North 78°43'26" West 153.29 feet; thence North 09°33'43" West 148.11 feet; thence South 69°50'14" East 67.79 feet to a point of curvature; thence easterly along a curve to the left having an arc length of 146.25 feet, a radius of 150.00 feet, a central angle of 55°51'48" and a chord bearing North 87°23'42" East,140.53 feet to a point; thence North 30°32'12" West 110.00 feet to a point on a curve; thence northeasterly along a curve to the left having an arc length of 11.66 feet, a radius of 40.00 feet, a central angle of 16°42'25" and a chord bearing North 51°06'35" East 11.62 feet to a point; thence South 47°14'37" East 110.00 feet to a point on a curve; thence northerly along a curve to the left having an arc length of 213.75 feet, a radius of 150.00 feet, a central angle of 81°38'48" and a chord bearing North 01°55'59" East 196.12 feet to a point of tangency; thence North 38°53'25" West 326.21 feet; thence North 80°07'23" West 122.65 feet; thence North 09°33'42" West 80.00 feet to a point of curvature; thence northerly along a curve to the left having an arc length of 166.36 feet, a radius of 325.00 feet, a central angle of 29°19'42" and a chord bearing North 24°13'34" West,164.55 feet to a point of tangency; thence North 38°53'25" West 200.00 feet; thence South 51°06'35" West 125.00 feet; thence North 38°53'25" West 20.00 feet; thence North 51°06'35" East 125.00 feet; thence North 38°53'25" West 178.81 feet to a point of curvature; thence northwesterly along a curve to the left having an arc length of 292.66 feet, a radius of 325.00 feet, a central angle of 51°35'39" and a chord bearing North 64°41'14" West, 282.87 feet to a point of tangency; thence South 89°30'56" West 678.94 feet to a point of curvature; thence southwesterly along a curve to the left having an arc length of 389.08 feet, a radius of 225.00 feet, a central angle of 99°04'39" and a chord bearing South 39°58'37" West, 342.38 feet to a point of cusp; thence North 09°33'43" West 137.22 feet; thence North 00°29'04" West 425.00 feet; thence North 89°30'56" East 1200.00 feet; thence North 00°29'04" West 125.00 feet to the POINT OF BEGINNING.

ALSO INCLUDING:

Reserved Parcel "C", Lakeview - Section 37 Palm Coast Park at Palm Coast, as recorded in Map Book 13, pages 1 through 29, Public Records of Flagler County, Florida, being more particularly described as follows:
From a POINT OF BEGINNING, being the northwest corner of said Reserved Parcel "C"; thence North 89°26'28" East 630.08 feet; thence South 38°43'02" West 202.91 feet; thence South 51°40'07" East 125.00 feet to a point on a curve; thence southerly along a curve to the left having an arc length of 250.77 feet, a radius of 300.00 feet; a central angle of 47°53'36" and a chord bearing South 14°23'05" West 243.53 feet to a point of tangency; thence South 09°33'43" East 403.87 feet; thence South 80°26'17" West 125.00 feet; thence South 09°33'43" East 520.00 feet, thence North 80°26'17" East 125.00 feet; thence South 09°33'43" East 40.00 feet; thence South 80°26'17" West 125.00 feet; thence South 09°33'43" East 980.61 feet to a point of curvature; thence southerly along a curve to the left having an arc length of 441.04 feet, a radius of 725.00 feet, a central angle of 34°51'17" and a chord bearing South 26°59'21" East, 434.27 feet to a point; thence North 45°35'00" East 55.00 feet; thence South 44°25'00" East 67.22 feet; thence North 39°51'14" East 73.36 feet to a point on a curve; thence southeasterly along a curve to the left having an arc length of 13.16 feet, a radius of 600.00 feet; a central angle of 01°15'25" and a chord bearing South 50°46'29" East 13.16 feet to a point of tangency; thence South 51°24'11" East 170.76 feet; thence South 54°59'31" West 770.58 feet; thence North 35°00'29" West 649.53 feet to a point on the east right of way line of U.S. Highway No.1; thence northerly along said right of way line of the following six courses; run North 09°59'31" East 128.08 feet; thence South 89°43'01" West 5.08 feet; thence North 09°59'31" East 253.32 feet to a point of curvature; thence northerly along a curve to the left having an arc length of 655.06 feet, a radius of 2030.05 feet, a central angle of 18°29'18" and a chord bearing North 00°44'52" East, 652.23 feet to a point of tangency; thence North 08°29'47" West 179.58 feet; thence South 81°30'12" West 20.00 feet; thence North 08°29'47" West 1583.88 feet to the POINT OF BEGINNING.

ALSO INCLUDING:

Reserved Parcel "D" Lake View - Section 37 Palm Coast Park at Palm Coast, as recorded in Map Book 13, pages 1 through 29, Public Records of Flagler County, Florida, being more particularly described as follows:
From a POINT OF BEGINNING, being the most northerly corner of said Reserved Parcel "D"; thence South 38'53'28" East 93.32 feet; thence North 89°30'56" East 936.80 feet; thence South 00°29'04" East 432.94 feet; thence South 09°33'42" East 57.28 feet to a cusp point; thence northwesterly along a curve to the left having an arc length of 317.78 feet, a radius of 225.00 feet; a central angle of 80°55'21" and a chord bearing North 50°01'23" West 292.02 feet to a point of tangency; thence South 89°30'56" West 846.10 feet; thence North 09°33'43" West 149.00 feet to a point of curvature; thence northerly along a curve to the right having an arc length of 254.23 feet, a radius of 240.00 feet, a central angle of 60°41'38" and a chord bearing North 20°47'06" East, 242.51 feet to the POINT OF BEGINNING.

ALSO INCLUDING:

A parcel of land being a portion of Reserved Parcel "E", Lakeview - Section 37 Palm Coast Park at Palm Coast, as recorded in Map Book 13, pages 1 through 29, Public Records of Flagler County, Florida, being more particularly described as follows: From a POINT OF BEGINNING, being the most southerly corner at said Reserved Parcel "E"; thence North 64°44'58" East 526.36 feet; thence North 25°15'02" West 335.20 feet; thence South 64°44'58" West 125.00 feet; thence North 25°15'02" West 620.00 feet to a point of curvature; thence northwesterly along a curve to the right having an arc length of 60.46 feet, a radius of 425.00 feet, a central angle of 08°09'02" and a chord bearing North 21°10'31" West, 60.41 feet to the southeasterly corner of a parcel described in Official Records Book 492, pages 936-939; thence northerly along the boundary of said parcel described in Official Records Book 492, pages 936-939 for the following five courses; thence South 72°54'00" West 10.00 feet; thence North 53°38'13" West 20.65 feet; thence South 05°01'26" West 11.50 feet; thence North 10°42'21" West 31.82 feet; thence North 01°05'36" East 53.63 feet; thence North 85°41'45" East 24.67 feet to the boundary of above said Reserved Parcel "2", being a point on a curve; thence northerly along a curve to the right having an arc length of 28.33 feet, a radius of 425.00 feet; a central angle of 03°49'11" and a chord bearing North 02°23'39" West 28.33 feet to a point of tangency; thence North 00°29'04" West 1536.30 feet to a point of curvature; thence northeasterly along a curve to the right having an arc length of 213.75 feet, a radius of 150.00 feet; a central angle of 81°38'47" and a chord bearing North 40°20'20" East, 196.12 feet to a point; thence South 08°50'16" East 110.00 feet to a point on a curve; thence easterly along a curve to the right having an arc length of 11.66 feet, a radius of 40.00 feet, a central angle of 16°42'25" and a chord bearing North 89°30'57" East 11.62 feet to a point; thence North 07°52'09" East 110.00 feet to a point on a curve; thence southeasterly along a curve to the right having an arc length of 213.75 feet, a radius of 150.00 feet, a central angle of 81°38'47" and a chord bearing South 41°18'27" East 196.12 feet to a point; thence South 85°19'06" East 128.73 feet; thence South 08°50'16" East 110.00 feet to a point on a curve; thence easterly along a curve to the right having an arc length of 11.66 feet, a radius of 40.00 feet a central angle of 16°42'25" and a chord bearing North 89°30'57" East 11.62 feet to a point; thence North 07°52'09" East 110.00 feet to a point on a curve; thence southeasterly along a curve to the right having an arc length of 213.75 feet, a radius of 150.00 feet, a central angle of 81°38'47" and a chord bearing South 41°18'27" East 196.12 feet to a point of tangency; thence South 00°29'04" East 202.47 feet to a point of cusp; thence northeasterly along a curve to the right having an arc length of 213.75 feet, a radius of 150.00 feet, a central angle of 81°38'47" and a chord bearing North 40°20'20" East, 196.12 feet to a point; thence South 08°50'16" East 110.00 feet to a point on a curve; thence easterly along a curve to the right having an arc length of 11.66 feet, a radius of 40.00 feet a central angle of 16°42'25" and a chord bearing North 89°30'57" East 11.62 feet to a point; thence North 07°52'09" East 110.00 feet to a point on a curve; thence southeasterly along a curve to the right having an arc length of 213.75 feet, a radius of 150.00 feet; a central angle of 81°38'47" and a chord bearing South 41°18'27" East 196.12 feet to a point of cusp; thence northeasterly along a curve to the right having an arc length of 213.75 feet, a radius of 150.00 feet; a central angle of 81°38'47" and a chord bearing North 40°20'20" East 196.12 feet to a point; thence South 08°50'16" East 110.00 feet to a point; thence easterly along a curve to the right having an arc length of 11.66 feet, a radius of 40.00 feet, a central angle of

16°42'25" and a chord bearing North 89°30'57" East 11.62 feet to a point; thence North 07°52'09" East 110.00 feet to a point on a curve; thence southeasterly along a curve to the right having an arc length of 213.75 feet, a radius of 150.00 feet; a central angle of 81°38'47" and a chord bearing South 41°18'27" East 196.12 feet to a point of tangency; thence South 00°29'04" East 1003.67 feet; thence South 25°15'02" East 260.04 feet to a point of curvature; thence southerly along a curve to the right having an arc length of 353.43 feet, a radius of 225.00 feet, a central angle of 90°00'00" and a chord bearing South 19°44'58" West, 318.20 feet to a point of tangency; thence South 64°44'58" West 800.00 feet; thence South 25°15'02" East 300.00 feet; thence North 64°44'58" East 910.00 feet to a point of curvature; thence easterly along a curve to the right having an arc length of 309.71 feet, a radius of 425.00 feet, a central angle of 41°45'11" and a chord bearing North 85°37'33" East, 302.90 feet to a point; thence South 16°30'09" West 125.00 feet to a point on a curve; thence easterly along a curve to the right having an arc length of 34.00 feet, a radius of 300.00 feet, a central angle of 06°29'36" and a chord bearing South 70°15'03" East 33.98 feet to a point; thence North 22°59'45" East 125.00 feet to a point on a curve; thence southeasterly along a curve to the right having an arc length of 309.71 feet, a radius of 425.00 feet, a central angle of 41°45'13" and a chord bearing South 46°07'39" East 302.91 feet to a point of cusp; thence North 25°15'02" West 822.28 feet to a point of curvature; thence northeasterly along a curve to the right having an arc length of 561.16 feet, a radius of 275.00 feet, a central angle of 116°54'59" and a chord bearing North 33°12'28" East, 468.74 feet to a point of tangency; thence South 88°20'03" East 756.56 feet; thence South 07°23'44" West 126.38 feet to a point of on a curve; thence easterly along a curve to the right having an arc length of 150.15 feet, a radius of 150.00 feet, a central angle of 57°21'14" and a chord bearing South 53°55'39" East 143.96 feet to a point of tangency; thence South 25°15'02" East 40.00 feet; thence North 64°44'58" East 125.00 feet to the easterly line of Belle Terre Waterway; thence North 25°15'02" West along said easterly line of Belle Terre Waterway for a distance of 862.29 feet to a point of curvature; thence depart said boundary line of said Reserved Parcel "2" and run westerly along the southerly line of Jefferson Davis Waterway for the following four courses: run westerly along a curve to the left having an arc length of 921.97 feet, a radius of 825.00 feet, a central angle of 64°01'49" and a chord bearing North 57°15'57" West, 874.74 feet to a point of tangency; thence North 89°16'51" West 858.76 feet to a point of curvature; thence westerly along a curve to the right having an arc length of 411.10 feet, a radius of 675.00 feet, a central angle of 34°53'44" and a chord bearing North 71°49'59" West, 404.78 feet to a point of tangency; thence North 54°23'07" West 585.58 feet to a point of curvature; thence westerly along a curve to the left having an arc length of 177.30 feet, a radius of 825.00 feet, a central angle of 12°18'47" and a chord bearing North 60°32'31" West,176.96 feet to a point on the westerly boundary of said Reserved Parcel "2"; thence southerly and westerly along said westerly boundary of said Reserved Parcel "E" for the following seven courses: South 29°30'56" West 419.65 feet; thence South 14°30'56" West 66.19 feet; thence South 00°29'04" East 810.00 feet to a point of curvature; thence southeasterly along a curve to the right having an arc length of 353.43 feet, a radius of 225.00 feet, a central angle of 90°00'00" and a chord bearing South 44°30'56" West, 318.20 feet to a point of tangency; thence South 89°30'56" West 659.20 feet to a point on a curve; thence southeasterly along a curve to the left having an arc length of 331.52 feet, a radius of 720.00 feet, a

central angle of 26°22'53" and a chord bearing South 25°41 '59" East 328.59 feet to a point of tangency; thence South 38°53'25" East 1801.29 feet to the POINT OF BEGINNING.

ALSO INCLUDING:

Part of Government Sections 21 and 22, Township 10 South, Range 30 East, Flagler County, Florida being that part of PARCEL NO. 2 of the property described in Official Records Book 142, pages 278-279, lying south of Jefferson Davis Waterway and being more particularly described as follows:
From a POINT OF REFERENCE being a point on the easterly boundary line of the above described PARCEL NO. 2, said point being the northwest corner of Reserved Parcel "2" as shown on the recorded plat of Lakeview - Section 37 Palm Coast Park at Palm Coast, as recorded in Map Book 13, pages 1 through 29, Public Records of Flagler County, Florida; thence South 29°30'56" West along the easterly boundary of said PARCEL NO. 2 being also along the westerly boundary of said Reserved Parcel "E" for a distance of 390.35 feet to the POINT OF BEGINNING; thence continue along the easterly and southerly boundary of said PARCEL NO. 2 being also along the westerly and northerly boundary of said Reserved Parcel "E" for the following seven courses: run South 29°30'56" West 419.65 feet; thence South 14°30'56" West 66.19 feet; thence South 00°29'04" East 810.00 feet to a point of curvature; thence southwesterly along a curve to the right having an arc length of 353.43 feet, a radius of 225.00 feet, a central angle of 90°00'00" and a chord bearing South 44°30'56" West, 318.20 feet to a point of tangency; thence South 89°30'56" West 659.20 feet to a point on a curve; thence northerly along a curve to the right having an arc length of 151.10 feet, a radius of 720.00 feet, a central angle of 12°01'28" and a chord bearing North 06°29'48" West 150.83 feet to a point; thence South 89°30'56" West 1280.00 feet to the northwest corner of Block 164 of said plat of Lakeview; thence North 12°53'48" East along the southerly line of said Jefferson Waterway for a distance of 297.66 feet to a point on a curve; thence northeasterly along a curve to the right having an arc length of 913.19 feet, a radius of 825.00 feet, a central angle of 63°25'15" and a chord bearing North 39°41'03" East 867.28 feet to a point of tangency; thence North 71°23'41" East 1251.37 feet to a point of curvature; thence easterly along a curve to the right having an arc length of 603.42 feet, a radius of 825.00 feet; a central angle of 41°54'25" and a chord bearing South 87°39'07" East, 590.05 feet to the POINT OF BEGINNING.

ALSO INCLUDING:

All of that land vacated in the Subdivision Plat Of Lakeview - Section 37 Palm Coast Map Book 13 Pages 1 through 29, per Resolution 95-56 as recorded in Official Records Book 538 at Pages 1611 through 1613, Public Records of Flagler County, Florida, being described as follows:
BEGINNING at the southwesterly corner of Lot 22, Block 143 of the aforesaid Lakeview - Section 37; thence North 80°26'17" East a distance of 49.47 feet to a point of curvature of a curve to the right; thence northeasterly along said curve having a radius of 300.00 feet, a central angle of 14°34'59" an arc of 76.36 feet and a chord bearing North

87°43'47" East, 76.15 feet to a point on a non-tangent line; thence North 09°33'43" West, a distance of 1273.40 feet; thence North 80°26'17" East a distance of 124.48 feet; thence South 47°01'13" East a distance of 97.49 feet to a point on a non-tangent curve; thence northeasterly along a curve to the right having a radius of 150.00 feet; a central angle of 08°07'48", an arc length of 21.28 feet and a chord bearing North 47°02'41" East, 21.27 feet to a point of tangency; thence North 51°06'35" East a distance of 100.00 feet; thence South 38°53'25" East a distance of 50.00 feet; thence South 51°06'35" West a distance of 100.00 feet to a point of curvature; thence southwesterly along a curve to the left having a radius of 100.00 feet, central angle of 05°43'46, an arc length of 10.00 feet and a chord bearing South 48°14'42" West,10.00 feet to a point on a non-tangent line; thence South 50°07'21" East a distance of 153.93 feet; thence South 51°06'35" West a distance of 20.25 feet; thence South 09°33'43" East a distance of 936.00 feet; thence South 35°36'55" East a distance of 82.42 feet; thence South 81°24'11" East a distance of 240.00 feet; thence South 08°35'49" West a distance of 125.00 feet; thence South 81°24'11" East a distance of 27.55 feet to a point on a non-tangent curve; thence southwesterly along curve to the left having a radius of 40.00 feet, a central angle of 77°21'52", an arc of 54.01 feet and a chord bearing South 08°35'49" West 50.00 feet to a point on a non-tangent line; thence North 81°24'11" West a distance of 4.59 feet; thence South 08°35'49" West a distance of 125.00 feet; thence North 81°24'11" West a distance of 480.00 feet; thence South 84°38'20" West a distance of 69.97 feet; thence North 03°00'11" West a distance of 144.02 feet to a point on a non-tangent curve; thence southwesterly along a curve to the left having a radius of 250.00 feet, a central angle of 13°34'27", an arc of 59.23 feet and a chord bearing South 87°13'31" West, 59.09 feet to a point of tangency; thence South 80°26'17" West a distance of 51.03 feet to a point on a non-tangent curve; thence northwesterly along a curve to the left having a radius of 200.00 feet, a central angle of 07°10'51" an arc of 25.07 feet and a chord bearing North 05°58'17" West 25.05 feet to a point of tangency; thence North 09°33'43" West a distance of 25.00 feet to the POINT OF Beginning, the above described parcel of land is situated in Section 22, Township 10 South, Range 30 East, Flagler County, Florida.

ALSO INCLUDING:

Part of Reserved Parcel "R-1", Lakeview - Section 37 Palm Coast Park at Palm Coast, as recorded in Map Book 13, pages 1 through 29, Public Records of Flagler County, Florida, being more particularly described as follows:
From a POINT OF BEGINNING, being the most easterly corner of said Reserved Parcel "R-1"; thence South 38°35'49" West along the southeasterly line of said Reserved Parcel "R-1" for a distance of 767.47 feet; thence North 51°24'11" West 1300.81 feet to the most westerly corner of said Reserved Parcel "R-1"; thence North 54°59'31" East,148.96 feet; thence South 59°22'19" East 485.17 feet; thence South 73°43'22" East 217.49 feet; thence North 77°17'42" East 363.21 feet; thence North 38°35'49" East 191.24 feet; thence South 51°24'11" East 350.00 feet to the POINT OF BEGINNING.

ALSO INCLUDING:

A parcel of land being a portion of Reserved Parcel "E" according to the Subdivision Plat Lakeview Section 37, Palm Coast, recorded in Map Book 13, Pages 1 Through 29, of the Public Records of Flagler County, Florida, being more particularly described as follows: A POINT OF REFERENCE being the northeast corner of Lot 1, Block 75; thence North 25°15'02" West along the west line of Belle Terre Waterway a distance of 862.29 feet to THE POINT OF BEGINNING; thence departing Belle Terre Waterway (as platted) 921.97 feet along the arc of a curve to the left (concave southerly) have a central angle of 64°01'49", a radius of 825.00 feet, a chord bearing of North 57°15'57" West and a chord distance of 874.74 feet to a point of tangency, thence North 89°16'51" West a distance of 858.76 feet to a point of curvature; thence 411.10 feet along the arc of a curve to the right (concave northerly) having a central angle of 34°53'44", a radius of 675.00 feet, a chord Bearing of North 71°49'59" West and a chord distance of 404.78 feet to the end of said curve being a point on the boundary of Jefferson Davis Waterway as recorded in Official Records Book 549, Pages 966 through 990, of the Public Records of Flagler County, Florida; thence North 35°36'53" East along said waterway a distance of 30.00 feet to a point on a non-tangent curve; thence easterly 392.83 feet along the arc of a curve to the left (concave northerly)having a central angle of 34°53'44", a radius of 645.00 feet, a chord bearing of South 71°49'59" East and a chord distance of 386.79 feet to a point of tangency; thence South 89°16'51" East a distance of 858.76 feet to a point of curvature; thence 955.50 feet along the arc of a curve to the right concave southwesterly having a central angle of 64°01'49", a radius of 855.00 feet, a chord bearing of South 57°15'57" East and a chord distance of 906.54 feet to the end of said curve; thence South 64°44'58" West a distance of 30.00 feet to the POINT OF BEGINNING.

ALSO INCLUDING:

A PARCEL OF LAND LYING EAST OF U.S. HIGHWAY NO. 1 (STATE ROAD 5), BEING A PORTION OF LONDON WATERWAY, LAKEVIEW SECTION 37, AS RECORDED IN MAP BOOK 13, PAGE 26, LOCATED IN GOVERNMENT SECTION 28, TOWNSHIP 10 SOUTH, RANGE 30 EAST, FLAGLER COUNTY, FLORIDA, BEING MORE PARTICULARLY DESCRIBED AS FOLLOWS:
AS A POINT OF REFERENCE, COMMENCE AT THE INTERSECTION OF THE NORTHEASTERLY LINE OF ASHWOOD WATERWAY (A 300 FOOT RIGHT-OF-WAY) PER SAID LAKEVIEW SECTION 37, WITH THE EASTERLY RIGHT-OF-WAY LINE OF U.S. HIGHWAY No. 1, (STATE ROAD 5, A 175 FOOT RIGHT-OF-WAY AT THIS POINT); THENCE DEPARTING SAID RIGHT-OF-WAY LINE SOUTH 35°00'29" EAST ALONG SAID NORTHEASTERLY LINE OF ASHWOOD WATERWAY FOR A DISTANCE OF 649.53 FEET TO THE INTERSECTION OF THE NORTHWESTERLY LINE OF SAID LONDON WATERWAY, ALSO BEING THE POINT OF BEGINNING OF THIS DESCRIPTION; THENCE DEPARTING SAID ASHWOOD WATERWAY LINE NORTH 54°59'31" EAST ALONG THE NORTHWESTERLY LINE OF SAID LONDON WATERWAY FOR A DISTANCE OF 770.58 FEET TO THE INTERSECTION OF THE SOUTHWESTERLY RIGHT-OF-WAY LINE OF LONDON DRIVE, (A 60 FOOT RIGHT-OF-WAY), PER SAID LAKEVIEW-SECTION 37; THENCE DEPARTING THE NORTHWESTERLY LINE OF SAID LONDON WATERWAY SOUTH 51°24'11" EAST ALONG SAID RIGHT-

OF-WAY LINE FOR A DISTANCE OF 104.24 FEET TO THE SOUTHERLY LINE OF SAID LONDON WATERWAY; THENCE DEPARTING SAID RIGHT-OF-WAY LINE SOUTH 54'59'31" WEST ALONG SAID SOUTHERLY LINE OF LONDON WATERWAY FOR A DISTANCE OF 800.00 FEET TO THE INTERSECTION OF SAID NORTHEASTERLY LINE OF ASHWOOD WATERWAY; THENCE NORTH 35°00'29" WEST ALONG SAID ASHWOOD WATERWAY LINE FOR A DISTANCE OF 100.00 FEET TO THE AFOREMENTIONED POINT OF BEGINNING OF THIS DESCRIPTION.

Subject: Soil and Groundwater Sampling Report
Lakeview Estates - Tract 8 Property
Palm Coast, Flagler County, Florida
Parcel ID: 07-11-31-7037-0RP0A-0002

Dear Mr. Ustilovsky:

SCS Engineers (SCS) is submitting this Soil and Groundwater Sampling Report to Matanzas GC Palm Coast, LLC (Matanzas; the Client), for the planned Lakeview Estates Site Tract 8 (site). This report compiles investigatory information and data from assessment activities conducted in January 2022. A Site Location Map is provided as Figure 1.

SOIL AND GROUDNWATER SAMPLING REPORT

Field Activities

SCS performed field sampling activities in accordance with the Standard Operating Procedures provided within Chapter 62-160, Florida Administrative Code (FAC), as amended. Samples were submitted to a National Environmental Laboratory Accreditation Program certified laboratory, Pace Analytical Laboratories, Inc.

Soil Investigation

General

SCS mobilized to the site in January 2022 for the collection of soil samples. A total of four soil borings were installed by a direct push technology (DPT) drill rig across the Tract 8 site. Each boring was advanced to approximately 6 feet below ground surface (bgs), based on visual interpretation of depth to groundwater. Samples did not exhibit visible staining or obvious signs of contamination. A total of 12 soil samples were collected from the four soil borings. Soil samples were collected from the ground surface to 0.5′ bgs, 0.5-2′ bgs, and 2-4′ bgs. Each sample was uniquely labeled to track the location and vertical interval of sample collection. Soil samples from the top two intervals of each boring were analyzed for arsenic using EPA Method 6010. Additionally, one soil sample was analyzed for the full RCRA 8 metals, organochlorine pesticides, and chlorinated herbicides. Analytical results indicated that no constituent tested for was detected at

concentrations above their residential soil cleanup target levels (SCTLs) as set forth in Chapter 62-777, FAC.

Soil boring locations are presented on Figure 2. Soil boring logs are included in Attachment A. Copies of the soil laboratory analytical reports are presented in Attachment B. Soil analytical results are presented in Tables 1 through 3.

Groundwater Investigation

Temporary Monitoring Well Installation

On January 25, 2022, temporary monitoring well TMW-17 was installed by JAEE Environmental (JAEE), using a DPT drill rig to evaluate groundwater conditions at the site. The well was installed to approximately 16 feet bgs, constructed using 10 feet of "pre-pack" well screen with an appropriate length riser. Following installation, the well was developed to remove sediments from the screen interval. The location of monitoring well TMW-17 is presented on Figure 3. Monitoring well construction details are presented in Table 4. Monitoring well construction logs are presented in Attachment C.

Groundwater Sampling and Analysis

Groundwater samples were collected from monitoring well TMW-17 on August 30, 2022. Samples were submitted to the laboratory and analyzed for arsenic and organochlorine pesticides. Analytical results indicated that no constituents analyzed for were present at concentrations greater than their respective groundwater cleanup target levels (GCTLs), as set forth in Chapter 62-777, FAC. A summary of the groundwater sample results is presented in Tables 5 and 6. A copy of the laboratory analytical report, including the chain-of-custody form, is presented in Attachment D. Groundwater sampling and calibration logs are presented in Attachment E.

CONCLUSIONS

Soil and groundwater samples collected within Tract 8 were collected and analyzed for constituents commonly associated with former golf courses. Analytical results indicated that these constituents were not present in the samples collected at concentrations greater than regulatory limits in soil (residential SCTLs) and groundwater. Given that no commercial endeavors, development, or earth moving activities have been conducted and the site has been maintained in a similar fashion for this timeframe, it is unlikely that environmental conditions have changed at the site since testing occurred in 2022. Please contact the undersigned if you have any questions or require additional information.

Sincerely,

Maggie Horty

Notes:
mg/kg = milligram per kilogram
SCTL = Soil Cleanup Target Level
-- = Not sampled/Not applicable.
**Refer to the best achievable Practical Quantitation Limit (PQL) as referenced in FDEP's Guidance for the Selection of Analytical Methods
U = The compound was analyzed for but not detected above the laboratory method detection limit (MDL).
Bold indicates an exceedance of the applicable cleanup target level.
Cleanup Target Levels are specified in Chapter 62-777, FAC

Table 4: Monitoring Well Construction Details

Lakeview Estates Track 8

Flagler County, FL

Sample ID	Diameter (inches)	Screen Depth (ft.)		Total Depth (ft.)	DTW (ft) 2/2/2022
		Top	Bottom		
TMW-17	1.5	9	19	19	10.5

Notes

TOC = Top of casing. Elevations for TOC and screen in feet NAVD (North American Vertical Datum)

ft. = feet

ft. BG = feet below grade, approximate

DTW = Depth to water, in feet below TOC

WLE = Water level elevation, in feet NGVD

NM = Not Measured

Table 5: Groundwater Analytical Results - Inorganics

Lakeview Estates Track 8
Flagler County, FL

Sample ID	Date Collected	Turbidity	Arsenic
		(NTUs)	(µg/l)
Groundwater Cleanup Target Level			10
TMW-17	2/2/2022	1000	3.9 I
TMW-17-F		1000	2.1

Notes:
µg/l = micrograms per liter
mg/l = milligrams per liter
U = The compound was analyzed for but not detected above the laboratory method detection limit (MDL).
I = The reported value is between the laboratory MDL and the laboratory practical quantitation limit.
Bold indicates an exceedance of the applicable Groundwater Cleanup Target Level (GCTL).
GCTLs are specified in Table 1 of Chapter 62-777, F.A.C

Table 6: Groundwater Analytical Results - Pesticides
Lakeview Estates Track 8
Flagler County, FL

Sample ID	Date Collected	4,4'-DDD (µg/l)	4,4'-DDE (µg/l)	4,4'-DDT (µg/l)	Aldrin (µg/l)	Chlordane (µg/l)	Dieldrin (µg/l)	Endosulfan I (µg/l)	Endosulfan II (µg/l)	Endosulfan sulfate (µg/l)	Endrin (µg/l)	Endrin aldehyde (µg/l)	Endrin ketone (µg/l)	Heptachlor (µg/l)	Heptachlor epoxide (µg/l)	Methoxychlor (µg/l)	Toxaphene (µg/l)	alpha-BHC (µg/l)	beta-BHC (µg/l)	delta-BHC (µg/l)	gamma-BHC (Lindane) (µg/l)
Groundwater Cleanup Target Level		0.1	0.1	0.1	0.002	2	0.002	42	42	42	2	--	--	0.4	0.2	40	3	0.006	0.02	2.1	0.2
TMW-17	2/2/2022	0.0026 U, 1p, J(CU)	0.0048 U, 1p, J(CU)	0.0049 U, 1p	0.0039 U, 1p	0.24 U, 1p	0.0019 U, 1p, J(CU)	0.0049 U, 1p, J(CU)	0.0039 U, 1p	0.0060 U, 1p	0.0041 U, 1p, J(CU)	0.0035 U, 1p, J(CU)	0.0048 U, 1p	0.0060 U, 1p	0.015 U, 1p	0.0041 U, 1p	0.24 U, 1p, J(CU)	0.0020 U, 1p	0.019 U, 1p	0.0046 U, 1p	0.0021 U, 1p

Notes:
µg/l = micrograms per liter
-- = Not sampled/Not applicable.
C2 = Relative percent difference between results from each column was greater than 40%. The lower of the two results wasreported.
U = The compound was analyzed for but not detected above the laboratory method detection limit.
1p = A matrix spike/matrix spike duplicate was not performed for this batch due to insufficient sample volume.
P1 = Routine initial sample volume or weight was not used for extraction, resulting in elevated reporting limits.
J(CU) = The continuing calibration for this compound is above method acceptance limits. Analyte presence is not detected inassociated samples. Results unaffected by high bias.
GCTLs are specified in Table 1 of Chapter 62-777, F.A.C

February 28, 2022

Mr. Kirk A. Blevins
SCS Engineers - Jacksonville, FL
14785 Old St. Augustine Road
Suite 300
Jacksonville, FL 32258

RE: Project: Lakeview Estates-Revised Report
Pace Project No.: 35692487

Dear Mr. Blevins:

Enclosed are the analytical results for sample(s) received by the laboratory on January 25, 2022. The results relate only to the samples included in this report. Results reported herein conform to the applicable TNI/NELAC Standards and the laboratory's Quality Manual, where applicable, unless otherwise noted in the body of the report.

The test results provided in this final report were generated by each of the following laboratories within the Pace Network:

- Pace National - Mt. Juliet
- Pace Analytical Services - Ormond Beach

(Ormond Beach, FL) - Revision 1 - This report replaces the February 16, 2022 report. This project was revised on February 28, 2022 to update the sample IDs for 35692487058 and 35692487059, per client request. In addition, a case narrative was added noting the recorded cooler temperatures upon laboratory receipt.

If you have any questions concerning this report, please feel free to contact me.

Sincerely,

Todd Rea

PROJECT NARRATIVE

Project: Lakeview Estates-Revised Report
Pace Project No.: 35692487

Date: February 28, 2022

Samples requiring thermal preservation were received outside of recommended temperature limits of 0-6 degrees Celsius for samples collected on 01/24/2022.
Samples were received outside of the recommended temperature range of 0-6 degrees Celsius for samples collected 01/25/2022, however, the samples were received from the field on ice and the cooling process was noted to have begun upon laboratory receipt.

This report shall not be reproduced, except in full,
without the written consent of Pace Analytical Services, LLC.

ANALYTICAL RESULTS

Project: Lakeview Estates-Revised Report
Pace Project No.: 35692487

Sample: SB-69 (0-0.5) **Lab ID: 35692487001** Collected: 01/24/22 12:25 Received: 01/25/22 15:40 Matrix: Solid

Results reported on a "dry weight" basis and are adjusted for percent moisture, sample size and any dilutions.

Parameters	Results	Units	PQL	MDL	DF	Prepared	Analyzed	CAS No.	Qual
6010 MET ICP	Analytical Method: EPA 6010 Preparation Method: EPA 3050 Pace Analytical Services - Ormond Beach								
Arsenic	**2.2**	mg/kg	0.57	0.28	1	01/26/22 01:58	01/27/22 12:23	7440-38-2

QUALIFIERS

Project: Lakeview Estates-Revised Report
Pace Project No.: 35692487

DEFINITIONS

DF - Dilution Factor, if reported, represents the factor applied to the reported data due to dilution of the sample aliquot.

ND - Not Detected at or above adjusted reporting limit.

TNTC - Too Numerous To Count

MDL - Adjusted Method Detection Limit.

PQL - Practical Quantitation Limit.

RL - Reporting Limit - The lowest concentration value that meets project requirements for quantitative data with known precision and bias for a specific analyte in a specific matrix.

S - Surrogate

1,2-Diphenylhydrazine decomposes to and cannot be separated from Azobenzene using Method 8270. The result for each analyte is a combined concentration.

Consistent with EPA guidelines, unrounded data are displayed and have been used to calculate % recovery and RPD values.

LCS(D) - Laboratory Control Sample (Duplicate)

MS(D) - Matrix Spike (Duplicate)

DUP - Sample Duplicate

RPD - Relative Percent Difference

NC - Not Calculable.

SG - Silica Gel - Clean-Up

U - Indicates the compound was analyzed for, but not detected.

N-Nitrosodiphenylamine decomposes and cannot be separated from Diphenylamine using Method 8270. The result reported for each analyte is a combined concentration.

Reported results are not rounded until the final step prior to reporting. Therefore, calculated parameters that are typically reported as "Total" may vary slightly from the sum of the reported component parameters.

Pace Analytical is TNI accredited. Contact your Pace PM for the current list of accredited analytes.

TNI - The NELAC Institute.

ANALYTE QUALIFIERS

I	The reported value is between the laboratory method detection limit and the laboratory practical quantitation limit.
U	Compound was analyzed for but not detected.
J(D6)	Estimated Value. The relative percent difference (RPD) between the sample and sample duplicate exceeded laboratory control limits.
L	Off-scale high. Actual value is known to be greater than value given.
P9	RPD between the primary and confirmatory analysis exceeded 40%.
Q	Sample held beyond the accepted holding time. Sample was received outside EPA method holding time.

WELL CONSTRUCTION AND DEVELOPMENT LOG

WELL CONSTRUCTION DATA

Well Number:	Site Name:	FDEP Facility I.D. Number:	Well Install Date(s):
TMW-17	Lakeview estate	NA	25-Jan-2022

Well Location and Type (check appropriate boxes):
- [x] On-Site
- [ ] Right-of-Way
- [ ] Off-Site Private Property
- [x] Above Grade (AG)
- [ ] Flush-to-Grade

If AG, list feet of riser above land surface: 3

Well Purpose:
- [ ] Perched Monitoring
- [x] Shallow (Water-Table) Monitoring
- [ ] Intermediate or Deep Monitoring
- [ ] Remediation or Other (describe)

Well Install Method: Direct Push

Surface Casing Install Method: NA

Borehole Depth (feet):	Well Depth (feet):	Borehole Diameter (inches):	Manhole Diameter (inches):	Well Pad Size: NA
16	19	3.25	NA	____ feet by ____ feet

Riser Diameter and Material:	Riser/Screen Connections:	Riser Length:
1.5" Sch. 40 PVC	[x] Flush-Threaded [ ] Other (describe)	9 feet from +3 feet to -6 feet

Screen Diameter and Material:	Screen Slot Size:	Screen Length:
1.5" Sch. 40 Slotted PVC	0.01"	10 feet from -6 feet to -16 feet

1st Surface Casing Material:	1st Surface Casing I.D. (inches):	1st Surface Casing Length:
NA also check: [ ] Permanent [ ] Temporary	NA	NA feet from ____ feet to ____ feet

2nd Surface Casing Material:	2nd Surface Casing I.D. (inches):	2nd Surface Casing Length:
NA also check: [ ] Permanent [ ] Temporary	NA	NA feet from ____ feet to ____ feet

3rd Surface Casing Material:	3rd Surface Casing I.D. (inches):	3rd Surface Casing Length:
NA also check: [ ] Permanent [ ] Temporary	NA	NA feet from ____ feet to ____ feet

Filter Pack Material and Size:	Prepacked Filter Around Screen (check one):	Filter Pack Length:
20/30 Silica Sand	[x] Yes [ ] No	12 feet from -16 feet to -4.00 feet

Filter Pack Seal Material and Size:	Filter Pack Seal Length:
20/30	3 feet from -4.00 feet to -1.00 feet

Surface Seal Material:	Surface Seal Length:
Fine Grout	1 feet from -1.00 feet to 0.00 feet

WELL DEVELOPMENT DATA

Well Development Date:	Well Development Method (check one):
25-Jan-2022	[ ] Surge/Pum [x] Pump [ ] Compressed Air [ ] Other (describe)

Development Pump Type (check):	Depth to Groundwater (before developing in feet):
[x] Centrifugal [ ] Peristaltic [ ] Submersible [ ] Other (describe)	11 TD

Pumping Rate (gallons per minute):	Maximum Drawdown of Groundwater During Development (feet):	Well Purged Dry (check one):
0.84	1.6	[ ] Yes [x] No

Pumping Condition (check one):	Total Development Water Removed (gallons):	Development Duration (minutes):	Development Water Drummed (check one):
[x] Continuous [ ] Intermittent	38	45	[ ] Yes [x] No

Water Appearance (color and odor) At Start of Development:	Water Appearance (color and odor) At End of Development:
Brown no odor	Clear with No Odor

March 09, 2022

Mr. Kirk A. Blevins
SCS Engineers - Jacksonville, FL
14785 Old St. Augustine Road
Suite 300
Jacksonville, FL 32258

RE: Project: Lakeview Estates-Revised Report
Pace Project No.: 35694108

Dear Mr. Blevins:

Enclosed are the analytical results for sample(s) received by the laboratory on February 02, 2022. The results relate only to the samples included in this report. Results reported herein conform to the applicable TNI/NELAC Standards and the laboratory's Quality Manual, where applicable, unless otherwise noted in the body of the report.

The test results provided in this final report were generated by each of the following laboratories within the Pace Network:

- Pace Analytical Services - Ormond Beach

(Ormond Beach, FL) - Revision 1 - This report replaces the 2/16/22 report. This project was revised on 3/9/22 to correct scheduling errors which led to reporting errors on the original report.

If you have any questions concerning this report, please feel free to contact me.

Sincerely,

Todd Rea
todd.rea@pacelabs.com
(904) 903-7948
Project Manager

Pace Project No.: 35694108

QC Batch: 798590
QC Batch Method: EPA 3510
Analysis Method: FL-PRO
Analysis Description: FL-PRO Water Low Volume
Laboratory: Pace Analytical Services - Ormond Beach
Associated Lab Samples: 35694108003, 35694108004

METHOD BLANK: 4384440 Matrix: Water
Associated Lab Samples: 35694108003, 35694108004

Parameter	Units	Blank Result	Reporting Limit	MDL	Analyzed	Qualifiers
Petroleum Range Organics	mg/L	0.80 U	1.0	0.80	02/09/22 20:07	
N-Pentatriacontane (S)	%	77	42-159		02/09/22 20:07	
o-Terphenyl (S)	%	90	66-139		02/09/22 20:07	

LABORATORY CONTROL SAMPLE: 4384441

QUALIFIERS

Project: Lakeview Estates-Revised Report
Pace Project No.: 35694108

DEFINITIONS

DF - Dilution Factor, if reported, represents the factor applied to the reported data due to dilution of the sample aliquot.

ND - Not Detected at or above adjusted reporting limit.

TNTC - Too Numerous To Count

MDL - Adjusted Method Detection Limit.

PQL - Practical Quantitation Limit.

RL - Reporting Limit - The lowest concentration value that meets project requirements for quantitative data with known precision and bias for a specific analyte in a specific matrix.

S - Surrogate

1,2-Diphenylhydrazine decomposes to and cannot be separated from Azobenzene using Method 8270. The result for each analyte is a combined concentration.

Consistent with EPA guidelines, unrounded data are displayed and have been used to calculate % recovery and RPD values.

LCS(D) - Laboratory Control Sample (Duplicate)

MS(D) - Matrix Spike (Duplicate)

DUP - Sample Duplicate

RPD - Relative Percent Difference

NC - Not Calculable.

SG - Silica Gel - Clean-Up

U - Indicates the compound was analyzed for, but not detected.

N-Nitrosodiphenylamine decomposes and cannot be separated from Diphenylamine using Method 8270. The result reported for each analyte is a combined concentration.

Reported results are not rounded until the final step prior to reporting. Therefore, calculated parameters that are typically reported as "Total" may vary slightly from the sum of the reported component parameters.

Pace Analytical is TNI accredited. Contact your Pace PM for the current list of accredited analytes.

TNI - The NELAC Institute.

BATCH QUALIFIERS

Batch: 797423

[M5]	A matrix spike/matrix spike duplicate was not performed for this batch due to insufficient sample volume.

ANALYTE QUALIFIERS

I	The reported value is between the laboratory method detection limit and the laboratory practical quantitation limit.
U	Compound was analyzed for but not detected.
1p	A matrix spike/matrix spike duplicate was not performed for this batch due to insufficient sample volume.
C2	Relative percent difference between results from each column was greater than 40%. The lower of the two results was reported.
D3	Sample was diluted due to the presence of high levels of non-target analytes or other matrix interference.
J(CH)	Estimated value. The continuing calibration for this compound is outside of method acceptance limits. The results may be biased high.
J(CU)	The continuing calibration for this compound is above method acceptance limits. Analyte presence is not detected in associated samples. Results unaffected by high bias.
J(IS)	Estimated Value. The internal standard recovery associated with this result exceeds the lower control limit. The reported result should be considered an estimated value.
J(S5)	Estimated Value. Surrogate recovery outside control limits due to matrix interferences (not confirmed by re-analysis).
MS	Analyte recovery in the matrix spike was outside QC limits for one or more of the constituent analytes used in the calculated result.
P1	Routine initial sample volume or weight was not used for extraction, resulting in elevated reporting limits.

This report shall not be reproduced, except in full,
without the written consent of Pace Analytical Services, LLC.

Palm Coast, FL 32164

LAKEVIEW ESTATES
FIRST AMENDMENT TO THE
MASTER PLANNED DEVELOPMENT AGREEMENT

THIS, FIRST AMENDMENT TO THE MASTER PLANNED DEVELOPMENT AGREEMENT, (hereinafter referred to as the "Amendment") is made and executed this _____ day of _____, 2026, by and between the **CITY OF PALM COAST,** a Florida municipal corporation (herein referred to as the "City"), whose address is 160 Lake Avenue, Palm Coast, Florida 32164 and **MATANZAS GC PALM COAST, LLC,** a Florida limited liability company (herein referred to from time-to-time as the "Owner" regardless of whether singular or plural ownership status) whose address is 200 Ocean Crest Drive, Unit 1111, Palm Coast, Florida 32137.

RECITALS

1. On or about January 19, 2021, the City approved the Lakeview Estates Master Planned Development Agreement (the "MPD").
2. Pursuant to the citizen survey dated June 19 and 20, 2021, City desires to own, permit and develop a park for the residents of Palm Coast.
3. The Owner desires to convey to the City sufficient lands for purpose of a park and amend the PUD to allow for areas of the property to be developed consistent with the present densities and intensities.

4. The City and Owner enter into this Amendment to the MPD to achieve their respective goals and objectives.
5. The City of Palm Coast City Council ("City Council") has considered the evidence and testimony presented by the applicant and other interested parties, the recommendations of City staff, and the recommendation of the PLDRB, which voted six to zero to recommend denial at their regularly scheduled meeting conducted on May 20, 2026; and
6. The City Council held duly noticed public hearings on the proposed zoning change set forth hereunder and considered findings and advice of staff, citizens, and all interested parties submitting written and oral comments and supporting data and analysis, and after complete deliberation, hereby finds the requested change consistent with the City of Palm Coast Comprehensive Plan and that sufficient, competent, and substantial evidence supports the zoning change set forth hereunder; and
7. The City Council hereby finds that this Ordinance serves a legitimate government purpose and is in the best interests of the public health, safety, and welfare of the citizens of Palm Coast, Florida.

NOW THEREFORE, it is resolved and agreed by and between the City and the Owner that the Owner's application for an Amendment to the MPD is approved, and the parties agree to the following:

FINDINGS OF FACT:

(a) The aforementioned recitals are taken as true, incorporated herein by reference and made a material part of this Amendment.

(b) This Amendment is consistent with (1) the State's Comprehensive Plan as set forth in Chapter 187, Florida Statutes and (2) the City's Comprehensive Plan.

(c) The public hearing to consider this Amendment was properly noticed and held by the City Council pursuant Florida State law and the City's Land Development Code.

CITY COMMUNITY PARK:

At no cost to the City and not subject to City Park Impact Free Credits, the Owner shall convey to the City approximately fifteen (15) acres on a tract of land (the "City Park Site") as generally

depicted on Amended Conceptual Site Plan (**Ex. "A"**) which replaces the Conceptual Site Plan in the MPD. Said conveyance shall take place within one hundred twenty (120) days of execution of this Amendment. The conveyances of lands pursuant to the Amendment shall be free from all encumbrances except easements, reservations, and restrictions acceptable to each other, together with all appurtenances pertaining to the conveyance. Owner will prepay taxes for the year of closing pursuant to Fla. Stat. 196.295. and all special assessments which may have been levied or certified prior to closing on the City Park Site. Sixty (60) days before Closing, the Owner will cause the title company of its choice to issue and deliver to City ALTA title commitments to issue a policy in the amount of the assessed value of the City Park Site, accompanied by one copy of each document supporting any exceptions to the title commitment. The Owner will execute a standard form owner's affidavit and such other affidavits as may be reasonably required by the City, the Title Company, or the Closing Agent. The Owner will also execute an Affidavit of interest in Real Property pursuant to Fla. Stat. 286.23. The Owner will execute affidavits declaring that the City Park Site does not currently contain any Hazardous Substances in violation of any applicable environmental laws or regulations, including but not limited to Section 103 of the Comprehensive Environmental Response, Compensation and Liability Act. 42 U.S.C. Section 9601 et seq. any "super lien" laws, any super fund laws, or similar federal or state laws, or any successor statutes ("Environmental Laws"), nor to Owner's knowledge has any clean-up of their properties occurred pursuant to the Environmental Laws which could give rise to liability to reimburse any governmental authority for the costs of such clean-up or result in a lien or encumbrance. Moreover, prior to conveyance, the Owner shall demonstrate that Tract 8 arsenic levels are under the limit for human occupation as regulated by Federal, State and local law including, but not limited to, the Florida Department of Environmental Protection ("FDEP").

SECTION 4 PROJECT DESCRIPTION.

Section 4 "Project Description" of the MPD Development Agreement shall be deleted in its entirety and replaced with the following:

The Subject Property has three (3) Comprehensive Plan FLUM designations, Greenbelt on approximately 260 +/- acres, Mixed Use (20 +/-acres) and Conservation on approximately .19 +/- acres. The current MPD zoning on the property will be maintained and this Development Agreement shall govern all development on the Subject Property as defined herein. Consistent with the Comprehensive Plan and the Greenbelt FLUM, residential units may be developed at one unit per acre. The project proposes 20 +/- acres of Mixed Use FLUM for commercial uses within the Tract 9. As a result, 260 residential units are permitted to be clustered within the remaining 260.0 +/- acres of Greenbelt FLUM at the Owner's discretion. To date, 221 residential units have been permitted, leaving the remaining residential unit balance at 39. The Owner may develop a residential and commercial development as depicted on the Lakeview Estates Conceptual Master Plan, attached hereto as **Exhibit "B"** and as further defined herein ("Project"). **Exhibit "B-1"** through **Exhibit "B-8"** further define the project and illustrate allowable uses within each Tract. The uses on each Tract (shall be as follows which are consistent with the Conceptual Site Plan:

TRACT	USE	LDC Designation to be used for Development Standards purposes only
1	Uses on this tract will be single-family residential homes along with View Protection Zones (VPZ), wetland preservation, stormwater pond creation, and community amenities including exterior storage of boats and RVs exclusively for residents residing in the community that will be totally screened from view from off-site properties, Lakeview Boulevard and London Drive.	SFR-1

2	Uses on this tract primarily consist of View Protection Zones, wetlands, natural buffers, and stormwater ponds. In addition, the property is limited to single family residential dwellings, view protection zones, natural buffers, and stormwater ponds.	SFR-2 and P&G
3	Uses on this tract primarily consist of single-family residential homes, View Protection Zones as further discussed below, wetlands, natural buffers, and stormwater ponds.	SFR-2 or P&G
4	Uses on this tract primarily consist of View Protection Zones/conservation, stormwater and wetlands. The property is limited to single family residential dwellings.	SFR-2 and P&G
5	This Tract is designated as a View Protection Zone/conservation.	P&G
6	Uses on this tract primarily consist of View Protection Zones, wetlands, natural buffers, and stormwater ponds.	P&G
7	Uses on this tract primarily consist of View Protection Zone, wetlands, natural buffers, stormwater retention, an existing pond, and single-family residential dwellings.	SFR-2 and P&G
8	Use of this Tract is limited to a City Park, View Protection Zones, and existing pond. FLUM areas designated Conservation shall be field verified prior to development and the boundaries between the Greenbelt and Conservation areas shall be modified accordingly on the FLUM.	P&G
9	Use of this Tract will be limited to 250,000 sq. ft. commercial uses meeting the COM-2 zoning standards as further provided in Ex. “C”. The maximum building height shall be 35 feet and there shall be a minimum View Protection Zone of 100 feet in width along its eastern property line where it abuts the rear of all existing platted residential lots. All remaining areas include View Protection Zones, new and existing ponds, and natural buffers. This Tract shall also provide Emergency access to US Highway 1 from London Drive.	COM-2 & P&G
10	Use of this Tract is limited to single family residential units with View Protection Zones.	SFR-2

1. TRACT 1: Tract 1 shall be permitted to develop into a single family detached residential community consistent with the City's SFR-1 and SFR-2 zoning district standards and as depicted on the Conceptual Plan. This community will contain its own private amenities which may include a club house, pools, activities room, exercise trails and self-storage of boats and recreational vehicles limited to residents use only. It shall have two (2) entrances onto Lakeview Drive. Stormwater ponds will be developed on site to contain all runoff as required by Federal, State and City rules. In the areas that abut existing residential platted lots, a View Protection Zone ("VPZ") will be required (See Section 10.7). Prior to application for Subdivision Master Plan or Site Plan Approval, an applicant shall ensure that the VPZ is designed in such a fashion that it maintains the Lot Owners' view of the Subject Property consistent with the City's Land Development Code (LDC). Also prior to the above-mentioned application, an applicant shall demonstrate that Tract 1 is or shall be free from environmental hazards and safe for human occupation as regulated by Federal, State and local law including, but not limited to, the Florida Department of Environmental Protection ("FDEP"). The existing golf course maintenance building may be utilized during construction of the residential community on Tract 1 but shall be removed prior to completion of the infrastructure for the residential community.

2. TRACT 2: Tract 2 shall be maintained as a VPZ except for the area depicted on **Exhibit "B-2"** Tract Plan for single family residential lots. The single family residential area shall be developed consistent with the SFR-2 zoning district standards as provided herein. As a condition of approval of these lots, a VPZ shall be provided to specifically address the adjacent existing single-family platted lots. Stormwater retention is allowed.

3. TRACT 3: Tract 3 may be developed with SFR-2, P&G, natural buffers, and stormwater retention uses, subject to maintaining a minimum fifty (50) foot VPZ. Moreover,

development of Tract 3 shall be limited to include two (2) access points and shared driveway to Lakeview Blvd. The VPZ shall (i) be a minimum of fifty feet (50') in width, (ii) minimize the impact to the existing tree canopy adjacent to the existing residential properties, and (iii) use enhanced screening adding additional planting, to include use of canopy trees, understory trees, and shrubbery, to shield the view of adjacent residential properties. The enhanced screening shall be to the satisfaction of the Land Use Administrator or their designee. At no time shall development of Tract 3 permit the clearing of the VPZ.

4. TRACT 4: Tract 4 shall be mostly preserved as a natural area through the use of VPZs and Conservation Easements over existing wetlands. The on-site wetlands are intended to be preserved and, if impacted, avoidance and minimization techniques will be required pursuant to Federal, State and local law. Consistent with **Exhibit "B-4"** Tract Plan, some single-family residential lots may be developed consistent with SFR-2 zoning designation standards, however they will be required to provide a fifty (50) foot VPZ if behind existing platted residential lots.

5. TRACT 5: Tract 5 shall be a VPZ. No development shall be permitted on Tract 5.

6. TRACT 6: Tract 6 shall be a VPZ and stormwater.

7. TRACT 7: Tract 7 shall be maintained as a fifty (50) foot VPZ except for the areas depicted on **Exhibit "B-6"** Tract Plan for single family residential lots, or stormwater retention. The single family residential areas shall be developed consistent with the SFR-2 zoning district and shall provide a VPZ behind existing platted residential lots. The VPZ shall use enhanced screening adding additional planting, to include use of canopy trees, understory trees,

and shrubbery, to shield the view of adjacent residential properties. The enhanced screening shall be to the satisfaction of the Land Use Administrator or their designee.

8. TRACT 8: Tract 8 shall be permitted to be developed consistent with the City Park site described on Page 3, the development standard for the LDC zoning classification of P&G. No development on this tract shall exceed thirty-five (35) feet in height. All development on Tract 8 shall be set back a minimum of 100 feet from any existing single-family platted lot. The existing pond shall be preserved for the benefit of adjacent property owners.

9. TRACT 9: The easterly 150 feet of Tract 9 that is located behind existing residential platted lots located along the westerly side of London Drive shall be maintained as a VPZ to ensure protection of adjacent residents' existing views and natural areas. This VPZ shall use enhanced screening adding additional planting, to include use of canopy trees, understory trees, and shrubbery, to shield the view of adjacent residential properties. The enhanced screening shall be to the satisfaction of the Land Use Administrator or their designee. Stormwater areas are also permitted on Tract 9. Commercial uses consistent with the COM-2 zoning designation (See, Ex. "C") shall be limited to a maximum of 250,000 gross square feet of development over the tract. All structures and buildings shall have a height limit of 35 feet. Special Exceptions for mini-warehouses, office warehouses, or self-storage shall not be authorized. Prior to making any application for development, the Owner shall prepare a conceptual site plan and hold a neighborhood meeting consistent with the requirements of the LDC. Any development application for Tract 9 shall require final action by the PLDRB. Development on this tract shall make every intent to meet the requirements of the MPD and Land Development Code; however, a waiver may be requested to (i) grant a decrease in the US#1 Highway landscape buffers and/or (ii) approve a reduction in parking space requirements with the intent to enhance the VPZ for the Tract. Any

waivers granted to landscaping buffers adjacent to US#1 Highway shall follow the LDC requirements for alternative landscape betterment plans. Any waivers to the minimum parking requirements shall require a parking flexibility study to demonstrate the parking need for the use based on the Institute of Traffic Engineers' Parking Manual or follow the LDC requirements for parking flexibility. A stabilized emergency access from London Drive shall be provided through the tract to US Highway 1.

10. TRACT 10: Tract 10 shall be permitted to develop single family detached residential units consistent with the LDC SFR-2 zoning district standards. Additionally, a VPZ is required to be provided as shown on the **Exhibit "B-8"** Tract Plan.

11. All commons areas, VPZ, stormwater ponds and natural areas shall be maintained by a POA or third party determined acceptable to the City.

12. All lots greater than 10,000 square feet shall have the right to construct RV garages so long as such are ancillary to a residential dwelling unit and consistent with the LDC. Lot sizes that are at least 10,000 square feet in size shall be capable of accommodating RV garages. RV garage types are detached RV garages, regular garages with an attached bay, or garages that are part of the house's main structure. Garages that are detached from the principal structure shall be designed and constructed so that the roof and exterior walls of the garage are of similar architecture, materials, and colors as the exterior of the principal structure. All garage types may exceed the height of the first story of the principal dwelling unit. RV garages may exceed the 30 foot depth and 500 square foot limitation in the LDC, but shall be limited to not be larger than 50 percent of the living area of the principal dwelling unit.

13. Prior to filing any application for development of Tract 3 or Tract 9, the Owner shall convey the Undeveloped Property pursuant to a mutually agreeable purchase and sale agreement approved by the LUA.

14. Existing vegetative screening in all View Protection Zones (VPZ) shall be maintained in perpetuity with no land clearing activities, except for those deemed necessary by the City for emergency services. Any other clearing activities within the VPZ is prohibited. In the event of any non-exempted clearing activities occurs, the property owner shall be required to replant the VPZ with a like for like replacement based on the diameter inches of trees cleared, with minimum replanting of trees of at least six (6) inches in diameter at breast height (dbh). The Land Use Administrator shall have approval of replacement species and spacing. Any tree replacement within a VPZ shall be made using native drought tolerant species. Further, tree removal or land clearing activities within the VPZ that are not exempted per this subsection shall be subject Code Enforcement action as prescribed in the City's Code of Ordinances, including administrative fines and liens as outlined in Section 2-211 of the Code of Ordinances, with fines accruing at a rate of $1,000 per day for first violation, and $5,000 per day for subsequent violations, until such violations are resolved.

GENERAL CONDITIONS OF THIS AMENDMENT:

(a) Except as provided herein, all other terms of the MPD DA shall remain in full force and effect. The provisions of this Amendment shall bind and inure to the benefits of the parties hereto, their heirs, executors, administrators, successors and assigns.

(b) In the event of a conflict between the terms of this Amendment and the MPD DA, the terms of this Amendment shall govern.

(c) The Owner hereby represents to the City that all required joinders and consents have been obtained and set forth in properly executed form on this Amendment. Unless otherwise agreed to by the City, all liens mortgages and encumbrances not satisfied or released of record must be subordinated to the terms of this Amendment. It is the responsibility of the Owner to ensure that said subordination occur in a form and substance acceptable to the City Attorney prior to the City's execution of this Amendment.

IN WITNESS, WHEREOF, the City of Palm Coast and the Owners have caused this Amendment to be duly executed by its duly authorized representative(s) as the date first above written.
